FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

How To Cite This Publication: Use the volume number and the page number. Example: 51 FR 12345.

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 2 1/2 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

DALLAS, TX

WHEN: April 23; at 1:30 pm.

WHERE: Room 7A23,
Earl Cabell Federal Building,
1100 Commerce Street, Dallas, TX.

RESERVATIONS: local numbers:
Dallas 214-767-8585

Title 3—

The President

Proclamation 5461 of April 17, 1986

National Mathematics Awareness Week, 1986

By the President of the United States of America

A Proclamation

Since the time of its beginnings in Egypt and Mesopotamia some 5,000 years ago, progress in mathematical understanding has been a key ingredient of progress in science, commerce, and the arts. We have made astounding strides since from the theorems of Pythagoras to the set theory of Georg Cantor. In the era of the computer, more than ever before, mathematical knowledge and reasoning are essential to our increasingly technological world.

Despite the increasing importance of mathematics to the progress of our economy and society, enrollment in mathematics programs has been declining at all levels of the American educational system. Yet the application of mathematics is indispensable in such diverse fields as medicine, computer sciences, space exploration, the skilled trades, business, defense, and government. To help encourage the study and utilization of mathematics, it is appropriate that all Americans be reminded of the importance of this basic branch of science to our daily lives.

The Congress, by Senate Joint Resolution 261, has designated the week of April 14 through April 20, 1986, as "National Mathematics Awareness Week" and authorized and requested the President to issue a proclamation in observance of this event.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the week of April 14 through April 20, 1986, as National Mathematics Awareness Week, and I urge all Americans to participate in appropriate ceremonies and activities that demonstrate the importance of mathematics and mathematical education to the United States.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of April, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 51, No. 76
Monday, April 21, 1986

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

7 CFR Parts 1809, 1903, 1910, 1924, 1941, 1943, 1944, 1945, 1951, 1955, 1962 and 1965

Implementation of Additional Provisions of the Food Security Act of 1985, Emergency Loans, Farm Operating Loans, etc.

AGENCY: Farmers Home Administration, USDA.

ACTION: Interim rule with request for comments.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations to: (1) Provide for insured loans to joint operations, (2) provide for the use of proceeds from income from mineral rights for loan payments and require mineral rights be appraised when taken for security, (3) provide for record keeping training for farm borrowers with emphasis on limited resource borrowers, (4) provide assurance that a portion of loan funds be made available for discretionary use by the borrower and release of proceeds of normal income security for family living and farm operating expenses, (5) provide for restricting Emergency (EM) loans to family farms and restrict the making of EM loans when Federal Crop Insurance is available, (6) provide for timely approval and closing of farmer program loans, (7) provide for loans to entities of larger than family farms provided each individual interest does not exceed a family farm and all the members are related blood or marriage. Provide for specific requirements for its handling and leasing of inventory farm property. These amendments are necessary to implement the applicable provisions of the "Food Security Act of 1985" (Pub. L. 99–198). The major effects will be to ensure that the agency provides prompt service to applicants and borrowers, reduce the need and size of the emergency loan program, assist borrowers with their family living and farm operating expenses, expand the size of operation an entity may have when the members are related by blood or marriage.

DATE: Interim rule effective April 21, 1986. Comments must be submitted on or before May 21, 1986.

ADDRESSES: Submit written comments, in duplicate, to the Office of the Chief, Directives Management Branch, Farmers Home Administration USDA, Room 6348, South Agriculture Building, 14th and Independence Avenue, SW., Washington, DC 20250. All written comments will be available for public inspection during regular working hours at the above address.

FOR FURTHER INFORMATION CONTACT: William Krause, Director, Emergency Loan Division, Farmers Home Administration, USDA, Room 5420, Washington, DC 20250, Telephone: (202) 382–1632.

SUPPLEMENTARY INFORMATION:

Classification

This action has been reviewed under USDA procedures established in Departmental Regulation 1512–1, which implements Executive Order 12291, and has been determined to be nonmajor, because there will not be an annual effect on the economy of $100 million or more; a major increase in cost or prices for consumers, individual industries, Federal, State, or local government agencies or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Intergovernmental Consultation

1. For the reasons set forth in the final rule related to Notice 7 CFR 3015, Subpart V (48 FR 29115, June 24, 1983) and FmHA Instruction 1940–J, "Intergovernmental Review of Farmers Home Administration Programs and Activities" (December 23, 1983), Emergency Loans, Farm Operating Loans, Farm Ownership Loans and Low Income Housing Loans are excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

2. The Soil and Water Loans Program is subject to the provisions of Executive Order 12372 and FmHA Instruction 1940–J.

Programs Affected

These changes affect the following FmHA programs as listed in the Catalog of Federal Domestic Assistance:

10.404—Emergency Loans
10.406—Farm Operating Loans
10.407—Farm Ownership Loans
10.410—Low Income Housing Loans (Section 502 Rural Housing Loans)
10.416—Soil and Water Loans

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, "Environmental Program." It is the determination of FmHA that the proposed action does not constitute a major Federal action significantly affecting the quality of the human environment, and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an Environmental Impact Statement is not required.

Discussion of Interim Rule

FmHA is implementing this interim rule immediately with a 30 day comment period. It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. The "Food Security Act of 1985" (Pub. L. 99–198) amended FmHA's statutory loan making authorities, and these amendments must be implemented as soon as possible to provide immediate assistance to financially stressed farmers. Field offices are already receiving requests for those provisions that were effective upon enactment of the law. The Agency must provide immediate guidance by revising the regulations. It is urgent that these regulations become effective on publication so that Farmers can plan for spring planting. It is necessary to implement these regulations for those farmers that have suffered severe losses due to bad weather and other natural disasters. The Act requires changes in

VOL 51 ISS 76 AP 21 1986 UMI

the emergency loan regulations related to the size of the farming operation. Certain applications for these loans are being held in abeyance until the regulations are issued. Any delay could make these farmers late with their spring planting. Other farmers have lost or are losing their farms and need the new regulations immediately to be able to lease back their farms for this year's season. Immediate implementation of these regulations will enhance existing regulations in assisting farmers to continue farming and assist in protecting the nation's food supply. It is the government's social responsibility to provide immediate assistance to farmers as provided in the Act. Other changes in the regulations are administrative management changes and some changes are due to court-imposed requirements. The court-imposed requirements must be implemented immediately to avoid being in contempt of the court order.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this interim rule action are impractical, and good cause is found for making this interim rule effective less than 30 days after publication in the **Federal Register.**

Background

The loan making, supervision, and servicing of FmHA farm borrowers is governed mainly by the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1921 et seq.). The major purpose for revising the FmHA regulations at this time is to implement various sections of the Food Security Act of 1985 (Pub. L. 99–198) as it applies to certain farmer program loans. The sections are as follows:

Section 1301—Joint operations.
Section 1303—Family Farm Restriction (Blood and Marriage).
Section 1305—Mineral rights as collateral.
Section 1306—Farm Recordkeeping Training for borrowers.
Section 1307—Non-supervised Accounts.
Section 1308—Eligibility for EM loans.
Section 1310—Oil and Gas Royalties.
Section 1312—Prompt Approval of loans.
Section 1314—Disposition and leasing of farm land.
Section 1315—Release of Normal Income Security.
Section 1325—Prohibiting Coordinated Financial Statement.

Due to the urgent need of the farmers for credit for spring-planting, FmHA has expedited the implementation of these changes.

Background—Recreation Loans

This is a minor program. Since 1969 only 460 insured loans and three guaranteed loans for a total of $20,527,880 were made. As of October 21, 1985, on 210 loans for a total of $13,325,000 remain outstanding. The program has not been funded since Fiscal Year 1981. Indications are that it will not receive funding in the foreseeable future. Therefore, the Agency is not amending the recreation loan regulations due to the expense.

Highlights

The Farmers Home Administration amends its farmer program insured loan making and servicing regulations to implement changes required by the "Food Security Act of 1985" and where applicable certain other program regulations to update certain references and forms, to correct certain inconsistencies, to delete obsolete material, and to clarify the wording in a few paragraphs in various regulations. Such changes are mainly for administrative purposes and are published at this time for convenience. The major changes are as follows:

1. Amend FmHA farmer program insured loan making and servicing regulations to provide for loans to joint operations as required by section 1301 of Pub. L. 99–198. The changes provide for an FmHA definition of a joint operation and deal with applicants/borrowers that farm as joint operations the same as other types of farming entities such as partnerships, corporations and cooperatives.

2. Amend FmHA farmer program insured loan making and servicing regulations to provide for loans to farm entities that are larger than a family farm when all of the members are related by blood or marriage, all the members operate the farm, and none of the individual member's interest exceed that of a family farm. The change also provides for an FmHA definition of related by blood or marriage. This change is required by section 1303 of Pub. L. 99–198.

3. Amend FmHA farmer program insured loan making, servicing and farm appraisal regulations to require that mineral rights must be included in the appraisal when mineral rights are taken for FmHA security for loans. The change also provides that regular payments may be made on FmHA loans from the proceeds from oil and gas royalties. These changes are required by sections 1305 and 1310 of Pub. L. 99–198. It is also necessary to amend the farm appraisal regulations to add a provision for a method for determining the value of mineral rights. The amendment will allow the FmHA State Director to contract for appraisals and appraisal training in accordance with the agency's contracting regulations. Several references and other changes are made to clarify and conform to other regulations which includes updating material for the Code of Federal Regulations.

4. Amend FmHA operating loan regulations to add a provision for providing loan funds to borrowers for farm recordkeeping training with emphasis on this training for limited resource loan borrowers. This provision is required by section 1306 of Pub. L. 99–198.

5. Amend FmHA farmer program insured loan making regulations to allow $5,000 or 10 percent of the loan whichever is less, to be released to the borrower for use at the borrower's discretion for purposes agreed upon in the farm operating plan. This change is required by section 1307 of Pub. L. 99–198.

6. Amend FmHA farmer program insured servicing regulations to require the release of FmHA chattel security for essential family living and/or farm operating expenses. A feasible plan of operation is not necessary for such releases if the only reason for developing the plan is for the use in determining the need for the release. This is provided for in section 1315 of Pub. L. 99–198.

7. Amend FmHA farmer program insured loan making regulations to require prompt approval of loans. Completed applications must be approved or disapproved within 60 days as required by section 1312 of Pub. L. 99–198.

8. Amend FmHA emergency (EM) loan insured regulations to repeal the authority to make EM loans to applicants for larger than family farm operations, repeal the authority to make EM annual production loans, repeal the authority to make EM loans to applicants able to obtain credit elsewhere, prohibit EM loans to applicants when Federal crop insurance is available, and to restrict the availability of EM Subtitle A funds to owner-operators. These changes are provided for in section 1308 of Pub. L. 99–198.

9. Amend FmHA insured servicing regulation to:

(1) Provide for assistance with the Agriculture Stabilization and Conservation Service (ASCS) for maintaining allotments, marketing quotas or acreage bases assigned to inventory property; (2) provide that the State Director consider subdividing surplus inventory property into family farms for resale to eligible applicants, (3) provide that the Soil Conservation Service (SCS) be requested to identify highly erodible land on inventory property and SCS recommend specific conservation practices for such land, and such practices be made a requirement of the lease or sale; (4) provide for the opportunity to small business to bid for management contracts for inventory property; (5) provide for leasing back and purchase to previous owner of farm inventory property at the capitalization value of the property and provide that the approval of a sale must not have a detrimental effect on the value of farms in the area; (6) provide for requirements for public notice of the availability of inventory property for lease; (7) provide the requirements for the County Committee to certify the eligibility of applicants for a credit sale of inventory property and select the applicant for the sale if more than one applicant is eligible; (8) provide for the authority to grant or sell easements, or the equivalent for conservation purposes and the authority to sell development rights for their market value; (9) remove references to the "Coordinated Financial Statement." These changes are provided for in section 1314 and section 1325 of Pub. L. 99–198.

10. In addition to the above amendments FmHA is amending the EM regulations as follows:

Several revisions to Subpart D of Part 1945 are not required by the Food Security Act of 1985 but are necessary to delete provisions no longer authorized by law, to provide continuity with other FmHA loan program regulations and to clarify provisions identified as misleading or inconsistent by FmHA Coordinated Assessment Reviews or Office of Inspector General (OIG) audits. This action is therefore necessary to strengthen FmHA's internal controls to minimize losses to the Government and to eliminate confusion regarding the types of FmHA emergency loans available.

It is urgent that FmHA have current regulations in place prior to the spring planting season to assist those farmers affected by late fall and winter disasters. The following sections of Subpart D of Part 1945 contain revisions or deletions in addition to those required by the Food Security Act of 1985.

Section 1945.154—Contains changes and clarifications to several definitions.
Section 1945.161—Deletes references to EM major adjustment loans. The authority to make these loans was repealed by Pub. L. 96–438. Minor clarifications are also included.
Section 1945.162—Deletes obsolete references to application deadlines for major adjustment and annual production loans that are no longer authorized by law.
Section 1945.163—Contains several clarifications regarding the calculation of losses. These changes are necessary as a result of OIG audit findings and FmHA field reviews, and changes in the law regarding Agricultural Stabilization and Conservation Service (ASCS) established yield definitions.
Section 1945.166—Contains several clarifications on the use of EM loan funds and also deletes references to EM major ajustment loans.
Section 1945.168—Contains clarifications on the rates and terms for EM loans. OIG audits have cited cases where loans were scheduled for longer periods of time than necessary and these changes are necessary to address those findings.
Section 1945.169—The security requirements for FmHA loans have been partially revised to remove obsolete references and to clarify provisions that were poorly worded and subject to different interpretations by the field offices. Changes are needed to clarify this section and to protect the interest of the Government.
Section 1945.175—Is revised to provide additional guidance for FmHA appraisal methods for EM loans. Guidelines for FmHA EM chattel appraisals have been temporarily implemented through the use of Agency Administrative Notices (AN), and it is necessary to incorporate these guidelines into the regulations.
Section 1945.183—Provides guidelines for avoiding duplication of benefits with the Small Business Administration (SBA). These changes are necessary due to previous amendments to the Small Business Act.

11. Additional changes in the regulations for Subpart B of Part 1924 and Subpart A of Part 1962 of this chapter are included for compliance with the court order filed March 3, 1986 in the United States District Court of North Dakota. These changes provide for giving the borrower the opportunity to appeal when the borrower and County Supervisor disagree on the release of sale proceeds from FmHA chattel security and to clarify the requirements for such releases.

List of Subjects

7 CFR Part 1809

Loan programs—Agriculture, Real property—Appraisals, Rural areas.

Accordingly, Chapter XVIII, Title 7, Code of Federal Regulations is amended as follows:

PART 1809—APPRAISALS

1. The authority citation for Part 1809 is revised to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

VOL 51 ISS 76 AP 21 1986 UMI

Subpart A—Appraisal of Farm and Leasehold Interests

2. Section 1809.1 is amended by revising the introductory paragraph and by revising paragraphs (b) and (c) to read as follows:

§ 1809.1 General.

This subpart prescribes the policies and procedures for appraisal of farms securing Farm Ownership (FO) loans, Operating (OL) loans, Soil and Water (SW) loans to individuals, Recreation (RL) loans, Land Conservation and Development (LCD) loans, Labor Housing (LH), And Rural Housing (RH) loans other than nonfarm tracts or small farms. All farms, except small farms appraised for RH loans, will be appraised for their market value under this subpart.

* * * * *

(b) *Appraisal reports.* Form FmHA 422–1, "Appraisal Report (Farm Tract)," Form FmHA 423–3, "Map of Property," and Form FmHA 1922–11, "Appraisal for Mineral Rights," will be used in recording appraisals except as modified by Subpart A of Part 1941, Subparts, A, B, and C of Part 1943 and Subpart D of Part 1945 for loans of $10,000 or less. The forms will be prepared in accordance with Exhibits A, B and G of this subpart (available in any FmHA office). When applicable, Form FHA 422–2, "Supplement Report (Irrigation, Drainage, Levee, and Minerals)," will be prepared in conjunction with an appraisal. In no case will Form FmHA 1922–8, "Residential Appraisal Report," be used to appraise a farm under this subpart.

(c) *Administrative responsibility.* The State Director will authorize qualified county employees to make appraisals under this subpart. Employees must be given intensive appraisal training to establish an acceptable level of competence before they are granted authorization to make appraisals. Job descriptions for these employees will include appraisal duties. Exceptions to this policy must have prior approval of the Administrator. The State Director will designate qualified members of the State Office staff only to provide appraisal training. State Directors are authorized to contract for appraisals and appraisal training in the manner prescribed by FmHA Instruction 2024–A (available in any FmHA office).

* * * * *

3. Section 1809.2 is revised to read as follows:

§ 1809.2 Definitions of values.

There are different kinds of values used in farm appraisals which may be considered in arriving at the Recommended Market Value for farm properties.

(a) *Agricultural value.* The agricultural value of a farm is the amount a typical purchaser would, under usual conditions, be willing to pay and be justified in paying for the farm, as improved, for customary agricultural uses, including farm-home advantages, with the expectation of receiving typical net earnings from the farm. This value is based upon agricultural assets only and assumes an informed typical purchaser.

(1) The amount the purchaser would be justified in paying for a farm for farming purposes depends in a large measure on the earning ability of the farm. In determining the ability of a farm, the appraiser will assume that:

(i) The farm will be operated by a typical operator for the area.

(ii) The cropping system used is typical for the farm under consideration and will maintain the anticipated productivity. In determining the proper cropping system, the appraiser will take into account acreage allotments for the basic crops.

(iii) Crop yields used for the farm under consideration are representative of yields generally being obtained in the area.

(iv) Approved commodity prices and farm expenses are employed in estimating net income.

(v) The property will be improved as shown in Form FHA 424–1, "Development Plan."

(vi) The share of farm operating expenses, the cost of necessary farm repairs and replacements customarily paid by the landowner will be deducted from the landowner's share of income in determining net rental farm income.

(2) The appraiser will also consider the value of the farm as a home and will take this into account along with the amount that could safely be invested in the farm, based on the capitalization of the net rental farm income in arriving at its agricultural value.

(b) *Market value.* The market value is the amount a typical purchaser would be willing to pay and justified in paying for the property considering agricultural uses and nonagricultural assets the property may have. It is assumed that the property would sell for this amount with a reasonable sales effort and that the purchaser would be a willing but not anxious buyer, and the seller would be a willing but not forced seller. A market value determination will be made for the acquisition of individual tracts of security servicing for the following:

(1) Security servicing actions required by Subpart A of Part 1965 of this chapter.

(2) Rural Renewal Loans.

(3) Emergency Loans.

(4) Resource Conservation and Development Loans.

(5) Community Services Loans and Grants.

(6) Cooperative Association Loans.

(7) Timber Development Loans. (Appalachian Region only.)

4. Section 1809.3 is amended by revising paragraphs (b)(1)(i), (b)(1)(vi), and (c) to read as follows:

§ 1809.3 Basic farm valuation principles.

* * * * *

(b) * * *

(1) * * *

(i) The distance to market and trading centers in which applicant will conduct business.

* * * * *

(vi) Location value is difficult to measure on the basis of a formula. It can be established by analysis of sales data. When location causes the property to have more value than justified on the basis of customary agricultural use, the appraiser should determine and include an estimate of what the better features will be worth to a typical buyer.

* * * * *

(c) *Home desirability.* This is an important factor in farm appraisals since the farm business provides an operator with an occupation and a home. An appraiser should consider those features which relate to family living and the satisfaction of a comfortable home. An appraiser's opinion should be based on the various home features of a farm and how they will appeal to a typical purchaser. Home use advantages have a bearing on the kind of typical buyer or operator attracted to the farm under consideration. This will affect the quality of management which will be assumed by the appraiser. The basic elements considered for home use value are the house and yard, location, all weather accessibility, water and other utilities, neighborhood, churches, schools, and recreational and scenic features. Properties with antiquated, poorly arranged and obsolete buildings will have less than improved properties.

* * * * *

5. Section 1809.4 is amended by revising the title, the introductory paragraph, by revising the introductory paragraph (a), by revising paragraph (b)(1)(i), by revising the introductory paragraph (c), and paragraphs (c)(1), (d), and (e) to read as follows:

§ 1809.4 The three-way approach to market value.

Farm appraisals made under this subpart will be based to the extent applicable on a three-way approach, using market data of prices of comparable properties, capitalization, and summation of all resources and facilities. This combination will provide a means of arriving at a market value for the full range of farm properties, which the Farmers Home Administration (FmHA) is now authorized to finance.

(a) *Market data approach.* Using sale prices of comparable properties sold during the most recent period is a sound and acceptable means of arriving at market value. The appraiser should observe, study, and record pertinent facts for as many sales of comparable property as possible. He should be certain the properties selected as comparable are so similar to the property being appraised that a prospective purchaser would likely pay an equivalent price for the farm. The objective is to deduce from sale data on comparable property the price which the property being appraised would attract on the market. If there is a lack of similarity between the property being appraised and the properties on which sales data is being used, appropriate compensating adjustments will have to be made. If the differences are numerous or pronounced, sales data on more nearly comparable property should include those in which the terms and conditions of the sale are representative of true sale transactions occurring in the community. Form FHA 422–8, "Real Estate Sales Data," will be used to record sales information.

* * * * *

(b) * * *

(1) * * *

(i) Determine the rate of return received on comparable or nearly comparable properties or investments. When the sale price of a comparable farm has been determined and confirmed, the rate of return can be established by working an earnings statement for that farm. The net income thereby obtainsd will reflect the rate of return to the investment in the farm. If the exact annual income can be ascertained from the owner, a more precise capitalization rate can be determined. Several determinations in this manner can provide a good indication of a reliable capitalization rate for an area. Exhibit F is an example of a technique for determining the capitalization rate for an area. The capitalization rate will be determined annually.

* * * * *

(c) *Summation approach.* An indication of value under this approach is obtained by adding the value of essential buildings to the market value of the land. Depreciation must recognize functional and economic obsolescence as well as physical deterioration in determining building value. This approach is used for checking purposes in making the appraisal.

(1) The market value of land will be the value of the land without buildings. It will include land development of a permanent nature. A value per acre for the land resources will be determined by analyzing the sale prices of comparable land.

* * * * *

(d) *Market value.* The appraiser will consider the results of these three approaches and make needed adjustments to these findings before reaching the final conclusion for the Recommended Market Value. The adjustments will usually be for unusual location and economic use features not otherwise recognized, and for home use features which contribute to family living satisfaction not previously reflected. After an indication of value reflected by each approach has been determined, the appraiser should re-examine the calculations and the adequacy of the data analyzed in each approach. The appraiser should give further consideration to the strong points and the weakness of each approach used. As a general rule the value indicated by the market data approach is the most reliable indicator of value. The final step is the correlation of the indications of value reflected by the three approaches. The appraiser will examine the spread between the minimum and maximum figures. The appraiser will determine which approach appears to be the most reliable answer to the appraisal problem. The appraiser will temper this determination of value by the degree of reliance to be placed on the other indication of value.

(e) *Recommended market value.* The appraiser's conclusion using the three approaches is the Recommended Market Value recorded in Part 7 of Form FmHA 422–1. The appraised value for mineral rights from Part VI of Form FmHA 1922–11, "Appraisal of Mineral Rights," will be added to Part 7 of Form FmHA 422–1 to arrive at the Recommended Market Value.

6. Section 1809.8 is revised to read as follows:

§ 1809.8 Preparation of Appraisal Report.

Directions for completing Form FmHA 422–1 are given on the attached Exhibits A and G (available in any FmHA office).

PART 1900—GENERAL

7. The authority citation for Part 1900 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Farmers Home Administration Appeal Procedure

8. Section 1900.55 is amended by revising paragraph (d) to read as follows:

§ 1900.55 FmHA actions to limit the need for appeals.

* * * * *

(d) Farmer program loan borrowers who are sent Form FmHA 1924–25 and who complete Part I, II A, II B, II C, or II D of Form FmHA 1924–26 are entitled to a conference with the decision maker before the appeals process begins. The conference cannot be waived by FmHA. If the borrower or the borrower's representative fails to schedule or attend the conference or if the borrower fails to bring the information requested, the borrower is still entitled to a hearing. If the borrower or the borrower's representative attends the conference but their request for servicing relief cannot be granted, Exhibit B–3 with attachment B–4 will be used to notify the borrower of their appeal rights. If the borrower or borrower's representative fails to attend the conference Exhibit B–2 with attachment B–4 will be used.

* * * * *

9. Section 1900.56 is amended by revising paragraph (a) to read as follows:

§ 1900.56 Appeal from an initial FmHA decision.

(a) Farmer program loan borrowers who are sent Forms FmHA 1924–25 and FmHA 1924–26 (in accordance with Subpart A of Part 1965, Subpart B of Part 1924, Subpart A of Part 1962, or Subpart C of Part 1950 of this chapter) are given an opportunity to appeal before the adverse action is taken unless Part II E or Part III or IV of Form FmHA 1924–26 was completed. If the borrower requested servicing relief and such relief cannot be granted, the borrower will be sent Exhibit B–3 with attachment Exhibit B–4. If an appeal is taken and the decision to take adverse action is upheld, the final letter upholding the initial decision will contain the following statement:

This review concludes the administrative appeal of your case. FmHA will proceed to take the adverse action noted on Form FmHA 1924–25, "Notice of Intent to Take Adverse

VOL 51 ISS 76 AP 21 1986 UMI

Action." You are not entitled to any further appeal in connection with the adverse action.

* * * * *

10. Exhibit B–3 to Subpart B of Part 1900 is revised to read as follows:

Exhibit B–3 to Subpart B—Letter for Notifying Applicants and Borrowers of Unfavorable Decision Reached at the Pre-Hearing Meeting or Conference

UNITED STATES DEPARTMENT OF AGRICULTURE

Farmers Home Administration

(Insert address)

Date: ————————

Dear ————————: ————————

We appreciated the opportunity to review the facts relative to [your application/request for FmHA services] [the assistance you are presently receiving]. We regret that our [meeting] [conference] with you did not result in a satisfactory conclusion.

(Insert here the adverse decision and all the specific reasons for the adverse action).

See attachment for your appeal rights.

The hearing officer will be (name and title) ————————. A request for a hearing should be sent to the hearing officer in care of this office (address) ————————.

(The following paragraph for individual applicants only):

The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, handicap, or age (provided that the applicant has the capacity to enter into a binding contract), because all or part of the applicant's income derives from any public assistance program, or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with the law concerning this creditor is the Federal Trade Commission, Equal Credit Opportunity, Washington, D.C. 20580.

Sincerely,

(Decision Maker)————————

(County Supervisor for County Committee)

Title: ————————

PART 1903—VOLUNTARY DEBT ADJUSTMENT

11. The authority citation for Part 1903 is revised to read as follows:

Authority: 7 U.S.C. 1989; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Voluntary Debt Adjustment

12. Section 1903.1 is revised to read follows:

§ 1903.1 General.

This subpart prescribes the policies, responsibilities, and procedures in the voluntary adjustment of debts of applicants for loans from the Farmers Home Administration (FmHA), borrowers, and other farmers, ranchers, farm cooperatives, private domestic corporations, partnerships, and joint operations that will manage and operate not larger than family farms, who request such services.

PART 1910—GENERAL

13. The authority citation for Part 1910 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; Sec. 10 Pub. L. 93–357, 88 Stat. 392; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Receiving and Processing Applications

14. Section 1910.1 is amended by revising the introductory paragraph to read as follows:

§ 1910.1 General.

This subpart prescribes the policies and procedures for receiving and processing Section 502 and 504 Rural Housing (RH), Farm Ownership (FO), Soil and Water (SW), Recreation (RL), Operating (OL), Emergency (EM), Rural Rental Housing (RRH), Rural Cooperative Housing (RCH), Rural Housing Site (RHS) and Labor Housing (LH) loan and grant applications except as modified by program regulations. It also prescribes policies for informing applicants and other interested individuals about the services of the Farmer Home Administration (FmHA).

* * * * *

15. Section 1910.3 is amended by revising paragraph (e) and the introductory paragraph (j) to read as follows:

§ 1910.3 Receiving applications.

* * * * *

(e) Signature requirements on the Promissory Note will be as needed to assure repayment of the indebtedness and as set out in the loan making regulations. Signature requirements on the Mortgage or Deed of Trust will be sufficient to obtain the required lien, and to make the property being offered as security available to satisfy the debt in the event of default. FmHA State Supplements will be issued to outline the requirements in accordance with State real property law. The State Director will obtain the advice of OGC prior to issuance of the State Supplement.

* * * * *

(j) For all loans and credit sales secured by a first mortgage and involving the purchase of an existing 1 to 4 family unit, or purchase of a building site and construction of 1 to 4 family residential units, or FO loans involving tracts of 25 acres or less, whether made to an individual, corporation, partnership, joint operation, cooperative, association, or other entity, the booklet entitled "Settlement Costs" will be hand-delivered to the applicant when the completed application is received, *or* mailed to the applicant within three (3) business days after receipt of the application in the County Office.

* * * * *

16. Section 1910.4 is revised to read as follows:

§ 1910.4 Processing applications.

When obtaining information concerning applicants and evaluating their qualifications, FmHA personnel will be covered by the provisions of ECOA and the established policies for the various types of assistance offered by FmHA. In the processing of applications for Farm Ownership, Farm Operating and Soil and Water loans received from family size operators, the County Supervisor may recommend the applicant for the additional services of the "New Full-Time Family Farmer and Rancher Development Committee." See Exhibit A of Subpart B of Part 1924 of this chapter for the policies governing those additional services. If a farm is situated in more than one State, County or parish, the loan will be processed in the State, County or parish where the applicant's principal residence on the farm is located. If the applicant's residence is not located on the farm or if the applicant is a corporation, cooperative, partnership or joint operation, the loan will be processed by the County Office serving the County in which the farm or a major portion of the farm is located, unless otherwise approved by the State Office.

(a) *Incomplete applications.* Applicants who submit incomplete applications for EM, FO, OL, and SW loans will be sent a letter within 20 working days after receipt of their applications. The letter will state clearly the additional information needed, and that the application cannot be processed until all required information is received in the FmHA County Office.

(b) *Completed applications.* Completed applications are those for which all information necessary to determine eligibility has been received, and they will be processed in the order received, except as modified by veteran's preference policies. The County Supervisor will verify the information furnished by the applicant and record and assemble additional information needed to properly evaluate the applicant's qualifications and credit needs. Information may be obtained and verified by:

(1) County Office records.

(2) Form FmHA 410–4.

(3) Credit reports as provided in Subparts B and C of Part 1910 of this chapter. (Subpart C available in any FmHA office.)

(4) Personal contacts.

(5) Visits of supervisory personnel to the applicant's residence or business.

(6) Form FmHA 410–8, "Applicant Reference Letter," to inform sources such as creditors, bankers, merchants, employers, and landlords. The information obtained as a result of personal inquiries and observations will be recorded in the running record. The information obtained by correspondence will be attached to the related application, Form FmHA 410–1 or Form FmHA 410–4, as appropriate.

(i) Form FmHA 410–6 includes printed notification to financial institutions that FmHA is in compliance with the Right to Financial Privacy Act of 1978, Title XI of P.L. 95–630. This notification must be given to any financial institution to which FmHA makes a direct request for financial records regarding an applicant who is an individual, a joint operation or a partnership of 5 or fewer members. When not using Form FmHA 410–6, the notification will read as follows:

I certify that the United States Department of Agriculture, acting through the Farmers Home Administration, has complied with the applicable provisions of Title XI, "The Right to Financial Privacy Act of 1978," Public Law 95–630 in seeking financial information regarding (applicant)

Date

County Supervisor

(ii) Under no circumstances may financial information obtained under this regulation be disseminated to any other department or agency of the Federal Government (other than the Office of the Inspector General (OIG) or the Department's Office of Advocacy and Enterprise (OAE)) without express approval of the Office of General Counsel (OGC).

(7) Form FmHA 1910–5, "Request for Verification of Employment." This form may be used to verify employment and income.

(c) *Notifying applicants (including presently indebted borrowers) about Limited Resource loans.* Immediately after a completed application for OL, FO, SW, or EM assistance is received, and prior to County Committee action, the County Supervisor will send a letter similar to FmHA Guide Letter No. 1924–B–1 to the applicant telling the applicant about Limited Resource loans.

(d) *Determining eligibility.* The County Committee will be used to determine eligibility of RH applicants who are also applying for a Farmer Program loan, or who are already indebted for a Farmer Program loan. The County Supervisor will determine eligibility for all other RH applicants. All farmer program applications are to be submitted to the County Committee for eligibility. The County Supervisor must obtain and present to the County Committee sufficient information concerning an applicant for the Committee to determine eligibility for the type of assistance requested.

(e) *County Committee actions.* All actions by the Committee regarding applicant eligibility will be taken in Committee meetings attended by at least two Committee members. If the County Committee is unable to reach a decision based on the information available, they may request the County Supervisor to obtain further information or may request a personal interview with the applicant. The County Committee will act on the application after considering all pertinent information. This action will be taken in the absence of the applicant. County Committee members are required to adhere to all applicable provisions of this regulation when determining eligibility of applicants. Applicants may not be interviewed for reasons unrelated to proper eligibility considerations.

(f) *Timeliness.* Written notice of eligibility or ineligibility will be sent to each applicant, not later than 30 days after receipt of a completed application; and for farmer program loan applications, each application must be approved or disapproved and the applicant notified, in writing, of the action taken, not later 60 days after receipt of a completed application. If an application is disapproved, the applicant will be given appeal rights for any decision that is appealable under Subpart B of Part 1900 of this chapter. If a determination of eligibility cannot be made within 30 days from the date of receipt of the completed application, the applicant will be notified, in writing, of the circumstances causing the delay, and the approximate time needed to make a decision. The letter will contain the ECOA paragraph set forth in § 1910.6(b)(1) of this subpart.

(g) *Recording action taken.* The County Committee minutes or the running case record (whichever is appropriate) will show what action was taken on each application. The specific reason for unfavorable decisions of eligibility on application will be shown on the Committee Certifications. In those cases not involving County Committee action, this information will be recorded in the running case record.

(h) *Active applications.* An applicant may voluntarily withdraw an application at any time. When an applicant has been determined eligible, but further processing is delayed due to an apparent lack of interest, the applicant will be advised by letter that the application will be considered withdrawn unless the County Office receives a notice within 30 days that further consideration is desired. The letter will contain the ECOA paragraph set forth in § 1910.6(b)(1) of this subpart. Applications for FO, SW, OL, RL, RH, RRH, RCH, RHS, and LH loans received during any fiscal year will remain active during the remainder of that fiscal year in which they were received, plus the subsequent fiscal year, unless withdrawn or disapproved, or unless the loan is closed. However, an expiring application for which a loan has been approved, but not closed, will be considered active until the loan is closed or canceled. All withdrawn or rejected applications will be retained in an inactive file for 25 months after the date of withdrawal or notice of adverse action. If notice has been received by FmHA that an adverse action is under investigation or in litigation, that application and all related material will be retained until final disposition of the matter.

17. Section 1910.5 is amended by revising paragraph (c)(1) and by adding paragraph (c)(5) to read as follows:

§ 1910.5 Evaluating applications.

* * * * *

(c) * * *

(1) Foreclosures, judgments, or delinquent payments of the applicant which occurred more than 36 months before the application, if no recent similar situations have occurred.

* * * * *

(5) Bankruptcies must never be used as an indication of unacceptable credit history. However, nonpayment of a debt may be used as an indication of unacceptable credit history, in accordance with § 1910.5(c)(1) of this section.

18. Section 1910.6 is amended by adding the introductory paragraph, adding paragraph (b)(3), redesignating paragraphs (c) through (e) to paragraphs (d) through (f), adding a new paragraph (c) and revising newly redesignated paragraph (d) to read as follows:

§ 1910.6 Notification of applicant.

The time frames established in § 1910.4(f) of this subpart must be met.

* * * * *

VOL 51 ISS 76 AP 21 1986 UMI

(b) • • •

(3) If a decision to deny an EM, OL, FO or SW loan(s) is overturned or modified in the appeal process or by a court, the case will be returned to the local FmHA County Supervisor for further processing. The County Supervisor or the County Committee must take action within 15 days, as set out in § 1910.59(c) of Subpart B of Part 1900 of this chapter.

(c) *Available funds.* After EM, OL, FO and SW loans are approved, loan funds will be made available to the applicants within the time frames established in the loan making regulations.

(d) *Lack of funds.* Applications received when funds are not available will be processed and a decision on eligibility will be made. Applicants who are ineligible will be so advised, in accordance with § 1910.6(b)(1) of this subpart. If no funds are available within 15 days of loan approval, eligible applicants will be notified that their applications will be held until funds are available. When funds become available for the requested loan, eligible applicants will be notified immediately by letter. Funds must be provided to the applicant within 15 days of they when become available, unless the applicant agrees to a longer period. The letter should tell the applicant to notify the County Office immediately if the applicant is still interested in obtaining the assistance originally applied for. If the applicant does not respond within 10 days of the date of the first letter, a second notice will be sent requesting the applicant to contact the County Office within 15 days or the application will be considered withdrawn. The letter will contain the ECOA Notice set forth in § 1910.6(b)(1) of this subpart. If the applicant indicates a desire to obtain assistance, the County Supervisor will review the application with the applicant and, if there have been any significant changes that would affect eligibility, the County Supervisor will obtain necessary current information to determine eligibility, or when appropriate, present the application to the County Committee for reconsideration. If, after reconsideration, the application is rejected, adverse action has occurred, and the proper notification will be sent as outlined in § 1910.6(b)(1) of this subpart.

• • • • •

§ 1910.7 [Amended]

19. Section 1910.7(a) is amended by removing from the first sentence the words "Household Financial Statement and Budget" and inserting a period after the phrase "Form FmHA 431–3."

Subpart B—Credit Reports (Individuals)

20. Section 1910.52 is amended by revising paragraph (b) to read as follows:

§ 1910.52 General.

• • • • •

(b) Whenever Exhibit A does not list a contractor for a particular town or area, the local FmHA official should request, through the State Director, the address of other contractors from the Director, Directives and Administrative Services Division, National Office. If the Director, Directives and Administrative Services Division, informs the State Director that there are no other contractors for that particular area, the local FmHA official should follow the procedures outlined in Exhibit A, Credit Report Contracts, (a). In the meantime, § 1910.4(b) (1), (2), (4), (5), (6) and (7) of Subpart A of Part 1910 of this chapter will be followed in obtaining and verifying the applicant's qualifications and credit needs.

• • • • •

PART 1924—CONSTRUCTION AND REPAIR

21. The authority citation for Part 1924 is revised to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Management Advice to Individual Borrowers and Applicants

22. Section 1924.51 is revised to read as follows:

§ 1924.51 General.

This subpart sets forth policies for providing management advice to farmer program loan individual applicants and borrowers. The term "individual" as used in this subpart applies to individuals and to farming partnerships, joint operations, corporations and cooperatives. The term "farmer program loan" as used in this subpart includes Farm Ownership (FO), Soil and Water (SW), Operating (OL), Emergency (EM), Economic Emergency (EE), Recreation (RL), Special Livestock (SL), and Economic Opportunity (EO) loans, and/or (RHF) Rural Housing loans for farm service buildings. This subpart applies to insured farmer program loan applicants/borrowers who depend on farm income for loan repayment. It also includes Rural Housing (RH) borrowers who are also indebted for a farmer program loan that is not collection-only or a judgment account, and those FO, SW and/or OL loan applicants and borrowers who use the services of a "New Full-Time Family Farmer and Rancher Development Committee." (See Exhibit A of this subpart.) This subpart does not apply to individuals who owe non-program loans (defined in § 1965.7(h) of Subpart A of Part 1965 of this chapter).

23. Section 1924.57 is amended by revising the introductory text of paragraph (b)(1), and revising paragraph (b)(1)(iv), adding a new paragraph (b)(1)(viii), revising paragraphs (b)(2), (b)(3), (c)(4), (c)(5) and (d)(2), and adding paragraph (c)(6) to read as follows:

§ 1924.57 Planning.

• • • • •

(b) • • •

(1) Form FmHA 1962–1 must be completed once each year and revised as needed in accordance with the Forms Manual Insert (FMI) for all borrowers with FmHA loans secured by chattels. There must always be a current Form FmHA 1962–1 in the file of a borrower with loans secured by chattels. Form FmHA 1962–1 should be filled out and signed at the same time as a Form FmHA 431–2 is signed if a Form FmHA 431–2 is required. The figures on the two forms must be consistent. For example, if the Form FmHA 431–2 shows the borrower plans to spend $10,000 on equipment and no FmHA loan funds are being advanced for that purpose and the borrower has no income except from the farm operation, the Form FmHA 1962–1 should show where the $10,000 will come from. (Example—Wheat, 3000 Bushels, Sold, August, $10,000, Purchase Equipment.) Form FmHA 431–2 will be required for those borrowers.

• • • • •

(iv) Who are requesting servicing options on Form FmHA 1924–26, "Borrower Acknowledgment of Notice of Intent to Take Adverse Action," while any appeal is pending. This may be an interim plan for determining the release of proceeds on Form FmHA 1962–1 for essential family living and farm operating expenses in accordance with § 1962.17 of Subpart A of Part 1962 of this chapter. Such a plan does not have to meet the requirements of a feasible plan in paragraph (c)(5) of this section.

• • • • •

(viii) Who have FmHA loans secured by crops, livestock, and livestock products marketed in the regular course of business.

(2) If the County Supervisor and the borrower cannot reach an agreement on the planned uses of proceeds on Forms FmHA 431–2 and 1962–1 when a new or subsequent loan is involved, the loan will not be made and any appeal will be handled in accordance with Supbart B of Part 1900 of this chapter. When a new or subsequent loan is not involved, the borrower will be given the opportunity to appeal in accordance with Subpart B of Part 1900 of this chapter. The notice to the borrower must identify the items on which the County Supervisor and the borrower cannot agree and must explain why the County Supervisor does not agree with the borrower's planned use of proceeds. While any appeal is pending, FmHA must make releases for essential family living and farm operating expenses. In addition, FmHA may make releases for other items on which the borrower and the County Supervisor agree. After the appeal is concluded, the County Supervisor and borrower will sign a Farm and Home Plan, when applicable, and a Form FmHA 1962–1 which complies with the hearing (or any review) officer's decision. If the borrower refuses, the County Supervisor will give the borrower a copy of the Farm and Home Plan, when applicable, and Form FmHA 1962–1 and will explain that those documents are considered binding by FmHA. Borrowers who do not abide by those documents will be handled under § 1962.18 of Subpart A of Part 1962 of this chapter. If the borrower does not appeal, the County Supervisor will mail the borrower a copy of the completed form along with a cover letter explaining that FmHA considers the form binding.

(3) In certain cases the borrower may not indicate any disagreement with the planned use of proceeds on the Form FmHA 1962–1 but may refuse to sign the form. For these cases the County Supervisor will sign the form and mail it to the borrower with a cover letter explaining that FmHA considers the document binding unless the borrower disagrees with the planned use of proceeds and wishes to appeal in accordance with Subpart B of Part 1900 of this chapter. Borrowers that do not abide by the document will be handled in accordance with § 1962.18 of Subpart A of Part 1962 of this chapter.

• • • • •

(c) • • •

(4) Plan for the appropriate use of income with the applicant in accordance with § 1962.17 of Subpart A of Part 1962 of this chapter. Form FmHA 1962–1 *must* provide for the release of sufficient income to pay essential farm operating and family living expenses.

(5) Determine the feasibility of the Farm and Home Plans. A feasible plan is necessary if a loan is being made or a servicing action is being taken. A feasible plan is not necessary if the only reason for developing the plan is to complete a Form FmHA 1962–1 in accordance with paragraph (b)(1)(iv) of this section. Feasible plans must show the borrower will be able to:

(i) Pay for operating expenses and taxes.

(ii) Meet necessary payments on debts.

(iii) Maintain necessary livestock, farm and home equipment, and buildings to the extent that such items have not been provided for in the operating expenses.

(iv) Have a reasonable standard of living for the borrower or the farm operator in the case of a corporation, partnership, joint operation or cooperative.

(v) Provide for any essential capital purchases or improvements.

(6) Will contact borrowers with loans secured by chattels 60 days prior to the expiration date for Form FmHA 1962–1 and obtain a new completed form for the upcoming year. A list will be maintained in the management systems box in the miscellaneous division in accordance with § 1905.5(d) of Subpart A of Part 1905 of this chapter (available in any FmHA office). The list will include the borrower's name, the expiration date of the form, and the date for follow-up by the County Supervisor.

• • • • •

(d) • • •

(2) Initial and subsequent plans and Form FmHA 1962–1 will be revised whenever changes in the borrower's operation occur during the year. It is the borrower's responsibility to notify FmHA of any changes which occur. The plan and Form FmHA 1962–1 will be marked "Revision" and changes noted by crossing out any original estimates and inserting new estimates immediately above. The borrower and the County Supervisor will initial and date revisions to the plan and Form FmHA 1962–1. If the borrower and the County Supervisor cannot agree on a revision, the borrower will be given the opportunity to appeal in accordance with Subpart B of Part 1900 of this chapter. The notice to the borrower must identify the items on which the County Supervisor and the borrower cannot agree and must explain why the County Supervisor does not agree with the borrower's planned use of proceeds. While any appeal is pending, FmHA must make releases for essential family living and farm operating expenses. In addition, FmHA may make releases for other items on which the borrower and the County Supervisor agree. After the appeal is concluded, the County Supervisor and borrower will sign a Form FmHA 1962–1 which complies with the hearing (or any review) officer's decision. If the borrower refuses, the County Supervisor will give the borrower a copy of the form and will explain that it is considered binding by FmHA. Borrowers who do not abide by the form will be handled under § 1962.18 of Subpart A of Part 1962 of this chapter. If the borrower does not appeal, the County Supervisor will mail the borrower a copy of the completed form along with a cover letter explaining that FmHA considers the form binding.

24. The introductory text of paragraph VIII of Exhibit A to Part 1924, Supbart B is revised to read as follows:

Exhibit A of Subpart B—New Full-Time Family Farmer and Rancher Development Projects

• • • • •

VIII. *Criteria for selection of Candidates.* A candidate may be an individual, family partnership, a family joint operation, or a family corporation conducting or proposing to conduct a full-time family size farming or ranching operation and having strong agricultural background, training and/or experience, and resources other than the availability of necessary capital on suitable terms.

• • • • •

PART 1941—OPERATING LOANS

25. The authority citation for Part 1941 continues to read as follows:

Authority: 7 U.S.C. 1989; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Operating Loan Policies, Procedures, and Authorizations

26. Section 1941.1 is revised to read as follows:

§ 1941.1 Introduction.

This subpart contains regulations for making initial and subsequent insured Operating (OL) and Youth (OL–Y) loans. OL loans may be made to eligible farmers and ranchers and farm cooperatives, private domestic corporations, partnerships, and joint operations that will manage and operate not larger than family farms. Youth loans may be made to rural youth to conduct modest projects in connection with their participation in 4–H, Future Farmers of America, and similar organizations. See Exhibit A of Subpart A of Part 1943 of this chapter for making OL loans to entrymen on unpatented public lands.

27. Section 1941.4 is amended by revising paragraphs (d)(3)(ii), (d)(4)(ii), redesignating paragraphs (m) through (o) as (o) through (q), redesignating paragraph (l) as (n), redesignating paragraphs (g) through (k) as (h) through (l), and adding new paragraphs (g) and (m) to read as follows:

VOL 51 ISS 76 AP 21 1986 UMI

§ 1941.4 Definitions.

* * * * *

(d) * * *

(3) * * *

(ii) The members, stockholders, partners, or joint operators responsible for operating the farm when a loan is made to a cooperative, corporation, partnership, or joint operation.

(4) * * *

(ii) The members, stockholders, partners, or joint operators responsible for operating the farm, along with the families of these individuals, for a loan made to a cooperative, corporation, partnership, or joint operation.

* * * * *

(g) *Joint operation.* A farming entity in which two or more farmers work together sharing equally or unequally land, labor, equipment, expenses, and/or income. The joint ownership of land and/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. They are two separate individual operations.

* * * * *

(m) *Related by blood or marriage.* As used in this subpart, individuals who are connected to one another as husband, wife, parent, child, brother or sister.

* * * * *

28. Section 1941.11 is amended by revising paragraph (b) to read as follows:

§ 1941.11 Applications.

* * * * *

(b) If the applicant is a cooperative, corporation, partnership, or joint operation, the following information will be obtained and included in the loan docket:

(1) A complete list of all members, stockholders, partners, or joint operators showing the address, citizenship, principal occupation, and the number of shares and percentage of ownership or stock held in the cooperative or corporation by each, or the percentage of interest held in the partnership or joint operation by each.

(2) A current personal financial statement from each of the principal members of a cooperative, partners of a partnership, joint operators of a joint operation, or stockholders of a corporation. For this purpose, a principal is one owning or controlling as much as 10 percent of the ownership, stock or interest of a farming entity. If no member, partner, joint operator or stockholder owns or controls as much as 10 percent, each member, partner, joint operator or stockholder will be considered as a principal. Any other member, partner, joint operator or stockholder having an ownership interest whose financial statement, in the judgment of the loan approval official, would be pertinent to a consideration of the financial strength of the applicant entity will also be required to provide personal financial statements.

(3) A current financial statement from the cooperative, corporation, partnership, or joint operation itself.

(4) A copy of the cooperative's or corporation's charter, or any partnership or joint operation agreement, any articles of incorporation and bylaws, any certificate or evidence of current registration (good standing) and a resolution(s) adopted by the Board of Directors or members or stockholders authorizing specified officers of the cooperative, corporation, partnership or joint operation to apply for and obtain the desired loan and execute required debt, security and other instruments and agreements.

(5) A copy of any written lease, contract, or agreement entered into by the cooperative, corporation, partnership, or joint operation which may be pertinent to consideration of its application.

29. Section 1941.12 is amended by revising paragraphs (a)(1), (a)(8), the introductory text of paragraph (b), (b)(1), and (b)(3), the introductory text of paragraph (b)(4), paragraphs (b)(4)(i), (b)(4)(v), (b)(5), and (b)(6), and by adding paragraph (b)(7) to read as follows:

§ 1941.12 Eligibility requirements.

(a) * * *

(1) Be a citizen of the United States (see § 1941.4(q) of this subpart for the definition of "United States") or an alien lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalization Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G–641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G–641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(8) Be the owner-operator or tenant-operator of not larger than a family farm after the loan is closed (except for rural youths). In the case of a limited resource applicant see § 1941.4(h) of this subpart.

(b) A cooperative, corporation, partnership, or joint operation must:

(1) Be unable to obtain sufficient credit elsewhere to finance actual needs at reasonable rates and terms, taking into account prevailing private and cooperative rates and terms in or near the community for loans for similar purposes and periods of time. This applies to the entity and *all* of its members, stockholders, partners, or joint operators, as individuals.

* * * * *

(3) Consist of members, stockholders, partners, or joint operators who do not, as individuals, have an individual FO, SW, RL or OL loan; and are not members of another entity or have an interest in another entity that has an FO, SW, RL or OL loan.

(4) If the members, stockholders, partners, or joint operators holding a *majority interest* are related by blood or marriage, they must meet the following requirements:

(i) They must be citizens of the United States (see § 1941.4(q) of this subpart for the definition of "United States") or aliens lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalization Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G–641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G–641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(v) At least one member, stockholder, partner, or joint operator must operate the family farm.

* * * * *

(5) If the members, stockholders, partners, or joint operators holding a majority interest are not related by blood or marriage:

(i) The requirements of paragraphs (b)(4) (i) through (iv) and (vi) of this section must be met.

(ii) They and the entity itself must operate the family farm.

(6) If applying as a limited resource applicant, as defined in § 1941.4(h) of this subpart:

(i) The requirements of paragraphs (b)(4) (i) through (iv) and (vi) of this section must be met by the entity and all its members, stockholders, partners, or joint operators.

(ii) The entity and all the members, stockholders, partners or joint operators must own or operate a small or family farm and at least one member, stockholder, partner, or joint operator must operate the farm.

(7) If each member's, partner's stockholder's or joint operator's ownership interest does not exceed the family farm definition limits, their collective interests can exceed the family farm definition limits only if: (i) All of the members of the entity are related by blood or marriage;

(ii) All of the members are or will be operators of the entity, and

(iii) The majority interest holders of the entity meet the requirements of paragraphs (b)(4) (i) through (iv) and (vi) of this section.

30. Section 1941.16 is amended by revising the introductory paragraph and adding paragraph (l) to read as follows:

§ 1941.16 Loan purpose.

Except for entity borrowers, 10 percent or $5,000, whichever is less, of any OL loan will be placed in a non-supervised bank account of the borrower's choosing at loan closing. These funds will be used at the borrower's discretion for family living needs or other purposes agreed upon in the farm plan(s) of operation. Loans may be made for farm, forestry, recreation and nonfarm enterprises or modest rural youth projects for the following purposes, when such purposes are essential to the operation:

* * * * *

(l) Payment of costs for training farmer program borrowers, particularly limited resource borrowers, in recordkeeping for farming and ranching operations. The loan approval official must determine that the training will meet the objectives of the loan program, assist the borrower in his/her recordkeeping and management responsibilities, and that costs are reasonable.

31. Section 1941.19 is amended by revising the introductory paragraph and paragraph (b) to read as follows:

§ 1941.19 Security.

Ordinarily, the security must be adequate in the opinion of the loan approval official to assure repayment of the loan. If the security alone is inadequate, then the applicant's repayment ability will also be considered by the loan approval official in determining whether the loan should be made, except that the amount refinanced may not exceed the value of the security. Except as shown in paragraph (a) of this section, the loan must be secured by a first lien on all property or products acquired, produced, or refinanced with loan funds and by any additional security needed. Such additional security may consist of the best lien obtainable on chattels, real estate or other property. In unusual cases, the loan approval official may require a cosigner or a pledge of security from someone other than the borrower(s). Generally, a pledge of security is preferable to a cosigner.

* * * * *

(b) *Real estate.* The loan approval official may require a lien on all or part of the applicant's real estate as security. When the amount of the loan exceeds the equity in chattel security by more than $10,000, the best lien obtainable will be taken on real estate having sufficient collateral equity to fully secure the loan(s) being made. Real estate security may be taken for a portion of a loan when a separate advance and promissory note evidences such portion. Form FmHA 427–1 (State), "Real Estate Mortgage for _____," will be used to obtain such a lien, unless a State supplement requires a different form.

* * * * *

32. Section 1941.25 is amended by revising the introductory paragraph to read as follows:

§ 1941.25 Appraisals.

Real estate appraisals will be completed by an FmHA employee authorized to make farm appraisals. Chattel and real estate appraisals will be made on Forms FmHA 440–21, "Appraisal of Chattel Property," FmHA 422–1, "Appraisal Report (FARM TRACT)," and FmHA 1922–11, "Appraisal for Mineral Rights," respectively, to determine market value and borrower equity in the following instances:

* * * * *

33. Section 1941.29 is amended by revising the title and paragraphs (a) through (d) to read as follows:

§ 1941.29 Relationship between FmHA loans, insured and guaranteed.

(a) An eligible emergency loan (EM) applicant's total credit needs will be satisfied under the EM loan authorities, to the extent possible, before OL loan assistance is considered.

(b) An insured OL will not be made to a borrower with an outstanding guaranteed OL loan.

(c) An insured OL loan will not be made to refinance a guaranteed OL loan, except when the following conditions are met:

(1) The circumstances resulting in the need to refinance were beyond the borrower's control.

(2) Refinancing is in the best interest of the Government and the borrower.

(d) New applicants and borrowers indebted to FmHA and/or an FmHA guaranteed lender(s) for an EE loan may be considered for an OL loan(s) provided their total outstanding principal indebtedness to FmHA and/or the FmHA guaranteed lender(s) for the EE loan and any FO, SW, RL, and/or OL loans will not exceed $650,000.

* * * * *

34. Section 1941.30 is revised to read as follows:

§ 1941.30 Committee Certification.

The County Committee will certify an applicant's eligibility on Form FmHA 440–2 "County Committee Certification or Recommendation," before each loan is approved. In some instances the committee may want to interview the applicant or see the farm before making any recommendations.

35. Section 1941.33 is amended by revising the introductory paragraph of (b)(1), paragraph (b)(2)(i), (b)(2)(vi), (c), and (d) to read as follows:

§ 1941.33 Loan approval or disapproval.

* * * * *

(b) *Loan approval action.* (1) The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The loan approval official is responsible for reviewing the docket to determine whether the proposed loan complies with established policies and all pertinent regulations. When reviewing the docket and before approving the loan, the loan approval official will determine that:

* * * * *

(2) * * *

(i) Indicate on all copies of Form FmHA 1940–1, "Request for Obligation of Funds," any conditions not required

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

by FmHA regulations that must be met for loan closing.

* * * * *

(vi) Sign the original and one copy of Form FmHA 1940–1 and insert the title of the approval official.

(c) *Distribution of forms after loan approval.* The applicable docket forms will be distributed as outlined below by the loan approval official after a loan is approved.

(1) These forms will be sent to the Finance Office:

(i) Form FmHA 1940–1 (copy).

(ii) When funds have been obligated, the Finance Office will send to the County Office the original and one copy of Form FmHA 440–57, "Acknowledgement of Obligated Funds/Check Request."

(iii) Form FmHA 492–19, "Characteristics of Approved Applicants," (original) for initial loans only. If an initial FO or SW loan is approved at the same time, only one set of forms is required.

(2) The original of Form 1940–1 and the remainder of the loan docket will be sent to the County Office.

(3) These forms will be sent to the State Office:

(i) Form FmHA 1940–1 (copy).

(ii) Form FmHA 492–19 (copy) for initial loans only. If an initial FO or SW loan is approved at the same time, only one set of forms is required.

(4) A signed copy of Form FmHA 1940–1 will be sent to the borrower on the date of loan approval.

(d) *Loan disapproval.* The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The following action will be taken when a loan is disapproved:

(1) The reasons for disapproval will be indicated on Form FmHA 1940–1 by the loan approval official. The reasons may be in a letter or the running record if this form has not been completed. Suggestions of how to remedy the disapproval should be included.

(2) The County Supervisor will notify the applicant in writing of the action taken and include any suggestions that could result in favorable action. The applicant will be advised of the opportunity to appeal (see Subpart B of Part 1900 of this chapter).

(3) Items furnished by the applicant during docket processing will be returned.

(4) The County Supervisor will notify any other interested parties of the disapproval.

36. Section 1941.35 is amended by revising paragraphs (a) and (b) to read as follows:

§ 1941.35 Actions after loan approval.

(a) *Requesting check.* If the County Supervisor is reasonably certain that the loan can be closed within 20 working days from the date of the check, loan funds may be requested at the time of loan approval through the state office terminal system. If funds are not requested when the loan is approved, advances in the amount needed will be requested through the state office terminal system. Each advance will be limited to an amount which can be used promptly, usually within sixty days from the date of the check. Loan funds must be provided to the applicant(s) within 15 days after loan approval, unless the applicant(s) agrees to a longer period. If no funds are available within 15 days of loan approval, funds will be provided to the applicant as soon as possible and within 15 days after funds become available, unless the applicant agrees to a longer period. If a longer period is agreed upon by the applicant(s), the same will be documented in the case file by the County Supervisor.

(b) Cancellation of loan check and/or obligation. If, for any reason, a loan check or obligation will be cancelled, the County Supervisor will notify the State Office and the Finance Office of loan cancellation by using Form 1940–10, "Cancellation of U.S. Treasury Check and/or Obligation." If a check received in the County Office is to be cancelled, the check will be returned to the Finance Office with an original and one copy of Form FmHA 1940–10. (See FmHA Instruction 102.1, a copy of which may be obtained in any FmHA office.)

* * * * *

Subpart B—Closing Loans Secured by Chattels

37. Section 1941.54 is amended by revising paragraph (b)(3) to read as follows:

§ 1941.54 Promissory note.

* * * * *

(b) * * *

(3) *Partnerships or joint operations.* The note will be executed by the partnership as well as by each of the partners or joint operators, as individuals.

38. Section 1941.57 is amended by revising paragraph (a)(2) to read as follows:

§ 1941.57 Security instruments.

* * * * *

(a) * * *

(2) Appropriate partners or joint operators on behalf of a partnership or joint operation; and the instruments will also be executed by all partners, or all joint operators, who will sign as individuals.

* * * * *

39. Section 1941.84 is revised to read as follows:

§ 1941.84 Title clearance and closing requirements.

(a) For loans over $10,000 (or EM loans over $25,000), title clearance is required when real estate is taken as security.

(b) For loans of $10,000 or less (or EM loans of $25,000 or less), and loans for which real estate is taken as security, a certification of ownership and verification of equity in real estate is required. Certification of ownership may be in the form of a notarized affidavit which is signed by applicant, names the record owner of the real estate in question and lists the balances due on all known debts against the real estate. Whenever the County Supervisor is uncertain of the record owner or debts against the estate security, a title search will be required.

(c) When real estate is taken as security, title clearance and loan closing requirements will be carried out in accordance with Part 1807 of this chapter (FmHA Instruction 427.1).

(d) If any prior liens against the real estate offered as security contain provisions (such as future advance clauses not limited to a specific amount) that could jeopardize either the security position of the Government or the applicant's ability to meet the obligations of the prior liens and FmHA loan, the prior lienholders involved must agree in writing, before the loan is closed, to modify, waive, or subordinate such objectionable provisions.

(e) If a lien is to be taken on real estate which is already subject to a lien, and if State law allows a prior lienholder to foreclose on a loan (under power of sale or otherwise) without notifying a junior lienholder of the foreclosure proceedings, the prior lienholders must agree, in writing, to give FmHA advance notice of all foreclosure proceedings and of any assignment of the mortgage.

(f) Each real estate lien will be taken on Form FmHA 427–1 (State), "Real Estate Mortgage for _____," unless a State supplement requires the use of another form.

(g) If the real estate offered as security is held under a purchase contract, the following conditions must exist:

(1) The applicant must be able to provide a mortgageable interest in the real estate.

(2) The applicant and the purchase contract holder must agree, in writing, that any insurance proceeds received to compensate for real estate losses will be used only to replace or repair the damaged real estate. If necessary, the applicant will negotiate with the purchase contract holder to arrive at a new contract without any provisions objectionable to either FmHA or the lender.

(3) If a satisfactory contract of sale cannot be negotiated or if the purchase contract holder refuses to agree to apply the insurance proceeds toward the repair or replacement of the real estate and wants to retain some of the proceeds as an extra payment on the balance owned, the applicant will make every effort to refinance the existing purchase contract.

(4) The purchase contract must not be subject to summary cancellation on default and must not contain any other provisions which might jeopardize either the Government's security position or the borrower's ability to repay the loan.

(5) The contract holder must agree, in writing, to give the Government notice of any breach by the purchaser, and must also agree to give the Government the option to rectify the conditions which amount to a breach within 30 days. The 30 days begin to run on the day the Government receives the written notice of the breach.

PART 1943—FARM OWNERSHIP, SOIL AND WATER AND RECREATION

40. The authority citation for Part 1943 continues to read as follows:

Authority: 7 U.S.C. 1989; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Insured Farm Ownership Loan Policies, Procedures and Authorizations

41. Section 1943.4 is amended by revising paragraphs (d)(3)(ii) and (d)(4)(ii), current paragraphs (g) through (l) and (m) and (n) are redesignated as (h) through (m) and (o) and (p), respectively, new paragraphs (g) and (n) are added, and redesignated paragraph (i) is revised to read as follows:

§ 1943.4 Definitions.

* * * * *

(d) * * *

(3) * * *

(ii) The members, stockholders, partners, or joint operators responsible for operating the farm when a loan is made to cooperative, corporation, partnership, or joint operation.

(4) * * *

(ii) The members, stockholders, partners, or joint operators responsible for operating the farm, along with the families of these individuals, for a loan made to a cooperative, corporation, partnership or joint operation.

* * * * *

(g) *Joint operation.* A farming entity in which two or more farmers work together sharing equally or unequally land, labor, equipment, expenses, and/or income. The joint ownership of land and/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. They are two separate individual operations.

* * * * *

(i) *Majority interest.* Any individual or a combination of individuals owning more than a 50 percent interest in a cooperative, corporation, joint operation or partnership.

* * * * *

(n) *Related by blood or marriage.* As used in this subpart, individuals who are connected to one another as husband, wife, parent, child, brother or sister.

* * * * *

42. Section 1943.6 is amended by revising paragraph (d) to read as follows:

§ 1943.6 Credit elsewhere.

* * * * *

(d) Property and interests in property owned and income received by an individual applicant, a cooperative and its members, as individuals; a corporation and its stockholders, as individuals; a partnership and its partners, as individuals; and a joint operation and its joint operators, as individuals; will be considered and used by an applicant in obtaining credit from other sources.

43. Section 1943.11 is amended by revising paragraph (b) to read as follows:

§ 1943.11 Receiving and processing applications.

* * * * *

(b) If the applicant is a cooperative, corporation, partnership, or joint operation, the following information will be obtained and included in the loan docket:

(1) A complete list of all members, stockholders, partners, or joint operators showing the address, citizenship, principal occupation, and the number of shares and percentage of ownership or of the stock held in the cooperative or corporation, by each; or the percentage of interest held in the partnership or joint operation, by each.

(2) A current personal financial statement from each of the principal members of a cooperative, stockholders of a corporation, partners of a partnership, or joint operators of a joint operation. For this purpose, a principal is one owning or controlling as much as 10 percent of the ownership, stock or interest of a farming entity. If no member, stockholder, partner or joint operator owns or controls as much as 10 percent, each member, stockholder, partner, or joint operator will be considered a principal. Any other member, stockholder, partner or joint operator having an ownership interest, whose financial statement in the judgment of the loan approval official would be pertinent to a consideration of the financial strength of the applicant entity, will be required to provide a personal financial statement.

(3) A current financial statement from the cooperative, corporation, partnership, or joint operation itself.

(4) A copy of the cooperative's or corporation's charter, or any partnership or joint operation agreement, any articles of incorporation and bylaws, any certificate or evidence of current registration (good standing) and a resolution(s) adopted by the Board of Directors or members or stockholders authorizing specified officers of the cooperative, corporation, partnership, or joint operation to apply for and obtain the desired loan and execute required debt, security and other instruments and agreements.

(5) A copy of any written lease, contract, or agreement entered into by the cooperative, corporation, partnership, or joint operation which may be pertinent to a consideration of its application.

44. Section 1943.12 is amended by revising paragraph (a)(1), (a)(8), the title and the introductory paragraph (b), paragraphs (b)(1), (b)(2), (b)(3), the introductory paragraph (b)(4), and paragraphs (b)(4)(i), (b)(4)(v), (b)(5), (b)(6) and a new paragraph (b)(7) is added to read as follows:

§ 1943.12 Farm ownership loan eligibility requirements.

(a) * * *

(1) Be a citizen of the United States (see § 1943.4(p) of this subpart from the definition of "United States") or an alien lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite paroleer are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration Service (INS) to verify the information appearing on the alien's identification card by completing INS

VOL 51 ISS 76 AP 21 1986 UMI

Form G-641, "Application for Verification of Information for Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G-641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(8) Be the owner-operator of not larger than a family farm after the loan is closed (in the case of a limited resource applicant see § 1943.4(h) of this subpart).

* * * * *

(b) A cooperative, corporation, partnership, or joint operation must:

(1) Be unable to obtain sufficient credit elsewhere to finance actual needs at reasonable rates and terms, taking into account prevailing private and cooperative rates and terms in or near the community for loans for similar purposes and periods of time. This applies to the entity and *all* of its members, stockholders, partners, or joint operators as individuals.

(2) Be controlled by farmers or ranchers engaged primarily and directly in farming or ranching in the United States, after the loan is made.

(3) Consist of members, stockholders, partners, or joint operators who do not, as individuals, have an individual FO, SW, RL or OL loan; and are not members of another entity or have an interest in another entity that has an FO, SW, RL or OL loan.

(4) If the members, stockholders, partners, or joint operators holding a majority interest are related by blood or marriage, they must meet the following requirements:

(i) They must be citizens of the United States (see § 1943.4(p) of this subpart for the definition of "United States") or aliens lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I-151 or I-551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalization Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G-641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G-641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(v) At least one member, stockholder, partner, or joint operator must operate the family farm.

* * * * *

(5) If the members, stockholders, partners, or joint operators holding a majority interest are not related by blood or marriage:

(i) The requirements of paragraphs (b)(4) (i) through (iv) and (vi) of this section must be met.

(ii) They and the entity itself must own and operate the family farm.

(6) If applying as a limited resources applicant, as defined in § 1943.4(h) of this subpart:

(i) The requirements of paragraph (b)(4) (i) through (iv) and (vi) of this section must be met by the entity and all its members, stockholders, partners, or joint operators.

(ii) The entity and all the members, stockholders, partners or joint operators must own or operate a small or family farm; and at least one member, stockholder, partner, or joint operator must operate the farm.

(7) If each member's, partner's, stockholder's or joint operator's ownership interest does not exceed the family farm definition limits, their collective interests can exceed the family farm definition limits only if:

(i) All of the members of the entity are related by blood or marriage;

(ii) All of the members are or will be operators of the entity; and

(iii) The majority interest holders of the entity meet the requirements of paragraphs (b)(4) (i) through (iv) and (vi) of this section.

45. Section 1943.25 is amended by revising paragraph (c)(2) to read as follows:

§ 1943.25 Options, planning and appraisals.

* * * * *

(c) * * *

(2) Real estate appraisals will be completed as provided in Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1). The rights to mining products, gravel, oil, gas, coal or other minerals will be considered a portion of the security for farmer program loans and will be specifically included as a part of the appraised value of the real estate securing the loans.

* * * * *

46. Section 1943.28 is revised to read as follows:

§ 1943.28 Relationship with other FmHA loans, insured and guaranteed.

(a) Insured FO loans may be made simultaneously with other FmHA loans, and to borrowers presently indebted to FmHA, when the loan limits will not be exceeded and all requirements of the loans involved will be met.

(b) An insured FO loan will not be made to a borrower with an outstanding guaranteed FO, SW, or RL loan and paragraph (c) of this section is not intended to override this policy.

(c) New applicants and borrowers indebted to FmHA and/or an FmHA guaranteed lender(s) for an EE loan may be considered for an FO loan(s) provided their total outstanding principal indebtedness to FmHA and/or the FmHA guaranteed lender(s) for the EE and any SW, RL, OL and FO loans will not exceed $650,000.

47. Section 1943.32 is amended by adding at the end of the table: "1922-11" in the FmHA Form No. column, "Appraisal for Mineral Rights" in the Name of form column, "1" in the Total number of copies of columns, and "1-O" in the Loan docket column.

48. Section 1943.33 is amended by revising the introductory paragraph (b)(1), by revising paragraphs (b)(2)(ii), (b)(2)(iv), (b)(2)(vi), (c)(1), (c)(2), (c)(3), (c)(4), by revising the introductory paragraph (d) and by revising paragraphs (d)(1) and (d)(2) to read as follows:

§ 1943.33 Loan approval or disapproval.

* * * * *

(b) * * *

(1) The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The loan approval official is responsible for reviewing the docket to determine whether the proposed loan complies with established policies and all pertinent regulations. When reviewing the docket, the loan approval official will determine that:

* * * * *

(2) * * *

(i) Indicate on all copies of Form FmHA 1940-1, "Request for Obligation of Funds," any conditions not required by FmHA regulations that must be met for loan closing;

* * * * *

(iv) Indicate that satisfactory title evidence has been obtained;

* * * * *

(vi) Sign the original and one copy of Form FmHA 1940-1 and insert the title of the approval official.

(c) * * *

(1) These forms will be sent to the Finance Office:

(i) Form FmHA 1940-1 (copy). When funds have been obligated, the Finance Office will send to the County Office the original and one copy of Form FmHA 440-57, "Acknowledgement of Obligated Funds/Check Request."

(ii) Form FmHA 443-12, "Farm Ownership Individual Soil and Water Fund Analysis," (original).

(iii) Form FmHA 492-19, "Characteristics of Approved Applicants," (original) for initial loans only. If an initial Operating (OL) or SW loan is approved at the same time, only one set of forms is required.

(2) The original of Form FmHA 1940-1 and the remainder of the loan docket will be sent to the County Office.

(3) These forms will be sent to the State Office:

(i) Form FmHA 1940-1 (copy).

(ii) Form FmHA 443-12 (copy).

(iii) Form FmHA 492-19 (copy) for initial loans only. If an initial OL or SW loan is approved at the same time only one set of forms is required.

(4) A signed copy of Form FmHA 1940-1 will be sent to the borrower on the date of loan approval.

(d) *Loan disapproval.* The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The following action will be taken when a loan is disapproved:

(1) The reasons for disapproval will be indicated on Form FmHA 1940-1 by the loan approval official. The reasons may be in a letter or the running record if this form has not been completed. Suggestions of how to remedy the disapproval should be included.

(2) The County Supervisor will notify the applicant in writing of the action taken and include any suggestions that could result in favorable action. The applicant will be advised of the opportunity to appeal. (See Subpart B of Part 1900 of this chapter.)

* * * * *

49. Section 1943.35 is amended by revising the introductory paragraph (a), by revising paragraphs (a)(2) and (b)(2) and the introductory paragraph (c) to read as follows:

§ 1943.35 Action after loan approval.

(a) *Requesting check.* If the County Supervisor is reasonably certain that the loan can be closed within 20 working days from the date of the check, loan funds may be requested at the time of loan approval through the state office terminal system. If funds are not requested when the loan is approved, advances in the amount needed will be requested through the state office terminal system. Loan funds must be provided to the applicant(s) within 15 days after loan approval, unless the applicant(s) agrees to a longer period. If no funds are available within 15 days of loan approval, funds will be provided to the applicant as soon as possible and within 15 days after funds become available, unless the applicant agrees to a longer period. If a longer period is agreed upon by the applicant(s), the same will be documented in the case file by the County Supervisor.

* * * * *

(2) When loan funds cannot be disbursed as outlined in paragraph (a)(1) of this section, the amount needed to meet the immediate needs of the borrower will be requested through the state office terminal system. The amount of each advance should meet the needs of borrowers as much as possible, so that the amount in the supervised bank account will be kept at a minimum. The Finance Office will continue to supply Form FmHA 440-57 until the entire loan has been disbursed. The County Supervisor should tell the borrower to notify the County Office of amounts needed on a timely basis to avoid delays in receiving loan checks.

(b) * * *

(2) If a loan check is received and the loan cannot be closed within 20 working days from the date of the check, the County Supervisor will take appropriate action in accordance with FmHA Instruction 102.1, a copy of which may be obtained from any FmHA Office. The applicant must agree to a delayed loan closing and the same will be documented in the case file by the County Supervisor.

* * * * *

(c) *Cancellation of loan.* If, for any reason a loan check or obligation will be cancelled:

* * * * *

50. Section 1943.38 is amended by revising paragraph (g)(4)(iii) to read as follows:

§ 1943.38 Loan closing actions.

* * * * *

(g) * * *

(4) * * *

(iii) When a loan is made to a partnership or joint operation by all partners in the partnership of all joint operators in the joint operation.

* * * * *

Subpart B—Insured Soil and Water Loan Policies, Procedures and Authorizations

51. Section 1943.54 is amended by redesignating current paragraphs (g) through (l) to paragraphs (h) through (m), respectively, adding new paragraph (g) and by revising new paragraph (i) to read as follows:

§ 1943.54 Definitions.

* * * * *

(g) *Joint operation.* A farming entity in which two or more farmers work together sharing equally or unequally land, labor, equipment, expenses, and/or income. The joint ownership of land and/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. They are two separate individual operations.

* * * * *

(i) *Majority interest.* Any individual or a combination of individuals owning more than a 50 percent interest in a cooperative, corporation, partnership or joint operation.

* * * * *

52. Section 1943.56 is amended by revising paragraph (d) to read as follows:

§ 1943.56 Credit elsewhere.

* * * * *

(d) Property and interests in property owned and income received by an individual applicant; a cooperative and its members, as individuals; a corporation and its stockholders, as individuals; a partnership and its partners, as individuals; and a joint operation and its joint operators, as individuals, will be considered and used by an applicant in obtaining credit from other sources.

53. Section 1943.61 is amended by revising paragraph (b) to read as follows:

§ 1943.61 Receiving and processing applications.

* * * * *

(b) If the applicant is a cooperative, corporation, partnership, or joint operation, the following information will be obtained and included in the loan docket:

(1) A complete list of members, stockholders, partners, or joint operators showing the address, citizenship, principal occupation, and the number of shares and percentage of ownership or of stock held in the cooperative or corporation by each, or the percentage of interest held in the partnership, or joint operation, by each.

(2) A current personal financial statement from each of the principal members of a cooperative, stockholders of a corporation, partners of a partnership, and joint operators of a joint operation. For this purpose, a principal is one owing or controlling as much as 10 percent of the ownership, stock or interest of a farming entity. If

VOL 51 ISS 76 AP 21 1986 UMI

no member, stockholder, partner or joint operator owns or controls as much as 10 percent, each member, stockholder, partner, or joint operator will be considered a principal. Any other member, stockholder, partner or joint operator having an ownership interest, whose financial statement in the judgment of the loan approval official would be pertinent to a consideration of the financial strength of the applicant entity, will also be required to provide a personal financial statement.

(3) A current financial statement from the cooperative, corporation, partnership, or joint operation, itself.

(4) A copy of the cooperative or corporation's charter, or any partnership or joint operation agreement, any articles of incorporation and bylaws, any certificate or evidence of current registration (good standing) and a resolution(s) adopted by the Board of Directors, members of stockholders authorizing specified officers of the cooperative, corporation, partnership, or joint operation to apply for and obtain the desired loan and execute required debt, security and other instruments and agreements.

(5) A copy of any written lease, contract, or agreement entered into by the cooperative, corporation, partnership, or joint operation which may be pertinent to a consideration of its application.

54. Section 1943.62 is amended by revising paragraph (a)(1), the introductory paragraph (b), by revising paragraphs (b)(3), (b)(5), (b)(7), and (b)(9) to read as follows:

§ 1943.62 Soil and Water loan eligibility requirements.

(a) * * *

(1) Be a citizen of the United States (see § 1943.54(m) of this subpart for the definition of "United States") or an alien lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalizaion Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G–641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G–641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(b) A cooperative, corporation, partnership or joint operation must:

* * * * *

(3) Consist of members, stockholders, partners, or joint operators holding a majority interest who are citizens of the United States (see § 1943.54(m) of this subpart for the definition of "United States"), or aliens lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalization Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G–641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District. (See Exhibit B of Subpart A of Part 1944 of this chapter.) Mail the completed form to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G–641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST."

* * * * *

(5) Be unable to obtain sufficient credit elsewhere, either as an entity or as individual members, stockholders, partners, or joint operators, to finance actual needs at reasonable rates and terms taking into account prevailing private and cooperative rates and terms in or near the community for loans for similar purposes and periods of time.

* * * * *

(7) Be the owner or operator of the farm, after the loan is made.

* * * * *

(9) Consist of members, stockholders, partners, or joint operators, who do not as individuals have an FO, SW, RL, or OL loan and are not members of another entity that has an FO, SW, RL, or OL loan.

55. Section 1943.74 is amended by removing paragraph (f) and redesignating current paragraphs (g) and (h) to (f) and (g).

56. Section 1943.75 is amended by revising paragraph (c)(2) to read as follows:

§ 1943.75 Options, planning and appraisals.

* * * * *

(c) * * *

(2) Real estate appraisals will be completed as provided in Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1). The rights to mining products, gravel, oil, gas, coal or other minerals will be considered a portion of the security for farmer program loans and will be specifically included as a part of the appraised value of the real estate securing the loans.

* * * * *

57. Section 1943.76 is revised to read as follows:

§ 1943.76 Planning and performing development.

The development work will be planned and completed in accordance with Part 1924, Subpart A of this chapter.

58. Section 1943.79 is amended by revising the title and paragraph (b), removing paragraph (c), redesignating current paragraph (d) to (c) and by revising new paragraph (c) to read as follows:

§ 1943.79 Relationship with other FmHA loans, insured and guaranteed.

* * * * *

(b) New applicants and borrowers indebted to FmHA and/or an FmHA guaranteed lender(s) for an EE loan may be considered for an SW loan(s) provided their total outstanding principal indebtedness to FmHA and/or the FmHA guaranteed lender(s) for the EE and any FO, RL, OL and SW loans will not exceed $650,000.

(c) An insured SW loan will not be made to a borrower with an outstanding guaranteed FO, SW, or RL loan, and paragraph (b) of this section is not intended to override this policy.

§ 1943.82 [Amended]

59. Section 1943.82(a) is amended by adding to the table: "1922–11" in the FmHA Form No. column, "Appraisal for Mineral Rights" in the Name of form column, "1" in the Total number of copies column, and "1–O" in the Loan docket column.

60. Section 1943.83 is amended by revising the introductory paragraph (b)(1), by revising paragraphs (b)(2)(i), (b)(2)(iv), (b)(2)(vi), (a)(1)(i), (a)(1)(iv), (a)(2), (c)(3)(i), (c)(4), the introductory paragraph (d), (d)(1), and (d)(2) to read as follows:

§ 1943.83 Loan approval or disapproval.

* * * * *

(b) * * *

(1) The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The loan approval official is responsible for reviewing the docket to determine whether the proposed loan complies with established policies and all

pertinent regulations. When reviewing the docket, the loan approval official will determine that:

* * * * *

(2) * * *

(i) Indicate on all copies of Form FmHA 1940–1, "Request for Obligation of Funds," any conditions not required by FmHA regulations that must be met for loan closing;

* * * * *

(iv) Indicate that satisfactory title evidence has been obtained;

* * * * *

(vi) Sign the original and one copy of Form FmHA 1940–1 and insert the title of the approval official.

(c) * * *

(1) * * *

(i) Form FmHA 1940–1 (copy).

* * * * *

(iv) Form FmHA 402–19, "Characteristics of Approved Applicants," (original) for initial loans only. If an initial Operating Loan (OL) or FO loan is approved at the same time, only one set of forms is required.

(2) The original of Form FmHA 1940–1 and the remainder of the loan docket will be sent to the County Office.

(3) * * *

(i) Form FmHA 1940–1 (copy).

* * * * *

(4) A signed copy of Form FmHA 1940–1 will be sent to the borrower on the date of loan approval.

(d) *Loan disapproval.* The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter. The following action will be taken when a loan is disapproved:

(1) The reason(s) for disapproval will be indicated on Form FmHA 1940–1 by the loan approval official. The reason(s) may be in a letter or the running record if this form has not been completed. Suggestions which could remedy the reasons for disapproval should be included.

(2) The County Supervisor will notify the applicant in writing of the action taken and include any suggestions that could result in favorable action. The applicant will be advised of the opportunity to appeal (see Subpart B of Part 1900 of this chapter).

* * * * *

61. § 1943.85 is amended by revising the introductory paragraph (a), by revising paragraphs (a)(2), and (b)(2), and the introductory paragraph (c) to read as follows:

§ 1943.85 Action after loan approval.

(a) *Requesting check.* If the County Supervisor is reasonably certain that the loan can be closed within 20 working days from the date of the check, loan funds may be requested at the time of loan approval through the state office terminal system. If funds are not requested when the loan is approved, advances in the amount needed will be requested through the state office terminal system. Loan funds must be provided to the applicant(s) within 15 days after loan approval, unless the applicant(s) agrees to a longer period. If no funds are available within 15 days of loan approval, funds will be provided to the applicant as soon as possible and within 15 days after funds become available, unless the applicant agrees to a longer period. If a longer period is agreed upon by the applicant(s), the same will be documented in the case file by the County Supervisor.

* * * * *

(2) When loan funds cannot be disbursed as outlined in paragraph (a)(1) of this section, the amount needed to meet the immediate needs of the borrower will be requested through the state office terminal system. The amount of each advance should meet the needs of the borrower as much as is possible, so the amount in the supervised bank account will be kept to a minimum. The Finance Office will continue to supply Form FmHA 440–57 until the entire loan has been disbursed. The County Supervisor should tell the borrower to notify the County Office of amounts needed on a timely basis to avoid delays in receiving loan checks.

(b) * * *

(2) If a loan check is received and the loan cannot be closed within 20 working days from the date of the check, the County Supervisor will take appropriate action in accordance with FmHA Instruction 102.1 (available in any FmHA Office). The applicant must agree to a delayed loan closing and the same will be documented in the case file by the County Supervisor.

* * * * *

(c) *Cancellation of loan.* If, for any reason a loan check or obligation will be cancelled, the County Supervisor will take the following actions:

* * * * *

62. § 1943.86 is amended by revising paragraph (g)(4)(iii) to read as follows:

§ 1943.86 Loan closing actions.

* * * * *

(g) * * *

(4) * * *

(iii) When a loan is made to a partnership or a joint operation, the note will be executed by all partners in the partnership or all joint operators in the joint operation.

* * * * *

PART 1944—HOUSING

63. The authority citation for Part 1944 continues to read as follows:

Authority: 42 U.S.C. 1480; 7 CFR 2.23, 7 CFR 2.70.

Subpart A—Section 502 Rural Housing Loan Policies, Procedures, and Authorizations

64. § 1944.26 is amended by revising the introductory paragraph (b) to read as follows:

§ 1944.26 Application processing.

* * * * *

(b) *Processing priorities.* Applications for Section 502 RH loans will be processed in accordance with § 1910.4(b) of Subpart A of Part 1910 of this chapter with the following exceptions:

* * * * *

PART 1945—EMERGENCY

65. The authority citation for Part 1945 continues to read as follows:

Exhibit D—Emergency Loans for Citrus Grove Rehabilitation and/or Reestablishment

§ 1945.151 Introduction.

(a) *Policy.* This subpart prescribes the policies, procedures, and authorizations of the Farmers Home Administration (FmHA) for making insured Emergency (EM) loans to farmers, ranchers, and aquaculture operators (hereinafter referred to as farmers), as provided by law. FmHA's policy is to make loans to any otherwise qualified applicant without regard to race, color, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the applicant can execute a legal contract). These regulations apply to applicants/borrowers and FmHA personnel involved in making EM loans.

(b) *Program administration.* The County Supervisor is the local contact person for application processing, loan making, and loan servicing activities.

§ 1945.152 Program objectives.

The objective of EM loans is to provide financial assistance to cover actual losses sustained by eligible farmers, so that they can return to normal farming operations after sustaining substantial losses as a result of a declared/designated disaster. EM loans are made to assist eligible disaster farm victims rehabilitate and resume their normal operations. This objective will be accomplished through the extension of credit and such supervisory assistance as is determined necessary to achieve the objectives of the loan and protect the Government's interest. Supervisory assistance will be given in accordance with the provisions of Subpart B of Part 1924 of this chapter. The borrowers has the responsibility of achieving the objectives of the loan. The borrower accomplishes this by repaying the loan according to the planned repayment schedule, maintaining FmHA security property, using loan funds for planned purposes only and following a plan of operation agreed upon with FmHA.

§ 1945.153 Loans for citrus grove rehabilitation or reestablishment.

Exhibit D of this subpart, which deals with loans made to operators of citrus groves, modifies some of the provisions contained in this subpart.

§ 1945.154 Definitions and abbreviations.

(a) *Definitions.* (1) *Applicant.* The person or entity conducting the farming operation at the time of the disaster and making a request for EM loan assistance from FmHA.

(2) *Approval official.* An FmHA official who has been delegated loan approval authorities within applicable loan programs, subject to the dollar limitations contained in tables available in any FmHA Office (see FmHA Instruction 1901–A, Exhibit C).

(3) *Aquaculture.* The husbandry of aquatic organisms in a controlled or selected environment. Aquatic organisms are fish (the term "fish" includes any aquatic gilled animal commonly known as "fish", as well as mollusks, crustaceans, or other invertebrates produced under controlled conditions—that is, feeding, tending, harvesting, and such other activities as are necessary to properly raise and market the products—in ponds, lakes, streams, or similar holding areas), amphibians, reptiles, or aquatic plants. An aquaculture operation is considered to be a farm only if it is conducted on grounds which the applicant owns, leases, or has an exclusive right to use. An exclusive right to use must be evidenced by a written permit or lease issued to the applicant and the permit or lease must specifically identify the waters to be used solely by the applicant.

(4) *Borrower.* Any party liable for the loan or any part thereof.

(5) *Calendar year.* The 12-month period beginning January 1 and ending December 31 of any given year.

(6) *Cooperative.* An entity which has farming as its purpose and whose members have agreed to share the profits of the farming enterprise. The entity must be recognized as a farm cooperative by the laws of the State(s) in which the entity will operate a farm(s).

(7) *Corporation.* For the purpose of this subpart, a private domestic corporation recognized as a corporation and authorized to carry on farming, ranching, or aquaculture operations under the laws of the State(s) in which the entity will operate a farm(s).

(8) *Eligible area.* A county or similar political subdivision in which EM loans are made available.

(9) *Established farmer.* A tenant-operator or owner-operator of a family farm who was actively participating in the operation and management of a farming operation at the time of the disaster, spends a substantial portion of time in carrying out the farming operation, and had planted a crop or had purchased livestock which were on the farm at the time of the disaster. If the applicant is a cooperative, a corporation, a partnership or a joint operation, it must be primarily engaged in farming, *i.e.*, the applicant entity must derive over fifty percent (50%) of its gross income from all sources from its farming operation.

(10) *Family farm.* A farm or ranch as defined in § 1941.4(d) of Subpart A of Part 1941 of this chapter.

(11) *Farm.* A tract or tracts of land, improvements, and other appurtenances considered to be farm property which are used or will be used in the production of crops or livestock. This includes aquaculture operations which meet the requirements set forth in paragraph (a)(3) of this section and includes nonfarm operations which meet the requirements set forth in paragraph (a)(21) of this section. It also includes a residence which, although physically separate from the farm acreage, is ordinarily treated as a part of the farm in the local community.

(12) *Farmer.* One who conducts a farming or ranching enterprise. One who actively manages an aquatic operation or performs such duties as are necessary to properly raise and market the products of an aquatic operation. A farmer can be an individual, a cooperative, a corporation, a joint operation or a partnership.

(13) *Farming enterprise.* The business of producing and marketing crops, livestock, livestock products, and aquatic organisms through the utilization and management of land, water, labor, capital, and basic raw materials. A livestock enterprise must be a basic part of the farming operation in order for feed crops to be considered as a basic enterprise in determining eligibility based on production losses to feed crops.

(i) *Single enterprise.* An enterprise which constitutes an integral part of an applicant's total farming operation. The

following are examples of single enterprises:

(A) All cash field crops;
(B) All cash vegetable crops;
(C) All cash fruit and nut crops;
(D) All feed crops fed to applicant's own livestock;
(E) Beef operations;
(F) Dairy operations;
(G) Hog operations;
(H) Poultry operations;
(I) Aquaculture operations; and
(J) All other operations (*i.e.*, trees grown for timber, etc.)

Note.—Some crops such as corn may be produced as a cash or feed crop. In such cases the actual acres produced for each purpose for the best 4 of the past 5 years will be used in determining losses for each single enterprise.

(ii) *Basic part of a farming operation.* Any single enterprise which normally generates sufficient income to be considered essential to the success of the total family farming operation.

(14) *Fixture.* Generally, an item attached to a building or other structure or to land in such a way that it cannot be removed without defacing or dismantling the structure, or substantially damaging the item itself.

(15) *Hazard insurance.* Includes coverage against losses due to fire, windstorm, lightning, hail, explosion, business interruption, riot, civil commotion, aircraft, land vehicles, marine vehicles, smoke, builder's risk, public liability, property damage, flood or mudslide, workmen's compensation, or any similar insurance that is available and needed to protect the security, or that which is required by law.

(16) *Incidence period.* The specific date(s) during which a disaster occurred.

(17) *Insured loan.* An EM loan made directly by FmHA as lender from the Agricultural Credit Insurance Fund, and serviced by FmHA personnel.

(18) *Joint Operation.* A farming entity in which two or more farmers work together sharing equally or unequally land, labor, equipment, expenses and/or income. The joint ownership of land and/or equipment or the exchange of labor and equipment in separate farming operations does not constitute a joint operation. They are two separate individual operations.

(19) *Majority or controlling interest.* Any individual or a combination of individuals owning more than a 50 percent interest in a cooperative, corporation, partnership, or joint farming operation.

(20) *Market value.* The amount which a willing buyer would pay a willing, but not forced, seller in a completely voluntary sale.

(21) *Nonfarm enterprise.* Any business enterprise, including a recreational enterprise, which provides less than 50 percent of the total net income from all sources (farm and nonfarm), which is needed to supplement farm income. It must provide goods or services for which there is a need and a reasonably reliable market.

(22) *Normal year's production.* The normal year's production is the average per acre yield or production per animal unit of the 4 better years out of the 5 years immediately preceding the disaster year.

(23) *Partnership.* An entity consisting of individuals and/or other entities who have agreed to operate a farm. The entity must be recognized as a partnership by the laws of the State(s) in which the entity will operate a farm, be authorized to own both real and personal property and to incur debts in its own name.

(24) *Physical loss.* Damages to or destruction of physical property including farmland (except sheet erosion); structures on the land such as buildings, fences, dams, etc.; machinery, equipment, and tools; livestock; livestock products; harvested crops; and supplies.

(25) *Principal Members, Stockholders, Partners and Joint Operators.* Any member, stockholder, partner or joint operator owning or controlling a 10 percent interest in a cooperative, corporation, partnership or joint operation is considered a principal principal stockholder, or member, principal partner or principal joint operator. If no member, stockholder, partner or joint operator owns or controls at least a 10 percent interest, all members, partners, stockholders or joint operators will be considered principal members, partners, stockholders or joint operators.

(26) *Production loss.* The reduction in normal production, directly attributable to the natural disaster of yield per acre and/or quality of crops produced, or quantity and/or quality of livestock products produced per animal unit, and of weight gain and/or natural increases in numbers of livestock units.

(27) *Qualifying disaster.* A major disaster, Presidential Emergency, or natural disaster as defined in Subpart A of Part 1945 of this chapter.

(28) *Qualifying physical loss.* A loss caused by damage to or destruction of physical property that is essential to the successful operation of the farm, and if it is not repaired or replaced, the farmer would be unable to continue operations on a reasonably sound basis.

(29) *Qualifying production loss.* The production loss an applicant sustained from the disaster that is equivalent to at least a 30 percent loss of normal per acre or per animal production in any single enterprise which is a basic part of the total farming operation. Losses of livestock increases, *e.g.*, calves, pigs, etc., are considered production losses, except when live animals are destroyed. When an animal is killed, lost or sold because of injury or reduced production potential caused by the disaster, it is considered a physical loss. Reductions in the production of livestock, livestock products or reductions in weight gains of animals, due to homegrown feed crop and/or pasture losses, will not be considered production losses when replacement feed is available to purchase, regardless of the cost of that feed (normally production losses to livestock enterprises will be based on feed crop and pasture losses). When the disaster has severely disrupted the usual feeding schedule of a livestock enterprise because of extended utility failure or inaccessability to the livestock, losses in production of milk, eggs, weight losses, etc., may be considered as production losses. Production losses will be calculated based on the reduction from normal which occurs during the disruption period and the period needed to bring production back up to the normal level.

(30) *Related by blood or marriage.* As used in this subpart, individuals who are connected to one another as husband, wife; parent, child, brother or sister.

(31) *Security.* Property of any kind subject to a real or personal property lien. Any reference to collateral or security property shall be considered a reference to the term "security."

(32) *State or United States.* The United States itself, each of the several States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(33) *Subsequent loans.* Any Em loans processed by the Finance Officer after it processed the first EM loan to a borrower. The disaster designation number is not considered in determining whether an EM loan is a subsequent loan.

(34) *Termination date.* The date specified in a disaster declaration/determination/notification which establishes the final date after which EM loan applications can no longer be accepted. For both physical and production losses, the termination date is 8 months from the date of the disaster declaration/determination/notification.

VOL 51 ISS 76 AP 21 1986 UMI

(b) *Abbreviations.* The following abbreviations are used in this subpart.

(1) *ASCS*—Agricultural Stabilization and Conservation Service.

(2) *ECP*—Emergency Conservation Program.

(3) *EFP*—Emergency Feed Program.

(4) *EM*—Emergency Loans.

(5) *FCIC*—Federal Crop Insurance Corporation.

(6) *FEMA*—Federal Emergency Management Agency.

(7) *FIA*—Federal Insurance Administration.

(8) *FmHA*—Farmers Home Administration.

(9) *FMI*—Forms Manual Insert.

(10) *INS*—Immigration and Naturalization Service.

(11) *OGC*—Office of the General Counsel.

(12) *SBA*—Small Business Administration.

(13) *UCC*—Uniform Commerical Code.

(14) *USDA*—United States Department of Agriculture.

§ 1945.155 Relationship between FmHA and other federal agencies.

(a) *SBA and FmHA.* Two Memoranda of Understanding between the SBA and USDA-FmHA pertaining to Disaster Loan Assistance are attached as Exhibit B and Exhibit B-1.

(b) *ASCS and FmHA.* A Memorandum of Understanding between the ASCS and FmHA on Disaster Assistance is attached as Exhibit C.

(c) *FCIC and FmHA.* A Memorandum of Understanding between FCIC and FmHA pertaining to crop insurance and exchanging information essential to the elimination of duplication of disaster compensatory benefits is Exhibit A of FmHA Instruction 2000–N (available in any FmHA office).

§ 1945.156 The test for credit and certification requirements for availability of credit elsewhere.

(a) *Applicants who certify that other credit is available.* Applicants applying for EM loan assistance who certify they are able to obtain sufficient and suitable credit elsewhere to meet their actual farming and family living needs are not eligible for such assistance.

(b) *Applicants who certify that other credit is NOT available.* Applicants who certify they are not able to obtain sufficient credit elsewhere to meet their actual farming and family living needs must meet the requirements set out in this paragraph.

(1) *Test for credit for individuals and entities.* Applicants must be *unable* to obtain sufficient and suitable credit elsewhere to finance their actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in the community in or near which the applicant resides for loans for similar purposes and periods of time. If the applicant has been getting credit away from the local community where the farming operation is located, such source(s) of credit must also be contacted and considered. The applicant's equity in all assets, including, but not limited to, real estate, chattels, stocks, bonds, and Certificates of Deposit will be considered in determining the applicant's ability to obtain such credit from other sources. Also, the applicant must offer to pledge all assets as security when requesting credit from other lenders. Cooperatives, corporations, partnerships and joint farming operations and the principal members, stockholders, joint operators and partners, both individually and collectively, must be unable to provide the required financing from their own resources or with credit obtained from pledging those resources to other lenders. Form FmHA 1940–38, "Request for Lender's Verification of Loan Application," must be completed (with particular attention that item 2A is completed) and filed in the applicant's County Office case folder, and any additional facts concerning the findings, in all cases, must be documented and recorded in the running case record.

(2) *Test for credit certification requirements.* Applicants will certify in writing on the application form, and the County Supervisor shall make the determination whether or not adequate and suitable credit is available elsewhere to finance the applicant's actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in the community in or near which the applicant resides for loans for similar purposes and periods of time. The County Supervisor will consider all such information obtained from other lenders in making the determination, but is required to make an independent decision concerning the applicant's ability to obtain the needed credit elsewhere. Should the County Supervisor determine that the applicant can obtain the necessary credit elsewhere to meet actual needs, the applicant will be notified, in writing, that the applicant is not eligible for an EM loan(s).

(i) For applicants whose total EM loan(s) request is for $300,000 or less, the following actions will be taken:

(A) Applicants will be required to apply for the credit need from their normal lender(s) and, if their normal lender(s) is located outside the local community, from at least one agricultural lender in the local community, to determine whether such lender(s) will provide the credit. Form(s) FmHA 1940–38 must be completed by all lending sources contacted, unless an exception is made under the provisions of paragraph (b)(2)(i)(C) of this section. Only when the applicant is not able to obtain a loan, from one or more of the lending sources contacted, will the applicant be considered for an EM loan. If the County Supervisor believes it necessary, the action required in paragraph (b)(2)(ii) of this section will be taken.

(B) When the County Supervisor receives letters or other written evidence, including Form FmHA 1940–38, from a lender(s) indicating that the applicant is unable to obtain satisfactory credit from that source(s), such correspondence will be included in the loan docket.

(C) If it appear from a review of the application that it would be unduly burdensome for the applicant to obtain written declinations of credit from other lenders, the County Supervisor may make an exception to this requirement, provided the County Supervisor is familiar enough with other lenders' farm loan programs to determine that no possibility exists for the applicant to obtain the credit needed from those lenders. When this conclusion is reached, the basis for it will be recorded in the running case record, and further checks will not be necessary. However, when this exception is used, the applicant's normal lender(s) must be contacted in all cases and the results of that contact(s) must be well documented in the running case record.

(ii) For applicants whose total EM loan(s) request is for more than $300,000, the following actions will be taken:

(A) Applicants will be required to apply at not fewer than three conventional lending sources, including the Production Credit Association or Federal Land Bank, as appropriate, in the local community. In addition, when an applicant has a net worth of $1 million or more and produces evidence that the necessary credit cannot be obtained in the local community, the applicant will be required to contact at least two other lending sources outside the local area. One or more of those lenders contacted must be the applicant's normal lender(s).

(B) Form FmHA 1940–38 must be completed by all lending sources contacted, returned to the county office and handled in accordance with paragraph (b)(2)(i)(B) of this section.

(C) When the County Supervisor receives Form FmHA 1940–38 indicating that the applicant is unable to obtain satisfactory credit, the forms will be placed in the loan docket. However, such evidence will not preclude the County Supervisor from contacting other farm lenders in the area and making an independent determination of the applicant's ability to obtain credit elsewhere.

(3) *Use of nonessential assets (both farm and nonfarm) when seeking other credit.* When an EM loan(s) will be made, after other lenders have declined to provide needed credit to the applicant, the County Supervisor will, as a condition of loan approval, require the applicant and the principal owner(s) of the applicant entity to list all assets (both essential and nonessential) setting forth: why those assets and any income derived from them are needed; and how such assets and the income derived from them will be used for essential family living expenses and for maintaining a sound family farming operation(s). The loan approval official must determine that the applicant's plan for use of all assets and the income derived therefrom is acceptable; and the loan approval official will require the applicant and the principal owner(s) to mortgage and/or assign their interest in all assets to FmHA. Any assets not contributing to essential family living expenses and maintenance of a sound family farming operation will be considered nonessential; and the applicant and the principal owner(s) must, as a condition of loan approval, agree to sell the nonessential assets. The proceeds from such sale(s) will be used to reduce the amount of EM loan(s) requested, provided the assets can be sold prior to the EM loan(s) closing. If the nonessential asset(s) cannot be sold before loan(s) closing, the ownership interest in those assets will be mortgaged and/or assigned to FmHA; and a written agreement prepared and executed, in a manner approved by the OGC, the sell those assets at their present market value, within a specified period not to exceed one year from the date of loan(s) closing.

§ 1945.157–1945.160 [Reserved]

§ 1945.161 *Receiving and processing applications.*

(a) *Applications.* Applications for EM loans will be received and processed as outlined in Subpart A of Part 1910 of this chapter. Form FmHA 410–1 will be used for this purpose.

(1) Applications for initial EM loans for each disaster will be received only in areas where EM loans are made available in accordance with Subpart A of Part 1945 of this chapter, and must be postmarked or received in the county office before the specified 8-month termination date has passed. These applications must be processed within twelve months after they are filed.

(2) An applicant conducting a farming operation in different counties or locations will be considered for only one application, and will file that application in the county in which the farm headquarters is located, unless determined otherwise by the State Director. When the operation is located in more than one State, the State Directors involved will consult and determine which State will process the application and service the loan(s).

(3) Applications may be received and processed from FmHA EM loan borrowers or SBA disaster loan borrowers for that portion of the maximum EM loan originally authorized, but not requested initially from FmHA or SBA, provided the application is received within 8 months of the disaster declaration/determination/notification date.

(4) Applicants who are determined to be ineligible for an EM loan may be considered for other types of FmHA farm loans, when appropriate.

(b) *Statement of losses.* Applicant's statements of loss or damage will be obtained in support of their applications by having them complete Form FmHA 1945–22, "Certification of Disaster Losses."

(c) *ASCS verification of farm acreages, production and benefits.* From information obtained on Form FmHA 1945–22, the County Supervisor will send a separate Form FmHA 1945–29 "ASCS Verification of Farm Acreages, Production and Benefits," to the appropriate ASCS county office for verification of each ASCS Farm number that the applicant has certified constituted part of the disaster year's operation. ASCS records of acres of crops planted/grown in the disaster year, actual (proven) yields in the disaster year, ASCS established yields for the disaster year, ASCS emergency payments and the other information requested on that form must be obtained. The use of Form FmHA 1945–29 is optional for EM loans made for physical losses. It is required for EM loans made for production losses.

(d) *Evidence of operation.* If the applicant is a cooperative, corporation, partnership, or joint operation, it will provide evidence that it was operating as a cooperative, corporation, joint operation or partnership at the time the disaster loss occurred, or has changed its form in accordance with § 1945.162(1) of this subpart, after the loss occurred. The following information will be obtained and included in the loan docket:

(1) A complete list of all members, stockholders, partners or joint operators showing the address, citizenship, principal occupation, and the number of shares and percentage of ownership, or stock held in the cooperative or corporation by each, or the percentage of interest held in the partnership or joint operation by each.

(2) A current personal financial statement from each of the principal members of a cooperative, stockholders of a corporation, partners of a partnership, and joint operators of a joint operation. For this purpose, a principal is one owning or controlling as much as 10 percent of the ownership, stock or interest of a farming entity. If no member, stockholder, partner or joint operator owns or controls as much as 10 percent, each member, stockholder, partner or joint operator will be considered a principal. Any other member, stockholder, partner or joint operator having an ownership interest, whose financial statement in the judgment of the loan approval official would be pertinent to a consideration of the financial strength of the applicant entity, will also be required to provide a personal financial statement.

(3) A current financial statement (not over 30 days old at the time of filing the application) from the cooperative, corporation, partnership, or joint operation itself.

(4) A copy of the cooperative's or corporation's charter, or any written partnership or joint operation agreement, any articles of incorporation and by-laws, any certificate or evidence of current registration (good standing), and a resolution(s) adopted by the board of directors, members or stockholders authorizing specified officers of the cooperative, corporation, partnership or joint operation to apply for and obtain the desired loan and execute required debt, security, and other instruments and agreements.

(5) A copy of any written lease, contract, or agreement entered into by the cooperative, corporation, joint operation or partnership which may be pertinent to a consideration of its application. When a written lease is not obtainable, a statement setting forth the terms and conditions of the agreement will be included in the loan docket.

§ 1945.162 Eligibility requirements.

(a) *Test for credit.* Applicants must be unable to obtain sufficient credit elsewhere to finance actual needs at reasonable rates and terms, taking into

VOL 51 ISS 76 AP 21 1986 UMI

consideration prevailing private and cooperative rates and terms in the community in or near which the applicant resides for loans for similar purposes and periods of time.

(b) *Citizenship.* (1) An individual applicant must be a citizen of the United States (see section 1945.154(a)(32) of this subpart for the definition of "United States") or an alien lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act. Aliens must provide Forms I–151 or I–551, "Alien Registration Receipt Card." Indefinite parolees are not eligible. If the authenticity of the information shown on the alien's identification document is questioned, the County Supervisor may request the Immigration and Naturalization Service (INS) to verify the information appearing on the alien's identification card by completing INS Form G–641, "Application for Verification of Information from Immigration and Naturalization Records," obtainable from the nearest INS District Office. (See Exhibit B of Subpart A of Part 1944 of this chapter.) The completed form will be mailed to INS. The payment of a service fee by FmHA to INS is waived by inserting in the upper right hand corner of INS Form G–641, the following: "INTERAGENCY LAW ENFORCEMENT REQUEST".

(2) More than a 50 percent interest in the cooperative, corporation, partnership or joint operation must be owned by United States citizens (see section 1945.154(a)(32) of this subpart for the definition of "United States") or aliens lawfully admitted to the United States for permanent residence under the Immigration and Nationality Act.

(c) *Established farmer.* An applicant must be an established farmer (as defined in section 1945.154(a)(9) of this subpart) doing business either as an owner-operator or tenant-operator. An applicant who conducts the farming operation as an individual must manage the farming operation. If the applicant is a cooperative, corporation, joint operation or partnership, it must derive over fifty percent (50%) of its gross income from all sources from its farming operation, and at least one principal member, stockholder, joint operator or partner must manage the farming operation. Also, the entity must be authorized to conduct the farming operation(s) in the State(s) in which the farming operation is conducted. One who does not devote full time to the farming operation may be considered the manager provided that person, visits the farm at sufficiently frequent intervals to exercise control over the farming operation, makes decisions and gives directions on how the operation(s) should be run, and sees that the operation is being carried on properly. Any applicant that employs an outside full-time hired manager or management service does not qualify as an established farmer, regardless of the number of visits made by the individual applicant or the principal members, stockholders, partners or joint operators.

(1) An estate or trust; a corporation with over 50 percent of the ownership held by an estate, trust, another corporation, a partnership or a joint operation; a partnership or joint operation with over 50 percent of the ownership held by an estate, trust, corporation, another partnership or another joint operation is not considered to be an established farmer for EM loan purposes.

(2) Integrated livestock, poultry, and fish processors who operate primarily and directly as commercial businesses through contracts or business arrangements with farmers are not considered to be established farmers and are not eligible. However, a grower under contract with an integrator or processor is considered an established farmer even though the applicant operates through a contract arrangement with an integrated processor, provided the operation is not managed by an outside full-time hired manager or management service. Farmers operating through contract may be considered for EM loans for physical losses and production losses. However, eligibility for and the amount of their production losses will be determined from the applicant's share of the agricultural production as set forth in the contract.

(d) *Operate in a disaster area.* An applicant for an EM loan must have sustained qualifying losses in an area in which the availability of EM loans for actual losses has been determined in accordance with Subpart A of Part 1945 of this chapter; and must have filed an application before the expiration of the termination date. When an applicant's farming operation is located both in a designated county(ies) and a non-designated county(ies) refer to § 1945.163(a)(2)(xix) of this subpart.

(e) *Losses.* An applicant must have suffered qualifying production and/or physical losses to be eligible for an EM loan. Production losses must be to property in which the applicant has an ownership interest or an interest in which a security interest can be obtained. Physical losses must be to property in which the applicant has an ownership interest. See § 1945.163 of this subpart for the methods of determining qualifying losses.

(f) *Legal capacity.* An applicant must possess the legal capacity to contract for the loan.

(g) *Training and experience.* An applicant must possess the training and/or experience, character (emphasizing repayment ability and reliability), industry and ability necessary to carry out the proposed farming operations to assure a reasonable prospect of success with the assistance of the loan, and

(h) *Honestly endeavor.* The applicant will honestly endeavor to carry out the undertakings and obligations required of the applicant in connection with the loan.

(i) *Family farm.* The applicant's farm must be a family farm as defined in § 1945.163(a)(10) of this subpart. If the applicant was conducting larger than a family farm at the time of the disaster but will be conducting a family farm at the time an EM loan is closed, the applicant meets this eligibility requirement.

(j) *Intent to continue farming.* An applicant must show an intent to continue the operation after the disaster. Those applicants who were required to stop temporarily because of the disaster loss or damage to their operations but intend to continue farming with EM loan assistance meet this requirement.

(k) *EM loan(s) to cooperatives, corporations, joint operations or partnerships.* When an EM loan is made to a cooperative, corporation, partnership or joint operation, only one initial EM loan can be made to the entity constituting the farming operation to cover the losses per disaster. However, an individual member, stockholder, joint operator or partner may qualify for a separate EM loan to cover losses to a separate farming operation which the applicant conducts as an individual on a different farm tract.

(1) If the members, stockholders, partners or joint operators holding a majority interest are related by blood or marriage, at least one member, stockholder, partner or joint operator must operate the family farm.

(2) If the members, stockholders, partners or joint operators holding a majority interest are not related by blood or marriage, the majority interest holders must operate the family farm.

(3) If an entity applicant has an operator interest in any other family operation, that farming operation must be no larger than a family farm.

(l) *Change in the form of an applicant.* A change in the form of an applicant between the time of a qualifying loss and the time an EM loan is closed does not make the applicant ineligible for EM loan assistance. (Examples of changes in form are as follows: An entity may split into its individual members or into more than one entity. One or more individuals may leave an entity. An individual may incorporate. A partnership may become a joint operation, a corporation, a cooperative, or another partnership. A corporation may become a partnership, a joint operation, a cooperative, or another corporation. A cooperative may become a joint operation, a partnership, a corporation, or another cooperative. A joint operation may become a partnership, a corporation, or another cooperative. A joint operation may become a partnership, a corporation, a cooperative or may split into individual members.) Such an applicant is eligible for EM loan assistance subject to all of the following limitations and qualifications:

(1) The applicant must meet all FmHA eligibility requirements at the time of loan closing.

(2) The applicant must not conduct an operation larger than the operation that was being conducted at the time of the disaster.

(3) In the case of an entity applicant, all of the individuals who have an interest in the entity must have had an ownership interest (or an interest in which a security interest could be obtained) in the farming operation at the time of the disaster and/or must be heirs of those who had an ownership interest (or an interest in which a security interest could be obtained) in the farming operation at the time of the disaster. Heirs must have been participating in the operation at the time the disaster occurred and must be engaged in the farming operation at the time of loan approval.

(4) In the case of an individual applicant, that person must have had an ownership interest (or an interest in which a security interest could be obtained) in the operation at the time of the disaster and/or must be an heir of those who had an ownership interest (or an interest in which a security interest could be obtained) in the operation at the time of the disaster. An heir has to have been participating in the operation at the time the disaster occurred and has to be engaged in the farming operation at the time of loan approval.

(5) To determine the amount of an actual loss loan an applicant may receive, first calculate the actual loss suffered by the operation(s) as it existed at the time of the disaster, in accordance with section 1945.163 of this subpart. Then look at the individual applicant or the individual members, partners, joint operators or stockholders of an entity applicant and determine each person's percentage of ownership interest (or interest in which a security interest could be obtained) in the operation as it existed at the time of the disaster. For an entity applicant, add the percentages of all owners who had an interest in the entity that suffered the disaster losses. Multiply the actual loss suffered by the operation as it existed at the time of the disaster by this percentage figure; the result is the amount of actual loss loan the applicant may receive. For example, if one partner withdraws from a four-partner partnership (each person owning a 25% interest), the remaining three partners are eligible for 75 percent of the actual loss suffered by the operation as it existed at the time of the disaster.

§ 1945.163 Determining qualifying losses, eligibility for EM loan(s) and the maximum amount of each EM loan(s).

Disaster losses will be reported by applicants on Form FmHA 1945–22, "Certification of Disaster Losses," which states the physical and production losses suffered as a result of the declared/designated disaster. The applicant will report, on Form FmHA 1945–22, total acres and actual yields for all crops planted and/or grown in the disaster year, and the number of all animal units and production per animal unit being maintained at the time of the disaster. This information will come from the applicant's own records or from ASCS records of acres grown and proven actual yields in the disaster year. Applicants will also report their previous 5-year production levels as set forth in paragraph (a) of this section. This form will be completed and submitted to the county office with the application, as soon as the losses and/or damages can be accurately assessed. The information provided by applicants on Form FmHA 1945–22 will be the primary basis for FmHA's calculation of qualifying losses, eligibility for EM loan(s) based on production losses, and an applicant's maximum amount of EM loan eligibility. Therefore, applicants are required to certify, subject to penalties of law, that the accuracy and completeness of the information provided on Form FmHA 1945–22 can be supported by written records. Applicants will be asked to identify on that form any single farming enterprise they consider basic to the success of their total farming operation, and in which they have suffered a disaster loss. When an applicant's certified production loss claims seem unreasonable, they will be verified and the findings documented. Physical loss claims will be verified by requiring the applicant to furnish evidence of ownership and proof of the property loss or damage. Proof of ownership could be by deeds, mortgages, financial statements, insurance policies, and the like. Proof of the loss or damage could be by the applicant's own pictures, written certification by other persons or, when practical, by visual inspections by FmHA employees.

(a) *Production losses.* (1) The normal year's production will be established by eliminating the poorest year of the 5-year production history immediately preceding the disaster year and averaging the remaining 4 years' production. The applicant must select the year to be eliminated. The year selected to be eliminated must be the same year for all farm enterprises (i.e., all crops, livestock, and livestock products), which constituted a part of the applicant's farming operation during that year. A State Supplement will be issued which will be used in connection with paragraph (a)(1)(iii) of this section. The State Supplement will contain average production figures provided by the USDA State Crop and Livestock Reporting Service, when available. If those records are not available, the State Supplement will contain statistical data on production from similar State or Federal bodies. When this information is available by county, county averages will be used. If available only by State, the State averages will be used throughout the State. In those States where neither a County nor State average is available for an agricultural commodity(ies), the State Director, with the advice of representatives of other Federal and State agricultural agencies, will establish County or State averages and advise County Offices of these averages in the State Supplement. State Directors and Farmer Programs Chiefs in adjoining States will consult with each other before releasing these figures. An applicant must use data from the production record source(s) in the order of priority as listed in paragraphs (a)(1)(i), (i), (ii) and (iii) of this section. The applicant will identify, on Form FmHA 1945-22, the production record source(s) to be used in determining the normal year's production for each commodity that was produced on all farms operated by the applicant in the disaster year. The order of priority of production records that will be used is:

(i) The applicant's actual reliable farm records.

(ii) The Agriculture Stabilization and Conservation Service (ASCS) established yields. When this production record source is used, an applicant must obtain the information from ASCS and submit it with the

VOL 51 ISS 76 APR 21 1986 UMI

application to FmHA. Therefore, when the disaster year established yield is provided by ASCS for any given crop the 5-year production history for such crop is not needed. This production record source will be used only for those commodities for which the applicant's reliable farm records were not maintained.

(iii) County or State averages. When this production record source is used, an applicant needs to provide production data for only the disaster year. The averages will be found in the State Supplement mentioned in paragraph (a)(1) of this section.

This production record source will be used only for those commodities for which neither the applicant's reliable farm records nor ASCS established yields are available.

(iv) When one source of records is not available for the full 5 years preceding the disaster year a combination of record sources in paragraphs (a) (i), (ii) and (iii) of this section will be used.

(v) When an applicant's production loss is on land being developed and maximum production capacity has not been attained, the State Director will establish normal yields on a case-by-case basis.

(2) FmHA loan official(s) will complete Form FmHA 1945–28, "Calculation of Actual Losses."

(i) In calculating production losses, the same established unit prices will be used for the disaster year and the normal year in computing the dollar value of each enterprise. Unit prices will be established in accordance with paragraph (a)(2)(iii) of this section. In the production loss calculation, those crop production yields and production per animal unit records authorized in paragraphs (a)(1) (i), (ii) and (iii) of this section will be used.

(ii) Information certified on Form FmHA 1945–22 for the disaster year for all single enterprises (as defined in § 1945.154(a)(13)(i)), which suffered a loss due to the disaster, will be transposed from Form FmHA 1945–22 to the appropriate places on Form FmHA 1945–28. The FmHA official completing Form FmHA 1945–28 is responsible for verifying loss information provided by the applicant. Information obtained from ASCS on Form FmHA 1945–29 will be cross checked with information provided by the applicant on Form FmHA 1945–22. Any discrepancies will be resolved, loss calculations adjusted if necessary, and the correct information recorded in the County Office case file. When the applicant's disaster loss is due to a reduction in quality, rather than due to a reduction in quantity, the applicant will be given credit for this by adjusting actual production yield downward. This will be accomplished by converting the dollar value of the quality loss to a yield reduction equal in value to the quality loss. When such an adjustment is necessary, the basis used in making the adjustment will be the applicant's accurate records of production and sales receipts showing the price received and the grade of the commodity in question. This information will be well documented by the County Supervisor.

(iii) The gross dollar value of production losses will be computed for all crops and all livestock enterprises, which were a part of any single enterprise that suffered losses due to the disaster, by calculating the value of the disaster year's production and subtracting that amount from the calculated value of the normal year's production. Unit prices for all agricultural commodities produced commercially in each State will be established on a Statewide basis by all FmHA State Directors each year, and published in a State Supplement to be issued not later than February 15 of each year. These commodity prices will be established by averaging the monthly market prices of each commodity for the 12-month period preceding the calendar year in which the disaster occurs. The monthly average market prices will be provided by the USDA State Crop and Livestock Reporting Service, or similar State or Federal agency or body. Once established, these prices will not be changed for any EM loan processed under any disaster occurring on or after February 1 of that calendar year and through January 31 of the next calendar year. If Statewide figures are not available, the State Director will consult with other agricultural agency representatives and agricultural lenders in the local area before establishing commodity prices. State Directors and Farmer Programs Chiefs in adjoining States will consult each other before releasing their established commodity price lists.

(iv) The amount of actual production loss will be calculated for the single enterprise which is a basic part of the farming operation (see § 1945.154(a)(13) of this subpart) by subtracting all compensatory disaster payments which are related to the disaster and which have been received or will be received; *i.e.*, crop insurance indemnity payments, ASCS disaster program payments, or any other disaster compensation for that enterprise, from the gross dollar amount of production losses for that enterprise as determined in paragraph (a)(2)(iii) of this section.

(v) Actual losses for tobacco, peanuts and other crops grown under acreage and/or poundage control will not be calculated differently than any other crop; i.e., the calculations must not include the dollar value of underproduced pounds to be sold or produced in future years. The value of underproduced poundage allotments and quotas must not be subtracted from the loss. All "controlled" crop acreages planted in the disaster year, including acreage above the producer's allotments and quotas, will be considered even though the carry-over crop is not eligible for price supports until the next marketing year.

(vi) Actual losses for spring and fall annual crops of the same species will be treated as two separate crop losses and listed separately on Forms FmHA 1945–22 and 1945–28. The crop(s) not affected by the disaster will be considered as having produced a normal year's yield.

(vii) The dollar value of the actual production loss for the single enterprise which is a basic part of the farming operation as designated by the applicant in item F, Form FmHA 1945–22, will be divided by the previously calculated normal year's gross income for that enterprise. The result should be rounded to the nearest whole number. To illustrate, if the calculation shows a 29.49 percent production loss, round it down to 29 percent. If the calculation shows a 20.50 percent loss round it up to 30 percent. This establishes the percentage reduction in production from normal for that enterprise. If the percentage loss in any single enterprise (see § 1945.154(a)(13)) which is a basic part of the farming operation equals or exceeds 30 percent, and the applicant is otherwise eligible, EM loan assistance will be considered.

(viii) Once eligibility is established based on production losses, the total production loss sustained by the applicant, directly attributable to the disaster, is computed by adding the gross dollar amount of production losses of all single enterprises, whether or not they constitute a basic part of the farming operation, and subtracting from this total all compensatory disaster payments received or to be received for those enterprises.

(ix) The maximum EM loan for production losses is limited to *80 percent* of the total calculated actual production loss sustained by the applicant.

(x) Production losses to hayland, pasture and rangeland used for grazing livestock owned by the applicant must be based on the production from only those acres which are utilized in the

disaster year. Losses may be calculated by one of three methods when approved by the State Director. The State Director will decide which one of the three methods will be used throughout the State to calculate losses to pasture and rangeland; and issue a State Supplement to this subpart, setting forth the method(s) to be used Statewide.

(A) *The price per acre method.* The price per acre method is used to calculate pasture losses in the following manner:

(*1*) Determine the normal year's gross dollar value. To calculate this, multiply the number of acres available to be grazed for the disaster year; by the established rental charge per acre per month (this figure is established by the State Director in accordance with paragraph (a)(2)(iii) of this section); by the average number of months grazed per year during the highest 4 out of the 5 preceding years.

(*2*) Determine the disaster year gross dollar value. To calculate this, multiply the number of acres grazed during the disaster year; by the established rental charge per acre per month (as determined in accordance with paragraph (a)(2)(x)(A)(*1*) of this section); by the number of months the livestock were able to be grazed during the disaster year.

(*3*) Subtract the disaster year gross doller value (see paragraph (a)(2)(x)(A)(*2*) of this section) from the normal year gross dollar value (see paragraph (a)(2)(x)(A)(*1*) of this section) to determine the value of pasture loss suffered during the disaster year.

(B) The charge per head or animal unit method. The charge per head or per animal unit method is used to calculate pasture losses in the following manner:

(*1*) Determine the normal year gross dollar value. To calculate this, multiply the number of animals or animal units grazed per month during the disaster year; by the established rental charge per animal or per animal unit per month (this figure is established by the State Director in accordance with paragraph (a)(2)(iii) of this section); by the average number of months grazed per year during the highest 4 out of the preceding 5 years.

(*2*) Determine the disaster year gross dollar value. To calculate this, multiply the number of animals or animal units grazed per month during the disaster year; by the established normal rental charge per animal or per animal unit per month (as determined in accordance with paragraph (a)(2)(x)(B)(*1*) of this section); by the number of months grazed during the disaster year.

(*3*) Subtract the disaster year gross dollar value (see paragraph (a)(2)(x)(B)(*2*) of this section) from the normal year gross dollar value (see paragraph (a)(2)(x)(B)(*1*) of this section) to determine the value of pasture loss suffered during the disaster year.

(C) The forage equivalent method. The forage equivalent method is used to calculate pasture losses in the following manner:

(*1*) Determine the normal year gross dollar value. To calculate this, multiply the number of acres grazed during the disaster year; by the established price per pound or ton (this figure is established by the State Director in accordance with paragraph (a)(2)(iii) of this section); by the average number of pounds or tons of forage equivalent produced per acre per year during the highest 4 out of the preceding 5 years for forage of the type being used in this calculation. (The State Office will set forth the forage equivalent values to be used or the methodology to be used to derive this value in a State Supplement. This information may be set forth on a countywide or statewide basis. The State Director may contact the State's Extension Service or other knowledgeable sources to assist in establishing the forage equivalent determination).

(*2*) Determine the disaster year gross dollar value. To calculate this, multiply the number of acres grazed during the disaster year; by the established price per pound or ton (this figure is established by the State Director in accordance with paragraph (a)(2)(x)(C)(*1*) of this section); by the number of pounds or tons of forage equivalent produced for forage of the type being used in this calculation produced in the disaster year. (See paragraph (a)(2)(x)(C)(*1*) of this section for further information.)

(*3*) Subtract the disaster year gross dollar value (see paragraph (a)(2)(x)(C)(*2*) of this section) from the normal year gross dollar value (see paragraph (a)(2)(x)(C)(*1*) of this section) to determine the value of pasture loss during the disaster year.

(xi) When a crop cannot be planted, an applicant may treat the loss either as a production loss or as a physical loss (see paragraph (b) of this section). When a crop cannot be planted and the applicant chooses to treat the loss as a production loss, the loss will be calculated as set out in this paragraph. Such loss will be calculated as follows: Add all income that is derived from the enterprise to the variable and fixed costs which are not incurred because of the disaster. (The cost figures will be derived from current crop enterprise budgets prepared by State Agricultural Extension Service economists, based on normal farming conditions in the area.) Subtract this figure from the value of the normal year's production. The resulting figure is the gross dollar amount of production loss.

(xii) When a crop can be only partially planted due to a disaster or when perennial crops (such as fruits or nuts) already growing cannot be produced or harvested due to a disaster, the loss will be considered a production loss. Such loss will be calculated as set out in paragraph (a)(2)(xi) of this section.

(xiii) When a crop is planted and completely destroyed by a disaster, a yield of "zero" may be shown on Form FmHA 1945–22 for the disaster year but only if no part of the crop could be harvested and no substitute crop could be planted and harvested. When figuring the actual dollar amount of production losses subtract the normal costs of harvesting and marketing which were not incurred for crops which were completely destroyed by a disaster. If a substitute crop is planted and harvested during the same crop year, a yield of "zero" should be shown for the original crop and the actual yield for the substitute crop on Form FmHA 1945–22. On Form FmHA 1945–28, the dollar value of the substitute crop must be subtracted from the dollar value of the normal year's production.

(xiv) Losses to feed crops will be established by determining the normal year's gross dollar value of those crops and subtracting the disaster year's gross dollar value of feed crops. The difference establishes the disaster year's gross dollar loss for feed crops. The gross dollar value of feed crops produced is derived by multiplying the number of feed crop acres by the yield per acre by the unit price.

(xv) When a applicant elects to sell feeder livestock at an earlier date than usual rather than purchase feed to replace that which was lost as a result of the disaster, the difference between what the sale price would have been if the livestock had been fed for the normal period and the disaster year's premature sale price may not be claimed as a loss.

(xvi) Eligibility for production losses to livestock enterprises may be based either on loss of production in feed crops, including pasture, to be fed to the applicant's own livestock; or on loss (from normal) of weight gain of the livestock or livestock products produced, but not both. The value of feed produced on native rangeland and pasture constitutes a small portion of the total input costs of maintaining a foundation herd of breeding animals and

VOL 51 ISS 76 AP 21 1986 UMI

their offspring. Therefore, loan approval officials will calculate production losses to livestock operations based on reductions in animal unit weight gain and natural increase in numbers.

(xvii) Claims of production losses from the applicant will be verified by FmHA when the applicant's claims appear to be unreasonable.

(xviii) Production losses for orchard crops (fruit or nut) will be only for the crop loss due to the qualifying disaster and determined in accordance with paragraph (a)(2) of this section.

(xix) When an applicant's farming operation(s) is conducted in a designated county(ies) and a nondesignated county(ies), eligibility will be established based on losses to a single enterprise which constitutes a basic part of the farming operation, without regard to whether the single enterprise is located in the designated county. The disaster year's actual yields, both in the designated and nondesignated counties, will be used to determine losses. Compensatory payments will be subtracted as explained in paragraph (a)(2)(iv) of this section when determining eligibility. The amount of the production loss loan will be limited to the production loss sustained in the designated county, minus compensatory payments received or to be received for that portion of the farming operation located in the designated county.

(xx) The County Supervisor will assign normal yields to all unplanted acreage covered by a Payment in Kind (PIK) contract, when calculating crop production losses on Form FmHA 1945-26.

(b) *Physical losses.* (1) In order to qualify for an EM loan(s) for physical losses, the damaged or destroyed physical property must be essential to the successful operation of the farm and if not repaired or replaced, the farmer would be unable to continue operations on a reasonably sound basis. The financing necessary to recover from the physical loss must be actually needed to permit the applicant to continue the operation.

(2) The claimed value of all physical losses due to disaster damage or destruction must be supported by written estimates for the necessary repair or replacement requested.

(3) Physical loss loan funds can be used to pay for only contracted or hired labor and materials and supplies purchased. Labor, machinery, equipment, and materials contributed by the applicant or borrower will not be chargeable to the cost of necessary repair and replacement.

(4) Damage to or destruction of nonessential buildings, structures or other items will not be repaired or replaced with EM physical loss loan funds. Any insurance compensation received or to be received for such losses will be considered as compensation for losses to essential farm buildings, structures and other items which need to be repaired or replaced.

(5) The maximum physical loss loan(s) will be determined by subtracting all insurance claims and any other compensation received or to be received for physical disaster losses from the value of all actual physical losses caused by the disaster.

(6) The physical loss equals the market value at the time of the disaster for items lost, damaged or destroyed by or as a result of the disaster. Such items included:

(i) Livestock

(A) Death of an animal(s) caused by the disaster.

(B) Disaster related damage to an animal's(s') health, which has impaired or reduced its normal production capability and its market value. This includes forced reductions of foundation breeding stock caused by the disaster. Physical losses, under these conditions, would be calculated by establishing a dollar value per head, or unit, at the time the disaster occurred, and deducting the reduced dollar value received from the disaster caused sale of the animals. The difference in the two values would be considered a physical loss. (The animals sold must be over and above the numbers normally culled each year).

(ii) Livestock products on hand or stored.

(iii) Harvested crops on hand or stored.

(iv) Supplies on hand.

(7) The actual physical loss for farm dwellings to be used by the operator and existing labor is the lesser of:

(i) The market value of the property at the time it was damaged or destroyed; or

(ii) The amount required to repair the dwelling or replace it with one which will meet all applicable code requirements; and which will provide permanent, adequate, decent, safe, sanitary and modest living quarters.

(8) The actual physical loss for farm service buildings and farm real estate other than buildings is the amount required to repair the property or replace it with a building or property of like quality and capacity which will meet all applicable code requirements and which will adequately meet the needs of the farming operation. This amount cannot exceed the market value of the property at the time of the disaster.

(9) The actual physical loss for income-producing trees (fruit or nuts) is the cost of removing the damaged or destroyed trees, cleaning debris and preparing the land for replanting, plus the cost of suitable replacement trees and other expenses necessary to reestablish income-producing trees. Losses will not be determined by establishing a value for the trees destroyed or damaged. Any salvage value will be deducted from the loss. The applicant may choose to replace the damaged or destroyed trees with a different enterprise and may use actual loss loan funds for that purpose. (See Exhibit D of this subpart for physical loss loans to citrus growers.)

(10) The actual physical loss to trees (grown for timber) will be determined by establishing the value of trees less any salvage value. This estimate of value must be determined by a recognized forester who will cruise the timber and establish the value of the destroyed and damaged trees. The applicant may choose to replace the demaged tree enterprise with a different enterprise and use the actual loss loan funds for that purpose. Those applicants whose major farming enterprises are other than tree farming, but who have a wood lot that has been damaged, will have their tree losses considered as physical losses in the same manner as set forth for tree farms.

(11) The actual physical loss for crops growing or pasture is the cost of cleaning debris, preparing the land for replanting, seed, fertilizer, and other expenses necessary to reestablish the crops or pasture. These costs can exceed the market value of the crops or pasture at the time of the disaster.

(12) When a crop cannot be planted during the disaster year due to the disaster and the applicant chooses to treat the loss as a physical loss, the actual physical loss is limited to the cost of land preparation, other expenses incurred to the date of the disaster for crops that could not be planted, and a pro rata share of the total operation's fixed costs such as rent, taxes, and insurance. The applicant must provide an itemized list of all the claimed expenses incurred in the disaster year for those enterprises for which disaster losses are claimed. This list must be signed by the applicant. The amount of an EM loan cannot exceed the total itemized expenses listed by the applicant.

(13) EM loans will not be made to flood and mudslide victims to repair or replace damaged or destroyed farm dwellings or farm service buildings and their contents in areas where "National Flood Insurance" is available, except as authorized in Subpart B of Part 1806 of this chapter (FmHA Instruction 426.2).

(14) When an applicant has only housing losses and is eligible for an SBA physical loss loan in an area where SBA physical loss loans are available, only SBA will make the loans for restoration or replacement of farm housing.

(c) *Compensation for losses.* Compensation for losses from a disaster through insurance, government disaster program benefits or any other disaster program relief received by an EM loan applicant, which does not have to be repaid, will reduce the applicant's loss by the amount of such compensation, and thus will be considered in determining the applicant's eligibility for EM loan assistance and the maximum amount of loss loan entitlement. The amount of any disaster program benefits received from ASCS, including the Emergency Feed Assistance Program (EFAP), Emergency Conservation Program (ECP), and Disaster Program payments will be considered as compensation for losses (ASCS Deficiency Payments are not to be considered as compensation). The amount of any SBA physical disaster loan assistance received for the same disaster, based on physical and/or production losses to the same property will not be considered as compensation in determining the applicant's eligibility, but will be deducted from the applicant's actual disaster losses in determining the applicant's maximum actual loss loan entitlement.

(d) *Maximum EM loans.* This amount will be limited to the amount necessary to restore the farm to its pre-disaster condition; however, this will not exceed the sum of the maximum production loss (paragraph (a)(2)(ix) of this section) and the maximum physical loss (paragraph (b) of this section) or $500,000, whichever is the lesser. If the applicant has also received an SBA disaster loan for the same losses, the sum of the EM loan and the SBA disaster loan cannot exceed $500,000. Indebted EM loan borrowers could receive later EM loans not to exceed $500,000 for each additional qualifying disaster.

§ 1945.164-1945.165 [Reserved]

§ 1954.166 Loan purposes.

(a) *Policy on use of EM loan funds.* (1) The amount of the maximum EM loans(s) in addition to the limitations contained in § 1945.163 (a) (2)(ix) and (d) of this subpart, is further limited to the actual dollar loss, or the actual amount of essential family, farm, and nonfarm enterprise credit that the applicant needs to carry on normal operations, whichever is the lesser. EM loan funds will not be used to finance a nonfarm enterprise, unless the loan is made to an individual applicant and such enterprise is needed to support a reasonable standard of living for the family. The use of EM loan funds will be identified in the farm and home plan so that determination can be made as to whether such loan(s) were used for authorized purposes and covered all or a portion of the actual dollar loss.

(2) EM loan funds may be used for any Subtitle A, or Subtitle B, loan purpose as described in paragraphs (b) and (c) of this section.

(b) *EM loans for real estate (Subtitle A) purposes.* EM loans for real estate purposes may be made to owner-operators only. The following are authorized real estate purposes for which EM loan funds may be used:

(1) Purchase real estate necessary to:

(i) Replace land and/or water resources that cannot be restored due to the disaster;

(ii) Establish a new site for farm dwellings and service buildings so that the applicant can relocate outside of a flood or mudslide prone area;

(iii) Replace land necessary to restore an effective operation which was liquidated as a result of the disaster before an EM loan could be made.

(2) Construct, buy, or improve buildings and facilities essential to the applicant's farming operation, including:

(i) The construction of an essential farm dwelling and service buildings of modest design and cost, and facilities and structures for nonfarm enterprises.

(ii) The improvement, alteration, repair, replacement, relocation, or purchase and transfer of such essential dwellings and service buildings, facilities, structures and fixtures that become part of the real estate or customarily pass with the farm when it is sold. This includes pollution control and energy saving devices.

(iii) The purchase and/or installation of water and sewage systems and other equipment, including pollution control and energy saving devices necessary to operate a farm and/or a nonfarm enterprise, provided the items upon installation become part of the real estate, or customarily pass with the farm when it is sold.

(3) Provide land and water development; pollution control and energy saving measures; acquire water supplies and rights; and promote the use of conservation measures essential to the operation of the farm and any nonfarm enterprise facilities. This includes providing fencing, drainage and irrigation facilities, basic applications of lime and fertilizer, and facilities for land clearing. This also includes establishing approved forestry practices, fish ponds, trails and lakes, improving orchards, and establishing and improving permanent hay or pasture. Sources of water may be located outside the land owned provided appropriate rights or easements are obtained to ensure that the water and rights will pass with the farm when it is sold. The funds for land and water development may include the costs of machinery and equipment needed to do the development, only when the total cost of the development and machinery or equipment would not exceed the cost of contracting the work or hiring the labor and machinery needed to do it. Loan funds may be used to pay that part of the cost of facilities, improvements, and "practices" which will be paid for in connection with participation in programs such as the Agricultural Conservation or Great Plains programs, but only when such costs cannot be covered by purchase orders or assignments to material suppliers or contractors. If loan funds are advanced and the portion of the payment for which the funds were advanced is likely to exceed $1,000, the applicant will assign the payment to FmHA.

(i) Funds may be used to pay for development costs on land owned with defective title (see § 1943.19(b) of Subpart A of Part 1943 of this chapter) or on land in which the applicant owns an undivided interest, provided:

(A) The amount of loan funds used on such land is limited to $25,000;

(B) There is adequate security for the loan; and

(C) The tract with defective title or undivided interest is not to be included in the appraisal report.

(4) Refinance secured and unsecured debts, including FmHA debts suoject to all of the following:

(i) The applicant's present creditors will not furnish credit, even with a FmHA guaranteed operating or farm ownership loan, at rates and terms the applicant can meet.

(ii) When applicants request refinancing of loans owed normal lenders, such as banks, Production Credit Associations, Federal Land Banks or insurance companies, the County Supervisor will obtain, early in the loan processing, such lender's determination with respect to furnishing the applicant the additional credit necessary to accomplish the objectives of the EM loan and reestablish the applicant's operations on a sound basis within the applicant's ability to pay.

VOL 51 ISS 76 AP 21 1986 UMI

(iii) Loans will not normally be made to refinance intermediate and long-term debts. Only existing delinquent installments, plus the next installment which the applicant cannot pay, can be refinanced. In unusual circumstances, when the above refinancing is essential to enable the applicant to conduct a sound farming operation the above provisions may be waived. Ordinarily, in the case of old unsecured debts or inadequately secured debts, applicants will be requested to contact their creditor(s) and make every effort to obtain a substantial compromise reduction of such debts before they are refinanced, pursuant to Subpart A of Part 1933 of this chapter.

(iv) The County Supervisor must contact the appropriate lender; verify and document, either in the running record or by letter from the lender, the need to refinance secured debts and major unsecured debts; and determine the reason(s) the lender will not carry the debt. The unpaid balance of the debts to be refinanced will also be verified.

(5) Pay reasonable expenses customarily paid when obtaining, planning, making and closing a loan made for real estate purposes, such as fees for legal, architectural and other technical services, which are required to be paid by the applicant, and which cannot be paid by the applicant from other resources. Loan funds may also be used to pay the borrower's share of Social Security taxes for labor hired by the borrower in connection with land and building development. It is not intended that this paragraph be interpreted to include fees charged applicants by agricultural management consultants and other professionals for preparation of EM loan dockets, including farm and home plans and other FmHA forms used in processing such loans.

(6) Finance a nonfarm enterprise when it will provide another source of necessary income even though the owned acreage for such enterprise is not physically located on the farmland.

(7) Pay the first year's premium for required insurance on buildings on the property which are to serve as security for the loan. Buildings will be insured in accordance with Subpart A of Part 1806 of this chapter (FmHA Instruction 426.1), except when the appraisal report shows that the land alone adequately secures the loan. However, the applicant will be encouraged to take property insurance on essential buildings to protect the applicant's own interest. Borrowers eligible for insurance under the National Flood Insurance Act of 1968 will be advised of its availability in accordance with Subpart B of Part 1806 of this chapter (FmHA Instruction 426.2).

(c) *EM loan for operating (Subtitle B purposes).* EM loans for operating purposes may be made to owner-operators or tenant-operators. The following are authorized operating purposes for which EM loan funds may be used.

(1) Purchase machinery and equipment, livestock, poultry, fur bearing and other farm animals, aquatic organisms, worms, birds, tools, bees, and supplies; or to purchase an individual's or entity's undivided interest in such items; and pay farm operating expenses and costs incidental to reorganizing the farming system which will provide for a sound operation.

(2) Purchase and repair essential home equipment and furnishings, and pay essential family living expenses required by the individual applicant's family to sustain itself in a reasonably satisfactory manner. Entity operations are not eligible for loan funds to be used for these purposes.

(3) Refinance secured and unsecured annual operating type debts in whole or in part, including existing FmHA debts, and/or pay current or delinquent installments owed on other unsecured debts.

(4) Purchase milk base, either with or without cows, when such action is necessary to assure the borrower a satisfactory market for dairy production.

(5) Purchase grazing licenses, permits, or rights which can be validly sold and transferred.

(6) Augment and improve existing water supplies to alleviate the adverse effects of drought and other natural disasters.

(7) Purchase membership and stock in farm purchasing, farm marketing, or farm service-type cooperative associations, including grazing associations.

(8) Pay a secured creditor an amount not to exceed 20 percent of the appraised market value of the essential farm and nonfarm equipment under prior lien to that creditor, or 20 percent of the amount owed to such creditor, whichever is the lesser.

(9) Purchase a franchise, contract, or privilege when essential to the operation of the planned enterprise.

(10) Make a partial payment on crop storage and drying facilities when the Commodity Credit Corporation (CCC), through the ASCS, is providing the rest of the credit under the CCC Farm Storage and Drying Equipment Loan Program.

(11) Pay reasonable expenses customarily paid when obtaining, planning and closing a loan made for operating purposes, *i.e.*, fees for legal, architectural and other technical services, which are required to be paid by the applicant, and which cannot be paid by the applicant from other resources. It is not intended that this paragraph be interpreted to include fees charged applicants by agricultural management consultants and other professionals for preparation of EM loan dockets including farm and home plans and other FmHA forms used in processing such loans.

(12) Pay the borrower's share of Social Security taxes for the labor hired by the borrower in connection with land and building development.

§ 1945.167 Loan limitations and special provisions.

(a) *EM loans prohibited on crops grown in areas where FCIC crop insurance or multi-peril crop insurance is available.* Applicants will *not* be eligible for EM loans to cover damages and losses to any crop(s) planted and harvested after December 31, 1986, which was not insured, but could have been insured with FCIC crop insurance or multi-peril crop insurance. In such instances, applicants will not qualify for EM loans on those crops which could have been insured against the losses, unless the crops were not planted due to the declared/designated/authorized disaster(s).

(b) *Use of EM loan funds is not authorized for expansion purpose(s) beyond a family size farm.* EM loan funds will not be used to expand an applicant's farming, ranching, or aquaculture operation beyond that which constitutes a family size farming/ranching operation(s). This limitation is not intended to prohibit minor changes in crop or livestock enterprises provided:

(1) Any new or changed crop or livestock system is proven for the area; and

(2) The applicant has the knowledge and ability to manage the changed operation; and

(3) Substantial new or additional capital investment is not required.

EM applicants who conduct family size farming operations (as defined in paragraph (a)(10) of section 1945.154 of this subpart) may, if eligible, receive regular FmHA farm ownership (FO), and/or operating (OL) loans simultaneously with their initial (EM) loan to help finance their farming operations. If a borrower expands the farming operation(s) beyond a family size farming operation(s), no further EM loan assistance will be given even

though the borrower may suffer qualifying losses under a new declared/designated/authorized disaster.

(c) *Applicants involved in more than one operation.* Loans to applicants involved in more than one farming operation will be considered as follows:

(1) If an applicant, in addition to the applicant's own farming operation, owns or controls 50 percent or more of another farming operation(s), and the applicant is actively engaged in both operations, both the applicant and the other farm operation(s) may be considered for separate loans provided the combined total does not exceed the loan limitations as set out in § 1945.163(d) of this subpart.

(2) If the applicant is a cooperative, corporation, joint operation or partnership and any principal member, stockholder, partner or joint operator, owns or controls 50 percent or more of another farming operation(s) and is actively engaged in both operations, both the applicant entity and the other farming operation(s) may be considered for separate loans provided the combined total does not exceed the loan limitations as set out in § 1945.163(d) of this subpart.

(3) If an applicant, including any principal member, stockholder, partner or joint operator who, in addition to the applicant's own farm operation, owns or controls less than 50 percent of another farm operation(s), and is actively engaged in a separate farm operation(s), the applicant and the other farm operation(s) will be considered as separate entities for application of the loan limitations.

(4) If the applicant described in paragraphs (c) (1), (2) and (3) of this section is deemed to be ineligible, such determination shall not preclude the other operation(s) in which the applicant holds an interest from being considered for an EM loan(s).

(d) *Refinancing guaranteed loans.* An EM loan will not be made to refinance a guaranteed loan, except when the following conditions are met:

(1) The circumstances causing the need to refinance were beyond the borrower's control.

(2) Refinancing is in the best interest of the Government.

(e) *New appraisals.* New "Appraisal of Real Estate Reports" are not required if the appraisal report in the file is not over two years old, unless the approval official requests a new appraisal report, or unless significant changes in the market value of real estate have occurred in an area within the two-year period. Any changes in the value of real estate or chattel security will be recorded, dated and initialed by the certified appraiser on the appropriate appraisal reports in the file.

(f) *Recordkeeping.* EM borrowers receiving or indebted for EM loans of $100,000 or more are required to keep hard farm records on an approved format or use an accountant or a farm management service computer system as long as they are indebted for EM loans. EM borrowers are required to retain these records for three years. (See Subpart B of Part 1924 of this chapter.)

(g) *Disbursement of loan funds.* Loan funds which will not be disbursed for specific purposes at loan closing will not be requested in the initial request for funds from the Finance Office. The "Loan Disbursement System" will be used to make funds available when they are actually needed. See § 1945.169(a)(8) of this subpart for instructions on the use of supervised bank accounts.

(h) *Prohibition on guaranteeing repayment of advances from other credit sources.* FmHA employees will not guarantee repayment of advances from other credit sources, either personally or on behalf of applicants, borrowers, or FmHA.

§ 1945.168 Rates and terms.

(a) *Interest rates.* Upon request of the applicant, the interest rate charged by FmHA will be the lower of the interest rates in effect at the time of loan approval or loan closing. If the applicant does not indicate a choice, the loan will be closed at the interest rate in effect at the time of loan approval. Interest rates are specified in Exhibit B of FmHA Instruction 440.1 (available in any FmHA office) for the type assistance involved. Interest on the initial advance will accrue from the date of the promissory note. Interest on other advances will accrue from the date of the loan check for each such advance.

(b) *Terms of loans.* Loans will be scheduled for repayment at such time as the FmHA approval official may determine, consistent with the purpose of and need for the loan. The approval official will also consider the useful life of the security and the repayment ability of the applicant, as reflected in the completed Farm and Home Plan, when setting the term of each loan. There must be some payment scheduled at least annually. Loans will not be scheduled for terms longer than are justified and supported by the Farm and Home Plan.

(1) *Operating purposes (Subtitle B).* EM loans made for operating purposes will be scheduled for repayment as follows:

(i) Normally, loans will be scheduled for payment in a period not to exceed 7 years. However, loans may be scheduled for a longer repayment period if the FmHA approval official determines that the needs of the applicant justify a longer term, and the loan(s) can be secured for the longer term. Such longer period may be approved as warranted, but cannot exceed 20 years. This longer repayment period will be used only when the Farm and Home Plan projections indicate the applicant would be unable to repay the loan in a shorter period, taking into consideration rescheduling possibilities. The reason(s) that a term longer than 7 years is given must be documented in the county office case file. Generally, real estate will be needed as security when a repayment period is longer than 7 years.

(ii) Loans made for production expenses under § 1945.166(c) of this subpart, or for payment of bills incurred for such purposes for the operating or crop year being financed, will be scheduled for repayment when the principal income from the year's operations is normally received.

(iii) Loans made to purchase or produce feed for productive livestock or livestock to be fed for the market, or to pay bills incurred for such purposes for the crop year being financed, will be scheduled for repayment when the principal income from the sale of such livestock or livestock products is planned to be received.

(iv) When conditions warrant, installments may vary in amount. However, there must be at least a partial interest payment scheduled annually. Also, the final installment will not be larger than the amount which can be expected to be refinanced by other agricultural lenders or be repaid within a rescheduled period of not to exceed 15 years. The applicant must be advised before the loan is closed that FmHA will review each case at the end of the initial loan term to determine if rescheduling is warranted, and that there is no obligation for FmHA to continue with the borrower after the expiration of the initial loan term.

(2) *Real estate purposes (Subtitle A).* EM loans made for real estate purposes under § 1945.166(b) of this subpart will normally be scheduled for repayment in not to exceed 30 years. Loans may be scheduled for a longer repayment period if the FmHA approval official determines that the needs of the applicant justify a longer repayment period. A longer term may be approved as warranted, but cannot exceed 40 years. The longer repayment period will be used only when it is evident the applicant will be unable to repay the loan in a shorter period. The reason(s) for giving the longer period must be well

VOL 51 ISS 76 AP 21 1986 UMI

documented in the county office case file.

(3) *Repayment terms when debts are refinanced.* When secured or unsecured debts are refinanced with an EM loan, the type of security taken will determine the terms and the type of assistance code used on Form FmHA 1940-1, "Request for Obligation of Funds."

(i) When the primary security is other than real estate, the loan may be scheduled for repayment in accordance with paragraph (b)(1) of this section.

(ii) When real estate will serve as the primary security, the loan may be scheduled for repayment in accordance with paragraph (b)(2) of this section.

(c) *Consolidation, rescheduling and reamortization.* When the loan approval official determines that consolidation, rescheduling, or reamortization will assist in the orderly collection of an EM loan, the loan approval official may take such action in accordance with Subpart A of Part 1951 of this chapter.

(d) *Graduation.* Borrowers will be required to graduate when FmHA determines they are able to obtain their needed credit from conventional sources. All borrowers will be advised that they will be reviewed for graduation periodically in accordance with the graduation procedure in Subpart F of Part 1951 of this chapter. EM borrowers will be reviewed every two (2) years thereafter, until graduation is achieved or the EM indebtedness is paid in full. Applicants will be advised during loan processing and again at loan closing that they will be required to refinance at any time when other satisfactory credit is available to them, even though their loans have not fully matured.

§ 1945.169 Security requirements.

The County Supervisor is responsible for seeing that adequate and proper security is obtained and maintained and that the security instruments have been properly executed and recorded to protect the interest of the Government.

(a) *General Requirements.* (1) Except for the modifications contained in paragraph (d) of this section, security must be of such a nature and extent that repayment of the loan(s) is assured, considering the applicant's managerial ability; soundness of the operation, and projected earnings. Security for loans may include, but is not limited to the following: Land, buildings, structures, fixtures, furniture, machinery, equipment, livestock, livestock products, growing crops, stored crops, inventory, supplies, accounts receivable, cash or special cash collateral accounts, marketable securities, certificates of ownership of precious metals, and cash surrender value of life insurance. Security may also include assignments of leases or leasehold interests having a mortgageable value; revenues; royalties from mineral rights, patents and copyrights; and pledges of security by third parties.

(2) A lien will not be taken on property that cannot be made subject to a valid lien; nor will a lien be taken on subsistence livestock, household goods, small tools and small equipment such as handtools, power lawn mowers, and other items of like type not needed for security purposes. A lien on feed crops does not have to be taken if the crops produced by the borrower are used to feed livestock, other than livestock being fed for market, and the loan is otherwise well secured.

(3) When insured and guaranteed loans are involved with the same borrower, separate security must be clearly identified for each of the insured and guaranteed loans.

(b) *Personal liability.* The signatures of all principal partners of a partnership, principal members of a cooperative and principal stockholders of a corporation are required to evidence their full personal liabilities on the promissory note as individuals, except in unusual circumstances including legal disability or extended absence from the country.

(1) When the applicant is an unincorporated farm cooperative, the promissory note will be executed so as to evidence the liability of the cooperative as well as each member as an individual.

(2) When the applicant is a corporation or an incorporated cooperative, the promissory note will be executed by the corporation or cooperative acting through its authorized officials. To evidence the principal stockholders' or members' liability as individuals, each principal stockholder or member will sign the note.

(3) When the applicant is a partnership or joint operation, the promissory note will be executed so as to evidence the liability of the partnership or joint operation, as well as each partner or each joint operator, as an individual.

(c) *Personal and corporate guarantees.* (1) If a review of all credit factors indicates the need for additional security, the loan approval official may require additional personal and/or corporate guarantees, including guarantees from principals of parent, subsidiary or affiliated companies. The loan approval official will require that such guarantees be secured by security which has an equity value. Any security referred to in paragraph (a)(1) of this section may be used to secure the guarantees.

(2) Guarantors of applicants will:

(i) In the case of personal guarantees, provide current financial statements (not over 30 days old at time of filing), signed by the guarantors and disclosing community or homestead property.

(ii) In the case of corporate guarantees, provide current financial statements (not over 30 days old at time of filing), certified by an officer of the corporation.

(3) When security is taken under paragraph (c) of this section it will be serviced in accordance with Subpart A of Part 1962 of this chapter, if chattels; and in accordance with Subpart A of Part 1965 of this chapter, if real estate.

(d) *Applicant's repayment ability.* When adequate security is not available because of the disaster, the loan approval official will accept as security such collateral as is available, if the following conditions are met:

(1) A portion or all of the security has depreciated in value due to the disaster; and

(2) The available security, together with the approval official's confidence in the applicant's repayment ability, is adequate to secure the loan. When considering "repayment ability" as a form of security, the reserve or margin between the balance available for debt repayment shown on the Farm and Home Plan, and the principal and interest scheduled for payment is the "repayment ability" collateral which may be considered in loan making actions when this plan is developed for the typical year. The "typical year" plan must show that the portion of the loan secured by "repayment ability" will be paid back in a reasonable period of time, *i.e.*, the loan balance will be reduced to a fully secured loan within 3 years.

(e) *Life insurance.* If the loan approval official believes it is needed as additional security, life insurance may be required for the individual borrower or for the principals and key employees of an entity borrower listing FmHA as the beneficiary. This life insurance may be decreasing term insurance. A schedule of life insurance available as security for the loan will be included as part of the application.

(f) *Security for operating type purposes.* (1) EM loans made for Subtitle B (operating) purposes will be secured by a first lien on the crop(s) and/or livestock and livestock products being financed with EM loan funds. However, if the applicant does not have sufficient equity to secure the entire amount of the loan, additional security as prescribed in paragraph (a)(1) of this section will be taken to assure that the Government's financial interest will be protected. When the applicant can provide no security other than a first lien on the crop(s) and/or livestock and livestock products to be produced, the amount of the loan will be limited to 75 percent of the planned gross farm income as shown on the Farm and Home Plan based on normal production and prices authorized by the State Director for developing annual farm plans within the State.

(2) The advice of OGC will be obtained on how to perfect a security interest when milk base and grazing permits are taken as security.

(3) General intangibles, accounts receivable, and contract rights may be taken as security for production loss loans made to contract feeders, tenants with share-lease arrangements, or other farmers with similar arrangements.

(g) *Security for real estate type purposes.* EM loans made for Subtitle A (real estate purposes) will be secured by a lien on real estate. However, if the applicant does not have sufficient equity in the real estate to secure the entire amount of the loan, additional security as prescribed in paragraph (a)(1) of this section will be taken.

(h) *Combination of real estate and chattel security.* When chattels are primarily relied upon as security and real estate is taken only as additional security to better protect the Government's interest, only a certification of ownership and verification of equity in real estate is required, if the applicant is an individual. Certification of ownership may be accepted in the form of a notarized affidavit from the applicant stating who is the owner of record of the real estate in question and acknowledging all known debts, with balances owed, against the real estate. Whenever the County Supervisor is uncertain of the ownership of or debts against the real estate security, and for all loans to cooperatives, corporations, partnerships, or joint operations a title search is required.

(i) *Purchase contracts.* If the real estate offered as security is held under a purchase contract, the following conditions must exist:

(1) The applicant must be able to provide a mortgageable interest in the real estate.

(2) The applicant and the seller must agree in writing that any insurance proceeds received for real estate losses will be used only to replace or repair the damaged real estate improvements which are essential to the farming operation; or used for other essential real estate improvements; or paid on the EM loan or on any prior real estate indebtedness, including the purchase contract. If necessary, the applicant will negotiate with the seller to arrive at a new contract without any provisions objectionable to FmHA.

(3) If a satisfactory contract for sale cannot be negotiated or the seller refuses to enter into the agreement described in paragraph (i)(2) of this section, the applicant will make every effort to refinance the existing purchase contract. If the applicant cannot obtain refinancing from another source, EM loan funds may be considered to pay off the contract.

(4) If the conditions set out in paragraphs (i) (1), (2) and (3) of this section exist and an EM loan is approved, it can be closed provided the FmHA escrow agent or designated attorney certifies on Form FmHA 427-10, "Final Title Opinion", or in separate writing that:

(i) The purchase contract is not subject to summary cancellation on default and does not contain any other provisions which might jeopardize either the Government's security position or the borrower's ability to repay the loan.

(ii) The seller has agreed, in writing, to give FmHA notice of any breach by the purchaser, and has also agreed to give FmHA the option to rectify the condition(s) which amounts to a breach within thirty days. The thirty days begin to run on the day FmHA receives written notice of the breach.

(j) *Prior liens which may jeopardize the Government's security position.* If any prior liens against real estate offered as security contain future advance provisions or other provisions which might jeopardize the security position of the Government or the applicant's ability to meet the obligations of these prior liens and to pay the EM loan, the prior lienholders involved must agree in writing, before the loan is closed, to modify, waive, or subordinate such objectionable provisions to the interest of the Government. However, the Government's lien may be subject to the lien of another creditor for amounts advanced or to be advanced for annual operating and family living expenses for the operating or calendar year. The County Supervisor will determine if the creditor will be required to execute Form FmHA 441-13, "Division of Income and Nondisturbance Agreement," or a similar form approved by the OGC.

(k) *Circumstances under which advance notice of foreclosure or assignment is required.* When a junior lien on real estate is to be taken as security for a loan in States where a prior lienholder may foreclose the security instrument under power of sale, or otherwise, and extinguish junior liens of private parties without giving junior lienholders actual notice of the foreclosure proceedings, the prior lienholder must agree in writing to give FmHA advance notice of foreclosure or assignment of the mortgage.

(l) *Hazard insurance.* Hazard insurance with a standard mortgage clause naming FmHA as beneficiary may be required for every loan made. The minimum amount of insurance required is the lesser of the replacement cost of the property being insured or the amount of the loan. If essential insurable buildings are located on the property, or if new buildings are to be erected or major improvements are to be made to existing buildings, the applicant will provide adequate hazard insurance coverage at the time of loan closing, or as of the date materials are delivered to the property, whichever is appropriate. Notwithstanding the requirements of Subpart A of Part 1806 (FmHA Instruction 426.1) of this chapter, when the real estate appraisal report shows that the present market value of the land after deducting the value of buildings shown on the report exceeds the amount of the debt (including the EM loan) and the owner has equity equal to or exceeding the amount of the debt (including the EM loan), real estate property insurance may not be required. However, the applicant will be encouraged to obtain such insurance, if the applicant does not already have it, to protect the applicant's interest. If insurance claims for loss or damage to buildings to be replaced or repaired with loan funds are outstanding at the time the loan is approved, the applicant will be required to agree in writing that, when settlement is made, the proceeds of such claims will be used for replacement or repair of buildings, application on debt secured by prior liens, or applications on the EM loan.

(m) *Crop insurance.* Crop insurance is a good farm management tool. Loan approval officials will, therefore, encourage all borrowers, who grow crops, to obtain and maintain FCIC crop insurance or multi-peril crop insurance, if it is available.

(1) When EM loan funds are to be used as the primary source of financing for the ensuing year's crop production expenses, and those crops will serve as security for the loan, crop insurance will be required, if available, as a loan approval condition; and FmHA will require an "Assignment of Indemnity" on the borrower's crop insurance policy(ies).

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

(2) Even if FmHA is *not* the primary lender for annual crop production expenses, but has or will have a security interest in the crop(s), FmHA will require the borrower to carry crop insurance, if available, even if the primary lender will be the beneficiary under the "Assignment of Indemnity".

(3) When EM loans are based on physical losses only, crop insurance will not be required unless the EM loan funds are to be used for annual crop production expenses.

(4) When payment of crop insurance premiums is not required until after harvest, the premiums will be paid by releasing insured crop(s) sale proceeds, not withstanding the limits in §§ 1962.17 and 1962.29(b) of Subpart of this chapter. If the borrower's crop losses are sufficient to warrant an indemnity payment, the premium due will be deducted by the insurance carrier from such payment. The FmHA County Office will maintain a record on Form FmHA 1905–12, "Monthly Expirations," of the dates which borrowers' crop insurance premiums must be paid. This is in accordance with FmHA Instruction 1905–A, a copy of which is available in any FmHA office, and will assure that crop insurance policies do not terminate while insured crop(s) serve as security for FmHA loans.

(n) *Indian trust lands.* EM loans which are secured by trust or restricted land will be handled as follows: USDA and the Department of the Interior have agreed that FmHA loans which are to be secured by real estate liens may be made to Indians holding land in severalty under trust patents or deeds containing restrictions against alienation, subject to statutes under which they may, with the approval of the Secretary of the Interior, give valid and enforceable mortgages on their land. These statutes include, but are not limited to, the Act of March 29, 1956 (70 Stat. 62). When a lien is to be taken on trust or restricted property in connection with a loan to be made or insured by FmHA, the local representatives of the Bureau of Indian Affairs (BIA) will furnish requested advice and information with respect to the property and each applicant. The FmHA State Director should arrange with the Area Director or other appropriate local offical of the BIA as to the manner in which the information will be requested and furnished. A State Supplement will be issued to prescribe the actions to be taken by FmHA personnel to implement the making of loans under these conditions.

(o) *Unpatented public lands.* See Exhibit A of Subpart A of Part 1943 of this chapter for making EM loans to entrymen on unpatented public lands.

(p) *Taking security instruments.* The taking and filing of security instruments will be in accordance with Subpart B of Part 1941 of this chapter (chattels and crops) and with §§ 1945.169 and 1945.189 of this subpart (real estate). The borrower must have marketable title to the property which secures the loan and FmHA must ascertain that, when the security instruments are filed, no suits are pending or threatened which would adversely affect the interest of the borrower and the Government.

(q) *Assignments and consents.* (1) The value of stock required to be purchased by Federal Land Bank (FLB) Association borrowers may be added to the recommended market value of real estate, provided:

(i) An assignment can be obtained on the stock; or

(ii) An agreement is obtained which provides that:

(A) The value of the stock at the time the FLB loan is satisfied will be applied on the FLB loan as long as any FmHA loan is outstanding, or

(B) The stock refund check is made payble to the borrower and FmHA.

(iii) The total of the stock value and the recommended market value of real estate are indicated in the comments section of Form FmHA 422–1.

(2) An assignment of all or part of the applicant's share of income is required when title to a livestock or crop enterprise is held by a contractor under a written contract or when the enterprise is to be managed by the applicant under a share lease or share agreement. The contract, share lease or share agreement will be described specifically as "Contract Rights" or "Contract Rights in Livestock or Crops," (or as "Accounts" or "Accounts in Livestock or Crops," if required by a State Supplement) and so forth, in paragraph (1)(b) of the financing statement. A form approved by OGC will be used to obtain the assignment.

(3) An assignment of income can also be taken when the County Supervisior determines it is necessary to protect FmHA's interests.

(i) Form FmHA 443–16, "Assignment of Income from Real Estate Security ," will be used for assignments of real estate security income unless that form is legally inadequate in a particular State, in which case it may be adapted with the approval of the OGC.

(ii) Form FmHA 441–8, "Assignment of Proceeds from the Sale of Products," will be used for products or income in which FmHA does not have a security interest under the UCC. Other forms approved by OGC may be used when this form is not adequate.

(iii) Form FmHA 441–25, "Assignment of Proceeds from the Sale of Dairy Products and Release of Security Interest," will be used for dairy products in which FmHA has a security interest under the UCC.

(iv) Form FmHA 441–18, "Consent to Payment of Proceeds from Sale of Farm Products," will be used for products or income, except dairy products, in which FmHA has a security interest under the UCC.

(v) Forms provided by ASCS will be used for assignments of disaster and regular agricultural program payments.

(4) In UCC states, an assignment of income constitutes a security agreement and should be treated accordingly.

§§ 1945.170–1945.172 [Reserved]

§ 1945.173 General provisions—compliance requirements.

(a) *Scope of operation to be financed.* Only family size farming operations may be financed with EM loans, subject to the eligibility requirements, loan amount ceilings, repayment ability, need, available security and other provisions of this subpart.

(b) *Flood or mudslide prone areas.* Flood or mudslide hazards will be evaluated whenever the farm to be financed is located in special flood or mudslide prone areas as designated by the Federal Emergency Management Agency (FEMA). Subpart B of Part 1806 of this chapter (FmHA Instruction 426.2) and Subpart G of Part 1940 of this chapter will be complied with when loan funds are used to construct or improve buildings located in such areas. This will not prevent making loans on farms where the farmstead is located in a flood or mudslide prone area and funds are not included for building improvements. The flood or mudslide hazard will be recognized in the appraisal report.

(1) In identified special flood or mudslide hazard areas as designated by FEMA, the following policies are applicable for EM loans being made to finance buildings or fixtures and furnishings contained therein.

(i) If flood or mudslide insurance is available and an applicant has not taken such insurance and has suffered flood or mudslide losses, an EM loan may be made, only if flood or mudslide insurance is purchased before the EM loan is closed.

(ii) If flood or mudslide insurance is available and an applicant previously received and still is indebted for an EM loan, Rural Housing Disaster (RHD), or SBA disaster loan; and a condition of the loan required the obtaining of flood insurance but the applicant allowed the insurance to lapse; and the applicant had new flood or mudslide losses, the applicant will be considered to be in default on the loan agreement and dealt with accordingly. If it is determined to continue with the borrower and that the EM actual loss loan should be made, flood or mudslide insurance will be obtained before the EM loan is closed.

(iii) If flood or mudslide insurance is available and an applicant had previously received an EM, RHD, or SBA disaster loan; and a condition of the loan required obtaining flood or mudslide insurance and the applicant paid the loan in full and let the insurance lapse; the applicant will be handled in accordance with paragraph (b)(1)(i) of this section.

(iv) In those areas that have been designated by FEMA as special flood or mudslide hazard areas and flood or mudslide insurance is not available or has been withdrawn by FEMA, an applicant can receive an EM loan provided the farm buildings, including the dwelling, are relocated outside the 100-year flood area.

(v) EM loans to repair or replace farm buildings, including dwellings, must meet the requirements of § 1806.25 (a) or (b) of Subpart B of Part 1806 of this chapter (paragraph V, A or B of FmHA Instruction 426.2) as applicable, or be relocated outside the 100-year flood area.

(2) When land development or improvements such as dikes, terraces, fences, and intake structures are planned to be located in special flood or mudslide prone areas, EM loan funds may be used subject to the following:

(i) The Corps of Engineers or the SCS will be consulted concerning:

(A) Likelihood of flooding.

(B) Probability of flood damage.

(C) Recommendations on special design and specifications needed to minimize flood and mudslide hazards.

(ii) FmHA representatives will evaluate the proposal and record the decision in the loan docket in accordance with the requirements of Subpart G of Part 1940 of this chapter.

(c) *Civil rights.* The provisions of Subpart E of Part 1901 of this chapter will be complied with on all loans made which involve:

(1) Funds used to finance nonfarm enterprises and recreation enterprises. Applicants will sign Form FmHA 400–4, "Assurance Agreement," in these cases.

(2) Any development financed by FmHA that will be performed by a contract or subcontract or more than $10,000.

(d) *Protection of historical and archaeological properties.* If there is any evidence to indicate the property to be financed has historical or archaeological value, the provisions of Subpart F of Part 1901 and Subpart G of 1940 of this chapter will apply.

(e) *Environmental requirements.* See Subpart G of Part 1940 of this chapter for applicable requirements.

(f) *Real Estate Settlement Procedures Act.* The provisions of the Real Estate Settlement Procedures Act outlined in § 1940.406 of Subpart I of Part 1940 of this chapter apply when EM funds are used involving tracts of less than 25 acres. If:

(1) Any part of the loan is used to purchase all or part of the land to be mortgaged, and

(2) The loan is secured by a first lien on the property where a dwelling is located.

(g) *Nondiscrimination requirements.* In accordance with Federal Law, the FmHA will not discriminate against any otherwise qualified applicant on the basis of race, religion, sex, national origin, marital status, age, or physical/mental handicap (provided the applicant can execute a legal contract), with respect to any aspect of a credit transaction. The policy statement set forth in § 1945.151(a) of this subpart will also apply to credit transactions.

(h) *Compliance with special laws and regulations.* (1) Applicants will be required to comply with Federal, State and local laws and regulations governing building construction; diverting, appropriating, and using water including its use for domestic or nonfarm enterprise purposes; initalling facilities for draining land; and making changes in the use of land affected by zoning regulations.

(2) State Directors and Farmer Program Staff members will consult with SCS, U.S. Geological Survey, State Geologist or Engineer, or any board having official functions relating to water use or farm drainage requirements and restrictions for water and drainage development. State Supplements will be issued to provide guidelines which:

(i) State all requirements to be met, including the acquisition of water rights.

(ii) Define areas where development of ground water for irrigation is not recommended.

(iii) Define areas where land drainage is restricted.

(3) Applicants will comply with all local laws and regulations, and obtain any special licenses or permits needed for nonfarm, recreation, specialized or aquaculture farming enterprises.

§ 1945.174 [Reserved]

§ 1945.175 Options, planning and appraisals.

(a) *Optioning land.* When purchasing real property an applicant is responsible for obtaining options in accordance with the provisions contained in § 1943.25(a) of Subpart A of Part 1943 of this chapter.

(b) *Planning.* (1) Form FmHA 431–2 and Form FmHA 431–4, "Business Analysis—Nonagricultural Enterprise," when appropriate, will be completed as provided in Subpart B of Part 1924 of this chapter and in accordance with the FMIs. This planning process with the applicant is essential to making sound loans and, therefore, must receive careful attention in development of the loan docket. However, when the EM loan will be for not more than $25,000, Tables A, D, and E of Form FmHA 431–2 may be left blank, and only the totals in Tables G and J should be shown, provided Form FmHA 410–1 is completed and accurately reflects the applicant's current circumstances, and no supervision is planned. The plan *will* show any major items of expenditure and the reason(s) these items are needed. When preparing a plan of operation, it is usually necessary to plan for a capital expenditure reserve during interim years and the typical year. Realistically, this will reflect the depreciating value of machinery, equipment or other essential capital expenditure items, which it is prudent to expect will need to be replaced or require major repair. Also, all recurring and carry-over debts should be considered in a typical year plan. In addition, when all of the loan funds are not to be disbursed at loan closing, a *Monthly Budget* will be prepared showing the specific amount to be disbursed for each associated loan purpose for each month. The funds will be disbursed through use of the loan disbursement system (future advances) or, when determined necessary, through a supervised bank account.

(2) Development work will be planned and completed in accordance with Subpart A of Part 1924 of this chapter. Also, the provisions of Subpart E of Part 1901 of this chapter will be met in connection with EM loans involving recreational enterprises and the construction of buildings.

(c) *Appraisals.* (1) Real estate appraisals will be completed, on Form FmHA 422–1, or Form FmHA 1922–8, "Residential Appraisal Report," for farm real estate or residential farm real estate, respectively, by an FmHA employee authorized to make farm appraisals, when real estate is taken as

BEST COPY AVAILABLE

VOL 51 ISS 76 APR 21 1986 UMI

the primary security for the EM loan. The rights to mining products, gravel, oil, gas, coal or other minerals will be considered a portion of the security and will be specifically included as a part of the appraised value of the real estate securing the loans using Form FmHA 1922–11, "Appraisal Form for Mineral Rights." Appraisals are not required when:

(i) The amount of the EM loan(s) plus any existing FmHA principal indebtedness is $25,000 or less, and

(ii) The loan approval official determines the loan is adequately secured without an appraisal, and

(iii) The County Supervisor indicates in the loan docket an estimate of the market value of the real estate to be taken as security.

(iv) The provisions of paragraph (c)(4) of this section are applicable.

(2) Real estate appraisals will be completed as provided in Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1). However, the value of assets that secure EM loans associated with a disaster having any portion of its incidence period occurring on or after May 31, 1983, must be based on the higher of two appraisals, all of which must be made a part of the file. These appraisals will show:

(i) The asset value on the day before a State Governor's, Indian Tribal Council's, or an FmHA State Director's first EM designation request, which is associated with the naming of one or more counties in a State as a disaster area where eligible farmers may qualify for EM loans; or

(ii) The asset value one year (365 days) before the date set in paragraph (c)(2)(i) of this section.

(A) The following types of real estate offered as collateral for securing EM loans will be appraised at the present market value only:

(*1*) Farm real estate the applicant/borrower did not own on the dates set forth in paragraph (c)(2) (i) and (ii) of this section.

(*2*) Real estate "not owned" by the applicant/borrower (for example, a relative if offering real estate as collateral for the proposed EM loan).

(*3*) A single family dwelling located on a nonfarm tract.

(*4*) Other types of real estate such as apartment houses and commercial buildings. The County Supervisor will request the assistance of the State Director in establishing the value of such real estate.

(B) Sales data utilized in the preparation of the necessary appraisals should conform to the dates set forth in paragraph (c)(2) (i) and (ii) of this section, to ensure a fair market value of the property is established. In addition, it should be confirmed that said sales resulted from reasonable sales efforts and that both the buyer and seller were willing, informed, and knowledgeable parties.

(3) When FLB stock is to be used in establishing the Recommended Market Value (RMV) of the real estate being appraised, see § 1945.169(q)(1) of this subpart.

(4) When real estate is taken as additional security (for loans in which the primary security is subject to rapid depreciation or is of a high risk nature, such as crops), no appraisal report will be required for the additional security, provided the County Supervisor determines the security is adequate, and records the estimated value in the running case record, shows the date the property was inspected and certifies that in his/her opinion the estimates are correct based on knowledge of the value of comparable assets in the area.

(5) Chattel appraisals will be completed on Form FmHA 1945–15, "Value Determination Worksheet," when chattels are taken as security. The property which will serve as security will be described in sufficient detail so it can be identified. Sources such as livestock market reports and publications reflecting values of farm machinery and equipment will be used as appropriate. The value of assets that secure EM loans associated with a disaster having any portion of the incidence period occurring on or after May 31, 1983, must be based on the higher of two appraisals, all of which must be made part of the file. These appraisals will be based on the same information contained in paragraphs (c)(2) (i) and (ii) of this section. Chattels not owned by the applicant, and nonfarm chattel property offered as security (such as planes, house trailers, boats, etc.) will be appraised at the present market value only. Chattels that the applicant/borrower did not own on the dates set forth in paragraph (c)(2) (i) and (ii) of this section will be appraised at the present market value only.

(6) Abbreviated appraisals may be used and loans approved when:

(i) The loan approval official determines that the applicant's equity in the collateral will adequately secure the EM loan(s).

(ii) The abbreviated appraisals are prepared as follows:

(A) For real estate—Form FmHA 422–1, "Appraisal Report-Farm Tract," complete the heading of the report; Part 1, item A; Part 2; Part 3; Part 6; Part 7 and Part 8. The report will be signed and dated by an FmHA authorized appraiser.

(B) for chattel property—Form FmHA 1945–15 will list, identify and show the value of each chattel item. This form will be completed, as applicable, on all EM loans.

§ 1945.178–1945.179 [Reserved].

§ 1945.180 County Committee certification.

The County Committee will certify an applicant's eligibility on Form FmHA 440–2, "County Committee Certification or Recommendation," before each loan is approved. In some instances the committee may want to interview the applicant or see the farm before making any recommendations.

(a) *Certification.* If the County Committee finds the applicant eligible, it will prepare Form FmHA 440–2, "County Committee Certification or Recommendation." This form will be retained in the County Office file. The County Committee will comply with Subpart A of Part 1910 of this chapter.

(b) *Rejection.* If the County Committee determines the applicant ineligible the County Supervisor will inform the applicant in writing of the reasons for ineligibility. Reasons for unfavorable action will be given in the space provided on Form FmHA 440–2 above the space for signatures. The County Committee will comply with Subpart A of Part 1910 of this chapter. Also, the County Supervisor will complete Part III of Form(s) FmHA 1945–29 to show the rejection of the application, sign, date and forward to the appropriate ASCS county office in accordance with the FMI.

§ 1945.181 [Reserved].

§ 1945.182 Loan docket preparation.

(a) *Processing guide.* See Exhibit A of this subpart for Insured Emergency Loan Processing Guide. When a packager has developed the loan docket the County Supervisor will fully analyze the docket to assure it is complete and conforms with this EM loan regulation. The County Supervisor will reverify calculations in accordance with § 1945.183(a) and insure that the provisions of § 1945.183 of this subpart are met before final action is taken on the loan request.

(b) *Form FmHA 1940–1, "Request for Obligation of Funds".* A separate Form FmHA 1940–1 will be prepared for each EM loan which has a different interest rate and/or a different repayment period, as determined in accordance with § 1945.166 (a) and (b) of this subpart. Also, on Form FmHA 1940–1, for EM loans approved for borrowers presently indebted for an EM loan, but

having new qualifying losses from a subsequent authorized disaster, the new appropriate disaster authorization number will be shown.

(c) *Promissory note.* A separate promissory note will be prepared for each Form FmHA 1940–1 used in approving and obligating each of the EM loans.

(d) *Lease agreement.* Generally, a copy of the lease agreement between tenant applicants and their landlords will be obtained and made a part of the loan docket. When a written lease is not obtainable, a statement setting forth the terms and conditions of the agreement, which are not clearly reflected in Form FmHA 431–2, will be prepared and made a part of the loan docket.

§ 1945.183 Loan approval or disapproval.

(a) *Reverification before approval.* Before an EM loan is approved the following actions must be taken:

(1) A County Office employee will verify information provided by ASCS on all Forms FmHA 1945–29 in accordance with the FMI. If there have been any changes from the information originally provided and used in the loan docket preparation, appropriate changes will be made.

(2) A County Office employee will verify information provided by the Federal Crop Insurance Corporation (FCIC) regarding any insurance benefits which have been paid or will be paid. If there have been any changes from the information originally provided and used in the loan docket preparation, appropriate changes will be made.

(3) All calculations on Form FmHA 1945–22 and Form FmHA 1945–28 will be checked by a County Office clerical employee (either regular or temporary), using a calculator with a paper tape, to assure that mathematical errors are detected. The County Supervisor or designee will make any corrections necessary in the loan docket, when errors are located. The paper tape will be attached to Form FmHA 1945–28 or Form FmHA 1940–28 as appropriate.

(4) To prevent the duplication of benefits, FmHA and SBA have agreed to coordinate their respective EM and disaster loan program activities as follows; pursuant to the Memorandums of Understanding between FmHA and SBA, Exhibits B and B–1 of this subpart:

(i) The FmHA County Offices will notify the appropriate SBA Disaster Area Office of all EM loan applications received each day, including those received for loss of household contents.

(ii) FmHA County Offices will send a copy of each action taken with EM loan applicants to the appropriate SBA Disaster Area Office. Those actions include: The letter confirming county committee eligibility determination; loan approval, Form FmHA 1940–1; notification of application withdrawal; notification of loan denial; confirmation of request for reconsideration or appeal of loan denial; and final determination on an appeal. Copies of all written communications from FmHA County Offices to the SBA Area Offices will be sent to the State Director, Attention: Chief, Farmer Program; and the District Director.

(iii) Applicants who receive SBA loans may file for FmHA EM loans. In those cases, FmHA will either (A) reject the application, (B) reduce the FmHA EM loan by the amount of the SBA loan, which may require SBA to subordinate its lien position(s), or (C) refinance the SBA loan by using EM loan funds to pay SBA directly. An EM loan will not be approved until it is determined that the requirements of § 1945.163(d) of this subpart will be met. If an EM is approved, the FmHA County Office will notify the SBA Disaster Area Office pursuant to paragraph (a)(4)(ii) of this section.

(b) *Administrative determination and responsibilities.* When the County Committee certification has been made and the reverification has been completed, and before approving the loan, the loan approval official will determine administratively whether:

(1) The County Committee has certified that the applicant is eligible, likely to be successful in the proposed operations, and likely to achieve the objectives of the EM loan.

(2) The applicant has satisfactory tenure arrangements on the farm(s) to be operated.

(3) The proposed farm and home operations of the applicant are reasonably sound.

(4) The loan(s) being processed is proper and can be repaid from projected farm and/or nonfarm income as scheduled, and that in the planned typical year the farming operation will be self sustaining.

(5) The security requirements can be met.

(6) The certification(s) required of the applicant and the County Committee have been made and are a part of the loan docket.

(7) The proposed changes to be financed with the EM loan(s) are needed, and that the county office case file reflects the need for those changes.

(8) The loan meets all other FmHA requirements.

(c) *Loan docket transmittal to the Administrator.* (1) Transmittal memoranda accompanying EM loan dockets requiring National Office advice must set forth, as a minimum, the following information:

(i) Proposed loan(s), amount(s), rate(s) of interest, and term(s) of each loan.

(ii) Outstanding FmHA loan(s) balance(s) and the total proposed EM loan(s) indebtedness.

(iii) Status of outstanding FmHA loan(s).

(iv) Brief statements regarding:

(A) Cause and type of disaster losses.

(B) Inability to obtain other suitable credit.

(C) Purposes for which loan funds are to be used.

(D) Overall feasibility and soundness of the planned operation.

(E) Property offered as security for the loan(s).

(v) The State Director's specific positive recommendation that the requested actions be approved.

(2) Loan dockets should not be forwarded to the National Office for approval of any action unless the State Director is able to make a positive recommendation.

(3) Memoranda transmitting problem cases, on which State Directors are only seeking National Office counsel, should also contain their thinking, their interpretation of the appropriate FmHA regulations and policies, and their recommendations on how they believe the case in question should be handled.

(d) *Loan approval.* (1) The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter.

(2) The loan approval official will date, sign and distribute Form FmHA 1940–1 in accordance with the FMI and set forth any special conditions of approval, including any special security requirements, in the appropriate section on Form FmHA 1940–1.

(3) The County Supervisor will complete Part III of Form FmHA 1945–29 and forward the form to the appropriate ASCS county office(s).

(e) *Loan disapproval.* The loan approval official must approve or disapprove applications within the deadlines set out in § 1910.4 of Subpart A of Part 1910 of this chapter.

(1) If a loan is disapproved, the loan approval official will indicate the reasons for the rejection in the running case record and on Form FmHA 1940–1. Suggestions of how to remedy the disapproval should be included.

(2) The County Supervisor or loan approval official will notify the applicant by letter of the reason(s) for rejection and will advise the applicant in that letter of appeal rights as set out in Subpart B of Part 1900 of this chapter.

VOL 51 ISS 76 AP 21 1986 UMI

The letter will also include any suggestions that could result in favorable action.

(3) The County Supervisor will complete Part III of Form FmHA 1945–39 and forward the form to the appropriate ASCS county office.

(4) In areas where EM loans are being made under a *major disaster declaration*, and where the FEMA has advised the State Director that Section 408 grants are available, a list of applicants with physical losses, who do not qualify for EM loans, will be prepared and sent to the FEMA by County Supervisors at the close of business each week. Those applicants who are not eligible for an EM loan because they are not farmers as defined in § 1945.154 of this subpart will be screened and referred to the SBA for disaster loan assistance. The State Director will be advised by the FEMA where to send the list and the State Director will so advise the County Supervisors. The list will be prepared in the following format:

United States Department of Agriculture

Farmers Home Administration

To: _____

_____

The following is a list of applicants not qualifying for Farmers Home Administration's Emergency loans in _____ County during the week ending _____, 19____.

Name _____
Address _____

County Supervisor

§ 1945.184 [Reserved]

§ 1945.185 Actions after loan approval.

Loan funds must be provided to the applicant(s) within 15 days after loan approval, unless the applicant(s) agrees to a longer period. If no funds are available within 15 days of loan approval, funds will be provided to the applicant as soon as possible and within 15 days after funds become available, unless the applicant agrees to a longer period. If a longer period is agreed upon by the applicant(s), the same will be documented in the case file by the County Supervisor.

(a) *Cancellation of loan check and/or obligation.* If, for any reason, a loan check and obligation will be cancelled, the County Supervisor will notify the State Office and Finance Office of loan cancellation by using Form FmHA 1940–10, "Cancellation of U.S. Treasury Check and/or Obligation." If a check received in the County Office is to be cancelled, the check will be returned to the Finance Office with an original and one copy of Form FmHA 1940–10 (see FmHA Instruction 102.1, a copy of which is available in any FmHA office).

(b) *Cancellation of advances.* When an advance is to be cancelled, the County Supervisor must take the following actions:

(1) Complete and distribute Form FmHA 1940–10.

(2) When necessary, obtain a substitute promissory note reflecting the revised total of the loan and the revised repayment schedule. When it is not necessary to obtain a substitute promissory note, the County Supervisor will show on Form FmHA 440–57, "Acknowledgement of Obligated Funds/Check Request," the revised amount of the loan and the revised repayment schedule.

(c) *Increase or decrease in loan amount.* If it becomes necessary to increase or decrease the amount of the loan before closing, the County Supervisor will request that all distributed docket forms be returned to the County Office for reprocessing, unless the change is minor and replacement forms can be readily completed and submitted. In the latter case, a memorandum to that effect will be attached to the revised forms for referral to the Finance Office.

§ 1945.186–1945.187 [Reserved]

§ 1945.188 Chattel lien search.

See § 1941.63 of Subpart B of Part 1941 of this chapter for regulations concerning lien searches covering chattels.

§ 1945.189 Loan closing.

(a) *Closing loans secured by real estate.*—(1) *General.* Loans secured by real estate are considered closed on the date the mortgage is filed for record. Such loans will be closed in accordance with the applicable provisions of Part 1807 of this chapter (FmHA instruction 427.1).

(2) *Security instruments.* Security instruments referred to in paragraph (a) of this section are real estate mortgages or deeds of trust.

(i) FmHA real estate mortgage or deed of trust Form FmHA 427–1 (State), "Real Estate Mortgage for _____" will be used in all cases where real estate is taken as security.

(ii) Promissory note(s) will be prepared and completed at the time of loan closing in accordance with the FML. If insured Rural Housing (RH) funds are advanced simultaneously with EM funds the RH loan will be evidenced by a separate note on the proper form as provided in Subpart A of Part 1944 of this chapter. However, all notes will be described on the same security instrument(s). When a loan is closed between December 1 and January 1, the first installment will be collected at the time of loan closing.

(iii) When subsequent loans are made, a new security instrument is required only when the existing instruments do not cover all required security or do not secure the subsequent loan.

(iv) A subsequent loan for any authorized purpose may be made without taking new security instruments when the existing security instruments cover all the property required to serve as security for the subsequent loan, the State law and the language of the existing security instruments will permit the future loan advance to be secured by the existing security instruments, and the existing security instruments will provide the same lien priority for the subsequent loan as for the initial loan. A new security instrument will be taken if any one of these requirements is not met.

(3) *Leaseholds.* Security instruments for loans secured by leaseholds will describe security in accordance with Part 1807 of this chapter (FmHA Instruction 427.1), and the following provisions will also apply:

(i) The following language, or similar language which in the opinion of the OGC is legally adequate, will be inserted just before the legal description of the real estate:

All Borrower's rights, title, and interest in and to the leasehold estate for a term of ____ years beginning on _____, 19____, created and established by a certain lease dated _____, 19____, executed by _____, as lessor(s), recorded on _____, 19____, in Book _____, page ____ of the _____ Records of said County and State, and any renewals and extensions thereof, and all Borrower's right, title, and interest in and to said Lease, covering the following real estate:

(ii) An additional covenant will be inserted in the mortgage to read as follows:

Borrowers will pay when due all rents and any and all other charges required by said Lease, will comply with all other requirements of said Lease, and will not surrender or relinquish, without the Government's written consent, any of the Borrower's right, title, or interest in or to said leasehold estate or under said Lease while this instrument remains in effect.

(iii) A copy of the lease will be made part of the loan docket.

(4) *Filing or recording security instruments.* The following appropriate actions will be taken after loan closing:

(i) When the original security instrument is returned by the recording official, it will be retained in the borrower's case folder. When the original is retained by the recording official, a conformed copy, showing the date and place of recordation and the book and page number, will be prepared and filed in the borrower's case folder. A conformed copy of the security instrument will be sent to a prior lienholder if a substantial interest is held by that lienholder, or if it is required by a working agreement provision with that lienholder.

(ii) The original deed of conveyance, if any, and a copy of the security instrument will be delivered to the borrower.

(5) *Abstracts of Title.* Any abstract of title will be delivered to the borrower and Form FmHA 140–4, "Transmittal of Documents," will be prepared and a receipt obtained in accordance with the FML However, when an abstract is obtained from a third party with the understanding it will be returned, such abstract will be sent directly to the third party and a memorandum receipt will be obtained.

(6) *Requesting title service.* When the loan is approved, the County Supervisor will see that title service is requested in accordance with Part 1807 of this chapter (FmHA Instruction 427.1), if this has not already been done.

(7) *Fees.* The borrower will pay all filing, recording, notary and lien search fees incident to loan transactions from personal or loan funds. When FmHA employees accept cash for these purposes Form FmHA 440–12, "Acknowledgement of Payment for Recording, Lien Search, and Releasing Fees," will be executed. FmHA employees will make it clear to the borrower that any fee so accepted is only for paying fees on behalf of the borrower, and is not accepted as partial payment on a loan.

(8) *Supervised bank accounts.* If a supervised bank account is required, loan funds will be deposited following loan closing. Supervised bank accounts will be established in accordance with Subpart A of Part 1902 of this chapter. Loan funds not to be disbursed for specific purposes at loan closing and not needed within 30 days after closing, will not be requested until they are needed. The "Loan Disbursement System" will be used to request future advances at 30 day intervals or as needed. Only in unusual cases will loan funds be kept in supervised bank accounts for more than 60 days. When such funds are placed in an interest bearing supervised bank account, the interest earned will be applied on the EM loan immediately or used for an authorized EM loan purpose, if the planned EM funds are not sufficient to cover all of the planned items.

(b) *Closing loans secured by chattels and crops.* See Subpart B of Part 1941 of this chapter.

(c) *Loan closing review.* Immediately prior to loan closing, the FmHA official responsible for closing the loan(s) will review the file for compliance with Agency regulations.

§ 1945.190 Revision of the use of EM loan funds.

(a) *Requirements.* Loan approval officials or their delegates are authorized to approve changes in the purposes for which loan funds were planned to be used, provided:

(1) The loan, as changed, is within the respective loan approval official's authority.

(2) Such a change is for an authorized purpose and within applicable limitations.

(3) Such a change will not adversely affect either the feasibility of the operation or the Government's interest.

(4) Such a change is approved in advance of the loan funds being used for the new purpose(s).

(b) *Additional authority.* The State Director may delegate additional authority to approval officials to approve certain kinds of changes in the use of loan funds by issuing a State Supplement describing such changes, provided prior approval is obtained from the National Office.

(c) *Revisions.* When changes are made in the use of loan funds, no revision will be made in the repayment schedule on the promissory note. Appropriate changes with respect to the repayment will be made in Table K of Form FmHA 431–2 (and, if needed, on Form FmHA 1962–1) and will be initialed by the borrower. The County Supervisor will also make appropriate notations in the "Supervisory and Servicing Actions" section of Form FmHA 1905–1, "Management System Card—Individual."

§ 1945.191 [Reserved]

§ 1945.192 Loan servicing.

Loans will be serviced under Subpart A of Part 1962 and Subpart A of Part 1965 of this Chapter.

§ 1945.193–1945.199 [Reserved]

§ 1945.200 OMB control number.

The collection of information requirements in this regulation have been approved by the Office of Management and Budget and assigned OMB control number 0575–0090.

67. Exhibit A of Subpart D of Part 1945 is revised to read as follows:

Exhibit A to Subpart D—Processing Guide—Insured Emergency (EM) Loans

I. Purpose

This Exhibit outlines the basic steps involved in processing a loan application including an application kit, and identifies the FmHA forms which should be considered for use at each step as appropriate for EM loans.

II. General

A. The forms listed in this Exhibit will be considered in development of the application. Forms designated with an "X" are required and those designated with a "•" are used when applicable.

B. Consult the appropriate Forms Manual Insert (FMI) for instructions for completion, distribution, and procedural reference for each form.

III. Application Processing

A. Application Filing. The following should be done at the time the applicants file their applications.

1. County Office Assistants (COA) normally will have the first contact with potential applicants. During these contacts the COA should:

a. Be sympathetic and sensitive to applicant's needs.

b. Set up appointments for applicants to meet with supervisory personnel.

c. Inform applicants of the last date for receiving applications.

d. Discuss credit needs and FmHA's services.

e. Advise applicants eligible for other credit that they are not eligible for an EM loan and advise applicants appearing eligible for other credit who certified they are unable to get other credit, that they will be referred to other lenders to obtain written evidence they are unable to obtain their needed credit from such other lenders.

f. Begin running case record.

g. Provide applicants with an application kit and any other instructions that are needed to help expedite processing of the application and FmHA forms to be completed.

2. The application kit should have a cover sheet with instructions to the applicant, as is appropriate for individuals, corporations, cooperatives, joint operations and partnerships. The cover sheet will include a notice to the applicant that the completed application must be returned by the termination date shown on the cover sheet in order to be accepted and considered for EM loan assistance. The following FmHA Forms should be included in the kit: 410–1, 410–9, "Statement Required by the Privacy Act," 431–1, "Long Time Farm and Home Plan," 431–2, and 1945–22.

3. The County Office Assistant (COA) will set up a list of names and addresses for all recipients of EM applications given out. This list will be monitored daily or weekly and if an applicant does not keep a scheduled appointment, follow up will be accomplished with a letter or telephone call and recorded in the county case file.

4. Applicants will be promptly notified in writing of their eligibility status, and if

VOL 51 ISS 76 AP 21 1986 UMI

additional information is needed to make an eligibility determination, it will be requested in writing.

5. The following FmHA Forms will be used as appropriate:

Form No.	Name	Use
410-1	Application for FmHA Services	X
1910-5	Request for Verification of Employment.	•
410-7	Notification to Applicant on Use of Financial Information from Financial Institution.	X
410-9	Applicant Reference Letter	•
410-8	Statement Required by the Privacy Act.	•
410-10	Privacy Act Statement to Relatives.	X
431-1	Long-Time Farm and Home Plan	•
431-2	Farm and Home Plan	X
431-4	Business Analysis—Nonagricultural Enterprise.	•
440-32	Request for Statement of Debts and Collateral.	•
440-34	Option to Purchase Real Property	•
440-58	Estimate of Settlement Costs "Settlement Costs" Booklet.	•
443-2	Option for Purchase of Farm—Land to be Subdivided.	•
443-3	Assignment of Interest in Option (Land to be Subdivided).	•
1924-14	Farmer Program Borrower Servicing Options Including Deferrals and Borrower Responsibilities.	•
1940-30	Request for Lender's Verification of Loan Application.	•
1940-51	Crop-Share-Cash Farm Lease	•
1940-53	Cash Farm Lease	•
1940-55	Livestock-Share Farm Lease	•
1940-56	Annual Supplement to Farm Lease	•
1940-20	Applicant's Environmental Impact Evaluation.	•
1943-22	Certification of Disaster Losses	X
1945-29	ASCS Verification of Farm Acreages, Production and Benefits.	•

B. Field Visit. Notify applicant of planned visit and its purpose.

1. Verification of disaster losses.

2. Evaluate the resources available to the applicant and their adequacy in fulfilling the requirements of the proposed plan of operation, taking into consideration development work planned.

3. Obtain information needed to complete required appraisals (chattel and real estate).

4. If development is planned, discuss plans, specifications, and estimates.

5. Hold landlord-tenant meeting, if necessary, to reach an agreement on the terms of the lease, resolve any problems, etc.; record in running case record.

6. Determine security requirements and record in running case record.

7. The following FmHA forms will be used as appropriate.

Form No.	Name	Use
422-1	Appraisal Report—Farm Tract	•
422-2	Supplemental Report—Irrigation, Drainage, Levee and Minerals.	•
422-3	Map of Property	•
422-10	Appraiser's Worksheet—Farm Tracts for Study of Comparable Properties.	•
424-1	Development Plan	•
424-2	Description of Materials	•
440-13	Report of Loan Search	•
440-21	Appraisal of Chattel Property	•
1945-15	Value Determination Worksheet	•
1922-11	Appraisal Form for Mineral Rights	•
1922-8	Residential Appraisal Report	•
1945-36	Calculation of Actual Losses	X

C. Eligibility Determination.

1. Obtain all needed application forms and other information from the applicant. Assist the applicant in completing these forms and/or in obtaining needed information, as necessary.

2. Request deed or other evidence of title.

3. Schedule meeting for Community Committee, review application and determine eligibility.

4. Inform applicant of the results of Committee action.

5. The following FmHA forms will be used as appropriate:

Form No.	Name	Use
409-1	Debt Adjustment Agreement	•
440-2	County Committee Certification or Recommendation.	X

IV. Docket Preparation

A. Obtain all information from the applicant, prior lienholder(s), landlord(s), etc., needed for the loan docket to be prepared.

B. Check to assure all security requirements have been or will be met by loan closing.

C. Prepare a loan narrative and enter it into the running case record.

D. Use the following FmHA forms as appropriate.

Form No.	Name	Use
400-4	Assurance Agreement	X
427-9	Agreement with Prior Lienholder	•
440-4	Security Agreement (Chattels and Crops).	•
440-6	Severance Agreement	•
440-15	Security Agreement (Insured Loans to Individuals).	•
1940-20	Request for Environmental Information.	•
440-26	Financing Statement	•
440-A35	Financing Statement (Carbon-Interleaved).	•
440-28	Consent and Subordination Agreement.	•
1940-21, 1940-22, or Exhibit H, Subpart G of Part 1940.	Environmental Review	•
441-5	Subordination Agreement	•
441-9	Assignment of Proceeds from the Sale of Products.	•
441-10	Nondisturbance Agreement	•
441-12	Agreement for Disposition of Jointly-Owned Property.	•
441-13	Division of Income and Nondisturbance Agreement.	•
441-17	Certification of Obligation to Landlord.	•
441-18	Consent to Payment of Proceeds from Sale of Farm Products.	•
441-25	Assignment of Proceeds from the Sale of Dairy Products and Release of Security Interest.	•
443-16	Assignment of Income From Real Estate Security.	•
443-17	Agreement to Sell Nonessential Real Estate.	•
1940-1	Request for Obligation of Funds	X

V. Loan Approval and Closing

A. Loan Approval.

1. Establish loan closing conditions and enter them in the running case record.

2. Execute and distribute all forms necessary for loan approval.

3. For chattel loan—file financing statement or chattel mortgage, and obtained a lien search.

4. For real estate loan—request preliminary title opinion.

B. Loan Closing.

1. Arrange for loan closing by escrow agent, designated attorney, or other authorized loan closing agent; furnish loan closing agent with appropriate instructions, forms, and other needed information for loan closing.

2. The following FmHA forms will be provided to and used by the appropriate loan closing agent, in addition to those forms listed under docket preparation which must be executed by the borrower or other party:

Form No.	Name	Use
140-4	Transmittal of Documents	•
400-1	Equal Opportunity Agreement	•
400-3	Notice to Contractors and Applicants.	•
400-6	Compliance Statement	•
402-1	Deposit Agreement	•
402-2	Statement of Deposits and Withdrawals.	•
402-5	Deposit Agreement (Non FmHA Funds).	•
426-2	Property Insurance Mortgage Clause (Without Contribution).	•
427-1	Real Estate Mortgage or Deed of Trust for.	•
427-4	Transmittal of Title Information	•
427-5	Affidavit of Borrowers (or Transferees).	•
427-6	Affidavit of Sellers (or Transferors)	•
427-9	Preliminary Title Opinion	•
427-10	Real Title Opinion	•
427-11	Warranty Deed	•
440-46	Nondiscrimination Certificate (Individual Housing).	•
440-59	Settlement Statement	•
1924-14	Farmer Program Borrower Servicing Options Including Deferrals and Borrower Responsibilities.	X
1940-17	Promissory Note	X
1965-22	Information on Assumption on New Terms or Other Change of Terms.	•
1965-23	Supplemental Information on Assumption and/or Change of Terms.	•

68. Exhibit D of Subpart D of Part 1945 is amended by revising the introductory text of paragraph IV., the introductory text of paragraph VIII., and paragraph IX. B. to read as follows:

Exhibit D—Emergency Loans for Citrus Grove Rehabilitation and/or Reestablishment

* * * * *

IV. Eligibility

Sections 1945.163 and 1945.175 of this subpart are supplemented to the extent that EM loan may be made, under the provisions of this Exhibit, only to otherwise eligible applicants who are owner-operators of citrus groves. To be eligible, applicants must:

* * * * *

VIII. Rates and Terms

See § 1945.155(a) and FmHA Instruction 440.1, Exhibit B, (available in any FmHA office). Section 1945.169 of this subpart is hereby modified, authorizing future advances

of EM loans funds to be disbursed over a period of up to 5 years, when such loan funds are used to rehabilitate and/or reestablish a citrus grove(s). EM loans may have reduced annual installments scheduled, of at least partial interest, for up to 5 years. However, such reduced installments will not be scheduled longer than the amount of time projected as being needed to bring the citrus grove(s) back into profitable production. After the adjustment period, the promissory note may describe a graduated schedule of annual installments to coincide with projected increasing cash flow. A State Supplement will be issued setting forth several examples of a 5-year adjustment period showing scheduled annual installments.

* * * * *

IX. * * *

B. The best lien obtainable on real estate on which the citrus is to be grown, having sufficient collateral equity to fully secure the EM loan, based on the per acre appraised value of the citrus grove(s) as established on the day before the disaster occurred, or one year and one day before the disaster designation was requested by a State Governor or an FmHA State Director, whichever date has the higher value;

* * * * *

PART 1951—SERVICING AND COLLECTIONS

69. The authority citation for Part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; U.S.C. 1990; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Accounting Servicing Policies

70. Section 1951.44 is amended by revising paragraphs (a)(3) and (b)(1)(ii)(A) to read as follows:

§ 1951.44 Deferral of existing OL, FO, SW, RL, EM, EO, SL, RHF, and EE loans.

* * * * *

(a) * * *

(3) Unduly impaired standard of living: A condition whereby the borrower, due to circumstances beyond the borrower's control, is unable to pay essential family living expenses (partnerships, joint operators, corporations and cooperatives do not have family living expenses), pay normal farm operating expenses, including reasonable and customary hired labor and/or salary paid to the operator(s) of a partnership, a joint operation, a corporation or a cooperative, maintain essential chattels and real estate, and meet the scheduled payments of all debts.

(b) * * *

(1) * * *

(ii) * * *

(A) Accident, death, illness or injury to an individual borrower or dependent member of the borrower's family (stockholders, members, partners, or joint operators of an entity borrower are excluded, except when that stockholder, member, partner, or joint operator is the manager of the farming operation); or

* * * * *

PART 1955—PROPERTY MANAGEMENT

71. The authority citation for Part 1955 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Liquidation of Loans Secured by Real Estate and Acquisition of Real and Chattel Property

72. Section 1955.18 is amended by revising paragraph (a) to read as follows:

§ 1955.18 Actions required after acquisition of property.

(a) *Reporting acquisition.* When real or chattel property is acquired by the Government, the servicing official will prepare and distribute Form FmHA 1955–3, "Advice of Property Acquired," or Form FmHA 1965–19, "Multiple Family Housing Advice of Mortgaged Real Estate Acquired," according to the FMI immediately after a voluntary conveyance is closed, a foreclosure sale is completed, or property is acquired by any other means. The date of acquisition will be the date the deed to the Government is recorded for a voluntary conveyance; the date of the foreclosure sale; or for chattels, the date the bill of sale (and title, if applicable) is executed transferring ownership to FmHA. Form FmHA 1955–3 or Form FmHA 1965–19 will be submitted promptly without waiting for the final report on sale from OGC where required. The State Director will assign an advice number to the property and complete distribution according to the FMI. For MFH loans, the State Director will forward a copy of Form FmHA 1965–19 to the National Office for monitoring purposes. For MFH projects with rental assistance, Form FmHA 1944–55, "Multiple Family Housing Transfer of Rental Assistance," must be attached to Form 1965–19 indicating the status of the rental assistance while the property is in inventory. The County Supervisor will report the acquisition of farm property to the local Agricultural Stabilization and Conservation Service (ASCS) office by memorandum so that any allotments, marketing quotas or acreage bases established for the property will not lapse, terminate, be reduced or otherwise be adversely affected while the property is in inventory. The State Director will report any adverse effects on allotments, marketing quotas or acreage based on any farm inventory property to the Administrator.

* * * * *

Subpart B—Management of Property

73. Section 1955.63 is amended by redesignating paragraph (b) as (c) and paragraph (c) as (d) respectively and adding a new paragraph (b) to read as follows:

§ 1955.63 Suitability determination.

* * * * *

(b) *Grouping and subdividing surplus farm properties.* The State Director will subdivide surplus property whenever possible into parcels for the purpose of creating one or more suitable farm properties. The State Director may also group two or more individuals' surplus properties into one or more suitable farm properties. The environmental effects will be considered pursuant to Subpart G of Part 1940 of this chapter. Also refer to § 1955.140 of Subpart C of this part. The State Director, with prior approval of OGC, may issue a State Supplement addressing any applicable State laws.

* * * * *

74. Section 1955.64 is amended by revising paragraph (a)(3) to read as follows:

§ 1955.64 Securing, maintaining, and repairing inventory property.

* * * * *

(a) * * *

(3) *Farm property.* Only the farm service buildings and facilities typically essential for the type of farming in the area will be repaired, renovated, and/or improved as necessary to place in saleable condition. Conservation of soil, water, and forest resources will be considered and actions will be taken to correct severe problems upon advice of the Soil Conservation Service (SCS). The County Supervisor will request that the SCS prepare a conservation plan for the property, identify within the plan the location of any highly erodible land and recommend specific conservation practices for such land. The County Supervisor will carry out those practices in the SCS plan that are essential to preserve and protect the property and to place it in saleable condition. Chattel property will be managed as outlined in § 1955.80 of this subpart.

* * * * *

75. Section 1955.65 is amended by revising paragraphs (b) and (c)(1) to read as follows:

VOL 51 ISS 76 AP 21 1986 UMI

§ 1955.65 Management of inventory and/or custodial real property.

* * * * *

(b) *Management methods.* Management methods and requirements will vary depending on such things as the number of properties involved, their density of location, and market conditions. Management tools which may be used effectively range from contracts to secure an individual property, have the grass cut, or winterize a dwelling; a simple management contract to provide maintenance and other services on a group of properties (including but not limited to specification writing, inspection of repairs, and yard and directional signs and their installation), or manage an MFH project; blanket-purchase arrangement contracts to obtain services for more than one property; to a broad-scope management contract with a real estate broker or management agent which may include inspection and specification-writing services, making simple repairs, obtaining leasees, collecting rents, coordination with listing brokers in marketing the properties, and effecting eviction of tenants when necessary. A contractor may handle evictions only where State laws permit the contractor to do so in his/her own name; a contractor may not pursue eviction in the name of the Government (FmHA). Custodial property may be managed in the same manner as inventory property except that it may be leased only if it is habitable without repairs in excess of those authorized in § 1955.55(c) of this subpart. Farm or organization property, such as rental housing and community facilities, may be operated under a management contract if the State Director has determined it is appropriate to have the property in operation. In any case, the primary consideration in selecting the method of management to be used is to protect the Government's interest. If property is to be operated or leased under a management contract is located in an area identified by the Federal Insurance Administration as a special flood or mudslide hazard area, lessees or tenants must be notified to that effect in accordance with § 1955.66 (e) of this subpart. A management contract which covers property in such a hazard area may provide for the contractor to issue the required notices.

(c) * * *

(1) *Management contracts.* Management contracts are flexible instruments which may be tailored to meet the specific needs of almost any situation involving custodial or inventory property. This type of contract may be used to manage and maintain SFH properties, farms, and any other type of facility for which FmHA is responsible. Organization-type properties will be secured, maintained, repaired, and operated if authorized, in accordance with a management plan prepared by the District Director and approved by the State Director if the amount of total debt does not exceed the State Director's loan approval authority, or by the Administrator. For MFH, this plan should follow the guidance provided by Subpart C of Part 1930 of this chapter. An audit of the borrower's records may be required if recent financial information is not available. For MFH projects, tenant occupancy and selection will be in accordance with the occupancy standards set forth in Subpart C of Part 1930 of this chapter. Tenants will be required to sign a written lease if one does not exist when the property is acquired or taken into custody. If a contract involves management of an MFH project with 5 or more units, or 5 or more single-family dwellings located in the same subdivision, the contractor must furnish Form HUD 935.2, "Affirmative Fair Housing Marketing Plan," subject to FmHA's approval. Contracts for management of farm inventory property wil be offered on a competitive bid basis, giving preference to persons who live in, and own and operate qualified small businesses in the area where the property is located in accordance with the provisions in Exhibit J, paragraph II C, "Procurement Preference Program," of FmHA Instruction 2024–A (available in any FmHA office).

* * * * * *

76. Section 1955.66 is amended by revising paragraphs (a)(2)(iii) and (b) and redesignating paragraph e (c) to (d), (d) to (e), (e) to (g), (f) to (i), (g) to (j), (h) to (k), (i) to (l) and (j) to (m), adding new paragraphs (c), (f) and (h) and revising newly designated paragraph (g) to read as follows:

§ 1955.66 Lease of Real Property.

* * * * *

(a) * * *

(2) * * *

(iii) *Farm Property.* Any CONACT property with a dwelling (whether located on or off the farm) that is possessed and occupied as a principal residence by one who was personally liable for a Farmer Program loan must be considered for dwelling retention under § 1955.73 of this subpart prior to lease under this section. The County Supervisor may approve the lease of farm property. When a lease with an option to purchase is signed, the lesses should be told that FmHA cannot make a committment to finance the purchase of the property in the future. Except for leases with an option to purchase, special stipulations will be made a part of farm leases to provide that the Government may terminate the lease in order to sell the farm, but in that event the lessee will retain the right to harvest growing crops and rental payment will be prorated between the Government and the purchaser of the property. The County Supervisor shall report all leases of farms to the local Agricultural Stabilization and Conservation Service ASCS) office and all subsequent changes in leases or sale of the property. Leases for mineral exploration and/or development will be on a form approved by OGC. In approval of a lease for mineral purposes, consideration will be given to impact on the environment, preservation of land for agricultural purposes as required by Subpart G of Part 1940 of this chapter, as well as effect on sale of the property. The Administrator may issue directives (available in any affected FmHA office) restricting the leasing of property which could be used to produce agricultural products determined to be in surplus supply. Chattel property will not normally be leased unless it is attached to the real estate as a fixture or would normally pass with the land.

* * * * *

(b) *Selection of lessees for other than farm property.* When the property to be leased is residential, a special effort will be made to reach prospective lessees who might not otherwise apply because of existing community patterns. A lessee will be selected considering the potential as an eligible applicant for purchase of the property (if property is suitable for program purposes) and ability to preserve the property. The leasing official may require verification of income and/or a credit report (to be paid for by the prospective lessee) as he/she deems necessary to assure payment ability and creditworthiness of the prospective lessee.

(c) *Selection of lessees for farm property.*—(1) *Farm plans.* All prospective lessees will be required to submit a farm plan for the upcoming crop year and to submit evidence of their income. The County Supervisor must determine that the terms of the lease can be fulfilled. The County Supervisor may require verification of income and/or a credit report (to be paid for by the prospective lessee).

(2) *Leasing priority.* Farm property will be leased in the following order of priority:

(i) The previous owner or operator of the property will be given the first opportunity to lease, with or without an option to purchase. The County Supervisor will notify the previous owner or operator, by certified letter, return receipt requested, of the availability of the property for lease as soon as it becomes available for lease. The previous owner or operator will be given thirty days to contact the county office if interested in leasing, with or without an option to purchase. The County Supervisor must determine that the previous owner or operator has sufficient experience, management skills and financial resources to assure a reasonable prospect of success in the farming operation. In making this determination, the County Supervisor will evaluate the previous owner's or operator's financial and production records and determine whether or not the failure of the previous operation was caused by factors beyond the previous owner's or operator's control such as natural disasters, inflated farm prices, high interest rates and prices received that were below reasonable costs of production. If this determination is adverse to the previous owner or operator, the County Supervisor will notify, in writing, the previous owner or operator of the decision and will give the previous owner or operator the opportunity to appeal the determination in accordance with Subpart B of Part 1900 of this chapter. No lease will be signed with any prospective lessee until this appeal is concluded. If the appeal is concluded in FmHA's favor, the provisions of (h) of this section on advertising will be followed:

(ii) If the previous owner or operator is not interested in leasing the property, the County Supervisor will give performance to operators (as of the time immediately before a lease is entered into) of not larger than family-size farms who want to lease *with* an option to purchase. The County Supervisor must determine which of these prospective lessees can fulfill the terms of the lease, as required by paragraph (c)(1) of this section. If there is more than one prospective lessee in this category, the County Committee will select, by majority vote, the operator who has the best chance for success in operating the farm and exercising the option to purchase.

(iii) If the previous owner or opertor is not interested in leasing the property and no operator described in paragraph (c)(2)(ii) of this section wants to lease the property, the County Supervisor will give preference to operators (as to the time immediately before a lease is entered into) of not larger than family-size farms who want to lease *without* an option to purchase. The County Supervisor must determine which of these prospective lessees can fulfill the terms of the lease, as required by paragraph (c)(1) of this section. If there is more than one prospective lessee in this category, the County Supervisor will select the lessesse who made the first acceptable offer to lease the property.

(iv) If not prospective applicants fall into the categories in paragraphs (c)(2)(i), (ii), or (iii) of this section, the County Supervisor will select the lessee who can fulfill the terms of the lease, as required by paragraph (c)(1) of this section, and who made the first offer, which was in accordance with the conditions of the advertisement, to lease the property.

* * * * *

(f) *Highly erodible land.* Leases of farm inventory property land that is "highly erodible land" as determined by the SCS must contain, as requirements of the leases, conservation practices specified by the SCS and approved by the FmHA.

(g) *Lease with option to purchase.* For inventory property *only*, a lessee may be given the option to purchase. Terms of the option will be set forth as part of the lease as a special stipulation in accordance with the FMI for Form FmHA 1955–20. The purchase price (option price) will be the market value except for farm property. The purchase price (option price) for all farm property to be leased with option to purchase to eligible farm applicants will reflect the average annual income that may be reasonably anticipated to be generated from farming such property. Therefore, the option price will be the capitalization value of the farm as set forth in Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1). The capitalization value will be supported by a current appraisal on Form FmHA 422–1, "Appraisal Report-Farm Tract." A lease with option to purchase farm property will normally not exceed 1 year, but may in justifiable cases be for a period not longer than 3 years. The lease payments will not be applied toward the purchase price.

(h) *Advertising farm property for lease.* Advertisement is not required when an existing lease will be renewed or renegotiated with the present lessee or when the previous owner or operator request to lease as outlined in paragraph (c)(2)(i) of this section. Otherwise, to assure fair and equitable treatment to all interested parties, public notice will be given of the availability of each inventory property for lease. Public notice means, as a minimum, advertisement in a newspaper or periodical that has a major circulation in the area where the inventory property is located. The public notice shall include as a minimum:

(1) All of the applicable qualifications, terms, conditions, restrictions, and stipulations associated with the lease, and how and when a lessee will be selected;

(2) A description of the property including its location and the presence of any natural hazards such as floodplains, wetlands and special mudslide hazard areas;

(3) The closing date and time for receiving written offers to lease;

(4) The terms of the lease;

(5) A statement that the Government reserves the right to reject all offers to lease;

(6) A statement that the property will be leased without regard to race, color, religion, sex, age, national origin or marital status.

* * * * *

Subpart C—Disposal of Inventory Property

77. Section 1955.103 is amended by revising paragraph (n) to read as follows:

§ 1955.103 Definitions

* * * * *

(n) *Regular FmHA sale.* Sale made by other than sealed bid, auction or negotiation by FmHA employees or real estate brokers. Except for farm property, regular FmHA sales are made at market value unless the price is administratively reduced. Farm property will be sold for a price that reflects the average income that may be reasonably anticipated to be generated from farming such property. Therefore, the price will be the capitalization value as determined by an appraisal made in accordance with Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1).

* * * * *

78. Section 1955.106 is amended by revising the introductory text, and paragraphs (a) and (c), redesignating paragraph (d) as paragraph (e), and adding a new paragraph (d) and by revising newly designated paragraph (e)(1), by redesignating newly designated (e)(2) through (e)(5) as (e)(3) through (e)(6) respectively, and adding new (e)(2) to read as follows:

VOL 51 ISS 76 AP 21 1986 UMI

§ 1955.109 Sale of suitable property (CONACT)

Except as provided in § 1955.109 of this subpart for farm property, CONACT real property which has been declared suitable for sale to eligible applicants will be offered for regular sale to eligible applicants in accordance with FmHA regulations that apply to the appropriate loan program. Real property will be managed in accordance with provisions of Subpart B of this part until sold under this section or reclassified as surplus and sold under § 1955.107 of this subpart.

(a) *Sale by FmHA.* When possible, the sale of suitable CONACT property should be handled by County Supervisors and District Directors. The date Form FmHA 1955–40, "Notice of Real Property for Sale," as posted is the date the property is offered for sale. As a minimum, farm property will be advertised for sale in at least one newspaper that is widely circulated in the county in which the farm is located and either Form FmHA 1955–40 or the "Notice of Sale," Form FmHA 1955–41, will be posted in a prominent place in the County Office. If an eligible applicant is not available locally, the official with responsibility for the property will advise other FmHA District and County Offices in the market area of the availability of the property. When requested by the County Supervisor, State Office Farmer Programs staff will assist in publicizing property for sale by informing other FmHA County, District, and/or State Offices. Maximum publicity should be given to the sale under guidance provided by § 1955.146 of this subpart and care should be taken to spell out eligibility criteria.

* * * * *

(c) *Price.* Except for farm property, property will be offered or listed for its market value, based on the condition of the property at the time it is made available for sale. Farm property will be sold for a price that reflects that average income that may be reasonably anticipated to be generated from farming such property. Therefore, the price will be the capitalization value as determined by an appraisal made in accordance with Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1).

(d) *Selection of purchaser.* (1) Except for farm property, when more than one acceptable offer is received during business hours on the same day, the order in which they will be considered will be decided by lot. If otherwise acceptable, the contract should be signed and accepted subject to approval of credit. "Back-up" offers will be retained in case the first offer processed cannot be closed.

(2) If two or more eligible operators of not larger than family-size farms wish to purchase a suitable farm, the County Committee will select the operator who in their opinion has the best chance for success based upon an evaluation of their past farm records and proposed farm plans. This operator's offer will be accepted. The reasons explaining the County Committee's selection of the best qualified applicant will be fully documented on Form FmHA 440–2, "County Committee Certification or Recommendation." Some of the factors the committee will consider include but are not limited to:

(i) *Liquidity.* Consider working capital, cash flow, the ratios of current assets to current liabilities and current liabilities to total liabilities.

(ii) *Solvency.* Consider net worth and the ratio of total liabilities to net worth.

(iii) *Profitability.* Consider net farm income and the ratio of net farm income to net worth.

(iv) *Efficiency.* Consider the ratios of cash operating expenses to gross receipts and debt repayment to gross receipts.

(e) * * *

(1) Form FmHA 1955–45, "Standard Sales Contract-Sale of Real Property By the United States," will be used to document the offer and acceptance for regular FmHA sales.

(2) The County Committee will certify to the applicant's eligibility on Form FmHA 440–2, in accordance with program eligibility requirements when required by the FmHA regulation that applies to the appropriate loan program.

* * * * *

79. Section 1955.107 is amended by revising paragraph (b) to read as follows:

§ 1955.107 Sale of surplus property (CONACT).

* * * * * *

(b) *Sale by sealed bid or auction.* Surplus real property must first be offered for public sale by sealed bid or auction. The State Director will determine the method of sale, the minimum acceptable sale price and whether or not credit will be offered prior to the offering. The minimum acceptable sale price established may not be more than the market value. The minimum acceptable sales price established for farm property may not be more than the capitalization value as determined by an appraisal made in accordance with Subpart A of Part 1809 of this chapter (FmHA Instruction 422.1). For sealed bid sales, preference will be given to a cash offer which is at least *_____ percent of the highest offer requiring credit. [*Refer to Exhibit B of FmHA Instruction 440.1 (available in any FmHA office) for the current percentage.] Equally acceptable sealed bid offers will be decided by lot, except for the sale of farm property, where an acceptable sealed bid from an operator of not larger than a family farm will be given preference. If two or more operators of not larger than family-size farms wish to purchase a farm property, the County Committee will select the operator who in their opinion has the best chance for success based upon an evaluation of their past farm records and proposed farm plans. This operator's bid will be accepted. The reasons explaining the County Committee's selection of the best qualified applicant will be fully documented on Form FmHA 440–2. Some of the factors the committee will consider include but are not limited to:

(1) *Liquidity.* Consider working capital, cash flow, the ratios of current assets to current liabilities and current liabilities to total liabilities.

(2) *Solvency.* Consider net worth and the ratio of total liabilities to net worth.

(3) *Profitablility.* Consider the net farm income and the ratio of net farm income to net worth.

(4) *Efficiency.* Consider the ratios of cash operating expenses to gross receipts and debt repayment to gross receipts.

* * * * *

80. Section 1955.108 is amended by revising paragraph (a) to read as follows:

§ 1955.108 Processing and closing (CONACT).

(a) *Determining repayment ability and creditworthiness.* If a credit sale is involved, the applicant must furnish necessary financial information to assist in determining repayment ability and creditworthiness. Form FmHA: 431–2, "Farm and Home Plan," should be used for all eligible applicants unless the applicant has furnished all required information in another acceptable format. Information regarding eligibility, planned development and total operations will be provided the same as for the respective type of Farmer Program loan. Purchasers requesting credit on ineligible terms will be required to provide sufficient information to establish financial stability, creditworthiness and farm budgets to establish repayment ability. For organization property, information will be provided which is similar to an application including financial information required for the respective loan program.

* * * * *

81. Section 1955.109 is added to read as follows:

§ 1955.109 Disposition of farm property.

(a) *Effects of farm property on farm values.* State Directors will analyze farm real estate market conditions within the geographic areas of their jurisdiction and determine whether or not the sale of the FmHA farm inventory properties will have a detrimental effect on the value of farms within these areas. Such analysis will be carried out in January of each year and as often throughout the year as necessary to reflect changing farm real estate conditions. If the analyses of farm real estate conditions indicate that such sales would put downward pressure on farm real estate values in any area, all farm properties within the area affected will be withheld from the market and managed in accordance with the provisions of Subpart B of this part until such time that a subsequent analysis indicates otherwise. The State Director will notify in writing the County Supervisor(s) servicing those areas that are restricted from selling farm inventory property. State Directors in consultation with other lenders, real estate agents, auctioneers, and others in the community will analyze all available information such as:

(1) The number of farms and acres that FmHA expects to acquire in inventory.

(2) The number of farms and acres other lenders expect to acquire in inventory

(3) The number of farms and acres that FmHA currently has in inventory.

(4) The number of farms and acres other lenders currently have in inventory.

(5) The number of farms not included in paragraphs (a)(3) and (a)(4) of this section which are currently listed for sale.

(6) Published real estate values and trend reports such as those available from the Economic Research Service or professional appraisal organizations.

(b) *Highly erodible land.* Leases of farm inventory property land that is "highly erodible land" as determined by the SCS must continue, as requirements of the leases, conservation practices specified by the SCS and approved by the FmHA as a condition for sale. Refer to § 1955.137(c) of this subpart for implementation requirements.

(c) *Disposition of farm property available for sale.* Unless withheld from sale as required by § 1955.109(a) of this section, farm property will be disposed of in the following order of priority:

(1) The previous owner or operator of the property will be given the first opportunity to purchase. The County Supervisor will notify the previous owner or operator, by certified letter, return receipt requested, of the availability of the property for sale as soon as it becomes available for sale. The previous owner or operator will be given thirty days to contact the County Office if interested in purchasing the farm. The purchase price will be as determined in § 1955.106(c) of this subpart. The property will be offered on eligible terms (if the previous owner or operator is eligible) and a credit sale processed in accordance with § 1955.106(d), or for cash or on ineligible terms of not less than ten percent (10%) down payment with the remaining balance amortized over a period not to exceed 25 years. The interest rate will be the current rate set forth in Exhibit B of FmHA Instruction 440.1 (available in any FmHA office).

(2) If the previous owner or operator of the property is not interested in purchasing the property, the previous owner or operator will be given the opportunity to lease, with or without an option to purchase, in accordance with § 1955.66(c)(2)(i) of Subpart B of this part.

(3) If the previous owner or operator of the property is not interested in purchasing or leasing the property, the property will be sold in accordance with §§ 1955.106 or 1955.107 of this subpart, as applicable.

82. Section 1955.137 is amended by adding paragraph (c) to read as follows:

§ 1955.137 Real property located in special areas or having special characteristics.

* * * * *

(c) *Highly erodible farmland.* (1) The County Supervisor will determine if any farmland inventory property contains highly erodible land as defined by the SCS and, if so, what specific conservation practices will be made a condition of a sale of the property. This should be done by reviewing the conservation plan prepared for the inventory property. See § 1955.64(a)(3) of Subpart B of this part. If this review determines that sufficient information does not exist on the location(s) of highly erodible land or recommended conservation practices, the SCS shall be contacted and requested to provide the necessary information.

(2) If the County Supervisor does not concur in the need for a conservation practice(s) recommended by SCS, any differences shall be discussed with the recommending SCS office. Failure to reach an agreement at the level shall require the State Director to make a final decision after consultation with the SCS State Conservationist.

(3) Whenever SCS technical assistance is requested in implementing these requirements and SCS responds that it cannot provide such assistance within a timeframe compatible with the proposed sale, the County Supervisor will determine if the sale arrangements should go forward or be delayed. If the property either is known to contain highly erodible land or there is visible evidence of erosion problems, a sale of the property will be delayed until SCS can respond. Otherwise, the sale may proceed, conditioned on the requirement that a purchaser will immediately contact SCS and have a conservation plan developed. The County Supervisor will monitor the borrower's compliance with the recommendations in the conservation plan. If problems occur in obtaining SCS assistance, the State Director should consult with the SCS State Conservationist. The potential for response to problems arising can be diminished by ensuring that all farmland in inventory has a conservation plan developed in accordance with § 1955.64(a)(3) of Subpart B of this part and that SCA assistance is requested immediately after acquiring title.

(4) The steps taken and results achieved in order to comply with the provisions of this paragraph shall be documented in the environmental review conducted for the proposed sale. All prospective purchasers must be made aware at the time of first inquiry of the conservation practices to be required. Therefore, the environmental review must be completed as soon as possible after acquiring title to the property.

83. Section 1955.139 is amended by revising paragraphs (a) and (b)(1) to read as follows:

§ 1955.139 Disposition of real property rights.

(a) *Easements, rights-of-way, development rights, restrictions or the equivalent thereof.* The State Director is authorized to convey these rights for conservation purposes, roads, utilities, and other purposes as follows:

(1) Except as provided in paragraph (a)(3) of this seciton, easements or rights-of-way may be conveyed to public bodies or utilities if the conveyance is in the public interest and will not adversely affect the value of the real estate. The consideration must be adequate for the inventory property being released or for a purpose which

VOL 51 ISS 76 AP 21 1986 UMI

will enhance the value of the real estate. If there is to be an assessment as a result of the conveyance, relative values must be considered, including any appropriate adjustment to the property's market value, and adequate consideration must be received for any reduction in value.

(2) Except as provided in paragraph (a)(3) of this section, easements or rights-of-way may be sold by negotiation for market value to any purchaser for cash without giving public notice if the conveyance would not make otherwise suitable property unsuitable or surplus, nor decrease the value by more than the price received. Sale proceeds will be handled in accordance with Subpart B of Part 1951 of this chapter.

(3) For farm properties only, easements, restrictions, or the equivalent thereof may be granted or sold separately from the underlying fee or sum of all other rights possessed by the Government if such conveyances are for conservation purposes and are transferred to a unit of local or State government or a private nonprofit organization.

(i) Conservation purposes include but are not limited to protecting or conserving the following environmental resources or land uses:

(A) Fish and wildlife habitats of local, regional or State importance,

(B) Floodplain and wetland areas,

(C) Highly erodible land as defined by SCS,

(D) Important farmland, prime forest land, or prime rangeland as defined in Departmental Regulation 9500-3, Land Use Policy,

(E) Aquifer recharge areas of local, regional or State importance,

(F) Areas of high water quality or scenic value, and

(G) Historic and cultural properties.

(ii) Development rights may be sold for conservation purposes for their market value directly to a unit of local or State governmental or a private nonprofit organization by negotiation.

(iii) An easement, restriction or the equivalent thereof may be granted or sold for less than market value to a unit of local or State government or a private nonprofit organization for conservation purposes providing the transaction will not adversely affect the financial interest of the FmHA. If such a conveyance will adversely affect the FmHA financial interest, the State Director will submit the proposal to the Administrator for approval, unless the State Director has been delegated approval authority in writing from the Administrator to approve such transactions based upon demonstrated capability and experience in processing such conveyances. Factors to be addressed in formulating such a request include the intended conservation purpose(s) and the environmental importance of the affected property, the impact to the Government's financial interest, the financial resources of the potential purchaser or grantee and its normal method of acquiring similar property rights, the likely impact to environment should the property interest not be sold or granted and any other relevant factors or concerns prompting the State Director's request.

(iv) Property interests under this paragraph may be conveyed by negotiation with any eligible recipient without giving public notice if the conveyance would not make otherwise suitable property unsuitable or surplus. Sales proceeds will be handled in accordance with Subpart B of Part 1951 of this chapter. Conveyances shall include terms and conditions which clearly specify the property interest(s) being conveyed as well as all appropriate restrictions and allowable uses. The conveyances shall also require the owner of such interest to permit the FmHA, and any person or government entity designated by the FmHA, to have access to the affected property for the purpose of monitoring compliance with terms and conditions of the conveyance. To the maximum extent possible, the conveyance should designate an organization or government entity for monitoring purposes. In developing the conveyance, the approval official shall consult with any State or Federal agency having special expertise regarding the environmental resource(s) or land uses to be protected.

(4) A copy of the conveyance instrument will be retained in the County or District Office inventory file. The grantee is responsible for recording the instrument.

(b) * * *

(1) Mineral and water rights, mineral lease interests, mineral royalty interests, air rights, and agricultural and other lease interests will be sold with the surface land and will not be sold separately, except as provided in paragrah (a) of this section and in § 1955.66(a)(2)(iii) of Subpart B of Part 1955 of this chapter. If the land is to be sold in separate parcels, any rights or interests that apply to each parcel will be included with the sale.

* * * * *

84. Section 1955.140 is amended by revising paragraph (a) to read as follows:

§ 1955.140 Sale in parcels.

(a) *Individual property subdivided.* An individual property may be offered for sale as a whole or subdivided into parcels as determined by the State Director. For MFH property guidance will be requested from the National Office for all properties other than RHB projects. When farm inventory property is classified surplus because it is larger than a family-size farm, the State Director will subdivide the property into one or more suitable farm tracts and sell the suitable tracts to eligible applicants in accordance with § 1955.106 of this subpart. Any remaining surplus property will be disposed of in accordance with § 1955.107 of this subpart. Division of the land or separate sales of portions of the property, such as timber, growing crops, inventory for small business enterprises, buildings, facilities, and similar items may be permitted if a better total price for the property can be obtained in this manner. The division of the property must not change its character from suitable to unsuitable or surplus unless authorized by the appropriate Assistant Administrator. Environmental effects should also be considered pursuant to Subpart G of Part 1940 of this chapter. Any applicable State laws will be set forth in a State Supplement and will be complied with in connection with the division of land. If property is to be subdivided, a plan will be provided by the State Director protecting the FmHA security interest when the subdivided portions are sold. The plan will provide for partial releases based upon 110 percent of the portion of the outstanding loan prorated to the property released.

* * * * *

PART 1962—PERSONAL PROPERTY

85. The authority citation for Part 1962 continues to read as follows:

Authority: 7 U.S.C. 1989; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Servicing and Liquidation of Chattel Security

86. § 1962.3 is amended by adding paragraph (d) as follows:

§ 1962.3 Authorities and responsibilities.

* * * * *

(d) *Farms in more than one jurisdiction.* If the farm is situated in more than one State, County, or Parish, the loan will be serviced by the County Office serving the County in which the borrower's residence is located. If the borrower is a corporation, cooperative, partnership or joint operation is the borrower's residence is not on the farm, the loan will be serviced by the County Office serving the County in which the farm or a major portion of the farm is located.

87. Section 1962.4 is amended by revising paragraph (c) to read as follows:

§ 1962.4 Definitions.

* * * * *

(c) *Borrower.* Individual(s), corporation, cooperative, partnership, or joint operation that is (are) liable for the loan(s) or any part thereof.

* * * * *

88. Section 1962.17 is amended by revising paragraphs (a), (b)(1), and (b)(2), by revising (b)(4), (b)(5) and (c)(5) and adding (c)(6) read as follow:

§ 1962.17 Disposal of chattel security, use of proceeds and release of lien.

(a) *General.* (1) The borrower must account for all security and will be instructed of this requirement by the County Supervisor when a loan is made and as often afterward as necessary. When the borrower sells security, the property and proceeds remain subject to the lien until the lien is released by the County Supervisor. Purchasers of security who inquire should be informed that the property is subject to FmHA's lien and will remain subject to it until they deliver any proceeds in cash to the County Supervisor or make checks payable jointly to the borrower and FmHA and the check has cleared. When the borrower fails to account properly for security, the County Supervisor will take the actions required in § 1962.18 of this subpart. Releases of sales proceeds will automatically be terminated when either Exhibit D or E to Subpart A of Part 1955 of this chapter is sent to the borrow. Termination of such release will not occur prior to that time.

(2) Section 1924.57 of Subpart B of Part 1924 of this chapter requires that there must always be a current Form FmHA 1962–1 in the file of a borrower with a loan secured by chattels. If a borrower asks FmHA to release proceeds from the sale of chattels and there is not a current Form FmHA 1962–1 in the file, the County Supervisor will immediately begin working with the borrower to develop one. If the borrower's request for a release is denied, the borrower must be given a Form FmHA 1924–14, written explanation of the reason for the denial, and the opportunity for an appeal in accordance with Subpart B of Part 1900 of this part. The appeal hearing must be held within 20 days of the denial unless the borrower requests a longer time.

(b) * * *

(1) County Supervisors are authorized to approve or disapprove dispositions of FmHA chattel security in accordance with this subpart. The County Supervisor with the assistance of the borrower, will complete Form FmHA 1962–1 in accordance with the Forms Manual Insert (available in any FmHA office) to show how, when and to whom the borrower will sell, exchange or consume security and use sales proceeds (including milk sales proceeds) and insurance proceeds derived from the loss of security. This includes, for example, sales proceeds on hand and crops in storage. The five conditions set out in the form must all be met. These conditions are: (i) The proceeds from the sale, if any, are used for purposes and in the amount set forth on the form; (ii) a current farm and home plan or other similar plan of operation acceptable to FmHA has been completed and signed by the borrower and FmHA for loans secured by crops, livestock, livestock products, or when otherwise required by the County Supervisor; (iii) the borrower's projected income and expenses are based on the borrower's proven record of production and financial management (if the borrower does not have records, the County Supervisor will use Agricultural Stabilization and Conservation (ASCS) records, ES data, County averages or other reliable sources of data to develop projections); (iv) the borrower is utilizing the key production and financial management practices required by FmHA; and (v) the property is sold or exchanged for its present market value. The conditions set out in paragraph (b) (2) of this section must also be met.

(2) Sales proceeds must be remitted to creditors with liens on the proceeds, in order of priority of these liens. Proceeds which are released by a prior lienholder or which are in excess of the amount due to a prior lienholder and which come to FmHA can be used as follows:

(i) If a borrower *has* been sent a Form FmHA 1924–25, "Notice of Intent to Take Adverse Action," and the existing Form FmHA 1962–1 expires, a new Form FmHA 1962–1 must be completed.

(A) The form *must* provide for releases of proceeds from the sale of crops, livestock, and livestock products planned to be marketed in the regular course of business so that the borrower can pay essential household and farm operating expenses. Essential expenses are those which are basic, crucial or indispensable. This will not include expenses for expansion of the operation. Excess proceeds must be applied to the FmHA debt or used to preserve existing security. If the sale of crops, livestock, and livestock products planned to be marketed in the regular course of business will not generate enough income to meet all essential household and farm operating expenses, the borrower may sell other chattel security (such as machinery, equipment or fountain livestock) to meet those expenses.

(B) Livestock can be used by the borrower's family for subsistence.

(C) Crops which serve as security may be marketed or fed to the borrower's livestock, provided FmHA obtains a lien on the livestock or livestock products.

(D) If the borrower responds to the Form FmHA 1924–25 and is granted a servicing action or prevails on appeal or makes restitution, the Form FmHA 1962–1 will be immediately revised in accordance with paragraphs (b)(2)(iii) of this section.

(E) If the borrower does not respond to the Form FmHA 1924–25, is not granted a servicing action, does not prevail on appeal or does not make restitution, releases will be made in accordance with paragraphs (b)(2)(i)(A)–(C) of this section until the borrower's account has been accelerated.

(ii) If the borrower *has not* been sent a Form FmHA 1924–25 *and cannot* complete a feasible farm plan, releases must be made in accordance with paragraph (b)(2)(i)(A)–(C) of this section.

(iii) If the borrower *has not* been sent a Form FmHA 1924–25 *and can* complete a feasible farm plan, proceeds can be used for any of the following purposes:

(A) Form FmHA 1962–1 must provide for releases of proceeds from the sale of crops, livestock, and livestock products planned to be marketed in the regular course of business so that the borrower can pay essential household and farm operating expenses. Essential expenses are those which are basic, crucial or indispensable.

(B) Proceeds can be applied to the FmHA debt.

(C) Proceeds can be used to purchase property better suited to the borrower's needs if FmHA will acquire a lien on the new property. The new property, together with any proceeds applied to the FmHA indebtedness, will have a value to FmHA at least equal to the value of the lien formerly held by FmHA on the old security.

(D) Proceeds can be used to preserve the security because of a natural disaster or other severe catastrophe, when the need for funds cannot be met by other means or with an FmHA loan or an FmHA loan cannot be made in time to prevent the borrower and FmHA from suffering a substantial loss.

VOL 51 ISS 76 AP 21 1986 UMI

(E) Property can be exchanged for property which is better suited to the borrower's needs if FmHA will acquire a lien on the new property, at least equal in value to the lien held on the property exchanged.

(F) Property can be consumed by the borrower as follows:

(*1*) Livestock can be used by the borrower's family for subsistence.

(*2*) If crops serve as security and usually would be marketed, the County Supervisor can allow such crops to be fed to livestock, provided, this is preferable to direct marketing and also provided that FmHA obtains in lien (or assignment) on the livestock and livestock products at least equal in value to the lien on the crops.

* * * * *

(*4*) If, for any sale, the amount of proceeds actually received is above or below the amount of proceeds planned to be received, as shown on Form FmHA 1962–1, the borrower will immediately notify the County Supervisor. Such notification may be by telephone to the County Office, by letter, by visit to the County Office, or any other method the borrower chooses. Changes which materially affect the borrower's operation will almost always require a visit to the County Office so that the County Supervisor and the borrower can complete a new Farm and Home Plan and revise Form FmHA 1962–1.

(*5*) If a borrower wants to dispose of chattels at a different time or in a different manner or wants to sell more or less than the planned quantity, the borrower must obtain FmHA's consent in advance of the sale. FmHA *must* give consent if the conditions set out on this form and in paragraph (b) of this section are met. When revisions are agreed to over the telephone, the County Supervisor should revise the Form FmHA 1962–1 contained in the borrower's case file, initial and date the change and mark the form "Revised." The County Supervisor will then either write to the borrower and confirm the revision, or send a copy of the "Revised" form to the borrower and ask the borrower to date and initial the change and return the form to the County Office. Otherwise, the County Supervisor will ask the borrower to date and initial the change the next time the borrower is in the County Office. Major changes in a borrowar's operation will almost always require that the borrower visit the County Office so that a new Farm and Home Plan and a Form FmHA 1962–1 can be developed. If permission is not granted, see paragraph 1924.57(d)(2) of Subpart B of Part 1924 of this chapter.

(c) * * *

(5) Liens on separate items of chattels can be released to another creditor for purposes set out in paragraph (b)(2) of this section when it has been determined by a current appraisal that the value of the remaining security is substantially greater than the remaining FmHA debt.

(6) Liens on chattels for real estate type loans may be released when it has been determined by a current appraisal that the value of the remaining security is substantially greater than the remaining FmHA debt. Concurrence of the District Director must also be obtained for such a release and recorded in the running case record of the borrower's county office file.

* * * * *

89. Section 1962.34 is amended by revising paragraph (a)(3) to read as follows:

§ 1962.34 Transfer of chattel security and EO property and assumption of debts.

* * * * *

(a) * * *

(3) The transfer of EM actual loss loans, or EM loans made before September 12, 1975, will be made as provided under paragraph (b) of this section. However, when one or more of the borrowers or jointly obligated partners or joint operators withdraw from the operation and those remaining desire to assume the total indebtedness and continue the operation, a transfer to the remaining borrowers, partners, or joint operators may be made as an eligible transferee.

* * * * *

90. Section 1962.41 is amended by revising paragraph (e) to read as follows:

§ 1962.41 Sale of chattel security or EO property by borrowers.

* * * * *

(e)*Unpaid FmHA debt.* If the sale results in less than full payment of the FmHA debt, the borrower will be sent a letter similar to Exhibit F of Subpart A of Part 1955 of this chapter (available in any FmHA office). The account will be considered for debt settlement.

§ 1962.42 [Amended]

91. Section 1962.42 is amended by redesignating paragraph (c)(9) as paragraph (d).

PART 1965—REAL PROPERTY

92. The authority citation for Part 1965 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart A—Servicing of Real Estate Security For Farmer Program Loans and Certain Note—Only Cases

93. Section 1965.2 is amended by designating the current paragraphs as paragraphs (a) and (b), respectively, and adding a new paragraph (c) to read as follows:

§ 1965.2 General policies.

(a) FmHA will service real estate security in a manner that best accomplishes the loan objectives and protects the Government's financial interest. To accomplish this, FmHA will service the real estate security in accordance with the security instruments and related agreements, including any authorized modifications and the provisions of this subpart.

(b) The Federal Equal Credit Opportunity Act prohibits creditors from discriminating against credit applicants on the basis of race, color, religion, national origin, sex, marital status, age (provided that the applicant has the capacity to enter into a binding contract); because all or part of the applicant's income is derived from any public assistance, program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act. The Federal agency that administers compliance with this law is the Federal Trade Commission, Equal Credit Opportunity, Washington, DC 20580.

(c) If the farm is situated in more than one State, county or parish, the loan will be serviced by the County Office servicing the county in which the borrower's residence is located. If the borrower is a corporaton, cooperative, partnership or joint operation or if the borrower's residence is not on the farm, the loan will be serviced by the County Office servicing the county in which the farm or a major portion of the farm is located.

94. Section 1965.28 is amended by revising paragraph (f)(6) as follows:

§ 1965.28 Liquidation action.

* * * * *

(f) * * *

(6) If a release from liability cannot be granted, the borrower will be sent a letter similar to Exhibit F of Subpart A of Part 1955 of this chapter (available in any FmHA office). The case will then be settled under the provisions of Part 1964 of this chapter (FmHA Instruction 456.1).

95. Section 1965.27 is amended by revising paragraph (b)(5) to read as follows:

§ 1965.27 Transfer of real estate security.

* * * * *

(b) * * *

(5) *Assumption on same terms.* In the following situations only, the debt will be assumed on the same terms as in the original note. The interest rate, final due date, account status (current, delinquent ahead of schedule) and repayment schedule will not be changed at the time of the assumption. The interest rate and repayment schedule may be changed after the assumption, in accordance with FmHA loan servicing regulations. Except as noted below, Forms FmHA 450–10, "Advice of Borrower's Change of Address or Name," FmHA 465–5, and FmHA 1965–13 must be prepared and distributed in accordance with the FMI in each of the following situations.

(i) EM actual loss loans may be assumed on the same terms by those who were actually involved in the operation at time of the loss and meet one of the following requirements:

(A) If an individual received the actual loss loan, the transferee must be either an individual who is an immediate family member of the borrower or an entity which is made up of only immediate family members of the borrower. Such a transferee can assume the entire amount of the actual loss loan on the same terms.

(B) If a partnership on a joint operation received the actual loss loan, the transferee must be either a partner or a joint operator who was a partner or joint operator in the partnership or joint operation at the time the actual loss loan was made, or an entity which is made up of only those who were partners in the partnership or joint operators in the joint operation at the time the actual loss loan was made. Such transferees can assume the entire amount of the actual loss loan on the same terms.

(C) If a corporation/cooperative received the actual loss loan, the transferee must be either a stockholder/member who was a stockholder/member of the corporation/cooperative at the time the actual loss loan was made or an entity which is made up of only stockholders/members who were stockholders/members of the corporation/cooperative at the time the actual loss loan was made. Such transferees can assume on the same terms only that portion of the actual loss loan equal to the transferee's percentage of ownership in the corporation/cooperative (or, in the case of an entity transferee, the combined percentages of the individual stockholders/members).

(ii) A deceased borrower's spouse, other relative or joint tenant who did not sign the note but who acquires title to the property will be allowed to assume the loan on the same terms. Form FmHA 465–5 will not be completed.

(iii) When one of the jointly liable individual borrowers withdraws from the operation and conveys his/her interest in the security to the remaining borrower, who will repay the total indebtedness, and assumption agreement is not required. This paragraph does not apply to partners in a partnership, joint operators in a joint operation, stockholders in a corporation or members of a cooperative. The previous joint owner will be released from liability for the indebtedness by completing Parts 1 and 3 of Form FmHA 1965–8, "Release from Personal Liability," provided:

(A) A divorce decree or property settlement document did not make the withdrawing party responsible for loan payments;

(B) The value of the security is at least equal to the debt;

(C) The withdrawing party's interest in the security is conveyed to the person with whom the loan will be continued; and

(D) The person with whom the loan will be continued has adequate repayment ability.

(iv) A family member of a borrower who wants to assume a debt with the existing borrower(s) may do so on the same terms. After the transfer, the assuming family member may own the property jointly with the existing borrower(s) or subject to a life estate of the existing borrower.

(v) If there is only one stockholder/member/partner/joint operater of a corporation/cooperative/partnership/joint operation who is personally liable on the note, and that stockholder/member/partner/joint operator withdraws from the operation or dies, *all* of the remaining individuals will be required to assume personal liability on the loan(s) or else the transfer will not be approved. A Form FmHA 465–5 does not have to be processed unless title to the real estate is transferred.

(vi) If a stockholder/member/partner/joint operator or another corporation/cooperative/partnership/joint operation buy out the ownership interest of the other stockholders/members/partners/joint operators and continues to operate the farm; and if the remaining stockholder(s)/member(s)/partner(s)/joint operator(s) is not personally liable on the note(s), that stockholder(s)/member(s)/partner(s)/joint operator(s) will be required to assume personal liability on the loan(s) or else the transfer will not be approved. A Form FmHA 465–5 does not have to be processed unless title to the real estate is transferred.

(vii) New stockholders/members/partners/joint operators entering the corporation/cooperative/partnership/joint operation will be required to assume personal liability on the loan or else the transfer will not be approved. A Form FmHA 465–5 does not have to be processed unless title to the real estate is transferred.

[Docket No. 86–007N]

Meat and Poultry Inspection; Exemptions for Retail Stores; adjustment of Dollar Limitations

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Announcement of Adjustment of dollar limitations.

SUMMARY: This notice announces that the dollar limitations currently in effect for the annual sales of meat and poultry product by retail stores, exempt from Federal inspection requirements, to consumers other than household consumers, such as hotels, restaurants and similar institutions, remain at $28,800 for meat products and at $28,200 for poultry products per calendar year.

EFFECTIVE DATE: April 21, 1986.

FOR FURTHER INFORMATION CONTACT: Dr. Irwin Dubinsky, Director, Policy Office, Policy and Planning Staff, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6735.

SUPPLEMENTARY INFORMATION.

Background

Federal inspection of meat and poultry products prepared for sale and distribution in commerce and in States designated under section 301(c) of the Federal Meat Inspection Act (FMIA) (21 U.S.C. 661(c)) and section 5(c) of the Poultry Products Inspection Act (PPIA) (21 U.S.C. 454(c)) is required by law and administered by the Food Safety and Inspection Service (FSIS). However, section 301(c)(2) of the Federal Meat Inspection Act (21 U.S.C. 661(c)(2)) and section 5(c)(2) of the Poultry Products Inspection Act (21 U.S.C. 454(c)(2)) state that the general requirement of routine

VOL 51 ISS 76 AP 21 1986 UMI

Federal inspection ". . . shall not apply to operations of types traditionally and usually conducted at retail stores . . . when conducted at any retail store . . . for sale in normal retail quantities . . . to consumers. . . ."

FSIS regulations (9 CFR 303.1(d) and 381.10(d)) define retail stores that qualify for exemption from routine Federal inspection under the FMIA or PPIA. Whether or not FSIS deems an establishment to be an exempt retail establishment depends, upon the percentage and volume of its trade with consumers other than household consumers, such as hotels, restaurants and similar institutions. Accordingly, the Federal meat and poultry products inspection regulations state in terms of dollars the maximum amount of meat and poultry products which may be sold to nonhousehold consumers if the establishment is to remain an exempt retail establishment. For meat products, the maximum amount is currently $26,800 per calendar year; for poultry products, the amount is $28,200 per calendar year.

The Federal meat and poultry products inspection regulations (9 CFR 303.1(d)(2)(iii)(*b*) and 381.10(d)(2)(iii)(*b*)) further provide that the dollar limitation on product sales by retail stores to consumers other than household consumers will be automatically adjusted during the first quarter of each calendar year, whenever the Consumer Price Index, published by the Bureau of Labor Statistics (BLS), Department of Labor, indicates a change in the price of the same volume of product exceeding $500, upward or downward. The regulations also require that notice of the adjusted dollar limitation be published in the **Federal Register**.

The BLS Consumer Price Index for 1985 indicates a price decrease in meat products of 1.0 percent and a price decrease in poultry products of 1.0 percent. When rounded off to the nearest $100, this price decrease amounts to $300 for each product category.

Since a change in excess of $500 is not indicated for either meat or poultry products, FSIS in accordance with §§ 303.1(d)(2)(iii)(*b*) and 381.10(d)(23)(iii)(*b*), has not changed the dollar limitations on product sales to consumers other than household consumers by establishments operating as retail establishments exemption from Federal inspection requirements. Therefore, the dollar limitations for 1986 remain at $26,800 for meat products and $28,200 for poultry products.

Done at Washington, DC, on: April 15, 1986.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

FEDERAL RESERVE SYSTEM

12 CFR Part 205

[Reg. E; EFT-2]

Electronic Fund Transfers; Official Staff Commentary Update

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final official staff interpretation.

SUMMARY: The Board is publishing revisions to the official staff commentary to Regulation E (Electronic Fund Transfers). The commentary applies and interprets the requirements of Regulation E and is a substitute for individual staff interpretations of the regulation. The revisions represent final action on proposed changes published for comment in December 1985.

EFFECTIVE DATE: April 16, 1986.

FOR FURTHER INFORMATION CONTACT: Gerald P. Hurst or John C. Wood, Senior Attorneys, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452-3667 or (202) 452-2412, or Earnestine Hill or Dorothea Thompson, Telecommunication Device for the Deaf (TDD) at (202) 452-3544.

SUPPLEMENTARY INFORMATION: (1) *General.* The Electronic Fund Transfer Act (15 U.S.C. 1693 *et seq.*) governs any transfer of funds that is electronically initiated and that debits or credits a consumer's account. This statute is implemented by the Board's Regulation E (12 CFR Part 205). Effective September 24, 1981, an official staff commentary (EFT-2, Supp. II to 12 CFR Part 205) was published to interpret the regulation. The commentary is designed to provide guidance to financial institutions in applying the regulation to specific situations. The commentary is updated periodically to address significant questions that arise. There have been three updates so far; these were published on April 6, 1983 (48 FR 14880), October 18, 1984 (49 FR 40794), and April 3, 1985 (50 FR 13180). A proposed fourth update was published for comment on December 11, 1985 (50 FR 50794); this notice contains the final version.

(2) *Explanation of revisions.* Question 3-7.5 deals with the issue of whether requiring payment by preauthorized electronic fund transfers (EFTs) as part of a biweekly mortgage program would violate the compulsory use prohibition in section 913(1) of the Electronic Fund Transfer Act (15 U.S.C. 1693k(1)). In response to comments on the proposed version, the final version emphasizes that the repayment plan in question would be optional, notes that the lower finance charge results from the frequency of the payments, and makes clear that the interpretation is not limited to mortgage loans.

Question 10-18.6 (designated question 10-81.75 in the proposal) clarifies the statutory and regulatory provisions requiring preauthorized EFTs to be "authorized by the consumer only in writing" (15 U.S.C. 1693e(a) and 12 CFR § 205.10(b)). The issue is whether this statutory and regulatory requirement is met by a payee signing a written authorization as the consumer's agent, based on the consumer's oral authorization of the preauthorized EFTs in a taped telephone conversation.

Existing question 10-18.5 addresses the question of telephone authorizations, and sanctions the procedure of sending the consumer a form to sign and return following a telephone conversation. Although this question can be viewed as already dealing with the issue at hand, a new question was proposed to make clear that the addition of a tape recording (with the payee signing a written authorization on behalf of the consumer) does not satisfy the requirement that preauthorized transfers be authorized "only in writing" by the consumer.

After careful consideration of all comments received and further analysis of the statutory and regulatory language, the interpretation is being adopted essentially as proposed. (A phrase in the question and the final sentence in the answer have been deleted as unnecessary to the resolution of the issue.) The Electronic Fund Transfer Act makes distinctions between written and oral requirements, and in the case of preauthorized EFTs the Board believes that the position taken in question 10-18.6 reflects the plain meaning of the statutory language that authorization may be made by "the consumer *only* in writing" (emphasis added). Allowing payees to satisfy the requirement for a written authorization by signing an authorization on behalf of the consumer based upon a telephone conversation—even a tape recorded one—would in effect permit oral authorizations for preauthorized EFTs in contradiction of the language of the statute and regulation.

Although the term "writing" may be viewed as including a tape recording under other laws for some purposes—for example, some evidence rules include tape recordings as writings—the Board believes that, in the absence of an indication to the contrary in the statute or the legislative history, the phrase "only in writing" in the preauthorization of EFTs does not encompass the tape recording of a consumer's oral authorization. The Board believes that such an interpretation of the word "writing" would render the statutory and regulatory provisions meaningless by, in effect, allowing oral authorizations for preauthorized EFTs.

Some commenters expressed concern that the proposed interpretation would bar all authorizations of preauthorized EFTs by agents (including, for example, authorizations under power of attorney for incapacitated persons). The interpretation does not address agency questions generally; rather, it is limited to the question of a payee or a payee's agent acting under an oral authorization from the consumer.

Numerous commenters from the telemarketing industry believed that, if adopted, the proposed answer could make it impossible for telemarketing programs to arrange for payment by preauthorized EFTs. While the Board's position may require a change in procedure because a payee will have to obtain a written authorization from the consumer, the requirement could be satisfied, for example, by the telemarketer's sending the consumer a form to be signed and returned, as outlined in existing question 10-18.5.

Other commenters pointed out that the requirement for a written authorization means that there is a difference in the rules for preauthorizing EFTs and for authorizing credit card transactions. The divergent rules are based directly on the underlying statutes: the Truth in Lending Act, which governs credit card transactions, contains no limitation similar to that established by § 907 of the Electronic Fund Transfer Act. One reason for the variance in treatment may be the different nature of the accounts accessed. Electronic fund transfers involve a consumer asset account, such as a checking or savings account, in which withdrawals could have an immediate adverse impact on the consumer, by depleting the account of funds needed for housing or other living expenses, for example. Credit card transactions, on the other hand, involve a credit account and charges will first show up on a billing statement, so that transactions do not have an immediate impact on the consumer.

List of Subjects in 12 CFR Part 205

Banks, banking; Consumer protection; Electronic fund transfers; Federal Reserve System; Penalties.

1. The authority citation for Part 205 continues to read as follows:

Authority: Pub. L. 95-630, 92 Stat. 3730 (15 U.S.C. 1693b).

2. *Text of revisions.* The revisions to the Official Staff Commentary on Regulation E (EFT-2, Supp. II to 12 CFR Part 205) read as follows:

* * * * *

Section 205.3—Exemptions

* * * * *

Q 3-7.5: *Compulsory use—biweekly loan programs.* A lender offers consumers the option of a mortgage or other loan involving biweekly payments. Use of this option results in a somewhat lower total finance charge than a plan involving monthly payments. An integral part of this option is a requirement that consumers make the biweekly payments by preauthorized electronic fund transfers. Does this requirement violate the act's prohibition against compulsory use of electronic fund transfers?

A: No, because the biweekly repayment plan is optional and because the lower finance charge resulting from the more frequent payments offers a cost-related incentive. (§ 205.3(d)(3), section 913)

* * * * *

Section 205.10—Preauthorized Transfers

* * * * *

Q 10-18.6: *Preauthorized debits—authorization by agent.* A telemarketing company (directly or through an agent) asks consumers to make the monthly payments for their purchases by preauthorized electronic fund transfers. If a consumer agrees, the company obtains the consumer's bank account number and completes a written authorization based on the telephone conversation (which the company records). The company signs the authorization as the consumer's agent and sends the consumer a written confirmation of the transaction. Does this procedure satisfy the requirement of the act and regulation that preauthorized EFTs may be authorized by the consumer only in writing?

A: No. The requirement that preauthorized EFTs may be authorized by the consumer only in writing cannot be met by a payee signing a written authorization on the consumer's behalf, with only an oral authorization from the consumer. The tape recording of the telephone conversation does not constitute an authorization by the consumer "in writing" for purposes of the requirement. [§ 205.10(b)]

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 85-ASW-31, Amdt. 39-5262]

Airworthiness Directives; McDonnell Douglas Helicopter Company (Hughes Helicopters, Inc.) Model 269 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) which requires repetitive inspections of certain tail rotor blades and use of corrosion protection procedures, as necessary, on McDonnell Douglas Helicopter Company (MDHC) Model 269A, 269A-1, 269B, and 269C helicopters including military Model TH-55A. MDHC now produces improved blades. This amendment is needed to limit the applicability of the AD to tail rotor blades which have not had the improved cadmium plating process applied.

DATES: Effective date: May 19, 1986.

Compliance: As indicated in the body of the AD.

ADDRESSES: The applicable service information may be obtained from MDHC, Centinela Avenue and Teal Street, Culver City, California 90230. A copy of each document is contained in the Rules Docket at the Office of the Regional Counsel, Federal Aviation Administration, Southwest Region, Room 158, Building 3B, 4400 Blue Mound Road, Fort Worth, Texas 76106.

FOR FURTHER INFORMATION CONTACT: Mr. Jerry Sullivan, Aerospace Engineer, Airframe Section, ANM-172W, Western Aircraft Certification Office, Northwest Mountain Region, FAA, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009-2007, telephone (213) 297-1166.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an amendment to an airworthiness directive which requires inspection of tail rotor blade spars for corrosion on certain MDHC Model 269 series

VOL 51 ISS 76 AP 21 1986 UMI

helicopters was published in the Federal Register on December 9, 1985 (50 FR 50172). After issuing Amendment 39-3608 in 1979, the FAA has determined that the MDHC improved cadmium plating process used since 1983 in the manufacture of spars for tail rotor blades Part Number (P/N) 269A6035-21 and -23, has proven to be effective in controlling corrosion. Consequently, the tail rotor blades manufactured using this process shall no longer be included in the applicability paragraph of AD 79-23-03. As AD 79-23-03 is presently written, over -21 and -23 tail rotor blade being produced is subject to the repetitive inspections imposed by the AD since the manufacturer did not assign a new part number to the improved blade. Therefore, the FAA is amending Amendment 39-3608 to include the pertinent serial numbers to limit the applicability of AD 79-23-03 to tail rotor blades P/N 269A6035-21, Serial Numbers (S/N's) 0677 and prior as well as P/N 269A6035-23, S/N's 2710 and prior, on MDHC Model 269 series helicopters.

This amendment also revises paragraph (j) to reflect the FAA aircraft certification office currently responsible for the continued airworthiness of the MDHC Model 269 series helicopters.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received. Accordingly, the proposed regulation is adopted without change.

The FAA has determined that this regulation provides relief in the form of limiting repetitive inspections to tail rotor blades which have not had the improved cadmium plating process applied. It would, therefore, remove an unnecessary economic burden from the public, and impose no additional regulatory burden on any person. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act because the anticipated impact is a minimal positive impact. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption "**FOR FURTHER INFORMATION CONTACT.**"

List of Subjects 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration amends Part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421, and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

2. By amending Amendment 39-3608 (44 FR 65387), AD 79-23-03, by revising the applicability paragraph and paragraph (j) to read as follows:

McDonnell Douglas Helicopter Company (Hughes Helicopters, Inc.): Applies to Models 269A, 269A-1, 269B, and 269C, including military TH-55A, certificated in any category, equipped with tail rotor blades designated below:

Group I: * * *

Group II: P/N 269A6035-21, S/N's 0677 and prior, P/N 269A6035-23, S/N's 2710 and prior

* * * * *

(j) Alternative inspections, modifications or other actions which provide an equivalent level of safety may be used when approved by the Manager, Western Aircraft Certification Office, ANM-170W, FAA, Northwest Mountain Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009-2007;

* * * * *

This amendment becomes effective May 19, 1986.

Issued in Fort Worth, Texas, on April 1, 1986.

Don P. Watson,

Acting Director, Southwest Region.

14 CFR Part 71

[Airspace Docket No. 86-AWP-3]

Revised Description of the Palm Springs, CA, Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The revised description to the existing Palm Springs, California, Control Zone is necessary as a result of the upcoming name and identification change of the Palm Springs Very High Omni-directional Radio Range and Tactical Air Navigational Aid (VORTAC). This action does not change the actual dimensions of the existing control zone, but will only provide editorial changes to the description.

DATES: Effective Date: 0901 UTC, July 3, 1986. Comments must be received on or before June 16, 1986.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Attn: Manager, Airspace Branch, AWP-520, Docket No. 86-AWP-3, Air Traffic Division, P.O. Box 92007, WWPC, Los Angeles, California 90009.

The official docket may be examined in the Office of the Regional Counsel, Western-Pacific Region, Federal Aviation Administration, Room 6W14, 15000 Aviation Boulevard, Lawndale, California.

An informal docket may also be examined during normal business hours at the Office of the Manager, Airspace Branch, Air Traffic Division, at the above address.

FOR FURTHER INFORMATION CONTACT: Frank T. Torikai, Airspace Specialist, Airspace Branch, AWP-520, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90260; telephone (213) 297-1649.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves redefining the existing Palm Springs, California, Control Zone, and was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 71.171 of Part 71 is to redefine the existing Palm Springs, California, Control Zone description. This action only provides editorial changes and does not alter the existing airspace. To preclude numerous editorial changes to control zone description, this amended

description refers to geographical coordinates which are permanent in nature and not subject to change as names or location of navigational aids. Section 71.171 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6B dated January 2, 1986.

Under the circumstances presented, the FAA concludes that there is an immediate need for a regulation to redefine the Palm Springs, California, Control Zone. Therefore, I find that notice and public procedure under 5 U.S.C. 553(b) are impractical and contrary to the public interest. For the same reasons, I find that good cause exists for making this amendment effective coincident with the next charting date.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, control zones.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended as follows:

PART 71—[AMENDED]

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a); 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. § 71.171 is amended as follows:

Palm Springs, CA—[Revised]

"Beginning at lat. 33°53'42" N., long. 116°28'19" W.; to lat. 33°55'01" N., long. 116°27'24" W.; to lat. 33°52'11" N., long. 116°21'32" W.; to lat. 33°49'10" N., long. 116°23'37" W.; to lat. 33°49'53" N., long. 116°25'06" W.; thence clockwise via the 5-mile radius of the Palm Springs Municipal Airport (lat. 33°49'41" N., long. 116°30'19" W.); to lat. 33°48'53" N., long. 116°25'05" W.; to lat. 33°47'20" N., long. 116°22'27" W.; to lat. 33°44'29" N., long. 116°24'51" W.; to lat. 33°46'02" N., long. 116°27'29" W.; thence clockwise via the 5-mile radius of the Palm Springs Municipal Airport (lat. 33°49'41" N., long. 116°30'19" W.); to the point of beginning."

Issued in Los Angeles, California, on April 9, 1986.

Wayne C. Newcomb,

Manager, Air Traffic Division.

BILLING CODE 4910-13-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 416

[Reg. No. 16]

Supplemental Security Income for the Aged, Blind, and Disabled; Subpart K—Income

AGENCY: Social Security Administration, HHS.

ACTION: Final rules.

SUMMARY: Under the decision of the United States Court of Appeals for the Seventh Circuit in the case of *Jackson* v. *Schweiker*, 683 F.2d 1076 (7th Cir. 1982), and pursuant to the orders of the United States District Court for the Northern District of Indiana in *Jackson* v. *Heckler*, No. S79-213 (N.D. Ind. Jan. 6, 1984 and Oct. 10, 1985), the Department is publishing this change in the Supplemental Security Income (SSI) regulations to provide that, in determining the eligibility for and amount of SSI benefits in the States in the Seventh Circuit (Illinois, Indiana, and Wisconsin), a claimant will be considered not to be receiving in-kind support and maintenance in the form of a rental subsidy if the amount of rent that must be paid under a rental agreement is equal to or greater than the presumed maximum value derived under the presumed value rule described in § 416.1140. The presumed maximum value is equal to one-third of the applicable Federal benefit rate plus the general income exclusion of $20. Specifically, the change provides that a claimant will be considered not to be receiving a rental subsidy if the amount of monthly rent that must be paid is equal to or greater than the presumed maximum value. If the amount of required monthly rent is less than the presumed maximum value, we will determine the amount of the rental subsidy, if any, by subtracting the required payment from either the presumed maximum value or the current market value, whichever is less. *Jackson* is a Seventh Circuit decision. Thus, this rule change applies only to SSI claimants in States in the Seventh Circuit.

DATE: These rules are effective April 1, 1986. We will accept comments we receive by June 20, 1986. Although we cannot change the provisions of the rules which were prescribed by the court, at least with respect to Indiana, we will take these comments into consideration in possible future changes to our rental subsidy policy.

ADDRESSES: Comments may be submitted in writing to the Acting Commissioner of Social Security, Department of Health and Human Services, P.O. Box 1585, Baltimore, Maryland 21203 or delivered to 3-A-3 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235 between 8:00 a.m. and 4:30 p.m. on regular business days. Comments received may be inspected during these same hours by making arrangements with the contact person shown below.

FOR FURTHER INFORMATION CONTACT: Dave Smith, Office of Regulations, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235, Telephone 301-594-7457.

SUPPLEMENTARY INFORMATION: Under the SSI program we count as unearned income any in-kind support and maintenance received by an individual. The Social Security Administration (SSA) values unearned income received in the form of in-kind support and maintenance using the presumed value rule in 20 CFR 416.1140. Under that rule we presume that the actual value of any food, clothing, or shelter an individual receives is equal to no more than one-third of the applicable Federal benefit rate plus the general income exclusion of $20 per month under § 416.1124(c)(12).

In *Jackson*, the plaintiff's SSI benefits had been suspended after the SSA determined that her unearned income, including a rental subsidy from her sister, gave her a monthly income greater than her Federal benefit rate. Ms. Jackson's Federal benefit rate was $189.40. Because she received a monthly Veterans Administration (VA) pension of $133, her monthly SSI benefit was $56.40. She rented the house in which she lived for $145 a month. The current market rental value of the house was $250 a month. Ms. Jackson was, therefore, determined to be receiving a rental subsidy of $105 a month. Using the presumed value rule, as described above, SSA imputed to Ms. Jackson a rental subsidy in the amount of $83.13

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

(one-third of $189.40 or $63.13, plus $20). The subsidy of $63.13 plus the VA pension of $133 caused Ms. Jackson's monthly countable income to exceed the Federal benefit rate of $189.40, and so her SSI benefit of $56.40 a month was suspended.

In *Jackson*, the Seventh Circuit decided that it was not enough that a claimant be provided "shelter or other basic necessities" below market value for those items to be counted as income for SSI purposes. Rather, the court held that, to be counted as income, the items provided must result in increased purchasing power to meet the claimant's basic needs.

The Seventh Circuit remanded the case to the district court with instructions to order the Secretary to amend either the regulations or procedures "to provide relief to affected class members consistent with this opinion." On January 6, 1984, the district court ordered the Secretary to amend the challenged regulations to reflect the holding of the court of appeals. We submitted a proposed regulation to the court on March 5, 1984. Plaintiff submitted proposed modifications, and the court approved the regulation as modified in an order dated October 10, 1985. We are publishing this regulation to comply with the court order of October 10, 1985. Because this revised regulation is being issued to comply with the Seventh Circuit's interpretation of the SSI statute and regulation, we are applying the revised regulation in all States in the Seventh Circuit.

Provisions of the Regulation

To implement the court's orders, we will apply a special rule to be applicable in the States of Illinois, Indiana, and Wisconsin. Under our usual rules, a claimant is not considered to be receiving a rental subsidy if he or she is paying the amount charged under a business arrangement. The new rule provides that a business arrangement exists when the amount of monthly rent required to be paid equals the current market rental value. Further, a business arrangement exists when the amount of monthly rent required to be paid is equal to or greater than the presumed maximum value derived under the presumed value rule described in § 416.1140. If the required rent is less than the presumed maximum value we will impute, as in-kind support and maintenance, the difference between the required amount of rent and either the presumed maximum value or the current market value, whichever is less. The result of this rule is that a claimant whose required rent does not exceed the presumed maximum value would always have funds at least equal to two-thirds of his or her Federal benefit rate minus $20 available to meet his or her other basic needs. (Required rent equals $132, Federal benefit rate equals $330, $206 remains available for other needs.)

Justification for Final Rules

The Department, even when not required by statute, as a matter of policy generally follows the Administrative Procedure Act (APA) notice of proposed rulemaking and public comment procedures specified in 5 U.S.C. 553 in the development of its regulations. The APA provides exceptions to its notice and public comment procedures when an agency finds there is good cause for dispensing with such procedures on the basis that they are impracticable, unnecessary, or contrary to the public interest. We have determined that under 5 U.S.C. 553(b)(B), good cause exists for waiver of proposed rulemaking and public comment procedures on these regulations because we are implementing court orders specifically mandating changes to the regulations.

Since the regulation is effective only for States in the Seventh Circuit, and that circuit mandated a revision of our rental subsidy policy, we find that use of notice and comment procedures is unnecessary. Directly affected members of the Indiana class had the opportunity to comment on the terms of the regulation through the court action. A certified class in Wisconsin and Illinois has requested that the relief ordered by the *Jackson* district court be extended to them. *See Beckless* v. *Heckler*, No. 84-C-0335 (N.D. Ill. filed Oct. 26, 1984). Moreover, we could not make any changes to the regulation as a result of public comment.

Use of notice and comment procedures is also impracticable. The district court has ordered us to issue notices and accept requests for reconsideration under the amended regulation in time frames that are too short to allow for prior notice and opportunity for comment. Therefore, these rules are being issued as final rules and will become effective on the first day of the month they are published in the **Federal Register**.

Regulatory Procedures

Executive Order 12291

This regulation has been reviewed under Executive Order 12291 and we have determined that it will not have an annual effect on the economy of $100 million or more, or otherwise meet the threshold of the Executive Order. Therefore, a regulatory impact analysis is not required.

Paperwork Reduction Act

This regulation will impose no new reporting or recordkeeping requirements requiring clearance by the Office of Management and Budget.

Regulatory Flexibility Act

We certify that this regulation will not have a significant economic impact on a substantial number of small entities since it affects primarily aged, blind, or disable individuals in the States of Illinois, Indiana, and Wisconsin receiving, or applying for, SSI benefits. Those States will be affected because they supplement the Federal SSI benefit and so might incur additional costs. However, a regulatory flexibility analysis is not required under the Regulatory Flexibility Act, 5 U.S.C. 601-612.

Approved: March 27, 1986.

Otis R. Bowen,

Secretary of Health of Human Services.

PART 416—[AMENDED]

Part 416 of Chapter III of title 20 of the Code of Federal Regulations is amended as follows:

1. The authority citation for Subpart K of Part 416 continues to read as follows:

Authority: Secs. 1102, 1611, 1612, 1613, 1614, and 1631 of the Social Security Act as amended; sec. 211 of Pub. L. 93-66; 49 Stat. 647, as amended; 86 Stat. 1466, 1468, 1470, 1471, and 1475; 87 Stat. 154; 42 U.S.C 1302, 1382, 1382a, 1382b, 1382c, and 1383. Sec. 202 of Pub. L. 98-265, 94 Stat. 449; 42 U.S.C. 1382c.

2. Paragraph (b) of § 416.1130 is revised to read as follows:

§ 416.1130 Introduction.

(a) * * *

(b) *How we define in-kind support and maintenance.* In-kind support and maintenance means any food, clothing, or shelter that is given to you or that you receive because someone else pays for it. Shelter includes room rent, mortgage payments, real property taxes, heating fuel, gas, electricity, water, sewerage, and garbage collection services. You are not receiving in-kind support and maintenance in the form of room or rent if you are paying the amount charged under a business arrangement. A business arrangement exist when the amount of monthly rent required to be paid equals the current market rental values (see § 416.1101). *Exception:* In the States in the Seventh Circuit (Illinois, Indiana, and Wisconsin), a business arrangement exists when the amount of monthly rent required to be paid equals or exceeds the presumed maximum value described in § 416.1140(a)(1). In those States, if the required amount of rent is less than the presumed maximum value, we will impute as in-kind support and maintenance, the difference between the required amount of rent and either the presumed maximum value or the current market value, whichever is less.

BILLING CODE 4190-11-M

20 CFR Part 416

[Regulation No. 16]

Supplemental Security Income for the Aged, Blind, and Disabled; Eligibility; Filing of Applications; Amounts of Benefits; Suspensions and Terminations; Relationship; Prorating SSI Monthly Benefit Payments

AGENCY: Social Security Administration, HHS.

ACTION: Final rule.

SUMMARY: We have revised our regulations to reflect section 1611(c) of the Social Security Act (the Act), as amended by section 181 of Pub. L. 97-248 (the "Tax Equity and Fiscal Responsibility Act of 1982") which was effective on October 1, 1982. The revised regulations provide that Supplemental Security Income (SSI) benefit payments for the month of initial eligibility will be prorated from the date of application or the date an individual meets all eligibility requirements, whichever is later. They will also provide that the SSI benefit payments for the month after a month or more of ineligibility will be prorated from the date an individual again meets all eligibility requirements.

EFFECTIVE DATES: These regulations are effective the month following the month of publication in the **Federal Register**, but the statutory changes which these regulations reflect were effective October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Henry D. Lerner, Legal Assistant, Social Security Administration, Office of Regulations, 6401 Security Boulevard, 3-B-3 Operations Building, Baltimore, Maryland 21235, (301) 594-7463.

SUPPLEMENTARY INFORMATION: We published a Notice of Proposed Rulemaking which reflects the provisions of section 1611(c) of the Act, as amended by section 181 of Pub. L. 97-248, on September 5, 1985 (50 FR 36106) and provided a 60-day comment period. Since no comments were received during the comment period, we are publishing these final rules without change.

Prior Law

From January 1974 through September 30, 1982, an individual was paid SSI benefits from the first day of the first month the individual met all eligibility requirements, regardless of what day during that month he or she applied or on what day in the month he or she met the other factors of eligibility (attainment of age 65, onset of disability, etc.) for SSI benefits. Further, a person was also paid SSI benefits from the first day of the month in which he or she reacquired eligibility after a month or more of ineligibility, without regard to what day during the month all factors of eligibility were again met. Consequently, some individuals, when they met all eligibility requirements on a day other than the first day of the month, received an SSI benefit check which included benefits for days before the individual met all eligibility requirements.

Section 181 of Pub. L. 97-248

Section 181 of Pub. L. 97-248 amended section 1611(c) of the Act to change the way the amount of SSI benefits is determined in the month of initial eligibility and in the first month in which an individual again meets all eligibility requirements after a month or more of ineligibility. Effective October 1, 1982, such SSI benefit payments must be prorated.

When SSI benefit payments are prorated, an individual who meets all factors of eligibility on a day other than the first day of the month of initial eligibility on a day other than the first day of the month after a month or more of ineligibility is paid an amount which is less than a full month's benefits. The amount of benefits for such month is based on the number of days in the month the individual meets all eligibility requirements, beginning with the day in that month the individual first meets the requirements through the end of the month.

The purpose of prorating SSI benefit payments is to ensure that SSI benefits are paid only for the period individuals meet all eligibility requirements for benefits.

The Provisions of These Regulations; General

These regulations provide that in a month of initial eligibility the amount of the SSI benefit payment is based on the number of days from and including the day on which an individual first meets all of the requirements for eligibility (filing an application is a requirement of eligibility) through the end of the month. When an individual again meets all eligibility requirements after a month or more of ineligibility, the amount of the SSI benefit payment is based on the number of days from and including the day on which an individual again meets all factors of eligibility through the end of month. Under these regulations, proration will apply to both Federal SSI benefits and federally administered optional State supplementation (OSS). Proration will not, however, apply to mandatory minimum State supplementation (MMSS).

Subpart B—Eligibility

Section 416.211 currently provides that with certain limited exceptions an individual is not eligibe for SSI benefits for any month throughout which he or she is a resident of a public institution. This section has been expanded by these regulations also to provide that an individual, who is a resident of a public institution at the time he or she applies for and first meets all other eligibility factors for SSI benefits, will be considered ineligible until the date on which he or she is no longer a resident of the public institution. That is, the SSI benefit amount for such a month will be prorated based on the date of discharge from the public institution.

We have made this change because the purpose of section 1611(c) is to assure that the amount of the SSI benefits payable for a month of initial eligibility or re-eligibility reflects only the number of days in which individuals establish their need for such benefits by meeting all eligibility requirements. The legislative history of this provision states, ". . . since SSI is available only to the needy the committee believes that benefits should not be provided for periods prior to the time the individual recognizes his need and requests assistance." S. Rep. No. 97-494, Vol. I, 97th Cong., 2d Sess. 56 (1982).

Section 1611(e) of the Act, which describes the limitations on eligibility for SSI benefits of certain individuals, provides in part that any individual who is a resident of a public institution throughout a month cannot be eligible

VOL 51 ISS 76 AP 21 1986 UMI

for SSI benefits. The proration provisions of section 1611(c) of the Act do not change the SSI eligibility requirements nor do they expressly provide that benefits can be prorated based on the date of discharge from a public institution. On the other hand, section 1611(c) does not specify those situations in which we must prorate SSI benefits. The statute merely specifies the month to which proration applies and the date to use as the basis for determining the prorated amount. Therefore, it is within the Secretary's authority to determine when SSI eligibility is met or restored for purposes of implementing proration.

The purpose of the proration provision as previously noted, is to pay an amount based on the days in the month an individual meets all eligibility requirements for such benefits. In carrying out this purpose, these regulations will prorate benefits from the date of discharge from the public institution both in cases of initial eligibility and reeligibility. During these months the needs of the individual are being met by the public institution until the date of discharge. Therefore, to pay SSI benefits from the date of discharge is within the purpose of section 1611(c).

Subpart C—Filing of Applications

These regulations will amend several sections of Subpart C to implement section 1611(c) as amended by section 181 of Pub. L. 97–248, to make changes that are technical and clarifying, and to make other changes that will make the regulations within Subpart C consistent with each other and to make them as consistent as is practicable with the rules dealing with the filing of applications that we follow in the Old-Age, Survivors, and Disability Insurance (OASDI) programs.

The current rules in § 416.325(b) that discuss the exceptions to the general rule as to when an application is considered filed and in § 416.340 that discuss the use of the date of a written statement as the application filing date are inconsistent. Section 416.325(b) provides that, when an application for SSI benefits is mailed, if using the date we receive the application results in a loss of benefits, we consider the application as being filed on the date shown by a United States postmark. Section 416.340 provides that the date a written statement, such as a letter, is received at a Social Security office (whether or not it was mailed) is to be considered the application filing date if the use of that date will result in eligibility for additional benefits. These regulations make §§ 416.325(b) and 416.340 consistent with one another.

We are revising §§ 416.325(b) and 416.340 to provide that we consider an application for SSI benefits as being filed on the date that the document (application or written statement) is received by us or by someone authorized to act on our behalf. If the application or written statement is mailed to us, we will use the date of mailing as shown by a United States postmark. By amending § 416.340 to permit the use of the postmark date of a written statement as an application filing date we also make the rules of Title XVI more consistent with the rules in the OASDI programs that deal with the filing of applications, and thus eliminate an element of confusion that now exists. Further, a written statement constitutes an intent to file for benefits. Therefore, a written statement should be given the same consideration as a mailed written application.

Sections 416.325(b) and 416.340 provide further that if there is no postmark or if it is unreadable, we will use the date of signature (if dated) or 5 days before the day the signed application or written statement was received, whichever date is later. In effect this revision will also amplify on and make these rules more specific. At present, § 416.325(b) simply indicates that when the postmark is not available or there was no postmark, we consider other evidence of when the application was mailed to us.

Section 416.325(b) is revised to provide that SSI benefits will be paid effective with the date on which an application is filed, if all other factors of eligibility are met on that date. The rules will also provide that benefits cannot be paid for any period before the date of application, when the application is filed on a date after all other factors of eligibility are met.

The revisions to § 416.330, for the most part, reflect changes that were proposed on May 16, 1983, in a separate NPRM that was published in the Federal Register at 48 FR 21967 to implement the provisions of section 306 of Pub. L. 96–265, the Social Security Disability Amendments of 1980. These changes relate to the effective period of applications when a hearing decision on the application is pending. The additional change that we are making in § 416.330 is simply to provide that if an individual meets all requirements of eligibility while an application is in effect, we will pay SSI benefits from the first day (rather than the first month) that he or she meets all the requirements.

We have changed the example in § 416.315 to reflect proration. The revision to the rules in § 416.320 is not substantive; it corrects a technical error. The revision to the rules in § 416.345 is editorial in nature.

Subparts D–Amount of Benefits and E–Payment of Benefits

Amendments to Subpart E (Payment of Benefits) that implement proration appear in the final rules implementing section 1611(c)(1) as amended by section 2341 of Pub. L. 97–35 which provides for retrospective monthly accounting (RMA). These final rules also include a change to Subpart D.

Section 1611(c) as amended by section 2341 of Pub. L. 97–35 requires, with certain exceptions, the use of RMA in the SSI program. Final regulations dealing with RMA, which were published in the Federal Register on November 28, 1985 (50 FR 48563) included amendments to Subpart D to implement RMA. The final RMA regulations that were published separately, were updated to take account of provisions of section 1611(c) as amended by section 181 of Pub. L. 97–248, so that the rules contained therein will not be incorrect and outdated. For this reason, amendments to §§ 416.501 and 416.502 of Subpart E and § 416.420(b)(1) of Subpart D have not been included in these rules.

Section 416.420 as included in the RMA regulations will provide that in the month of initial eligibility or reeligibility the SSI benefit amount will be prorated according to the number of days in the month that the individual is eligible beginning with the date of application or the date all eligibility requirements are met, whichever is later. Formerly, an application was considered to have been received on the first day of the month in which we received the application and SSI benefits were paid for the entire month.

Section 416.501, as amended in the RMA regulations, will provide that SSI benefits will be prorated and they will be paid beginning on the first day on which the individual meets all requirements for eligibility regardless of whether it is a month of initial eligibility or a month following a month or more of ineligibility. Since it is now possible for members of a couple to become eligible for SSI benefits on different days of the month, this section also provides that each member of a couple may receive different SSI payment amounts for a month if each meets the eligibility requirements on different days of the month.

Section 416.502, which describes the manner in which we pay SSI benefits, as included in the RMA regulations,

provides that SSI benefits payable to an individual will not be paid before the day on which the individual acquires or reacquires eligibility. This section also provides that, unless otherwise indicated, the monthly amount of SSI benefits payable to an eligible couple will be equally divided and paid.

These rules also amend Subpart D to include a new § 416.421 that explains the way we compute prorated benefits. Under these rules, the amount of the SSI benefit payment is prorated based on the date all eligibility factors, except income and resources, are met. For a fuller discussion of the policy on income and resources, see below under the heading "Subpart M—Suspensions and Terminations".

Payment Computation

In determining the amount of SSI benefit payments due for a month in which benefits are to be prorated:

(1) We first compute the amount of the SSI benefit payment which the claimant would receive for the month without proration. (We call this the unprorated benefit.)

(2) We then determine the date in the month on which the claimant meets all factors of eligibility. (We call this the proration date.)

(3) We then count the number of days in the month a claimant meets all eligibility factors, beginning with the proration date and counting through the end of the month. (We call these the benefit days.)

(4) We then multiply the unprorated benefit by the number of benefit days and divide by the number of days in the month for which benefits are being determined. The result is the amount of the SSI benefit payment due for the month in which the benefits are to be prorated.

These steps will be followed in computing the federally administered OSS also. We will do this since it is SSA policy to maintain consistent rules for determining OSS and Federal SSI benefits. We do this under our authority in section 1616(b) of the Act to establish rules, when consistent with the Act, that facilitate efficient administration of both the SSI and OSS programs.

Under these regulations, if an individual is eligible for both a Federal SSI benefit and a federally administered OSS, we compute and prorate the Federal SSI and OSS benefit amounts separately. The results in either computation that include a fraction of a cent will be raised to the next higher cent. We then add the two prorated amounts to get the total payment due for the month.

Under these rules, proration will not apply to federally administered mandatory minimum State supplements (MMSS). Although we have the authority to apply the rules for Federal SSI benefits to the MMSS we can do so only if the rule is consistent with the purpose of MMSS. The purpose of the MMSS is to assure that an individual's total income is not reduced below its December 1973 level. Since the application of proration could result in a reduction in an individual's December 1973 level, it cannot be applied to MMSS.

Subpart M—Suspensions and Terminations

Subpart M provides in part that suspension of SSI benefit payments is required when an individual is alive but no longer meets the requirements of eligibility under title XVI of the Act and termination in accordance with §§ 416.1331–416.1335 does not apply. SSI benefit payments are not resumed until the individual again meets all requirements for eligibility except for the filing of a new application. These rules also provide, upon requesting reinstatement of SSI benefit payments, that an individual is required to submit such evidence as may be necessary to establish that he or she again meets all the requirements for eligibility.

The revisions to the rules in Subpart M provide that the amount of the SSI benefit payments for the first month in which an individual again becomes eligible after a month or more of ineligibility will be prorated. A month of ineligibility for purposes of determining when to prorate the SSI benefit payment for a subsequent month, is a month for which the individual is ineligible for any Federal SSI benefit and any federally administered State supplementation.

When an individual again meets all eligibility requirements after a month or more of ineligibility, under these rules, proration will apply only when an individual reacquires eligibility after being ineligible for at least one of the following reasons:

(1) The individual was a resident of a public institution throughout a month. Eligibility is reacquired as of the date of discharge if all other eligibility requirements are met (see § 416.1325).

(2) The individual failed to comply with the requirement to accept treatment for drug addiction or alcoholism. Eligibility is reacquired as of the earliest date of the first month on which the recipient complies with the required treatment or other direction, and all other eligibility requirements are met (see § 416.1328).

(3) The individual was absent from the United States throughout a month. If the individual is outside the United States for 30 consecutive days or more, the individual is considered as remaining outside the United States until he or she has returned and remained in the United States for 30 consecutive days. Eligibility is reacquired as of the day following the 30th consecutive day of presence in the United States if all other eligibility requirements are met. If the individual is outside the United States for a full calendar month but less than 30 days (i.e. absent during February) eligibility is reacquired as of the day the individual returns to the United States if all other factors of eligibility are met (see § 416.1327).

(4) The individual was not a resident of the United States. Eligibility is reacquired as of the date the individual is a resident of the United States if all other eligibility requirements are met (see § 416.1329).

(5) The individual did not meet the definition of United States citizen, "alien lawfully admitted for permanent residence", or permanent resident of the United States under color of law. Eligibility is reacquired as of the date on which the individual regains his or her status in one of these categories, if all other eligibility requirements are met (see§ 416.1329).

(6) The individual failed to comply with the requirement to accept vocational rehabilitation services. Eligibility is reacquired as of the date on which he or she complies if all other eligibility requirements are met (see§ 416.1329).

(7) The individual failed to comply with the requirement to file for and obtain other benefits. Eligibility is reacquired as of the date the individual complies, if all other eligibility requirements are met (see§ 416.1330).

Under these rules, if the reason that a recipient's benefits were suspended was excess resources, excess income, or failure to comply with a request for information, benefits for the first month that benefits are reinstated will not be prorated. We will not prorate benefits for the first month that benefits are reinstated under each of these circumstances for differing reasons. First, we will not prorate based on income since we count income for the entire month. If an individual has excess income for a month he or she is ineligible for that month. Income cannot be spent down and eligibility established during the month. In addition, using countable income for the entire month is necessary to calculate the prorated benefit amount under section 1611(c)(2)(B) of the Act. Second, we regarded the failure to provide information as being not so much a factor of eligibility as it is a failure to substantiate eligibility based on other factors. These rules clarify that once the information is provided, benefits are reinstated for any previous months the individual met the eligibility requirements. Last, regarding resources, the reason we are not having proration

VOL 51 ISS 76 AP 21 1986 UMI

apply to the first month for which benefits are reinstated after suspension due to excess resources is that, like income, resources are counted for an entire month. Resources cannot be spent down and eligibility established during the month. Also, not prorating in these instances reflects our ongoing concern for effective and efficient administration. Paying benefits for only full months in these situations is simpler, will result in fewer errors and is less costly to administer because it is less complicated than the prorating of benefits in these instances.

Subpart R—Relationships

Current regulations at § 416.1802(d) of Subpart R provide, if an individual gets married during a month, even on the first day of the month, that we will treat that individual as being single until the next month. Alternatively, this section provides that if an individual's marriage ends, even on the first day of the month, we will treat that individual as married until the next month. Thus, an individual's marital status at the beginning of a given month determines whether we consider that individual to be single or married when we compute the amount of that individual's SSI benefits for the month.

Before the proration of benefits pursuant to section 1611(c) as amended by section 181 of Pub. L. 97–248 began, this policy worked effectively at assuring that the SSI benefit which we paid an individual for a month accurately reflected the individual's marital status at the point in time at which he or she became eligible for SSI benefits. This was because an individual was considered to have filed for benefits on the first day of the month and was paid benefits for the full month as long as he or she became eligible to receive benefits at some point during that month.

Now that SSI benefits are being prorated, our regulations can no longer provide this assurance. For this reason we have amended § 416.1802(d) of Subpart R. Under that rule, the current provisions of § 416.1802(d) will remain in effect. However, this section will also include one very limited exception. The exception provides that during the month in which two individuals get married to one another, we will treat them as an eligible couple if each becomes eligible for SSI benefits in such month on a day after the date on which they were married. A very limited number of individuals would be affected by our change; for the individuals that would be affected, the amount of benefits they receive will be less than that which they would be paid if we treated them as single. However, to treat them as single seems incongruous, since they are married at the point at which their eligibility for SSI benefits is first met. Similarly, if, in the month a marriage ends, each member of the couple becomes eligible for SSI benefits after the date the marriage ends, we will treat them as eligible individuals.

Regulatory Procedures

Executive Order No. 12291

These regulations have been reviewed under Executive Order 12291 and do not meet any of the criteria for a major rule. The policies reflected in these rules will generate estimated program savings of $44 million in fiscal year (FY) 1986 and $46 million in FY 1987. A one-time administrative cost of $7.2 million was incurred in FY 1983. Also, implementation of these provisions will result in annual Medicaid savings of $20 million because the Medicaid program follows SSI policy. Therefore, a regulatory impact analysis is not required.

Paperwork Reduction Act of 1980

These regulations impose no reporting and recordkeeping requirements requiring clearance by the Office of Management and Budget.

Regulatory Flexibility Act

We certify that these regulations, will not have a significant economic impact on a substantial number of small entities because they primarily affect the States and individuals. Therefore, a regulatory flexibility analysis as provided in Pub. L. 96–354, the Regulatory Flexibility Act, is not required.

Secretary of Health and Human Services.

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Part 416 of Title 20 of the Code of Federal Regulations is amended as follows:

Subpart B—Eligibility

1. The authority citation for Subpart B of Part 416 is revised to read as follows:

Authority: Secs. 1102, 1602, 1611, 1614, and 1631 of the Social Security Act as amended, secs. 211 and 212 of Pub. L. 93–66, 49 Stat. 647 as amended, 86 Stat. 1465, 86 Stat. 1466, 86 Stat. 1471, and 86 Stat. 1475 (42 U.S.C. 1302, 1381a, 1382, 1382c, and 1383).

2. In § 416.211, paragraph (a) is revised to read as follows:

§ 416.211 You are a resident of a public institution.

(a) *General rule.* (1) You are not eligible for SSI benefits for any month throughout which you are a resident of a public institution (defined in § 416.201). In addition, if you are a resident of a public institution when you first apply for SSI benefits and meet all other eligibility requirements you cannot be eligible until the day of your release from the institution. The amount of SST benefits for the month of your release will be prorated (see Subpart D) beginning with the date of your release.

(2) By "throughout a month" we mean that you reside in an institution as of the beginning of a month and stay the entire month. If you have been a resident of a public institution, you remain a resident if you are transferred from one public institution to another or if you are temporarily absent for a period of not more than 14 consecutive days. A person also is a resident of an institution throughout a month if he or she is born in the institution during the month and resides in the institution the rest of the month or resides in the institution as of the beginning of a month and dies in the institution during the month.

* * * * *

Subpart C—Filing of Applications

3. The authority citation for Subpart C of Part 416 is revised to read as follows:

Authority: Secs. 1102, 1611 as amended, and 1631 of the Social Security Act, 49 Stat. 647, as amended, 86 Stat. 1465, 86 Stat. 1475 (42 U.S.C. 1302, 1382, 1383).

4. In § 416.315 the example is revised to read as follows:

§ 416.315 Who may sign an application.

* * * * *

Example: Mr. Smith comes to a Social Security office to file an application for SSI disability benefits for Mr. Jones. Mr. Jones, who lives alone, just suffered a heart attack and is in the hospital. He asked Mr. Smith, whose only relationship is that of a neighbor and friend, to file the application for him. We will accept an application signed by Mr. Smith since it would not be possible to have Mr. Jones sign and file the application at this time. SSI benefits are payable starting with the day an application is filed or the date all other requirements for eligibility are met, whichever is later. If Mr. Smith could not sign an application for Mr. Jones, a loss of benefits would result if it is later determined that Mr. Jones is in fact disabled.

§ 416.320 [Amended]

5. In § 416.320 the last sentence of paragraph (a)(2) is amended by removing the words "or an institution" and adding the words "of an institution" in lieu thereof.

6. In § 416.325 paragraph (b)(1) is revised to read as follows:

§ 416.325 When an application is considered filed.

* * * * *

(b) *Exceptions.* (1) When we receive an application that is mailed, we will use the date shown by the United States postmark as the filing date if using the date the application is received will result in a loss of benefits. If the postmark is unreadable or there is no postmark, we will use the date the application is signed (if dated) or 5 days before the day we receive the signed application, whichever date is later.

* * * * *

7. Section 416.330 is revised to read as follows:

§ 416.330 Filing before the first month you meet the requirements for eligibility.

If you file an application for SSI benefits before the first month you meet all the other requirements for eligibility, the application will remain in effect until we make a final determination on your application unless there is a hearing decision on your application. If there is a hearing decision, your application will remain in effect until the hearing decision is issued.

(a) If you meet all the requirements for eligibility while your application is in effect, we will pay you benefits from the first month that you meet all the requirements. The amount of such benefits is based on the number of days you meet all eligibility requirements beginning with the first day you meet all of the requirements through the end of the month.

(b) If you first meet all the requirements for eligibility after the period for which your application was in effect, you must file a new application for benefits. In this case, we will pay you benefits only from the first month that you meet all the requirements based on the new application. The amount of such benefits is calculated as in § 416.330(a) above.

8. Section 416.335 is revised to read as follows:

§ 416.335 Filing in or after the month you meet the requirements for eligibility.

When you file an application in the month that you meet all the other requirements for eligibility, your application is good for payment as of the first day in the month that you meet all eligibility requirements. If you file an application after the month you first meet all the other requirements for eligibility, you cannot be paid for any months before the month you filed an application. See §§ 416.340, 416.345 and 416.350 on how a written statement or an oral inquiry made before the filing of the application form may affect the filing date of the application. The amount of SSI benefits you are paid in the first month that you meet all eligibility requirements is based on the number of days you meet all such requirements, starting with the first day on which you meet all eligibility requirements through the end of the month.

9. Section 416.340 is amended by revising the introductory text and revising paragraph (d)(1) to read as follows:

§ 416.340 Use of date of written statement as application filing date.

We will use the date a written statement, such as a letter, an SSA questionnaire or some other writing, is received at a social security office, at another Federal or State office designated by us, or by a person we have authorized to receive applications for us as the filing date of an application for benefits, only if the use of that date will result in your eligibility for additional benefits. If the written statement is mailed, we will use the date the statement was mailed to us as shown by a United States postmark. If the postmark is unreadable or there is no postmark, we will use the date the statement is signed (if dated) or 5 days before the day we receive the written statement, whichever date is later, as the filing date of an application for benefits. In order for us to use your written statement to protect your filing date, the following requirements must be met:

* * * * *

(d)(1) The claimant is alive when the application is filed on a prescribed form, or

* * * * *

10. In § 416.345, paragraph (e)(1) is revised to read as follows:

§ 416.345 Use of date of oral inquiry as application filing date.

* * * * *

(e)(1) The claimant is alive when the application is filed on a prescribed form, or

* * * * *

Subpart D—Amount of Benefits

11. The authority citation for Subpart D of Part 416 is revised to read as follows:

Authority: Secs. 1102, 1611, 1612, and 1631 of the Social Security Act as amended; 49 Stat. 647 as amended, 86 Stat. 1466, 86 Stat. 1468, 86 Stat. 1475 (42 U.S.C. 1302, 1382, 1382a, and 1383).

12. A new § 416.421 is added to read as follows:

§ 416.421 Determination of benefits; computation of prorated benefits.

(a) In the month you are first eligible for benefits, your benefit will be prorated according to the number of days in the month that you are eligible beginning with the date of application or the date on which you meet all eligibility requirements, whichever is later. In the month that you reacquire eligibility after a month or more of ineligibility (see § 416.1321(b)), your benefit will be prorated according to the number of days in the month that you are eligible beginning with the date on which you meet all eligibility requirements.

(b) In determining the amount of your benefit for a month in which benefits are to be prorated, we first compute the amount of the benefit that you would receive for the month as if proration did not apply. We then determine the date on which you meet all factors of eligibility. (The income limits must be met based on the entire month and the resource limit must be as of the first day of the month.) We then count the number of days in the month beginning with the day on which you first meet all factors of eligibility through the end of the month. We then multiply the amount of your unprorated benefit for the month by the number of days for which you are eligible for benefits and divide that figure by the number of days in the month for which your benefit is being determined. The result is the amount of the benefit that you are due for the month in which benefits are to be prorated.

Example. Mr. X applies for SSI on April 16, 1984. He has no income. He first meets all factors of eligibility on April 16, 1984. His Federal benefit rate is $314 per month. Mr. X's unprorated benefit for April is $314. The number of days from when he first meets all factors of eligibility (including that day) through the end of the month is 15. The

VOL 51 ISS 76 AP 21 1986 UMI

unprorated benefit ($314) multiplied by the number of days for which he is eligible for benefits (15) is $4710. That amount divided by the number of days in April (30) is $157. This is the amount that Mr. X is due for the month of April.

Subpart M—Suspensions and Terminations

13. The authority citation for Subpart M of Part 416 is revised to read as follows:

Authority: Secs. 1102, 1611–1615, and 1631 of the Social Security Act, as amended, 49 Stat. 647, as amended, 86 Stat. 1466–1477 (42 U.S.C. 1302, 1382–1382d, 1383), unless otherwise noted.

14. In § 416.1321, paragraph(b) is revised to read as follows:

§ 416.1321 Suspensions; general.

* * * * *

(b) *Effect of suspension.* (1) When payments are correctly suspended due to the ineligibility of a recipient, payments shall not be resumed until the individual again meets all requirements for eligibility except the filing of a new application. Such recipient, upon requesting reinstatement, shall be required to submit such evidence as may be necessary (except evidence of age, disability, or blindness) to establish that he or she again meets all requirements for eligibility under this part. Payments to such recipient shall be reinstated effective with the first day such recipient meets all requirements for eligibility except the filing of a new application.

(2) A month of ineligibility for purposes of determining when to prorate the SSI benefit payment for a subsequent month, is a month for which the individual is ineligible for any Federal SSI benefit and any federally administered State supplementation.

* * * * *

15. Section 416.1322 is revised to read as follows:

§ 416.1322 Suspension due to failure to comply with request for information.

(a) Suspension of benefit payments is required effective with the month following the month in which it is determined in accordance with § 416.714(b) that the individual is ineligible for payment due to his or her failure to comply with our request for necessary information. When we have information to establish that benefit payments are again payable, the benefit payments will be reinstated for any previous month for which the individual continued to meet the eligibility requirements of § 416.202. If the reason that an individual's benefits were suspended was failure to comply with our request for information, the payments for the months that benefits are reinstated will not be prorated under § 416.421.

(b) A suspension of payment for failure to comply with our request for information will not apply with respect to any month for which a determination as to eligibility for or amount of payment can be made based on information on record, whether or not furnished by an individual specified in § 416.704(a). Where it is determined that the information of record does not permit a determination with respect to eligibility for or amount of payment, notice of a suspension of payment due to a recipient's failure to comply with a request for information will be sent in accordance with §§ 416.1336 and 416.1404.

16. In § 416.1323, paragraph (b) is revised to read as follows:

§ 416.1323 Suspension due to excess income.

* * * * *

(b) *Resumption of payments.* If benefits are otherwise payable, they will be resumed effective with the first month in which a recipient's monthly countable income becomes less than the applicable Federal benefit rate (or the sum of that rate and the level for any federally administered State supplementary payment) for that month. If the reason that a recipient's benefits were suspended was excess income, the payment for the first month that benefits are reinstated will not be prorated under § 416.421.

17. In § 416.1324, paragraph (b) is revised to read as follows:

§ 416.1324 Suspension due to excess resources.

* * * * *

(b) *Resumption of payments.* If benefits are otherwise payable, they will be resumed effective with the start of the month after the month in which a recipient's countable resources no longer exceed the limit that applies. If the reason that a recipient's benefits were suspended was excess resources, the payment for the first month that benefits are reinstated will not be prorated under § 416.421.

18. Section 416.1325 is revised to read as follows:

§ 416.1325 Suspension due to status as a resident of a public institution.

(a) Except as provided in § 416.211 (b) and (c), a recipient is ineligible for benefits for the first full calendar month in which he or she is a resident of a public institution (as defined in § 416.201) throughout the calendar month (as defined in § 416.211(a)), and payments are suspended effective with such first full month. Such ineligibility continues for so long as such individual remains a resident of a public institution.

(b) *Resumption of payments.* If benefits are otherwise payable, they will be resumed effective with the earliest day of the month in which a recipient is no longer a resident of a public institution. See § 416.421. A transfer from one public institution to another or a temporary absence from the institution lasting 14 days or less, however, will not change his or her status as a resident, and the suspension will continue.

19. Section 416.1326, paragraph (b) is revised to read as follows:

§ 416.1326 Suspension for failure to accept treatment for drug addiction or alcoholism.

* * * * *

(b) *Resumption of payments.* When payments are suspended because a disabled recipient who is medically determined to be a drug addict or an alcoholic is not undergoing the required treatment, such ineligibility continues until he or she demonstrates compliance by actually undergoing the required treatment and such compliance is verified by the responsible authority at the institution or facility providing the treatment (see Subpart O of this part). Benefits will be resumed effective with the earliest day of the month on which the recipient complies with the required treatment or other direction, provided such compliance is first verified by the responsible official and provided the recipient otherwise establishes eligibility for benefits for such month. See § 416.421.

Example: Payments to C, a drug addict, were suspended effective May because C failed to report for treatment. On June 25, C reported for treatment and otherwise established eligibility for benefits. The responsible State official reported on August 2 that C had reported June 25 and was complying with the required treatment. SSI payment may be resumed effective with June. The amount of SSI benefits payable for June will be based on the number of days starting with June 25 through the end of the month.

20. Section 416.1327 is revised to read as follows:

§ 416.1327 Suspension due to absence from the United States.

(a) *Suspension effective date.* A recipient is not eligible for SSI benefits if he is outside the United States for a full calendar month. For purposes of this paragraph—

(1) "United States" means the 50 States, the District of Columbia, and the Northern Mariana Islands;

(2) "Day" means a full 24–hour day; and

(3) In determining whether a recipient has been outside the United States for a full calendar month, it must be established whether the recipient is outside the United States for 30 consecutive days or more. If yes, he or she will be treated as remaining outside the United States for a period of 30 consecutive days. When a recipient had been outside the United States, the first period of 30 consecutive days of absence is counted beginning with the day after the day the recipient departs from the United States and ending with the day before the day on which he or she returns to the United States. When a recipient has returned to the United States, the second period of 30 consecutive days starts on the day the individual returned and ends on the 30th day of continuous presence in the United States. Benefits will be suspended effective with the first full calendar month in which a recipient is outside the United States.

(b) *Resumption of payments after absence from the United States.* If benefits are otherwise payable they will be resumed—

(1) Effective with the day following the 30th day of continuous presence in the United States after the recipient's return if the absence was for 30 consecutive days or more.

(2) Effective with the day the recipient returned to the United States, if the absence from the United States was for a full calendar month, but for less than 30 consecutive days (this can occur only for the calendar month of February).

Example 1: Mike left the United States on March 1 and returned on April 1. Counting March 2 through March 31, he was outside the United States for 30 consecutive days; thus he is also deemed to be outside the United States for 30 additional consecutive days. Therefore, for April 1 through April 30, he is deemed to be outside the United States and not eligible for the calendar month of April. Payments start effective May 1.

Example 2: Mary left the United States on April 15 and returned on July 1. Counting April 16 through June 30, she was actually outside the United States and not eligible for the calendar months of May and June. Since she was absence for more than 30 consecutive days, she is deemed to be outside the United States for 30 additional consecutive days. Therefore, for July 1 through July 30, she is deemed to be outside the United States and not eligible for payment until July 31.

21. In § 416.1328, paragraph (b) is revised to read as follows:

§ 416.1328 Suspension due to refusal to accept vocational rehabilitation services.

* * * * *

(b) *Resumption of payments.* If benefits are otherwise payable, they will be resumed effective with the earliest day of the month on which the recipient no longer refuses without good cause to accept vocational rehabilitation services. See § 416.421.

22. Section 416.1329 is revised to read as follows:

§ 416.1329 Suspension due to loss of United States residency, United States citizenship, or status as an alien lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law.

(a) A recipient ceases to be an eligible individual or eligible spouse, under section 1614(a)(1)(B) of the Act, when he or she ceases to meet the requirement of § 416.202(b) with respect to United States residency, United States citizenship, or status as an alien lawfully admitted for permanent residence or otherwise permanently residing in the United States under color of law. Payments are suspended effective with the first month after the last month in which a recipient meets the requirements of § 416.202(b).

(b) *Resumption of payments.* If benefits are otherwise payable, they will be resumed effective with the earliest day of the month on which the recipient again meets both the residence and citizenship or lawfully admitted alien or color of law requirements. See § 416.421.

23. Section 416.1330 is revised to read as follows:

§ 416.1330 Suspension due to failure to apply for and obtain other benefits.

(a) *Suspension effective date.* A recipient ceases to be an eligible individual or eligible spouse when, in the absence of a showing of incapacity to do so, or other good cause, he or she fails within 30 days after notice from the Social Security Administration of probable eligibility, to take all appropriate steps to apply for and, if eligible, to obtain payments such as an annuity, pension, retirement, or disability benefit, including veterans' compensation, old-age, survivors, and disability insurance benefit, railroad retirement annuity or pension, or unemployment insurance benefit. Benefit payments are suspended due to such ineligibility effective with the month in which the recipient was notified in writing of the requirement that he or she file and take all appropriate steps to receive the other benefits. See § 416.210(e).

(b) *Resumption of payment.* If benefits are otherwise payable, they will be resumed effective with the earliest day of the month on which the recipient takes the necessary steps to obtain the other benefits. See § 416.421.

Subpart R—Relationship

24. The authority citation for Subpart R of Part 416 continues to read as follows:

Authority: Secs. 1102, 1614 (b), (c), and (d), and 1631(d)(1) of the Social Security Act; 49 Stat. 647 as amended, 86 Stat. 1473 and 1478 (42 U.S.C. 1302, 1382c (b), (c) and (d), and 1383(d)(1)).

25. In § 416.1802, paragraph [d] is revised to read as follows:

§ 416.1802 Effects of marriage on eligibility and amount of benefits.

* * * * *

(d)(1) *General rule:* Benefits depend on whether you are married or not married at the beginning of each month If you get married, even on the first day of a month we will treat you as single until the next month. If your marriage ends, even on the first day of a month, we will treat you as married until the next month.

(2) *Exception: If you both meet eligibility requirements after your date of marriage or after your marriage ends.* If, in the month that you marry, each of you first meets all eligibility requirements after the date of your marriage, we will treat you as an eligible couple for that month. If, in the month that your marriage ends, each of you first meets all eligibility requirements after the date your marriage ends, we will treat you as eligible individuals. (See Subparts D and E regarding how your benefits will be prorated.)

Internal Revenue Service

26 CFR Part 602

[T.D. 8025]

OMB Control Numbers Under the Paperwork Reduction Act; Returns Relating to Cash Payments in Excess of $10,000 Received in a Trade or Business

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction.

SUMMARY: This document contains a correction to Treasury Decision 8025, which was published in the Federal Register on May 23, 1985 (50 FR 21239). T.D. 8025 issued temporary regulations

VOL 51 ISS 76 AP 21 1986 UMI

relating to the requirement of reporting cash in excess of $10,000 received in a trade or business and other issues arising under the Tax Reform Act of 1984.

EFFECTIVE DATES: The correction is effective May 23, 1985.

FOR FURTHER INFORMATION CONTACT: Dale D. Goode of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC 20224 (Attn: CC:LR:T). Telephone: 202–566–3935 (not a toll-free number).

Background

On May 23, 1985, the **Federal Register** published (51 FR 21239) Treasury Decision 8025 relating to the reporting of cash in excess of $10,000 received in a trade or business. This document contains temporary regulations under section 6050I of the Internal Revenue Code of 1954, as added by section 146 of the Tax Reform Act of 1984.

Need for Correction

As published, T.D. 8025 contains a typographical error on page 21243, second column, line 28.

Correction of Publication

Accordingly, the publication of Treasury Decision 8025 which was the subject of FR Doc. 85–11902 is corrected in § 602.101, on page 21243, second column, line 28, by adding the letter "T" immediately after "§ 1.6050I–1" to read "§ 1.6050I–1T".

Paul A. Francis,

Acting Director, Legislation and Regulations Division.

Amendments to Federal Contract Labor Standards Regulations Eliminating Daily Overtime Requirements on Federal and Federally Assisted Contracts

Correction

In FR Doc. 86–7726 beginning on page 12264 in the issue of Wednesday, April 9, 1986, make the following correction: On page 12265, in the third column, in § 5.5(a), in the fourth line, "one-" should read "one and one-".

BILLING CODE 1505–01–M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A–10–FRL–3069–2]

Approval and Promulgation of State Implementation Plan: Oregon

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today approves the amendments to the Oregon State Implementation Plan (SIP) which will modify the Veneer and Plywood Manufacturing Operations Rule (OAR 340–25–315) so as to apply uniform emission limits for veneer dryers throughout the state. In addition, the revision will also delete a section of the rule dealing with the implementation of compliance dates which have already passed.

EFFECTIVE DATE: This action will be effective on June 20, 1986, unless notice is received before May 21, 1986, that someone wishes to submit adverse or critical comments.

ADDRESSES: Copies of the materials submitted to EPA may be examined during normal business hours at:

Public Information Reference Unit, Environmental Protection Agency, 401 M Street SW., Washington, DC 20460;
Air Programs Branch (10A–85–18), Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101;
State of Oregon, Department of Environmental Quality, 522 S.W. Fifth, Yeon Building, Portland, Oregon 97204.

Copy of the State's submittal may be examined at: The Office of the Federal Register, 1100 L Street, N.W., Room 8401, Washington, DC.

Comments should be addressed to: Laurie M. Kral, Air Programs Branch, M/S 532, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101.

FOR FURTHER INFORMATION CONTACT: Ann Williamson, Air Programs Branch, M/S 532, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101. Telephone: (206) 442–8633, FTS: 399–8633.

SUPPLEMENTARY INFORMATION:

I. Background

The Oregon Environmental Quality Commission adopted the existing visible emission limits for veneer dryers in April 1977. In March 1979, standards for particulate mass emissions for wood-fired veneer dryers were adopted. These rules did not apply to veneer dryers located within "special problem areas," specifically the Portland, Eugene-Springfield, and Medford-Ashland Air Quality Maintenance Areas (AQMAs). It was expected that more stringent emission standards would be considered for sources in those areas.

During the period since the adoption of the current standards, veneer dryers within the special problem areas have been subject to the same emission limits as dryers elsewhere in the state. These limits were implemented by application of the "highest and the best practicable treatment and control" criterion and by placing emission limits in the permits for those facilities.

Since 1979, the Oregon Department of Environmental Quality (DEQ) and the Lane Regional Air Pollution Control Authority (LRAPA) have evaluated the need for more stringent controls on veneer dryers in special problem areas. This evaluation considered the needs of the airsheds, the availability of more effective controls, and the performance of controls that have been installed.

In 1983 and 1984, DEQ conducted a comprehensive study of veneer dryer visible emissions. The survey evaluated the performance and effectiveness of emission controls on 121 of the state's 230 veneer dryers. Based on these evaluations, DEQ feels that the more stringent emission standards for special control areas are not needed at this time.

Specific visible emission limits for veneer dryers in some of the special problem areas have already been established. The Specific Air Pollution Control Rules for the Medford AQMA designates visible emission limitations the same as for those dryers outside the special problem areas. LRAPA Rules require similar air emission controls for veneer dryers in the Eugene-Springfield area. At the present time, no visible emission limits apply to veneer dryers in the Portland AQMA. Additionally, no standard has been set for particulate mass emissions from wood-fired veneer dryers located in any of the special problem areas. This rule will serve to provide consistency for emission standards throughout the state.

A total of 21 veneer dryers would be affected by this rule change (including the two wood-fired operations under the jurisdiction of LRAPA). All of these dryers have demonstrated compliance with the current visible emission standards in OAR 340–25–315. This degree of emission control has been achieved by applying the requirement for "highest and best practicable

treatment and control" (OAR 340–25–310) and by placing limits in permits.

Eleven of the 18 affected wood-fired dryers have already been source tested to verify compliance with the mass particulate standard. Based on an extrapolation of visible emission performance of the tested systems, it is expected that the remaining untested dryers would have similar mass emission compliance results. Thus, the impact of the rule modification on the mill operations and the airshed is expected to be minor.

At the present time, DEQ has not identified a need for more stringent veneer dryer emission standards inside the special problem areas. The rule modification will delete the wording "located outside the special problem areas" where reference is made to standards for emissions from veneer dryers (OAR 340–25–315(1)(a)(b) and (c)).

An additional revision to the rule would delete a section on compliance schedules for veneer dryers for which the dates are now passed. The deletion of this section of the rule would have no present or future effect on the implementation or maintenance of veneer dryer emission controls since the dates have passed.

II. Summary of Rulemaking Action

EPA is approving today the amendments to the Oregon SIP which revise the current Veneer and Plywood Operations Rule (OAR 340–25–315) to make the emission limits for veneer dryers consistent throughout the state and to delete any and all references to compliance dates and schedules.

EPA is publishing this action without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. This action will be effective 60 days from the date of this **Federal Register** unless, within 30 days of its publication, notice is received that adverse or critical comments will be submitted.

If such notice is received, this action will be withdrawn before the effective date by publishing two subsequent notices. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period. If no such comments are received, the public is advised that this action will be effective June 20, 1986.

III Procedural Review

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Under 5 U.S.C. section 605(b), I certify that this revision will not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709)

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 20, 1986. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2))

List of Subjects in 40 CFR Part 52

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Lead, Particulate matter, Carbon monoxide, Hydrocarbons, Intergovernmental relations, Reporting and recording requirements.

Dated: April 10, 1986.

Lee M. Thomas,

Administrator.

Note.—Incorporation by reference of the Implementation Plan for the State of Oregon was approved by the Director of the Office of Federal Register on July 1, 1982.

PART 52—[AMENDED]

Part 52 of Chapter I, Title 40 Code of Federal Regulations is amended as follows:

Subpart MM—Oregon

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.1970 is revised by adding paragraph (c)(76) as follows:

§ 52.1970 Identification of plan.

* * * * *

(c) * * *

(76) Revisions to the Oregon State Implementation Plan were submitted by the Director of the Department of Environmental Quality on August 5, 1985. Revisions are: extension of existing emission standards for veneer dryers (OAR 340–25–315) to include sources located in special problem areas, and the deletion of any references to the implementation of compliance dates which have already passed.

(i) Incorporation by Reference.

(a) Letter of August 5, 1985, from the Department of Environmental Quality to EPA and Amendments to OAR 340–25–315, Veneer and Plywood Operations Rule, as adopted by the Environmental Quality Commission on July 19, 1985.

BILLING CODE 6560–50–M

40 CFR Part 280

[OSW–FRL 2911–6]

Hazardous Waste; Notification Requirements for Owners of Underground Storage Tanks; Correction

AGENCY: Environmental Protection Agency.

ACTION: Final rule; correction.

SUMMARY: This document corrects the dates for notification by depositors provided in the final rule implementing the notification requirements for owners of underground storage tanks under section 9002 of the Resource Conservation and Recovery Act, as amended (RCRA). These regulations were published on November 8, 1985 (50 FR 46602). This action is necessary so that the period of notification by depositors to owners or operators of underground storage tanks will be in accordance with the period specified in the law (section 9002(a)(5) of RCRA).

DATES: The final rule was effective on November 8, 1985. From December 8, 1985 through June 8, 1987 depositors of regulated substances in underground storage tanks must reasonably notify tank owners or operators of the owners' notification obligations.

ADDRESS: The public docket for this final rule [Docket No. 9002] is located in Room S–212, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: The RCRA/Superfund Hotline at (800) 424–9346 (toll free) or (202) 382–3000 in Washington, DC; or Virginia Cummings, Office of Underground Storage Tanks (WH–562A), United States Environmental Protection Agency, Washington, DC, 20460, (202) 382–7925.

SUPPLEMENTARY INFORMATION: The following corrections are made on page 46602 in the issue of November 8, 1985:

1. On page 46603, column 1, last paragraph, "From December 9, 1985 through May 9, 1987" is corrected to read, "From December 8, 1985 through June 8, 1987."

2. On page 46613, column 2, 40 CFR 280.3(g) is correctly revised to read as follows:

§ 280.3 Notification requirements.

* * * * *

(g) Beginning on December 8, 1985 through June 8, 1987, any person who deposits regulated substances in an underground storage tank must make reasonable efforts to notify the owner or operator of such tank of the owner's

VOL 51 ISS 76 AP 21 1986 UMI

obligations under paragraphs (a) through (c) of this section.

* * * * *

Dated: April 15, 1986.

Ronald Brand,

Director, Office of Underground Storage Tanks.

BILLING CODE 6560-50-M

GENERAL SERVICES ADMINISTRATION

41 CFR Parts 101-25, 101-26, and 101-28

[FPMR Amdt. E-261]

Customer Supply Center Program

AGENCY: Federal Supply Service, GSA.

ACTION: Final rule.

SUMMARY: This regulation provides policy for the GSA customer supply center program and deletes policy and references relating to the GSA self-service store program which are no longer applicable. The regulation is necessary to establish the policy governing the use of customer supply centers and to provide agencies with information concerning the program and the related responsibilities.

EFFECTIVE DATE: April 21, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. Donald Genova, Director, Logistics Planning Division (703-557-7970).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. The General Services Administration has based all administrative decisions underlying this rule on adequate information concerning the need for and consequences of this rule, has determined that the potential benefits to society from this rule outweigh the potential costs and has maximized the net benefits, and has chosen the alternative approach involving the least net cost to society.

List of Subjects in 41 CFR Parts 101-25, 101-26, and 101-28

Government Property Management Warehouses.

1. The authority citation for Parts 101-25, 101-26, and 101-28 continues to read as follows:

Authority: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

PART 101-25—GENERAL

Subpart 101-25.1—General Policies

2. Section 101-25.107 is amended by revising paragraph (b) to read as follows:

§ 101-25.107 Guidelines for requisitioning and proper use of consumable or low cost items.

* * * * *

(b) Approval of requisitions for replenishment of cupboard storeroom stocks should be restricted to officials at a responsible supervisory level to ensure that supply requirements are justified on the basis of essentiality and quantity. Where requisitions are not required, such as in obtaining items from GSA customer supply centers, informal "shopping lists" should be approved at the same level.

* * * * *

PART 101-26—PROCUREMENT SOURCES AND PROGRAMS

Subpart 101-26.1—General

3. Section 101-26.106 is revised to read as follows:

§ 101-26.106 Consolidation of requirements.

Full consideration shall be given to the consolidation of individual small volume requirements to enable the Government to benefit from lower prices normally obtainable through definite quantity contracts for larger volume procurements. This policy pertains to procurement from commercial sources either directly or through an intermediary agency and does not apply to GSA-stock items or small volume requirements normally obtained from GSA customer supply centers. When it is practical, each agency shall establish procedures that will permit planned requirements consolidation on an agencywide basis. When it is impractical to plan requirements on an agencywide consolidated basis, the requirements consolidation effort may be limited to a bureau, to other agency segments, or to a program, if such limited consolidation will provide significant price advantages when procurement is effected on a volume basis. Requisitions for item requirements exceeding maximum order limitations in Federal Supply Schedule contracts shall be submitted to GSA in accordance with the applicable instructions in the respective schedules. Special buying services desired by agencies for procurement of other consolidated item requirements shall be requested from GSA in accordance with § 101-26.102.

Subpart 101-26.4—Purchase of Items From Federal Supply Schedule Contracts

4. Section 101-26.408-4 is amended by revising paragraph (c) to read as follows:

§ 101-26.408-4 Placement of orders against multiple-award schedules.

* * * * *

(c) GSA customer supply centers are immediate sources of supply for Federal agencies and are responsible for providing small quantity issues of administrative supplies and other selected items to fulfill short-term official agency requirements. In furtherance of this responsibility, these centers stock a variety of high demand items including a number which may be other than a lowest priced item available from a multiple-award Federal Supply Schedule. In such instances, the GSA centers are exempt from the requirements of the § 101-26.408-4 pertaining to the inclusion of justification of purchase in the delivery order file. When an agency makes a purchase of more than $500 per line item from a GSA customer supply center which is other than a similar lowest priced item available from a multiple-award schedule, GSA will assume that a justification has been prepared and made a part of the buying agency's purchase file. Availability of products, regardless of the total amount of the line item price, does not relieve an agency of the responsibility to select the lowest priced item commensurate with needs of the agency.

PART 101-28—STORAGE AND DISTRIBUTION

5. The table of contents for Part 101-28 is amended by revising the following subpart:

Subpart 101-28.3—Customer Supply Centers

Sec.
101-28.300 Scope of subpart.
101-28.301 Applicability.
101-28.302 Mission of customer supply centers.
101-28.303 Benefits provided by customer supply centers.
101-28.304 Item selection and stockage criteria.
101-28.304-1 Types of items.
101-28.304-2 Determining items to be stocked.
101-28.305 Prices of customer supply center items.
101-28.306 Customer supply center (CSC) accounts and related controls.
101-28.306-1 Establishment of a CSC account by a customer activity.
101-28.306-2 Use of customer supply centers.
101-28.306-3 Limitations on use.
101-28.306-4 Expiration or cancellation.
101-28.306-5 Safeguards.
101-28.306-6 Sensitive items.
101-28.306-7 Responsibility for operation.

6. Part 101-28 is amended to revise Subpart 101-28.3 to read as follows:

Subpart 101-28.3—Customer Supply Centers

§ 101-28.300 Scope of subpart.

This subpart provides policy for the GSA customer supply center program, including policy on item stockage, services provided, and Federal agency participation.

§ 101-28.301 Applicability.

This subpart is applicable to all activities that are eligible to use customer supply centers. Eligible activities include executive agencies, elements of the legislative and judicial branches of the Government, and cost reimbursable contractors. Customer supply centers are for the use of activities located within the market area of a customer supply center as determined by GSA.

§ 101-28.302 Mission of customer supply centers.

Customer supply centers are retail supply distribution outlets established by GSA to provide efficient, economical support of frequently needed common-use expendable items for the accomplishment of customer agency missions.

§ 101-28.303 Benefits provided by customer supply centers.

The customer supply centers (CSCs) provide the following:

(a) Overall savings to the Federal Government through volume purchases.

(b) Quick and easy catalog item selection and simplified order placement by telephone, mail, electronic mail, or customer walk-in for urgent agency requirements.

(c) Next business day shipment to the customer for most orders.

(d) Same day pick up of emergency walk-in and telephone orders.

(e) Immediate stock availability information for all telephone and walk-in orders.

(f) Extensive inventory designed to meet the needs of customer agencies within the geographic area served by each CSC.

(g) A detailed catalog which lists the items stocked and procedures for use of the CSC.

(h) Automated biweekly billings (consistent with DOD MILSBILLS).

(i) Other services as approved by the GSA Regional Administrator.

§ 101-28.304 Item selection and stockage criteria.

§ 101-28.304-1 Types of items.

Items stocked in customer supply centers are based on customer agency requirements for common use expendable items. In addition to administrative type items commonly used in Government offices, janitorial supplies, handtools, and other industrial-type items are stocked when required to meet the mission-related needs of the activities supported by the CSC.

§ 101-28.304-2 Determining items to be stocked.

(a) Each CSC will stock administrative items normally required by Federal agencies for day-to-day operations. In addition to those items, each CSC will stock additional items as determined by the requirements of the activities within the geographic area it serves.

(b) Regional FSS offices will canvass customer agencies periodically to identify items for which there is an official need within their support area.

(c) Customer agencies may request that specific items be stocked by their support CSC. The requests must be submitted in writing to the appropriate FSS Bureau Director and must be signed by a customer agency official at a level of responsibility (division director or higher) acceptable to the GSA Regional Administrator. All requests must indicate the expected monthly usage of the item requested. Each request will be evaluated and the submitting activity notified of the results of the evaluation.

§ 101-28.305 Prices of customer supply center items.

The selling price of a CSC item is an average price which is calculated automatically by the CSC computer at the time the item is ordered. Items stocked in CSCs that are obtained from GSA wholesale supply distribution facilities are input into the computer at the price in effect at the time of shipment from the facilities (this price is normally the price shown in the GSA Supply Catalog). Items stocked in CSCs that are not available from GSA wholesale supply distribution facilities but which are obtained from other Government supply sources or commercial sources are input into the computer at the invoice cost. Due to cost averaging, item prices listed in the CSC catalog may differ somewhat from the sale price for a particular transaction.

§ 101-28.306 Customer supply center (CSC) accounts and related controls.

§ 101-28.306-1 Establishment of a CSC account by a customer activity.

(a) Eligible agencies should contact the GSA Regional Federal Supply Service Bureau to obtain full information on the use of the CSC for their locale. FSS Bureau personnel will provide assistance to agencies in the establishment of the CSC account, brief personnel on the use of the CSC to meet local, retail supply requirements, and provide copies of the CSC catalog.

(b) An appropriate level management official (division director of higher) authorized to obligate agency funds must sign the GSA Form 3525, Application for Customer Supply Services, requesting establishment of the CSC account for the activity.

§ 101-28.306-2 Use of customer supply centers.

(a) Orders are received by the CSC via phone, mail, electronic mail, or in person on a walk-in basis for urgent agency requirements. All use of the CSC is based upon the customer access code assigned at the time of establishment of the activity account. The customer access code determines the ship-to point for orders placed with the CSC. The ship-to point cannot be changed, one established, except by the submission of a written request signed by an appropriate agency official.

(b) All orders placed with the CSC, except emergency pickup orders, described in § 101-28.306-1(c), will be shipped to the activity placing the order via mail or small parcel carrier not later than the end of the next business day.

(c) Walk-in orders for urgent requirements are accepted and filled immediately provided the individual placing the order has proper identification. Telephone orders placed in the morning may be picked up in the afternoon of the same day provided that the individual picking up the order possesses proper identification and the order ticket number provided by the CSC personnel at the time the order is placed.

§ 101-28.306-3 Limitations on use.

(a) Agencies shall establish internal controls to ensure that the use of the CSC account by the agency or other authorized activities is limited to the purchase of items for official Government use. The controls shall include written instructions that contain a statement prohibiting the use of the

VOL 51 ISS 76 AP 21 1986 UMI

CSC account in acquiring items for other than Government use. When an agency makes a purchase of more than $500 per line item from a GSA customer supply center which is other than a similar lowest priced item available from a multiple-award schedule, GSA will assume that a justification has been prepared and made a part of the buying agency's purchase file. Availability of products, regardless of the total amount of the line item price, does not relieve an agency of the responsibility to select the lowest priced item commensurate with needs of the agency.

(b) Office supplies needed by Members of Congress and the Delegate of the District of Columbia for use in their offices in the House or Senate Office Buildings should be obtained from the Senate and Houses Representatives supply rooms, as appropriate. Members of Congress, except for the Delegate of the District of Columbia, should limit their use of the CSCs to those located outside of the District of Columbia. The Delegate of the District of Columbia may obtain office supplies for the use of his or her district offices from the CSC serving the District of Columbia.

§ 101-26.306-4 Expiration or cancellation.

(a) CSC accounts established for Federal agencies or members of the Federal judiciary are valid for an indefinite period of time unless canceled by the Commissioner, FSS, GSA, or by a GSA Regional Administrator.

(b) CSC accounts established for authorized contractors or Members of Congress will contain an expiration date reflecting the termination date of the contract or term of office. New accounts will be established for reinstated contractors or reelected Members of Congress upon submission of a new application.

(c) Any CSC customer may request cancellation of his/her account when no longer required or whenever there is cause to believe that the customer access code has been compromised. Agencies shall keep GSA advised of any changes in organization or accounting structures that might have an impact on their CSC accounts.

(d) The Commissioner FSS, GSA, may periodically direct a nationwide purge of all CSC accounts to cancel those that are duplicates, not needed, or for which the customer access code has been compromised. Selective account cancellations may be directed by the GSA Regional Administrator in coordination with FSS Central Office. Under the procedures of a nationwide purge, CSC accounts become invalid as of a specific date established by the Commissioner, FSS, GSA, or by a Regional Administrator, and new CSC accounts are established upon receipt of new applications.

§ 101-26.306-5 Safeguards.

Agencies shall establish internal controls to ensure that the customer access codes assigned for their accounts are properly protected. It is by use of these access codes that orders are accepted by the CSC and these codes determine the ship-to points for all orders filled by the CSC with the exception of orders picked up at the CSC by the customer. GSA will not change the ship-to location associated with the customer access code except upon receipt of a written request to do so, signed by a duly authorized official of the customer activity.

§ 101-26.306-6 Sensitive items.

Many items stocked by the CSCs may be considered sensitive based upon standard criteria factors such as propensity for personal use, the potential for embarrassment of GSA and customer agencies, the level of customer complaints, and control as an accountable item of personal property. Each customer activity shall take all appropriate measures necessary to ensure that all items are properly controlled within its activity and are purchased solely for official Government use.

§ 101-26.306-7 Responsibility for operation.

The GSA Regional Administrator is responsible for the operation of any CSCs located within his or her region.

Dated: March 20, 1986.

Paul Trause,

Acting Administrator of General Services.

41 CFR Part 105-67

[ADM 7900.10]

Debarment/Suspension of Contractors From Purchase of Federal Personal Property

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: The General Services Administration Property Management Regulation (GSPMR) is amended to add Part 105-67 to implement the October 9, 1985, amendment to the Federal Property Management Regulation (FPMR) which applied the Governmentwide policies, procedures, and requirements of Subpart 9.4 of the Federal Acquisition Regulation (FAR) on suspension, debarment and ineligibility to contractors who purchase Federal personal property. The new subpart implements FPMR Subpart 101-45.6 within GSA by applying the policies, procedures and requirements of Subpart 509.4 of the General Services Administration Acquisition Regulation (GSAR) on suspension, debarment and ineligibility to contractors who purchase Federal personal property.

EFFECTIVE DATE: April 21, 1986.

FOR FURTHER INFORMATION CONTACT: Edward C. Loeb, Procurement Analyst, Office of GSA Acquisition Policy and Regulations (VP), (202) 535-7791.

SUPPLEMENTARY INFORMATION:

Background

On December 20, 1985, the General Services Administration (GSA) published in the **Federal Register** (50 FR 52808) Notice ADM 7900.10 inviting comments from interested parties on these proposed changes to the regulation and provided a 30-day comment period. No comments were received from the public. Comments from various GSA offices have been reviewed, reconciled, and incorporated, when appropriate, in the final rule.

Impact:

This is not a major rule as defined in Executive Order 12291. Therefore, preparation of a regulatory impact analysis was not necessary. The GSA certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

List of Subjects in 41 CFR 105-67

Debarred, Suspended and ineligible contractors.

Authority: 40 U.S.C. 486(c).

Part 105-67 is added to read as follows:

PART 105-67—SALE OF PERSONAL PROPERTY

Sec.

105-67.100 Scope of subpart.

105-67.101 Debarred, suspended and ineligible contractors.

§ 105-67.100 Scope of subpart.

This subpart prescribes policies and procedures governing the debarment or suspension of contractors from purchases of Federal personal property (see FPMR Part 101-45).

§ 105-67.101 Debarred, suspended and ineligible contractors.

The policies, procedures and requirements of Subpart 509.4 of the General Services Administration Acquisition Regulation (GSAR) are incorporated by reference and made applicable to contracts for, and to contractors who engage in, the purchase of Federal personal property.

Dated: April 14, 1986.

Paul Trause,

Acting Administrator of General Services.

Medicaid and Unemployment Compensation Programs

Correction

In FR Doc. 86-4280 beginning on page 7178 in the issue of Friday, February 28, 1986, make the following corrections: On page 7213, in the second column, the section number now reading "§ 435.460" should be changed to read "§ 435.960"; and in the first line of the section, the paragraph designation should be "(a)".

BILLING CODE 1505-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 205

Duplication of Benefits

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule will implement the duplication of benefits provisions of the Disaster Relief Act of 1974 (Pub. L. 93-288), section 315, 42 U.S.C. 5155. This will establish Federal Emergency Management Agency (FEMA) regulations on duplication of benefits, replacing those which are currently in effect at 44 CFR 205.10. This rule specifies policies for preventing duplication of benefits and for remedying it when it has occurred.

EFFECTIVE DATE: May 21, 1986.

FOR FURTHER INFORMATION CONTACT: Donna M. Dannels, Individual Assistance Division, Office of Disaster Assistance Programs, State and Local Programs and Support, Federal Emergency Management Agency, 500 'C' St., SW, Washington, D.C. 20472, (202) 646-3662.

SUPPLEMENTARY INFORMATION: The duplication of benefits regulations being withdrawn basically repeat the law and do not provide specific procedures or policies. New procedures have been developed based on input FEMA solicited from other agencies involved in the duplication of benefits process. These new procedures have appeared in program guidance. The proposed regulations are more specific than the existing regulations and prescribe policy more clearly. On May 22, 1985, FEMA published a proposed rule and accepted comments until July 22, 1985. Comments were received from seven parties. Responses were directly sent to the commentors. The Department of Emergency and Military Affairs in Arizona commented in a supportive manner and did not request any revisions to the rule. The Alliance of American Insurers and the American Insurance Association questioned FEMA's authority to obtain coverage and/or settlement information on disaster victims from the insurers. The rule has been changed to place the responsibility for providing settlement information to FEMA on the insured, thus making requests from the insurers unnecessary. The Federal Insurance Adminstration (FIA) and the Alliance of American Insurers noted that references to flood insurance in the rule imply that coordination is needed only with the National Flood Insurance Program. The rule was revised and instructs coordination with the FIA. The FIA maintains information on not only policies with the National Flood Insurance Program, but also privately provided Write-Your-Own policies. The FIA inquired about which agencies the quality control reviews referred to in (b)(3) and (d)(3) would apply. The phrase "government and voluntary agencies" was added in (d)(3) for clarification. The Texas Department of Human Resources and the Small Business Administration (SBA) suggested that the actual delivery sequence be shown in this rule. This sequence will appear in section (c)(1). The SBA and a FEMA regional office asked for clarification of section (c)(3) when exceptional circumstances are involved. This section has been revised to clarify recoupment responsibilities when the delivery sequence is disrupted. The SBA also requested a definition of which agencies are covered in section (d) Program Guidance. This is differentiated in the rule as programs covered under the Disaster Relief Act, (d)(4), and programs under other authorities, (d) (1) and (2), but does not list the specific agencies. Another FEMA regional office comment requested that the FEMA Regional Director's responsibility in recovering duplicated assistance be limited to preventive measures. The Disaster Relief Act prohibits this in section 315 as it specifically states a responsibility for directing the person, business concern or other entity to repay the Treasury. The remaining comments from the commentors mentioned in this section are editorial or nonsubstantive and do not require replies.

Environmental Considerations

This regulation is procedural, and based on the following criteria, FEMA has determined that the implementation of this regulation will have no significant impact on the environment:

(1) Minimal or no effect on environmental quality;

(2) No significant change to existing environmental conditions; and

(3) No significant cumulative environmental impact. Executive Order 12291 and Regulatory Flexibility Act.

This rule has been determined not to be a "major rule" within the sense of Executive Order 12291, for the following reasons:

(1) It will not have an annual effect on the economy of $100 million or more;

(2) It will not result in a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and

(3) It will not have a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Also, it has been determined that this regulation will not have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis will not be prepared.

There are no information collection requirements in this regulation.

Content of the Rule

This rule implements section 315 of the Disaster Relief Act of 1974, 42 U.S.C. 5155. It states the agency policy for preventing duplication of benefits and for remedying it when it has occurred.

List of Subjects in 44 CFR Part 205

Community facilities, Disaster assistance, Grant programs, Housing and community development.

Accordingly, 44 CFR Part 205 is amended as follows:

VOL 51 ISS 76 AP 21 1986 UMI

PART 205—FEDERAL DISASTER ASSISTANCE (PUB. L. 93-288)

1. The authority citation for Part 205 is revised to read as follows and all authority citations within Subpart A are removed.

Authority: 42 U.S.C. 5201 Reorganization Plan No. 3 of 1978, Executive Order 12148.

2. Section 205.10 is revised to read as follows:

§ 205.10 Duplication of benefits.

(a) *Purpose.* This section establishes the policies for implementing Section 315 of the Disaster Relief Act, entitled Duplication of Benefits.

(b) *Agency Policy.* It is FEMA policy:

(1) To prevent duplication of benefits between its own programs and insurance benefits, and between its own programs and other disaster assistance, by providing assistance under the Act only when other assistance, which is the primary responsibility of another State or Federal agency to provide, will be significantly delayed or is unavailable, and when the delay or unavailability is not caused by the applicant;

(2) To examine a debt resulting from duplication to determine that the likelihood of collecting the debt and the best interests of the United States government justify taking the necessary recovery actions to remedy duplication which has occurred when other assistance has become available;

(3) To assure, by consultation with other Federal agencies and by performing selected quality control reviews, that the other disaster relief agencies establish and follow policies and procedures to prevent and remedy duplication among their programs, other programs, and insurance benefits; and

(4) To coordinate the effort of agencies providing assistance so that each agency understands the prevention and remedial policies of the others and is able to fulfill its own responsibilities regarding duplication of benefits.

(c) *Delivery Sequence.* (1) Duplication occurs when an agency has provided assistance which was the primary responsibility of another agency, and the agency with primary responsibility later provides assistance. A delivery sequence establishes the order in which disaster relief agencies and organizations provide assistance. The specific sequence, in accordance with the mandates of the assistance programs, is to be followed in the delivery of assistance. When the delivery sequence has been disrupted, the disrupting agency is responsible for rectifying the duplication. The delivery sequence pertains to that period of time in the recovery phase when most of the traditional disaster assistance programs are available.

(2) The delivery sequence is, in order of delivery:

First—volunteer agencies' emergency assistance (except expendable items such as clothes, linens, and basic kitchenware); insurance (including flood insurance);

Second—temporary housing assistance (to include provision of a housing unit and minimal repairs);

Third—Small Business Administration and Farmers Home Administration disaster loans;

Fourth—Individuals and Family Grant program assistance;

Fifth—volunteer agencies' "additional assistance" programs; and

Sixth—the "Cora Brown Fund."

(3) Two significant points about the delivery sequence are that:

(i) Each assistance agency should, in turn, offer and be responsible for delivering assistance without regard to duplication with a program later in the sequence; and

(ii) The sequence itself determines what types of assistance can duplicate other assistance (e.g., a Federal program can duplicate insurance benefits, however, insurance benefits cannot duplicate the Federal assistance). An agency's position in the sequence determines the order in which it should provide assistance and what other resources it must consider before it does so.

(4) If following the delivery sequence concept would adversely affect the timely receipt of essential assistance by a disaster victim, the following exception may be invoked. When there is a time delay, an agency may offer assistance which is the primary responsibility of another agency. There may be cases when an agency (Agency B) delivers assistance which is normally the primary responsibility of another agency (Agency A) because Agency A has, for good cause, denied assistance. After the assistance is delivered, Agency A re-opens the case. If the primary response Agency A then provides assistance, that Agency A is responsible for coordinating with Agency B to either: (i) Assist Agency B in preventing the duplication of benefits or (ii) in the case where the disaster victim has refused assistance from Agency A, notify Agency B that it must recover assistance previously provided.

(d) *Program Guidance.*—(1) *Programs Under the Act v. Other Agency Assistance.*

(i) In making an eligibility determination, the FEMA Regional Director, in the case of Federally operated programs, or the State, in the case of State operated programs, shall determine whether assistance is the primary responsibility of another agency to provide, according to the delivery sequence; and determine whether that primary response agency can provide assistance in a timely way.

(ii) If it is determined that timely assistance can be provided by the agency with primary responsibility, refrain from providing assistance under the Act. If it is determined that assistance from the agency with primary responsibility will be significantly delayed, assistance under the Act may be provided, but then must be recovered from the applicant when the other assistance becomes available.

(2) *Programs Under the Act v. Insurance.* In making an eligibility determination, the FEMA Regional Director or State shall:

(i) Remind the applicant about his/her responsibility to pursue an adequate settlement. The applicant must provide information concerning insurance recoveries. The burden of proof is on the applicant to prove that, despite conditions of settlement or expected settlement, the need for disaster assistance is paramount;

(ii) Determine whether the applicant's insurance settlement will be sufficient to cover the loss or need without disaster assistance; and

(iii) Determine whether insurance benefits (including flood insurance) will be provided in a timely way, thus precluding the need for disaster assistance, or whether assistance should be provided immediately to prevent a hardship. Where flood insurance is involved, the Regional Director shall coordinate with the Federal Insurance Administration. The purpose of this coordination is to obtain information about flood insurance coverage and settlements.

(3) *Random Sample.* Each disaster assistance agency is responsible for preventing and rectifying duplication of benefits under the coordination of the Federal Coordinating Officer (FCO) and the general authority of section 315. To determine whether duplication has occurred and established procedures have been followed, the Regional Director shall, within 90 days after the close of the disaster assistance programs' application period, for selected disaster declarations, examine on a random sample basis, FEMA's and other government and voluntary agencies' case files and document the findings in writing.

(4) *Duplication When Assistance Under the Act is Involved.* If duplication is discovered, the Regional Director shall determine whether the duplicating agency followed its own remedial procedures.

(i) If the duplicating agency followed its procedures and was successful in correcting the duplication, the Regional Director will take no further action. If the agency was not successful in correcting the duplication, and the Regional Director is satisfied that the duplicating agency followed its remedial procedures, no further action will be taken.

(ii) If the duplicating agency did not follow its duplication of benefits procedures, or the Regional Director is not satisfied that the procedures were followed in an acceptable manner, then the Regional Director shall provide an opportunity for the agency to take the required corrective action. If the agency cannot fulfill its responsibilities for remedial action, the Regional Director shall notify the recipient of the excess assistance, and after examining the debt, if it is determined that the likelihood of collecting the debt and the best interests of the United States government justify taking the necessary recovery actions, then take those recovery actions in conjunction with agency representatives for each identified case in the random sample (or larger universe, at the Regional Director's discretion).

(5) *Duplication When Assistance Under Other Authorities is Involved.* When the random sample shows evidence that duplication has occurred and corrective action is required, the Regional Director and the FCO shall urge the duplicating agency to follow its own procedures to take corrective action, and shall work with the agency toward that end. Under his/her authority in section 315, the Regional Director shall require the duplicating agency to report to him/her on its attempt to correct the duplications identified in the sample.

(e) *Recovering FEMA Funds: Debt Collection.* FEMA's Debt Collection Regulations (44 CFR Part 11) and policy statements give agency debt collection officers and the Comptroller certain responsibilities in recovering funds due to FEMA. In addition, they specify thresholds for compromise, suspension, and termination of debts. These regulations prescribe the procedures FEMA will follow to recover duplications FEMA is responsible for acting upon.

Dated: April 11, 1986.

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

[FR Doc. 86-8544 Filed 4-18-86; 8:45 am]

BILLING CODE 6718-02-M

44 CFR Part 205

Temporary Housing Assistance

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule establishes the Federal Emergency Management Agency (FEMA) program regulations for the Temporary Housing Assistance (THA) Program under section 404 of the Disaster Relief Act of 1974. THA is provided to applicants who qualify for it as a result of a major disaster or emergency declared by the President. The regulations specify agency policies concerning eligibility criteria; avoidance of duplication of benefits and the types and extent of assistance to be provided.

EFFECTIVE DATE: This Rule is effective May 21, 1986.

FOR FURTHER INFORMATION CONTACT: Sarah L. Wise, Individual Assistance Division, Office of Disaster Assistance Programs, State and Local Programs and Support, FEMA, 500 'C' Street, SW., Washington, D.C. 20472, (202) 646-3657.

SUPPLEMENTARY INFORMATION: On December 6, 1985, FEMA published a proposed rule in the **Federal Register**. Two responses were received. One commentor objected to the statement that a greater share of the burden of relief was being shifted to disaster victims. Paragraph (b), Program Intent, has been reworded to better state FEMA's intent. Field tests of the new procedures clearly show that people are able to help themselves when given the financial assistance to do so. Concerns about duplication of insurance benefits were raised. Duplication of benefits is addressed in the regulations and agency procedures due to the explicit prohibition of such duplication in section 315(b) of Pub. L. 93-288. However, the regulations allow sufficient flexibility to assist people when benefits are unavoidably delayed.

Concern was also expressed that removing technical detail from the regulations and expanding the Regional Director's authority may result in too much variation in program administration. It should be noted that FEMA is issuing accompanying instructions and policy statements to its Regional Offices to insure consistency, while enabling the Regional Director the flexibility to cope with unique and changing disaster situations.

The definition of financial ability in paragraph (c)(5) has also been reworded for clarity.

One commentor requested that FEMA make transient housing available. Such assistance has always been and still is available and is unaffected by these regulations. Prompt placement of mobile homes was also raised as a concern. The use of mobile homes has always been an option in the program and these regulations do not change past or current policies.

One commentor expressed concern that FEMA was placing the burden of determining eligibility on pre-disaster renters. This determination will continue to be done by FEMA. The only burden the disaster victim will have to bear is placing a toll free call if they wish to apply for additional assistance.

Comments were received on the dollar limitations for minimal repairs. One commentor objected to FEMA placing a $100 deductible on the minimal repair grant. The minimum dollar limitation is not a deductible—it is a threshhold. In extreme hardship cases this threshhold can be waived. It is FEMAs position that any damages under $100 can normally be assumed by the applicant. One of the commentors expressed concern that a maximum amount for minimal repairs is not specified. Paragraph (g)(1)(ii)(C) has been changed to give the Associate Director authority to establish both a minimum and a maximum dollar limitation. The dollar limitations established by the Associate Director are $100 as a minimum and $5,000 as a maximum. A notice will be published in the **Federal Register** if either of these amounts are changed.

One comment concerned the reference in paragraph (d)(1) to "rent-free" housing. Pub. L. 93-288 (404(a)) mandates that no rental shall be established during the first twelve months of occupancy. Continued occupancy is based on need, therefore the reference is appropriate.

Comments received on Disaster Application Center procedures are noted but are not germane to this regulation and have been addressed in separate correspondence to the commentor.

In addition to the changes made as a result of the comments received there were several other changes made based on experiences in more recent disaster operations. The most significant of these changes are to the minimal repairs form of assistance, paragraph (g). Items (G) and (I) of the minimal repairs scope of work have also been slightly reworded

VOL 51 ISS 76 AP 21 1986 UMI

to eliminate the connotation that all minimal repairs performed under this program are temporary. Item (O), involving repairs to foundations, walls, and footings that affect the essential living area has been added. By modifying the scope of work, FEMA can assure that the most economical form of assistance which is appropriate to the situation is used. Because of the dollar limitations, FEMA has determined that major reconstruction could not be undertaken and therefore the use of minimal repairs remains consistent with the intent of the Act.

Other changes made include: Changing all delegations of authority to the Regional Director or Associate Director (further guidance on redelegation will be provided by memorandum); adding a new condition of ineligibility involving evacuation solely as a precautionary measure; identifying an applicant who is refused continued rental assistance (after receiving an initial rental payment) as one who may request a reconsideration of that decision (paragraph (f)(2)(ix)); and eliminating paragraph (k)(3)(iii)(E) since it was redundant given paragraph (k)(3)(ii).

FEMA has determined that there will be no significant impact on the environment caused by implementation of this final rule. An environmental assessment resulting in a finding of no significant impact is on file and may be inspected or obtained at the Office of Disaster Assistance Programs, Individual Assistance Division; or at the Office of Rules Docket Clerk, FEMA, 500 'C' Street, SW., Washington, D.C. 20472.

This rule has been determined not to be a "major rule" within the meaning of Executive Order 12291, for the following reasons:

(1) It will not have an annual effect on the economy of $100 million or more;

(2) It will not result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and,

(3) It will not have a significant adverse impact on competition, employment, investment, productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Further, the program applies to individuals and thus it is certified it will not have a significant economic impact on a substantial number of small entities.

Therefore, no regulatory analyses have been prepared.

Subsection 206.52(a) provides for collection of information. This request, OMB # 3067-0124, has been approved and is effective until July 1986.

List of Subjects in 44 CFR Part 205

Disaster assistance grant programs, Community disaster loans.

Accordingly, 44 CFR Part 205 is amended as follows:

PART 205—FEDERAL DISASTER ASSISTANCE (PUB. L. 93-288)

1. The authority citation for Part 205 is revised to read as follows:

Authority: 42 U.S.C. 5201, Reorganization Plan No. 3 of 1978; E.O. 12148.

2. § 205.52 is revised to read as follows:

§ 205.52 Temporary housing assistance.

(a) *Purpose.* This section prescribes the policy to be followed by the Federal Government or any other organization when implementing section 404, Disaster Relief Act of 1974, 42 U.S.C. 5174.

(b) *Program Intent.* Assistance under this program is made available to applicants who require temporary housing as a result of a major disaster or emergency that is declared by the President. Eligibility for assistance is based on need created by disaster-related uninhabitability of a primary residence or other disaster-related displacement, combined with a lack of adequate insurance coverage. Eligible applicants may be paid for authorized accommodations and/or repairs. In the interest of assisting the greatest number of people in the shortest possible time, applicants who are able to do so will be encouraged to make their own arrangements for temporary housing (e.g., renting an apartment or contracting for minimal repairs), using the funds provided by this program. Ineligibility relates only to the criteria for temporary housing assistance; denial of such assistance does not imply that repairs to a residence are not required. Although numerous instances of minor damage may cause some inconvenience to the applicant, the determining eligibility factor must be the habitability of the residence. FEMA has also determined that it is reasonable to expect applicants or their landlords to make some repairs of a minor nature.

(c) *Definitions.* (1) "Adequate alternate housing" means housing that:

(i) Accommodates the needs of the applicant(s)/occupant(s);

(ii) Is within reasonable commuting distance of work, school or other centers of household activity;

(iii) Is within the financial ability of the applicant(s)/occupant(s); and

(iv) Does not impose an undue burden upon the applicant(s)/occupant(s) in the realization of a reasonable permanent housing plan.

(2) "Effective date of assistance" means either the date the eligible applicant obtained his/her own FEMA approved temporary housing or the date FEMA provides assistance but, where applicable, only after appropriate insurance benefits are exhausted.

(3) "Essential living area" means that area of the residence essential to normal living, i.e., kitchen, one bathroom, dining area, living room, entrances and exits, and essential sleeping areas. It does not include family rooms, guest rooms, garages, or other nonessential areas, unless hazards exist in these areas which impact the safety of the essential living area.

(4) "Fair market rent" means a reasonable amount to pay in the local area for the size and type of accommodations provided. (Formula is provided in paragraph (g)(2) of this section.)

(5) "Financial ability" is the determination of the applicant(s)/occupant(s) ability to pay housing costs. The determination is based upon the amount paid for housing before the disaster, provided the household income has not changed subsequent to or as a result of the disaster or 25 percent of gross post disaster income if the household income change. When computing financial ability, extreme or unusual financial circumstances may be considered by the Regional Director.

(6) "Household" means all residents of the predisaster residence who request temporary housing assistance, plus any additions during the temporary housing period, such as infants, spouses or part-time residents who were not present at the time of the disaster but who are expected to return during the temporary housing period.

(7) "Housing costs" means shelter rent and mortgage payments including principal, interest, real estate taxes, real property insurance, and utility costs, where appropriate.

(8) "Occupant" means an eligible applicant residing in temporary housing provided under this section.

(9) "Owner-occupied" means that the residence is occupied by: The legal owner; a person who does not hold formal title to the residence and pays no rent but is responsible for the payment of taxes, maintenance of the residence; or a person who has lifetime occupancy rights with formal title vested in another.

(10) "Primary residence" means the dwelling where the applicant normally lives during the major portion of the calendar year, or a dwelling which is

required because of proximity to employment.

(d) *Duplication of benefits.*—(1) *Requirement to avoid duplication.* Assistance under section 404 shall not be made available to an applicant if such assistance has been provided by any other source. If any State or local government or voluntary agency has provided temporary housing, the assistance under this section begins at the expiration of such assistance and may continue rent-free, not to exceed twelve months provided the criteria for continued assistance, paragraph (k)(3) of this section, are met. If it is determined that temporary housing assistance will be provided under this section, notification shall be given to those agencies which have the potential to duplicate such assistance. In the instance of insured applicants, assistance shall not be provided unless:

(i) Payment of the applicable benefits has been significantly delayed;

(ii) Applicable benefits have been exhausted;

(iii) Applicable benefits are insufficient to cover the temporary housing need; or

(iv) Housing or the required services ae not available on the private market.

(2) *Recovery of funds.* Prior to provision of assistance, the applicant must agree to repay to FEMA from insurance proceeds or recoveries from any other source an amount equivalent to the value of the temporary housing assistance provided. In no event shall the amount repaid to FEMA exceed the amount recovered by the applicant. All claims shall be collected in accordance with Agency Regulations at 44 CFR Part 11, Subpart C and procedures for debt collection.

(e) *Applications.*—(1) *Application period.* Applications for temporary housing assistance shall be accepted for a 60-day period following the date of the declaration of a major disaster or emergency, unless additional time for submission of applications is authorized by the Regional Director in order to achieve uniformity of application periods in contiguous States. After the established period, applications shall be accepted; however, processing shall not be completed unless authorized by the Regional Director on a case-by-case basis.

(Approved by the Office of Management and Budget under OMB Control Number 3067-0009)

(2) *Household composition.* Members of a household shall be included on a single application and be provided a single temporary housing residence unless it is administratively determined that the size of the household requires that more than one residence be provided.

(f) *General eligibility guidelines.* Temporary housing assistance may be made available to those applicants who, as a result of a major disaster or emergency declared by the President, are qualified for such assistance.

(1) *Conditions of eligibility.* Temporary housing assistance may be provided only when *both* of the following conditions are met:

(i) The applicant's primary residence has been made uninhabitable or the applicant has been displaced as the result of a major disaster or emergency because:

(A) The residence has been destroyed, essential utility service has been interrupted; or the essential living area has been damaged as a result of the disaster to such an extent as to constitute a serious health or safety hazard which did not exist prior to the disaster. The Regional Director shall prepare additional guidelines when necessary to respond to a particular disaster;

(B) The residence has been made inaccessible as a result of the incident to the extent that the applicant cannot reasonably be expected to gain entry due to the disruption or destruction of transportation routes, other impediments to access, or restrictions placed on movement by a responsible official due to continued health and safety issues.

(C) The owner of the applicant's residence requires the residence to meet his/her personal needs because the owner's predisaster residence was made uninhabitable as a result of the disaster;

(D) Financial hardship resulting from the disaster has led to eviction or dispossession; or

(E) Other circumstances resulting from the disaster, as determined by the Regional Director, prevent the applicant from occupying his/her predisaster primary residence.

(ii) Insured applicants have made every reasonable effort to secure insurance benefits, available proceeds are insufficient as defined in paragraph (d) of this section, and the insured has agreed to repay FEMA from whatever insurance proceeds are later received, pursuant to paragraph (d)(2) of this section.

(2) *Conditions of ineligibility.* Temporary housing assistance shall not be provided:

(i) To an applicant who is displaced from other than his/her primary residence; or

(ii) To an applicant who is displaced solely as a consequence of a redevelopment program undertaken by a community; or

(iii) When the residence in question is habitable, i.e., only minor damage exists and it can reasonably be expected to be repaired by the applicant/owner or the landlord; or

(iv) When the applicant owns a secondary or vacation residence, or unoccupied rental property which meets his/her temporary housing needs; or

(v) To an applicant who has adequate rent-free housing accommodations; or

(vi) To an applicant who has adequate insurance coverage and there is no indication that benefits will be delayed; or

(vii) To an applicant who has adequate insurance but has made no effort to obtain the benefits; or

(viii) When a late application is not approved for processing by the Regional Director as authorized in paragraph (e)(1) above, or

(ix) To an applicant who evacuated his/her residence in response to official warnings solely as a precautionary measure, and who is able to return to the residence immediately after the incident, (i.e., the applicant is not otherwise eligible for temporary housing assistance).

(g) *Forms of temporary housing assistance.*—(1) *Minimal repairs.* Minimal repairs may be authorized to quickly repair or restore to a habitable condition that portion of or areas affecting the essential living area of, or private access to, an owner-occupied primary residence which was damaged as a result of the disaster. Such assistance shall not be used for major reconstruction or rehabilitation. Installation of utilities or conveniences not available in the residence prior to the disaster shall not be provided under minimal repairs. However, repairs which are authorized shall conform to applicable local and/or State building codes; upgrading of existing damaged utilities may be authorized when required by these codes.

(i) *Options for minimal repairs.* Eligible applicants approved for minimal repairs may be assisted through one or a combination of the following methods:

(A) *Cash payment.* Payment shall be limited to the reasonable costs for the repairs and replacements in the locality, as determined by the Regional Director.

(B) Provision of materials and replacement items.

(C) Government awarded repair contracts when authorized by the Associate Director.

(ii) *Feasibility.* Minimal repairs may be provided to those eligible applicants:

VOL 51 ISS 76 AP 21 1986 UMI

(A) Who are owner-occupants of the residence to be made habitable;

(B) Whose residence can be made habitable by repairs to the essential living area within 30 days following the feasibility determination. The Regional Director may extend this period for extenuating circumstances by determining that this type of assistance is still more cost effective, timely and otherwise suitable than other forms for temporary housing; and

(C) Whose residence can be made habitable by the performance of minimal repairs to the essential living area, the cost of which do not exceed the dollar limitations established by the Associate Director. The Regional Director may, on a case-by-case basis, waive the dollar limitations when minimal repairs are more cost effective and appropriate than other forms of housing assistance or when extenuating circumstances warrant.

(iii) *Scope of work.* The type of repair or replacement authorized may vary depending upon the nature of the disaster. Items will be repaired where feasible or replaced only when necessary to insure the safety, security, or health of the occupant. Replacement items shall be of minimum quality, size, and capacity taking into consideration the needs of the applicant(s). Minimal repairs shall be disaster related and shall be limited to:

(A) Repairs to the plumbing system, including repairs to or replacement of fixtures, providing service to the kitchen and one bathroom;

(B) Repairs to the electrical system providing service to essential living areas, including repairs to or replacement of essential fixtures;

(C) Repairs to the heating unit, including repairs to duct work, vents, and integral fuel and electrical systems. If repair or replacement through other forms of assistance cannot be accomplished before the start of the season requiring heat, minimal repairs may be authorized. Replacement of a heating unit may be authorized by the Regional Director when an inspection shows that the unit has been damaged beyond repair, or when the availability of necessary parts or components makes repair impossible.

(D) Repairs to or replacement of essential components of the fuel system to provide for cooking, and to provide for heating when assistance through other programs cannot be accomplished before the start of the season requiring heat;

(E) Pumping and cleaning of the septic system, repairs to or replacement of the tank, drainfield, or repairs to sewer lines;

(F) Flushing and/or purifying the water well, and repairs to or replacement of the pump, controls, tank, and pipes;

(G) Repairs to or replacement of exterior doors, repair of windows and/or screens needed for health purposes;

(H) Repairs to the stove and refrigerator, when feasible in lieu of provision of these items under paragraph (j) of this section;

(I) Minimal repairs to the roof when the damages affect the essential living area;

(J) Minimal repairs to interior floors, when severe buckling or deterioration creates a serious safety hazard;

(K) Blocking, leveling, and anchoring of a mobile home;

(L) Reconnecting and/or resetting mobile home sewer, water, electrical and fuel lines, and tanks;

(M) Towing necessary to remove a mobile home from its original site, only when necessary to accomplish other authorized minimal repairs;

(N) Emergency repairs to private access routes, limited to those repairs that meet the minimum safety standards are using the most economical materials available. Such repairs are provided on a one-time basis when no alternative access facilities are immediately available;

(O) Minimal repairs to the foundation piers, walls or footings when the damages affect the structural integrity of the essential living area;

(P) Elimination of other health and safety hazards or performance of essential repairs which are authorized by the Regional Director as not available through emergency services provided by voluntary or community agencies, and cannot reasonably be expected to be completed on a timely basis by the applicant without FEMA assistance.

(iv) *Requirements of the Flood Disaster Protection Act.* FEMA has determined that flood insurance purchase requirements need not be imposed as a condition of receiving minimal repairs. Minimal repairs recipients will normally receive assistance for further repairs from other programs which will impose the purchase and maintenance requirements. However, except for items which are not insurable under the National Flood Insurance Program (e.g., access, sewer and septic systems) minimal repairs may not be provided in zones A or V of a suspended or sanctioned community.

(2) *Existing resources.* These may include locally available Government-owned or assisted properties, private or commercial properties, transient accommodations, and staying with family and friends.

(i) *Government-owned or assisted properties.* Payment for the use of such properties shall be in accordance with existing memoranda of understanding between FEMA and the providing agency.

(ii) *Private and Commercial properties.* Rental for private or commercial properties may be paid in accordance with the fair market rent guidelines for the type and size of residence required. At each disaster site, fair market rent guidelines for each size residence shall be established by averaging the cost of available residence per number of bedrooms for each locality where temporary housing will be provided. Where privately owned mobile homes are to be used, a separate guideline should be developed if there is a substantial difference in rent between this type of residence and conventional housing. Guidelines for hotels, motels, and other short-term resources shall be developed only when there is a substantial variance in price among the available supply. The purpose of these fair market rent guidelines is to prevent development of an inflated rental market resulting from the disaster and to insure cost effectiveness. These guidelines reflect the desired maximum payment. Use of resources more costly than the guidelines may be authorized for full payment only when other existing resources are not available. When authorized by the Regional Director, the Federal Government may pay for security deposits; however, the owner or occupant shall reimburse the full amount to the Federal Government before or at the time that temporary housing assistance is terminated.

(iii) *Staying with Family and Friends.* Sharing of accommodations with family or friends is an allowable form of assistance only when an eligible applicant elects it as his/her form of assistance.

(iv) *Transient accommodations.* Immediately following a Presidentially declared major disaster or emergency, disaster victims are expected to stay with family or friends without FEMA assistance, or to make use of mass shelters to the fullest extent possible for short-term housing. Transient accommodations may be provided when individual circumstances warrant such assistance for only a short period of time or pending provision of other temporary housing resources. Transient accommodations may be provided for up to 30 days unless this period is extended by the Regional Director.

Authorized expenditures for transient accommodations shall be restricted to the rental cost including utilities except for those which are separately metered. Payment for food, telephone, or other similar services is not authorized under this section.

(3) Mobile homes, travel trailers, and other manufactured housing units. Government-owned or privately owned mobile homes, travel trailers, and other manufactured housing units may be placed on commercial, private, or group sites. The placement must comply with applicable State and local codes and ordinances as well as FEMA's floodplain management regulations at 44 CFR Part 9, Floodplain Management and Protection of Wetlands, and the environmental assessment regulations at 44 CFR Part 10, Environmental Considerations.

(i) A commercial site is a site customarily leased for a fee because it is fully equipped to accommodate a housing unit. The Associate Director has determined that leasing commercial sites at Federal expense is in the public interest. When the Regional Director determines that upgrading of commercial sites or installation of utilities on such sites will provide more cost-effective, timely, and suitable temporary housing than other types of resources, he/she may authorize such action at Federal expense.

(ii) A private site is a site provided or obtained by the applicant at no cost to the Federal Government. The Associate Director has determined that the cost of installation or repairs of essential utilities on private sites is authorized at Federal expense when such actions will provide more cost-effective, timely, and suitable temporary housing than other types of resources.

(iii) A group site is a site which accommodates two or more units and is provided or obtained by a State, local government or other entity completely developed with all essential utilities at no cost to the Federal Government. However, the Associate Director may authorize development of group sites, including installation of essential utilities, at Federal expense, based upon a recommendation from the Regional Director indicating that all other efforts to obtain funding have been exhausted.

(h) *Appropriate form of temporary housing.* The form of temporary housing provided should not exceed eligible applicants' minimum requirements, taking into consideration items such as timely availability, cost effectiveness, permanent housing plans, special needs (handicaps, etc.) of the applicants, and the requirements of FEMA's floodplain management regulations at 44 CFR Part 9. An applicant shall receive one form of temporary housing, except for transient accommodations or when provision of an additional form is in the best interest of the Government. An eligible applicant is expected to accept the first offer of temporary housing; unwarranted refusal shall result in forfeiture of temporary housing assistance. Existing resources shall be utilized to the fullest extent practicable prior to provision of government-owned mobile homes.

(i) *Utility costs.* All utility costs shall be the responsibility of the occupant except where utility services are not metered separately and are therefore a part of the rental charge. Utility use charges and deposits shall always be the occupant's responsibility.

(j) *Supplemental assistance.* Essential furniture may be provided to eligible temporary housing applicants when such assistance is required to occupy the primary or temporary housing residence. However, loss of furniture does not in and of itself constitute eligibility for temporary housing assistance.

(1) Assistance shall be provided in the most practical manner either by cash payment or obtaining the furniture items by purchase, lease, lease with an option to buy or from Federal stock. Items provided shall be of average construction and quality. Luxury items shall not be provided.

(2) Furniture made available to temporary housing applicants shall be disposed of in one of the following ways:

(i) In those instances where furniture has been leased with a purchase option, the occupant may purchase the items from the lessor before his/her temporary housing assistance is terminated; or

(ii) If the furniture has been purchased by the Federal Government it shall be disposed of in accordance with Federal property management procedures at 41 CFR 101-45.5, Abandonment or Destruction of Surplus Property.

(k) *Duration of assistance.*—(1) *Commencement.* Temporary housing assistance may be provided as of the date of the incident of the major disaster or emergency as specified in the Federal Register notice. An effective date of assistance shall be established for each applicant.

(2) *Continued assistance.* Predisaster renters normally shall be provided no more than 1 month of assistance unless the Regional Director determines that continued assistance is warranted in accordance with paragraph (k)(3). All other occupants of temporary housing shall be certified eligible for continued assistance in increments not to exceed 3 months. Recertification of eligibility for continued assistance shall be in accordance with paragraph (k)(3), taking into consideration the occupant's permanent housing plan. A realistic permanent housing plan shall be established for each occupant requesting additional assistance no later than at the time of the first recertification.

(3) *Criteria for continued assistance.* A temporary housing occupant shall make every effort to obtain and occupy permanent housing at the earliest possible time. A temporary housing occupant will be required to provide receipts and shall be eligible for continued assistance when:

(i) Adequate alternate housing is not available;

(ii) The permanent housing plan has not been realized through no fault of the applicant; or

(iii) The occupant(s) is in compliance with the terms of the lease/rental agreement including:

(A) Prompt payment of utility, rent, and other appropriate charges;

(B) Maintenance of the temporary housing residence and behavior of occupants in a manner normally expected of a tenant of rental housing;

(C) Utilization of the residence as a dwelling for the occupant's household; and

(D) Reimbursement to the Government where all or a portion of the temporary housing assistance represents a duplication of benefits.

(4) *Rental policy.* Provided the occupant is eligible for continued assistance, no rental shall be established for the first twelve months of occupancy in temporary housing including occupancy in transient accommodations. Thereafter, rentals shall be established based on the fair market rent for the accommodations provided. Such rentals shall be adjusted to take into consideration the financial ability of the household. Based on information obtained through recertification, occupants will be notified of the date and the amount of the first rental payment at least 30 days before the expiration of the first 12 months of occupancy.

(m) *Termination of assistance.* Termination of temporary housing assistance shall be initiated with a 15-day written notice after which the occupant shall be liable for such additional charges as are deemed appropriate by the Regional Director including, but not limited to, the fair market rental for the temporary housing residence.

(1) *Grounds for Termination.* Temporary housing assistance may be

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

terminated for reasons including, but not limited to the following:

(i) *Adequate alternate housing is available to the occupant(s);*

(ii) The temporary housing assistance was obtained either through misrepresentation or fraud; or

(iii) Failure to comply with any term of the lease/rental agreement including those defined in paragraph (k)(3)(iii).

(2) *Termination procedures.* These procedures shall be utilized in all instances except when a State is administering the Temporary Housing Assistance Program. States shall be subject to their own procedures provided they afford the occupant(s) with due process safeguards described in paragraph (m)(2)(v)(B).

(i) Notification of Occupant. Written notice shall be given by FEMA to the occupant(s) at least 15 days prior to the proposed termination of assistance. This notice shall specify: The reasons for termination of assistance/occupancy; the date of termination, which shall be not less than 15 days after receipt of the notice; the administrative procedure available to the occupant if he/she wishes to dispute the action; and the occupant's liability after the termination date for additional charges.

(ii) *Filing of Appeal.* If the occupant desires to dispute the termination, upon receipt of the written notice specified in paragraph (m)(2)(i), he/she shall present an appeal in writing to the appropriate office in person or by mail within five business days. The appeal must be signed by the occupant and state the reasons why the assistance or occupancy should not be terminated. If a hearing is desired, the appeal should so state.

(iii) *Response to Appeal.* If a hearing pursuant to paragraph (m)(2)(ii) has not been requested the occupant has waived the right to a hearing. The appropriate program official shall deliver or mail a written response to the occupant within 5 business days after the receipt of the complaint.

(iv) *Request for hearing.* If the occupant requests a hearing pursuant to paragraph (m)(2)(ii), FEMA shall schedule a hearing date within 10 business days from the receipt of the appeal, at a time and place reasonably covenient to the occupant, who shall be notified promptly thereof in writing. The notice of hearing shall specify the procedure governing the hearing.

(v) *Hearing.*—(A) *Hearing Officer.* The hearing shall be conducted by a Hearing Officer, who shall be designated by the Regional Director, and who shall not have been involved with the decision to terminate the occupant's temporary housing assistance, nor be a subordinate of any individual who was so involved.

(B) *Due Process.* The occupant shall be afforded a fair hearing and provided the basic safeguards of due process, including cross-examination of the responsible official(s), access to the documents on which FEMA is relying, the right to counsel, the right to present evidence and the right to a written decision.

(C) *Failure to appear.* If a occupant fails to appear at a hearing the Hearing Officer may make a determination that the occupant has waived his/her right to a hearing, or may, for good cause shown, postpone the hearing for no more than 5 business day.

(D) *Proof.* At the hearing, the occupant must first attempt to establish that continued assistance is appropriate; thereafter, FEMA must sustain the burden of proof in justifying that termination of assistance is appropriate. The occupant shall have the right to present evidence and arguments in support of his/her complaint, to controvert evidence relied on by FEMA, and to cross examine all witnesses on whose testimony or information FEMA relies. The hearing shall be conducted by the Hearing Officer and any evidence pertinent to the facts and issues raised may be received without regard to its admissibility under rules of evidence employed in formal judicial proceedings.

(vi) *Decision.* The decision of the Hearing Officer shall be based solely upon applicable Federal and State law, and FEMA regulations and requirements promulgated thereunder. The Hearing Officer shall prepare a written decision setting forth a statement of findings and conclusions together with the reasons therefor, concerning all material issues raised by the complainant within five (5) business days after the hearing. The decision of the Hearing Officer shall be binding on FEMA, which shall take all actions necessary to carry out the decision or refrain from any actions prohibited by the decision.

(A) The decision shall include a notice to the occupant that he/she must vacate the premises within three (3) days of receipt of the written notice or on the termination date stated in the original notice of termination, as required in (m)(2)(i), whichever is later. If the occupant does not quit the premises, appropriate action shall be taken and, if suit is brought, the occupant may be required to pay court costs and attorney fees.

(B) If the occupant is required to give a specific number of days notice which exceeds the number of days in the termination notice, the Regional Director may approve the payment of rent for this period of time if requested by the occupant.

(n) *Disposition of temporary housing units.*—(1) *Acquisition.* The Associate Director may purchase mobile homes or other manufactured housing units for those who require temporary housing. After such temporary housing is vacated, it shall be returned to one of the FEMA-operated Strategic Storage Centers for refurbishment and storage until needed in a subsequent major disaster or emergency. When returning the unit to a Strategic Storage Center is not feasible or cost effective, the Associate Director may prescribe a different method of disposition in accordance with applicable Federal regulations.

(2) *Sales.*—(i) *Eligibility.* When adequate alternate housing is not available, the Regional Director shall make available for sale directly to a temporary housing occupant(s) any mobile home or manufactured housing unit, acquired by purchase, in accordance with the following:

(A) The unit is to be used as a primary residence;

(B) The purchaser has a site that complies with local codes and ordinances as well as FEMA's floodplain management regulations at 44 CFR Part 9 (in particular § 9.13(e)); and

(C) The purchaser has sufficient funds to purchase and, if necessary, relocate the unit.

The Associate Director may approve the sale of a mobile home or manufactured housing unit to a temporary housing occupant when adequate alternate housing is available but only when such sales are clearly in the best interest of the Government.

(ii) *Sales price.* Units shall be sold at prices that are fair and equitable to the purchaser and to the Government, as determined by the Associate Director. The purchaser shall pay the total sales price at the time of sale.

(iii) *Adjustment to the sales price.* (A) Adjustments to the sales price may be provided only when both of the following conditions are met:

(*1*) There is a need to purchase the unit for use as the purchaser's primary residence because other adequate alternate housing is unavailable. Adequate alternate housing must meet the criteria in paragraph (c)(1) of this section, and may consist of:

(*i*) Existing housing;

(*ii*) Additional resources such as disaster-damaged rental accommodations which can reasonably be expected to be repaired and become available in the near future;

(*iii*) New housing construction or housing to be made available through Government subsidy which is included in the immediate recovery plans for the area; and

(*iv*) Residences which can be repaired by the predisaster owner/occupant through funds available from insurance, other disaster assistance programs, or through his/her own resources.

(*2*) In addition to his/her own resources, the purchaser cannot obtain sufficient funds through insurance proceeds, disaster loans, grants, and commercial lending institutions to cover the sales price.

(B) To determine the adjusted sales price, the current available financial resources of the applicant shall be calculated. If the financial resources are equal to or greater than the basic sales price, then no adjustment shall be approved. If the applicant's financial resources are less than the basic sales price, the sales price shall be adjusted to take into consideration the financial resources available but shall include some consideration. Deviations from this rule may be reviewed on a case-by-case basis by the Associate Director.

(C) The Regional Director must approve all adjustments to the sales price of a mobile home.

(iv) *Other conditions of sale.* (A) A unit shall be sold "as is, where is" except for repairs necessary to protect health or safety, which are to be completed prior to sale. There shall be no implied warranties. In addition, the purchaser must be informed that he/she may have to bring the unit up to codes and standards which are applicable at the proposed site.

(b) In accordance with the Flood Disaster Protection Act of 1973, Pub. L. 93-234, as amended, the sale of a unit for the purpose of meeting the permanent housing need of an individual or family may not be approved where the unit would be placed in a designated special flood hazard area which has been identified by the Director for at least one year as floodprone unless the community in which the unit is to be located after the sale is, at the time of approval, participating in the National Flood Insurance Program. The purchaser must agree to buy and maintain an adequate flood insurance policy for as long as the unit is occupied by the purchaser. An adequate policy for purposes of this paragraph shall mean one which provides coverage for the basic sales price of the unit. The purchaser must provide proof of purchase of the initial flood insurance policy.

(3) *Transfer.* The Associate Director may lend temporary housing units purchased under section 404(a) of the Act directly to States, other Governmental entities, or voluntary organizations. Such transfers may be made only in connection with a Presidential declaration of a major disaster or emergency. Donations may be made only when it is in the best interest of the Government, such as when future re-use by the Federal Government would not be economically feasible. As a condition of such transfers, the Associate Director shall require that the recipient:

(i) Utilize the units for the purpose of providing temporary housing for victims of major disasters or emergencies in accordance with the written agreement; and

(ii) Comply with the current applicable FEMA policies and regulations, including this section; 44 CFR Part 9 (especially §§ 9.13 and 9.14), Floodplain Management and Protection of Wetlands; 44 CFR Part 10, Environmental Assessment; and 44 CFR 205.16, Non-discrimination in Disaster Assistance. The Associate Director may order returned any temporary housing unit made available under this section which is not used in accordance with the terms of transfer.

(o) *Mortgage and rental payments.* Assistance in the form of mortgage or rental payments may be paid or be provided on behalf of applicants who, as a result of a major disaster or emergency, have received written notice of dispossession or eviction from their primary residence by foreclosure of any mortgage or lien, cancellation of any contract of sale, or termination of any lease entered into prior to the disaster. Written notice, for the purpose of this paragraph, means a communication in writing by a landlord, mortgage holder, or other party authorized under State law to file such notice. The purpose of such notice is to notify an occupant of impending termination of a lease, foreclosure of a mortgage or lien, or cancellation of any contract of sale, which would result in the occupant's dispossession or eviction. Applications for this type of assistance may be filed up to one year following the date of declaration. This assistance may be provided for a period not to exceed one year or for the duration of the period of financial hardship, as determined by the Regional Director, whichever is less. The location of the residence of an applicant for assistance under this section shall not be a condition of eligibility.

(p) *Reconsiderations.* (1) An applicant declared ineligible for temporary housing assistance, an applicant whose application has been cancelled for cause, an applicant whose application has been refused because of late filing, or an applicant who received a direct housing payment but is not eligible for continued assistance in accordance with paragraph (k)(3) above shall have the right to dispute such a determination within five (5) calendar days following notification of such action. The Regional Director shall reconsider the original decision within 15 calendar days after its receipt. The applicant shall be given a written notice of the disposition of the reconsideration. The decision of the Regional Director is final.

(2) An occupant who has been notified that his/her request to purchase a mobile home or manufactured housing unit or that a request for an adjustment to the sales price has been denied shall have the right to dispute such a determination within five (5) business days after receipt of such notice. The Regional Director shall reconsider the original decision within 15 calendar days after receipt of the complaint. The occupant shall receive written notice of the disposition of the reconsideration. The decision of the Regional Director is final.

(q) *Reports.* The Associate Director, Regional Director, or Federal Coordinating Officer may require from field operations such reports, plans, and evaluations as they deem necessary to carry out their responsibilities under the Act and these regulations.

(r) *Federal responsibility.* The Federal financial and operational responsibility for the Temporary Housing Assistance Program shall not exceed 18 months from the date of the declaration of the major disaster or emergency. This period may be extended in writing by the Associate Director, based on a determination that it is necessary and in the public interest. The Regional Director may authorize continued use on a non-reimbursable basis of Government property, office space, and equipment by a State, other Government entity, or voluntary organization after the 18 month period.

(s) Non-Federal administration of temporary housing assistance. A State may request authority to administer all or part of the Temporary Housing Assistance Program in the Governor's request for a declaration or in a subsequent written request to the Regional Director from the Governor or his/her authorized representative. The State must have an approved plan prior to the incident and an approved operational annex within three (3) days of the declaration in order to administer the program. When administering the program the State must comply with FEMA program regulations and policies.

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

(1) *State temporary housing assistance plan.* (i) States which have an interest in administering the Temporary Housing Assistance Program shall be required to develop a plan that includes, at a minimum, the items listed below:

(A) Assignment of temporary housing assistance responsibilities to State and/or local officials and agencies;

(B) A description of the program, its functions, goals and objectives of the program, and proposed organization and staffing plan;

(C) Procedures for:

(*1*) Accepting applications at Disaster Assistance Centers and subsequently at a State established disaster housing office;

(*2*) Determining eligibility utilizing FEMA's habitability contract and notifying applicants of the determination;

(*3*) Preventing duplication of benefits between temporary housing assistance and assistance from other means, as well as a recoupment procedure when duplication occurs;

(*4*) Providing the various types of assistance (minimal repairs, existing resources, transient accommodations, and mobile homes);

(*5*) Providing supplemental assistance;

(*6*) Recertifying occupants for continued assistance;

(*7*) Terminating assistance;

(*8*) Contracting for services and/or supplies;

(*9*) Quality control;

(*10*) Maintaining a management information system;

(*11*) Financial management;

(*12*) Public information;

(*13*) Processing appeals; and

(*14*) Arranging for a program review.

(ii) The Governor or his/her designee may request the Regional Director to provide technical assistance in the preparation of an administrative plan.

(iii) The Governor or his/her designee shall submit the plan to the Regional Director for approval. Plans shall be revised, as necessary, and shall be reviewed at least annually by the Regional Director.

(2) *Operational annex.* Prior to the State administering the program, the State must submit an operational annex which tailors the approved State plan to the particular disaster or emergency. The annex must be reviewed and approved by the Regional Director within three (3) days of the declaration or the State shall not be permitted to administer the program. The operational annex shall include but not be limited to:

(i) Organization and staffing specific to the manager disaster or emergency;

(ii) Pertinent goals and management objectives;

(iii) A proposed budget; and

(iv) A narrative which describes methods for orderly tracking and processing of applications; assuring timely delivery of assistance; identification of potential problem areas; and any deviations from the approved plan.

The Regional Director may require additional annexes as necessary for subsequent phases of the operation.

(3) *Evaluation of capability.* State and local government assumption of the temporary housing assistance program for a particular disaster shall be approved by the Regional Director based on an evaluation of the capabilities and commitment of the entity. At a minimum, the evaluation shall include a review of the following:

(i) The State temporary housing assistance plan which has been approved by the Regional Director prior to the incident, and the specific operational annex which has been approved in accordance with paragraph(s)(2).

(ii) Past performance in administration of temporary housing assistance or other similar operations;

(iii) Management and staff capabilities; and

(iv) Demonstrated understanding of the task to be performed.

(4) *Grant application.* Approval of funding shall be obtained through submission of a project application by the State or local government through the Governor's Authorized Representative. (Approved by the Office of Management and Budget under OMB Control Number 3067–0043.) The State shall maintain adequate documentation to enable analysis of the program in accordance with FEMA Regulations 44 CFR 205.115. Final reimbursement to the State, or final debt collection, shall be based on an examination of the voucher filed by the State.

(5) *Authorized costs.* All expenditures associated with administering the program are authorized if in compliance with this section and OMB Circular A–87 Revised, Cost Principles for State and Local Governments (46 FR 9548). Specifically, the following expenses are authorized when applicable:

(i) Administrative expenses.

(A) Regular salaries;

(B) Overtime;

(C) Travel;

(D) Communications;

(E) Space rental;

(F) Equipment rental;

(G) Furniture rental;

(H) Supplies;

(I) Printing and reproduction;

(J) Liability insurance premiums; and

(K) Program reviews and audits.

(ii) Program costs.

(A) Minimal repairs;

(B) Costs associated with rental payments reimbursements for temporary housing including transient accommodations and commercial site rental;

(C) Mobile home installation and maintenance;

(D) Mobile home private site development;

(E) Cost of supplemental assistance;

(F) Mortgage and rental payments; and

(G) Other necessary costs, when approved by the Associate Director.

All contracts require the review and approval of the Regional Director prior to award, in order to be considered as an authorized expenditure.

(6) *Federal monitoring and oversight.* The Regional Director shall monitor State-administered activities since he/she remains responsible for the overall delivery of temporary housing assistance. In addition, policy guidance and interpretations to meet specific needs of a disaster shall be provided through the oversight function.

(7) *Technical assistance.* The Regional Director shall provide technical assistance as necessary to support State-administered operations through training, procedural issuances, and by providing experienced personnel to assist the State and local staff.

(8) *Operational resources.* The Regional Director shall make available for use in State or locally administered operations Federal stand-by contracts, memoranda of understanding with Government and voluntary agencies, and Federal property, such as government-owned mobile homes and travel trailers.

(9) *Program Reviews and Audits.* The State shall conduct a program review of each operation. All operations are subject to Federal audit.

Samuel W. Speck,

Associate Director, State and Local Programs and Support.

[FR Doc. 86–8548 Filed 4–18–86; 8:45 am]

BILLING CODE 6718–02–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

45 CFR Part 201

Aid to Families With Dependent Children; Grants to States for Public Assistance Programs; Reporting the Federal Share of Child Support Collections by States

AGENCY: Social Security Administration, HHS.

ACTION: Final rule.

SUMMARY: This final regulation, which implements section 407(c) of Pub. L. 98–265, the Social Security Disability Amendments of 1988, requires the Department of Health and Human Services to reduce the quarterly grant award made to a State under title IV–A by the appropriate Federal share of child support collections made by a State. This final rule is a technical change to clarify that the amount of the quarterly grant award made to a State will be reduced by the Federal share of child support collections made, like any other pro rata share of recovered funds to which the Federal government is entitled.

EFFECTIVE DATE: April 21, 1986; Compliance retroactive to the statutory implementation date of January 1, 1981.

FOR FURTHER INFORMATION CONTACT: Ms. Barbara M. Levering, Director, Office of Intergovernmental Communications, Office of Family Assistance, Social Security Administration, 2100 Second Street, SW., Washington, DC, 20201, telephone (202) 245–2037.

SUPPLEMENTARY INFORMATION: On August 21, 1985, a notice of proposed rulemaking was published in the **Federal Register** (50 FR 33784–33786).

Section 403(b)(2)(E) of the Social Security Act requires the Department to reduce the amount of the quarterly grant award made to a State under title IV–A by a sum equivalent to the pro rata share to which the Federal government is equitably entitled from the net amount recovered during any prior quarter by a State or political subdivision within a State. In 1980, Congress clarified the Department's authority to reduce quarterly grant awards by child support collections when it passed Pub. L. 96–265. (Section 407(c) of Pub. L. 265) amended the Social Security Act (the Act) by adding a new section 403(B)(2)(C) to title IV–A that specifically provided that the quarterly grant awards made to a State under the AFDC program are to be reduced by whatever amount is necessary to assure that the appropriate Federal share of child support collections made by a State are returned to the Federal government.

This rule implements section 407(c) by amending 45 CFR 201.5(a)(3) to provide that States must report on their quarterly statement of expenditures the appropriate Federal share of child support collections that they make.

If States do not fully or properly report the Federal share of child support collections made on their quarterly statement of expenditures, the Federal government will adjust the Federal share reported accordingly. The adjustment will be made pursuant to 45 CFR 201.5(c). We saw no need to amend 45 CFR 201.5(c) since that section already requires quarterly grant awards to be reduced "because of over- or under-estimate for the prior quarter and for other adjustments." We would consider any recovery of child support payments to be an "other adjustment."

Response to Public Comments on Notice of Proposed Rulemaking

A 60-day comment period was provided in the August 21, 1985, notice of proposed rulemaking. We received one letter from one State agency indicating awareness of the published proposal with no further comment.

Regulatory Procedures

Executive Order 12291

This regulation does not meet the criteria specified in Executive Order 12291 for a major regulation and no regulatory impact analysis is required.

Paperwork Reduction Act

Pursuant to the Paperwork Reduction Act of 1980 (Pub. L. 96–511) the Quarterly Statement of Expenditures (SSA–41) in its present format—which is used by States to report their expenditures and the Federal share of all collections has been approved by the Office of Management and Budget under existing OMB No. 0960–0294. There is no further or new collection of information request being imposed on State agencies by this technical regulatory change.

Regulatory Flexibility Act

We certify that this regulation will not, if promulgated, have a significant economic impact on a substantial number of small entities because it affects only the transfer of funds between the Federal government and the States. Therefore, a regulatory flexibility analysis as provided in Pub. L. 96–354, the Regulatory Flexibility Act, is not required.

Acting Commissioner of Social Security.

Approved: March 18, 1986.

Otis R. Bowen,

Secretary of Health and Human Services.

PART 201—[AMENDED]

45 CFR Part 201 is amended as set forth below.

1. The authority citation for Part 45 CFR Part 201 is revised to read as follows:

Authority: Secs. 403 and 1102 of the Social Security Act, as amended; 49 Stat. 620, as amended; 49 Stat. 647, as amended; 42 U.S.C. 603, and 1302, and 1302.

2. Section 201.5 is amended by revising the introductory text and paragraph (a)(3) to read as follows:

§ 201.5 Grants.

To States with approved plans, grants are made each quarter for expenditures under the plan for assistance, services, training and administration. The determination as to the amount of a grant to be made to a State is based upon documents submitted by the State agency containing information required under the Act and such other pertinent facts, including for title IV–A the appropriate Federal share of child support collections made by the State, as may be found necessary. Progressive reductions in Federal Medicaid payments to the States under sections 1903(g) and (t) of the Act for fiscal years 1982–1984 are described in 45 CFR Part 433, Subpart E.

(a) *Form and manner of submittal.* (1)

* * * * * * *

(3) The State agency must also submit a quarterly statement of expenditures for each of the public assistance programs under the Act. This is an accounting statement of the disposition of the Federal funds granted for past periods and provides the basis for making the adjustments necessary when the State's estimate for any prior quarter was greater or less than the amount the State actually expended in that quarter. The statement of expenditures also shows the share of the Federal

VOL 51 ISS 76 AP 21 1986 UMI

Government in any recoupment, from whatever source, including for title IV–A the appropriate Federal share of child support collections made by the State, of expenditures claimed in a prior period, and also in expenditures not properly subject to Federal financial participation which are acknowledged by the State agency or have been revealed in the course of an audit.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 85-138; RM-4778]

FM Broadcast Station in Silver Springs, FL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action allots Channel 238A to Silver Springs, Florida, as its first FM service, in response to a petition filed by Steven and Georgia Hainline.

EFFECTIVE DATE: May 22, 1986.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Report and Order (Proceeding Terminated)

In the Matter of Amendment of § 73.202(b), Table of Allotments FM, Broadcast Stations (Silver Springs, Florida); MM Docket 85–138, RM–4778.

Adopted: April 7, 1986.
Released: April 15, 1986.

By the Chief, Policy and Rules Division.

1. Before the Commission is the *Notice of Proposed Rule Making*, 50 FR 21630, published May 28, 1985, proposing to allot Channel 238A to Silver Springs, Florida, as its first FM Channel. The proceeding was instituted at the request of Georgia and Steven Hainline ("petitioners"). Supporting comments were filed by the petitioners and by James J. Nathan, [1] both stating their intention to apply for the channel.

2. In view of the expressed interest in operating a first FM service at Silver Springs, we believe that the public interest would benefit from the allotment of Channel 238A. In order to meet the spacing requirements to Station WNLT (FM) [2] (Channel 239), Clearwater, Florida, the transmitter site is restricted to 4.2 miles northeast of the city.

3. Accordingly, it is ordered, That effective May 22, 1986, the FM Table of Allotments § 73.202(b) of the Rules, is amended with respect to the community of Silver Springs, Florida, as follows:

City	Channel No.
Silver Springs, Florida	238A

4. The filing window for filing applications on this channel is open on May 23, 1986, and closes on June 23, 1986.

5. It is further ordered, That this proceeding is terminated.

6. For further information concerning the above, contact Montrose H. Tyree, (202) 634–6530.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

47 CFR Part 73

[MM Docket No. 85-248; RM-4869]

FM Broadcast Station in Custer, SD

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein allocates Channel 286C2 to Custer, South Dakota, as the community's first local FM service, at the request of Richard A. Deno.

EFFECTIVE DATE: May 22, 1986.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Report and Order (Proceeding Terminated)

In the Matter of Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations (Custer, South Dakota); MM Docket No. 85–248, RM–4869.

Adopted: April 7, 1986.
Released: April 15, 1986.

By the Chief, Policy and Rules Division.

1. The Commission has before it for consideration the *Notice of Proposed Rule Making*, 50 FR 34724, published August 27, 1985, requesting comments on the proposed allocation of Channel 286C2 to Custer, South Dakota, as the community's first local FM service, at the request of Richard A. Deno ("petitioner"). Petitioner and Eileen Cofell d/b/a Custer Broadcasting ("Custer Broadcasting") filed comments supporting the allocation. No oppositions to the allotment were received. Channel 286C2 can be allocated in compliance with the Commission's minimum distance separation requirements without requiring the imposition of a site restriction.

2. We believe the public interest would be served by allocating Channel 286C2 to Custer, South Dakota, as it could provide the community with its first local FM service. Accordingly, pursuant to the authority contained in sections 4(i), 5(c)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b) and 0.283 of the Commission's Rules, it is ordered, That effective May 22 1986, the FM Table of Allotments, § 73.202(b) of the Rules, is amended with respect to the community listed below, to read as follows:

City	Channel No.
Custer, South Dakota	286C2

[1] The comments of James J. Nathan were submitted after the date for filing comments had expired. However, since these comments merely relate to his support of the proposal, they have been accepted.

[2] After issuance of the *Notice*, Station WMGC (FM) changed its call letters to WNLT (FM).

3. The window period for filing applicatins will open on May 23, 1986, and close on June 23, 1986.

4. It is further ordered, That this proceeding is terminated.

5. For further information concerning this proceeding, contact Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

BILLING CODE 6712-01-M

DEPARTMENT OF DEFENSE

48 CFR Parts 232 and 252

Department of Defense Federal Acquisition Regulation Supplement Limitation of Progress Payments

AGENCY: Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: The Defense Acquisition Regulatory Council has approved changes to the coverage in the DoD FAR Supplement regarding Limitation of Progress Payments in DoD contracts. The purpose of the change is to implement section 916 of the Defense Procurement Improvement Act of 1986 (Pub. L. 99–145).

EFFECTIVE DATE: April 7, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. Charles W. Lloyd, Executive Secretary, DAR Council, ODASD(P)/DARS, c/o OASD(A&L), Room 3C841, The Pentagon, Washington, DC 20301–3062, telephone (202) 697–7266.

SUPPLEMENTARY INFORMATION:

A. Background

Section 916 of the Defense Procurement Improvement Act of 1986 (Pub. L. 99–145) placed the following limitations on progress payments: (1) Must be commensurate with work accomplished and (2) may not exceed 80 percent if the contract action is undefinitized. The changes included in this notice implement those limitations. The Defense Acquisition Regulatory Council published a proposed rule in the **Federal Register** on February 21, 1986 (51 FR 6284 of February 21, 1986). No substantive comments were received. Therefore, no changes to the proposed rule have been made.

The DoD FAR Supplement is codified in Chapter 2, Title 48 of the Code of Federal Regulations.

The October 1, 1985 revision of the CFR is the most recent edition of that title. It reflects amendments to the 1984 edition of the DOD FAR Supplement made by Defense Acquisition Circulars 84–1 through 84–10.

Interested parties may submit proposed revisions to this Supplement directly to the DAR Council.

B. Regulatory Flexiblity Act

A Regulatory Flexibility Analysis was performed and provided to the Chief Counsel for Advocacy of the Small Business Administration as a result of the proposed rule published in the **Federal Register** on February 21, 1986 (51 FR 6284 of February 21, 1986). There were no public comments received that addressed the Regulatory Flexibility Analysis. Therefore, the analysis as originally proposed has not been changed.

C. Paperwork Reduction Act Information

This rule applies to undefinitized Basic Ordering Agreements and Letter Contracts. Contractors already keep record on these contractual instruments. All that is needed is changing the new progress payment rate on the request for such payments. The impact is so minimal as to be immeasurable. Also, no comments were received to indicate that there would be a measurable impact.

List of Subjects in 48 CFR Parts 232 and 252

Government procurement.

Charles W. Lloyd,

Executive Secretary, Defense Acquisition Regulatory Council.

Therefore, the DoD FAR Supplement contained in 48 CFR Chapter 2 is amended as set forth below.

PART 232—CONTRACT FINANCING

1. The authority citation for 48 CFR Part 232 continues to read as follows:

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, and DoD FAR Supplement 201.301.

2. Section 232.070 is added to read as follows:

232.070 Definition.

"Contract action", as used in this part, means an action resulting in a contract, as defined in FAR Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administative changes.

3. Section 232.102 is amended by revising paragraph (e)(2) to read as follows:

232.102 Description of Contract Financing Methods.

* * * * *

(e)(2) Progress payments based on a percentage or stage of completion will be confined to contracts for construction, shipbuilding, and ship conversion, alteration or repair. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract. Furthermore, progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions.

4. Section 232.111 is amended by adding paragraphs (S–71) and (S–72) to read as follows:

232.111 Contract Clauses.

* * * * *

(S–71) The contracting officer shall insert the clause at 252.232–7005, Payments Under Fixed-Price Construction Contracts, in lieu of FAR clause 52.232–5, in solicitations and contracts for construction when a fixed-price contract is contemplated.

(S–72) The contracting officer shall insert the clause at 252.232–7006, Payments Under Fixed-Price Architect-Engineer Contracts, in lieu of FAR clause 52.232–10, appropriately modified with respect to payment due dates, in fixed-price architect-engineer contracts.

5. Section 232.501–1 is amended by revising in the second sentence of paragraph (a) the term "CASH II" to read "CASH III"; by deleting the last sentence of paragraph (a); and by adding paragraph (S–70) to read as follows:

232.501–1 Customary Progress Payment Rates.

* * * * *

(S–70) The Defense Procurement Improvement Act of 1986 (Pub. L. 99–145) limits progress payments to 80 percent on work accomplished under undefinitized contract actions. A higher rate is not authorized and is not within the meaning of unusual progress payments.

6. Section 232.502–4 is amended by adding paragraphs (S–72), (S–73), and (S–74) to read as follows:

232.502–4 Contract Clauses.

* * * * *

(S–72) The contracting officer shall insert the clause at 252.232–7007, Progress Payments, in lieu of FAR clause 52.232–16 and its Alternates I and II, in

VOL 51 ISS 76 APR 21 1986 UMI

solicitations and fixed-price contracts under which the Government will provide progress payments based on costs.

(S–73) If the contract contains a contract action that is not definitized, the contracting officer shall use the clause with its Alternate I.

(S–74) If the contract is a letter contract, the contracting officer shall use the clause with its Alternate II.

PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

7. The authority for Part 252 continues to read as follows:

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, and DoD FAR Supplement 201.301.

8. Sections 252.232–7005, 252–232–7006, and 252.232–7007 are added to read as follows:

252.232–7005 Payments Under Fixed-Price Construction Contracts.

As prescribed in 232.111(S–71), insert the following clause:

Payments Under Fixed-Price Construction Contracts (Apr 1986) (DEV.)

(a) The Government shall pay the Contractor the contract price as provided in this contract.

(b) The Government shall make progress payments monthly as the work proceeds, or at more frequent intervals as determined by the Contracting Officer, on estimates of work accomplished which meets standards of quality established under the contract, as approved by the Contracting Officer. If requested by the Contracting Officer, the Contractor shall furnish a breakdown of the total contract price showing the amount included therein for each principal category of the work, in such detail as requested, to provide a basis for determining progress payments. In the preparation of estimates, the Contracting Officer may authorize material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Contractor at locations other than the site may also be taken into consideration if—

(1) Consideration is specifically authorized by this contract; and

(2) The Contractor furnishes satisfactory evidence that it has acquired title to such material and that the material will be used to perform this contract.

(c) In making these progress payments, the Contracting Officer may retain a maximum of ten percent (10%) of the approved estimated amount until final completion and acceptance of the contract work. If the Contracting Officer finds that satisfactory progress was achieved during any period for which a progress payment is to be made, the Contracting Officer may authorize payment to be made in full without retention of a percentage. However, by the time the work is substantially complete, the Contracting Officer shall have retained an amount that the Contracting Officer considers adequate protection of the Government and may then release to the Contractor all or a portion of any excess amount. Also, on completion and acceptance of each separate building, public work, or other division of the contract, for which the price is stated separately in the contract, payment may be made for the completed work without retention of a percentage.

(d) All material and work covered by progress payments made shall, at the time of payment, become the sole property of the Government, but this shall not be construed as—

(1) Relieving the Contractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work; or

(2) Waiving the right of the Government to require the fulfillment of all of the terms of the contract.

(e) In making these progress payments, the Government shall, upon request, reimburse the Contractor for the amount of premiums paid for performance and payment bonds (including coinsurance and reinsurance agreements, when applicable) after the Contractor has furnished evidence of full payment to the surety. The retainage provisions in paragraph (c) above shall not apply to that portion of progress payments attributable to bond premiums.

(f) The Government shall pay the amount due the Contractor under this contract after—

(1) Completion and acceptance of all work;

(2) Presentation of a properly executed voucher; and

(3) Presentation of release of all claims against the Government arising by virtue of this contract, other than claims, in stated amounts, that the Contractor has specifically excepted from the operation of the release. A release may also be required of the assignee if the Contractor's claim to amounts payable under this contract has been assigned under the Assignment of Claims Act of 1940 (31 U.S.C. 203 and 41 U.S.C. 15).

(g) Notwithstanding any other provision of this contract, progress payments shall not exceed eighty percent (80%) on work accomplished on undefinitized contract actions. A "contract action" is any action resulting in a contract, as defined in FAR Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

(End of clause)

252.232–7006 Payments Under Fixed-Price Architect-Engineer Contracts.

As prescribed in 232.111(S–72), insert the following clause:

Payments Under Fixed-Price Architect-Engineer Contracts (Apr 1986) (DEV.)

(a) Estimates shall be made monthly of the amount and value of the work accomplished and services performed by the Contractor under this contract which meet standards of quality established under this contract. The estimates shall be prepared by the Contractor and accompanied by any supporting data required by the Contracting Officer.

(b) Upon approval of the estimate by the Contracting Officer, payment upon properly executed vouchers shall be made to the Contractor, as soon as practicable, of ninety percent (90%) of the approved amount, less all previous payments; *Provided,* that payment may be made in full during any months in which the Contracting Officer determines that performance has been satisfactory. Also, whenever the Contracting Officer determines that the work is substantially complete and that the amount retained is in excess of the amount adequate for the protection of the Government, the Contracting Officer may release the excess amount to the Contractor.

(c) Upon satisfactory completion by the Contractor and acceptance by the Contracting Officer of the work done by the Contractor under the "Statement of Architect-Engineer Services", the Contractor will be paid the unpaid balance of any money due for work under the statement, including retained percentages relating to this portion of the work. If the Government exercises the option under the Option for Supervision and Inspection Services clause, progress payments as provided for in (a) and (b) above will be made for this portion of the contract work. Upon satisfactory completion and final acceptance of the construction work, the Contractor shall be paid any unpaid balance of money due under this contract.

(d) Before final payment under the contract, or before settlement upon termination of the contract, and as a condition precedent thereto, the Contractor shall execute and deliver to the Contracting Officer a release of all claims against the Government arising under or by virtue of this contract, other than any claims that are specifically excepted by the Contractor from the operation of the release in amounts stated in the release.

(e) Notwithstanding any other provision in this contract, and specifically paragraph (b) of this clause, progress payments shall not exceed eighty percent (80%) on work accomplished on undefinitized contract actions. A "contract action" is any action resulting in a contract, as defined in FAR Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

(End of clause)

252.232–7007 Progress Payments.

(a) As prescribed in 232.502–4(S–72), insert the following clause in solicitations and fixed-price contracts under which the Government will provide progress payments based on costs. A different customary rate for other than small business concerns may be substituted in accordance with FAR 32.501–1 for the progress payment and liquidation rate indicated.

(b) If an unusual progress payment rate is approved for the prime contractor (see FAR 32.501–2), the rate approved shall be substituted for the customary rate in paragraph (a)(1).

(c) If the liquidation rate is changed from the customary progress payment rate (see FAR 32.503–6 and FAR 32.503–9), the new rate shall be substituted for the rate in paragraphs (a)(4), (a)(5), and (b).

(d) If advance and progress payments are authorized in the same contract, the words "less any unliquidated advance payments" may be deleted from paragraph (a)(4) of this clause.

(e) If an unusual progress payment rate is approved for a subcontract (see FAR 32.504(b) and FAR 32.501–2), subparagraph (j)(4) shall be modified to specify the new rate, the name of the subcontractor, and that the new rate shall be used for that subcontractor in lieu of the customary rate.

Progress Payments (Apr 1986) (DEV.)

Progress payments shall be made to the Contractor when requested as work progresses, but not more frequently than monthly in amounts approved by the Contracting Officer, under the following conditions:

(a) *Computation of amounts.*

(1) Unless the Contractor requests a smaller amount, each progress payment shall be computed as (i) eighty percent (80%) of the Contractor's cumulative total costs under this contract, as shown by records maintained by the Contractor for the purpose of obtaining payment under Government contracts, plus (ii) progress payments to subcontractors (see paragraph (j) below), all less the sum of all previous progress payments made by the Government under this contract. Cost of money that would be allowable under 31.205–10 of the Federal Acquisition Regulation shall be deemed an incurred cost for progress payment purposes.

(2) The following conditions apply to the timing of including costs in progress payment requests:

(i) The costs of supplies and services purchased by the Contractor directly for this contract may be included only after payment by cash, check, or other form of actual payment.

(ii) Costs for the following may be included when incurred, even if before payment, when the Contractor is not delinquent in payment of the costs of contract performance in the ordinary course of business:

(A) Materials issued from the Contractor's stores inventory and placed in the production process for use on this contract.

(B) Direct labor, direct travel, and other direct in-house costs.

(C) Properly allocable and allowable indirect costs.

(iii) Accrued costs of Contractor contributions under employee pension, profit sharing, and stock ownership plans shall be excluded until actually paid unless—

(A) The Contractor's practice is to contribute to the plans quarterly or more frequently; and

(B) The contribution does not remain unpaid thirty (30) days after the end of the applicable quarter or shorter payment period (any contributions remaining unpaid shall be excluded from the Contractor's total costs for progress payments until paid).

(iv) If the contract is subject to the special transition method authorized in Cost Accounting Standard (CAS) 410, Allocation of Business Unit General and Administrative Expense to Final Cost Objective, General and Administrative expenses (G&A) shall not be included in progress payment requests until the suspense account prescribed in CAS 410 is less than—

(A) Five million dollars ($5 million); or

(B) The value of the work-in-process inventories under contracts entered into after the suspense account was established (only a pro rata share of the G&A allocable to the excess of the inventory over the suspense account value is includable in progress payment requests under this contract).

(3) The Contractor shall not include the following in total costs for progress payment purposes in subparagraph (a)(1)(i) above:

(i) Costs that are not reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices.

(ii) Costs incurred by subcontractors or suppliers.

(iii) Costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(iv) Payments made or amounts payable to subcontractors or suppliers, except for—

(A) Completed work, including partial deliveries, to which the Contractor has acquired title; and

(B) Work under cost-reimbursement or time-and-material subcontracts to which the Contractor has acquired title.

(4) The amount of unliquidated progress payments may exceed neither (i) the progress payments made against incomplete work (including allowable unliquidated progress payments to subcontractors) nor (ii) the value, for progress payment purposes, of the incomplete work. Incomplete work shall be considered to be the supplies and services required by this contract, for which delivery and invoicing by the Contractor and acceptance by the Government are incomplete.

(5) The total amount of progress payments shall not exceed eighty percent (80%) of the total contract price.

(6) If a progress payment or the unliquidated progress payments exceed the amounts permitted by subparagraphs (a)(4) or (a)(5) above, the Contractor shall repay the amount of such excess to the Government on demand.

(b) *Liquidation.* Except as provided in the Termination for Convenience of the Government clause, all progress payments shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or eighty percent (80%) of the amount invoiced, whichever is less. The Contractor shall repay to the Government any amounts required by a retroactive price reduction, after computing liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly. The Government reserves the right to unilaterally change from the ordinary liquidation rate to an alternate rate when deemed appropriate for proper contract financing.

(c) *Reduction or suspension.* The Contracting Officer may reduce or suspend progress payments, increase the rate of liquidation, or take a combination of these actions, after finding on substantial evidence any of the following conditions:

(1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (f) and (g) below).

(2) Performance of this contract is endangered by the contractor's (i) failure to make progress or (ii) unsatisfactory financial condition.

(3) Inventory allocated to this contract substantially exceeds reasonable requirements.

(4) The Contractor is delinquent in payment of the costs of performing this contract in the ordinary course of business.

(5) The unliquidated progress payments exceed the fair value of the work accomplished on the undelivered portion of this contract.

(6) The Contractor is realizing less profit than that reflected in the establishment of any alternate liquidation rate in paragraph (b) above, and that rate is less than the progress payment rate stated in subparagraph (a)(1) above.

(d) *Title.*

(1) Title to the property described in this paragraph (d) shall vest in the Government. Investiture shall be immediately upon the date of this contract, for property acquired or produced before that date. Otherwise, investiture shall occur when the property is or should have been allocable or properly chargeable to this contract.

(2) "Property", as used in this clause, includes all of the below-described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices.

(i) Parts, materials, inventories, and work in process;

(ii) Special tooling and special test equipment to which the Government is to acquire title under any other clause of this contract;

(iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, and other similar manufacturing aids, title to which would not be obtained as special tooling under subparagraph (d)(2)(ii) above; and

(iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.

(3) Although title to property is in the Government under this clause, other

VOL 51 ISS 76 AP 21 1986 UMI

applicable clauses of this contract, e.g., the termination or special tooling clauses, shall determine the handling and disposition of the property.

(4) The Contractor may sell any scrap resulting from production under this contract without requesting the Contracting Officer's approval, but the proceeds shall be credited against the costs of performance.

(5) To acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor must obtain the Contracting Officer's advance approval of the action and the terms. The Contractor shall (i) exclude the allocable costs of the property from the costs of contract performance, and (ii) repay to the Government any amount of unliquidated progress payments allocable to the property. Repayment may be by cash or credit memorandum.

(6) When the Contractor completes all of the obligations under this contract, including liquidation of all progress payments, title shall vest in the Contractor for all property (or the proceeds thereof) not—

(i) Delivered to, and accepted by, the Government under this contract; or

(ii) Incorporated in supplies delivered to, and accepted by, the Government under this contract and to which title is vested in the Government under this clause.

(7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.

(e) *Risk of Loss.* Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. The Contractor shall repay the Government an amount equal to the unliquidated progress payments that are based on costs allocable to property that is damaged, lost, stolen, or destroyed.

(f) *Control of Costs and Property.* The Contractor shall maintain an accounting system and controls adequate for the proper administration of this clause.

(g) *Reports and Access to Records.* The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information reasonably requested by the Contracting Officer for the administration of this clause. Also, the Contractor shall give the Government reasonable opportunity to examine and verify the Contractor's books, records, and accounts.

(h) *Special Terms Regarding Default.* If this contract is terminated under the Default clause, (i) the Contractor shall, on demand, repay to the Government the amount of unliquidated progress payments and (ii) title shall vest in the Contractor, on full liquidation of progress payments, for all property for which the Government elects not to require delivery under the Default clause. The Government shall be liable for no payment except as provided by the Default clause.

(i) *Reservation of Rights.*

(1) No payment or vesting of title under this clause shall (i) excuse the Contractor from performance of obligations under this contract or (ii) constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause (i) shall not be exclusive but rather shall be in addition to any other rights and remedies provided by law or this contract and (ii) shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(j) *Progress Payments to Subcontractors.* The amounts mentioned in (a)(1)(ii) above shall be all progress payments to subcontractors or divisions, if the following conditions are met:

(1) The amounts included are limited to (i) the unliquidated remainder of progress payments made plus (ii) for small business concerns any unpaid subcontractor requests for progress payments that the Contractor has approved for current payment in the ordinary course of business.

(2) The subcontract or interdivisional order is expected to involve a minimum of approximately six (6) months between the beginning of work and the first delivery, or, if the subcontractor is a small business concern, four (4) months.

(3) The terms of the subcontract or interdivisional order concerning progress payments—

(i) Are substantially similar to the terms of the clause 52.232–16, Progress Payments, of the Federal Acquisition Regulation (or that clause with its Alternate I for any subcontractor that is a small business concern);

(ii) Are at least as favorable to the Government as the terms of this clause;

(iii) Are not more favorable to the subcontractor or division than the terms of this clause are to the Contractor;

(iv) Are in conformance with the requirements of paragraph 32.504(e) of the Federal Acquisition Regulation; and

(v) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if (A) the Contractor defaults or (B) the subcontractor becomes bankrupt or insolvent.

(4) The progress payment rate in the subcontract is the customary rate used by the Contracting Activity, depending on whether the subcontractor is or is not a small business concern.

(5) The parties agree concerning any proceeds received by the Government for property to which title has vested in the Government under the subcontract terms, that the proceeds shall be applied to reducing any unliquidated progress payments by the Government to the Contractor under this contract.

(6) If no unliquidated progress payments to the Contractor remain, but there are unliquidated progress payments that the Contractor has made to any subcontractor, the Contractor shall be subrogated to all the rights the Government obtained through the terms required by this clause to be in any subcontract, as if all such rights had been assigned and transferred to the Contractor.

(7) The Contractor shall pay the subcontractor's progress payment request under subparagraph (j)(1)(ii) above, within a reasonable time after receiving the Government progress payment covering those amounts.

(8) To facilitate small business participation in subcontracting under this contract, the Contractor agrees to provide progress payments to small business concerns, in conformity with the standards for customary progress payments stated in Subpart 32.5 of the Federal Acquisition Regulation. The Contractor further agrees that the need for such progress payments shall not be considered as a handicap or adverse factor in the award of subcontracts.

(k) *Limitations on Undefinitized Contract Actions.* Notwithstanding any other progress payment provision in this contract, progress payments may not exceed eighty percent (80%) of costs incurred on work accomplished under undefinitized contract actions. A "contract action" is any action resulting in a contract, as defined in FAR Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes. This limitation shall apply to the costs incurred, as computed in accordance with paragraph (a), and shall remain in effect until the contract action is definitized. Costs incurred which are subject to this limitation shall be segregated on contractor progress payment requests and invoices from those costs eligible for higher progress payment rates. For purposes of progress payment liquidation, as described in paragraph (b), progress payments for undefinitized contract actions shall be liquidated at eighty percent (80%) of the amount invoiced for work performed under the undefinitized contract action so long as the contract action remains undefinitized.

The amount of unliquidated progress payments for undefinitized contract actions shall not exceed eighty percent (80%) of the maximum liability of the Government under the undefinitized contract action or such lower limit specified elsewhere in the contract. Separate limits may be specified for separate actions.

(End of clause)

Alternate I (Apr 1986)

If the contract is with a small business concern, change each mention of the progress payment and liquidation rates excepting paragraph (k) to the customary rate of ninety percent (90%) for small business concerns (see FAR 32.501–1), delete subparagraphs (a)(1) and (a)(2) from the basic clause, and substitute the following subparagraphs (a)(1) and (a)(2):

(a) *Computation of amounts.* (1) Unless the Contractor requests a smaller amount, each progress payment shall be computed as (i) ninety percent (90%) of the Contractor's total costs incurred under this contract whether or not actually paid, plus (ii) progress payments to subcontractors (see paragraph (j) below), all less the sum of all previous progress payments made by the Government under this contract. Cost of money that would be allowable under 31.205–10 of the Federal Acquisition Regulation shall be deemed an incurred cost for progress payment purposes.

(2) Accrued costs of Contractor contributions under employee pension plans shall be excluded until actually paid unless—

(i) The Contractor's practice is to make contributions to the retirement fund quarterly or more frequently; and

(ii) The contribution does not remain unpaid thirty (30) days after the end of the applicable quarter or shorter payment period (any contribution remaining unpaid shall be excluded from the Contractor's total costs for progress payments until paid).

Alternate II (Apr 1986)

If the contract is a letter contract, add paragraphs (l) and (m) shown below: The amount specified in paragraph (m) shall not exceed eighty percent (80%) applied to the maximum liability of the Government under the letter contract. Separate limits may be specified for separate parts of the work.

(l) Progress payments made under this letter contract shall, unless previously liquidated under paragraph (b), be liquidated under the following procedures:

(1) If this letter contract is superseded by a definitive contract, unliquidated progress payments made under this letter contract shall be liquidated by deducting the amount from the first progress or other payments made under the definitive contract.

(2) If this letter contract is not superseded by a definitive contract calling for the furnishing of all or part of the articles or services covered under the letter contract, unliquidated progress payments made under the letter contract shall be liquidated by deduction from the amount payable under the Termination clause.

(3) If this letter contract is partly terminated and partly superseded by a contract, the Government shall allocate the unliquidated progress payments to the terminated and unterminated portions as the Government deems equitable, and shall liquidate each portion under the relevant procedure in subparagraphs (l) (1) and (2) above.

(4) If the method of liquidating progress payments provided above does not result in full liquidation, the Contractor shall immediately pay the unliquidated balance to the Government on demand.

(M) The amount of unliquidated progress payments shall not exceed . . . . . (*specify dollar amount*)

BILLING CODE 3810–01–M

---

48 CFR Parts 242 and 252

Department of Defense Federal Acquisition Regulation Supplement; Indirect Cost Certificate

AGENCY: Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: The DAR Council has approved changes to DoD FAR Supplement Parts 242 and 252 to implement direction by the Secretary of Defense with respect to claims for overhead costs, and to comply with certain statutes.

EFFECTIVE DATE: April 14, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. Charles W. Lloyd, Executive Secretary, DAR Council, ODASD(P)/DARS, c/o OASD(A&L), Room 3C841, the Pentagon, Washington, DC 20301–3062, telephone (202) 697–7266.

SUPPLEMENTARY INFORMATION:

A. Background

On March 12, 1985, the Secretary of Defense directed that contractors with the Department of Defense will be required to certify that all cost included in claims for overhead costs are allowable in accordance with contract requirements and the cost principles applicable to those contracts. Interim changes to the DoD FAR Supplement Parts 242 and 252 were issued to implement this decision. These changes were published in the Federal Register (50 FR 12028, March 27, 1985), and public comments were invited.

Section 911 of the Department of Defense Authorization Act, 1986 (Pub. L. 99–145), as amended by section 8112 of the DoD Appropriation Act, 1986 (Pub. L. 99–190), added section 2324 to Title 10, United States Code, that required, *inter alia*, that a certification, to the best of the certifying official's knowledge and belief, of the allowability of indirect cost be included with proposals for the settlement of indirect costs.

Changes have been made to DoD FAR Supplement 242.7 and 252.242 published herewith (1) as a result of the comments received and (2) to comply with section 2324 of Title 10, United States Code.

The DoD FAR Supplement is codified in Chapter 2, Title 48 of the Code of Federal Regulations.

The October 1, 1985 revision of the CFR is the most recent edition of that title. It reflects amendments to the 1984 edition of the DoD FAR Supplement made by Defense Acquisition Circulars 84–1 through 84–10.

Interested parties may submit proposed revisions to this Supplement directly to the DAR Council.

B. Regulatory Flexibility Act Information

The changes to DFARS 242.7 and 252.242 will not have a significant impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C 601 et seq.) because—

(1) The rule does not add any new requirement with respect of identifying or accounting for costs. It simply requires an appropriate company official to certify that the company is complying with the regulation.

(2) No specific comments from small entities were received indicating any impact.

C. Paperwork Reduction Act Information

The rule imposes no new recordkeeping requirements on contractors. Rules already exist on the allowability of costs on Government contracts. Contractors should already be reviewing their proposals as a normal course of business to eliminate such costs from their proposals. This rule is simply a certification by an appropriate company official that, to the best of his knowledge and belief, the company is complying with the regulations.

List of Subjects in 48 CFR Parts 242 and 252

Government procurement.

Charles W. Lloyd,
Executive Secretary, Defense Acquisition Regulatory Council.

Adoption of Amendments

Therefore, the DoD FAR Supplement contained in 48 CFR Chapter 2 is amended as set forth below.

1. The authority for 48 CFR Parts 242 and 252 continues to read as follows:

Authority: 5 U.S.C. 301, 10 U.S.C. 2202, DoD Directive 5000.35, and DoD FAR Supplement 201.301.

PART 242—CONTRACT ADMINISTRATION

2. Sections 242.770 and 242.770–1 are added to read as follows:

242.770 Certification of indirect costs.

(a) *Policy.* (1) No proposal to establish billing rates or final indirect cost rates shall be accepted unless such costs have been certified by the contractor using the Certificate of Indirect Costs set forth in paragraph (d) below. The certificate must be signed on behalf of the firm by an individual of the contractor's organization at a level no lower than vice president or chief financial officer of the business segment of the contractor that submits the proposal.

(2) No billing rate or final indirect cost rate shall be agreed to by the contracting officer or auditor based on a proposal from the contractor that has not been certified. Where it is necessary to establish billing or final indirect cost rates in order to comply with the terms

VOL 51 ISS 76 AP 21 1986

of a contract and the contractor has not submitted a certified proposal for establishing such rates in accordance with the requirements of this section, the Government shall unilaterally establish such rates. Such rates may be based upon audited historical data or such other data that has been furnished to the contracting officer or auditor and for which it can be demonstrated that all unallowable costs have been excluded. When billing or final indirect cost rates are unilaterally established by the Government because of failure of the contractor to submit a certified proposal for establishing such rates in accordance with this section, the rates established will be set at a level low enough to ensure that potentially unallowable costs will not be reimbursed.

(b) It shall be the responsibility of the cognizant contracting officer or auditor to review billing rates periodically for indirect costs and all circumstances affecting the level of indirect cost rates. Generally, billing rates shall not be in effect for longer than one year. Final indirect cost rates shall be established promptly after the end of the applicable year.

(c) *Waiver.* (1) The Secretary of Defense or the Secretary of the military department concerned may, in an exceptional case, waive the requirement for certification under paragraph (a) in the case of any contract if the Secretary—

(i) Determines in such case that it would be in the interest of the United States to waive such certification; and

(ii) States in writing the reasons for that determination and makes such determination available to the public.

(2) Examples of situations where it may be appropriate to waive the requirement for certification of indirect costs include, but are not limited to contracts with:

(i) Foreign governments or international governmental organizations, such as subsidiary bodies of NATO;

(ii) State and local governments that are subject to OMB Circular A–87;

(iii) Educational institutions subject to OMB Circular A–21; or

(iv) nonprofit organizations subject to OMB Circular A–122.

(d) *Certificate.* The certificate required by this section shall be in the following form:

Certificate of Indirect Costs

This is to certify that to the best of my knowledge and belief:

1. I have reviewed the indirect cost proposal submitted herewith;

2. All costs included in this proposal (identify, date) to establish billing or final indirect costs rates for (identify period covered by rate) are allowable in accordance with the requirements of contracts to which they apply and with the cost principles of the Department of Defense applicable to those contracts;

3. This proposal does not include any costs which are unallowable under applicable cost principles of the Department of Defense, such as (without limitation): advertising and public relations costs, contributions and donations, entertainment costs, fines and penalties, lobbying costs, defense of fraud proceedings, and good will; and

4. All costs, included in this proposal are properly allocable to Defense contracts on the basis of a beneficial or causal relationship between the expenses incurred and the contracts to which they are allocated in accordance with applicable acquisition regulations.

I declare under penalty of perjury that the foregoing is true and correct.

Firm: _____

Signature: _____

Name of Corporate Official: _____

Title: _____

Date of Execution: _____

242.770-1 Clause.

The contracting officer shall insert the clause at 252.242-7003, "Certification of Indirect Costs" in all solicitations and contracts which provide for (a) interim reimbursement of indirect costs, (b) establishment of final indirect costs rates, or (c) contract financing that includes interim payment of indirect cost (e.g., progress payments based on cost and payments based on percentage or state of physical completion such as shipbuilding).

PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

3. Section 252.242-7003 is added to read as follows:

252.242-7003 Certification of Indirect Costs.

As prescribed in 247.770-1, insert the following clause:

Certification of Indirect Costs (April 1986)

(a) The Contractor shall certify any proposal to establish or modify billing rates or to establish final indirect cost rates in the form set forth in paragraph (b) of this clause. The certificate shall be signed on behalf of the Contractor by an individual of the Contractor's organization at a level no lower than a vice president or chief financial officer of the business segment of the Contractor that submits the proposal. The Contractor understands that if the Contractor fails to submit a certificate as required herein, payments on account of indirect cost shall be at rates unilaterally established by the Government.

(b) *Certificate of Indirect Costs.* The certificate of indirect costs shall read as follows:

Certificate of Indirect Costs

This is to certify that to the best of my knowledge and belief:

1. I have reviewed the indirect cost proposal submitted herewith;

2. All costs included in the proposal (identify, date) to establish billing or final indirect cost rates for (identify period covered by rate) are allowable in accordance with the requirements of contracts to which they apply and with the cost principles of the Department of Defense applicable to those contracts;

3. This proposal does not include any costs which are unallowable under applicable cost principles of the Department of Defense, such as (without limitation): advertising and public relations costs, contributions and donations, entertainment costs, fines and penalties, lobbying costs, defense of fraud proceedings, and good will; and

4. All costs included in this proposal are properly allocable to Defense contracts on the basis of a beneficial or causal relationship between the expenses incurred and the contracts to which they are allocated in accordance with applicable acquisition regulations.

I declare under penalty of perjury that the foregoing is true and correct.

Proposed Rules

Federal Register
Vol. 51, No. 76
Monday, April 21, 1986

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Office of Transportation

7 CFR Part 3300

Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment To Be Used for Such Carriage (ATP); Inspection, Testing, and Certification of Special Equipment

AGENCY: Office of Transportation, USDA.

ACTION: Proposed rule.

SUMMARY: The purpose of this rule is to establish procedures for the inspection, testing, and certification of insulated, refrigerated, mechanically refrigerated, and heated transport equipment in accordance with the subject Agreement and the standards specified therein. Under this rule United States firms which manufacture or own such equipment may obtain certification for their equipment as needed for the international carriage of perishable foodstuffs. This rule has been developed under the authority delegated to the Secretary of Agriculture to implement the Agreement, as set forth in the International Carriage of Perishable Foodstuffs Act, which authority has been further delegated by the Secretary to the Assistant Secretary for Marketing and Inspection Services and the Administrator of the Office of Transportation.

DATE: Comments must be submitted before May 21, 1986.

ADDRESS: Written comments should be sent to: Robert F. Guilfoy, Jr., Office of Transportation, Department of Agriculture, 1405 Auditors Building, 201 14th Street SW., Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT: To obtain further information, including copies of the Agreement and the Act (Pub. L. 97–325), contact Robert F. Guilfoy, Jr., at the above address or by telephone: (202) 447–6235.

SUPPLEMENTARY INFORMATION: The subject Agreement, dated September 1, 1970, was developed by the Economic Commission for Europe (ECE), a regional body of the United Nations. The ECE is made up of 34 member countries, including 32 European countries, the United States, and Canada.

The United States Senate ratified the Agreement on March 20, 1980, followed by enactment by the Congress of the International Carriage of Perishable Foodstuffs Act on October 15, 1982. The U.S. acceded to the Agreement on January 20, 1983.

The basic objectives of this rule derive from the Perishable Foodstuffs Act, section 2, paragraphs (3) and (4), which read "(3) this Act will make ti possible for equipment in the United States to be inspected, tested, and certified in accordance with the agreement and the standards specified therein; and (4) this Act will improve the condition for the movement of perishable foodstuffs in international carriage in equipment owned or operated by United States firms, which will serve to protect existing trade and promote expansion of trade in perishable foodstuffs, and will improve the sale of United States manufactured equipment for use in international carriage."

Under this rule, domestic owners may obtain certification for new equipment manufactured in the United States or in a foreign country. Domestic owners may also obtain certification or recertification for equipment in service. Foreign owners may obtain certification for new equipment manufactured in the United States, but not for equipment manufactured in a foreign country or for equipment in service.

It should be noted that this rules does not make it mandatory that all special transport equipment manufactured, owned, or operated by U.S. firms be certified. Rather, this rule sets up procedures whereby U.S. firms may obtain certification of their equipment, if they so desire and as needed, for transport of perishable foodstuffs between countries which are contracting parties to the Agreement, particularly in Europe.

Since the Agreement is an intergovernmental agreement within the United Nations, it is necessary that inspection, testing, and certification of equipment in each country be done under the auspices of government.

Thus far, the following 21 countries have become contracting parties to the Agreement: Austria, Belgium, Bulgaria, Czechoslovakia, Denmark, Finland, France, Federal Republic of Germany, German Democratic Republic, Italy, Luxembourg, Morocco, Netherlands, Norway, Poland, Spain, Sweden, U.S.S.R., United Kingdom, United States of America, and Yugoslavia.

Exemptions

Article 5 of the Agreement provides that the Agreement shall not apply to carriage in containers in which the transport operation involves a movement of more than 150 km by sea. Thus, a container moving from the United States to a country in Europe, or vice-versa, would not have to be certified. It may be noted that Article 5 makes no mention of roll-on roll-off (RoRo) vehicles moving more than 150 km by sea, probably because there was little if any of that type of movement when the Agreement was being drafted. In any event, manufacturers and owners of refrigerated oceangoing containers in the United States would need certification for their equipment when the equipment is to be used for transport of perishable foodstuffs between countries in Europe where the receiving country is a contracting party to the Agreement.

Article 10 of the Agreement provides that a contracting party has the option to declare that the Agreement does not apply to carriage in its territories outside Europe. That Article was placed in the Agreement, during its drafting, at the express request of the United States, for the following three reasons: (1) The Agreement was developed primarily for application to transport of perishable foodstuffs in Europe; (2) Industry standards in the United States were considered to be comparable to the standards in the Agreement, and (3) The U.S. had no need to apply the Agreement to vehicles coming into the U.S. from Canada or Mexico.

In depositing its instrument of accession with the United Nations, the U.S. exercised the option available in Article 10 by declaring that the Agreement does not apply to carriage in the United States or its territories.

VOL 51 ISS 76 AP 21 1986 UMI

Considerations Regarding Verification that Production of New Equipment Conforms With the Reference Equipment

The Agreement, in its Annex 1, Appendix 1, paragraphs 2 (a) and (b) reads as follows:

"(a) New equipment of a specific type serially-produced may be approved by testing one unit of that type. If the unit tested fulfills the requirments prescribed for the class to which it is presumed to belong, the test report shall be regarded as a Type Approval Certificate—

(b) The competent authority shall take steps to verify that production of units is in conformity with the approved type.—"

In deciding how to treat the requirement concerning conformity of production with the reference equipment, the following factors were considered:

(1) A manufacturer of equipment normally verifies to the buyer of the equipment that the manufacturer has complied with specifications stipulated by the buyer.

(2) It would be difficult to justify placing an extra cost on the manufacturer to have an outside organization verify conformity of production.

(3) The regulations of the United Kingdom, which is a contracting party to the Agreement, allow manufacturers to certify that production conforms to the approved type.

Taking into account the aforementioned factors, it was decided to have the manufacturer submit a statement that production conforms with the reference equipment, and this is reflected in the pertinent part of this rule.

Considerations Regarding Inspection of Containers in Service

The Agreement, in its Annex 1, Appendix 2, paragraphs 29 and 49, requires that equipment in service at the end of the period of validity of its certificate shall either be tested in a testing station or be inspected by experts, in order to obtain renewal of a certificate.

As a practical matter, the United States would not be primarily concerned with testing and inspection of trucks, trailers, semitrailers, and railcars, since the U.S. will not apply the Agreement to transport equipment operating in the United States.

The primary concern of the United States is in connection with inspection of mechanically refrigerated intermodal containers operated by U.S. containership companies and U.S. container leasing firms which need certification of their containers for inter-country operations in Europe.

In deciding how to treat the requirement concerning inspection of containers in service, the following factors were considered:

(1) It is generally agreed that it would be difficult and costly to schedule a particular container into a particular seaport where, and when, an independent inspector, outside the carrier's organization, might be available to perform an inspection.

(2) Conceivably, a great number of mechanically refrigerated containers in service may require inspection in the coming years.

(3) The inspection requirements in the Agreement are not considered to be stringent. The check of the insulated body is essentially a visual inspection, and when operating the mechanical refrigerating appliance the ambient temperature need only be no lower than +15 °C (59 °F), compared to test of the equipment when new in an ambient of +30 °C (86 °F). Further, in an inspection the appliance is turned off as soon as it reaches the required inside air temperature, without having to be operated for 12 hours with a 35 percent additional heat load as in the original test when the equipment was new.

(4) Operators of intermodal mechanically refrigerated containers normally check a container before each trip to ensure that the equipment is in good repair and that the refrigerating unit is operating properly. Also, operators normally perform periodic maintenance inspections of equipment similar to the inspection required by the Agreement.

Taking into account the aforementioned factors, it was decided that the most practical and least costly way to accomplish inspections of equipment in service would be to place the responsibility for such inspections on the owners of the equipment, and this is reflected in the pertinent part of this rule.

Paperwork Reduction

A request for approval of collection of information under this proposed rule is being submitted to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980 (Title 44, Chapter 35, United States Code).

Review of this Proposed Rule

This proposed rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291 and has been designated as a 'non-major' rule. Martin F. Fitzpatrick, Jr., Administrator, Office of Transportation, has certified that this proposed action will not have a significant impact on a substantial number of small entities.

List of Subjects in 7 CFR Part 3300

Foods, Laboratories, Reporting and recordkeeping requirements, Transportation.

Accordingly, Chapter XXX, consisting of Part 3300, is proposed to be added to Title 7 to read as follows:

CHAPTER XXX—OFFICE OF TRANSPORTATION, DEPARTMENT OF AGRICULTURE

PART 3300—AGREEMENT ON THE INTERNATIONAL CARRIAGE OF PERISHABLE FOODSTUFFS AND ON THE SPECIAL EQUIPMENT TO BE USED FOR SUCH CARRIAGE (ATP); INSPECTION, TESTING, AND CERTIFICATION OF SPECIAL EQUIPMENT

Subpart A—Introduction

Sec.

3300.1 Scope of authority and purpose.
3300.4 Definitions.

Subpart B—Procedures for Testing of Equipment

3300.7 General.
3300.10 Measurement of the K-coefficient of an insulated body.
3300.13 Measurement of the K-coefficient of an insulated body without its mechanical refrigerating appliance installed.
3300.16 Determination of the efficiency of the thermal appliance as installed in the insulated body.

Subpart C—Approval of Testing Stations

3300.19 General.
3300.22 Application for approval.
3300.25 Response to application for approval.
3300.28 Application for renewal of approval.
3300.31 Response to application for renewal of approval.
3300.34 Termination of approval.

Subpart D—Procedures for Separate Testing of Mechanical Refrigerating Appliances

3300.37 General.
3300.40 Testing of a mechancial refrigerating appliance.

Subpart E—Approval of Testing Laboratories

3300.43 General.
3300.46 Application for approval.
3300.49 Response to application for approval.
3300.52 Application for renewal of approval.
3300.55 Response to application for renewal of approval.
3300.58 Termination of approval.

Subpart F—Certification of New Equipment

3300.61 General.

3300.64 Testing and verification requirements.
3300.67 Application for certificate for new equipment produced or assembled in the United States or in a foreign country which is not a contracting party of the ATP.
3300.70 Application for certificate for new equipment produced or assembled in a foreign country which is a contracting party to the ATP.
3300.73 Issuance of certificate.
3300.76 Period of validity of certificates.

Subpart G—Certification of Equipment in Service

3300.79 General.
3300.82 Application for certificate.
3300.85 Issuance of certificate.
3300.88 Period of validity of certificates.

Subpart H—Other Provisions.

3300.91 Responsibilities of equipment manufacturers.
3300.94 Responsibilities of owners of equipment.
3300.97 Fees for U.S. ATP Certificates.
3300.100 List of approved testing stations, approved testing laboratories, and fees for certificates.
3300.103 Appeals.

Authority: Sec. 4, Pub. L. 97–325, International Carriage of Perishable Foodstuffs Act (7 U.S.C. 4403).

Subpart A—Introduction

§ 3300.1 Scope of authority and purpose.

The International Carriage of Perishable Foodstuffs Act assigns to the Secretary of Agriculture the responsibility for implementation of the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP). The purpose of this rule is to establish procedures for the inspection, testing, and certification of insulated, refrigerated, mechanically refrigerated, and heated transport equipment in accordance with the Agreement and the standards specified therein. In the process, the intent is to utilize existing industry facilities to the greatest extent practicable.

§ 3300.4 Definitions.

"Administrator" means the Administrator, Office of Transportation, U.S. Department of Agriculture, whose current address is: 1405 Auditors Building, 201 14th Street SW., Washington, DC 20250.

"ATP" means the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP), and the annexes and appendices thereto, done at Geneva, September 1, 1970, under the auàpices of the Economic Commission for Europe, and any subsequent amendments thereto.

"ATP Manager" means the person designated by the Administrator to manage the program established by this rule, whose current address is: ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street SW., Washington, DC 20250.

"Body manufacturer" means an organization which produces insulated bodies for equipment.

"Body manufacturing plant" means a facility at which insulated bodies are produced.

"Contracting party" means a country which is signatory to the ATP.

"Domestic Owner" means an organization which is incorporated or chartered under the laws of, and with principal office in, the United States, and which owns or operates the equipment directly or through a wholly owned subsidiary in a foreign country.

"Equipment" means the special transport equipment that complies with the definitions and standards set forth in ATP, Annex 1, including, but not limited to, railcars, trucks, trailers, semitrailers, and intermodal freight containers that have an insulated body only, or an insulated body equipped with a refrigerating, mechanically refrigerating, or heating appliance.

"Equipment manufacturer" means an organization which produces or assembles the complete unit of equipment, that is, the insulated body with the thermal appliance installed.

"Equipment manufacturing plant" means a facility at which an equipment manufacturer produces or assembles the complete unit of equipment.

"Foreign-ATP certificate" means a certificate issued by a foreign country which is a contracting party to the ATP, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

"Foreign owner" means an organization registered under the laws of, or with principal office in, a country outside the United States, and which owns or operates the equipment.

"Identical mechanical refrigerating appliance" means a mechanical refrigerating appliance which is of the same model number and design as the reference mechanical refrigerating appliance, and produced by a particular mechanical refrigerating appliance manufacturer, at a particular mechanical refrigerating appliance manufacturing plant.

"Insulated body" means the six-sided structural component of equipment, consisting of insulated doors, sidewalls, roof, floor, and endwall, inside which perishable foodstuffs are carried.

"International carriage" means transportation of perishable foodstuffs if such foodstuffs are loaded in equipment or the equipment containing them is loaded onto a rail or road vehicle, in the territory of any country and such foodstuffs are, or the equipment containing them is, unloaded in the territory of another country that is a contracting party, where such transportation is by:

(a) Rail,

(b) Road,

(c) Any combination of rail and road, or

(d) Any sea crossing of less than one hundred and fifty kilometers, if preceded or followed by one or more land journeys as referred to in paragaphs (a), (b), and (c) of this definition, and the perishable foodstuffs are shipped in the same equipment used for such land journeys without transloading of such foodstuffs.

In the case of any transportation that involves one or more sea crossings other than as specified in paragraph (d) of this definition, each land journey shall be considered separately.

"Mechanical refrigerating appliance manufacturer" means an organization which produces mechanical refrigerating appliances.

"Mechanical refrigerating appliance manufacturing plant" means a facility which produces mechanical refrigerating appliances.

"New equipment" means equipment produced or assembled at an equipment manufacturing plant on or after the effective date of this rule.

"Perishable foodstuffs" means the quick deep-frozen and frozen food products listed in Annex 2, and the chilled food products listed in Annex 3 to the ATP.

"Reference equipment" means a unit of equipment which has passed a test in an approved testing station, and can thereby serve as a basis for certification of related serially-produced equipment.

"Reference insulated body" means an insulated body which has passed a test in an approved testing station for measurement of the K-coefficient of the body, and can thereby serve as the basis for approval of serially-produced bodies in the case in which the insulated body and the mechanical refrigerating appliance of the equipment are tested separately.

"Reference mechanical refrigerating appliance" means a mechanical refrigerating appliance which has passed a test in an approved testing laboratory, and can thereby serve as the basis for approval of identical mechanical refrigerating appliances in

VOL 51 ISS 76 AP 21 1986 UMI

the case in which the mechanical refrigerating appliance and the insulated body of the equipment are tested separately.

"Serially-produced bodies" means insulated bodies which meet the definition in ATP, Annex 1, Appendix 1, paragraph 2(c)(i).

"Serially-produced equipment" means equipment of a specific type (container, semi-trailer, trailer, truck, or container), which meets the definition in ATP, Annex 1, Appendix 1, paragraph 2(c).

"Thermal appliance" means the refrigerating, mechanical refrigerating, or heating appliance which is installed in the insulated body of the equipment.

"Thermal appliance manufacturer" means an organization which produces thermal appliances.

"Thermal appliance manufacturing plant" means a facility at which thermal appliances are produced.

"U.S. ATP testing laboratory" means a facility in the United States which has been approved by the Administrator to conduct tests of mechanical refrigerating appliances.

"U.S. ATP testing station" means a facility in the United States which has been approved by the Administrator to conduct tests of equipment.

"U.S. ATP certificates" means a certificate issued by the U.S. Department of Agriculture, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

"United States" means the fifty States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

Subpart B—Procedures for Testing of Equipment

§ 3300.7 General.

Testing of equipment according to the ATP is basically done in two phases:

(a) Measurement of the insulating capacity, that is, the K-coefficient, of the insulated body.

(b) Determination of the efficiency of the thermal appliance as installed in the insulated body. In the case of mechanically refrigerated equipment, the mechanical refrigerating appliance may be tested separately.

§ 3300.10 Measurement of the K-coefficient of an insulated body.

The K-coefficient shall be measured according to the procedures in ATP, Annex 1, Appendix 2, paragraphs 1–28, and the following shall apply:

(a) The internal heating method shall be used.

(b) The measurement shall be performed with the thermal appliance installed in the insulated body, unless the equipment consists of an insulated body only without a thermal appliance.

(c) In ATP, Annex 1, Appendix 2, paragraph 8, last line, 'about +20 °C' for the mean temperature of the walls of the body shall be interpreted to mean between +19 °C (+66 °F) and 21 °C (+70 °F).

(d) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by request to the ATP manager.

§ 3300.13 Measurement of the K-coefficient of an insulated body without its mechanical refrigerating appliance installed.

If there is an opening in the front wall of the body intended to accommodate the mechanical refrigerating appliance, the opening shall be temporarily closed off with an insulated partition. The K-coefficient shall then be measured according to the procedures in ATP, Annex 1, Appendix 2, paragraph 1–28. In performing such measurement the following shall apply:

(a) The internal heating method shall be used.

(b) In ATP, Annex 1, Appendix 2, paragraph 8, last line, 'about +20 °C' for the mean temperature of the walls of the body shall be interpreted to mean between +19 °C (+66 °F) and +21 °C (+70 °F).

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by request to the ATP manager.

§ 3300.16 Determination of the efficiency of the thermal appliance as installed in the insulated body.

In determining the efficiency of a thermal appliance with respect to maintaining prescribed temperature inside the body, the procedures in ATP, Annex 1, Appendix 2, paragraphs 31–40 and 43–47 shall be used. A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by request to the ATP manager.

Subpart C—Approval of Testing Stations

§ 3300.19 General.

Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing station.

§ 3300.22 Application for approval.

Application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of Form, Application for Approval as a U.S. ATP Testing Station, may be obtained by request to the ATP manager. The following information is requested in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the address and telephone number of the principal office.

(b) The address and telephone number of the testing station, and name and title of person in charge of the station.

(c) A summary of experience at the facility which would indicate capability to conduct tests of equipment according to Subpart B of this rule.

(d) A general description of the station, including drawings on letter size (8½ × 11 inches) paper to show the floor plan and cross-sections of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) An indication of which of the following types of equipment, as defined in ATP, Annex 1, that the station is capable of testing: Intermodal freight containers, semi-trailers, trailers, railcars, and trucks.

(f) A statement that the Administrator, ATP manager, or other respresentative of the Administrator may, before a decision concerning the application, observe a test at the station of a class C mechanically refrigerated container or semi-trailer, with Class C being defined as in ATP, Annex 1, paragraph 3.

(g) A statement that the station will be open to public use, that is, to manufacturers and owners of equipment which may apply to have equipment tested.

(h) A statement that the fees to be charged by the organization for testing will be reasonable with respect to costs involved, and that such fees will be payable directly to the organization by those who seek testing of their equipment.

(i) A statement that the station will maintain records of basic data developed in each test conducted under this rule, such records to be available for review by the ATP manager or other representative of the Administrator upon request. The record for each test shall be maintained for a period of three years.

(j) A statement that the organization will advise the ATP manager at least 30 days prior to each test conducted under this rule, so that the ATP manager or other representative of the Administrator may, if desired, observe the test.

(k) A statement that the organization will send to the ATP manager a copy of each test report for equipment tested at the station according to this rule, within 30 days after completion of the test.

(l) A statement that, should any significant change occur in the facility with respect to structure or test equipment as a result of redesign or other cause during the period of approval, the organization will so advise the ATP manager within 30 days after such change.

(m) Any other pertinent information.

§ 3300.25 Response to application for approval.

The Administrator will, within 30 days of receipt of the application and any relevant information required, advise the applicant whether or not the facility is approved as a testing station. Approval is for a 5-year period from date of approval.

§ 3300.28 Application for renewal of approval.

If an organization wishes to have an approval renewed at the end of a 5-year period, it shall submit a request for renewal to the Administrator 90 days before expiration of the existing approval. The request for renewal shall contain the same type of information as required in the original application, that is, the information called for in § 3300.22 of this Subpart C.

§ 3300.31 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal extends the period of approval for 5 more years.

§ 3300.34 Termination of approval.

An approved testing station may at any time withdraw as an approved testing station by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing station by written notice to the organization, setting forth reasons for such action. Examples of causes for suspension or termination of approval of a testing station would be a change in equipment or operations at the station which would render the station incapable of performing tests according to the standards in the ATP, or noncompliance of the station with pertinent portions of this rule.

Subpart D—Procedures for Separate Testing of Mechanical Refrigerating Appliances

§ 3300.37 General.

ATP, Annex 1, Appendix 2, paragraph 41, provides that approval of mechanically refrigerated equipment may be done on the basis of separate testing of the mechanical refrigerating appliance.

§ 3300.40 Testing of a mechanical refrigerating appliance.

For separate testing of a mechanical refrigerating appliance, the following shall pertain:

(a) The calibrated-box method shall be used, as set forth in ARI Standard 1110, Standard for Mechanical Refrigeration Units, of the Air-Conditioning and Refrigeration Institute.

(b) The appliance shall be rated according to the class, or classes, of service for which the appliance is intended, with classes being defined as in ATP, Annex 1, paragraph 3.

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by request to the ATP manager.

Subpart E—Approval of Testing Laboratories

§ 3300.43 General.

Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing laboratory.

§ 3300.46 Application for approval.

Application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of Form, Application for Approval as a U.S. ATP Testing Laboratory, may be obtained by request to the ATP manager. The following information is requested in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the address and telephone number of the principal office.

(b) The address and telephone number of the testing laboratory, and name and title of person in charge of the laboratory.

(c) A summary of the experience at the facility which would indicate a capability to conduct tests of mechanical refrigerating appliances according to Subpart D of this rule.

(d) A general description of the laboratory, including drawings on letter size (8½ x 11 inches) paper to show the floor plant and cross-sections of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) A statement that the Administrator, ATP manager, or other representative of the Administrator may, before a decision concerning the application, observe a test of a mechanical refrigerating appliance at the laboratory.

(f) A statement that the laboratory will maintain records of basic data developed in each test conducted under this rule, such records to be available for review by the ATP manager, or other representative of the Administrator, upon request. The record for each test shall be maintained for a period of three years.

(g) A statement that the organization will advise the ATP manager at least 30 days prior to each test conducted under this rule, so that the ATP manager or other representative of the Administrator may, if desired, observe the test.

(h) A statement that, should any significant change occur in the facility with respect to structure or test equipment as a result of redesign or other cause during the period of approval, the organization will so advise the ATP manager within 30 days after such change.

(i) A statement that the organization will send to the ATP manager a copy of each test report for an appliance tested at the laboratory according to this rule, within 30 days after completion of the test.

(j) Any other pertinent information.

§ 3300.49 Response to application for approval.

The Administrator will, within 30 days of receipt of an application and any relevant information required, advise the applicant whether or not the facility is approved as a testing laboratory. Approval is for a 5-year period from date of approval.

VOL 51 ISS 76 AP 21 1986 UMI

§ 3300.52 Application for renewal of approval.

If an organization wishes to have an approval renewed at the end of a 5-year period, it shall submit a request for renewal to the Administrator 90 days before expiration of the existing approval. The request for renewal shall contain the same type of information as required in the original application, that is, the information called for in § 3300.46 of this Subpart E.

§ 3300.53 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal extends the period of approval for 5 more years.

§ 3300.54 Termination of approval.

An approved testing laboratory may at any time withdraw as an approved testing laboratory by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing laboratory by written notice to the organization, setting forth reasons for such action. Examples of causes for suspension or termination of approval of a testing laboratory would be a change in equipment or operations at the laboratory which would render the laboratory incapable of performing tests according to the standards in the ATP, or noncompliance of the station with pertinent portions of this rule.

Subpart F—Certification of New Equipment

§ 3300.61 General.

For certification of new equipment by the U.S. Department of Agriculture, the following shall apply:

(a) For equipment manufactured, that is, produced or assembled, in the United States, or in a foreign country which is not a contracting party:

(1) In the case in which the complete unit of equipment is tested, such test shall be performed in a U.S. ATP testing station.

(2) In the case in which the mechanical refrigerating appliance and the insulated body are tested separately, such tests shall be performed in approved testing facilities in the United States or in test facilities located in, and approved by, a foreign country which is a contracting party.

(b) For equipment manufactured in a foreign country which is a contracting party, tests may be performed in facilities approved by such country, or in the United States or another country which is a contracting party.

(c) Domestic owners are eligible to receive U.S. ATP certificates for equipment produced or assembled in the United States or in a foreign country.

(d) Foreign owners are eligible to receive U.S. ATP certificates only for equipment produced or assembled in the United States.

§ 3300.64 Testing and verification requirements.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1(a), 2, and 3, and Appendix 2, paragraph 41, certification of new equipment is based upon the following:

(a) For a unit of equipment, a test of the equipment in an approved testing station.

(b) For serially-produced equipment:

(1) A test of one unit of equipment in an approved testing station, such unit to serve as the reference equipment, and;

(2) Verification by the equipment manufacturer that production of other units of equipment is in conformity with the reference equipment.

(c) For mechanically refrigerated equipment, certification may be based upon:

(1) Separate test of the mechanical refrigerating appliance in an approved testing laboratory, the appliance tested to serve as the reference mechanical refrigerating appliance.

(2) Separate testing of the insulated body in an approved testing station, the body tested to serve as the reference insulated body.

(3) Where more than one unit of equipment is involved, verification by the equipment manufacturer that all appliances are identical to the reference mechanical refrigerating appliance, and that production of bodies is in conformity with the reference insulated body.

§ 3300.67 Application for certificate for new equipment produced or assembled in the United States or in a foreign country which is not a contracting party to the ATP.

Application for certification of equipment shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of Form, Application for U.S. ATP Certificate for New Equipment Produced or Assembled in the United States or in a Foreign Country which is not a Contracting Party of the ATP, may be obtained by request to the ATP manager. The following information is requested in the application:

(a) A statement as to whether the owner is a domestic owner or a foreign owner, with the address and telephone number of its principal office, and the name and title of the key person to contact.

(b) If different from the owner, the name, address and telephone number of the operator of the equipment, and the name and title of the key person to contact.

(c) The name and address of the equipment manufacturer, and the name and title of the key person to contact.

(d) The type of equipment (intermodal freight container, trailer, semi-trailer, railcar, or truck).

(e) The total number of units of equipment.

(f) For each unit of equipment, the serial number of the body and the owners identification number for the equipment.

(g) The class of equipment and distinguishing mark for which certification is sought, referring to ATP, Annex 1, Appendix 4.

(h) In the case in which the complete equipment, that is, the insulated body with its thermal appliance installed, has been tested:

(1) The original or certified copy of the report of the test of the equipment or of the reference equipment performed in a U.S. ATP testing station. In accordance with ATP, Annex 1, Appendix 1, paragraphs 2(a), (b), (c), and (d), the validity of the test report for reference equipment shall expire either at the end of the 36-month period following date of the test, or at the end of manufacture of 1,000 units of serially-produced equipment, whichever occurs first. The serially-produced equipment shall be equipment produced or assembled at the same equipment manufacturing plant at which the reference equipment was produced or assembled.

(2) For serially-produced equipment, a statement from an officer in the organization of the equipment manufacturer giving the following information:

(i) The name and address of the equipment manufacturing plant at which the equipment was produced or assembled.

(ii) Verification that equipment, listed by serial number of each body, was produced in conformity with the reference equipment.

(iii) Verification that each insulated body has a body manufacturer's plate, or other means of identification, affixed to the body which shows the items of information required by ATP, Annex 1, paragraph 6.

(i) In the case in which the mechanical refrigerating appliance and the insulated body have been tested separately:

(1) The original or certified copy of the report of test of the mechanical refrigerating appliance, or of the reference mechanical refrigerating appliance, performed in a U.S. ATP testing laboratory or in a testing laboratory located in, and approved by, a country which is a contracting party. The validity of the test report for the reference appliance shall expire either at the end of the 36-month period following date of test, or at the end of manufacture of 1,000 units of identical mechanical refrigerating appliances, whichever occurs first. The identical appliances shall be appliances manufactured at the same mechanical refrigerating appliance manufacturing plant at which the reference appliance was manufactured.

(2) The original or certified copy of the report of test of the insulated body, or of the reference insulated body, in a U.S. ATP testing station or in a testing station located in, and approved by, a country which is a contracting party. The validity of the test report for the reference insulated body shall expire either at the end of the 36-month period following date of test, or at the end of manufacture of 1,000 serially-produced bodies, whichever occurs first. The serially-produced insulated bodies shall be bodies produced at the same body manufacturing plant at which the reference insulated body was manufactured.

(3) A statement from an officer in the organization of the equipment manufacturer giving the following information:

(i) Verification that:

(A) The mechanical refrigerating appliance installed in each unit of equipment is an identical mechanical refrigerating appliance with respect to the reference appliance.

(B) The insulated body of each unit of equipment meets the definition of serially-produced bodies.

(C) Each insulated body and each mechanical refrigerating appliance has a manufacturer's plate, or other means of affixing the information, showing the items of information required by ATP, Annex 1, paragraph 6.

(ii) Data for the reference insulated body, as follows:

(A) The value of the mean surface area, $S=\sqrt{S_i \times S_o}$, in square meters, where S_i is the total inside area, and S_o is the total outside surface area of the body.

(B) The value of the heat transfer coefficient, K, in watts per square meter of mean surface area, per degree centigrade difference in temperature between outside and inside the body.

(C) The total heat transfer rate of the body, $H=K\times S\times \Delta T$, in watts, where ΔT is the difference in temperature in degrees centigrade between the outside temperature (+30 °C), and the inside temperature for the class of equipment for which certification is sought, with class as defined in ATP, Annex 1, paragraph 3.

(D) The total heat transfer rate, multiplied by the factor of 1.75: $H_1=H\times 1.75$, in watts.

(iii) For the reference mechanical refrigerating appliance, the effective refrigerating capacity, W_o, in watts, at the outside temperature (+30 °C) and the inside temperature for the class of equipment for which certification is sought, with class as defined in ATP, Annex 1, paragraph 3.

§ 3300.70 Application for certificate for new equipment produced or assembled in a foreign country which is a contracting party to the ATP.

Application for certification of equipment shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of Form, Application for U.S. ATP Certificate for New Equipment Produced or Assembled in a Foreign Country which is a Contracting Party to the ATP, may be obtained from the ATP manager. The following information is requested in the application:

(a) A statement that the owner is a domestic owner, with address and telephone number of its principal office and the name and title of key person to contact.

(b) If different from the owner, the name, address, and telephone number of the operator of the equipment, and the name and title of key person to contact.

(c) The name, address, and telephone number of the equipment manufacturer, and the name and title of key person to contact.

(d) The type of equipment (intermodal freight container, trailer, semi-trailer, railcar, or truck).

(e) The total number of units of equipment.

(f) For each unit of equipment, the serial number of the body and the owners identification number for the equipment.

(g) The class of equipment and distinguishing mark for which certification is sought, referring to ATP, Annex 1, Appendix 4.

(h) The original, or certified copy, of the report of test of the equipment, or of the reference equipment.

(i) For mechanically refrigerated equipment of which the mechanical refrigerating appliance and the insulated body have been tested separately:

(1) The original, or certified copy, of the report of test of the mechanical refrigerating appliance, or of the reference mechanical refrigerating appliance.

(2) The original, or certified copy, of the report of test of the insulated body, or of the reference insulated body.

(j) Verification that each insulated body has a body manufacturer's plate, or other means of identification, affixed to the body which shows the items of information required by ATP, Annex 1, paragraph 6.

(k) The original of the foreign-ATP certificate issued for the equipment.

§ 3300.73 Issuance of certificate.

The ATP manager will evaluate documents received and, for equipment deemed qualified, will issue a U.S. ATP certificate to the applicant within 30 days of receipt of an application and any relevant information required. The certificate will be in the format prescribed in ATP, Annex 1, Appendix 3. For equipment deemed not qualified, the applicant will be advised of reasons for non-qualification within 30 days of receipt of an application and any relevant information required.

§ 3300.76 Period of validity of certificates.

In accordance with ATP, Annex 1, Appendix 1, paragraph 1(b), certificates issued for new equipment are valid for a period of 6 years from date of issue.

Subpart G—Certification of Equipment in Service

§ 3300.79 General.

Only domestic owners are eligible to receive U.S. ATP certificates for equipment in service.

(a) For equipment in service which has not previously been certified, the following will apply:

(1) A test of the equipment shall be done in a U.S. ATP testing station, to measure the K-coefficient of the insulated body and the efficiency of the thermal appliance in accordance with §§ 3300.10 and 3300.16, respectively, of this rule. It may be noted that, when testing the thermal appliance of equipment in service, a 35 percent additional heat load is not required as in the case of new equipment.

(2) If the equipment consists of serially-produced equipment manufactured by a particular equipment manufacturer, and belonging to one owner, then certification may be based upon performing both of the following:

(i) A test of 1 percent of the units of equipment as prescribed in preceding paragraph (a)(1) of this section.

(ii) An inspection by the owners of each unit of equipment, using the procedures set forth in ATP, Annex 1,

VOL 51 ISS 76 AP 21 1986 UMI

Appendix 2, paragraphs 29 and 49. A report of each inspection shall be completed on a form corresponding to the pertinent test report model in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.

(b) For renewal of a U.S. ATP certificate which is nearing its expiration date, the owner may obtain renewal of the certificate by any one of the following three procedures:

(1) A test of the equipment as prescribed in preceding paragraph (a)(1) of this section.

(2) If the equipment consists of serially-produced equipment manufactured by a particular equipment manufacturer and belonging to one owner, the procedure prescribed in preceeding paragraphs (a)(2) (i) and (ii) of this section.

(3) An inspection by the owner of each unit of equipment as prescribed in preceeding paragraph (a)(2)(ii) of this section.

(c) For equipment transferred from a foreign owner to a domestic owner, and certified according to a current foreign-ATP certificate, the domestic owner may obtain a U.S. ATP certificate in exchange for the foreign-ATP certificate.

§ 3300.82 Application for certificate.

Application for certification of equipment shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of Form, Application for U.S. ATP Certificate for Equipment in Service, may be obtained by request to the ATP manager. The following information is requested in the application.

(a) A statement that the owner is a domestic owner, the address and telephone number of its principal office, and the name and title of person to contact.

(b) If different from the owner, the name, address, and telephone number of the operator of the equipment, and the name and title of the person to contact.

(c) The type of equipment (intermodal freight container, trailer, semi-trailer, railcar, or truck).

(d) The total number of units of equipment.

(e) For each unit of equipment, the serial number of the body and the owner's identificaiton number for the equipment.

(f) The class of equipment and distinguishing mark for which certification is sought, referring to ATP, Annex 1, Appendix 4.

(g) One or more of the following, as required:

(1) An original or certified copy of test report(s).

(2) An original of inspection report for each unit of equipment.

(3) A certified copy of previously issued U.S. ATP certificate.

(4) An original of foreign-ATP certificate.

§ 3300.86 Issuance of certificate.

The ATP manager will evaluate documents received and, for equipment deemed qualified, will issue a U.S. ATP certificate to the applicant within 30 days of receipt of the application and any relevant information required. The certificate will be in the format prescribed in ATP, Annex 1, Appendix 3. For equipment deemed not qualified, the applicant will be advised of reasons for non-qualification within 30 days of receipt of an application and any relevant information required.

§ 3300.88 Period of validity of certificates.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1 (b) and (c), and Appendix 2, paragraphs 29 and 49, considered in combination, certificates will be valid for periods as follows:

(a) For equipment which passes a test in a U.S. ATP testing station, 6 years.

(b) For serially-produced equipment of which 1 percent have passed a test in a U.S. ATP testing station, and all units have been inspected by the owner and pass such inspection, 6 years.

(c) For equipment previously certified, and which has been inspected by the owner and passed such inspection, 3 years.

Subpart H—Other Provisions

§ 3300.91 Responsibilities of equipment manufacturers.

For new equipment which is to be certified under this rule, and in addition to any other responsibilities of manufacturers under this rule, the equipment manufacturer shall notify the ATP manager 30 days before start of manufacture so that the ATP manager or other representative of the Administrator may, if desired, observe the manufacturing operation.

§ 3300.94 Responsibilities of owners of equipment.

Owners who receive a U.S. ATP certificate for their equipment have the following responsibilities:

(a) To affix a certification plate to the equipment, as specified in ATP, Annex 1, paragraph 4.

(b) To affix a distinguishing mark to the equipment, as specified in ATP, Annex 1, paragraph 5.

(c) To maintain equipment in good repair and operating condition, with the understanding that the U.S ATP certificate is valid only so long as:

(1) The insulated body and the thermal appliance are maintained in good condition;

(2) No material alteration is made to the thermal appliance which decreases its refrigerating capacity, and;

(3) If the thermal appliance is replaced, it is replaced by an appliance of equal or greater refrigerating capacity.

§ 3300.97 Fees for U.S ATP certificates.

The fee schedule for issuance of U.S. ATP certificates by the USDA Office of Transportation will be calculated according to the criteria in Circular A-25, issued by the Office of Management and Budget. Fees may be revised as required on an annual basis.

§ 3300.100 List of approved testing stations, approved testing laboratories, and fees for certificates.

A current list of U.S ATP testing stations, U.S. ATP testing laboratories, and fees for issuance of U.S. ATP certificates by the United States Department of Agriculture, may be obtained by request to the ATP manager.

§ 3300.103 Appeals.

Any organization aggrieved by an action in connection wtih the rule may obtain a review of such action by submitting pertinent information by letter to the Administrator. The decision of the Administrator is final.

Dated: April 15, 1986.

Martin F. Fitzpatrick, Jr.,

Administrator, Office of Transportation, U.S. Department of Agriculture.

BILLING CODE 3410-02-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 86-AWP-2]

Proposed Alteration of Transition Area; Santa Maria, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the 700 foot transition area at Santa Maria, California, to provide additional controlled airspace for aircraft executing an instrument approach procedure to the Santa Maria, California, Public Airport utilizing the Santa Maria, California, VOR as a navigational aid.

DATES: Comments must be received on or before May 29, 1986.

ADDRESS: Send comments on the proposal in triplicate to: Federal Aviation Administration, Attn: Manager, Airspace Branch, AWP-530, Docket No. 86-AWP-2, Air Traffic Division, P.O. Box 92007, WWPC, Los Angeles, California 90009.

The official docket may be examined in the Office of the Regional Counsel, Western-Pacific Region, Federal Aviation Administration, Room 6W14, 15000 Aviation Boulevard, Lawndale, California.

An informal docket may also be examined during normal business hours at the Office of the Manager, Airspace Branch, Air Traffic Division, at the above address.

FOR FURTHER INFORMATION CONTACT: Frank T. Torikai, Airspace Specialist, Airspace Branch, AWP-520, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration (FAA), 15000 Aviation Boulevard, Lawndale, California 90260; telephone (213) 297-1649.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 86-AWP-2." The postcard will be date/time stamped and returned to the commenter. All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. All comments submitted will be available for examination in the Airspace Branch, Air Traffic Division, 15000 Aviation Boulevard, Lawndale, California 90260, both before and after the closing date for comments.

A report summarizing each substantive public contact with the FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Airspace Branch, AWP-520, P.O. Box 92007 WWPC, Los Angeles, California 90009. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to §71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the 700 foot transition area at Santa Maria, California. The alteration of the transition area at and above 700 feet above the ground will keep aircraft on instrument approach within airspace where air traffic control service is provided. The intended effect of this action is to ensure segregation of aircraft using the approach procedure under Instrument Flight Rules (IFR) and other aircraft operating under Visual Flight Rules (VFR). Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6B dated January 2, 1986.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

The Proposed Amendment

Part 71—[Amended]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Part 71—[Amended]

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. §71.181 is amended as follows:

Santa Maria, CA—[Revised]

That airspace extending upward from 700 feet above the surface beginning at lat. 34°45'00" N. long. 120°20'10" W.; to lat. 34°49'20" N., long. 120°28'00" W.; thence clockwise via the 5-mile radius of the Santa Maria Public Airport (lat. 34°53'56" N., long. 120°27'23" W.) to lat. 34°54'20"N., long. 120°32'30"W.; to lat. 34°54'04"N., long. 120°34'49" W.; to lat. 35°03'40" N., long. 120°41'41" W.; to lat. 35°07'47"N., long. 120°33'20"W.; to lat. 34°58'12"N., long. 120°26'20"W.; thence clockwise via the 5-mile radius of the Santa Maria Public Airport (lat. 34°53'56"N., long. 120°27'23"W.); to lat. 34°53'26"N., long. 120°21'10"W.; to lat. 34°48'50"N., long. 120°15'50"W.; to the point of beginning.

Issued in Los Angeles, California, on April 9, 1986.

Wayne C. Newcomb,

Manager, Air Traffic Division.

[FR Doc. 86-8607 Filed 4-18-86; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 86-AGL-12]

Proposed Alteration of Transition Area, New Ulm, MN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the New Ulm, Minnesota, transition area to accomodate two new NDB Standard Instrument Approach Procedures (SIAPs) at New Ulm Municipal Airport to serve Runways 15 and 33.

The intended effect of this action is to ensure segregation of the aircraft using approach procedures in instrument conditions from other aircraft operating under visual weather conditions in controlled airspace.

DATE: Comments must be received on or before May 23, 1986.

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

ADDRESS: Send comments on the proposal in triplicate to: Federal Aviation Administration, Regional Counsel, AGL-7, Attn: Rules Docket No. 86-AGL-12, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The official docket may be examined in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

An informal docket may also be examined during normal business hours at the Air Traffic Division, Airspace Branch, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

FOR FURTHER INFORMATION CONTACT: Edward R. Heaps, Air Traffic Division Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) 694-7360.

SUPPLEMENTARY INFORMATION: The present transition area is being expanded to accommodate two new SIAPs. The additional airspace designated for the NDB Runway 33 SIAP will be approximately a 2.5 miles extension from the 5 mile radius southeast of the airport with a width of 3 miles each side of the 162° bearing from the New Ulm NDB; and for the NDB Runway 15 SIAP approximately a 1 mile northeast width expansion to the existing extension northwest of New Ulm Municipal Airport.

The development of the procedures requires that the FAA alter the designated airspace to insure that the procedures will be contained within controlled airspace. The minimum descent altitudes for these procedures may be established below the floor of the 700-foot controlled airspace.

Aeronautical maps and charts will reflect the defined area which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 86-AGL-12". The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments recieved. All comments submitted will be available for examination in the Rule Docket, FAA, Great Lakes Region, Office of Regional Counsel, 2300 East Devon Avenue, Des Plaines, Illinois, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2, which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71-181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the designated transition area airspace near New Ulm, Minnesota.

Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6B date January 2, 1986.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

PART 71—[AMENDED]

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10654; 49 U.S.C. 108(g) (Revised Pub. 97-449, January 12, 1983); 14 CFR 1.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

New Ulm, MN—[Amended]

That airspace extending upward from 700 feet above the surface within a 5 mile radius of New Ulm Municipal Airport (Lat. 44°19'00" N., Long. 94°29'45" W.) Within 3 miles each side of the 315° bearing from New Ulm Municipal Airport, extending from the 5 mile radius area to 8 miles northwest of the airport: and 3 miles each side of the 162° from New Ulm Municipal Airport, extending from the 5 mile radius area to 7.5 miles southeast of the airport.

Issued in Des Plaines, Illinois, on April 8, 1986.

Teddy W. Burcham,

Manager, Air Traffic Division.

[FR Doc. 86-8806 Filed 4-18-86; 8:45 am]

BILLING CODE 4910-13-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 61

[AD-FRL-3005-1]

National Emission Standards for Hazardous Air Pollutants; Alternative Calibration Procedure to Test Method 107; Proposal of Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule and notice of public hearing.

SUMMARY: The purpose of this proposed rule is to revise certain equipment specifications and add an alternative calibration procedure in a method already published in 40 CFR Part 61.

A public hearing will be held, if requested, to provide interested persons an opportunity for oral presentation of data, views, or arguments concerning the proposed rule.

DATES: *Comments.* Comments must be received on or before July 27, 1986.

Public Hearing. If anyone contacts EPA requesting to speak at a public hearing by May 12, 1986, a public hearing will be held on June 5, 1986, beginning at 10:00 a.m. Persons interested in attending the hearing should call William Grimley at (919) 541-2237 to verify that a hearing will occur.

Request to Speak at Hearing. Persons wishing to present oral testimony must contact EPA by May 12, 1986.

ADDRESSES: *Comments.* Comments should be submitted (in duplicate if possible) to: Central Docket Section (LE-131), Attention: Docket Number A-85-29, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

Public Hearing. If anyone contacts EPA requesting to speak at a public hearing by May 12, 1986, the public hearing will be held at EPA's Office of Administration Auditorium, Research Triangle Park, North Carolina. Persons interested in attending the hearing or wishing to present oral testimony should notify William Grimley, Emission Measurement Branch (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone (919) 541-2237.

Docket. Docket No. A-85-29, containing materials relevant to this rulemaking, is available for public inspection and copying between 8:00 a.m. and 4:00 p.m., Monday through Friday, at EPA's Central Docket Section, West Tower Lobby, Gallery 1, Waterside Mall, 401 M Street, SW., Washington, DC 20460. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: William Grimley, Emission Measurement Branch, Emission Standards and Engineering Division (MD-19), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone (919) 541-2237.

SUPPLEMENTARY INFORMATION:

I. The Rulemaking

Method 107 was promulgated in the Federal Register on September 7, 1982 (47 FR 39168).

One intention of these proposed amendments is to facilitate calibration of the gas chromatograph by removing the requirement for a multipoint calibration during each 8-hour period of use, provided a calibration check that is made on that frequency is within certain tolerances.

The proposed amendments also provide for elimination of the sample prepressurization requirement, provided that the sample does not exceed a specified weight, or if solution of the prepressurization equation yields an absolute prepressurization value that is within 30 percent of the barometric pressure.

II. Administrative requirements

A. *Public Hearing*

A public hearing will be held, if requested, to discuss the proposed method revisions in accordance with Section 307(d)(5) of the Clean Air Act. Persons wishing to make oral presentations should contact EPA at the address given in the **ADDRESSES** section of this preamble. Oral presentations will be limited to 15 minutes each. Any member of the public may file a written statement with EPA before, during, or within 30 days after the hearing. Written statements should be addressed to the Central Docket Section address given in the **ADDRESSES** section of this preamble.

A verbatim transcript of the hearing and written statements will be available for public inspection and copying during normal working hours at EPA's Central Docket Section in Washington, DC (see **ADDRESSES** section of this preamble).

B. *Docket*

The docket is an organized and complete file of all the information submitted to or otherwise considered by EPA in the development of this proposed rulemaking. The principal purposes of the docket are: (1) To allow interested parties to identify and locate documents so that they can effectively participate in the rulemaking process and (2) to serve as the record in case of judicial review (except for interagency review materials [Section 307(d)(A)]).

C. *Office of Management and Budget Review*

Executive Order 12291 Review. Under Executive Order 12291, EPA must judge whether a regulation is "major" and, therefore, subject to the requirement of a regulatory impact analysis. This regulation is not major because it will not have an annual effect on the economy of $100 million or more; it will not result in a major increase in costs or prices; and there will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprise in domestic or export markets.

D. *Regulatory Flexibility Act Compliance*

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this attached rule, if promulgated, will have no economic impact on small entities because no additional costs will be incurred.

List of Subjects in 40 CFR Part 61

Air pollution control, Intergovernmental relations, Reporting and recordkeeping requirements, Incorporation by reference, Asbestos, Beryllium, Mercury, and Vinyl chloride.

Dated: April 4, 1986.

J. Craig Potter,

Assistant Administrator.

It is proposed to amend 40 CFR Part 61, Appendix B, Method 107 as follows:

PART 61—[AMENDED]

1. The authority citation for Part 61 continues to read as follows:

Authority: Sections 101, 112, 114, 116, 301(a) of the Clean Air Act, as amended (42 U.S.C. 7401, 7412, 7414, 7416, 7601).

2. By revising the first sentence of section 1.2 as follows:

The basis for this method relates to the vapor equilibrium that is established at a constant known temperature in a closed system between RVCM, PVC resin, water, and air.

3. By revising section 2 as follows:

2. *Range and Sensitivity.*

The lower limit of detection of vinyl chloride will vary according to the sampling and chromatographic system. The system should be capable of producing a measurement for a 50-ppm vinyl chloride standard that is at least 10 times the standard deviation of the system background noise level.

4. By revising section 6.1.2 as follows:

6.1.2 Glass Vials. Headspace vials, with Teflon-faced butyl rubber sealing discs, for water samples.

5. By revising section 6.2 as follows:

6.2 Sample Recovery. The following equipment is required:

6.2.1 Glass Vials. Headspace vials, with butyl rubber septa and aluminum caps. Silicone rubber is not acceptable.

6.2.2 Analytical Balance. Capable of determining sample weight with an accuracy of ±1 percent.

6.2.3 Vial Sealer. To seal headspace vials.

6.2.4 Syringe. 100-μl capacity.

6. By revising section 6.3.1 as follows:

6.3.1 Headspace Sampler and Chromatograph. Capable of sampling and analyzing a constant amount of headspace gas from a sealed vial while maintaining that

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

vial at a temperature of 90°C ± 0.5°C. The chromatograph shall be equipped with a flame ionization detector. Perkin-Elmer Corporation Models F-40, F-42, F-45, HS-6, and HS-100, and Hewlett-Packard Corporation Model 19395A have been found satisfactory. Chromatograph backflush capability may be required.

7. By revising section 6.3.3 as follows:

6.3.3 Thermometer. 0 to 100°C, accurate to ±0.1°C.

8. By removing sections 6.3.4, 6.3.5, 6.3.7, and 6.3.8.

9. By revising section 6.3.6 and redesignating it as section 6.3.4 as follows:

6.3.4 Integrator-Recorder. To record chromatograms.

10. By adding a new section 6.3.5 as follows:

6.3.5 Barometer. Accurate to ±1 mm Hg.

11. By redesignating section 6.3.9 as section 6.3.6.

12. By redesignating section 6.3.10 as section 6.3.7.

13. By revising section 7.1.2 as follows:

7.1.2 Nitrogen or Helium. Zero grade.

14. By adding section 7.1.4 as follows:

7.1.4 Water. Interference free.

15. By adding the following sentence to the end of section 8.1.1:

All samples should be kept refrigerated.

16. By removing the first sentence of section 8.1.2.

17. By revising the first two sentences of section 8.2.1 as follows:

The weight of the resin used must be between 0.1 and 4.5 grams. An exact weight must be obtained (±1 percent) for each sample.

18. By removing the work "distilled" from the fifth sentence of section 8.2.1.

19. By adding the following sentences at the end of section 8.2.1:

Prepressurization is not required if the sample weight, as analyzed, does not exceed 0.2 gram. It is also not required if solution of the prepressurization equation yields an absolute prepressurization value that is within 30 percent of the atmospheric pressure.

20. By revising the third and fourth sentences of section 8.2.2 as follows:

Then determine the ample weight (±1 percent). All samples, weighing over 0.2 gram, must be prepressurized prior to conditioning for 1 hour at 90°C, except as noted in section 8.2.1.

21. By revising the sixth and seventh sentences of section 8.2.3 as follows:

Determine sample weight (±1 percent). Condition the vial for 1 hour at 90°C in the analyzer bath.

22. By revising the third and fourth sentences of section 8.2.4 as follows:

Determine sample weight (±1 percent). Condition the vial for 1 hour at 90°C in the analyzer bath.

23. By removing the second sentence of section 8.3.3.

24. By revising the first paragraph of section 9 as follows:

Calibration is to be performed each 8-hour period the chromatograph is used. Alternatively, calibration with duplicate 50-, 500-, 2,000-, and 4,000-ppm standards (hereafter described as a four-point calibration) may be performed on a monthly basis provided that a calibration confirmation test consisting of duplicate analysis of an appropriate standard is performed once per plant shift or once per chromatograph carrousel operation (if the chromatograph operation is less frequent than once per shift). The criterion for acceptance of each calibration confirmation test is that both analyses of 500-ppm standards [2,000-ppm standards if dispersion resin (excluding latex resin) samples are being analyzed] must be within 5 percent of the most recent four-point calibration curve. If this criterion is not met, then a complete four-point calibration must be performed before sample analyses can proceed.

25. By adding the following sentence at the end of section 9.1:

Prepressurization of standards is not required unless samples have been prepressurized.

26. By revising the first sentence of section 9.2 as follows:

Prepare two vials each of 50-, 500-, 2,000- and 4,000-ppm standards.

27. By revising section 10.1 as follows:

10.1 Response Factor. If the calibration curve described in Section 9.2 passes through zero, an average response factor, R_f, may be used to facilitate computation of vinyl chloride sample concentrations. To complete R_f, first compute a response factor, R_s, for each sample as follows:

$$R_s = \frac{A_s}{C_s}$$

Sum the individual response factors, and calculate R_f. If the calibration curve does not pass through zero, use the calibration curve to determine each sample concentration.

28. By removing the following paragraph in section 10.2:

Assuming the following conditions are met, these values can be substituted into Equation 107-2:

P_s = 759 mm Hg.

V_s = Vial volume—sample volume (Fisher vials are 22.0 cm^3 and Perkin-Elmer vials are 21.8 cm^3).

T_1 = 23° C or 296° K.

T_2 = 90° C or 363° K.

29. By removing the last equation in section 10.2.

30. By revising the definition of the term V_s in section 10.2 as follows:

V_s = Volume of the vapor phase, cm^3.

$$= V_v - \frac{m(TS)}{1.36} - \frac{m(1-TS)}{0.9853}$$

31. By adding the following terms to the end of the terminology list in section 10.2:

V_v = Vial volume, cm^3

1.36 = Density of PVC at 90°C, g/cm^3

0.9853 = Density of water at 90° C, g/cm^3

32. By revising the title of section 11 as follows:

40 CFR Part 65

[CA-3-FRL-3005-4]

State and Federal Administrative Orders Permitting a Delay in Compliance With State Implementation Plan Requirements; Proposed Approval of an Administrative Order Issued by the Pennsylvania Department of Environmental Resources

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking; invitation for public comment.

SUMMARY: EPA has proposed to approve an Administrative Order issued by the Pennsylvania Department of Environmental Resources to Fisher Scientific Company. The Order requires the company to bring air emissions from its laboratory equipment manufacturing facilities located in Indiana Township, Indiana County, Pennsylvania into compliance with certain regulations contained in the federally approved Pennsylvania State Implementation Plan (SIP) for the control of ozone. Compliance shall be achieved by April 21, 1986 utilizing low solvent technology (LST) and April 27, 1987 should LST be abandoned and add-on controls installed or by reducing potential volatile organic compound emissions to less than 500 pounds per day and 50 tons per year. Because the Order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a Delayed Compliance Order pursuant to the Clean Air Act (the Act). If approved by EPA, the Order will constitute an addition to the SIP. In addition, a source in compliance with an approved Order may not be sued under the enforcement provisions of Section 113 of the Act or the citizen suit provisions of the Act for violation of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on EPA's proposed approval of the Order as a Delayed Compliance Order.

DATES: Written comments must be received on or before May 21, 1986.

ADDRESSES: Comments should be submitted to Director, Air Management Division, EPA Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. The State Order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at the EPA Region III address above during normal business, hours.

FOR FURTHER INFORMATION CONTACT: James B. Topsale, P.E., Environmental Engineer, Enforcement Policy and State Coordination Section, Air Management Division, U.S. EPA Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107, Telephone: (215) 597-8553.

SUPPLEMENTARY INFORMATION: Fisher Scientific Company operates a laboratory equipment manufacturing facility in Indiana Township, Indiana County, Pennsylvania. The Order under consideration addresses emissions from the extreme performance coating processes, which are subject to § 129.52, Table 1, Miscellaneous Metal Parts and Products, 10(f), of Title 25 of the Pennsylvania Code. According to DER's letters dated September 9, 1981 and October 30, 1985, Fisher Scientific Company is subject to the Miscellaneous Parts and Products, Extreme Performance Coatings Standard rather than the one for Metal Furniture Coatings. The reason for this classification by DER is that the coatings, which are used at the Indiana Facility for scientific apparatus, consist of epoxy-acrylic systems with corrosion inhibitors and that regular metal furniture is coated normally with all acrylic paints. Because all the laboratory metal furniture produced by Fisher Scientific Company is coated with an epoxy-acrylic coating system, PADER concludes that the facility operations should be classified under the Miscellaneous Metal Parts and Products standard rather than the one for Metal Furniture. The regulations limit the emissions of volatile organic compounds (VOC), and are part of the federally approved Pennsylvania State Implementation Plan for the control of ozone. The Order requires final compliance with the regulation by April 21, 1986 through the use of low solvent technology (LST) and April 21, 1987 should LST be abandoned and add-on controls installed or by reducing potential volatile organic compound emissions to less than 500 pounds per day and 50 tons per year. Section 129.52 does not apply to facilities whose surface coating processes in total have the potential to emit VOCs in quantities less than or equal to 500 pounds per day or 50 tons per year.

Because this Order has been issued to a major source of VOC emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a Delayed Compliance Order under Section 113(d) of the Clean Air Act (the Act). EPA has reviewed the Order and has found that the Order does satisfy the requirements of this subsection of the Act.

EPA's review indicates that the laboratory equipment manufacturing facility is a major source of VOC emissions. The facility is located in the Southwest Pennsylvania Intrastate Air Quality Control Region, a non-attainment area for the National Ambient Air Quality Standard for ozone. The facility as presently constructed is unable to comply with regulations limiting emissions of VOC's codified at § 129.52 Table 1, 10(f) of Title 25 of the Pennsylvania Code part of the federally-approved State Implementation Plan, because low solvent coatings are still being developed. Prior to issuance of the Order, Pennsylvania provided an opportunity for public comment and hearing on the Order. No public comments or requests for public hearing were received by the State. The Order contains requirements for expeditious increments of progress towards compliance and emission monitoring and reporting requirements and provides for interim emission reduction requirements as required by section 113(d)(6) of the Clean Air Act. These requirements are sufficient to avoid any imminent and substantial endangerment to health within the meaning of section 113(d)(7)(a) of the Clean Air Act. The first five increment(s) of progress, which require quarterly progress reports on the steps Fisher Scientific Company is taking to achieve compliance have been completed. The 1984 estimated VOC emissions of 97.7 tons/year (T/Y) will be reduced to 38.0 T/Y by April 21, 1986 if low solvent coatings are chosen, but in any event no later than April 21, 1987.

The system of emissions reduction required during the period covered by this Order is the best practicable system in light of the ultimate emission reductions required for compliance with the SIP. This interim system provides substantial emission reduction in a manner which permits the Company to move toward the use of either low solvent coatings or facility alterations to install add-on controls or by reducing potential volatile organic compound emissions to less than 500 pounds per day and 50 tons a year.

The Order requires the facility to comply with the State Implementation Plan whenever it is temporarily able to do so and the Order, therefore, meets the requirements of section 113(d)(7)(B). The Order notifies Fisher Scientific Company of its liability for noncompliance penalties under Section 120 of the Clean Air Act, 42 U.S.C. 7420 as required by § 113(d)(1)(E) of the Act.

If the Order is approved by EPA, source compliance with its terms would preclude Federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suit provision of the Act (section 304) would be similarly precluded.

If approved, the Order would also constitute an addition to the Pennsylvania SIP. However, source compliance with the Order will not preclude assessment of any penalties under section 120 of the Act, unless the source is otherwise entitled to an exemption under section 120(a)(2)(B) or (C).

All interested persons are invited to submit written comments on the proposed Order. Written comments received by the date specified above will be considered in determining whether EPA may approve the Order. After the public comment period, the Administrator of EPA will publish in the **Federal Register** the Agency's final action on the Order in 40 CFR Part 65.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of the Executive Order 12291.

(42 U.S.C. 7413, 7601)

Dated: April 9, 1986.

James M. Seif,

Regional Administrator, Region III.

BILLING CODE 6560-50-M

VOL 51 ISS 76 AP 21 1986 UMI

LEGAL SERVICES CORPORATION

45 CFR Part 1630

Cost Standards and Procedures

AGENCY: Legal Services Corporation.

ACTION: Proposed rule.

SUMMARY: The proposed rulemaking establishes a new Part 1630 prescribing standards and procedures for determining allowable cost for grants and contracts under section 1006 of the Legal Services Corporation Act (Act), and for recovering disallowed costs. The Corporation has relied on the standards and procedures contained in the Audit and Accounting Guide for Recipients and Auditors (Audit Guide), and LSC Instruction 83-6, of November 23, 1983, entitled "Standard Operating Procedure for Questioned Costs." The Audit Guide was published on November 29, 1985 [50 FR 49278]. These new standards and procedures are intended to give recipients clear and simple standards and procedures to know what costs are allowable, which costs require prior approval, how that approval is obtained, and how to obtain review of disallowed costs.

DATE: Comments must be received on or before May 21, 1986.

ADDRESS: Comments may be submitted to the Office of General Counsel, Legal Services Corporation, 400 Virginia Avenue SW., Washington, DC 20024-2751.

FOR FURTHER INFORMATION CONTACT: John H. Bayly, Jr. General Counsel, (202) 863-1820.

SUPPLEMENTARY INFORMATION: The Corporation has been working for some time through the "Audit and Appropriations" and "Operations and Regulations" Committees of the Board of Directors, and corporate staff, to improve accountability over the federal funds entrusted to the Corporation. The evident need for clear and concise standards, governing the determination of allowable costs to recipients for program funds and for the recovery of misspent tax dollars, became abundantly clear in the process of developing a comprehensive revision of the Audit Guide, and in the processing of allowable cost disputes. Proposed rules were issued for comment on August 29, 1985 [50 FR 35102] and several comments were received. Useful information was developed, and the programs had an opportunity to give their views. In the process of taking a wider look at sources, the Corporation is exploring the wealth of guidance and experience developed by the Federal executive agencies in their efforts to safeguard tax dollars and assimilated into the various circulars of the Office of Management and Budget (OMB). Circulars A-122, ("Cost principles for Non-profit Organization") and A-110 ("Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education Hospitals, and Other Non-profit Organization") were particularly instructive.

These proposed regulations follow the standards and policies of the Circulars to the extent practicable. We have not, however, rigidly followed the circulars for the sake of consistency or to avoid the work of making our own hard choices. These circulars are the product of many years of experience, much trial and error, and many separate voices. We would be short sighted not to use them to the extent possible. After all, their purpose, like ours, is to assure accountability for tax dollars.

The principal elements of the proposed rules are as follows

(1) Governing Standards: Sec. 1630.4 sets forth the applicable standards and criteria. Thus, costs must be actual and the recipient must be liable for payment, and costs must be reasonable and necessary, and in compliance with the Act, applicable appropriations acts, relevant rules and regulations, and the Audit Guide. They must also be consistent, uniformly applied, and in accord with generally accepted accounting principles. They cannot be used to match other federal dollars unless such use is legally permitted and they must be adequately documented.

Recipients must avail themselves of applicable credits, such as discounts, rebates, insurance refunds and recoveries. They must account for all program income, including attorneys' fees, and apply such income as a credit against the Corporation award. They may work out an advance understanding with the Corporation to avoid uncertainty about cost allowability.

(2) Unallowable Costs: Under §1630.5, unallowable costs are:

(a) Cost incurred in violation of statute, implementing rules and regulation, or the terms of the recipients award.

(b) Certain distant, out-of-state travel, without Corporation approval that is not closely related to the fundamental purpose of Corporation funding: Provision of direct legal services to eligible clients. Travel for lobbying (under the narrow exceptions permitted by Congress), training (often used in the past as a cover for political organizing), and other permitted non-litigation functions need to be held to a reasonable proportion of funding so that the resources of grantees may be concentrated on direct delivery of legal services to clients. The time limits for the Corporation to act on request for approval have been shortened for travel requests and the Corporation would expect to act promptly in all such requests and to average no more than a few working days and as promptly as necessary for written or oral requests that state a reasonable need for immediate action.

(3) Without prior approval, certain expenses connected with lobbying, legislative advocacy and formal rule making;

(4) The use of funds provided by the Corporation for the expenses of litigation against the Corporation. Although some have argued that Congress specifically intended to allow such use of funds appropriated for legal services to eligible clients, they have not provided references to the legislative history and we are not aware of any reason to believe that this was intended by Congress. It is, of course, our intent to conform as precisely as possible to Congressional intent. One obvious reason that litigation regarding denial of refunding has taken a long time to resolve even where the merits of the case are clear cut is that a recipient's management has no incentive to settle. Instead, recipients can litigate and simply reduce services to clients to cover the costs of complicating and delaying the inevitable. The provision is similar in intent to provisions in federal regulations concerning grants to non-profit organizations. *See* OMB Circular A-122, attachment B.34(d), 45 FR at 46031 (July 6, 1980). The Corporation is considering incorporating this and other relevant federal grant regulations into this regulation by reference except where they are inconsistent with specific laws relevant to the Corporation.

(5) Without prior approval, attorneys' fees in other cases involving recipients such as labor disputes.

(6) Without prior approval,

(a) leases and purchases in excess of $10,000 for single or combined purchases;

(b) purchases of real property; and

(c) certain consultant contracts in excess of $5000 or $261 per 8-hour day, or $35.00 per hour.

(3) *Burden of Proof:* The recipient has the burden of proof. Where it claims that funds were not subject to a restriction, it also has the burden of proof on that issue. Where a restriction applies to funds which are commingled, or where it applies to one of two or more funds for the same or similar payments, there is a rebuttable presumption that the restriction applies to all the funds.

Review and Appeal: Under § 1630.7 the Corporation may question a cost by notifying a recipient who may respond within 30 days. The Corporation has 45 days thereafter to make a decision. The recipient may appeal the decision to the President within 30 days, and the President then has 30 days to make a final decision on the record. Under § 1630.8, disallowed funds are recovered from future checks or by direct payment or otherwise. The Corporation is considering combining, shortening, and streamlining the procedures set forth in § 1630.7 and .8; the Corporation could provide a notice that provides the facts and reasons for questioning a cost, the recipient could make one response, and then one decision could be made.

Other Matters: The Corporation cannot claim lack of prior approval where it fails to act on time (§ 1630.6). It must require recipients to take corrective action to avoid recurrences and it may take other action under parts 1606, 1623 and 1625 for more serious financial irregularities (§ 1630.9). It may also make appropriate referrals such as to law enforcement agencies and bar associations. Recovery of a questioned cost is not to be construed as a termination or a denial of refunding under parts 1606 or 1625. Under § 1630.10, where expenditures under subgrants or subcontracts are disallowed, the subrecipient or subcontractor is jointly and severally responsible and subject to the same remedies as the recipients.

List of Subjects in 45 CFR Part 1630

Accounting, government contracts, grant programs, legal services.

For the reasons set out in the preamble, 45 CFR Chapter XVI is proposed to be amended by adding Part 1630 as follows:

PART 1630—COSTS STANDARDS AND PROCEDURES

Sec.

1630.1 Purpose.
1630.2 Definitions.
1630.3 Burden of proof presumption.
1630.4 Standards governing allowability of costs.
1630.5 Costs specifically unallowable.
1630.6 Effect of absence of prior approval.
1630.7 Review and appeal process.
1630.8 Recovery of disallowed costs.
1630.9 Other remedies, effect on other parts.
1630.10 Responsibility of Subgrantees and Subcontractors.
1630.11 Time.

Authority: Sec. 1006(b) (1), (2), (3) and (5), 1007(a) (3) and (9), 1007(d), 1008(e), 1010(c), and 1011 of the Legal Services Corporation Act, as amended (42 U.S.C. 2996e(b) (1), (2), (3) and (5), 2996f(a), (3) and (9), 2996f(d), 2996g(e), 2996i(c) and 2996j).

§ 1630.1 Purpose.

This part is intended to provide uniform standards for allowability of costs and to provide a comprehensive, fair, impartial, timely and flexible process for the resolution of questioned costs incurred by recipients of the Corporation. It is the intent of the Corporation to conform these requirements, where appropriate, to the policies developed over years of Federal experience with grants to nonprofit organizations.

§ 1630.2 Definitions.

(a) A "questioned cost" is a charge or proposed charge to a recipient's Corporation and non-public funds which could be determined to be ineligible.

(b) An "allowed cost" is a questioned cost that, after investigation, the Corporation has determined to be eligible for payment from a recipient's Corporation or non-public funds, or both.

(c) A "disallowed cost" is a cost which has been determined to be ineligible for payment from a recipient's Corporation or non-public funds, or both, including any income the recipient may have derived from the activities supported by that cost, including proceeds from the sale of assets purchased with those funds, and interest on those funds.

(d) "Recipient" as used in this part means any grantee or contractor receiving funds from the Corporation under §§ 1006(a)(1) or 1006(a)(3) of the Act.

§ 1630.3 Burden of proof presumption.

(a) The recipient shall at all times have the burden of proof under this Part.

(b)(1) If a recipient defends a questioned cost on the basis that the funds used were not subject to the restriction cited by the Corporation, the recipient has the burden of proof that the funds actually expended were not in fact subject to that restriction.

(2) Where a recipient or subrecipient has placed funds subject to a restriction contained in a federal statute, a Corporation rule, regulation, instruction or guideline, or in an award condition in the same account with funds not subject to such restriction, or where funds in separate accounts are controlled by the same person or are under common control, and from the time the recipient first placed funds subject to the restriction in one of the accounts, clear, objective, prior standards have not been followed consistently as to what expenses will be paid from which account, it will be a rebuttable presumption that the restriction applies to all the funds in the account or accounts.

§ 1630.4 Standards governing allowability of costs.

(a) *General Criteria.* Expenditures by a recipient are allowable under the recipient's award only if the recipient can demonstrate that the expenditure was:

(1) Actually incurred after the effective date of the award and the recipient was liable for payment;

(2) Reasonable and necessary for the provision of legal services for eligible clients or for the accomplishment of another function specially approved in the terms and conditions of the award;

(3) Allocable to such function(s);

(4) In compliance with the Act, applicable appropriation acts, Corporation regulations, guidelines and instructions, the LSC Audit and Accounting Guide for Recipients and Auditors, and the terms and conditions of its award;

(5) Consistent with policies and procedures that apply uniformly to both the Corporation financed and other activities of the recipient;

(6) Accorded consistent treatment;

(7) Determined in accordance with generally accepted accounting principles;

(8) Not included as a cost or used to meet cost sharing or matching requirements of any other Corporation or Federally financed program in either the current or a prior period, except as otherwise permitted by law; and

(9) Adequately and contemporaneously documented and the documentation was made available to the Corporation from normal business records without an opportunity for alteration;

(b) *Reasonable costs.* A cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs. The question of the reasonableness of specific costs must be scrutinized with particular care in connection with organizations or separate divisions thereof which receive the preponderance of their support from awards made by Corporation or Federal agencies. In determining the reasonableness of a given cost, consideration shall be given to:

VOL 51 ISS 76 APR 21 1986 UMI

(1) Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the organization or the performance of the award.

(2) The restraints or requirements imposed by such factors as generally accepted sound business practices, arms-length bargaining, Federal and State laws and regulations, and terms and conditions of the award.

(3) Whether the individuals concerned acted with prudence in the circumstances, considering their responsibilities to the organization, its members, employees, clients, the public at large, the Corporation, and the Federal Government.

(4) Significant deviations from the established practices of the organization which may unjustifiably increase the award costs.

(c) *Allocable costs.* (1) A cost is allocable to a particular cost objective, such as a grant, project, service, or other activity, in accordance with the relative benefits received. A cost is allocable to a Corporation award if it is treated consistently with other costs incurred for the same purpose in like circumstances and if it:

(i) Is incurred specifically for the award.

(ii) Benefits both the award and other work and can be distributed in reasonable proportion to the benefits received, or

(iii) Is necessary to the overall operation of the organization, although a direct relationship to any particular cost objective cannot be shown.

(2) Any cost allocable to a particular award or other cost objective under these principles may not be shifted to other Corporation or Federal awards to overcome funding deficiencies, or to avoid restrictions imposed by law or by the terms of the award.

(d) *Applicable credits.* (1) A recipient must deduct all applicable credits, as defined in paragraph (d)(2) of this section, from the costs it charges to an award from the Corporation.

(2) The term "applicable credits" refers to those receipts or reduction of expenditures which operate to offset or reduce expense items that are allocable to awards as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates or allowances, recoveries or indemnities on losses, insurance refunds, and adjustments of overpayments or erroneous charges. To the extent that such credits accruing or received by the recipient relate to allowable costs they shall be credited to the award either as a cost reduction or cash refund as appropriate.

(e) *Program income.* Program income represents gross income earned by the recipient from Corporation supported activities, and includes, but is not limited to, income from service fees (including attorneys' fees and costs), sales of commodities and property, and interest earned on grant or contract advances or other funds. All such program income received during the project period must be applied as a credit against grant or contract costs charged the Corporation.

(f) *Advance understandings.* Under any given award the reasonableness and allocability of certain items of costs may be difficult to determine. This is particularly true in connection with organizations that receive a preponderance of their support from LSC. In order to avoid subsequent disallowance or dispute based on unreasonableness or nonallocability, it is often desirable to seek a written agreement with the Office of Monitoring, Audit, and Compliance in advance of the incurrence of special or unusual costs. The absence of an advance agreement on any element of cost will not, in itself, affect the reasonableness or allocability of that element. Acceptance of the annual budget as part of the renewal of funding does not constitute an "advance understanding" or "approval" of an unallowable cost, unless the cost or expenditure is identified and specifications of the purpose, amount, and all other information necessary to evaluate the necessity and reasonableness of the cost are included and explicit approval of the specific transaction is included with approval of the grant application.

§ 1630.5 Costs specifically unallowable.

The following costs are specifically unallowable:

(a) A cost charged to Corporation funds in violation of the Act, other provisions of law, Corporation rules, regulations or guidelines, or the terms of a recipient's grant or contract agreement; or a cost charged to other non-public funds in violation of the Act or Part 1610 of these regulations;

(b) A cost charged to Corporation funds allocable to out-of-state travel beyond 150 miles from a recipient's office that is not on behalf of an eligible client for the purpose of conducting necessary legal investigation and discovery or for the purpose of appearing on behalf of an eligible client in a state or Federal court or before an administrative agency in an adjudicatory matter, without the prior approval of the Corporation. Normally, approval should be requested sufficiently far in advance to be received in writing, but verbal approval followed by a written request for confirmation is acceptable if there is a legitimate need for such travel on short notice;

(c) Without the prior written approval of the Corporation, the following expenditures, if incurred wholly or partially for the purpose of conducting, or supporting legislative advocacy, formal rulemaking or lobbying:

(1) Expense of office space separate from a recipient's principal office, except for branch offices used primarily for direct client service [the approval must be explicit and can be no more than 12 months prior to the payment];

(2) Travel expenditures over $100; and

(3) Conduct of or attendance at meetings and conferences.

(d) Cost of counsel to represent a recipient (1) in a matter in which the Corporation is an opposing party or has an opposing interest (but a recipient may use other non-public funds for payment of such fees), or (2) without prior approval, in other law suits or labor disputes to which recipient is a party.

(e) The following costs if incurred without the prior written approval of the Corporation:

(1) The cost of a lease or purchase of equipment, furniture, books or similar personal property if the single-item or combined purchase price is in excess of $10,000. In the case of a lease, the purchase price is determined by the prevailing market rate for a purchase of the property leased, not by the lease price. "Combined purchase price" means the total cost of all the components of a system, such as a computer or telephone system, in which the components are planned as integral parts of the system or lease process. The addition of books to an existing library purchased during a prior audit year, of new printers to an existing computer system purchased during a prior audit year, or of new furniture to office furniture purchased during a prior audit year would not require prior approval unless the additions had a combined purchase price in excess of $10,000. When purchases or leases are made for more than one office, the "combined purchase price" includes the cost of all new system components for all offices affected;

(2) Purchases of real property;

(3) Consultant contracts in excess of $5,000 or consultant fees in excess of $261 per eight-hour day or $36.00 per hour except that audit service shall not be considered as consultant services, but other services that may be provided by a recipient's auditor, such as the production of write-up costs or the preparation of interim financial reports shall be considered consultant services and shall require approval if the fees exceed the limits established by this part.

§ 1630.6 Effect of absence of prior approval

The Corporation may not assert the absence of its approval as a basis for disallowance of a cost, if it has not provided written notice to a recipient that it objects to a proposed cost expenditure involving Corporation or non-public funds, or a proposed action that could result in a cost expenditure that the recipient will charge to Corporation or non-public funds, within sixty (60) days (or fifteen (15) days of the request is for approval of travel) of the receipt by the Office of Monitoring, Audit, and Compliance, of a request for such approval, or within thirty (30) days of the receipt by that Office of all requested information about the proposal. The Corporation must make written request for additional information within 45 days of the receipt by the Office of Monitoring, Audit, and Compliance of the request for approval. This section does not apply to requests for approval made prior to the effective date of this regulation. If the request for prior approval is denied, the Corporation will provide the recipient with an explanation and statement of the grounds for denial.

§ 1630.7 Review and appeal process.

(a) When it questions a cost incurred by a recipient, the Corporation shall give written notice to the recipient and the Chairperson of its governing body stating the dollar amount of the cost and the reasons for questioning it. Such notice must be provided no more than 6 years after the recipient incurred the cost or expended the funds. To obtain relevant information while investigating a questioned cost, the Corporation may contact any party it deems necessary. If the recipient fails to respond within 30 days of its receipt of notice, the cost shall be disallowed.

(b) Within forty-five (45) days of receiving the recipient's written response to the notice of questioned cost, the Corporation shall issue a determination that the cost has been allowed or disallowed.

(c) Within thirty (30) days after it receives notice from the Corporation that a questioned cost has been disallowed, a recipient may file a written notice of appeal with the President of the Corporation, stating in detail its reasons for requesting review.

(d) Within thirty (30) days after receipt of the written notice of appeal, the President shall either adopt, modify, or reverse the decision of disallowing the cost. The decision shall be based on the written record, including the recipient's notice of appeal, and any response and analysis by Corporation staff. The decision of the President or his or her designee shall become final upon receipt by the recipient of written notice of the decision. The appeal shall be based on the written record, the recipient's notice of appeal, and any response and analysis by Corporation staff. The recipient shall be provided with a copy of the record if requested. The President shall have no prior involvement in the consideration of the particular questioned cost in issue. If the President has had such prior involvement, the President shall designate another executive employee who has no prior involvement to hear and decide the appeal.

§ 1630.8 Recovery of disallowed costs.

(a) Within thirty (30) days after receipt of notice from the Corporation that a questioned cost has been disallowed, the recipient may where it chooses not to protest the decision of the Corporation under § 1630.7 above, show in writing why the Corporation should not for equitable, practicable or other reasons, recover the amount of the disallowed cost. If the recipient fails to respond within the prescribed time, the Corporation shall recover in the form of a reduction in future grant checks or direct payment or othewise, an amount not to exceed the total disallowed cost and any additional income derived from activities supported or assets purchased by means of the disallowed cost. If the disallowed cost is a charge to non-LSC funds in violation of the LSC Act or Part 1610 of these regulations, the Corporation shall recover from the recipient's LSC funds an amount not to exceed the amount of the total disallowed cost and any additional income derived therefrom.

(b) If the recipient has demonstrated, pursuant to paragraph (a) of this section, that recovery of the funds as provided therein is inappropriate, the Corporation, within forty-five (45) days after it receives the recipient's written response, may:

(1) Recover less than the total amount of the disallowed cost through reduction of the amount of monthly grant checks; or

(2) Require the recipient to reimburse its LSC fund from another source or accept the recipient's demonstration that it has reimbursed its LSC fund from a funding source from which the original expenditure could have been made without a violation of Sec. 1010(c) of the Act (42 U.S.C. 2996i(c)) or Part 1610 of the regulations.

§ 1630.9 Other remedies, effect on other parts.

(a) In all cases in which a cost has been disallowed by the Corporation, the Corporation shall require that the recipient take the action needed to prevent the recurrence of the activity that gave rise to such disallowed costs. In cases of serious financial mismanagement, fraud or defalcation of funds, the Corporation shall take appropriate action pursuant to Parts 1606, 1623, and 1625 of its regulations and shall make such referrals and recommendations as the circumstances warrant.

(b) Recovery of questioned costs by any means under this part is not to be construed to affect permanently the annualized funding level of the recipient, or as a termination of financial assistance under Part 1606, a suspension of funding under Part 1623, or a denial of refunding under Part 1625.

§ 1630.10 Responsibility of Subgrantees and Subcontractors.

When disallowed costs arise from expenditures incurred under a subgrant or subcontract of LSC funds, the recipient and the subrecipient or subcontractor will be held jointly and severally responsible for the actions of the subrecipient or subcontractor, as provided in 45 CFR Part 1627, and will be subject to all remedies available under this Part.

§ 1630.11 Time.

(a) *Computation.* Time limits specified in this Part shall be computed in accordance with Rules 6 (a) and (e) of the Federal Rules of Civil Procedure.

(b) *Enlargement.* The President of the Corporation may, on written request for good cause shown, grant an enlargement of time and shall notify the recipient in writing.

Dated: April 17, 1986.

John H. Bayly, Jr.,

General Counsel.

BILLING CODE 6820-35-M

FEDERAL MARITIME COMMISSION

46 CFR Parts 580 and 581

[Docket No. 86-6]

Service Contracts

AGENCY: Federal Maritime Commission.

VOL 51 ISS 76 AP 21 1986 UMI

ACTION: Enlargement of time to comment.

SUMMARY: The Commission initiated this proposed rulemaking by Federal Register notice of February 10, 1986 (51 Fr 5734–5745), and established April 21, 1986, as the date comments were to be due. The National Industrial Transportation League (NITL) has now filed a request to extend the time for comments until May 9, 1986. NITL appears to take a position that because of the size of its membership and the "complexity and importance of the issues presented" in the rulemaking there has not been opportunity for a complete evaluation of the issues by NITL's members, and specifically, NITL's International Transportation Committee. While the 60 day period originally established for comments would appear to be adequate time to respond, the Commission also recognizes the particular significance of the proposed rules and is desirous of affording all interested persons a full opportunity to participate. Therefore, the request for an enlargement of time for filing of comments is granted and May 9, 1986, is established as the due date for comments in this rulemaking.

DATE: Comments due on or before May 9, 1986.

ADDRESS: Send comments (original and 20 copies) to: John Robert Ewers, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 (202) 523–5725.

FOR FURTHER INFORMATION CONTACT:

Robert D. Bourgoin, General Counsel, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 (202) 523–5740.

Robert G. Drew, Director, Bureau of Tariffs, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 (202) 523–5796.

SUPPLEMENTARY INFORMATION: None.

By the Commission.

Tony P. Kominoth,

Assistant Secretary.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 86–129; RM–5268]

FM Broadcast Station in Ozark, MO

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the allotment of FM Channel 225A to Ozark, Missouri, in response to a petition filed by Ozark Entertainment Network. This allotment could provide a first FM broadcast service for the community.

DATES: Comments must be filed on or before June 6, 1986, and reply comments on or before June 23, 1986.

ADDRESS: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations, (Ozark, Missouri); MM Docket No. 86–129, RM–5268.

Adopted: April 7, 1986.
Released: April 16, 1986.

By the Chief, Policy and Rules Division.

1. The Commission has before it a petition for rule making filed by Ozark Entertainment Network ("petitioner") requesting the allocation of FM Channel 238A [1] to Ozark, Missouri, as that community's first FM broadcast service. Petitioner submitted information in support of the proposal and stated its intention to file an application for the channel.

2. We believe the proposal warrants consideration. Channel 225A can be allocated in compliance with the minimum distance separation requirements provided there is a site restriction 7.2 kilometers (4.5 miles) north of the community. The site restriction will prevent a conflict with Channel 223, Station KSYN, Joplin, Missouri, and with a construction permit for Channel 226, Station KZLE, Batesville, Arkansas.

3. In view of the fact that the proposed allocation could provide a first FM broadcast service to Ozark, the Commission believes it is appropriate to propose amending the FM Table of Allotments, § 73.202(b) of the Commission's Rules, with respect to the following community:

City	Channel No.	
	Present	Proposed
Ozark, Missouri	———	225A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

5. Interested parties may file comments on or before June 6, 1986, and reply comments on or before June 23, 1986, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: Mark J. Langston, Ozark Entertainment Network, Post Office Box 10767, St. Louis, Missouri 63105–1287 (Partner, Ozark Entertainment Network).

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

7. For further information concerning this proceeding, contact Kathleen Scheuerle, Mass Media Bureau, (202) 634–6530. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making, other than comments officially filed at the Commission, or oral presentation required by the Commission. Any comment which has not been served on the petitioner constitutes an *ex parte* presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes and *ex parte* presentation and shall not be considered in the proceeding.

Federal Communications Commission.

Charles Schott,

Chief, Policy and Rules Division, Mass Media Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(c)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.61, 0.204(b), and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See §1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[MM Docket No. 86–130; RM–5216]

FM Broadcast Station in Vestal, NY

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the allocation of Channel 277A to Vestal, New York, as the community's first local FM service, at the request of David Mitchell.

DATES: Comments must be filed on or before June 6, 1986, and reply comments on or before June 23, 1986.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

The authority citation for Part 73 continues to read:

Authority: Secs. 4 and 303, 48 Stat. 1066, as amended, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1083, as amended, 47 U.S.C. 301, 303, 307. Other statutory and executive order provisions authorizing or interpreted or applied by specific sections are cited to text.

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations (Vestal, New York); MM Docket No. 86–130, RM–5216.

Adopted: April 7, 1986.
Released: April 15, 1986.

By the Chief, Policy and Rules Division.

1. The Commission has before it for consideration the petition for rule making submitted by David Mitchell ("petitioner") requesting the allocation of Channel 277A to Vestal, New York, as the community's first local FM service. Petitioner states that he will apply for the channel, if allocated.

2. Channel 277A can be allocated to Vestal in compliance with the Commission's minimum distance separation requirements if the transmitter is restricted to an area at least 5.6 kilometers (3.6 miles) southeast in order to avoid a short-spacing to Station WQNY, Channel 279, at Ithaca, New York. Additionally, Canadian concurrence is required since Vestal is located within 320 kilometers (200 miles) of the U.S.-Canada border.

3. We believe the public interest would be served by proposing to allocate Channel 277A to Vestal as its first local FM service. Accordingly, we propose to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules, for the community listed below, to read as follows:

City	Channel No.	
	Present	Proposed
Vestal, New York	———	277A

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

5. Interested parties may file comments on or before June 6, 1986, and reply comments on or before June 23, 1986, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: David Mitchell, 2700 Hall Street, Endwell, New York 13760.

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not

[1] Although the petitioner originally requested the allocation of Channel 238A to Ozark, Missouri, that channel would be short spaced to a pending proposal to allocate Channel 238C2 to Pleasant Hope, Missouri (BPH–5328). Therefore, we have substituted FM Channel 225A at Ozark.

VOL 51 ISS 76 AP 21 1986 UMI

apply to rule making proceedings to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

Appendix

1. Pursuant to authority found in sections 4(i), 5(c)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§0.61, 0.204(b) and 0.283 of the Commission's Rules, it is proposed to amend the FM Table of Allotments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied be a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Notice of Proposed Rule Making

In the Matter of Amendment of § 73.202(b), Table of Allotments, FM Broadcast Stations (Nowata, Oklahoma); MM Docket No. 86-131, RM-5225.

Adopted: April 7, 1986.
Released: April 15, 1986.
By the Chief, Policy and Rules Division.

1. The Commission has before it the petition for rule making submitted by Paul J. Campbell, ("petitioner") requesting the allocation of Channel 268A to Nowata, Oklahoma, as the community's second local FM service. Petitioner states that he will apply for the channel, if allocated. Channel 268A can be allocated to Nowata in compliance with the Commission's minimum distance separation and other technical requirements.

2. In view of the fact that the proposed allotment could provide a second FM service to Nowata, Oklahoma, the Commission believes it is appropriate to propose amending the FM Table of Allotments, § 73.202(b) of the Commission's Rules, with respect to the community listed below, to read as follows:

City	Channel No.	
	Present	Proposed
Nowata, Oklahoma	232A	232A and 268A

3. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

4. Interested parties may file comments on or before June 6, 1986, and reply comments on or before June 23, 1986, and are advised to read the Appendix for the proper procedures. Additionally, a copy of such comments should be served on the petitioners, or their counsel or consultant, as follows: Paul J. Campbell, 325 West Delaware Street, Nowata, Oklahoma 74048.

5. BILLING CODE 6712-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 228

Small Incidental Takes of Marine Mammals

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Notice of Receipt of Request for Rulemaking.

SUMMARY: The National Marine Fisheries Service (NMFS) has received a request from the National Ocean Industries Association to allow the continued taking of ringed seals incidental to seismic activities on the ice in the Beaufort Sea for an additional five-year period. Section 101(a)(5) of the Marine Mammal Protection Act of 1972 directs the Secretary of Commerce (Commerce or Interior depending on species involved) to allow the incidental take of small numbers of marine mammals if the Secretary makes certain findings and prescribes regulations relating to permissible methods and requirements for monitoring and reporting. Regulations that allowed a take from 1982 to 1986 were issued on May 18, 1982 and will expire December 31, 1986. NMFS is inviting information, suggestions, and comments on the structure and contents of the regulations

VOL 51 ISS 76 AP 21 1986 UMI

and whether it is appropriate to issue them.

DATE: Comments and information should be received by May 21, 1986.

ADDRESS: Assistant Administrator for Fisheries, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Washington, DC 20235.

FOR FURTHER INFORMATION CONTACT: Margaret Lorenz, Office of Protected Species and Habitat Conservation, National Marine Fisheries Service, Washington, DC 20235 (tel. 202/634-7529).

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1371 *et seq.*) directs the Secretary to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region. This permission may be granted for periods of five years or less. Such taking may be allowed only if the species involved is not depleted and if the Secretary, after notice and opportunity for public comment: (a) Finds that the total taking will have a negligible impact on the species, its habitat, and the availability of the species for subsistence uses, (b) prescribes regulations setting forth permissible methods adverse impact on the species and its habitat, paying particular attention to rookeries, mating grounds, and other areas of similar significance, and (c) prescribes regulations pertaining to the monitoring and reporting of such taking.

NMFS published regulations on May 18, 1982 (47 FR 21248), to implement section 101(a)(5) of the MMPA by establishing a mechanism for the submission and evaluation of requests and establishing requirements for specific regulations and Letters of Authorization to conduct allowed activities (50 CFR Part 228, Subpart A). At that time, specific regulations were published that govern the Taking of Ringed Seals Incidental to On-ice Seismic Activities (50 CFR 228, Subpart B). These regulations cover the specified activity and specified geographical region, effective dates, permissible methods, and requirements for monitoring and reporting.

Receipt of Request

NMFS has received a request from the National Ocean Industries Association (NOIA) to authorize a continued take of ringed seals incidental to on-ice seismic exploratory operations and associated activities in the Beaufort Sea. The request was made on behalf of the memberships of NOIA and the International Association of Geophysical Contractors. The period of time requested to be covered by the regulations is from 1987 through 1991. The specific activity involves collecting seismic reflection data on ice from portable camp facilities and, using primarily, vibrator-type energy source equipment. NOIA anticipates that the maximum amount of area covered over the Outer Continental Shelf area off the North Slope in Alaska in any given year would be 1,600 square miles. Generally, the dates that include safe ice conditions for exploration are from January 1 through May 31. The area in the Beaufort Sea ranges from Pt. Barrow east to Demarcation Point. Since the ringed seal (*Phoca hispida*) stays beneath the ice during winter months and pups are born there from late March through May, there is concern that female seals may react to the acoustic stimulus and abandon their pups before they are able to survive on their own.

The National Ocean Industries Association has complied with the information requirements of 50 CFR 228.4. Copies of the request and copies of the current regulations may be obtained from the Office of Protected Species and Habitat Conservation, National Marine Fisheries Service, Washington, DC 20235.

Information Solicited

NMFS invites interested persons to submit comments, information, and suggestions concerning the request and the appropriateness, structure and content of regulations to allow the taking. We will consider this information in developing, if appropriate, proposed regulations allowing, for five more years, the taking of ringed seals incidental to seismic operations on the ice in the Beaufort Sea.

Dated: April 15, 1986.

Richard B. Roe,

Director, Office of Fisheries Management, National Marine Fisheries Service.

Notices

Federal Register
Vol. 51, No. 76
Monday, April 21, 1986

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Food Safety and Inspection Service

[Docket No. 86-014N]

FY 1986 Limitations on Reimbursable Inspection Services

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice.

SUMMARY: The Food Safety and Inspection Service (FSIS) is advising that, due to budgetary constraints resulting from the Balanced Budget and Emergency Deficit Control Act of 1985 (Pub. L. 99-177; hereinafter the "Balanced Budget Act"), meat and poultry inspection services will be unavailable on Federal holidays for the remainder of FY 1986, and the availability of overtime inspection services will be limited. All FSIS employees will be on unpaid furloughs during holidays, and will not be available to provide inspection services on any basis on these days. These furloughs are necessary to keep FSIS within its FY 1986 budget, as modified by the 1986 sequestration of appropriated funds. Furthermore, overtime meat and poultry inspection services will be unavailable beginning on or about September 12, 1986, and continuing through the balance of FY 1986 ending September 30, 1986. Although FSIS is reimbursed for such services, the FY 1986 sequestration of funds under the Balanced Budget Act reduces the level of permitted Agency expenditures for reimbursable inspection services, as well as for services funded by appropriations.

FOR FURTHER INFORMATION CONTACT: Ronald J. Prucha, Deputy Administrator, Meat and Poultry Inspection Operations, (202) 447-8808, or Patricia Stolfa, Deputy Administrator, International Programs, (202) 447-3473, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC, 20250.

SUPPLEMENTARY INFORMATION: FSIS provides inspection services, without charge, to federally inspected meat and poultry establishments, importers, or exporters up to 8 consecutive hours per shift per day or up to 40 hours per administrative workweek (9 CFR 307.4(c) and 381.37(c)). Normally, if an establishment, importer, or exporter requests inspection services beyond an inspector's normal workday of 8 hours per day or normal workweek of 40 hours per week, FSIS assigns inspectors, if available, to provide such service and is reimbursed by the recipient (the management of an establishment, importer, or exporter) for the hours of overtime worked by those inspectors. Similarly, recipients are required to reimburse FSIS for any inspection services provided on Federal holidays (9 CFR 307.5 and 381.38).

A Presidential Order was issued on February 1, 1986, under the Balanced Budget Act, sequestering 4.3 percent of FSIS' budgetary resources effective March 1, 1986 (51 FR 4291). This sequestration reduced the level of permitted Agency expenditures for all inspection services, whether funded by appropriated funds or reimbursed by serviced establishments, importers, or exporters.

As a consequence, FSIS' appropriated funds were reduced by $15.6 million. However, on March 4, 1986, the President requested that Congress release an additional $5.7 million that had been appropriated but not requested under the initial budget. Furthermore, it is estimated that a reduction of approximately $6 million in expenditures for salaries and benefits will result from FSIS continuing its hiring freeze throughout FY 1986. Nonetheless, FSIS still faces a FY 1986 budget shortfall of approximately $3 million.

The only way that FSIS can reduce its expenditures by an additional $3 million is to reduce further its expenditures on personnel. Approximately 85 percent of the Agency's budget, about $650,000 per day, is spent on employee salaries and benefits. The remainder is spent on travel (primarily that directly related to providing inspection), office space, supplies, and related services (e.g., laboratory analyses). FSIS has already severely reduced expenditures on discretionary spending, and has achieved reductions in the need for inspectors through modifications of inspection procedures. FSIS has achieved such economies to the extent it can without jeopardizing the integrity of the meat and poultry inspection system.

In order to achieve the $3 million reduction in expenditures, therefore, all FSIS employees will be placed on unpaid furloughs for 3 days in FY 1986: May 26, July 4, and September 1. Furloughs coincide with Memorial Day, Independence Day and Labor Day—all Federal holidays—in order to minimize the potential disruption to the operations of official establishments subject to Federal inspection. No FSIS employees will be permitted to work during furloughs, even if an establishment wishes to reimburse the Agency for providing the service.

In FY 1985, FSIS received and disbursed approximately $39.1 million for reimbursable overtime and holiday inspection services. The FY 1986 estimated revenue level for reimbursable services is also $39.1 million. The sequestration of 4.3 percent during FY 1986, however, decreases the level of expenditures allowed for such services to $37.4 million, a $1.7 million reduction. This, in turn, reduces the amount of overtime and holiday inspection services available in FY 1986.

Therefore, FSIS will provide overtime services to requesting establishments, importers, and exporters on a reimbursable basis, subject to the availability of personnel, until total expenditures for such services in FY 1986 reach $37.4 million. Under current law, FSIS will not be able to provide any overtime services once the $37.4 million allocated for such services is exhausted, which, based on current usage of reimbursable services, is estimated to occur on or about September 12, 1986. A **Federal Register** notice will be issued in August 1986 setting the exact date that reimbursable services will be discontinued.

Done at Washington, DC, on: April 15, 1986.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

[FR Doc. 86-8672 Filed 4-18-86; 8:45 am]

BILLING CODE 3410-DM-M

VOL 51 ISS 76 AP 21 1986 UMI

Rural Electrification Administration

Clay Electric Cooperative, Inc.; Finding of No Significant Impact

AGENCY: Rural Electrification Administration, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Notice is hereby given that the Rural Electrification Administration (REA), pursuant to the National Environmental Policy Act of 1969, the Council on Environmental Quality Regulations (40 CFR Part 1500–1508) and REA's Environmental Policies and Procedures (7 CFR Part 1794), has made a Finding of No Significant Impact with respect to a proposed project by Clay Electric Cooperative, Inc. (Clay). The project consists of construction of a new operations center on approximately 3.2 hectares (8 acres), immediately southwest of an existing substation and headquarters complex on the northwestern edge of the City of Keystone Heights, Clay County, Florida.

FOR FURTHER INFORMATION CONTACT: REA's Finding of No Significant Impact and Environmental Assessment (EA) and Clay's Borrower's Environmental Report (BER) may be reviewed in the Office of the Chief, Distribution and Transmission Engineering Branch, Southeast Area-Electric, Room 0270, South Agriculture Building, REA, Washington, D.C. 20250, telephone (202) 382–8436, or at Clay's office (Mr. T.B. Millican, Manager), P.O. Box 308, Keystone Heights, Florida 32656, telephone (904) 473–4911.

SUPPLEMENTARY INFORMATION: REA has reviewed Clay's BER and has determined that it represents an accurate assessment of the environmental impacts of the proposed project. The proposed project will consist of approximately 3.2 hectares (8 acres), a two story concrete building, storm water retention pond, gas tanks, vehicle washing facilities, parking for 16 visitors vehicles, and employee parking for 80 cars and 32 trucks. REA determined that the proposed project is not likely to affect any threatened or endangered species or critical habitat; it will have no effect upon any property listed or eligible for listing in the National Register of Historic Places; it will not occur in a wetland or a 100-year floodplain; it is not a critical action facility; it will not convert any important farmland, prime forestland or prime rangelands to other uses; it will have no effect upon any river section in the Nationwide Inventory of Wild and Scenic Rivers; and it will not occur in a unit of the Coastal Barrier Resources System. It will directly affect the coastal zone since all of the State of Florida is considered to be in the coastal zone. But, it will be undertaken in a manner, consistent to the maximum extent practicable with the coastal zone management program administered by the State.

Alternatives to the proposed operations center were considered, such as no action, alternate sites and rental.

Based upon Clay's BER and supporting documents, REA prepared an EA concerning the proposed project and its impacts. In accordance with REA's Environmental Policies and Procedures 7 CFR Part 1794, Clay advertised and requested comments on the environmental aspects of the proposed project. No comments were received. REA concluded that approval of financing assistance for all or part of the project would not constitute a major Federal action significantly affecting the quality of the human environment. An environmental impact statement is not necessary. This program is listed in the Catalog of Federal Domestic Assistance as 10.850–Rural Electrification Loans and Loan Guarantees. For the reasons set forth in the final rule related Notice to 7 CFR Part 3015, Subpart V in 50 FR 47034, November 14, 1985, this program is excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with state and local officials.

Dated: April 15, 1986.

Jack Van Mark,

Acting Administrator.

BILLING CODE 3410–15–M

DEPARTMENT OF COMMERCE

National Bureau of Standards

[Docket No. 51211–6211]

Proposed Federal Information Processing Standards for Database Language NDL and Database Language SQL

AGENCY: National Bureau of Standards, Commerce.

ACTION: Notice of Two Proposed Federal Information Processing Standards.

SUMMARY: These proposed standards adopt voluntary industry standards, Database Language NDL and Database Language SQL, for Federal use. The standards are currently draft standards that are expected to be approved as American National Standards in early 1986.

Prior to the submission of these proposed standards to the Secretary of Commerce for review and approval as Federal Information Processing Standards (FIPS), it is essential to assure that consideration is given to the needs and views of manufacturers, the public, and State and local governments. The purpose of this notice is to solicit such views.

These proposed FIPS contain two sections: (1) An announcement section, which provides information concerning the applicability, implementation, and maintenance of the standards, is provided in its entirety in this notice; and (2) a specification portion which deals with the technical requirements of the standards. Interested parties may obtain a copy of the technical specifications from the Computer and Business Equipment Manufacturers Association (CBEMA), Attn: X3 Secretariat, 311 First Street, NW, Washington, DC 20001, (202) 737–8888.

DATE: To be considered, comments on these proposed FIPS must be received on or before July 21, 1986.

ADDRESS: Comments concerning the adoption of Database Language NDL and Database Language SQL as FIPS are invited and may be sent to Director, Institute for Computer Sciences and Technology, ATTN: Proposed FIPS for NDL/SQL, National Bureau of Standards, Technology Building, Room B154, Gaithersburg, MD 20899.

Written comments received in response to this notice will be made part of the public record and will be available for inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, Herbert C. Hoover, Building, 14th Street between Pennsylvania and Constitution Avenues, NW, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Ms. Joan Sullivan, Center for Programming Science and Technology, Institute for Computer Sciences and Technology, National Bureau of Standards, Gaithersburg, MD 20899, (301) 921–2431.

Dated: April 15, 1986.

Ernest Ambler,

Director.

Federal Information Processing Standards Publication_____

(Date)

Announcing the Standard for Database Language NDL

Federal Information Processing Standards Publications (FIP SPUBS) are issued by the National Bureau of Standards pursuant to section 111(f)(2)

of the Federal Property and Administrative Services Act of 1949, as amended, Pub. L. 89–306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973), and Part 6 of Title 15 Code of Federal Regulations (CFR).

1. *Name of Standard.* Database Language NDL (FIPS PUB _____).

2. *Category of Standard.* Software Standard, Database.

3. *Explanation.* This publication announces adoption of American National Standard Database Language NDL, ANSI X3.133–198x, as a Federal Information Processing Standard (FIPS). ANSI X3.133–198x specifies three languages that make up a network model database management system. They are:

a. A schema definition language, for declaring the structures and integrity constraints of a network structured database.

b. A subschema definition language, for declaring a user view of that database.

c. A module language, including NDL statements, for declaring the database procedures and executable statements of a specific database application.

The purpose of this standard is to promote portability of database definitions and database application programs between different installations. The standard is used by implementors as the reference authority in developing a network model database management system and standard language interfaces to that database management system; and by other computer professionals who need to know the precise syntactic and semantic rules of the standard.

4. *Approving Authority.* Secretary of Commerce.

5. *Maintenance Agency.* Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology).

6. *Cross Index.*

a. American National Standard Database Language NDL, ANSI X3.133–198x.

b. ISO 8907, Database Language NDL.

7. *Related Documents.*

a. Federal Information Resource Management Regulation 201–8.1, Federal ADP and Telecommunication Standards.

b. American National Standard Programming Language COBOL, X3.23–1985, Addendum _____, Database NDL Interface Module.

c. Federal Information Processing Standards Publication 110, Guideline for Choosing a Data Management Approach.

d. NBS Special Publication 500–115, Report on Approaches to Database Translation.

e. NBS Special Publication 500–106, Guide on Data Models in the Selection and Use of Database Management Systems.

8. *Objectives.* Federal standards for database management systems permit Federal departments and agencies to exercise more effective control over the production, management, and use of the Government's information resources. The primary objectives of Federal database management system standards are:

—to encourage more effective utilization and management of database application programmers by ensuring that skills acquired on one job are transportable to other jobs, thereby reducing the cost of database programmer retraining.

—to reduce the overall software costs by making it easier and less expensive to maintain database definitions and database application programs and to transfer these definitions and programs among different computers and database management systems, including replacement database management systems.

—to reduce the cost of software development by achieving increased database application programmer productivity through the understanding and use of database methods employing standard structures and operations, standard data types, standard constraints, and standard interfaces to programming languages.

—to protect the software assets of the Federal government by insuring to the maximal feasible extent that Federal database management system standards are technically sound and that subsequent revisions are compatible with the installed base.

Government-wide attainment of the above objectives depends upon the widespread availability and use of comprehensive and precise standard database management system specifications.

9. *Applicability.*

a. Federal standards for database management systems should be used for computer database applications and programs that are either developed or acquired for government use. The FIPS Database Language NDL (FIPS NDL) is one of the database management system standards provided for use by all Federal departments and agencies. The FIPS NDL is suited for use in database applications that employ the network data model. The network data model is appropriate for highly structured applications requiring rapid access along predefined paths. Although this standard does not specifically address distributed database applications, it may be used, along with facilities for distributed transaction processing, to access network structured data at remote nodes in a distributed system.

b. The use of FIPS database languages is strongly recommended for database applications when one or more of the following situations exist:

—It is anticipated that the life of the database application will be longer than the life of the presently utilized equipment or database management system, if any.

—The database application is under constant review for updating of the specifications, and changes may result frequently.

—The database application is being designed and developed centrally for a decentralized system that employs computers of different makes and models or database software acquired from a different vendor.

—The database application will or might be run on equipment other than that for which the database application is initially written.

—The database application is to be understood and maintained by programmers other than the original ones.

—The database application is or is likely to be used by organizations outside the Federal government [i.e., State and local governments, and others].

c. Nonstandard lanaguage features should be used only when the needed operation or function cannot reasonably be implemented with the standard features alone. A needed language feature not provided by the FIPS database languages should, to the extent possible, be acquired as part of an otherwise FIPS conforming database management system. Although nonstandard language features can be very useful, it should be recognized that their use may make the interchange of programs and future coversion to a revised standard or replacement database management system more difficult and costly.

d. It is recognized that programmatic requirements may be more economically and efficiently satisfied through the use of a database management system employing a different data model than those provided by the FIPS database languages or the use of a database management system that functionally conforms to a FIPS database language but does not conform to all other aspects of the FIPS. The use of any facility should be considered in the context of

VOL 51 ISS 76 AP 21 1986 UMI

system life, system cost, data integrity, and the protential for data sharing.

e. Programmatic requirements may be also more economically and efficiently satisfied by the use of automatic program generators. However, if the final output of a program generator is NDL database language, then the resulting language should conform to the conditions and specifications of FIPS NDL.

10. *Specifications.* The specifications for FIPS NDL are the Level 2 language specifications of the schema definition language, the subschema definition lanaguage, and the module language (including NDL statements) contained in American National Standard Database Language NDL, ANSI X3.133–198x.

ANSI X3.133–198x defines the scope of the specifications of (Paragraph 1.1, ANSI X3.133–198x), the syntax and semantics of NDL language (Paragraphs 2.0 through 10.0, ANSI X3.133–198x), and requirements for a conforming implementation (Paragraph 1.7, ANSI X3.133–198x). All of the specifications of ANSI X3.133–198x apply to FIPS NDL, with two exceptions. The first exception is that FIPS NDL requires an implementation conforming to FIPS NDL to support the identical syntax and functional requirements of ANSI X3.133–198x; e.g., FIPS NDL does not allow a claim of "functional conformance only" (as defined in Paragraphs 1.7.5 and 1.7.6 of ANSI X3.133–198x). The second exception is that FIPS NDL does not include module language for programming language PL/I.

In addition, a facility must be available in the implementation for the user to optionally specify monitoring of NDL (comprised of schema definition, subschema definition, and module language). The monitoring is an analysis of the NDL syntax used against the syntax specified by FIPS NDL. The implementation will diagnose and identify to the user, in an implementator-defined manner, the following:

—Any NDL syntax that does not conform to that included in FIPS NDL.
—Any NDL syntax conforming to FIPS NDL that, based on a user option (see Paragraph 1.7.2 of ANSI X3.133–198x), may be processed in a non-conforming manner. This monitoring will be based on the analysis of the NDL syntax and the invocation of the user option selecting the non-conforming functions. It is not intended that an analysis be made at processing time.

The standard does not specify the following:

—Concurrent access to the database by multiple users or processes.
—The limits on the number or sizes of database constructs; e.g., subschemas, record, sets, components, boolocean expressions, etc.
—Application pre-processing facilities for producing separate standard database modules and standard language programs.
—A distributed database facility.

11. *Implementation.* The implementation of this standard involves three areas of consideration: acquisition of NDL implementations, interpretation of FIPS NDL, and validation of NDL implementations.

11.1 *Acquisition of NDL Implementations.*

a. This publication is effective (six months after date of announcement of this standard in the Federal Register). Network model database management systems acquired for Federal use after this date should implement FIPS NDL (which includes the schema, subschema, and module languages). Conformance to FIPS NDL should be considered whether NDL implementations are developed internally, acquired as part of an ADP system procurement, acquired by separate procurement, used under an ADP leasing arrangement, or specified for use in contracts for programming services.

A transition period provides time for industry to produce database management systems conforming to this standard. The transition period begins on the effective date and continues for one (1) year thereafter. The provisions of this publication apply to orders placed after the effective date; however, an NDL implementation conforming to FIPS NDL, if available, may be acquired for use prior to the effective date.

ANSI X3.133–198x specifies two levels of conformance. Level 1 has been defined to facilitate conformance of extant implementations. Although conformance to Level 1 of ANSI X3.133–198x is not sufficient to claim conformance to FIPS NDL, Level 1 implementations may be available during the transition period. An NDL Level 1 implementation may be acquired for interim use during the transition period if a FIPS NDL implementation is not available.

b. Database software is normally purchased as a complete package called a database management system (DBMS). A DBMS is an implementation of one or more data models (e.g., the network model or the relational model). In addition, a DBMS usually provides additional facilities and data interfaces independent of the interfaces specified by the standard. These may include access control, loading and unloading, dynamic schema manipulation, data dictionary, application program preprocessing, data storage specification, natural language query, report generator, or graphics display. A DBMS may also provide additional data structures, such as indices, or software, such as query optimizers, to enhance performance. User requirements for performance or for additional data administration facilities should be specified explicitly.

c. For a wide variety of new applications, either a network model or a relational model DBMS would satisfy user requirements for database services. A procurement may specify that the DBMS must provide interfaces conforming to one of the FIPS database language standards, but leave the selection of the specific standard to the vendor. This approach would be appropriate in the procurement of a DBMS-based application or a turnkey system, or in the procurement of a system where the choice of a data model is less significant than other factors.

11.2 *Interpretation of FIPS NDL.* NBS provides for the resolution of questions regarding FIPS NDL specifications and requirements, and issues official interpretations as needed. All questions about the interpretation of FIPS NDL should be addressed to: Director, Institute for Computer Sciences and Technology, Attn: Database Language NDL Interpretation, National Bureau of Standards, Gaithersburg, MD 20899.

11.3 *Validation of NDL Implementations.* A suite of automated validation tests for NDL implementations is currently under development. The suite will be made available when it is completed. For more information on NDL validation tests, contact: Director, Institute for Computer Sciences and Technology, Attn: Software Standards Testing Program, National Bureau of Standards, Gaithersburg, MD 20899.

12. *Waivers.* Under certain exceptional circumstances, the head of the agency is authorized to waive the application of the provisions of this FIPS PUB. Exceptional circumstances which would warrant a waiver are:

a. Significant, continuing cost or efficiency disadvantages will be encountered by the use of this standard and,

b. The interchange of information between the system for which the waiver is sought and other systems is not anticipated.

Agency heads may act only upon written waiver requests containing the information detailed above. Agency heads may approve requests for waivers only by a written decision which explains the basis upon which the agency head made the required finding(s). A copy of each such decision, with procurement sensitive or classified portions clearly identified, shall be sent to the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Gaithersburg, Maryland 20899.

When the determination on a waiver request applies to the procurement of equipment and/or services, a notice of the waiver determination must be published in the *Commerce Business Daily* as a part of the notice of solicitation for offers on an acquisition or, if the waiver determination is made after that notice is published, by amendment to such notice.

A copy of the waiver request, any supporting documents, the document approving the waiver request and any supporting and accompanying document(s), with such deletions as the agency is authorized and decides to make under 5 U.S.C. 552(b), shall be part of the procurement documentation and retained by the agency.

13. *Where to Obtain Copies.* Copies of this publication are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. (Sale of the included specification document is by arrangement with the American National Standards Institute.) When ordering, refer to Federal Information Processing Standards Publication _____ (FIPSPUB _____), and title. Payment may be made by check, money order, or deposit account.

Federal Information Processing Standards Publication _____

(Date)

Announcing the Standard for Database Language SQL

Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Bureau of Standards pursuant to section 111(f)(2) of the Federal Property and Administrative Services Act of 1949, as amended, Pub. L. 89-306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973), and Part 6 of Title 15 Code of Federal Regulations (CFR).

1. *Name of Standard.* Database Language SQL (FIPS PUB _____).

2. *Category of Standard.* Software Standard, Database.

3. *Explanation.* This publication announces adoption of American National Standard Database Language SQL, ANSI X3.135–198x, as a Federal Information Processing Standard (FIPS). ANSIX3.135–198x specifies two languages that make up a relational model database management system. They are:

a. A schema definition language, for declaring the structures and integrity constraints of a database.

b. A module language, including SQL statements, for declaring the database procedures and executable statements of a specific database application.

The purpose of the standard is to promote portability of database application programs between different installations. The standard is used by implementators as the reference authority in developing a relational model database management system and standard language interfaces to that database management system; and by other computer professionals who need to know the precise syntactic and semantic rules of the standard.

4. *Approving Authority.* Secretary of Commerce.

5. *Maintenance Agency.* Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology.)

6. *Cross Index.*

a. American National Standard Database Language SQL, ANSI X3.135–198x.

b. ISO 9075, Database Language SQL.

7. *Related Documents.*

a. Federal Information Resource Management Regulation 201–8.1, Federal ADP and telecommunication Standards.

b. Federal Information Processing Standards Publication 110, Guideline for Choosing a Data Management Approach.

c. NBS Special Publication 500–115, Report on Approaches to Database Translation.

d. NBS Special Publication 500–108, Guide on Data Models in the Selection and Use of Database Management Systems.

8. *Objectives.* Federal standards for database management systems permit Federal departments and agencies to exercise more effective control over the production, management, and use of the Government's information resources. The primary objectives of Federal database management system standards are:

—to encourage more effective utilization and management of database application programmers by ensuring that skills acquired on one job are transportable to other jobs, thereby reducing the cost of database programmer retraining.
—to reduce the overall software costs by making it easier and less expensive to maintain database definitions and database application programs and to transfer these definitions and programs among different computers and management systems.
—to reduce the cost of software development by achieving increased database application programmer productivity through the understanding and use of database methods employing standard structures and operations, standard data types, standard constraints, and standard interfaces to programming languages.
—to protect the software assets of the Federal government by insuring to the maximal feasible extent that Federal database management system standards are technically sound and that subsequent revisions are compatible with the installed base.

Government-wide attainment of the above objectives depends upon the widespread availability and use of comprehensive and precise standard database management system specifications.

9. *Applicability.*

a. Federal standards for database management systems should be used for computer database applications and programs that are either developed or acquired for government use. The FIPS Database Language SQL (FIPS SQL) is one of the database management system standards provided for use by all Federal departments and agencies. The FIPS SQL is suited for use in database applications that employ the relational data model. The relational data model is appropriate for applications requiring flexibility in the data structures and access paths of the database. The relational data is desirable where there is a substantial need for ad hoc data manipulation by end users who are not computer professionals, in addition to the need for access by applications under production control. Although this standard does not specifically address distributed database applications, it may be used, along with facilities for distributed transaction processing, to access relational structured data at remote nodes in a distributed system.

b. The use of FIPS database languages is strongly recommended for database applications when one or more of the following situations exist:

—It is anticipated that the life of the database application will be longer than the life of the presently utilized equipment or database management system, if any.
—The database application is under constant review for updating of the specifications, and changes may result frequently.

VOL 51 ISS 76 APR 21 1986 UMI

—This database application is being designed and developed centrally for a decentralized system that employs computers of different makes and models or database software acquired from a different vendor.
—The database application will or might be run on equipment other than that for which the database application is initially written.
—The database application is to be understood and maintained by programmers other than the original ones.
—The database application is or is likely to be used by organizations outside the Federal government (i.e., State and local governments, and others).

c. Nonstandard language features should be used only when the needed operation or function cannot reasonably be implemented with the standard features alone. A needed language feature not provided by the FIPS database languages should, to the extent possible, be acquired as part of an otherwise FIPS conforming database management system. Although nonstandard language features can be very useful, it should be recognized that their use may make the interchange of programs and future conversion to a revised standard or replacement database management system more difficult and costly.

d. It is recognized that progammatic requirements may be more economically and efficiently satisfied through the use of a database management system employing a different data model than those provided by the FIPS database languages or the use of a database management system that functionally conforms to a FIPS database language but does not conform to all other aspects of the FIPS. The use of any facility should be considered in the context of system life, system cost, data integrity, and the potential for data sharing.

e. Programmatic requirements may be also more economically and efficiently satisfied by the use of automatic program generators. However, if the final output of a program generator is SQL database language, then the resulting language should conform to the conditions and specifications of FIPS SQL.

10. *Specifications.* The specifications for FIPS SQL are the Level 2 language specifications of the schema definition language and the module language (including SQL statements) contained in American National Standard Database Language SQL, ANSI X3.135–198x.

ANSI X3.135–198x defines the scope of the specification (Paragraph 1.1, ANSI X3.135–198x) and the syntax and semantics of SQL language (Paragraphs 2.0 through 6.12, ANSI X3.135–198x). All of these specifications apply to FIPS SQL, with two exceptions. Paragraphs 1.7.2 through 1.7.4 and Paragraph 1.7.8, dealing with conformance, are excluded from FIPS SQL. Also, FIPS SQL does not include module language for programming language PL/I.

In addition, a facility must be available in the implementation for the user to optionally specify monitoring of SQL (comprised of schema definition and moduel language). The monitoring is an analysis of SQL syntax used against the syntax specified by FIPS SQL. The implementation will diagnose and identify to the user, in an implementor-defined manner, the following:

—Any SQL syntax that does not conform to that included in FIPS SQL.
—Any SQL syntax conforming to FIPS SQL that, based on a user option (see Paragraph 1.7.5 of ANSI X3.135–198x), may be processed in a non-conforming manner. This monitoring will be based on the analysis of the SQL syntax and the invocation of the user option selecting the non-conforming functions. It is not intended that an analysis be made at processing time.

The standard does not specify the following:

—Concurrent access to the database by multiple users or processes.
—The limits on the number or sizes of database constructs; e.g. columns, rows, tables, views, sub-queries, boolean expressions, etc.
—Application pre-processing facilities for producing separate standard database modules and standard language programs.
—A distributed database facility.

—11. *Implementation.* The implementation of this standard involves three areas of consideration: acquisition of SQL implementations, interpretation of FIPS SQL, and validation of SQL implementations.

11.1 *Acquisition of SQL Implementations.*

a. This publication is effective (six months after date of announcement of this standard in the **Federal Register**). Relational model database management systems acquired for Federal use after this date should implement FIPS SQL (which includes the schema and module languages). Conformance to FIPS SQL should be considered whether SQL implementations are developed internally, acquired as part of an ADP system procurement, acquired by separate procurement, used under an ADP leasing arrangement, or specified for use in contracts for programming services.

A transition period provides time for industry to produce database management systems conforming to this standard. The transition period begins on the effective date and continues for one (1) year thereafter. The provisions of this publication apply to orders placed after the effective date; however, an SQL implementation conforming to FIPS SQL, if available, may be acquired for use prior to the effective date.

ANSI X3.135–198x specifies two levels of conformance. Level 1 has been defined to facilitate conformance of extant implementations. Although conformance to Level 1 of ANSI X3.135–198x is not sufficient to claim conformance to FIPS SQL, Level 1 implementations are expected to be available during the transition period. A full SQL Level 1 implementation may be acquired for interim use during the transition period if a FIPS SQL implementation is not available.

b. Database software is normally purchased as a complete package called a database management system (DBMS). A DBMS is an implementation of one or more data models (e.g. the network model or the relational model). In addition, a DBMS usually provides additional facilities and data interfaces independent of the interfaces specified by the standard. These may include access control, loading and unloading, dynamic schema manipulation, data dictionary, application program pre-processing, data storage specification, natural language query, report generator, or graphics display. A DBMS may also provide additional data structures, such as indices, or software, such as query optimizers, to enhance performance. User requirements for performance or for additional data administration facilities should be specified explicitly.

c. For a wide variety of new applications, either a network model or a relational model DBMS would satisfy user requirements for database services. A procurement may specify that the DBMS must provide interfaces conforming to one of the FIPS database language standards, but leave the selection of the specific standard to the vendor. This approach would be appropriate in the procurement of a DBMS-based application or a turnkey system, or in the procurement of a system where the choice of a data model is less significant than other factors.

11.2 *Interpretation of FIPS SQL.* NBS provides for the resolution of questions regarding FIPS SQL specifications and requirements, and issues official interpretations as needed. All questions about the interpretation of FIPS SQL should be addressed to: Director, Institute for Computer Sciences and Technology, Attn: Database Language SQL Interpretation, National Bureau of Standards, Gaithersburg, MD 20899.

11.3 *Validation of SQL Implementations.* A suite of automated validation tests for SQL implementations is currently under development. The suite will be made available when it is completed. For more information on SQL validation tests, contact: Director, Institute for Computer Sciences and Technology, Attn: Software Standards Testing Program, National Bureau of Standards, Gaithersburg, MD 20899.

12. *Waivers.* Under certain exceptional circumstances, the head of the agency is authorized to waive the application of the provisions of this FIPS PUB. Exceptional circumstances which would warrant a waiver are:

a. Significant, continuing cost or efficiency disadvantages will be encountered by the use of this standard and,

b. The interchange of information between the system for which the waiver is sought and other systems is not anticipated. Agency heads may act only upon written waiver requests containing the information detailed above. Agency heads may approve requests for waivers only by a written decision which explains the basis upon which the agency head made the required finding(s). A copy of each such decision, with procurement sensitive or classified portions clearly identified, shall be sent to the Director, Institute for Computer Sciences and Technology, National Bureau of Standards, Gaithersburg, Maryland 20899.

When the determination on a waiver request applies to the procurement of equipment and/or services, a notice of the waiver determination must be published in the *Commerce Business Daily* as a part of the notice of solicitation for offers on an acquisition or, if the waiver determination is made after that notice is published, by amendment to such notice.

A copy of the waiver request, any supporting documents, the document approving the waiver request and any supporting and accompanying document(s), with such deletions as the agency is authorized and decides to make under 5 U.S.C. Sec. 552(b), shall be part of the procurement documentation and retained by the agency.

13. *Where to Obtain Copies.* Copies of this publication are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. (Sale of the included specification document is by arrangement with the American National Standards Institute.) When ordering, refer to Federal Information Processing Standards Publication _____ (FIPSPUB _____), and title. Payment may be made by check, money order, or deposit account.

BILLING CODE 3510-CN-M

National Oceanic and Atmospheric Administration

Marine Fisheries Advisory Committee; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

Time and Date: The meeting will convene May 12, 1986, at 1:00 p.m. and adjourn at approximately 4:00 p.m., May 14.

Place: Holiday Inn-Brickell Point, 495 Brickell Avenue, Miami, Florida.

Status: As required by section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1982), notice is hereby given of a meeting of the Marine Fisheries Advisory Committee (MAFAC). MAFAC was established by the Secretary of Commerce on February 17, 1971, to advise the Secretary on all living marine resource matters which are the responsibility of the Department of Commerce. This Committee ensures that the living marine resource policies and programs of this Nation are adequate to meet the needs of commercial and recreational fishermen, environmental, state, consumer, academia, and other national interests.

May 12, 1986, 10:00 a.m., Marine Recreational Fisheries Subcommittee meeting.

May 12, 1986, 1:00–5:00 p.m., Fisheries Management Issues.

May 13, 1986, 8:30–11:30 a.m., Marine Recreational Fisheries Issues; 1:00–5:00 p.m., Fisheries Budget Issues.

May 14, 1986, 8:30–10:00 a.m., Seafood Inspection; 10:00–11:30 a.m., Non-tariff Trade Barriers; 1:00–2:00 p.m., Habitat Initiatives; 2:00–3:30 p.m., Executive Session.

FOR FURTHER INFORMATION CONTACT: Ann Smith, Executive Secretary, Marine Fisheries Advisory Committee, National Oceanic and Atmospheric Administration, Washington, DC 20235. Telephone: (202) 634–9563.

Dated: April 15, 1986.

James E. Douglas, Jr.,
Deputy Assistant Administrator, NMFS.

BILLING CODE 3510-08-M

Marine Mammals: Permit Modification; Oregon Department of Fish & Wildlife; Modification No. 1 to Permit No. 499

Notice is hereby given that pursuant to the provisions of § 216.33(d) and (e) of the Regulations Governing the Taking and Importing Marine Mammals (50 CFR Part 216), scientific research Permit No. 499 issued to the Oregon Department of Fish and Wildlife, Marine Region, Marine Science Drive, Bldg. 3, Newport, Oregon 97365.

Section A–4 is added:

"4. The following may be taken by hot-branding:

a. Up to two hundred (200) harbor seals (*Phoca vitulina*) per year;

b. Up to one hundred (100) northern sea lions (*Eumetopias jubatus*) per year."

Section B–5 is deleted and replaced by:

"5. The Holder shall submit an annual report by December 31 of each year the Permit is in effect. This report shall contain a request for authorization to continue the research in the next year and should describe the previous year's activities, including the number of animals taken in each category of take conducted during the field season, any problems which may have arisen during the authorized activities, the reactions of nearby animals, detailed information on the conduct of the animals of the hot-branding experiments and their effects, and a statement as to whether or not the permitted activities had any unforeseen effects. The Assistant Administrator for Fisheries, in consultation with the Marine Mammal Commission, shall determine if granting the authorization for continued taking is appropriate based on a review of this report."

Section B–9 is added:

"9. The Holder shall keep a detailed record of the branding of each animal and monitor the branded individuals in order to check the healing of the brand and its long term effects."

This modification became effective on April 11, 1986.

The Permit, as modified, is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, DC; and
Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way, NE, BIN C15700, Seattle, Washington 98115.

Dated: April 15, 1986.

Richard B. Roe,
Director, Office of Fisheries Management, National Marine Fisheries Service.

VOL 51 ISS 76 AP 21 1986 UMI

Marine Mammals; Application for Permit: Web of Life Outdoor Education Center (P366)

Notice is hereby given that an Applicant has applied in due form for a Permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531–1544), and the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217–222).

1. Applicant:

a. Name: Web of Life Outdoor Education Center.

b. Address: P.O. Box 530, Carver, Massachusetts 02543.

2. Type of Permit: Scientific research and scientific purposes.

3. Name and Number of Marine Mammals: Humpback whales (*Megaptera novaeangliae*) 25.

4. Type of Take: Harassment while taking exhalation samples.

5. Location of Activity: Southern Stellwagen Bank, Massachusetts.

6. Period of Activity: 2 years.

Concurrent with the publication of this notice in the Federal Register, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930.

Dated: April 14, 1986.

Richard B. Roe,

Director, Office of Fisheries Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Marine Mammals; Issuance of Permit; Hermann Gucinski (P362)

On October 11, 1985, notice was published in the Federal Register (50 FR 41549) that an application had been filed by Mr. Hermann Gucinski, Environmental Center, Anne Arundel Community College, 101 College Parkway, Arnold, Maryland 21012, to take an unspecified number of mysteceti by harassment during the collection of skin smears and replicates, and observational data.

Notice is hereby given that on April 11, 1986 as authorized by the provisions of the Marine Mammal Protection Act (16 U.S.C. 1361–1407) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), the National Marine Fisheries Service issued a Permit for the above taking subject to certain conditions set forth therein.

Issuance of this Permit as required by the Endangered Species Act of 1973 is based on a finding that such Permit: (1) was applied for in good faith; (2) will not operate to the disavantage of the endangered species which are the subject of this Permit; (3) and will be consistent with the purposes and policies set forth in section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with and is subject to Parts 220–222 of Title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits.

The Permit is available for review by interested persons in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Director, Northeast Region, National Marine Fisheries Service, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930.

Dated: April 15, 1986.

Richard B. Roe,

Director, Office of Fisheries Management, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMODITY FUTURES TRADING COMMISSION

Denial of Petition for Rulemaking and Adoption of Interim Informal Procedure Relating to the Recommendation of Enforcement Proceedings

AGENCY: Commodity Futures Trading Commission.

ACTION: Denial of Petition for Rulemaking; Interim Informal Procedure.

SUMMARY: The Commodity Futures Trading Commission denies a petition for formal rules that would allow submissions to the Commission as a matter of right by prospective respondents in Commission enforcement proceedings. The Commodity Futures Trading Commission is announcing an interim informal procedure regarding the submission of voluntary written statements by persons who may be named in proposed enforcement proceedings.

DATE: Effective on April 21, 1986.

FOR FURTHER INFORMATION CONTACT: Ray Sandora, Esq., Assistant Director, Division of Enforcement, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581 (202) 254–7424.

SUPPLEMENTARY INFORMATION: *Denial of Petition for Rulemaking.* The Commission received a petition pursuant to Commission Rule 13.2, 17 CFR 13.2, for a rule amending Part 11 of the Commission's Rules, 17 CFR 1.1 *et seq.*:

Which would provide that persons who are the subject of an investigation by the Commission be given a timely opportunity, in advance of the institution of any enforcement proceedings, to communicate their position to the Commission as to relevant matters of fact and law.

This proposal is similar to an informal procedure, adopted by the Securities and Exchange Commission in 1972, which permits what is known as the "Wells Submission." SEC Rule 202.5(c), 17 CFR 202.5(c). The petition seeks a rule to impose more formal requirements than the procedure in effect at the SEC and would require that a prospective respondent be given notice of the staff's charges and proposed enforcement recommendation and be accorded an opportunity to submit a written statement to the Commission that would accompany the staff recommendation.

The Commission is denying the petition because it proposes a rule that is unduly burdensome and would not be in the public interest. Moreover, the rule proposed in the petition would create a

right to be notified of a proposed enforcement proceeding as well as a right to present legal and factual arguments to the Commission why an action should not be commenced. The petition appears to suggest that the rights must be afforded as a matter of due process. However, neither of these rights is required either by the Constitution or by statute. *See SEC* v. *Jerry T. O'Brien*, 104 S. Ct. 2720 (1984); *SEC* v. *National Student Marketing Corp.*, 538 F.2d 404, 407 (D.C. Cir. 1976), *cert. denied*, 429 U.S. 1073 (1977); *Wellman* v. *Dickinson*, 79 F.R.D. 341, 352 (S.D.N.Y. 1978); *cf. United States* v. *Goldstein*, 342 F. Supp. 661, 668–669 (E.D.N.Y. 1972).

– *Interim Informal Procedure.* The Commodity Futures Trading Commission announces an interim informal procedure adopted at the recommendation of its Division of Enforcement ("Division") for persons who may be named in proposed enforcement proceedings to submit written statements on matters relevant to the recommendation of the proposed proceeding. The Division will study and evaluate the impact of the procedure at the end of 12 months and make appropriate recommendations to the Commission so that the Commission can determine whether the procedure should be continued. The Commission contemplates that the Division's procedure set forth below will be the sole vehicle for communications regarding proposed enforcement proceedings between the Commission and persons who may be named in such proceedings. The procedure is intended to inform the public that the Division of Enforcement will review information submitted by potential respondents and forward it to the Commission before the Commission votes to commence an enforcement action. In addition, this announcement highlights aspects of this procedure that may affect an individual's decision to submit such a statement.

The Division, in its discretion, may inform persons who may be named in a proposed enforcement proceeding of the nature of the proposed allegations pertaining to them. The decision whether to inform such persons of a proposed enforcement proceeding is entirely within the discretion of the Division. There is no obligation that the Division inform anyone of the proposed proceeding. In many cases, premature disclosure to the persons suspected of a violation could inhibit effective Commission action. Moreover, notwithstanding any representation by the staff, the Commission may commence an action against any persons before a written submission is made. Applicable provisions of the procedure, *i.e.*, page limit, contents, and submission to the Division, should also be followed by any person involved in a Division investigation who wishes to submit a statement on his or her own initiative.

The procedure provides that a succinct written statement of no more than twenty (20) pages may be submitted to the Director, Division of Enforcement, 2033 K Street, NW., Washington, DC 20581, with copies to the staff conducting the investigation. All submissions should refer clearly to the specific investigation to which they relate. Any submission is voluntary and while it may include a statement of the events, factual circumstances or other matters relevant to the commencement of a proposed enforcement action, the Commission is more interested in a submission that focuses upon legal and policy arguments.[1] Any statement of fact must be sworn to by a person with personal knowledge of such fact and may not simply be made by counsel upon information and belief. In this regard, it should be noted that submission of a written statement may result in the use of the statement, including factual admissions, in an administrative or judicial proceeding by the Commission, as well as use by another governmental agency or even by a private party who may obtain the statement under the Freedom of Information Act.[2]

The propose of this procedure is to make information available to assist the Commission's determination, in the exercise of its discretion, whether and in what manner it is in the public interest to commence an enforcement proceeding. The procedure permits a written statement only and neither creates a right nor an obligation to make such a statement. In authorizing publication of this procedure the Commission is not soliciting any presentation from any member of the public. Moreover, the Division's procedure does not in any way affect the Commission's right to act prior to receipt of a statement. A written statement with supporting documentation, which conforms to this procedure, submitted to the Director of the Division of Enforcement before the commencement of an enforcement proceeding will, upon request, be forwarded to the Commission along with the Division's recommendation.[3] However, as noted above, no rights or obligations are created by the submission, and the Commission has no obligation to consider the written statement or any part thereof.

The Freedom of Information Act (FOIA), 5 U.S.C. 552, and the Commission rules thereunder, 17 CFR Part 145 (1978), may require disclosure of any statement or part thereof. Also, the Commission may, in its discretion, release any statement or part thereof received unless release is prohibited by the Commodity Exchange Act or other statute or regulation concerning the privacy of information. *See* Commission Rules 11.3, 145.5(g), 145.9, 17 CFR 11.3, 145.5(g) and 145.9.

Commodity Futures Trading Commission Interim Informal Procedure Relating to the Recommendation of Enforcement Proceedings

The Division of Enforcement ("Division"), in its discretion, may inform persons who may be named in a proposed enforcement proceeding of the nature of the allegations pertaining to them. The Division, in its discretion, may advise such persons that they may submit a written statement prior to the consideration by the Commission of any staff recommendation for the commencement of such proceeding. Unless otherwise provided for by the Director of the Division, such written statements shall be submitted within 14 days after persons are informed by the Division of Enforcement of the nature of the proposed allegations pertaining to

[1] The Commission does not envision use of a submission to resolve factual representations between the staff and a potential respondent. As noted by the SEC in connection with its Wells procedure, *see* Sec. Act Release No. 5310 (Sept. 27, 1972), disagreements as to factual matters are best left to be resolved through litigation because the Commission is not well positioned to adjudicate factual disputes in the absence of a fully developed factual record. Accordingly, the Commission anticipates that submissions under this procedure will in general be confined to matters of law or policy directly bearing on the question of whether an enforcement action should be authorized with respect to the person or entity on whose behalf the submission is made.

[2] The requirement that any statement of fact submitted on behalf of a proposed respondent be made under oath by persons with personal knowledge is one substantive difference from the SEC's Wells procedure. In addition, unless otherwise provided for by the Director of the Division, all submissions must be no longer than 20 pages and must be provided within 14 days of notice.

[3] This procedure of Commission consideration of written submissions from proposed respondents in enforcement proceedings is analogous to that followed in Commission Rule 10.106, 17 CFR 10.106, which provides that if a respondent is informed by the Division of Enforcement that the Division will not recommend to the Commission that it accept an offer of settlement, such offer shall not be presented to the Commission unless the respondent so requests.

them and shall be no more than twenty (20) pages, double spaced on 8½ by 11 inch paper, setting forth their views of factual, legal or policy matters relevant to the commencement of an enforcement proceeding. Any statement of fact included in the submission must be sworn to by a person with personal knowledge of such fact. Statements shall be forwarded to the Director, Division of Enforcement, Washington, DC 20581, with copies to the staff conducting the investigation, shall clearly identify the specific investigation, and, if desired, may request that the statement be forwarded to the Commission. Similarly, persons who become involved in an investigation, and submit a written statement on their own initiative, should follow the relevant procedures described herein. In the event the Division recommends the commencement of an enforcement proceeding to the Commission, any written statement will be forwarded to the Commission if so requested. The Commission may, in its discretion, consider all, any portion or none of the submission when it considers the staff recommendation to commence an enforcement proceeding.

Dated: April 15, 1986.

By the Commission.

Jean A. Webb,

Secretary of the Commission.

Office of the Secretary

Board of Visitors; Meeting

AGENCY: Defense Systems Management College.

ACTION: Board of Visitors Meeting.

SUMMARY: A meeting of the Defense Systems Management College (DSMC) Board of Visitors will be held in Building 202, Fort Belvoir, Virginia, on Thursday, June 5, 1986, from 8:00 a.m. until 3:30 p.m. The agenda will include a review of accomplishments related to the system acquisition education, system acquisition research, and information collection and dissemination missions. It will also include a review of the DSMC plans, resources and operations. The meeting is open to the public; however, because of limitations on the space available, allocation of seating will be made on a first-come, first-serve basis. Persons desiring to attend the meeting should call Mrs. Joyce Reniere, telephone number (703) 664-5486.

April 16, 1986.

Organization of the Joint Chiefs of Staff; Joint Strategic Target Planning Staff (JSTPS), Scientific Advisory Group; Closed Meeting

AGENCY: Joint Strategic Target Planning Staff, Department of Defense.

ACTION: Notice of closed meeting.

SUMMARY: The Director, Joint Strategic Target Planning Staff has scheduled a closed meeting of the Scientific Advisory Group.

DATE: The meeting will be held on 27 and 28 May 1986.

ADDRESS: The meeting will be held at Offutt AFB, Nebraska.

FOR FURTHER INFORMATION CONTACT: The Joint Strategic Target Planning Staff, Scientific Advisory Group, Offutt AFB, Nebraska 68113.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to discuss strategic issues which relate to the development of the Single Integrated Operational Plan (SIOP). Full development of the topics will require discussion of information classified TOP SECRET in accordance with Executive Order 12356, 2 April 1982. Access to this information must be strictly limited to personnel having requisite security clearances and specified need-to-know. Unauthorized disclosure of the information to be discussed at the SAG meeting could have exceptionally grave impact upon national defense. Accordingly, the meeting will be closed in accordance with 5 U.S.C. 552b(c)(1).

P. H. Means,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Strategic Defense Initiative Organization

ACTION: Notice of DoD Intent To Establish a Federally Funded Research and Development Center (FFRDC).

SUMMARY: The Department of Defense announces its intention to establish a Federally Funded Research and Development Center (FFRDC) to support the Strategic Defense Initiative Organization (SDIO) and to designate the FFRDC as the Strategic Defense Initiative Institute (SDII). The purpose of this action is to make continuously available to the Strategic Defense Initiative Organization (SDIO) a relatively small but dedicated technical support unit that can facilitate the utilization, in a manner that is more timely, cost effective, and productive than currently possible, of the large national capability that must be applied to the Strategic Defense Initiative Program (SDIP). To accomplish this goal, the support unit personnel must have the across-the-board SDI-related technical skills and functional capabilities to perform a technology evaluation and integration role in support of the SDIO.

The SDII will seek flexible and innovative approaches to solving complex and multidimensional problems for the SDIP. In accomplishing this task, it will tap the broad base of talent, relevant experience, and perspectives available from addressing prior programmatic challenges. This will require contributions from a wide range of agencies and existing organizations, each of which already has some of the resources and skills in the needed areas, but no one of which can address SDIP technical support needs as a unified, coordinated whole.

The SDII must be free from actual, potential, or apparent individual or organizational conflicts of interest. It must gain no competitive advantage from its position over those whose efforts it is helping the SDIO oversee; nor lack objectivity as a result of having profit-seeking, manufacturing, or other conflicting organizational goals, such as a desire to serve other clients.

It has been decided, based on a careful comparative evaluation by the SDIO of all feasible institutional alternatives, that only a carefully designated, new Federally Funded Research and Development Center (FFRDC) within ready physical access of the SDIO can effectively satisy the above purpose for the SDII. Accordingly, this announcement is being issued in compliance with the procedures of OFPP Policy Letter 84-1 of April 4, 1984, "Federally Funded Research and Development Centers."

The Mission Statement for the SDII is as follows:

Mission Statement

The specific mission of the SDII will be to perform, in a highly flexible manner, research, studies, and analyses of emerging technologies and system concepts relative to the Strategic Defense Initiative Program (SDIP); and to provide technical evaluation of basic and applied research efforts and program developments by other contractors. In particular, the scope and nature of the effort to be performed by the SDII in support of the SDIO will include, but not be limited to: (1) Identifying and evaluating existing and potential technical advances, technologies, and system concepts from all available sources; (2) Reducing the costs and increasing the effectiveness of basic and applied SDIP research; (3) Providing advice on the relative utility and integration implications of each of the complex technical aspects of the SDIP; (4) Assessing and helping to develop evolving technical requirements, architectures, and their related testbed needs; (5) Performing test and evaluation planning; (6) Integrating Offense/Defense scenarios and analyses into useful conclusions and framing of issues for decision by the SDIO; (7) Developing and maintaining a data base on active SDIP projects and capabilities, and continually analyzing same for overlap, duplication, and opportunities for coordination; (8) Conducting SDIP-related studies and analyses; and (9) Coordinating and performing other technical and liaison tasks, including interface with the pertinent acquisition activities of the military services, related to performance of SDIP-related technical activities in industry, universities, government laboratories, and elsewhere.

This announcement is not a synoposis in accordance with Section 18 of the Office of Federal Procurement Policy Act, or otherwise a synopsis of sources sought in connection with a procurement. It is being published in response to paragraph 6b(2) of the Office of Federal Procurement Policy letter on FFRDC's which provides for at least three notices over a 90-day period in the *Commerce Business Daily* and the **Federal Register** indicating an agency's intentions to sponsor an FFRDC and the scope and nature of the effort to be performed by the FFRDC.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Sybert, Special Assistant to the Secretary, Executive Secretariat/OSD, Pentagon 3E880, Washington, DC 20301-1000, telephone (202) 697-8388.

Patricia H. Means,

OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Department of the Air Force

USAF Scientific Advisory Board; Meeting

April 3, 1986.

The USAF Scientific Advisory Board Armament Division Advisory Group meeting, previously scheduled for April 3-4, 1986, has been postponed. The Advisory Group will meet May 7, 1986 from 8:00 A.M. to 5:00 P.M. and May 8, 1986 from 8:00 A.M. to 3:00 P.M. at AF Armament Division Headquarters, Building 1, Eglin AFB FL.

The purpose of this meeting is to review and discuss selected programs and projects relating to the mission of the Armament Division and to advise the Commander on these programs.

This meeting will involve discussions of classified defense matters listed in section 552b(c) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly will be closed to the public.

For further information, contact the Scientific Advisory Board Secretariat at, (202) 697-4648.

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-M

Department of the Army

Routing of Class C Explosives on a Class C Tender—Exceptions Outlined

AGENCY: Department of the Army, DOD.

ACTION: Notice of exceptions to route class C explosives only on class C explosives tenders.

Purpose: The purpose of this change is twofold. (a) To recognize that there are some safety kits or commodities which may contain small quantities of class C explosives that do not represent a security risk, for example survival kits, pop rivets, aircraft ejection cartridges, .22 caliber, blank or practice ammunition, etc . . ., (b) to allow such items to be moved on Freight All Kinds (FAK) rates.

Summary: Effective June 1, 1986, all carriers transporting class C explosives may do so under a FAK commodity tender description vice a class C tender under the following exceptions, only:

(a) When the class C material is non-sensitive and does not require a transportation protective service, and

(b) When the class C material being transported does not exceed 1000 pounds gross weight per shipment.

Since all tenders now carry a mandatory exclusion (Freight All Kinds, except classes A, B, and C explosives, ammunition or fireworks), carriers wishing to handle up to 1000 pounds per shipment of class C commodities need to amend their tenders to reflect a DOD mandatory exclusion for FAK. The alternate FAK description should read:

Freight All Kinds, except all classes A and B explosives, ammunition or fireworks, and class C explosives, ammunition or fireworks requiring a DOD transportation protective service or nonsensitive class C commodities weighing in excess of 1,000 pounds per shipment, . . . (exclusions can be added by carrier)

Additionally, carriers interested in offering specific commodity class C tenders (Optional Form 280) should include the transportation protective services (TPS) of "Dual Driver Protective Service" (DDPS), "DOD Constant Surveillance Service" (DOD CSS), as well as the accessorial service "Signature and Tally Record Service." If the publication of new rates for these commodities results in increased rates, we require 30 days notice, following their receipt, before the new rates can become effective.

Further information may be obtained by writing to HQMTMC, ATTN: MT-INNT, Falls Church, VA 22141-5050, or by calling Blaise Guzzardo at (202) 756-1149 or Betty Yanowsky at (202) 756-1565/0.

John O. Roach II,

Army Liaison Officer With the Federal Register.

BILLING CODE 3710-08-M

VOL 51 ISS 76 AP 21 1986 UMI

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Docket No. 86-22-NG]

Gas Ventures; Application To Import Natural Gas From Canada

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of application for blanket authorization to import natural gas from Canada for short-term and spot sales.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of receipt of March 31, 1986, of an application filed by Gas Ventures (Ventures) for a blanket authorization to import up to 100,000 Mcf per day and a total of 75 Bcf of Canadian natural gas for the anticipated term of the proposal. The gas would be supplied by Canadian producers or pipelines and sold on a short-term or spot basis to U.S. purchasers. Ventures would act on its own behalf or as an agent on behalf of U.S. purchasers and/or Canadian suppliers.

Ventures is a joint venture of ITRP Natural Gas Ventures, Inc. and Kimball Energy Corporation. The former is a wholly-owned subsidiary of ITR Petroleum, Inc., a Nevada corporation that currently sells gas to Ventures, and the latter is not affiliated with any other participant. Ventures is a marketer of natural gas, purchasing from independent producers in Wyoming and selling on a spot or short-term basis to Rocky Mountain or Pacific Northwest customers along the Northwest Pipeline Corporation system.

Ventures proposes an import authorization term to extend through December 31, 1987, and month to month thereafter until terminated upon 30 days written notice by Ventures or the ERA, an arrangement that Ventures says would be consistent with its domestic gas purchase contracts. The specific terms of each import and sale would be negotiated on an individual basis, terms would be market responsive, and, to the maximum extent possible, would constitute a best-efforts purchase and delivery basis with no minimum purchase or take-or-pay obligation. Ventures proposes to file quarterly reports to the ERA on a confidential basis. Only existing pipeline facilities would be used.

The application is filed with the ERA pursuant to section 3 of the Natural Gas Act and DOE Delegation Order No. 0204-111. Protests, motions to intervene, notices of intervention and written comments are invited.

DATE: Protests, motions to intervene or notices of intervention, as applicable, and written comments are to be filed no later than 4:30 p.m., on May 21, 1986.

FOR FURTHER INFORMATION:

Norman Breckner, Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Building, Room GA-76, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-9482

Diane Stubbs, Natural Gas and Mineral Leasing, Office of General Counsel, U.S. Department of Energy, Forrestal Building, Room 6E-042, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-6667

SUPPLEMENTARY INFORMATION: The decision on this application will be made consistent with DOE's gas import policy guidelines, under which the competitiveness of an import arrangement in the markets served is the primary consideration in determining whether it is in the public interest (49 FR 6684, February 22, 1984). Parties that may oppose this application should comment in their responses on the issue of competitiveness as set forth in the policy guidelines. The applicant asserts that this import arrangement is competitive. Parties opposing the arrangement bear the burden of overcoming this assertion.

Public Comment Procedures

In response to this Notice, any person may file a protest, motion to intervene, or notice of intervention, as applicable, and written comments. Any person wishing to become a party to the proceeding and to have written comments considered as the basis for any decision on the application must, however, file a motion to intervene or notice of intervention, as applicable. The filing of a protest with respect to this application will not serve to make the protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate procedural action to be taken on the application. All protests, motions to intervene, notices to intervention, and written comments must meet the requirements that are specified by the regulations in 10 CFR Part 590. They should be filed with the Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, Room GA-076-A, RG-23, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585. They must be filed no later than 4:30 p.m. e.d.t., May 21, 1986.

The Administrator intends to develop a decisional record on the application through responses to this Notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or a trial-type hearing. Any request to file additional written comments should explain why they are necessary. Any request for an oral presentation should identify the substantial question of fact, law, or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed. Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trial-type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the facts.

If an additional procedure is scheduled, the ERA will provide notice to all parties. If no party requests additional procedures, a final opinion and order may be issued based on the official record, including the application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

A copy of Ventures' application is available for inspection and copying in the Natural Gas Division Docket Room, GA-076, at the above address. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on April 14, 1986.

Robert L. Davies,

Director, Office of Fuels Programs, Economic Regulatory Administration.

[FR Doc. 86-8879 Filed 4-18-86; 8:45 am]

BILLING CODE 6450-01-M

[ERA Docket No. 86-24-NG]

Natural Gas Imports; Carlyle Energy, Inc.; Application To Import Natural Gas From Canada

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Application for Blanket Authorization To Import Natural Gas from Canada.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of receipt on April 4, 1986, of an application from Carlyle Energy, Inc. (Carlyle), a wholly-owned subsidiary of Carlyle Energy, Ltd., for blanket authorization to import Canadian natural gas for short-term sales in the domestic spot market. Authorization is requested to import up to 100 Bcf of Canadian natural gas during a two-year term beginning on the date of first delivery of the import. Carlyle intends to market individual volumes of natural gas produced by Carlyle Energy Ltd., its Canadian affiliate, and also import gas from various other Canadian suppliers for its own account or as agent on behalf of either a supplier or purchaser of such volumes. Since Carlyle intends to utilize existing pipeline facilities for the transportation of the volumes imported, the proposal does not contemplate the construction of any new domestic facilities.

The applicant proposes to submit quarterly reports giving details of individual transactions in the month following each calendar quarter.

The application was filed with the ERA pursuant to section 3 of the Natural Gas Act and DOE Delegation Order No. 0204-111. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, and written comments are to be filed no later than May 21, 1986.

FOR FURTHER INFORMATION CONTACT:

Edward J. Peters, Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Building, Room GA-076, 1000 Independence Avenue, SW., Washington, D.C. 20585 (202) 252-6162;

Diane Stubbs, Natural Gas and Mineral Leasing, Office of General Counsel, U.S. Department of Energy, Forrestal Building, Room 6E-042, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 252-6667.

SUPPLEMENTARY INFORMATION: The decision on this application will be made consistent with the DOE's gas import policy guidelines, under which competitiveness of an import arrangement in the markets served is the primary consideration in determining whether it is in the public interest (49 FR 6684, February 22, 1984). Parties that may oppose this application should comment in their responses on the issue of competitiveness as set forth in the policy guidelines. The applicant asserts that this import arrangement is competitive. Parties opposing the arrangement bear the burden of overcoming this assertion.

Public Comment Procedures

In response to this notice, any person may file a protest, motion to intervene, or notice of intervention, as applicable, and written comments. Any person wishing to become a party to the proceeding and to have written comments considered as the basis for any decision on the application must, however, file a motion to intervene or notice of intervention, as applicable. The filing of a protest with respect to this application will not serve to make the protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate procedural action to be taken on the application. All protests, motions to intervene, notices of intervention, and written comments must meet the requirements that are specified by the regulations in 10 CFR Part 590. They should be filed with the Natural Gas Division, Office of Fuels Programs, Economic Regulatory Administration, Room GA-076-A, RG-23, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C. 20585. They must be filed no later than 4:30 p.m. e.d.t., May 21, 1986.

The Administrator intends to develop a decisional record on the application through responses to the notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or a trial-type hearing. Any request to file additional written comments should explain why they are necessary. Any request for an oral presentation should identify the substantial question of fact, law or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed. Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trail-type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the facts.

If an additional procedure is scheduled, the ERA will provide notice to all parties. If no party requests additional procedures, a final opinion and order may be issued based upon the official record, including the application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

A copy of Carlyle's application is available for inspection and copying in the Natural Gas Division Docket Room, GA-076-A, at the above address. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., April 14, 1986.

NATGAS (U.S.) Inc.; Order Granting Blanket Authorization To Import Natural Gas From Canada

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Order Granting Blanket Authorization to Import Natural Gas From Canada.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice that it has issued an order granting blanket authorization to import natural gas from Canada to NATGAS (U.S.) Inc. (NATGAS). The order issued in ERA Docket No. 86-10-NG authorizes NATGAS to import up to 730 Bcf over a two-year period for sale in the domestic spot market.

A copy of this order is available for inspection and copying in the Natural Gas Division Docket Room, GA-076, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., 20585. The docket room is open betweeen the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except holidays.

Issued in Washington, D.C., April 14, 1986.

Robert L. Davies,

Director, Office of Fuels Programs, Economic Regulatory Administration.

BILLING CODE 6450-01-M

VOL 51 ISS 76 AP 21 1986 UMI

Energy Information Administration

Publication of Alternative Fuel Price Ceilings and Incremental Price Threshold for High Cost Natural Gas

The Natural Gas Policy Act of 1978 (NGPA) (Pub. L. 95-621) signed into law on November 9, 1978, mandated a new framework for the regulation of most facets of the natural gas industry. In general, under Title II of the NGPA, interstate natural gas pipeline companies are required to pass through certain portions of their acquisition costs for natural gas to industrial users in the form of a surcharge. The statute requires that the ultimate costs of gas to the industrial facility should not exceed the cost of the fuel oil which the facility could use as an alternative.

Pursuant to Title II of the NGPA, section 204(e), the Energy Information Administration (EIA) herewith publishes for the Federal Energy Regulatory Commission (FERC) computed natural gas ceiling prices and the high cost gas incremental pricing threshold which are to be effective May 1, 1986. These prices are based on the prices of alternative fuels.

For further information contact: Leroy Brown, Jr., Department of Energy, Energy Information Administration, 1000 Independence Avenue, SW., Room BE-034, Washington, D.C. 20585, Telephone: (202) 252-8077.

Section I.

As required by FERC Order No. 50, computed prices are shown for the 48 contiguous States. The District of Columbia's ceiling is included with the ceiling for the State of Maryland. FERC, by an Interim Rule issued on April 2, 1981, in Docket No. RM79-21, revised the methodology for calculating the monthly alternative fuel price ceilings for State regions. Under the revised methodology, the applicable alternative fuel price ceiling published for each of the contiguous States shall be the lower of the alternative fuel price ceiling for the State or the alternative fuel price ceiling for the multistate region in which the State is located.

The price ceiling is expressed in dollars per million British Thermal Units (BTU's). The method used to determine the price ceilings is described in Section III.

State	Per million BTU's
Alabama	$2.10
Arizona[2]	2.20
Arkansas	2.47
California[1]	2.20
Colorado[2]	2.30
Connecticut[2]	2.31
Delaware[2]	2.54
Florida	2.06
Georgia	2.16
Idaho[2]	2.30
Illinois	2.17
Indiana[1]	2.23
Iowa[1]	2.23
Kansas	2.20
Kentucky[1]	2.23
Louisiana[2]	2.58
Maine[1]	2.31
Maryland[1]	2.54
Massachusetts	2.17
Michigan[2]	2.23
Minnesota[2]	2.23
Mississippi[2]	2.14
Missouri	2.14
Montana[2]	2.30
Nebraska[2]	2.23
Nevada[2]	2.20
New Hampshire[1]	2.31
New Jersey[1]	2.54
New Mexico[2]	2.58
New York	2.52
North Carolina[1]	2.22
North Dakota[2]	2.23
Ohio	2.12
Oklahoma[1]	2.58
Oregon	2.07
Pennsylvania[1]	2.54
Rhode Island[1]	2.31
South Carolina[1]	2.22
South Dakota[2]	2.23
Tennessee[1]	2.22
Texas	1.87
Utah[2]	2.30
Vermont[1]	2.31
Virginia[1]	2.22
Washington[1]	2.20
West Virginia	2.21
Wisconsin[2]	2.23
Wyoming[2]	2.30

[1] Region based price as required by FERC Interim Rule, issued on April 2, 1981, in Docket No. RM-79-21.
[2] Region based price computed as the weighted average price of Regions E, F, G, and H.

Section II. Incremental Pricing Threshold for High Cost Natural Gas

The EIA has determined that the volume-weighted average price for No. 2 distillate fuel oil landed in the greater New York City Metropolitan area during February 1986 was $23.14 per barrel. The EIA has implemented a procedure to partially compensate for the two-month lag between the end of the month for which data are collected and the beginning of the month for which the incremental pricing threshold becomes effective. The prices found in *Platt's Oilgram Price Report* are given for each trading day in the form of high and low prices for No. 2 fuel oil in Metropolitan New York and Northern New Jersey. A lag adjustment factor was calculated using the average of the low posted price for these two areas for the ten trading days ending April 14, 1986, and dividing that price by the corresponding average price computed from prices published by Platt's for the month of February 1986. This lag adjustment factor was applied to the February price yielding $20.86 per barrel. In order to establish the incremental pricing threshold for high cost natural gas, as identified in the NGPA, Title II, Section 203(a)(7), this price was multiplied by 1.3 and converted to its equivalent in millions of BTU's by dividing by 5.8. Therefore, the incremental pricing threshold for high cost natural gas, effective May 1, 1986, is $4.68 per million BTU's.

Section III. Method Used To Compute Price Ceilings

The FERC, by Order No. 50, issued on September 29, 1979, in Docket No. RM79-21, established the basis for determining the price ceilings required by the NGPA. FERC also, by Order No. 167, issued in Docket No. RM81-27 on July 24, 1981, made permanent the rule that established that only the price paid for No. 6 high sulfur content residual fuel oil would be used to determine the price ceilings. In addition, the FERC, by Order No. 181, issued on November 6, 1981, in Docket No. RM81-28, established that price ceilings should be published for only the 48 contiguous States on a permanent basis.

A. Data Collected

The following data were required from all companies identified by the EIA as sellers of No. 6 high sulfur content (greater than 1 percent sulfur content by weight) residual fuel oil: For each selling price, the number of gallons sold to large industrial users in the months of December 1985, January 1986, and February 1986.[3] All reports of volume sold and price were identified by the State into which the oil was sold.

B. Method Used to Determine Alternative Price Ceilings

(1) Calculation of Volume-Weighted Average Price

The prices which will become effective May 1, 1986 (shown in Section I), are based on the reported price of No. 6 high sulfur content residual fuel oil, for each of the 48 contiguous States, for each of the 3 months, December 1985, January 1986, and February 1986. Reported prices for sales in December 1985 were adjusted by the percent change in the nationwide volume-weighted average price from December 1985 to February 1986. Prices for January 1986 were similarly adjusted by the percent change in the nationwide volume-weighted average price from January 1986 to February 1986. The volume-weighted 3-month average of the adjusted December 1985 and January 1986, and the reported February 1986 prices were then computed for each State.

(2) Adjustment for Price Variation

States were grouped into the regions identified by the FERC (see Section III.C.). Using the adjusted prices and associated volumes reported in a region during the 3-month period, the volume-weighted standard deviation of prices was calculated for each region. The volume-weighted 3-month average price (as calculated in Section III.B.(1) above) for each State was adjusted downward by two times this standard deviation for the region to form the adjusted weighted average price for the State.

(3) Calculation of Ceiling Price

The lowest selling price within the State was determined for each month of the 3-month period (after adjusting up or down by the percent change in oil prices at the national level as discussed in Section III.B.(1) above). The products of the adjusted low price for each month times the State's total reported sales volume for each month were summed over the 3-month period for each State and divided by the State's total sales volume during the 3-months to determine the State's average low price. The adjusted weighted average price (as calculated in Section III.B.(2)) was compared to this average low price, and the higher of the values was selected as the base for determining the alternative fuel price ceiling for each State. For those States which had no reported sales during one or more months of the 3-month period, the appropriate regional volume-weighted alternative fuel price was computed and used in combination with the available State data to calculate the State alternative fuel price ceiling base. The State's alternative fuel price ceiling base was compared to the alternative fuel price ceiling base for the multistate region in which the State is located and the lower of these two prices was selected as the final alternative fuel price ceiling base for the State. The appropriate lag adjustment factor (as discussed in Section III.B.(4)) was then applied to the alternative fuel price ceiling base. The alternative fuel price (expressed in dollars per gallon) was multiplied by 42 and divided by 6.3 to estimate the alternative fuel price ceiling for the State (expressed in dollars per million Btu's).

There were insufficient sales reported in Region G for the month of December 1985, January 1986, and February 1986. The alternative fuel price ceilings for the States in Region G were determined by calculating the volume-weighted average price ceilings for Region E; Region F, Region G, and Region H.

(4) Lag Adjustment

The EIA has implemented a procedure to partially compensate for the two-month lag between the end of the month for which data are collected and the beginning of the month for which ceiling prices become effective. It was determined that *Platt's Oilgram Price Report* publication provides timely information relative to the subject. The prices found in *Platt's Oilgram Price Report* publication are given for each trading day in the form of high and low prices for No. 6 residual oil in 20 cities throughout the United States. The low posted prices for No. 6 residual oil in these cities were used to calculate a national and a regional lag adjustment factor. The national lag adjustment factor was obtained by calculating a weighted average price for No. 6 high sulfur residual fuel oil for the ten trading days ending April 14, 1986, and dividing that price by the corresponding weighted average price computed from prices published by Platt's for the month of 1986. A regional lag adjustment factor was similarly calculated for four regions. These are: One for FERC Regions A and B combined; one for FERC Region C; one for FERC Regions D, E, and G combined; and one for FERC Regions F and H combined. The lower of the national or regional lag factor was then applied to the alternative fuel price ceiling for each State in a given region as calculated in Section III.B.(3).

Listing of States by Region

States were grouped by the FERC to form eight distinct regions as follows:

Region A

Connecticut
Maine
Massachusetts
New Hampshire
Rhode Island
Vermont

Region B

Delaware
Maryland
New Jersey
New York
Pennsylvania

Region C

Alabama
Florida
Georgia
Mississippi
North Carolina
South Carolina
Tennessee
Virginia

Region D

Illinois
Indiana
Kentucky
Michigan
Ohio
West Virginia
Wisconsin

Region E

Iowa
Kansas
Missouri
Minnesota
Nebraska
North Dakota
South Dakota

Region F

Arkansas
Louisiana
New Mexico
Oklahoma
Texas

Region G

Colorado
Idaho
Montana
Utah
Wyoming

Region H

Arizona
California
Nevada
Oregon
Washington

Issued in Washington, D.C., April 17, 1986.

[3] Large Industrial User—A person/firm which purchases No. 6 fuel oil in quantities of 4,000 gallons or greater for consumption in a business, including the space heating of the business premises. Electric utilities, governmental bodies (Federal, State, or Local), and the military are excluded.

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of implementation of special refund procedures.

SUMMARY: The Office of Hearings and Appeals (OHA) of the Department of Energy (DOE) solicits comments concerning the appropriate procedures to be followed in refunding to adversely affected parties $40,000 obtained as a result of a Consent Order which the DOE entered into with Missouri Terminal Oil Company, a reseller retailer of petroleum products located in St. Louis, Missouri. The money is being held in escrow following the settlement

VOL 51 ISS 76 AP 21 1986 UMI

of enforcement proceedings brought by the DOE's Economic Regulatory Administration.

DATE AND ADDRESS: Comments must be filed within 30 days of publication of this notice in the Federal Register and should be addressed to the Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. All comments should conspicuously display a reference to case number HEF-0131.

FOR FURTHER INFORMATION CONTACT: Walter J. Marullo, Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 252-6602.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order sets forth procedures and standards that the DOE has tentatively formulated to distribute to adversely affected parties $40,000 plus accrued interest obtained by the DOE under the terms of a Consent Order entered into with Missouri Terminal Oil Company (MTO). The funds were provided to the DOE by MTO to settle all claims and disputes between the firm and the DOE regarding the manner in which the firm applied the federal price regulations with respect to its sales of motor gasoline during the period March 1, 1979, through July 31, 1979.

OHA proposes that a two-stage refund process be followed. In the first stage, OHA has tentatively determined that a portion of the consent order funds should be distributed to firms and individuals that purchased MTO motor gasoline during the consent order period. In order to obtain a refund, each claimant will be required to submit a schedule of its monthly purchases of MTO motor gasoline and to demonstrate that it was injured by MTO's pricing practices. The specific requirements for proving injury are set forth in the following Proposed Decision and Order. Applications for Refund should not be filed at this time. Appropriate public notice will be given when the submission of claims is authorized.

Some residual funds may remain after all meritorious first-stage claims have been satisfied. OHA invites interested parties to submit their views concerning alternative methods of distributing any remaining funds in a subsequent proceeding.

Any member of the public may submit written comments regarding the proposed refund procedures. Such parties are requested to submit two copies of their comments. Comments should be submitted within 30 days of publication of this Notice. All comments received in this proceeding will be available for public inspection between 1:00 and 5:00 p.m., Monday through Friday, except Federal holidays, in the Public Reference Room of the Office of Hearings and Appeals, located in Room 1E-234, 1000 Independence Avenue, SW., Washington, DC 20585.

Dated: April 14, 1986.

George B. Breznay,

Director, Office of Hearings and Appeals.

Proposed Decision and Order of the Department of Energy

Implementation of Special Refund Procedures

April 14, 1986.

Name of Firm: Missouri Terminal Oil Company.

Date of Filing: October 13, 1983.

Case Number: HEF-0131.

Under the procedural regulations of the Department of Energy (DOE), the Economic Regulatory Administration (ERA) may request that the Office of Hearings and Appeals (OHA) formulate and implement special procedures to distribute funds received as a result of an enforcement proceeding in order to remedy the effects of actual or alleged violations of the DOE regulations. *See* 10 CFR Part 205, Subpart V. In accordance with the provisions of Subpart V, on October 13, 1983, ERA filed a Petition for the Implementation of Special Refund Procedures in connection with a consent order entered into with Missouri Terminal Oil Company (MTO).

I. Background

MTO is a "reseller-retailer" of refined petroleum products as that term was defined in 10 CFR 212.31 and is located in St. Louis, Missouri. A DOE audit of MTO's records revealed possible violations of the Mandatory Petroleum Price Regulations. 10 CFR Part 212, Subpart F. The audit alleged that between March 1, 1979, and July 31, 1979, MTO committed possible pricing violations in its sales of motor gasoline.

In order to settle all claims and disputes between MTO and the DOE regarding the firm's sales of motor gasoline during the period covered by the audit, MTO and the DOE entered into a consent order on July 8, 1983. The consent order refers to ERA's allegations of overcharges, but notes that there was no finding that violations occurred. Additionally, the consent order states that MTO does not admit that it violated the regulations.

Under the terms of the consent order, MTO was required to deposit a total of $40,000, in two annual installments, into an interest-bearing escrow account for ultimate distribution by the DOE. MTO made payments of $20,000 each on January 4, 1984, and January 11, 1985.[1]

II. Proposed Refund Procedures

The procedural regulations of the DOE set forth general guidelines to be used by OHA in formulating and implementing a plan of distribution for funds received as a result of an enforcement proceeding. 10 CFR Part 205, Subpart V. The Subpart V process may be used in situations where the DOE is unable to identify readily those persons who likely were injured by alleged overcharges or to ascertain readily the amount of such persons' injuries. For a more detailed discussion of Subpart V and the authority of OHA to fashion procedures to distribute refunds, *see Office of Enforcement*, 9 DOE ¶ 82,508 (1981), and *Office of Enforcement*, 8 DOE ¶ 82,597 (1981) (*Vickers*).

Our experience with Subpart V cases leads us to believe that the distribution of refunds in this proceeding should take place in two stages. In the first stage, we will accept claims from identifiable purchasers of motor gasoline who may have been injured by MTO's pricing practices during the period March 1, 1979, through July 31, 1979. If any funds remain after all meritorious in a second-stage proceeding. *See, e.g., Office of Special Counsel*, 10 DOE ¶ 85,048 (1982) (*Amoco*).

A. Refunds to Identifiable Purchasers

In the first stage of the MTO refund proceeding, we propose to distribute the funds currently in escrow to claimants who demonstrate that they were injured by MTO's alleged overcharges. As we have done in many prior refund cases, we propose to utilize certain presumptions and findings which will help to determine the extent of a purchaser's alleged injury.

The presumptions and findings we plan to adopt are also used to permit claimants to participate in the refund process without incurring inordinate expenses and to enable OHA to consider the refund applications in the most efficient way possible in view of the limited resources available. First, we plan to adopt a presumption that the alleged overcharges were dispersed evenly in all of MTO's sales of motor gasoline made during the consent order

[1] The total value of the MTO escrow account stood at $60,404.68 as of March 31, 1986.

period. In the past, we have referred to a refund process that uses this presumption as a volumetric method. Second, we propose to adopt a presumption of injury with respect to small claims. Third, we plan to adopt a presumption that spot purchasers were not injured by the alleged overcharges. Finally, we are making proposed findings that end users, certain types of regulated firms, and cooperatives were injured by MTO's pricing practices.

The pro rata, or volumetric, refund presumption assumes that alleged overcharges by a consent order firm were spread equally over all gallons of product covered by the consent order. In the absence of better information, this assumption is sound because the DOE price regulations generally required a regulated firm to account for increased costs on a firm-wide basis in determining its prices. This presumption is rebuttable, however, A claimant which believes that it incurred a disproportionate share of the alleged overcharges may submit evidence proving this claim in order to receive a larger refund. *See, e.g., Sid Richardson Carbon and Gasoline Co. and Richardson Products Co./Siouxland Propane Co.*, 12DOE ¶ 85,054 at 88,184 (1984), and cases cited therein.

Under the volumetric method we plan to adopt, a claimant will be eligible to receive a refund equal to the number of gallons of MTO motor gasoline that it purchased during the consent order period times the volumetric factor. The volumetric factor is the average per gallon refund and in this case equals $0.003505 per gallon.[2] in addition, successful claimants will receive a proportionate share of the accrued interest.

The second presumption we plan to use is that purchasers of MTO motor gasoline seeking small refunds were injured by the firm's pricing practices. There are a variety of reasons for adopting this presumption. *See, e.g., Uban Oil Co.*, 9 DOE ¶ 82,541 (1982). These firms were in the chain of distribution where the alleged ovecharges occurred and therefore bore some impact of the alleged overcharges, at least initially. In order to support a specific claim of injury, a firm would have to compile and submit detailed factual information regarding the impact of alleged overcharges which took place many years ago. This procedure is generally time-consuming and expensive. With small claims, the cost to the firm of gathering the necessary information and the cost of OHA of analyzing it could exceed both the expected refund and the benefits from any additional precision. As a result, without simplified procedures injured could effectively be denied the opportunity to receive a refund.

Under the small-claims presumption, a claimant who is a reseller or retailer would not be required to submit any additional evidence of injury beyond volumes of MTO motor gasoline purchased if its refund claim is below a certain sum. Several factors determine the value of this threshold. For example, the cost to the applicant and the government of compiling and analyzing information sufficient to show injury should not exceed the amount of any relevant refund. In this case, where the refund amount is fairly low and the early months of the consent order period are many years past, $5,000 is a reasonable value for the threshold. *See Texas Oil & Gas Corp.*, 12 DOE ¶ 85,069 at 88,210 (1984); *Office of Special Counsel*, 11 DOE ¶ 85,228 (1984) *(Conoco)*, and cases cited therein.

A reseller or retailer which claims a refund in excess of $5,000 will be required to document its injury. While there are a variety of methods by which a firm can make such a showing, a firm is generally required to demonstrate (i) that it maintained a "bank" of unrecovered costs, in order to show that it did not pass the alleged overcharges through to its own customers, and (ii) that market conditions were the reason that it did not pass through those increased costs.[3]

If a reseller or retailer made only spot purchases, we propose that it should not receive a refund since it is unlikely to have been injured. As we have previously stated with respect to spot purchasers:

> [T]hose customers tend to have considerable discretion in where and when to make purchases and would therefore not have made spot market purchases of [the firm's product] at increased prices unless they were able to pass through the full amount of [the firm's] quoted selling price at the time of purchase to their own customers.

Vickers, 8 DOE at 85,396-97. The same rationale applies in the present case. Therefore, we proposed that firms which made only spot purchases of MTO motor gasoline not receive refunds unless they present evidence which rebuts the spot purchaser presumption and established the extent to which they were injured as a result of their purchases of MTO motor gasoline during the consent order period.

As noted above, we have concluded that end users were injured by the alleged overcharges. Unlike regulated firms in the petroleum industry, members of this group generally were not subject to price controls during the consent order period. They were therefore not required to base their pricing decisions on cost increases or to keep records which would show whether they passed through cost increases. An analysis of the impact of the alleged overcharges on the final prices of goods and services which were not coverd by the petroleum price regulations would therefore be beyond the scope of a special refund proceeding. *See Office of Enforcement*, 10 DOE ¶ 85,072 (1983) *(PVM)*; *see also Texas Oil & Gas Corp.*, 12 DOE at 88,209, and cases cited therein.[4]

In addition, we propose that firms whose prices for goods and services are regulated by a governmental; agency or by the terms of a cooperative agreement not be required to demonstrate that they absorbed the motor gasoline overcharges alleged by ERA. In the case of regulated firms, *e.g.*, public utilities, any overcharges incurred as a result of MTO's alleged violations of the DOE regulations would routinely be passed through to the utilities' customers. Similarly, any refunds received by such firms would be reflected in the rates they wre allowed to charge their customers. Refunds to agricultural cooperatives would likewise directly influence the prices charged to their member customers. Consequently, we proposed adding such firms to the class of claimants that are not required to show that they did not pass through to their customers cost increases resulting from alleged overcharges. *See, e.g., Office of Special Counsel*, 9 DOE ¶ 82,538 (1982) *(Tenneco), and Office of Special Counsel*, 9 DOE 82,545 at 85,244 (1982) *(Pennzoil)*. Instead, those firms should provide with their application a full explanation of the manner in which refunds would be passed through to their customers and how the appropriate regulatory body or membership group will be advised of the applicant's receipt

[2] This figure is computed by dividing the $40,000 received from MTO by the 11,411,690 gallons of motor gasoline sold by the firm during the consent order period.

[3] Resellers or retailers who claim a refund in excess of $5,000 but who cannot establish that they did not pass through the price increases will be eligible for a refund of up to the $5,000 threshold, without being required to submit evidence of injury beyond purchase volumes. Firms potentially eligible for greater refunds may choose to limit their claims to $5,000. *See* Vickers, 8 DOE at 85,396. *See also* Office of Enforcement, 10 DOE ¶ 85,029 at 88,122 (1982).

[4] If a firm is both a spot purchaser and an end user, it will be treated as an end user and will not be required to make any showing of injury beyond that required of other end users.

VOL 51 ISS 76 AP 21 1986 UMI

of any refund money. Sales by cooperatives to nonmembers, however, will be treated the same as sales by any other reseller.

As in other cases, only claims for at least $15 will be processed. This minimum has been adopted in prior refund cases because the cost of processing claims for refunds of less than $15 outweighs the benefits of restitution in those situations. *See, e.g., Uban Oil Co.*, 9 DOE at 85,225. *See also* 10 CFR 205.286(b). The same principle applies here.

If valid claims exceed the funds available in the escrow account, all refunds will be reduced proportionately. Actual refunds will be determined after analyzing all appropriate claims.

B. Applications for Refund

Any purchaser claiming a portion of the consent order funds will be required to file an Application for Refund pursuant to 10 CFR 205.283. In its application, a claimant must include a schedule of its monthly purchases of MTO motor gasoline during the consent order period as well as all relevant information necessary to support its claim in accordance with the presumptions and findings outlined above. A claimant must also state whether it has previously received a refund, from any source, with respect to the alleged overcharges underlying this proceeding. Each applicant must also state whether there has been a change in ownership of the firm since the audit period. If there has been a change in ownership, the applicant must provide the names and addresses of the other owners, and should either state the reasons why the refund should be paid to the applicant rather than to the other owners or provide a signed statement from the other owners indicating that they do not claim a refund. Finally, an applicant must report whether it is or has been involved as a party in DOE enforcement or private actions filed under section 210 of the Economic Stabilization Act. If these actions have been concluded the applicant should furnish a copy of any final order issued in the matter. If the action is still in progress, the applicant should briefly describe the action and its current status. The applicant must keep OHA informed of any change in status while its Application for Refund is pending *See* 10 CFR 205.9(d).

C. Distribution of Remaining Consent Order Funds

In the event that money remains after all meritorious claims have been satisfied, residual funds could be distributed in a number of ways in a subsequent proceeding. However, we will not be in a position to decide what should be done with any remaining funds until the initial stage of this refund proceeding has been completed. We encourage the submission by interested parties of proposals which address alternative methods of distributing any remaining funds.

It Is Therefore Ordered That The refund amount remitted to the Department of Energy by Missouri Terminal Oil Company pursuant to the Consent Order executed on July 8, 1983, will be distributed in accordance with the foregoing decision.

State-FIFRA Issues Research and Evaluation Group (SFIREG) Working Committees; Open Meetings

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: There will be a 2-day meeting of the Working Committee on Registration and Classification of State FIFRA Issues Research and Evaluation Group (SFIREG) and a 2-day meeting of the SFIREG Working Committee on Enforcement and Certification to discuss various aspects of pesticides. The meetings will be open to the public.

DATES: The Working Committee on Registration and Classification will meet on Tuesday and Wednesday, May 13 and 14, 1986. The Working Committee on Enforcement and Cetification will meet on Thursday and Friday, May 15 and 16, 1986. The meetings of both committees will start at 8:30 a.m. each day.

ADDRESS: The meeting will be held at: International Hotel, 300 Canal St., New Orleans, LA, (504-581-1300).

FOR FURTHER INFORMATION CONTACT: By mail: Philip H. Gray, Jr., Office of Pesticide Programs (TS-766C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

Office location and telephone number: Rm. 1115, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, Virginia, (703-557-7096).

SUPPLEMENTARY INFORMATION: The meeting of the Working Committee on Registration and Classification will be concerned with the following topics:

1. Section 24(c) audit.
2. Availability of accurate Restricted Use Pesticide information.
3. Comprehensive policy compendium from Office of Pesticide Programs.
4. Fact Sheets—do they contain inaccurate information?
5. Advertising policy.
6. Unenforceable label language—policy statement.
7. Minor use policy statement.
8. Termiticides—Does SFIREG need to update its current position?
9. Effective dates of future restricted use classifications.
10. Availability of final printed labeling.
11. Granular restrictions—impact on the State programs.
12. EPA chemigation policy.
13. Other topics as appropriate.

The meeting of the Working Committee on Enforcement and Certification will be concerned with the following topics:

1. Standards for triple rinsing of pesticide containers.
2. Uniform reporting of Federal and State outputs under enforcement grants.
3. EPA's rule to cover the sale of restricted use pesticides to uncertified applicators.
4. "Timely and appropriate response" requirement in the enforcement grant guidance.
5. Need for an updated list of cancelled and suspended pesticides.
6. Enforcement policy on wood preservatives.
7. Farm worker safety rule.
8. Chemigation Label Improvement Program notice.
9. Advertising policy.
10. Update on bloc grants.
11. Termiticides—OPP action impact on certification and enforcement.
12. EPA Action Plan and schedule for FIFRA-RCRA Project—Possible impact on State regulatory programs.
13. Report from the EPA Office of Pesticide Certification and Training.
14. Wood preservatives certification and training.
15. State Plan review and revision.
16. Aid for regional category specific training manuals.
17. Emergency dumping from aircraft.
18. Date for required relabeling "Channels of Trade date" or "one date."
19. Disposal by end users of cancelled/suspended pesticides.
20. Question of restricted use for power pole wraps.
21. Other topics as appropriate.

Dated: April 10, 1986.

Steven Schatzow,

Director, Office Pesticide Programs.

BILLING CODE 6560-50-M

[WH-FRL-3005-6]

Reallotment of Funds Under Wastewater Treatment Works Construction Grants Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of reallotment of funds under Wastewater Treatment Works Construction Grants Program (40 CFR Part 35, Subpart I).

SUMMARY: This notice announces the distribution of unobligated fiscal year (FY) 1984 construction grant funds subject to reallotment after September 30, 1985, under section 205 of the Clean Water Act, 33 U.S.C. 1285; and explains the procedure by which the reallotment distribution was determined.

Section 205(d) of the Clean Water Act (the Act) requires that funds allotted for FY 1978 and beyond which are not obligated by the end of the initial allotment availability period ". . . shall be immediately reallotted by the Administrator . . .". This notice advises the public of the amounts available to the eligible States to be added to their allotments for grants for the construction of municipal wastewater treatment facilities. Under section 205(d), these funds are available for obligation until September 30, 1987.

DATED: April 21, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. John Olsen, Chief, Program Management Branch, Municipal Construction Division (WH-547), Office of Municipal Pollution Control, (202) 382-5837.

SUPPLEMENTARY INFORMATION: Sums allotted to a State under section 205 of the Act remain available for obligation during the fiscal year in which appropriated and the following 12 months (40 CFR 35.2010(b)). Funds not obligated at the end of the period of availability are reallotted to the States which fully obligated their allotments. $2,400,000,000 was appropriated by Pub. L. 98-45 for FY 1984. At the close of the availability period for the FY 1984 allotment (September 30, 1985), 19 States and territories had not obligated $9,948,254 of the $2.4 billion available in FY 1984 allotments.

As explained below, not all of the unobligated funds remaining after the period of availability are subject to reallotment at this time. Due to the following exception, the total amount reallotted is $9,943,154.

Northern Mariana Islands: Section 3(b)(2) of Pub. L. 95-348 (1978) provides that any funds made available to the Northern Mariana Islands (NMI) by the Congress after March 24, 1970 ". . . are hereby authorized to remain available until expended." Accordingly, construction grant funds allotted to the NMI which remain unobligated at the close of the period of availability prescribed by secten 205(b) of the Act are not subject to reallotment.

The amount remaining is $5,100 in FY 1984 funds. Because the NMI would have lost these funds to reallotment without this statutory provisions, section 205(d) prevents the NMI from receiving any funds of other States being reallotted.

Reallotment Procedure

To distribute the $9,943,154 balance subject to reallotment in accordance with the requirements of section 205(d) of the Act, the following procedure was used:

1. The percentages listed in section 205(c) of the Act (as amended by Pub. L. 97-117) were adjusted to reflect the absence of States which had not fully obligated their funds (§ 35.2010(b)).

2. The resulting percentages were applied to the $9,943,154 to arrive at the individual State allotments.

3. The resulting figures (rounded to the nearest $100) are listed in the table which follows. The table also identifies the States which did not fully obligate their funds and the amounts subject to reallotment.

These reallotted funds are available for obligation until September 30, 1987. After that date, unobligated balances will be reallotted under section 205(d) of the Act (§ 35.2010). Grants from these funds may be awarded as of the date of issuance of advices of allowance to the EPA Regional Administrators by the Comptroller of EPA.

Dated: April 12, 1986.

Lee M. Thomas,

Administrator.

BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

Agreement Filed; The Port of Tacoma Terminal

The Federal Maritime Commission hereby gives notice that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and may request a copy of the agreement and the supporting statement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10325. Interested parties may submit protests or comments on the agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 20 days after the date of the Federal Register in which this notice appears. The requirements for comments and protests are found in § 560.7 of Title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Any person filing a comment or protest with the Commission shall, at the same time, deliver a copy of that document to the person filing the agreement at the address shown below.

Agreement No.: 121-003904-004.
Title: The Port of Tacoma Terminal Agreement.
Parties:
Port of Tacoma (Port)
Totem Ocean Trailer Express, Inc. (Tote)

Synopsis: The proposed amendment would modify the agreement to (1) provide for the relocation of the Port's access to the preferential use area; and (2) substitute agreement exhibits to reflect the easement relocation and describe the premises as constructed. It would restate the agreement in its entirety and make certain nonsubstantive changes to the language of the agreement.

Filing Party: Mr. Thomas M. Kilbane, Jr., Garvey, Schubert, Adams & Barer, 1011 Western Avenue—10th Floor, Seattle, Washington 98104.

By Order of the Federal Maritime Commission.

Dated: April 16, 1986.

Tony P. Kominoth,

Assistant Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control

Vessel Sanitation Inspection Program

AGENCY: Centers for Disease Control (CDC), Public Health Service, HHS.

ACTION: Notice of program restructuring; discontinuation of routine sanitation inspections of international cruise ships by agency inspectors.

SUMMARY: The Centers for Disease Control (CDC) is restructuring the Vessel Sanitation Inspection Program for cruise ships that have international itineraries and call at U.S. ports. Routine sanitation inspections of such vessels by agency inspectors and publication of inspection results will be discontinued. CDC will provide the cruise ship industry with self-inspection guidelines for use in performing sanitation inspections.

EFFECTIVE DATE: April 30, 1986.

FOR FURTHER INFORMATION CONTACT: Laurence S. Farer, M.D., Director, Division of Quarantine, Center for Prevention Services, Centers for Disease Control, 1600 Clifton Rd., Atlanta, Georgia 30333.

SUPPLEMENTARY INFORMATION: The CDC Vessel Sanitation Inspection Program is conducted under the authority of Sections 361(a) and 366(c) of the Public Health Service Act (42 U.S.C. 264(a) and 269(c)). Regulations governing this program are Title 42, Part 71, of the Code of Federal Regulations.

In reviewing long-range public health needs and goals for the United States, CDC has determined that the Vessel Sanitation Inspection Program for cruise ships that have international itineraries and call at U.S. ports, should be restructured.

During the past 10 years, CDC and the cruise ship industry have worked together to improve the level of sanitation on cruise ships. This cooperative effort has resulted in an increase in the number of vessels able to meet CDC standards and a decrease in the frequency and severity of outbreaks of gastrointestinal disease on passenger vessels. Because of the heightened awareness of and attention to shipboard sanitation on the part of both the cruise ship industry and the traveling public, continued routine sanitation inspections by government inspectors are not necessary. Instead, CDC will work with the industry to initiate a self-inspection program which the industry can carry out on its own. CDC will continue to provide technical consultation and assistance, and investigate disease outbreaks if and when they occur. In accordance with the Public Health Service Act and applicable regulations, vessels will continue to be required to report illness and will remain subject to inspection when considered necessary.

A request for public comment on proposed changes in the Vessel Sanitation Inspection Program was published in the **Federal Register** (50 FR 27490) on July 3, 1985. Comments received as a result of the **Federal Register** Notice have been considered and appropriate technical changes will be included in the self-inspection guidelines.

Dated: April 14, 1986.

William E. Muldoon,

Director, Office of Program Support Centers for Disease Control.

[FR Doc. 86-8630 Filed 4-18-86; 8:45 am]

BILLING CODE 4160-18-M

National Institutes of Health

National Cancer Institute; Frederick Cancer Research Facility Advisory Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Frederick Cancer Research Facility Advisory Committee, National Cancer Institute, 8:30 a.m. to 5:00 p.m., May 12, 1986. The meeting will be held in the Conference Room in Building 426 at the Frederick Cancer Research Facility, Frederick, Maryland 21701.

The meeting will be open to the public on May 12 from 8:30 a.m. to 10:15 a.m. for a regular status report and discussion of changes and new initiatives. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed from 10:15 a.m. to adjournment on May 12 for review, discussion, and evaluation of individual projects and programs conducted by the contractor for the National Cancer Institute, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items. These proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the proposals, disclosure of which would constitute a clearly unwarrnted invasion of personal privacy.

Mrs. Winifred Lumsden, Committee Management Officer, National Cancer Institute, Building 31, Room 10A06, National Institutes of Health, Bethesda, Maryland 20892 (301-496-5708) will provide summaries of the meeting and rosters of committee members, upon request.

Dr. Berge Hampar, Executive Secretary, Frederick Cancer Research Facility Advisory Committee, National Cancer Institute, Frederick Cancer Research Facility, Building 427, Frederick, Maryland 21701 (301-695-1108) will furnish substantive program information.

Dated: April 7, 1986.

Betty J. Beveridge,

Committee Management Officer, NIH.

[FR Doc. 86-8684 Filed 4-18-86; 8:45 am]

BILLING CODE 4140-01-M

National Institute of General Medical Sciences; Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of the committees of the National Institute of General Medical Sciences for May and June 1986.

These meetings will be open to the public to discuss administrative details relating to committee business for approximately two hours at the beginning of the first session of the first day of the meeting. Attendance by the public will be limited to space available. These meetings will be closed thereafter in accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, for the review, discussion, and evaluation of individual research training grant and research center grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mrs. Ann Dieffenbach, Public Information Officer, National Institute of General Medical Sciences, National Institutes of Health, Building 31, Room 4A52, Bethesda, Maryland 20892 (Telephone: 301-496-7301), will provide a summary of the meeting and a roster of committee members.

Substantive program information may be obtained from each executive secretary whose name, room number, and telephone number are listed below each committee.

Name of Committee: Genetic Basis of Disease Review Committee
Executive Secretary: Ms. Linda Engel, Room 950, Westwood building, Telephone: 301-496-7125
Date of Meeting: May 30, 1986
Place of Meeting: Building 31C, Conference Room 7, National Institutes of Health, Bethesda, Maryland
Open: May 30, 1986, 8:30 a.m.-10:30 a.m.
Closed: May 30, 1986, 10:30 a.m.-adjournment

Name of Committee: Pharmacological Sciences Review Committee
Executive Secretary: Dr. Rodney Ulane, Room 952, Westwood Building, Telephone: 301-496-4772
Dates of Meeting: June 5-6, 1986
Place of Meeting: Building 31C, Conference Room 6, National Institutes of Health, Bethesda, Maryland
Open: June 5, 1986, 8:30 a.m.-10:30 a.m.
Closed: June 5, 1986, 10:30 a.m.-5:00 p.m.; June 6, 1986, 8:30 a.m.-adjournment

Name of Committee: Cellular and Molecular Basis of Disease Review Committee
Executive Secretary: Dr. Helen Sunshine, Room 950, Westwood Building, Telephone: 301-496-7125
Date of Meeting: June 9, 1986
Place of Meeting: Building 31C, Conference Room 7, National Institutes of Health, Bethesda, Maryland
Open: June 9, 1986, 8:30 a.m.-10:30 a.m.
Closed: June 9, 1986, 10:30 a.m.-5:00 p.m.

Name of Committee: Minority Access to Research Careers Review Committee
Executive Secretary: Dr. Agnes Donahue, Room 949, Westwood Building, Telephone: 301-496-7585
Dates of Meeting: June 12-13, 1986
Place of Meeting: Building 31C, Conference Room 9, National Institutes of Health, Bethesda, Maryland
Open: June 12, 1986, 8:30 a.m.-10:30 a.m.
Closed: June 12, 1986, 10:30 a.m.-5:00 p.m.; June 13, 1986, 8:30 a.m.-adjournment

(Catalog of Federal Domestic Assistance Program Nos. 13-859, 13-862, 13-863, 13-880, National Institute of General Medical Sciences, National Institutes of Health)

Dated: April 7, 1986.

BILLING CODE 4140-01-M

Public Health Service

National Toxicology Program; Availability of Technical Report on Toxicology and Carcinogenesis Studies of 2-Chloroethanol

The HHS' National Toxicology Program today announces the availability of the Technical Report describing toxicology and carcinogenesis studies of 2-chloroethanol, an intermediate in the synthesis of ethylene oxide and ethylene glycol and in the production of indigo, dichloroethyl formal and thiodiethylene glycol. It is also an industrial solvent, a pre-emergent plant growth stimulator, an extractant in the dewaxing of mineral oil, and an antioxidant for textile printing dyes.

Toxicology and carcinogenesis studies of 2-chloroethanol were conducted by dermal application of 2-chloroethanol dissolved in 70% ethanol/30% water solutions to groups of 50 F344/N rats of each sex at doses of 0, 50, or 100 mg/kg for 103 weeks or to groups of 50 Swiss CD-1 mice of each sex at doses of 0, 7.5, or 15 mg per animal for 104 weeks.

Under conditions of these 2-year dermal studies, there was no evidence of carcinogenicity [1] of 2-chloroethanol for male and female F344/N rats given 50 or 100 mg/kg per day or for male and female Swiss CD-1 mice given 7.5 or 15 mg per animal per day.

Copies of *Toxicology and Carcinogenesis Studies of 2-Chloroethanol (Ethylene Chlorohydrin) in F344/N Rats and Swiss CD-1 Mice (Dermal Studies)* (T.R. 275) are available

[1] The NTP uses five categories of evidence of carcinogenicity to summarize the strength of the evidence observed in each animal study: two categories for positive results ("clear evidence" and "some evidence"), one category for uncertain findings ("equivocal evidence"), one category for no observable effect ("no evidence"), and one category for studies that cannot be evaluated because of major flaws ("inadequate study").

VOL 51 ISS 76 AP 21 1986 UMI

without charge from the NTP Public Information Office, MD B2–04, P.O. Box 12233, Research Triangle Park, NC 27709. Telephone (919) 541–3991, FTS: 629–3991.

Dated: April 9, 1986.

David P. Rall,

Director.

BILLING CODE 4140–01–M

National Toxicology Program; Availability of Technical Report on Toxicology and Carcinogenesis Studies of Isophorone

The HHS' National Toxicology Program today announces the availability of the Technical Report describing toxicology and carcinogenesis studies of Isophorone, a solvent or cosolvent for polyvinyl and nitrocellulose resins, lacquers, finishes, pesticides, herbicides, and a variety of fats, oils and gums.

Toxicology and carcinogenesis studies of isophorone were conducted by administering 0, 250, 500 mg isophorone/kg body weight per day by gavage in corn oil to groups of 50 F344/N rats and 50 B6C3F$_1$ mice of each sex, 5 days per week for 103 weeks.

Under the conditions of these 2-year gavage studies, there was some evidence of carcinogenicity [1] of isophorone in male F344/N rats as shown by the occurrence of renal tubular cell adenomas and adenocarcinomas in animals given 250 or 500 mg/kg per day; carcinomas of the preputial gland were also observed at increased incidence in male rats given 500 mg/kg. There was no evidence of carcinogenicity in female F344/N rats given 250 or 500 mg/kg per day. For male B6C3F$_1$ mice, there was equivocal evidence of carcinogenicity of isophorone as shown by an increased incidence of hepatocellular adenomas or carcinomas (combined) and of mesenchymal tumors in the integumentary system in animals given 500 mg/kg per day and by an increase in malignant lymphomas in animals given 250 mg/kg per day. There was no evidence of carcinogenicity of isophorone in female B6C3F$_1$ mice given 250 or 500 mg/kg per day.

[1] The NTP uses five categories of evidence of carcinogenicity to summarize the strength of the evidence observed in each animal study: two categories for positive results ("clear evidence" and "some evidence"), one category for uncertain findings ("equivocal evidence"), one category for no observable effect ("no evidence"), and one category for studies that cannot be evaluated because of major flaws ("inadequate study").

Copies of *Toxicology and Carcinogenesis Studies of Isophorone in F344/N Rats and B6C3F$_1$ Mice (Gavage Studies)* (TR 291) are available without charge from the NTP Public Information Office, MD B2–04, P.O. Box 12233, Research Triangle Park, NC 27709. Telephone (919) 541–3991, FTS: 629–3991.

Dated: April 16, 1986.

BILLING CODE 4140–01–M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Plan for the Use and Distribution; Wichita and Affiliated Tribes

April 9, 1986.

This notice if published in exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary for Indian Affairs by 209 DM 8.

The Act of October 19, 1973 [Pub. L. 93–134, 87 Stat. 466), as amended, requires that a plan be prepared and submitted to Congress for the use and distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated on March 20, 1985, in satisfaction of the award granted to the Wichita and Affiliated Tribes (Keechi, Waco and Tawakonie) before the United States Claims Court in Dockets 371 and 372. The plan for the use and distribution of the funds was submitted to Congress with a letter dated October 29, 1985 and was received (as recorded in the Congressional Record) by the Senate on November 5, 1985 and by the House of Representatives on November 6, 1985. The plan became effective on February 26, 1986 as provided by the 1973 Act, as amended by Pub. L. 97–458, since a joint resolution disapproving it was not enacted. The plan reads as follows:

For the use and Distribution of the Wichita and Affiliated Tribes (Keechi, Waco and Tawakonie) of Oklahoma Judgment Funds in Dockets 371 and 372 Before the United States Claims Court.

The funds appropriated on March 20, 1985, in satisfaction of an award granted to the Wichita and Affiliated Tribes (Keechi, Waco and Tawakonie) in Dockets 371 and 372 before the United States Claims Court, less attorney fees and litigation expenses, and including all interest and investment income accrued, shall be used and distributed as follows:

Per Capita Payment Aspect

The Wichita and Affiliated Tribes (Keechi, Waco and Tawakonie) membership roll shall be brought current under the enrollment procedures, as provided in the Tribe's Governing Resolution adopted May 8, 1981, and amended on June 24, 1972 and on May 21, 1977; to include all eligible members born on or prior to and living on the effective date of this plan. Subsequent to the preparation and approval of the membership roll, the Secretary of the Interior (hereinafter "Secretary") shall make a per capita distribution of eighty (80) percent of the judgment funds, in sums as equal as possible, to each tribal enrollee.

Programming Aspect

Twenty (20) percent of the funds, and any shares remaining after the per capita payment provided above, shall be invested by the Secretary pursuant to the provisions of 25 U.S.C. 162a. The invested funds, including the interest and investment income accrued, shall be made available for use on a budgetary basis in programs of social and economic benefits, as proposed in the Tribe's plan of operation as recommended by the membership and subject to the approval of the Secretary.

The tribal membership shall have an opportunity to be heard in the development of all proposed programs and to discuss and take action upon them. The Executive Committee shall implement and administer the approved programs.

General Provisions

The per capita shares of living competent adults shall be paid directly to them. Per capita shares of legal incompetents and minors shall be handled as provided in the Act of October 19, 1973, (87 Stat. 466) as amended. The per capita shares of deceased individual beneficiaries shall be distributed to the heirs and legatees as determined in accordance with 43 CFR, Part 4, Subpart D.

None of the funds distributed per capita or held in trust under the provisions of this plan, shall be subject to Federal or State income taxes, and the per capita payments shall not be considered as income or resources when determining the extent of eligibility for assistance under the Social Security Act or, except for per capita shares in excess of $2,000 any Federal of federally assisted programs.

Ross O. Swimmer,

Assistant Secretary—Indian Affairs.

BILLING CODE 4310–02–M

Bureau of Land Management

Prineville District; Advisory Council Meeting

Notice is hereby given in accordance with Pub. L. 94–579 and 43 CFR Part 1780 that a meeting of the Prineville District Advisory Council will be held on May 29, 1986.

The Council will meet in the District conference room at 10:00 a.m. at 185 E. Fourth Street, Prineville, OR 97754.

The agenda will consist of a discussion of the exchange/land base adjustment program, the upcoming resource management plan/environmental impact statement for the Brothers/LaPine Planning Area located in the south half of the Prineville District and the decisions reached in the recently completed resource management plan for the Two Rivers Planning Area located in the north half of the district. The Take Pride in America Program which has been initiated by the Secretary of the Interior will also be discussed.

The public and news media is welcome to attend any segment of the Council meeting. Persons wishing to address the Council either orally or in writing should contact the District Manager at the above address by May 27, 1986.

Summary minutes of the meeting will be maintained in the District Office and be available for public inspection and reproduction (during regular business hours) within thirty days following the meeting.

James L. Hancock,

District Manager.

BILLING CODE 4310–33–M

Spokane District Advisory Council; Meeting

Notice is hereby given in accordance with Pub. L. 94–579 and 43 CFR Part 1780, that a meeting of the Spokane District Advisory Council will be held on Wednesday, May 21, 1986. The meeting will begin at 9:00 a.m. in the Conference Room of the BLM Spokane District Office, East 4217 Main Avenue, Spokane, Washington.

The agenda for the meeting is as follows:

1. Discussion of the Juniper Dunes Wilderness Area.
2. Discussion of the proposed BLM/USFS interchange.
3. Discussion of the Annual Work Plan.
4. Discussion of "Project Pride."
5. Discussion of old business.
6. Public comments and statements.

Any responsible person wishing to make an oral statement should notify the District Manager, Bureau of Land Management, Spokane District Office, East 4217 Main Avenue, Spokane, Washington 99202, or telephone (509) 456–2570 by the close of business, 4:30 p.m., Friday, May 16, 1986. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

A written report of the Council meeting will be maintained at the BLM Spokane District Office and will be made available for public inspection. Reproduction of the meeting report will be made available to the public at the cost of duplication. The meeting is open to the public and news media.

Joseph K. Buesing,

District Manager.

BILLING CODE 4310–33–M

Colorado; Realty Action

AGENCY: Bureau of Land Management, Interior.

ACTION: Exchange of public and private lands in Conejos County. C–35455.

SUMMARY: The following described lands have been determined to be suitable for disposal by exchange under section 206 of the *Federal Land Policy and Management Act of 1976*, (90 Stat. 2756; 43 U.S.C. 1716):

T. 33 N., R. 10 E., NMPM.
Sec. 35: NE¼,
T. 33 N., R. 11 E., NMPM,
Sec. 18: W½W½,
Sec. 20: E½NE¼, NE¼SE¼,
Sec. 21: N½, N½SE¼, N½SW¼,
Sec. 22: NW¼.
Comprising 1,080 acres of public lands.

In exchange for these lands the United States will acquire the following described lands from Stan and Lester Bagwell:

T. 32 N., R. 10 E., NMPM,
Sec. 12: SE¼NE¼, NE¼SE¼,
T. 32 N., R. 11 E., NMPM,
Sec. 7: Lots 2, 3 & 4, SE¼SE¼ and West 1011 ft. of NE¼SW¼,
Sec. 18: Lots 1, 2 & N½ of 4, E½NW¼, NE¼SW¼, N½SE¼SW¼,
T. 33 N., R. 11 E., NMPM,
Sec. 22: Lots 3 & 4, S½SW¼,
Sec. 27: Lots 1, 2, 3 and NW¼NW¼,
Sec. 28: Lots 1 and 2,
Comprising 792.67 acres M/L of private lands.

The purpose of this exchange is to acquire the non-Federal lands which have high public values for a rafting launch site, public outdoor recreational use, wildlife habitat and management of adjoining public lands. The lands to be obtained in the exchange will have good physical and legal access. The public lands to be transferred to non-Federal ownership have few or no public values.

The values of the lands to be exchanged are approximately equal; full equalization of values will be achieved by payment to the United States by Stan and Lester Bagwell of funds in an amount not to exceed 25 percent of the total value of the lands to be transferred out of Federal ownership.

Lands to be transferred from the United States will be subject to all valid existing rights. Included in the patent will be a reservation to the United States for rights-of-way for ditches and canals under the Act of August 30, 1890. A part of the land may be transferred subject to section 24 of the Federal Power Act.

Publication of this notice segregates the public lands from the operation of all non-discretionary appropriations, including the mining laws, for a period of 2 years from the date of first publication.

Further information concerning the exchange, including the environmental assessment is available for review at the San Luis Resource Area, Alamosa, Colorado.

For a period of 45 days from the date of first publication, interested parties may submit comments to Canon City District Office, 3080 East Main Street, Canon City, Colorado 81212, telephone (303) 275–0631.

Dennis R. Sparks,

District Manager.

[FR Doc. 86–8044 Filed 4–18–86; 8:45 am]

BILLING CODE 4310–JB–M

National Park Service

Intention To Negotiate Concession Contract; Ross Lake Resort, Inc.

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that sixty (60) days after the date of publication of this notice, the Regional Director of the Pacific Northwest Region of the National Park Service proposes to negotiate a concession contract for the continued

VOL 51 ISS 76 AP 21 1986 UMI

provision of marina services for the public at Ross Lake National Recreational Area within North Cascades National Park Complex in the state of Washington. The contract will be for a period of five (5) years from June 15, 1986 through June 14, 1991.

The existing concessioner, Ross Lake Resort, Inc., has performed its obligations to the satisfaction of the Secretary under a current contract. Therefore, pursuant to the Act of October 9, 1965, the existing concessioner is entitled to be given a preference in the negotiation of a new contract. This preference allows an existing satisfactory concessioner to offer to meet the terms of the best offer made in response to the terms of the Statement of Requirements if that offer is not that of the existing satisfactory concessioner.

For a copy of the Statement of Requirements describing the opportunity offered and including the application requirements, interested parties should write to the Superintendent, North Cascades National Park Complex, 2105 Highway 20, Sedro Woolley, Washington, 98284 or call Mr. Phil Parker, Concession Analyst, 206–856–5700.

The Secretary will consider and evaluate all proposals timely received. Any proposal, including that of the existing concessioner, must be postmarked or hand delivered on or before the sixtieth (60th) day following publication of this notice to be considered and evaluated.

This contract action has been determined to be categorically excluded from the procedural provisions of the National Environmental Policy Act and no environmental document will be prepared.

Dated: March 19, 1986.

William J. Briggle,

Acting Regional Director, Pacific Northwest Region.

[FR Doc. 86–8881 Filed 4–18–86; 8:45 am]

BILLING CODE 4310-70-M

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Board for International Food and Agricultural Development; Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, notice is hereby given of the seventy-sixth meeting of the Board for International Food and Agricultural Development (BIFAD) on May 13 and 14, 1986.

The purposes of the meeting are to consider an agenda for the second decade of Title XII, to hear presentations on the Biden-Pell grants for Development Education and the Agricultural Education Project in Cameroon, to consider proposed extensions of the Collaborative Research Support Programs on Peanuts and Small Ruminants, and to receive reports on the American Association of State Colleges and Universities, proposal for a program of linkages with smaller institutions, BIFAD's role in evaluation of Title XII Projects, policies affecting agriculture, and a study of institution-building projects of its universities in Africa.

The meeting will held at 1:30 and adjourn at 5:00 on May 13 and will begin at 8:30 on May 14 and adjourn at 12:30. Both days the meetings will be held in the Loy Henderson Conference Room in the State Department, 1st floor, Washington, DC 20523. Any interested person may attend, may present oral statements with the Board before or after the meeting, or may present oral statements in accordance with procedures, established by the Board, and to the extent the time available for the meeting permits. A person lacking a U.S. Government building pass acceptable to the State Department should notify Gretchen Berry of the BIFAD Staff (telephone (202) 647–6449) in order that arrangements may be made to facilitate entry into the building.

Erven J. Long, Director, Research and University Relations, Bureau for Science and Technology, Agency for International Development, is designated as AID Advisory Committee Representative at this meeting. It is suggested that those desiring further information write to him in care of the Agency for International Development, International Development Cooperation Agency, Washington, DC 20523, or telephone him at (703) 235–8929.

Dated: April 15, 1986.

Handy Williamson, Jr.,

Acting Director, Office of Research and University Relations.

[FR Doc. 86–8849 Filed 4–18–86; 8:45 am]

BILLING CODE 6116-01-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 290 (Sub-2)]

Railroad Cost Recovery Procedures

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Approval of Rail Cost Adjustment Factor and Decision.

SUMMARY: The Commission has decided to approve the cost index filed by the Association of American Railroads (AAR) under the procedures of Ex Parte No. 290 (Sub-No. 2), *Railroad Cost Recovery Procedures*. Application of the index provides for a second quarter 1986 Rail Cost Adjustment Factor (RCAF) of 1.023. The RCAF shows a decrease of .046 or 4.3 percent in railroad input prices from the first quarter 1986 level of 1.069. Since the second quarter 1986 RCAF is below the level of a prior RCAF, no rate actions are ordered.

EFFECTIVE DATE: April 1, 1986.

FOR FURTHER INFORMATION CONTACT: Robert C. Hasek (202) 275–0938, or Douglas Galloway (202) 275–7278.

SUPPLEMENTARY INFORMATION: By decision served January 2, 1985 (50 FR 87, January 2, 1985) we outlined the procedures for the calculation of the all inclusive index of railroad input costs and the methodology for the computation of the RCAF. These procedures replaced an interim methodology which was formerly used. AAR is required to calculate the forecasted index on a quarterly basis and submit it on the fifth day of the last month of each calendar quarter.

We have reviewed AAR's calculations of the index for the second quarter of 1986 and find that, with the exception of the lease rental portion of the equipment rents component, these calculations comply with the rules contained in our decision served January 2, 1985. AAR's handling of lease rentals is acceptable on an interim basis.

The indexing rules call for the lease rental portion of the equipment rents component of the index to be calculated using actual data. On November 15, 1985, AAR filed a petition to reopen this proceeding for the purpose of modifying our rule concerning this component. AAR's petition is currently under consideration. At this time we will continue to accept use of the Producer Price Index for Industrial Commodities, less Fuel, Power and Related Products as a surrogate for the lease rental portion of the equipment rents component of the index. We have previously observed that the lease rental portion of the index is only 2.4 percent of the total and is not likely to have a major effect on the RCAF.

In our most recent decision in this proceeding we restated a lump sum payment to certain members of the United Transportation Union (UTU) by amortizing it over the life of the present union contract with interest at the three-month Treasury Bill interest rate. We instructed AAR to continue this calculation by amortizing the principal balance over the remaining quarters using a three-month Treasury Bill interest rate available seven days prior to the submission date of the quarterly index. We have verified AAR's calculation and find that it complies with our instructions.

The major reason for the sharp decrease in the second quarter 1986 RCAF from the first quarter level is a projected 49.2 percent decrease in fuel prices. Additionally, all other components except Equipment Rents showed a slight decline from first quarter levels.

We find the RCAF for the second quarter of 1986 to be 1.023. This is a decrease of .046 or 4.3 percent from the first quarter of 1986. Since the second quarter RCAF is below a previously higher level, no rate actions are ordered.

The indices and RCAF derived from AAR's second quarter 1986 calculations are shown in Table "A" of the Appendix to this decision. Table "B" shows the fourth quarter 1985 index calculated on both an actual basis and a forecasted basis for comparative purposes.

We will issue a notice of proposed rulemaking (NPR) soon proposing changes in the final rules in this proceeding which were issued on January 2, 1985. The NPR will have an expedited comment period. We will propose that rates increased when the RCAF declines. That NPR will also solicit comments on whether the RCAF should be adjusted for forecast error. Action on petitions for reconsideration for the first quarter RCAF, adjustments to the second quarter RCAF, and for modification of railroad rate levels will be held in abeyance until issuance of a final notice in the proposed rulemaking. Because we are not ordering rollbacks at this time, our decision to make the new RCAF effective retroactively will have no immediate rate and tariff implications. Rather, the practical consequences of the April 1 implementaiton date will be addressed in our final decision(s) at the conclusion of the rulemaking proceeding.

This decision will not significantly affect the quality of the human environment or the conservation of energy resources. This proceeding will not have a significant adverse impact on a substantial number of small entities because these procedures simplify a formerly complex and burdensome rate increase procedure.

Authority: 49 U.S.C. 10321, 10707a, 5 U.S.C. 553.

Dated: April 15, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

James H. Bayne,

Secretary.

Appendix

TABLE A.—EX PARTE 290 (SUB-NO. 2) ALL INCLUSIVE INDEX OF RAILROAD INPUT COSTS

Line No. and index component	1984 weights	First quarter 1986 forecast	Second quarter 1986 forecast
1. Labor	80.5	150.4	149.7
2. Fuel	10.8	101.8	51.7
3. Materials and supplies	7.8	107.1	105.2
4. Equipment Rents	8.4	151.5	151.8
5. Depreciation	7.4	116.5	116.4
6. Other Items [1]	14.1	120.9	120.2
7. Weighted Average	100.0	135.1	129.2
8. Linked Index [2]		129.2	123.7
9. Rail Cost Adjustment Factor [3] (10/1/82=100) 130.9=100		1.069	1.023

[1] Other Items are a combination of Purchased Services, Casualties and Insurance, General and Administrative, Other Taxes and Loss and Damage, all of which are measured by the Producer Price Index for Industrial Commodities, less Fuel, Power and Related Products.

[2] Linking is accomplished by a change to 1984 weights beginning with the fourth quarter 1985. The following formula was used for the second quarter 1986 index:

$$\frac{\text{2nd Quarter 1986 Index (1984 Weights)}}{\text{1st Quarter 1986 Index (1984 Weights)}} \times \text{1st Quarter 1986 Index (Linked Index)} = \text{Linked Index (1980 Weights to 1984 Weights)}$$

or

$$\frac{129.2}{135.1} \times 129.1 = 123.7$$

[3] The denominator was rebased to an October 1, 1982 level in accordance with the requirements of the Staggers Rail Act of 1980.

Table B.—Ex Parte 290 (Sub-No. 2) Comparison of Fourth Quarter 1985 Index Calculated on Both a Forecasted and an Actual Basis

Line No. and index component	1984 weights (percent)	Fourth quarter 1985 forecast	Fourth quarter 1985 actual
1. Labor	80.5	139.0	139.0
2. Fuel	10.8	87.1	87.0
3. Materials and Supplies	7.8	107.7	107.7
4. Equipment Rents	8.4	151.8	151.5
5. Depreciation	7.4	116.0	116.4
6. Other Items	14.1	120.0	120.0
7. Weighted Average	100.0	127.8	128.8
8. Linked Index		122.3	123.3
9. Rail Cost Adjustment Factor		1.012	[1] 1.009

[1] For comparative purposes only, an RCAF for the fourth quarter 1985 has been calculated using actual data. The published RCAF for the fourth quarter 1985 was computed using forecasted data.

[Finance Docket No. 30783]

James River Corporation et al.—Control Exemption

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: Pursuant to 49 U.S.C. 10505 the Commission exempts James River Corporation (JR) from 49 U.S.C. 11343 for the acquisition by JR of control of Crown Zellerbach Corporation (CZ) and in turn of Western Transportation Co., Inc., a wholly-owned subsidiary of CZ, subject to employee protective conditions. The operating rights of Palantic Steamship Co., Inc. are cancelled and the request to exempt the acquisition, by JR of control of Palantic Steamship Co., Inc., through the acquisition of control of CZ, is dismissed.

DATES: This exemption is effective April 28, 1986.

Petitions to reopen must be filed by May 12, 1986.

ADDRESSES: Send pleadings referring to Finance Docket No. 30783 to:

(1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423

(2) Petitioner's representatives: Richard H. Catlett, Jr., McGuire, Woods & Battle, One James Center, Richmond, VA 23219.

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423 or call 289–4357 (DC Metropolitan area) or toll free (800) 424–5403.

Decided: April 14, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

James H. Bayne,

Secretary.

NATIONAL SCIENCE FOUNDATION

Committee Management, Notice of Establishment

A determination has been made that the establishment of the Advisory Panel for Advanced Scientific Computing is necessary and in the public interst in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF), and other applicable law. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Panel: Advisory Panel for Advanced Scientific Computing.

VOL 51 ISS 76 AP 21 1986 UMI

Purpose: To advise on the merit of proposals for the establishment of national supercomputer centers and for the establishment of appropriate networking methods between researchers, institutions, and the centers.

Dated: April 16, 1986.

M. Rebecca Winkler,

Committe Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a new guide planned for its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specfic problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for pemits and licenses.

The draft guide, temporarily identified by its task number, CE 301-4 (which should be mentioned in all correspondence concerning this draft guide), is entitled "Standard Format and Content for the Safety Analysis Report for Onsite Storage of Spent Fuel Storage Casks" and is intended for Division 3, "Fuels and Materials Facilities." It is being developed to provide guidance on the type of information needed by the NRC staff for its evaluation of a Safety Analysis Report for storage of spent fuel in casks at a nuclear reactor site. The guide also provides a format for submitting this information.

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review and do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Written comments may be submitted to the Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Comments may also be delivered to Room 4000, Maryland National Bank Building, 7735 Old Georgetown Road, Bethesda, Maryland from 8:15 a.m. to 5:00 p.m. Copies of comments received may be examined at the NRC Public Document Room, 1717 H Street, NW., Washington, DC. Comments will be most helpful if received by June 16, 1986.

Although a time limit is given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 14th day of April 1986.

For the Nuclear Regulatory Commission.

Guy A. Arlotto, Director,

Division of Engineering Technology, Office of Nuclear Regulatory Research.

[FR Doc. 86-8668 Filed 4-18-86; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50-382, License No. NPF-38 EA 85-10]

Louisiana Power & Light Co. (Waterford, Unit 3); Order Imposing Civil Monetary Penalties

Louisiana Power & Light Company (the licensee) is the holder of Operating License NPF-38 (the license) issued by the Nuclear Regulatory Commission (the Commission or NRC) on March 16, 1985. The license authorizes the licensee to operate the Waterford 3 Steam Electric Station, Unit 3 in accordance with the conditions specified therein.

II

NRC safety inspections of the licensee's activities under Construction Permit CPPR-103 were conducted from June 1983-September 1985. During these inspections, the NRC staff determined that the licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalties (NOV) was served upon the licensee by letter dated May 24, 1985. The NOV stated the nature of the violations, the provisions of the NRC's requirements that the licensee had violated, and the amount of the civil penalties proposed for the violations. The licensee responded to the NOV on July 19, 1985. Upon consideration of the licensee's response, and the statements of fact, explanations, and arguments for remission or mitigation of the proposed civil penalties contained therein, as set forth in the Appendix to this Order, the Director, Office of Inspection and Enforcement, has determined that civil penalties in the amount of One Hundred Ten Thousand Dollars ($110,00) should be imposed.

III

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2282, Pub. L. 96-295, and 10 CFR 2.205, it is hereby ordered that:

The licensee pay civil penalties in the amount of $110,000 within thirty days of the date of this Order by check, draft, or money order payable to the Treasurer of the United States and mailed to the Director, Office of Inspection and Enforcement, USNRC, Washington, DC 20555.

IV

The licensee may, within thirty days of the date of this Order, request a hearing. A request for a hearing shall be addressed to the Director, Office of Inspection and Enforcement at the above address. A copy of the hearing request shall also be sent to the Executive Legal Director, Office of the Executive Legal Director, USNRC, Washington, DC 20555. If a hearing is requested, the Commission will issue an Order designating the time and place of hearing. Upon failure of the licensee to request a hearing within thirty days of the date of this Order, the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

(a) Whether the licensee violated NRC requirements as set forth in the Notice of Violation and Proposed Imposition of Civil Penalties, as amended by the enclosed Appendix, and

(b) Whether on the basis of such violations this Order should be sustained.

Dated at Bethesda, Maryland, the 10th day of April 1986.

For the Nuclear Regulatory Commission.

James M. Taylor, Director,

Office of Inspection and Enforcement.

Appendix

On May 24, 1985 a Notice of Violation and Proposed Imposition of Civil Penalties (NOV) was issued to Louisiana Power and Light Company (LP&L) for violations of NRC requirements identified during several special and routine NRC inspections. LP&L's response to the NOV was provided in a letter dated July 19, 1985. The response provides the reasons why the licensee believes several proposed violations are not violations and why mitigation of some of the proposed civil penalties is appropriate. LP&L also provides additional information unavailable at the time of the NRC inspection and clarifies existing information regarding the disputed violations. The contested violations are restated below followed by a description of the licensee's response, and the NRC's evaluation and conclusions. Violations that are admitted and where mitigation is requested are not restated. However, a description of licensee's response and the NRC's evaluation and conclusions are provided as appropriate.

Violation I.D—Failure To Take Adequate Corrective Action (Licensee admits Violations I.A, I.B, I.C, I.E, I.F., and I.G)

Criterion XVI of 10 CFR 50, Appendix B requires that measures be established to assure that conditions adverse to quality, such as failures, malfunctions, deficiencies, deviations, defective material and equipment, and nonconformances are promptly identified and corrected. In the case of significant conditions adverse to quality, the measures shall assure that the cause of the condition is determined and corrective action taken to preclude repetition.

Louisiana Power and Light (LP&L) Quality Assurance (QA) Manual Section QR 16.0, Revision 2, "Corrective Action," paragraph 16.3, requires, in part, that LP&L and its major contractors implement procedures for correction of significant conditions adverse to quality which include determining the cause(s) of the significant adverse conditions, taking prompt corrective action to prevent repetition of the adverse conditions, and documenting and reporting the adverse conditions along with their determined cause(s) and corrective actions to appropriate levels of management for review and assessment.

Contrary to the above:

LP&L failed to take adequate actions to correct two Significant Construction Deficiencies (SCD) 73 and 78 which they issued on April 11, 1983, and April 28, 1983, respectively, to address welding deficiencies by American Bridge in the Reactor Containment Building and the Reactor Auxiliary Building. A comprehensive reinspection program was initiated by LP&L and rework has been completed. A subsequent inspection by the NRC of approximately 380 welds fabricated by Peden Steel Company, which was an American Bridge subcontractor, revealed several welds which did not meet the specified acceptance criteria.

Reference (Ref): Construction Appraisal Team (CAT) [NRC Inspection Report 50-382/84-07], Section VIII.B.4.

Summary of the Licensee's Repsonse

LP&L admits the violation as stated with the following exceptions. LP&L denies that corrective actions for SCD-73 were incomplete in that SCD-73 was retracted by LP&L and became a subset of SCD-78. Thus, actions were completed for SCD-73 under the scope of SCD-78. Additionally, since Peden Steel was not a subcontractor for American Bridge, the scope of both SCDs did not include Peden Steel activities. LP&L does admit, however, that corrective actions were incomplete for SCD-78. The NRC identified that the scope of SCD-78 did not, but should have, included the American Bridge work on the missile framing for both steam generators.

NRC Evaluation of Licensee's Response

The NRC staff reviewed SCD-73, dated April 11, 1983, and SCD-78, dated April 28, 1983, and verified that SCD-73 had been incorporated into SCD-78. In addition, the NRC staff's review verified that Peden Steel was not a subcontractor for American Bridge and, therefore, was not within the scope of SCD-73 or SCD-78. However, the failure of the licensee to include work performed by American Bridge on the steam generator missile framing as part of the total reinspection effort identified in the scope of SCD-78 sufficiently illustrates an example of a significant weakness that existed in LP&L's implementation of its quality assurance program with regard to its corrective action program.

Conclusion

The subject violation has been amended to read as follows:

LP&L failed to take adequate actions to correct Significant Construction Deficiency 78, issued on April 28, 1983 that addressed welding deficiencies by American Bridge in the Reactor Containment Building and the Reactor Auxiliary Building. A comprehensive reinspection program was initiated by LP&L and rework has been completed. However, work performed by American Bridge on the steam generator missile framing was not included in the scope of Significant Construction Deficiency 78.

The NRC staff views this as a single example of the licensee's failure to take adequate corrective action to identified problems. Therefore, as actions taken to resolve deficiencies identified by Significant Construction Deficiency 73 were apparently appropriate, the civil penalties associated with Violation I.D. are being mitigated 50%, a reduction of civil penalties in the amount of Two Thousand Five Hundred Dollars ($2,500).

Violation II—Failure to Ensure Qualification of QA Personnel

Summary of Licensee Response

LP&L admits the violation as stated in the NOV. However, the licensee requests mitigation of the civil penalties proposed for this violation in that, because of the potential severity of this violation, it initiated and completed prompt, intensive, and exhaustive corrective action. Specifically, a verification program was implemented to review the professional credentials of 100 percent of the Quality Assurance/Quality Control (QA/QC) personnel ever employed during the construction phase of Waterford 3 who performed safety-related activities. In addition, the NUS Corporation provided an independent overview of the program.

The licensee's conclusion, as communicated in the "Collective Significance" document as part of its response to the Prelicensing Assessment, indicated that with the exception of Mercury Company, the disposition of most deficiencies identified in Prelicensing Assessment Nos. 1 and 10 did not require any reinspection. For Issue No. 20, an engineering evaluation of the work performed by the Construction Management Team (CMT) personnel established that questions about personnel qualifications did not render the work indeterminate. Also, many other methods (e.g., Authorized Nuclear Inspector, Nondestructive Examination, perequisite preoperations/integrated testing, overinspections, etc.) provide assurance that quality has been built into the plant. Since no significant hardware changes were required, positive evidence as to the adequacy of the overall Construction QA program was provided.

NRC Evaluation of the Licensee's Response

The QA program is required to provide control over activities affecting the quality of identified structures, systems, and components to an extent consistent with their importance. One aspect of this QA program is the need for verification of quality by inspection and tests. To ensure the validity of this verification of quality, the personnel performing activities affecting quality must possess sufficient education and experience, and be suitably trained, to achieve and maintain proficiency in performing their activities.

When a breakdown in the quality verification program occurs, extensive corrective actions are necessary to reestablish confidence in the structures, systems, and components important to safety. LP&L accomplished this by implementing a verification program for the review of the professional credentials of 100 percent of the QA/QC personnel ever employed at Waterford 3 who performed safety-related work, performing engineering evaluations of work performed by individuals that may not have been qualified, and using other methods (e.g., ANI, NDE, prerequisite preoperations/integrated testing, overinspections, etc.) which provided assurance that quality had been built into the plant.

The NRC staff acknowledges that LP&L has taken corrective actions. However, these actions were not unusually prompt nor extensive in view of the severity of the

BEST COPY AVAILABLE

VOL 51 ISS 76 AP 21 1986 UMI

problem, and were necessary to verify the quality of the plant *after* the construction of the facility was essentially completed. The intent of the QA program is to provide control over activities while they are in progress. These violations provide multiple examples where LP&L's QA program did not ensure qualification of QA personnel performing safety-related inspection activities while construction activities were in progress. Therefore, mitigation of the civil penalties for prompt and extensive corrective actions is not appropriate.

Conclusion

The NRC staff believes that imposing the proposed civil penalty amount associated with Violation II is warranted. Mitigation based on prompt and extensive corrective action for this violation is not appropriate in this case. Furthermore, the civil penalties emphasize the need for LP&L to ensure that QA/QC personnel satisfy the appropriate qualification requirements during the operations phase so that an effective operations QA program can be better implemented.

Violation III—Failure to Adequately Disposition Conditions Adverse to Quality

(Only the pertinent portions of the violation that are denied are restated below.)

Criterion XVI of 10 CFR 50, Appendix B requires that measures to be established to assure that conditions adverse to quality, such as failures, malfunctions, deficiencies, deviations, defective material and equipment, and nonconformances are promptly identified and corrected. In the case of significant conditions adverse to quality, the measures shall assure that the cause of the condition is determined and corrective action taken to preclude repetition.

LP&L QA Manual Section QR 16.0, "Corrective Action," paragraph 16.2, requires in part that the major contractors and their suppliers establish written procedures for identifying, for determining the cause of, for evaluating, and for correcting conditions adverse to quality, such as failures malfunctions, deficiencies, deviations, defective material and equipment and nonconformances.

A. Ebasco Procedure ASP–III–7, Issue K, "Processing of Nonconformances," paragraph 4.3 defines a nonconformance as a condition in characteristics, documentation, or procedure which renders the quality of the item or service unacceptable or indeterminate. Attachment 7.1, Item 15, requires that the recommended disposition provide specific resolution to correct the nonconforming condition, provide specific resolution to correct the nonconforming condition, including program changes necessary, i.e., revision to specifications, procedures, retraining of personnel, etc. In addition, Item 20 requires that a separate individual evaluate the disposition to ensure that the recommended disposition provides justification as applicable to support and document compliance with applicable codes and standards or makes reference to the appropriate analysis reports.

Contrary to the above, the disposition for the following examples of Ebasco NCRs was not adequate to resolve the identified nonconformance. (30 examples were provided for this violation. The examples are restated as necessary in the Summary of the Licensee's Response below.)

B. Mercury Procedure SP–868, "Procedure for Handling of Nonconformances and Corrective Action," paragraph 4.2, defines a disposition as, "Those actions required to resolve a nonconformance."

Contrary to the above, the recommended disposition for the following examples of Mercury NCRs was not adequate to resolve the identified nonconformance . . . (15 examples were provided for this violation. Examples are restated as necessary in the Summary of the Licensee's response below.)

C. Ebasco Procedure ASP–IV–70, "Handling of Engineering Discrepancy Notices," in paragraph 4.1 defines a discrepancy as "A deviation from the specified requirements (including procedures) that can be readily corrected in accordance with standard approved operating procedures or specifications based on good engineering practices. Discrepancies do not require an elaborate engineering evaluation or disposition for correction. They are deviations from good engineering practice and procedures."

Contrary to the above, LP&L and its contractor Ebasco demonstrated a pattern of dispositioning Engineering Discrepancy Notices (EDNs) "accept as is" or "use as is" when Ebasco Procedure ASP–IV–70, "Handling of Engineering Discrepancy Notices," did not allow this disposition. The correct disposition of an EDN is to bring the subject item into conformance or generate a nonconformance for disposition.

Examples of EDNs dispositioned "accept as is" are:

1. EDN–EC–1646 Arc strikes and undercut.
2. EDN–C–1618 Procedural violations on rework of emergency diesel generator component.
3. EDN–EC–1476 MT or PT on the weld root pass was bypassed.

Ref: SSER–7, A–302.

Summary of the Licensee's Response

The licensee denies ten of the thirty examples in Violation III.A., denies three of the nine examples in Violation III.B, and denies Violation III.C in its entirety. The licensee did not address six of the examples in Violation III.A and these are presumed to be admitted. LP&L also requests mitigation of the civil penalties proposed for Violations III.A and III.B. A description of each of the licensee's arguments for the contested violations follows:

III.A. *Citation: NCR–7139*—Involved field inspections of horizontal seismic supports for radiation monitors RE–HV 50218, and RE–HV 0200.6S. Only the data for the RE–HV 50218 support was the correct attachment.

Response: The licensee denies the violation stating that the disposition was properly implemented in accordance with the Nonconformance Report (NCR). Only a minor revision was necessary to substitute the documentation for support 38E088 with the documentation for 38E086. The disposition was unaffected by this revision. (Note: Correct support designation should be RE–UV–50315, not RE–UV–50215)

Citation: NCR–6159—Inspection of tubetrack welding identified that prior to July 1982, an unknown quantity of welding was performed using WPS–"E" procedure without backing plates. Traceability problems were not identified and addressed by the NCR–6159. In addition, the sample used for tensile testing the welds should have been representative of the weakest weld joint in lieu of the strongest (i.e., worst case example should have been used to conduct tests).

Response: The licensee denies this violation. The licensee, while it maintains that traceability was not in fact a subject or a concern of this NCR, indicates that tubetrack materials were purchased, received and maintained by Ebasco's QA program. Also, the tensile test specimen to which the violation refers was designed to obtain tensile strength of the weld joint so that, when converted to stress, the strength could be translated in subsequent calculations utilizing geometries of the real joints and the manner of load application.

Citation: NCR–7547—Noted discrepancies against OCR–1830 and Mercury NCR–0808. The disposition was based on passing hydrostatic test for acceptability of fitup discrepancy between the union and tubing. The disposition does not account for the effects of service conditions such as vibration and cyclic loads; and an engineering evaluation was not performed.

Response: LP&L denies the violation in that the disposition was based on field inspection and rework of connections, not on satisfying hydrostatic test criteria for acceptability. The connections were also radiographed to further ensure fit-up was acceptable. Ebasco Specification LOU 1564–100 requires minimum engagement of ⅛" where as actual was 5/16". Therefore, fit-ups of the connections were acceptable.

Citation: NCR–1650—Identified that the pressure gauge on the anchor bolt tension tester was out of tolerance, reading +450 psi higher than actual. The NCR disposition was to retest all anchor bolts installed prior to the date the tension test gauge was determined to be out of calibration. However, the affected bolts cannot be identified since the torquing procedure, QCP–309, did not require the recording of the tester serial number.

Response: LP&L denies the violation. LP&L argues that the disposition to the NCR does not require identification of the specific anchor bolts tested, only that an anchor bolt be retested for each representative group. However, LP&L indicates that as a result the NRC staff's disposition concern, corrective action had not been implemented on all representative groups of anchor bolt.

Citation: NCR–6165—States ". . . welder R–1 is not qualified to this procedure. . ." The disposition states,". . . Measures taken to preclude recurrence is required. . ." No indications of the actions taken could be located.

Response: LP&L denies the violation. The disposition as originally written referenced welder R–1 instead of welder R–7. Welder R–7 was qualified to the welding procedure, so a nonconforming condition never existed. LP&L maintains that the disposition as originally written on the face of the NCR was adequate to resolve the identified nonconformance.

Citation: NCR–7182, NCR–7180, NCR–7181, NCR–7184, NCR–6723—These NCRs also involve a violation of ANSI N45.2, Section 13 requirements in that QCP 309 did not require the tension testing equipment's serial number, calibration date, and pressure gauge number to be recorded.

Response:—LP&L denies that the NCRs involve a violation of ANSI N45.2, Section 13 in that Quality Control Procedure (QCP) 309 did not require the tension testing equipment serial number, calibration date and pressure gauge number to be recorded. LP&L admits that QCP 309 did not require recording of the above information; however, its program provides all controls necessary to meet ANSI N45.2, Section 13. Therefore, the dispositions were in fact adequate to resolve all nonconformances that were identified.

Citation: NCR 6514—The problem of traceability for the weld being performed was still in question; not addressed. The NCR also questioned use of some Bergen-Patterson designed supports installed by Mercury without traceability. This problem was also not addressed by referenced attachment.

Response: LP&L denies the violation. Traceability of welds was not a subject of this NCR as written. Rather, the use of Bergen-Patterson designed supports installed by Mercury Company without traceability was questioned. The disposition accepted the supports as installed as no unqualified steel was used by Mercury Company to fabricate safety-related supports; the affected supports were not required to be fabricated in accordance with ASME Section III, subsection NF requirements; and structural members supplied originally by Bergen-Patterson were not stamped with heat numbers and is the probable cause of Mercury's documentation not noting heat numbers. LP&L maintains this NCR was therefore dispositioned properly.

Citation: NCR–4219 (Mercury–614)—Identified a violation of WCP 3110.4, paragraph 6. The sample system piping had been bent downward causing a low point in the piping. The piping was being forced down by support SLRR–186. QCP–3110.4 stated that "tubing must be properly routed." This disposition stated that ". . . tubing was reevaluated after support SLRR–186 and sample line were installed, after completion of Penetration 29 work." There were no records for rework or reinspection to indicate satisfactory reinstallation of supports and sample lines.

Ref: SSER–7, A–33 (applicable to all above NCRs).

Responses: LP&L denies the violation. This dispositon was signed by the instrumentation and control engineer who, once Penetration #29 was reworked, as documented on Mercury Company NCR 664, evaluated the affected piping and verified that it met the installation criteria. Therefore, LP&L maintains this NCR was dispositioned properly.

Citation: NCR–7724— Addressed problems with the qualification of Mercury weldars. Ebasco's disposition of this NCR failed to determine if (1) welder M–109 had performed welds to WPS–Y for which he was not qualified; (2) welder M–101 had performed welds to WPS–Y for which he was not qualified; (3) welder M–85 had performed welds to WPS–D after his qualifications record had been voided.

Ref: SSER–7, A–215.

Response: LP&L denies the violation in that the welders referenced in the NCR were appropriately qualified to the appropriate procedures, but due to documentation errors, their qualification appeared questionable. The licensee maintains that the disposition to the NCR resolves these discrepancies and was adequate to resolve the nonconformance. However, based on the above dispositions, a Welder Qualification records review was performed to assure that discrepancies did not exist regarding welding procedure accuracy. The review identified no additional deficiencies and concluded that the Welder Qualification Records were accurate.

Citation: NCR–6719/R1—Identified problems with Mercury hydrostatic test conditions. The Ebasco disposition of the NCR was based on analyzing the "worse case" hydrostatic test conditions; however, only one test was reviewed by Ebasco.

Response: LP&L denies the violation. The licensee maintains that three tests were in fact analyzed by Ebasco. Later, a worst case hydrostatic test configuration was identified. The licensee notes that Ebasco did not "assume" a worst case but actually determined a worst hydrostatic test. Several hydrostatic test configurations had to be evaluated before the worst case could be determined.

Ref: SSER–7, A–40.

III.B *Citation: NCR–363*—Indicated a problem with fitup of emergency diesel generator fuel oil tank "A". This was a safety-related system; therefore, an authorized nuclear inspector (ANI) review should have been performed, but was not.

Response: LP&L denies the violation in that the ASME process pipe connected to the emergency diesel generator fuel oil tank "A" as described in the NCR is an ASME Class 3 installation and does not require ANI review.

Citation: NCR–554.—Noted numerous problems with supports during a walkdown. There was no proof of work being performed to correct these problems other than a memo (Form 211) stating that work was performed.

Response. LP&L denies the violation in that Form 211 attached to the NCR is a standard Mercury Quality Control Report on which the QC inspector documented his inspection of acceptable resolution to each identified concern. Additionally, Form 211 references Mercury Company Work Package #1723 which was found to contain documentation of all rework activities required by the NCR.

Citation: NCR–658—Identified problems with OCR 1671 seismic Category I support, B–430–X23–J–42. The NCR stated "the disposition has been completed, all rework documented." There was other no documentation in the package other than the NCR W3–7317 acceptance letter.

Response: LP&L denies the violation in that Mercury Company Nonconformance Procedure SP–864 does not specifically require supporting documentation to be attached to an NCR if is cross-referenced to the NCR. Although documentation was not in the package, the NCR and rework documentation were cross-referenced for retrievability and verification that corrective action was completed.

Ref: SSER–7, A–232 (applicable to NCRs included in Violation III.B).

III.C. The licensee denies this violation in its entirety. The licensee arues that procedures were followed, dispositions were made, and corrective actions were taken. LP&L maintains that procedure ASP-IV-70, "Handling of Engineering Discrepancy Notices" (EDNs), states, in sections 6.3.2.4 and sections 6.3.2.5, respectively:

"The Engineering Inspector may either provide the recommended disposition himself or forward the EDN to the appropriate discipline Resident Engineer for recommended disposition. Once the recommended disposition has been completed, the EDN shall be forwarded to the appropriate discipline Senior Resident Engineer, or his designee, for disposition."

"After the Senior Resident Engineer, or his designee, has provided the disposition, he shall indicate to whom the EDN is to be referred for corrective action, or whether an ESSE evaluation is required. (An ESSE evaluation is required whenever the disposition recommends or accepts a deviation from approved design criteria.)"

The licensee further argues that the violation documents the supposition that correct EDN dispositions require conformance or generation of an NCR for disposition. The procedure did not prohibit any specific disposition, but did require controls for appropriate dispositioning and concurrence.

NRC Evaluation of the Licensee's Response

The NRC staff notes that Violations III.A and III.B included 39 examples of problems identified in LP&L's program of dispositioning conditions adverse to quality, 13 of which were disputed by the licensee. (The NRC staff also notes that not response was received from the licensee for six of the examples in Violation III.A). The NRC staff reviewed the NCRs where LP&L denied that a violation in fact existed and, using the additional information and clarified dispositions provided by the licensee, determined that those NCRs had been properly dispositioned (NCRs 7139, 6159, 7547, 1650, 6165, 7182, 7180, 7181, 7184, 6723, 6514, 4219, 7724, 6719/R1, 363, 554, and 658). However, at least three of these 13 examples required additional comprehensive reviews because of inaccurate information provided in the NCRs (NCRs 6514, 7724, and 6165). In addition, the licensee acknowledged that even though deficiencies were processed in accordance with site procedures, the procedures did not provide adequate specific guidelines, which led to the excessive need for judgments and interpretation. As a result, the LP&L Operations QA Audit (SA–W3–QA–84–06, performed January 24–30, 1984), and the continued screening review of 100 percent of Ebasco and subcontractor NCRs to varying degrees, throughout 1984, was necessary to determine the extent of this problem.

BEST COPY AVAILABLE

VOL 51 ISS 76 APR 21 1986 UMI

Therefore, the NRC staff believes that the remaining examples are sufficient to establish that the violations were themselves significant enough to warrant civil penalties. In addition, since extensive reviews were required to assess the adequacy of the licensee's nonconformance reporting program, the NRC staff believes that mitigation of the civil penalties based on extensive corrective actions would not be appropriate.

With regard to Violation III.C, the NRC staff's concern involved the use of EDNs rather than NCRs, not whether the processing of EDNs was procedurally controlled. As the violation as proposed stated, ". . . paragraph 4.1 defines a discrepancy as deviation from the specified requirements (including procedures) *that can be readily corrected* (emphasis added) in accordance with standard approved operating procedures or specifications based on good engineering practices . . ." The NRC staff evaluation of the three EDNs cited in the violation indicated that the conditions documented may have represented a greater problem than that of a discrepancy as defined by ASP–IV–70, paragraph 4.1. Furthermore, the NRC staff believes that a more elaborate evaluation of these problems may have been appropriate. However, upon further review, the NRC staff also agrees that the procedure did not prohibit any specific disposition, such as "use-as-is," as the licensee successfully argued. Therefore, Violation III.C is being withdrawn.

Conclusion

Violations III.A and III.B should be amended to delete the examples of the violations LP&L denied in its response. The NRC staff views the remaining examples sufficient to establish the licensee's significant failure to adequately disposition conditions adverse to quality. However, since some of the examples are being withdrawn, a reduction of the proposed civil penalties associated with Violations III.A and III.B in the amount of Two Thousand Five Hundred Dollars ($2,500) is warranted. Violation III.C is also being withdrawn, reducing the proposed civil penalties' amount by another Five Thousand Dollars ($5,000).

Violation IV—Failure to Establish QA Program for Application of Nuclear Protective Coatings

Summary of the Licensee's Response

The licensee admits the violation occurred as stated in the NOV. However, LP&L believes that this violation warrants mitigation due to the following extenuating circumstances. Corrective actions, as defined in its response, were extensive. Deficiencies associated with this violation were reported to the NRC as a Significant Construction Deficiency in accordance with the requirements of 10 CFR 50.55(e) and all corrective actions have been completed.

NRC Evaluation of the Licensee's Response

The NRC staff acknowledges that the licensee took corrective action in evaluating and repairing the protective coatings for the interior of the containment vessel. However, these repairs and evaluations were necessary to ensure the integrity of the protective coatings and to determine the effect failed coatings material may have on safety systems during a design basis accident. In addition, the NRC staff acknowledges the submittal of the required report and the completion of all corrective actions.

However, the NRC staff views the failure of LP&L to implement a QA program for application of nuclear protective coatings as significant weakness that existed in LP&L's QA program during construction. The corrective actions taken were necessary because of this weakness and, therefore, are considered neither prompt nor extensive. Thus, the NRC staff does not believe that mitigation of the civil penalties proposed for Violation IV is warranted. The NRC staff is imposing the full civil penalty amount associated with this violation to emphasize to the licensee the importance for it to ensure similar weaknesses are not carrier over into the operational QA program.

Conclusion

The request for mitigation of the civil penalty associated with this violation has been denied.

Violation V—Failure To Maintain Quality Assurance Records (Only the pertinent portions of the violation that are denied are restated below.)

Criterion XVII of 10 CFR 50, Appendix B, requires that sufficient records be maintained to furnish evidence of activities affecting quality. The records shall include at least the following: operating logs and the results of reviews, inspections, tests, audits, monitoring of work performance and material analyses. The records shall also include closely related data such as qualifications of personnel, procedures, and equipment. Inspection and test records shall as a minimum, identify the inspector or data records, the type of observation, the results, the acceptability, and the action taken in connection with any deficiencies noted. Records shall be identifiable and retrievable. Consistent with applicable regulatory requirements, the applicant shall establish requirements concerning record retention, such as duration, location, and assigned responsibility.

LP&L QA Manual Section QR–2.0, "Quality Assurance Program," Table 2.1, states that LP&L is committed to guidance document ANSI N45.2.9, "Requirements for Collection, Storage, and Maintenance of Quality Assurance Records for Nuclear Plants," draft 11, Revision O, January 1, 1973. This ANSI standard requires that the licensee retain QA records in accordance with the retention periods listed in Appendix A of this standard. The following is a sample list of types of records with the retention periods indicated.

Record type	Permanent	Years after commercial operation
Concrete Placement Records	X	
Soil Compaction Test Reports	X	
Field Inspection Report and Release	X	
Material Properties Reports		
Performance Test Procedures and Results Records	X	
Nonconformance Reports	X	
Welding Personnel Qualifications		2
Welding Procedures	X	
Welding Inspection Reports (Magnetic, Liquid Penetrant, Radiographic, Ultrasonic)	X	
Welding Filler Metal Material Reports	X	

Contrary to the above, the NRC inspectors noted that the following QA documents had not been maintained as required by ANSI N45.2.9 . . . (Ten examples were provided for this violation. The examples are restated as necessary in the Summary of the Licensee's Response below.)

Summary of the Licensee's Response

LP&L denies three of the ten examples cited in Violation V. LP&L further requests mitigation of the proposed civil penalties for the seven examples admitted. Specifically, the licensee admits Examples A and B of Violation V recognizing that accountability measures for Ebasco and Mercury NCRs could have been enhanced early in the construction phase. Mitigation of civil penalties is requested on the basis that these two violations has no impact on actual hardware installations and that closed or voided Ebasco and Mercury NCRs were accounted for. LP&L also admits Example D, but requests mitigation of proposed civil penalties based on its extensive corrective actions for inspector qualifications and certification as explained in the Summary of Licensee Response for Violation II. In addition, the licensee admits Examples E, F, G, and I of Violation V, but believes they represent isolated and minor examples of missing documentation. Documentation noted by NRC to be missing was found (Example G), or the associated hardware was determined to be adequate, based on evaluation or reconstruction of other associated documentation (Examples E, F, G, and I). In addition, for Examples E and I, Ebasco and LP&L performed a review of 100 percent of the concrete placement packages to assure overall program adequacy. For Example G, an extensive analysis was performed and concluded that the soil backfill was capable of resisting all impound loads including seismic effects. (Note: In Item E, "3 of 5" should read "5 of 5." Concrete placement package 503–501–16 should read 498–503–16.)

Violations V.C., V.H., and V.J. are denied by LP&L, and are restated below with the response following.

V.C. *Citation:* CB&I did not maintain records of coating materials purchased from Carboline for applications to the inside of the containment vessel.

Ref: SSER–7, A–250.

Response: The licensee denies this violation believing that this violation is subsumed by Violation IV. Chicago Bridge and Iron's contract had no QA requirements for protective coatings applications inside the containment. Hence no records of coating materials purchased from Carboline were maintained.

V.H. *Citation:* Inspection documentation does not exist for several bolted connections on the east and west main steam line framing (elevation +46 and above).

Ref. SSER–7, A–30.

Response: LP&L denies the violation as stated. SCD–78, dated March 29, 1983, identified deficiencies in American Bridge structural steel installations and documentation (reference NRC Violation I.D.). LP&L recognizes and agrees that corrective actions (scoping) were inadequate, but maintains that in place programs and procedures would have required proper reinspection and documentation if the SCD corrective actions had been scoped properly. Ebasco procedures ASP–IV–128 and 129 had been developed when SCD–78 was issued. These procedures would have been used and were, in fact, used after the scoping problem was brought to its attention.

V.J. *Citation:* CCW system structure (cooling tower) pour package (499–804–8A1). The top of the wall pour was identified as not being covered with water for one day during that airing period. Discrepancy Notice (DN) L308 specified that the normal curing period be extended two extra days. Curing information for the final day was not in the package.

Ref: CTA, section V.B.1.

Response: LP&L denies the violation as stated in the NOV in that Discrepancy Notice DN-C-308 was dispositioned in error on October 20, 1976 to extend the curing time for the concrete placement to four days (from October 20–23, 1976). The licensee subsequently issued NCR W3–236. This NCR become the higher tier and controlling document. Since the NCR (W3-236) did not require any additional curing days in that the disposition was "accept-as-is", no additional reports were required to be maintained.

NRC Evaluation of the Licensee's Response

The NRC staff reviewed Examples C, H, and J of Violation V using the information provided in the licensee's response. As a result of this review, the NRC staff is withdrawing Examples C, H and J from the NOV. With regard to Example H, whether or not procedures were developed that would have been used to require inspection and documentation is not at issue for the cited violation. The fact that documentation did not exist at the time of the NRC review effort is at issue, and the response provided by LP&L to the cited violation addresses this issue. With regard to Example J, the NRC staff would point out that the Discrepancy Notice is a QA record that should reflect accurate information, even though it is a "lower tier" document. Furthermore, its disposition appears appropriate with regard to the concern of shrinkage cracking, a concern that is not always addressed by simply satisfying compressive strength requirements.

The NRC staff believes the seven remaining examples cited in Violation V are sufficient to establish the failure of LP&L to properly maintain QA records during the construction process. Extensive reviews were performed by the licensee to assure program adequacy due to weaknesses that existed in the licensee's QA program during construction. In the NRC staff's view, mitigation of the civil penalties associated with Violation V based on the performance of these required reviews would not be appropriate. Even though the associated hardware was determined to be adequate, it is significant that these intensive inspections and investigations were necessary. Also, these civil penalties emphasize to the licensee the importance the NRC places on the maintenance of QA records.

Conclusion

Examples C, H, and J have been withdrawn from Violation V. No mitigation of civil penalties associated with this violation is warranted.

Violation VI—Failure to Adequately Review Quality Assurance Records

Summary of the Licensee Response

LP&L admits the violations as stated in the NOV. The licensee believes these violations identified were either a misinterpretation of requirements (Example A) or were isolated instances in which in-place design control requirements were not followed (Examples B and C). The licensee believes that mitigation is warranted based on prompt and extensive corrective actions.

NRC Evaluation of the Licensee's Response

These examples represent deficiencies identified by the NRC in various reviews after the licensee's contractor had conducted its document reviews performed to verify the acceptability of the Construction-Installation Records. Two of these (Examples A and B), are considered particularly significant in that hardware changes as well as additional reviews were required to verify the acceptability of the installations. These examples are indicative of LP&L's failure to adequately review QA records. In addition, actions taken by the licensee were not unusually extensive in view of the problems identified. Therefore, mitigation of the Civil penalties associated with this violation would not be appropriate.

Conclusion

No mitigation of the Civil penalties associated with Violation VI is warranted.

Violation VII—Improper Welder Certification

Criterion XVI of 10 CFR 50, Appendix B, requires that measures be established to assure that special processes, including welding, heat treating, and nondestructive testing, are controlled and accomplished by qualified procedures in accordance with applicable codes, standards, specifications, criteria, and other special requirements.

LP&L QA Manual section QR 9.0, Revision 2, "Control of Special Processes," requires that "Special process control records shall provide objective evidence that special processes were performed in compliance with approved special process control procedures by qualified personnel. Results of nondestructive examinations, inspections, and tests shall be recorded in accordance with applicable codes, standards, and specifications. Special process control shall be retained by the vendor and/or supplied to LP&L as required by contract or purchase order. Qualifications records of procedures, equipment, and personnel associated with special processes shall be established, filed, and kept up-to-date."

Contrary to the above, the following examples of Mercury welder certification records indicated the welders were certified to welding procedures for which they were not qualified.

A. Welder M–44—Was originally qualified to WPS–B but the record had been retyped and incorrectly indicated the welder was qualified to WPS–Y. The NRC staff reviewed the welder's qualifications record, but could find no qualification to WPS–Y.

B. Welder M–109—The NRC staff found that the welder's WPS–*N* qualifications record was dated November 26, 1982, and voided October 22, 1983; however, the welder qualification status record did not show qualification or welding performed to WPS-Y.

C. Welder M–9—This welder's qualification status record reflected dates different than those recorded on the welder qualifications record for WPS–E. This record had been revised to change the qualification test date from December 18, 1979, to December 18, 1978. However, the welder qualification status record indicated the test was performed on December 18, 1979, as originally dated.

D. Welder M–101—This welder was originally qualified to WPS–B but the welder's qualification test record had been revised and the qualification changed to WPS–Y. The NRC staff reviewed the welder's qualification record, but could find no qualification to WPS–Y.

Ref: SSER–7, A–215

Summary of the Licensee Response

LP&L denies the violation as stated. A review of all Mercury welders for proper qualifications was initiated in October 1983 as a result of the disposition to NCR–W3–7218. The review revealed that Mercury welders making safety and seismic welds were properly qualified with the exception of one welder. The identified exception was dispositioned using NCR–W3–7219. Since the NRC review, NCR–W3–7218 has been supplemented with an attachment that provides a clearer and more auditable documentation of the review.

NCR–W3–7724 was issued as a result of concerns regarding discrepancies in Mercury welder qualifications records noted by the NRC inspectors during the special inspections. The licensee determined that welders had welded to processes for which they were qualified with the exception of welder M–315. This welder did perform a weld out of his qualifications; however, the weld was rejected in process by the Mercury QC inspector and redone by a qualified welders.

NRC Evaluation of the Licensee's Response

Based on the licensee's response the NRC staff agrees with LP&L's contention that the violation is not valid as stated in the NOV. The licensee argues that welders were

VOL 51 ISS 76 AP 21 1986 UMI

certified to welding procedures for which they were qualified. Based on the supplementary documentation to NRC–W3–723 and a reevaluation of NCRs W3–7219 and W3–7724, the NRC staff agrees with that argument. The four examples cited in the violation indicated that documentation provided for certification of the welders was not appropriate to reflect the welder's qualifications and therefore, not properly established, filed, and kept up-to-date. In addition, at the time of the NRC review, these records were incomplete and difficult to retrieve. However, since welders were certified to welding procedures for which they were qualified, a reduction in the civil penalties associated with this violation is warranted.

Conclusion

Violation VII is being withdrawn from the NOV. The civil penalties associated with this violation are being withdrawn in the amount of Five Thousand Dollars ($5,000).

Violation VIII—Failure to Properly Identify Conditions Adverse to Quality (Only the pertinent portion of the violation that is denied is restated below.)

Criterion XVI of 10 CFR 50, Appendix B, requires that measures be established to assure that conditions adverse to quality, such as failures, malfunctions, deficiencies, deviations, defective material and equipment, and NCRs are properly identified and corrected.

LP&L QA Manual section 16.0, "Corrective Action," paragraph 16.2, requires, in part, that the major contractors and their suppliers establish written procedures for identifying, for determining the cause of, for evaluating, and for correcting conditions adverse to quality such as failures, malfunctions, deficiences, deviations, defective material and equipment, and nonconformances.

B. Ebasco Procedure ASP–III–7, "Corrective Action," paragraph 6.2.1, requires, in part, that an NCR be issued if the condition cannot be corrected within the scope of approved engineering drawings, specifications, or procedures, or if elaborate engineering evaluation is required, or involves items designed ASME section III. Paragraph 4.3 of this procedure defines a nonconformance as "a condition in characteristic, documentation, or procedure which renders the quality of an item or service unacceptable or indeterminate. Examples of nonconformances include: physical defects, test failures, incorrect or inadequate documentation, or deviation from prescribed inspection or test procedures."

Contrary to the above, the following efficiencies were identified during performance of Ebasco Quality Assurance Instruction QAI 9, "Review and Handling of Construction—Installation Records":

Item 1. *Q3–CC–1C–6*—[1] 9.2 dated May 27, 1983 reviewed Item 1—Torque wrench CT–339 was designated by field instructions for torquing of bolts to 90 ft/lbs. This wrench, designated for work between 0–600 ft/lbs. had not been calibrated for use in the lower range. Resolution was "use as is" since the bolts are evenly torqued, but resolution did not address the problem with the calibration of the torque wrench. An NCR should have been issued.

Item 2. *Q2–SI–1C–69*—[1] 9.2 dated March 24, 1983, reviewed item—Dravo certified material test report (CMTR) which indicated the piping material specified as 376TP304. The bill of material specified the material as 358TP304. An NCR should have been issued.

Item 3. *Q2–LW3–SI–10–F/E*—[1] 9.2 reviewed Item 11—Supplemental data was added to quality assurance records. The additions were neither initialed or dated, as required by ANSI N45.2.9, paragraph 3.2.6. An NCR should have been issued.

Item 4. *QMC-HYPO P11.E*—[1] 9.2 reviewed Items 43, 78, and 81—Penetration test reports were generated a a result of the work required by CIWA 820914 and FCR 1498 R1 for the installation of seal rings in penetrations. The work performed was not inspected or documented. An NCR should have been issued.

Ref: SSER–7,A–05

Summary of the Licensee's Response

The licensee admits that Example A occurred as stated in the NOV and that an NCR should have been written: however, the licensee requests mitigation based on prompt corrective action nd claims no adverse safety condition would have resulted had the deficiency gone undetected.

LP&L denies that Example B occurred based on paragraphs 7.3.3 to 7.3.5 of Ebasco Procedure QAI–9, Revision 2. The licensee believes these procedural requirements provide adequate assurance that Ebasco Form QAI–9.2, "Construction Installation Records Deficiency Reports," was reviewed for potential nonconforming conditions. The licensee believes the items cited in Example B are not considered to have been potentially nonconforming; however, further clarification should have been provided with the 9.2 resolutions.

The licensee recognizes that Example C reflects the NRC concern identified in the Prelicensing Assessment Issue No. 4; however, mitigation of the proposed civil penalties is requested in that no issues revealed conditions that required physical plant changes. No lower tier documents that were judged to warrant processing as an NCR described conditions which, if left uncorrected, would adversely affect plant safety, and upgrading the documents to NCRs would not have changed the dispositions or corrective actions. Furthermore, during a review of sampled documents, no defects (a hardware deficiency which if left uncorrected would adversely affect safety) were found and on that basis there was a confidence level of 95 percent that 90 percent of the total population neither described conditions that have safety significance nor met the reportability criterion of 10 CFR 50.55(e) and 10 CFR Part 21.

(Note for Example B: Correct Q3–CC–IC–16 to Q3–CC–1C–6 for Item 1, Correct date May 5, 1983 to May 21, 1983 for Item 1, Correct Q2–ST–1C–69 to Q2–S1–1C–69 for Item 2, Correct Q2–W3–ST–10F/E to Q2–LW3–S1–10–F/E for Item 3, Correct QMC–HVPO–P11E to QIVC–HVPO–P11–E for Item 4, Correct FCR 1490 R1 to FCR 1498R1.)

[1] Refers to Quality Assurance Instruction QAI–9, Attachment 9.2, "Construction—Installation Records Deficiency Report."

NRC Evaluation of the Licensee's Response

This violation addresses what the NRC staff perceived as examples of the licensee's failure to properly identify conditions adverse to quality. Eight different items in three different areas were cited. The licensee admits four of the items, and denies the remaining four items in one area (Example B).

An effective QA program that is implemented during the construction phase looks to identify and correct problems as constuction progresses. A strong corrective action program ensures conditions adverse to quality are identified, and corrected and recurrence is pervented. As a result of the NRC reviews, the NRC staff concluded that LP&L did not have a strong corrective action program in-place during construction, and extensive inspections and investigations were necessary to establish the extent of nonconformances when some were identified. For instance, one example of a violation of separation criteria was identified in Example A. LP&L then inspected 53 additional N1 instrument lines were 13 violations out of 276 locations were identified. All violations were evaluated and found acceptable. A walkdown of 12 other N1 instrument lines was performed, and one item required rework. While these reviews resulted in few hardware changes, they were necessary to verify the quality of construction at Waterford 3 because of the number of problems identified by the NRC in the various areas. Although the licensee requests mitigation for prompt corrective action, in the NRC staff's view, mitigation of any of the civil penalties associated with Example A, or any of the examples in Violation VIII, would deemphasize the importance for the licensee to ensure it has a strong corrective action program during operation, and that nonconformances are *promptly* identified and corrected. Such a program must be in-place during both construction and operation.

The NRC staff does not agree with LP&L that all of the items cited in Example B are not potentially nonconforming. The NRC staff does agree with LP&L for two of the items, and items 3 and 4 are being withdrawn from Example B. However, for items 1 and 2, from the information provided both during the NRC review and in the licensee's response, these items should have been documented on NRCs for evaluation and disposition in accordance with the appropriate requirements. In item 1, the torquing of flange bolts to the required values specified in field instruction with a torque wrench that was not calibrated or of an incorrect range renders the actual torque values indeterminate. Likewise, for item 2, a conflict between a certified material test report and a bill of material would not be recognized as a clerical error by the individual performing the record review, otherwise the problem would not have been documented. Thus, by procedure, an NRC should have been written as the material was indeterminate.

In the NRC staff's view the three items cited in Example C are considered significant, particularly item 3. The NRC staff would point out that it does not agree that these deficiencies are minor and controllable without the additional review provided by an

NCR. For the same reasons as discussed above, mitigation is not warranted.

In summary, the NRC staff's concern involving Violation VIII was that the example cited in the violation represented a pattern of documenting nonconformances (items requiring an engineering evaluation) on documents or in systems other than the system approved by the LP&L QA program. The NRC staff believes the six items are in themselves sufficient to establish a weakness in the LP&L QA program for the failure to properly identify conditions adverse to quality.

Conclusion

Items 3 and 4 of Example B in Violation VIII are withdrawn from the NOV. No mitigation or reduction in the civil penalties associated with Violation VIII is warranted.

Violation IX—Inadequate Procedures to Control Activities Affecting Quality (Only the pertinent portion of the violation that is denied is restated below.)

Criterion V of 10 CFR 50, Appendix B, requires that activities affecting quality shall be prescribed by documented instructions, procedures, or drawings of a type appropriate to the circumstances and shall be accomplished in accordance with these instructions, procedures, or drawings.

LP&L QA Manual Section QP–5.0, Revision 2, "Instructions, Procedures and Drawings," required that "Safety-related activities of LP&L and its major contractors shall be described in documented instructions, procedures, drawings, specifications, checklists, or manuals appropriate to the circumstances. Activities such as design, procurement, manufacturing, construction, installation, testing, inspection, and auditing shall be accomplished in accordance with these documents."

Contrary to the above, review of the following procedures revealed that the instructions were inadequate to ensure that activities affecting quality were correctly executed.

A. Ebasco Procedure ASP–IV–18, Issue Q, "Receiving, Storage, Issuing and Control of Welding Electrodes and Filler Materials," does not meet the storage and rebake requirements for storage of AWS A5.1 (7018), electrodes, as described by AWS D1.1–1980, to which Ebasco is committed. American Welding Society AWS D1.1–1980 requires that low hydrogen electrodes conforming to AWS A5.1 be purchased in hermetically sealed containers or be dried for at least 2 hours between 450 °F and 800 °F before they can be used. Electrodes shall be dried prior to use if the hermetically sealed container shows evidence of damage. Immediately after opening of the hermetically sealed container or removal of the electrodes from drying ovens, electrodes shall be stored in ovens held at a temperature of at least 250°F (120°C). After the opening of hermetically sealed containers or removal from drying or storage ovens, electrode exposure to the atmosphere shall not exceed 4 hours prior to being returned to the storage area. In the case that electrodes are exposed for a period greater than 4 hours, the electrodes are required to be redried.

Ebasco Procedure ASP–IV–18 requires that electrodes be stored in ovens of a temperature between 200–300 °F for approximately 8 hours following removal from the hermetically sealed container and prior to use. Covered electrodes are not to be exposed to ambient temperatures for more than 4 hours and if unused are to be returned to the storage ovens for 8 hours prior to reissuance. No instructions are given for electrodes exposed for a period greater than 4 hours.

Ref: SSER–7, A–21.5

Summary of Licensee Response

LP&L denies Example A contending that instructions were adequate to ensure activities affecting quality were correctly executed. The licensee does admit that Ebasco weld material control procedure, ASP–IV–18, never provided for rebaking weld rods. However, the procedure did require low hydrogen electrodes be redried or destroyed if the four hour American Welding Society (AWS) Code exposure limit was exceeded. This method was used to provide adequate drying using conventional rod ovens as opposed to rebake ovens which required higher temperatures. The required temperature and times did differ from AWS D1.1; however, they did meet ASME section II, Part C, SFA 5.1, which is endorsed by AWS.

In addition, LP&L retained the weld rod manufactuer to duplicate this drying process which showed the technique to be adequate. Furthermore, the NRC staff previously determined that noted conditions had no safety significance or impact on hardware. [Reference SSER 9, "Discussion of 23 Issues as presented in the June 13, 1984 letter from D. G. Eisenhut (NRC) to J. M. Cain, LP&L, Issue 22."]

The licensee admits that the procedure as cited in Example B used by LP&L construction QA for "transfer" reviews was not approved until March 22, 1984. However, the licensee requests mitigation of proposed civil penalties based on their extensive reviews finding no adverse safety conditions resulting from the use of an unapproved procedure.

NRC Evaluation of the Licensee's Response

Example A was based upon the time and temperature requirements delineated in AWS D1.1–1980 to which Ebasco was committed to for control of low hydrogen electrodes (7018). The use of time and temperature requirements as established in ASME Section II, Part C, SFA 5.1, without first verifying the adequacy of the drying process, as opposed to the rebake process, using a suitable test program constitutes a failure to control an activity that directly affects quality. Ebasco Procedure ASP–IV–18, Issue O, "Receiving, Storage, Issuing, and Control of Welding Electrodes and Filler Materials," did not meet the storage and rebake requirements for storage of AWS A5.1 (7018) electrodes as described by AWS D1.1–1980. The procedure therefore was inadequate to control the rebake process for low hydrogen (7018) electrodes.

Example B is viewed to be significant by the NRC staff. The review performed by LP&L was necessary to determine if preoperational testing was adversely affected or invalidated and if system operability may have been jeopardized. This review was necessary because of the inadequate implementation of LP&L's QA program. Therefore, mitigation of any of the civil penalties associated with Example B would not be appropriate.

Conclusion

Example A of Violation IX was accurately identified as an inadequate procedure to control activities affecting quality. Thus, no reduction in the proposed civil penalties amount is warranted. In addition, mitigation of the civil penalties associated with Example B would not be appropriate.

Violation X—Failure to Control Conditionally Released Equipment

Summary of the Licensee's Response

The licensee admits the violation as stated in the NOV, but requests mitigation of the proposed civil penalties based on extensive reviews and the argument that no adverse safety condition existed.

NRC Evaluation of the Licensee's Response

The NRC staff does not consider that mitigation would be appropriate in that the review performed by LP&L was necessary to verify that Conditional Certifications of equipment and other conditional release conditions have been identified, reviewed and resolved.

Conclusion

No mitigation of civil penalties associated with Violation X is appropriate.

Violation XI—Failure to Maintain Design Control

Summary of the Licensee's Response

LP&L admits that approved procedures for design control were not followed or lacked clarity but denies that this violation represents a 10 CFR Part 50, Appendix B, Criterion III violation since the design control program was in place.

NRC Evaluation of the Licensee's Response

The NRC staff recognizes that Ebasco Procedure ASP–IV–58, Revision E, "Attachment to Seismic Supports," required that added loads be reported to engineering for inclusion into the "Seismic Allowable Load Chart." The examination of 25 seismic cable tray and HVAC supports by the NRC CAT inspector revealed that 18 exhibited loads were not shown on the design documents. Based on the potential significance and number of examples identified, the NRC staff concluded that the controls provided by the Ebasco procedure were not sufficient to ensure that added loads were identified and included on the "Seismic Allowable Load Chart." While a design control program was in place, weaknesses existed such that additional measures were necessary for the identification and control of design interfaces and for coordination among participating design organizations to satisfy the requirements of 10 CFR Part 50, Appendix B, Criterion III, "Design Control."

VOL 51 ISS 76 AP 21 1986 UMI

Conclusion

The use of 10 CFR Part 50, Appendix B, Criterion III in this violation is appropriate.

Violation XII—Failure to Adequately Perform Document and Design Control Reviews

The licensee admits this violation.

Violation XIII.C—Failure to Implement an Adequate Inspection Program (LP&L admits Violations XIII.A and XIII.B)

Criterion X of 10 CFR 50, Appendix B, requires that a program for inspection of activities affecting quality be established for and executed by or for the organization performing the activity to verify conformance with the documented instructions, procedures, and drawings for accomplishing the activity.

LP&L QA Manual Section 10, "Inspection," paragraph 10.1, requires, in part, that LP&L's major contractors establish programs for inspection during manufacturing and construction to assure conformance with applicable instructions, procedures, drawings, specifications, and contract requirements.

C. Contrary to the above, the licensee did not ensure that an adequate inspection program was implemented by their contractors to ensure that HVAC restraints were inspected to the actual as-built configuration.

Ref: CAT, section III.B.3

Summary of the Licensee's Response

The licensee denied this violation as stated. All cases noted in the NRC review were installations that conformed to the alternate installation details as shown on Ebasco design drawings, but did not conform to the contractor (Waldinger) generated "fabrication tickets" (shop fabrication drawings) which reflected basic design details. These contractor generated "fabrication tickets" were considered supplementary to the Ebasco (Contract) design drawings (which is noted on many of the Waldinger drawings). Therefore, acceptance of the modified connection based on alternate allowable design drawings was valid with regard to procedure requirements.

Waldinger's procedure should have stated that inspection criteria could be either "fabrication tickets" or design drawings" which would have prevented the NRC finding and this alleged violation.

NRC Evaluation

Based on the additional information provided, the NRC has concluded that Violation XIII.C should be withdrawn.

Conclusion

The subject violation has been withdrawn. Withdrawal of the civil penalties in the amount of Five Thousand Dollars ($5,000) associated with this violation is warranted.

[FR Doc. 86-8673 Filed 4-18-86; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-369 and 50-370]

Duke Power Co.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to the Duke Power Company (the licensee) for the McGuire Nuclear Station, Units 1 and 2, located in Mecklenburg County, North Carolina.

Environmental Assessment

Identification of Proposed Action

The proposed amendments would change the Technical Specifications to provide for operation up to full power with the Upper Head Injection Accumulator (UHI) System functionally disabled (i.e., with UHI isolation valves closed) or with UHI physically removed.

Other changes associated with UHI isolation or removal would also be made to appropriate Technical Specifications. These include deletion of Technical Specifications requiring UHI system maintenance, surveillance, and leakage verification and modification of Technical Specifications to reflect deletion of UHI related containment penetrations and associated conductor overcurrent protective devices, containment isolation valves, and system piping snubbers. The proposed Technical Specifications also reflect changes to the ECCS cold leg injection accumulators to increase the operable range limits of the nitrogen gas cover-pressure (from 430 and 484 psig to 585 and 639 psig), and to decrease the operable range limits of their water volume (from 6022 and 6256 gallons to 6670 and 7342 gallons). The changes to the ECCS cold leg injection accumulators would also be accompanied by appropriate modifications to instrumentation alarm functions and procedures, and by replacement of flow restricting orifices in their discharge piping with orifices of smaller diameter; however, these accompanying changes do not involve a change to the Technical Specifications.

The proposed action is in accordance with licensee's letters dated May 9, October 2 and 14, December 17 and 23, 1985, January 14, March 17, and April 8, 1986.

The Need for the Proposed Action

The licensee has requested this action because the UHI system has been found to cause frequent maintenance problems and operational delays. Filling and venting requirements of the UHI System add about 10 hours to a startup from cold shutdown conditions. The system contributes to occupational radiation exposure during normal operation (i.e., during surveillance and maintenance) and during refueling outages requiring removal or reconnection of injection piping to the reactor vessel upper head. The continuing operational difficulties and radiological exposures associated with the UHI system would be eliminated upon completion of system removal.

Environmental Impacts of the Proposed Action

A. Plant Radiological Releases

The UHI system performs no function during normal operation but serves to mitigate accidents after they occur. Therefore, no adverse change in plant radiological or non-radiological releases would occur for normal operation of the plant with the UHI system isolated or removed.

Plant performance and consequences after an accident or transient are the same with the UHI system functionally disabled (isolated) as with the UHI system physically removed. By letter dated October 2, 1985, and amended March 17, 1986, the licensee provided safety analyses for loss-of-coolant accidents (LOCA) and non-LOCA transients for the planned configuration (no UHI operation, modified cold-leg injection) using Commission approved analytical models and methodology. The Commission has reviewed these analyses and finds that the radiological and non-radiological releases for accidents and transients are not increased. The Commission, with the technical assistance of a contractor, Sandia National Laboratories, has also performed independent plant performance analyses of a LOCA using more realistic models (TRAC) and assumptions and finds that the UHI system is of only marginal (if any) benefit in mitigating conditions during and after a LOCA, and that no significant changes in fuel damage or radiological releases would occur after a LOCA without UHI operation.

Accordingly, Commission findings in the Final Environmental Statement Related to Operation of William B. McGuire Nuclear Station, Units 1 and 2, dated April 1976, and its January 1981 addendum, regarding radiological and non-radiological releases from the plant during normal operation or after accidents are not adversely altered by this action.

B. Occupational Radiological Aspects of UHI Removal

By letters dated October 29, 1985 and December 23, 1985, the licensee described the construction changes and activities associated with UHI removal. The principal tasks involve (1) replacing or reboring four cold leg accumulator flow element orifice plates, (2) cutting of the reactor vessel head penetrations and welding on caps, followed by hydrotesting, (3) removing UHI piping, valves, support/restraints and instrumentation, (4) capping various UHI piping interfaces with other systems, (5) capping two 12-inch containment penetrations, (6) relocating the level transmitters on the cold leg accumulators and (7) capping accumulator lines at the accumulator. The submittals compared the dose incurred from task performance (144 person-Rem for the two units) with dose avoided through reduced maintenance, inspection and operational requirements (420 person-Rem for the two units), and found a net exposure savings of 276 person-Rem over plant life due to UHI removal. The Commission has evaluated the radiological aspects of the proposed changes against the criteria of Chapter 12 of the Standard Review Plan (NUREG-0800) and Regulatory Guide 8.8, "Information Relevant to Ensuring that Occupational Radiation Exposures at Nuclear Power Stations will be as Low as it is Reasonably Achievable," and has concluded that the radiological aspects of UHI removal have been fully considered, and that the radiation protection measures planned for the tasks are acceptable to protect the workers, and will result in doses that are as low as is reasonably achievable.

C. Waste

Removal of the UHI related components and associated tasks is estimated by the licensee to generate about 807 cubic feet of contaminated components for each McGuire unit, mostly comprised of various-diameter pipe, valves, hangers, Grayloc disconnectors and thermal sleeves. About 94% of this component volume is estimated to contain low or medium radiation and contamination levels for a total waste activity of about 1.4 curies; and the other 6% (about 55 cubic feet) from near the reactor vessel head area is estimated to contain high radiation and contamination levels for a total waste activity of about 5.2 curies. The total estimated radioactivity associated with these components is, therefore, 6.6 curies. The components will either be decontaminated and scrapped or transported to Barnwell, South Carolina for burial as low-level waste. The licensee estimates that using the decontamination option would reduce the waste volume for disposal to about one cubic foot. The total estimated activity of 6.6 curies represents only approximately 0.0% of the total activity shipped from McGuire in solid waste in 1985. Disposal and shipment of radioactive materials will be performed in accordance with applicable regulatory requirements.

D. Conclusion

Plant radiological and non-radiological releases during normal operation or after an accident will not be increased by the proposed action. Disposal of system components would add only a small fraction to the radioactivity normally shipped from the site in solid waste. The radiological exposure of construction workers during UHI removal will be as low as is reasonably achievable, and will be less than the dose which would, otherwise, result to personnel observing and maintaining the UHI system for the remainder of plant life. Accordingly, we conclude that this proposed action would result in no significant adverse environmental impact.

Alternative to the Proposed Actions: Since we have concluded that the environmental effects of the proposed action are negligible, any alternatives with equal or greater environmental impact need not be evaluated.

The principal alternative would be to deny the requested amendments. That alternative, in effect, is the same as the "no action" alternative. Neither alternative would reduce environmental impacts of plant operation but would result in increased personnel radiation exposure during plant life.

Alternative Use of Resources: This action does not involve the use of resources not previously considered in connection with the Nuclear Regulatory Commission's Final Environmental Statement dated April 1976 or its addendum dated January 1981 related to this facility.

Agencies and Persons Consulted: The NRC staff reviewed the licensee's requests of May 9, October 2 and 14, December 17 and 23, 1985, and January 14, March 17 and April 8, 1986. The NRC staff discussed this action with the ACRS Subcommittee on ECCS on February 21, 1985, and March 20, 1986, and with the ACRS Full Committee on April 10, 1986.

Finding of No Significant Impact: The Commission has determined not to prepare an environmental impact statement for the proposed license amendments.

Based upon this environmental assessment, we conclude that the proposed action will not have a significant effect on the quality of the human environment.

For further details with respect to this action, see the request for amendment dated May 9, 1985, and its supplements dated October 2 and 14, December 17 and 23, 1985, January 14, March 17, and April 8, 1986; the Final Environmental Statement related to operation of William B. McGuire Nuclear Station, Units 1 and 2 (NUREG-0083) dated April 1976, including its addendum dated January 1981; and ACRS Transcripts dated February 21, 1985, March 20 and April 10, 1986 which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and at the Atkins Library, University of North Carolina, Charlotte (UNCC Station), North Carolina 28242.

Dated at Bethesda, Maryland, this 16th day of April 1986.

For the Nuclear Regulatory Commission.

Dari S. Hood,

Acting Director, PWR Project Directorate No. 4, Office of Nuclear Reactor Regulation.

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

Hydropower Assessment Steering Committee; Meeting

AGENCY: The Pacific Northwest Electric Power and Conservation Planning Council (Northwest Power Planning Council).

ACTION: Notice of meeting.

Status: Open.

SUMMARY: The Northwest Power Planning Council hereby announces a forthcoming meeting of its Hydropower Assessment Steering Committee to be held pursuant to the Federal Advisory Committee Act, 5 U.S.C. Appendix I, 1-4. Activities will include:

- Hydro assessment: Rivers study, anadromous fish;
- Protected areas designation consultation;
- FERC update;
- Other; and
- Public comment.

VOL 51 ISS 76 AP 21 1986 UMI

DATE: April 24, 1986, 9:30 a.m.

ADDRESS: The meeting will be held in the Council's meeting room, 850 SW. Broadway, Suite 1100, Portland, Oregon.

FOR FURTHER INFORMATION CONTACT: Peter Paquet, 503–222–5161.

Edward Sheets,

Executive Director.

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC–15062; File Nos. 812–6103 and 3–6578]

E.F. Hutton & Co. Inc. and The E.F. Hutton Group Inc.; Application for Exemption From Section 9(a) of the Investment Company Act of 1940—Notice of Filing of Consultants' Reports and Deadlines for Submitting Participation Requests and Written Submissions

April 15, 1986.

Notice is hereby given that Nelson S. Kibler and Frederick M. Werblow, the independent consultants selected by E.F. Hutton & Company Inc. ("Hutton") and The E.F. Hutton Group Inc. (collectively, "Applicants"), and accepted by the Commission, to examine, respectively, Hutton's policies and practices regarding the handling of customer securities and monies and its investment company operations, have filed their reports and recommendations. *See* Investment Company Act Release No. 14774 (Oct. 29, 1985), Securities Exchange Act Release No. 22949 (Feb. 25, 1986) and Investment Advisers Act Release No. 1014 (Feb. 25, 1986). The reports are available for public inspection in the Commission's Public Reference Branches at its Headquarters Office in Washington, DC and Regional Offices in Chicago and New York.

Notice is hereby further given that interested persons wishing to be heard or otherwise participate in the hearing on Applicants' request for permanent relief from section 9(a) of the Investment Company Act of 1940 have 30 days from the date hereof in which to file a request to do so; and parties to the matter, and interested persons allowed to participate in the matter, will have 60 days from the date hereof in which to file written submissions with the Commission on the issues to be considered in the hearing. Interested persons should refer to Investment Company Act Release No. 14774, cited above, for the procedure by which they may seek to participate in the hearing, the issues to be considered in the hearing, and the type of written submissions which may be made to the Commission in this matter.

By the Commission.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Philadelphia Stock Exchange, Incorporated

April 16, 1986.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f–1 thereunder, for unlisted trading privileges in the following securities:

Kaneb Energy Partners, Ltd.

Depositary Units representing Limited Partnership Interests (File No. 7–8906)

Zenith Laboratories, Inc.

Common Stock, $0.09 Par Value (File No. 7–8907)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before May 7, 1986, written data, views and arguments concerning the above-referenced application. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the application if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulations, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD–86–029]

National Boating Safety Advisory Council; Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. App. 1), notice is hereby given of a meeting of the National Boating Safety Advisory Council to be held on Tuesday and Wednesday, May 13 & 14, 1986, at the Beach Quarters Hotel, 5th & Oceanfront, Virginia Beach, Virginia, beginning at 9:00 a.m. and ending at 4:00 p.m. on both days. The agenda for the meeting will be as follows:

1. Introduction of new Council Members.
2. Review of action taken at the 36th Meeting of the Council.
3. Members' Items.
4. Executive Director's Report.
5. Regulatory review.
6. Capacity Plate Replacement Subcommittee report.
7. Update on Hybrid Life Preserver project.
8. Report on 1985 Boating Accident Statistics.
9. Update on Regulatory Project, Operating a Vessel While Intoxicated.
10. Reply to Members' Items.
11. Remarks by Chief, Office of Boating, Public, and Consumer Affairs.
12. Chairman's Session.

Attendance is open to the interested public. With advance notice to the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present oral statements should so notify the Executive Director no later than the day before the meeting. Any member of the public may present a written statement to the Council at any time. Additional information may be obtained from Captain M. B. Stenger, Executive Director, National Boating Safety Advisory Council, U.S. Coast Guard, (G–BBS), Washington, DC, 20593, or by calling (202) 426–1080.

Issued in Washington, DC, April 16, 1986.

L.C. Kindbom,

Captain, U.S. Coast Guard, Acting Chief, Office of Boating, Public, and Consumer Affairs.

[FR Doc. 86–8850 Filed 4–18–86; 8:45 am]

BILLING CODE 4910-14-M

Federal Aviation Administration

Advisory Circular: Cutouts in a Modified Fuselage of Small Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Draft Advisory Circular (AC) Availability and Request for Comments.

SUMMARY: This AC provides information and guidance concerning acceptable means of compliance with Part 23 of the Federal Aviation Regulations (FAR) applicable to the structural substantiation of a fuselage modified by incorporation of large or small cutouts.

DATE: Commenters must identify File AC 23–5X; Subject: Cutouts in a Modified Fuselage of Small Airplanes, and comments must be received on or before June 20, 1986.

ADDRESS: Send all comments on the proposed draft AC to: Federal Aviation Administration, ATTN: Regulations and Policy Office (ACE–110), 601 East 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Joseph W. Burress, Aerospace Engineer, Regulations and Policy Office (ACE–110), Aircraft Certification Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106; commercial telephone (816) 374–6941, or FTS 758–6941.

SUPPLEMENTARY INFORMATION: Any person may obtain a copy of this proposed draft AC by writing to: Federal Aviation Administration, Aircraft Certification Division, Regulations and Policy Office (ACE–110), 601 East 12th Street, Kansas City, Missouri 64106.

Comments Invited

Interested parties are invited to submit comments on the proposed draft AC. The proposed draft AC and comments received may be inspected at the offices of the Regulations and Policy Office (ACE–110), Room 1656, Federal Office Building, 601 East 12th Street, Kansas City, Missouri, between the hours of 7:30 a.m. and 4:00 p.m. weekdays, except Federal holidays.

Background

Incorporation of large cutouts in a fuselage is one of the most significant structural modifications made to an airplane. Such modifications include large cargo door cutouts, baggage door cutouts, enlargement of existing doors, installation of oversize windows, etc. Small cutouts in a fuselage cause less of a structural problem. These modifications include such items as camera window cutouts, auxiliary power unit (APU) intake and exhaust cutouts, antenna cutouts, etc. The redistribution of axial and shear loads, pressure loads, and changes in stiffness and fatigue strength are considerations that should be evaluated. If multiple cutouts are close to one another, superposition of loads may occur.

Issued in Kansas City, Missouri, April 10, 1986.

Barry D. Clements,

Manager, Aircraft Certification Division.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

DATE AND TIME: 2:00 p.m. (eastern time), Monday, April 28, 1986.

PLACE: Clarence M. Mitchell, Jr., Conference Room No. 200-C on the 2nd Floor of the Columbia Plaza Office Building, 2401 "E" Street, NW., Washington, D.C. 20507.

STATUS: Closed to the public.

MATTERS TO BE CONSIDERED:

Closed

1. Litigation Authorization: General Counsel Recommendations
2. Discussion of Certain Commissioners' Charges
3. Discussion of Subpoena Determinations

Note.—Any matter not discussed or concluded may be carried over to a later meeting. (In addition to publishing notices on EEOC Commission meetings in the Federal Register, the Commission also provides a recorded announcement a full week in advance on future Commission sessions. Please telephone (202) 634-6748 at all times for information on these meetings.)

CONTACT PERSON FOR MORE INFORMATION: Cynthia C. Matthews, Executive Officer at (202) 634-6748.

Dated: April 16, 1986.

Cynthia C. Matthews,

Executive Officer, Executive Secretariat.

This Notice Issued April 16, 1986.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

DATE AND TIME: 9:30 a.m. (eastern time), Tuesday, April 29, 1986.

PLACE: Clarence M. Mitchell, Jr., Conference Room No. 200-C on the 2nd Floor of the Columbia Plaza Office Building, 2401 "E" Street, NW., Washington, DC 20507.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED:

Open

1. Announcement of Notation Vote(s)
2. A Report on Commission Operations (Optional)
3. Refinement of EEOC's Investigative Techniques Applicable to Uncooperative Respondents
4. Amendment to Title VII Procedural Regulations

Closed

1. Litigation Authorization: General Counsel Recommendations
2. Discussion of Certain Commissioners' Charges
3. Discussion of Subpoena Determinations

Note.—Any matter not discussed or concluded may be carried over to a later meeting. (In addition to publishing notices on EEOC Commission meetings in the Federal Register, the Commission also provides a recorded announcement a full week in advance on future Commission sessions. Please telephone (202) 634-6748 at all times for information on these meetings.)

5

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

April 16, 1986.

TIME AND DATE: 10:00 a.m., Tuesday, April 22, 1986.

PLACE: Room 600, 1730 K St., NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. Z.B. Houser v. Northwestern Resources Co., Docket No. WEST 83-101-D. (Issues include whether the administrative law judge appropriately dismissed the discrimination complaint.)

It was determined by a unanimous vote of Commissioners that a meeting be held on this item and that no earlier announcement of the meeting was possible. 5 U.S.C. 552b(e)(1).

Any person intending to attend this meeting who requires special accessibility features and/or auxiliary aids must inform the Commission in advance of those needs, so the Commission may, subject to limitations, ensure access for any handicapped person who gives reasonable advance notice. 29 CFR 2706.150(a)(3) and 2706.160(e).

CONTACT PERSON FOR MORE INFORMATION: Jean Ellen (202) 653-5629.

Jean H. Ellen,

Agenda Clerk.

PAROLE COMMISSION

PLACE: 5550 Friendship Boulevard, One North Park Building, Room 420-F, Chevy Chase, Maryland 20815.

DATE AND TIME:

Monday, April 28, 1986—11:00 a.m. to 5:30 p.m.
Tuesday, April 29, 1986—9:00 a.m. to 5:30 p.m.
Wednesday, April 30, 1986—9:00 a.m. to 5:30 p.m.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Approval of minutes of open business meeting of January 28 and 29, 1986, and Conference Call Business Meeting of February 28, 1986.
2. Reports from the Chairman, Vice Chairman, Commissioners, Legal, Research, Case Operations, and the Administrative Section.
3. Presentations to the Commission by:
(a) David Nurco [4/29/86—11:00 a.m.]
(b) Marie Ragghianti [4/30/86—9:00 a.m.]
4. Participation in Alcohol Anti-Buse Program
5. Enforcement of Special Drug Aftercare Condition
6. National Defense Emergency Preparedness
7. Hearings with one hearing examiner present
8. Assistance to law enforcement agencies through inmate cooperation
9. Special parole terms—aggregation with regular parole terms
10. Uniform procedures for utilizing volunteers
11. Uniform procedures for utilizing interns
12. Increased victim participation in the parole decision process
13. Use of parolees and mandatory releasees as informants
14. Uniformity of a temporary parole certificate
15. Testing of suspected parolees for AIDS
16. Parole of certain prisoners to deportation detainers
17. Proposed guideline revisions
(a) Transportation of unlawful aliens
(b) Introduction/distribution of narcotics in institutions
(c) Drugs for personal use
(d) Distribution of drugs near schools
(e) Cocaine dependence and salient factor score
(f) Miscellaneous items
(g) Decisions above the guidelines involving poorer risks than salient factor score

Regulatory Information Service Center

Introduction to the Unified Agenda of Federal Regulations

VOL 51 ISS 76 AP 21 1986 UMI

REGULATORY INFORMATION SERVICE CENTER

Unified Agenda of Federal Regulations

AGENCY: Regulatory Information Service Center.

ACTION: Introduction to the Unified Agenda of Federal Regulations.

SUMMARY: The Regulatory Flexibility Act (5 U.S.C. 602) requires that agencies publish semiannual regulatory agendas describing regulatory actions they are developing. Executive Order 12291 and OMB Bulletins implementing section 3 of the Executive order establish minimum standards for executive agencies' agendas, including specific types of information for each entry, and publication in a uniform format. All Federal regulatory agencies have chosen to publish their regulatory agendas as part of this **Unified Agenda of Federal Regulations.**

The following Parts in this issue of the **Federal Register** are the agency agendas, which together comprise the April 1986 edition of the semiannual **Unified Agenda of Federal Regulations.**

ADDRESS: Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: For further information about specific regulatory projects, please refer to the Agency Contact listed for each entry. To provide comment on or to obtain further information about the **Unified Agenda of Federal Regulations**, contact: Mark G. Schoenberg, Executive Director, Regulatory Information Service Center, Room 5216, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503, (202) 395-6993.

About the Unified Agenda

The **Unified Agenda of Federal Regulations** is compiled by the Regulatory Information Service Center for the Office of Information and Regulatory Affairs, Office of Management and Budget. The Center provides information about Federal regulatory activity to the President and his Executive Office, the Congress, agency managers, and the public.

The Office of Information and Regulatory Affairs is responsible for overseeing the Federal Government's regulatory, paperwork, and information-management activities and for implementing President Reagan's Executive Orders 12291 (Federal Regulation) and 12498 (Regulatory Planning). Under EO 12498, OMB publishes the **Regulatory Program of the United States Government** each year.

The Regulatory Program is a policy document and a management tool that sets forth the priorities of the agency head and of the President regarding the Significant Regulatory Actions (SRAs) that will be conducted during the program year to which it pertains.

The Regulatory Program and the Agenda differ in several ways. The Unified Agenda includes more regulatory actions because it covers almost every Federal agency and includes an exhaustive list of all rulemakings for each. This year's Regulatory Program covers only 22 of the major Federal regulatory agencies, and includes only the most significant of all the regulatory actions that each agency plans to undertake. The Regulatory Program, however, describes each entry more thoroughly than the Unified Agenda.

Most of the regulatory actions described in the **Regulatory Program of the United States Government** are included in this Agenda. In general, the Regulation Identifier Number (RIN) for the action is the same for both publications; however, occasionally, several Agenda entries are combined into one Program entry, and a new RIN is assigned to that entry in the Program.

This edition of the Unified Agenda includes 56 regulatory agendas from all Federal departments, agencies, and commissions that publish agendas. Agencies of the United States Congress are not included. The Unified Agenda provides uniform reporting of data on regulatory activities under development throughout the Federal Government.

The Unified Agenda is produced through a computer system designed by the Center with the advice and assistance of the Government Printing Office. The system was designed to save agencies time and money by automating the preparation and printing of their agendas in a uniform format and to make the Agenda easier to use.

This edition of the Agenda contains a Subject Index to help readers locate entries from various agencies that may affect a particular area of interest. The numbers in the index refer to the sequence numbers that appear before the title of each entry in the Agenda. All entries are numbered sequentially from the beginning to the end of the Agenda.

For those agencies that requested it, we provided a computer-produced Table of Contents that appears after the preamble of the agency's agenda. The agency Tables of Contents help readers locate quickly those entries within an agency that may be of most interest to them.

All agendas contain uniform data elements -- regulation title, significance, legal authority, CFR citation, abstract, legal deadline, timetable, small business effects, and agency contact. Agencies also include any additional information they consider important. If any of the data elements is not included, the agency either did not report the information or may provide an explanation in its preamble. For further information, please contact the individual agency.

The Unified Agenda of Federal Regulations is published in April and October of each year. We welcome comments on this edition and suggestions for improving future ones.

DATED: April 1, 1986.

Mark G. Schoenberg,

Executive Director.

How to Use the Unified Agenda

Each agency agenda appears as a separate Part in this edition of the **Federal Register.** The Parts are organized alphabetically in four groups: cabinet departments, other executive agencies, joint authorities, and independent agencies. Departments are divided into agencies, which may in turn be divided into subagencies.

Each agency begins its agenda with a preamble providing information specific to its agenda. Each agency was asked to list its rules in four groups:

1. Prerule Stage -- actions agencies will undertake in the next 12 months to determine whether or how to initiate rulemaking. Such actions occur prior to a Notice of Proposed Rulemaking and include Advance Notices of Proposed Rulemaking and reviews of existing regulations.

2. Proposed Rule Stage -- actions for which agencies plan to publish a Notice of Proposed Rulemaking as the next step in their rulemaking process.

3. Final Rule Stage -- actions for which agencies plan to publish a final rule or take other final action as the next step in their rulemaking process.

4. Completed Actions -- actions or reviews the agency completed or withdrew since publishing its last agenda. This section also includes items that were begun and completed between issues of the Unified Agenda.

An agency may use a subheading to identify regulations that it has grouped according to a particular topic. When these subheadings are used, they appear above the title of the first regulation in the group.

A bullet (●) preceding an entry indicates that the entry appears in the Agenda for the first time.

The Agenda Sequence Number preceding the title of each entry identifies the location of the entry in this edition of the Agenda. The same number is used in the index to enable readers to find entries on specific subjects. Those agencies that chose to provide a Table of Contents at the beginning of their agendas also use the sequence number in their Table of Contents. Sequence numbers should help readers easily locate items of most interest to them, either by agency or by subject.

The regulatory activities included in the agency agendas are those currently planned for the next 12 months. The agendas do not include regulations excluded from review under EO 12291 such as military regulations and regulations related to internal agency management.

OMB Bulletin 86-4 states that entries describing regulations in the Agenda should contain, at a minimum, the following information:

- Title of the Regulation.
- Significance -- an indication of the significance of the entry that appears when:
  a. the action will be included in the **Regulatory Program of the United States Government** for the 1986 program year, or
  b. the agency otherwise considers the action a priority.

The Significance heading appears only if the entry is a significant action.

- Legal Authority -- the section(s) of the "United States Code" (U.S.C.) or Public Law (PL) or the Executive order that authorize(s) the regulatory action (agencies may provide common name references to laws in addition to U.S.C. or PL references).
- CFR Citation -- the section(s) of the **Code of Federal Regulations** that affect or will be affected by the action.
- Abstract -- a description of the problem the regulation will address; the need for a Federal solution; and, to the extent available, the alternatives that the agency is considering to address the problem and the potential costs and benefits of the action.
- Legal Deadline -- an indication of whether the rule is subject to a statutory or judicial deadline and, if so, the date of that deadline.
- Timetable -- the dates and citations (if available) for all past stages and at least the next future stage of rulemaking. If a date appears in this section as 00/00/00, it means the date of the action is presently undetermined. Similarly, 10/00/86 means the agency can predict the month and year the action will take place, but not the date it will occur.
- Effects on Small Businesses and Other Small Entities -- indicates whether the rule is expected to have a significant economic impact on a substantial

VOL 51 ISS 76 APR 21 1986 UMI

number of "small entities" as defined by the Regulatory Flexibility Act (5 U.S.C. 601(6)).

- Agency Contact -- the name, title, address, and phone number of a person in the agency who is knowledgeable about the regulation.

Some agencies have provided other optional information at their discretion.

Data Limitations

Agencies prepared entries for this edition of the Unified Agenda to give the public notice of their plans to review, propose, and issue regulations. They have tried to predict their activities over the next 12 months as accurately as possible, but dates and schedules are subject to change. Agencies may withdraw some of the regulations now under development, and they may issue or propose other regulations not included in their agendas. Agency actions in the rulemaking process may occur before or after the dates they have listed. The Agenda does not create a legal obligation on agencies to adhere to schedules within it or to confine their regulatory activities to those regulations that appear in it. The information in this edition is accurate as of February 27, 1986, in the judgment of the submitting agencies, except as otherwise noted in individual agency preambles.

List of Abbreviations

The following abbreviations appear throughout this edition of the Agenda:

ANPRM -- An Advance Notice of Proposed Rulemaking is a preliminary notice that an agency is considering a regulatory action. The agency issues an ANPRM before it develops a detailed proposed rule, describing the general area that may be subject to regulation and asking for public comment on the issues and options being discussed. An ANPRM is issued only when an agency believes it needs to gather more information before proceeding to a formal regulatory proposal.

CFR -- The Code of Federal Regulations is an annual codification of the general and permanent regulations published in the Federal Register by the departments and agencies of the Federal Government. The Code is divided into 50 titles and each title covers a broad area of Federal regulatory law. The CFR is keyed to and kept up-to-date by the daily issues of the Federal Register.

EO -- An Executive order is a directive from the President to an executive agency, issued under Constitutional or statutory authority. Executive orders are published in the Federal Register and in Title 3 of the Code of Federal Regulations.

FR -- The Federal Register is a daily Federal Government publication that provides a uniform system for publishing Presidential documents, all proposed and final regulations, notices of meetings, and other official documents required by statute to be published.

FY -- The Federal fiscal year runs from October 1 to September 30.

NPRM -- A Notice of Proposed Rulemaking is the document an agency issues and publishes in the Federal Register that describes and solicits public comments on a proposed regulatory action. Under the Administrative Procedure Act, an NPRM must include, at a minimum:

- A statement of the time, place, and nature of the public rulemaking proceeding;
- A reference to the legal authority under which the rule is proposed; and
- Either the terms or substance of the proposed rule or a description of the subjects and issues involved.

PL -- A Public Law is a law passed by Congress and signed by the President or enacted over his veto. It has general applicability, as opposed to a private law that applies only to those persons or entities specifically designated. Public laws are numbered in sequence throughout the two-year life of each Congress; for example, PL 97-17 would be the seventeenth public law of the 97th Congress.

RFA -- A Regulatory Flexibility Analysis (RFA) describes the impact of a proposed rule on small entities, as required by the Regulatory Flexibility Act (5 U.S.C. 601). An RFA describes why the agency is considering the action; the objectives of and legal basis for the proposed rule; an estimate of the number of small entities that could be affected and the compliance requirements they would have to fulfill; any other duplicative, overlapping, or conflicting Federal rules; and alternatives to the proposed action. When required, an initial RFA accompanies an NPRM and a final RFA accompanies a final rule.

RIA -- A Regulatory Impact Analysis is required by EO 12291 for all major rules and other regulations designated by the Office of Management and Budget. An RIA is prepared to determine whether a proposed regulatory action meets the requirements of Section 2 of EO 12291, namely that it:

- Be based on adequate information concerning the need for and consequences of the action;
- Not be undertaken unless the potential benefits outweigh the potential costs to society;
- Maximize net benefits to society;
- Entail the least net cost to society of the alternatives considered; and
- Take into account the condition of particular affected industries, the national economy, and contemplated future regulatory actions.

RIN -- The Regulatory Information Service Center assigns a Regulation Identifier Number to identify each regulatory action listed in the Agenda.

USC -- The "United States Code" is a consolidation and codification of all general and permanent laws of the United States. The USC is divided into 50 titles and each title covers a broad area of Federal law.

Information About Additional Copies

Additional copies of this edition of the Federal Register are available from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, (202) 783-3238.

Copies of individual agency agendas may be available directly from the agency. Please contact the particular agency for further information.

Semiannual Regulatory Agenda: Spring 1986

AGENCY: Office of the Secretary, Department of Agriculture.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of major and non-major regulations being developed in agencies of the U.S. Department of Agriculture in conformance with Executive Order 12291, Federal Regulation. The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Pub. L. 96-354.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions; but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action.

ADDRESSES: Requests for copies of the Agenda should include a self-addressed, stamped envelope and be directed to: Regulatory Agenda, OBPA, Office of the Secretary, Room 148-E, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 382-1270.

DATED: March 14, 1986.

Richard E. Lyng,

Secretary.

Agricultural Marketing Service—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
1	Mohair Standards	0581-AA06
2	Wool Standards	0581-AA12
3	Fees for Service for Voluntary and Mandatory Programs	0581-AA19

Agricultural Marketing Service—Final Rule Stage

Sequence Number	Title	Regulation Identifier Number
4	Review: Voluntary Grading of Poultry Products and Rabbit Products	0581-AA21

23. ● 1987-CROP HONEY PRICE SUPPORT PROGRAM

Legal Authority: 7 USC 1446(b); Ag Act of 1949, Sec 201(b); as amended by Sec 1041 of the Food Security Act of 1985; PL 99-198

CFR Citation: 7 CFR 1434.26; 7 CFR 1434.27

Legal Deadline: None

Abstract: The Food Security Act of 1985 requires that 1987-crop honey be supported at 63 cents per pound. The Act also provides the Secretary discretion to conduct a marketing loan program. The objective of the marketing loan concept is to (1) minimize the number of loan forfeitures, (2) avoid excessive stocks of honey, (3) reduce the costs incurred by the Federal Government in storing honey, and (4) maintain the competitiveness of honey in domestic and export markets. 24. ● PRICE SUPPORT LOAN PROGRAM FOR 1986 THROUGH 1990-CROPS SUGAR BEETS AND SUGARCANE

Significance: Regulatory Program

Legal Authority: 7 USC 1446; Ag Act of 1949; as amended by Sec 901 of the Food Security Act of 1985; PL 99-198

CFR Citation: 7 CFR 1435

Legal Deadline: Statutory, October 1, 1986. As far in advance of October 1, 1986, as is practicable for announcement of the 1986 crop price support level.

Abstract: The 1949 Act, as amended by the Food Security Act of 1985, requires the Secretary to support the price of domestically grown sugarcane and sugar beets through a nonrecourse loan program effective for the 1986 through 1990 crops. The object of this action is to develop program and operation provisions for administering a sugar price support program. (ASCS 86-048)

30. ● HIGHLY ERODIBLE LAND AND WETLAND CONSERVATION PROGRAMS

Legal Authority: Ag Adjustment Act of 1949; as amended by the Food Security Act of 1985; Sections 1201-1223 and 1241-1245

CFR Citation: 7 CFR 703, (New)

Legal Deadline: Statutory, June 20, 1986

Abstract: This action is needed to set forth the terms and conditions of the Highly Erodible Land and the Wetland Conservation Programs as required by the Food Security Act of 1985. Under these programs a producer who, after 12/23/85, produces an agricultural commodity on a field defined as highly erodible or on wetland converted after 12/23/85 will be ineligible for any designated USDA program benefits. However, during the period from 12/23/85 to the later of 1/1/90 or 2 years after a producer's field is mapped by SCS for purposes of classifying such land, such producer will not be ineligible for program benefits for highly erodible land that had been cultivated to produce any of the 1981-85 crops, or set aside, diverted or otherwise not cultivated under a USDA production adjustment program. The regulations will identify wetlands based on USDA consultation with the Department of Interior and USDA development of criteria for the identification of hydric soils and hydrophytic vegetation and lists of such soil and vegetation. Certain other exemptions from the ineligibility provisions will also apply. (ASCS 86-051)

39. ● CONSERVATION RESERVE PROGRAMS UNDER THE FOOD SECURITY ACT OF 1985

Significance: Regulatory Program

Legal Authority: PL 99-198; The Food Security Act of 1985

CFR Citation: 7 CFR 704

Legal Deadline: Statutory, June 21, 1986

Abstract: This action will reduce soil erosion, improve water quality, and improve wildlife habitat on approximately 40 to 45 million acres through a voluntary Conservation Reserve Program. The program would require that producers convert highly erodible cropland from crop production to less erosive, permanent vegetation for a minimum of ten years. Participants would receive an annual rental payment based on accepted bids, as well as cost sharing for the establishment of permanent vegetation. Determinations will be made on program size, land eligibility, grazing, bidding requirements, payment-in-kind or cash, and the definitions of "field," "highly erodible land," and "cropland." This program is expected to reduce the production of commodities, and thereby reduce the cost of the commodity programs. This will have the effect of partially offsetting the cost of the Conservation Reserve Program. (ASCS 86-005)

40. ● 1986-CROP PEANUTS NATIONAL POUNDAGE QUOTA

Legal Authority: Ag Act of 1938; as amended by Sec 702 of the Food Security Act of 1985; PL 99-198

CFR Citation: Not applicable

Legal Deadline: Statutory, December 15, 1985

Abstract: This action is required by legislation, which provides a formula for computing the National quota. The quota must equal the amount devoted to domestic edible, seed, and related uses and may not be less than 1.1 million tons. The objective is to balance supply with demand at levels that assure stable supplies for domestic use and assure producers a reasonable income. (ASCS 86-034)

53. REVISION OF 7 CFR 319.56, IMPORTATION OF FRUITS AND VEGETABLES

Significance: Regulatory Program

Legal Authority: 7 USC 150dd to 150ff; 7 USC 159; 7 USC 162

CFR Citation: 7 CFR 319.56

Legal Deadline: None

Abstract: An increased number of exotic pests have been introduced recently into the United States. Some of these pests may have arrived on importations of fruits and vegetables. Since these pests are capable of causing extensive economic damage, Plant Protection and Quarantine (PPQ) is considering the development of an improved system for determining the entry status of agricultural products, particularly fruits and vegetables. 54. ● GYPSY MOTH - OUTDOOR HOUSEHOLD ARTICLES

Significance: Regulatory Program

Legal Authority: 7 USC 150dd; 7 USC 150ee; 7 USC 161; 7 USC 162

CFR Citation: 7 CFR 301.45

Legal Deadline: None

Abstract: The Department has been regulating the movement of outdoor household articles (OHA) out of those areas in the northeast which are regulated for gypsy moth. The (OHA) regulations have been in place since 1983. The current program requires that no life stages of the pest be moved out of those areas. Owners of OHA can either inspect the articles themselves and remove any life stages found or can contact a qualified certified applicator (OCA) and pay for the services necessary to rid the articles of gypsy moth. The program, despite a massive educational campaign using various media, has not lived up to expectations. At best, the Agency is experiencing only 50 percent compliance. This information is based on random spot checks of moving vans leaving the infested northeast. The Agency is considering ways to improve the compliance rate to at least 70 percent. Alternatives being considered include mandatory inspection by qualified certified applicators; mandatory written certification of inspection by the owner of the OHA; and increased public notification and awareness. 55. ● ORGANISMS AND PRODUCTS ALTERED OR PRODUCED THROUGH BIOTECHNOLOGY

Significance: Regulatory Program

Legal Authority: 7 USC 150aa to 150jj; 7 USC 151 to 164

CFR Citation: Not applicable

Legal Deadline: None

Abstract: Trade in organisms and products altered or produced through biotechnology may introduce plant diseases and pests which are new to or not previously widespread in the United States and which pose a threat to U.S. agriculture and the environment if the introduction of these genetically engineered articles is not regulated. The articles themselves, the cultures in which they are transported, or their packaging may be contaminated with plant disease-causing organisms. Some genetically engineered organisms may be or may become plant pests. The effect of introducing the organism into the environment where it could become established and widespread is unknown. It is necessary, therefore, to establish some degree of regulation over these articles. (APHIS 86-015)

57. ● REVISION OF FMHA INSTRUCTION 1944-A, "SECTION 502 RURAL HOUSING LOAN POLICIES, PROCEDURES AND AUTHORIZATIONS," TO IMPLEMENT THE REQUIREMENTS OF THE RURAL HOUSING AMENDMENTS OF 1983

Significance: Regulatory Program

Legal Authority: 42 USC 1480(j)

CFR Citation: 7 CFR 1924; 7 CFR 1944

Legal Deadline: None

Abstract: The need for Government action is mandated by changes in the Agency's authorizing statute requiring corresponding changes in the FmHA rural housing program. The objectives of the action are: (1) allow extension of terms for applicants for initial loans with incomes of not more than 60 percent of median income for up to 38 years if needed for repayment ability; (2) give priority to applicants with the greatest need for housing because of their low income and inadequate dwellings, and to those applicants who will reside in areas which are the most rural in character; (3) implement Section 502 loans to purchase mobile/manufactured homes and sites, and certain allowable expenses for transportation and set-up. Item (3) has been made a separate publication. (FmHA 84-003)

58. ● STRENGTHENING THE FMHA BUSINESS AND INDUSTRIAL GUARANTEED LOAN PROGRAM

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1980

Legal Deadline: None

Abstract: FmHA needs to fulfill the provisions of OMB Circular A-70 as they relate to FmHA's Business and Industrial (B&I) Guaranteed Loan program. There are weaknesses in the program's requirements for overall credit terms, evaluations, and servicing. Existing provisions of FmHA regulations must be modified or deleted to address the identified problems. The Agency proposes to rewrite and/or amend FmHA Instructions 1980-A and 1980-E in order to make administrative and public procedural changes for strengthening overall credit terms, evaluations, and servicing requirements of the FmHA B&I Guaranteed Loan program. 62. ● RESTRICTING INSURED AND GUARANTEED FARM OWNERSHIP AND OPERATING LOANS WHEN SURPLUS ITEMS EXIST

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1941; 7 CFR 1943; 7 CFR 1980

Legal Deadline: None

Abstract: The Federal Government has had many different programs in an attempt to regulate the supply of agricultural commodities. The problem is to find a way to have an adequate supply of agricultural commodities without creating surpluses or shortages.

The Agency is proposing to change its regulations to allow the Administrator of FmHA to restrict loans for certain periods of time for surplus agricultural commodities that are depressing prices. This would save the applicant and the Agency the work, time, and the expense involved in processing applications for which a feasible plan of operation cannot be developed. The proposed change in regulations would help eliminate the number of applications that have to be fully processed and then rejected. (FmHA 86-006)

Significance: Regulatory Program

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1945

Legal Deadline: None

Abstract: The Emergency Agricultural Credit Act of 1984 amended the Emergency Loan (EM) program. The Act authorized FmHA to provide emergency credit to agricultural producers in

VOL 51 ISS 76 AP 21 1986 UMI

counties that are contiguous to counties that have been declared disaster areas.

The Consolidated Farm and Rural Development Act also requires the Agency to base its appraisal of collateral offered as security for emergency loans on (1) the value of the collateral one year and one day before the disaster designation is requested by a State Governor, an Indian tribal council, or FmHA State Director; or (2) the value one day before such request; or (3) on its present-market value, whichever is the highest value. 64. ● HOUSING PRESERVATION GRANTS

Significance: Regulatory Program

Legal Authority: 42 USC 1480(j)

CFR Citation: 7 CFR 1944

Legal Deadline: None

Abstract: The Annual Housing Survey of 1981 notes that there are over two million housing units in rural areas with some form of deterioration or inadequacy affecting the health and safety of their occupants. Since the Housing Act of 1949, housing programs have been implemented to provide replacement housing or to repair existing units. Many of these programs have been operated by Farmers Home Administration directly with eligible families in rural areas. Congress established the Housing Preservation Grant (HPG) Program to address some of these problems. (FmHA 86-005)

66. FMHA GUARANTEES OF COMMERCIAL LENDER'S FARM OWNERSHIP (FO) AND OPERATING LOANS (OL) WITH ACCOMPANYING LENDER PRINCIPAL WRITE DOWN AND/OR INTEREST RATE REDUCTION

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1960

Legal Deadline: None

Abstract: The general objective of the proposed action is to integrate Government and Private Sector resources in a continual effort to resolve financial difficulties in agriculture. The proposed action amends the debt adjustment program regulations for guaranteed OL and FO loans to clarify the dollar value equivalency of an interest rate reduction used in lieu of a required 10 percent minimum write down of the total principal and interest outstanding on loan(s) which a lender wants guaranteed; to reduce the minimum positive cash flow requirement under the DAP from 110 percent to 100 percent and to permit lenders to use a combination write down of principal of indebtedness along with an interest rate reduction which would equal the value of an upfront write down of existing indebtedness of at least 10 percent. The intended effect of this action is to provide additional financial assistance to both lenders and their farm borrowers in a time of financial difficulty. (FmHA 85-005)

67. ● CHANGES TO THE FMHA FARMER PROGRAM LOAN MAKING, SUPERVISION AND SERVICING REGULATIONS TO IMPLEMENT THE APPLICABLE PROVISIONS OF THE "FOOD SECURITY ACT OF 1985"

Legal Authority: 7 USC 1989

CFR Citation: 7 CFR 1900; 7 CFR 1910; 7 CFR 1924; 7 CFR 1941; 7 CFR 1943; 7 CFR 1945; 7 CFR 1955; 7 CFR 1980

Legal Deadline: Statutory, June 23, 1986

Abstract: Most of the provisions of the Food Security Act of 1985 are mandated by the Act. The major effects will be to insure that the agency provides prompt service to applicants and borrowers, reduce the need and size of the emergency loan program, provide for additional ways that borrowers may continue farming, provide a home during the transition from farming to other employment, preserve the family farm, protect the national food supply, and provide for conservation of less productive land. Food and Nutrition Service (FNS)

Proposed Rule Stage

71. ● WAIVER SIMPLIFICATION: FOOD STAMP PROGRAM

Legal Authority: 7 USC 2014(b)

CFR Citation: 7 CFR 273; 7 CFR 273.21

Legal Deadline: None

Abstract: This rule modifies Food Stamp regulations to increase regulatory flexibility and reduce the need for waiver requests by State agencies. The rule will make numerous changes in certification and program administration; however the majority of changes will affect Monthly Reporting and Retrospective Budgeting since this area is the source of most waiver requests. (FNS 85-001)

RIN: 0584-AA02

72. ISSUANCE LOSS LIABILITY: FOOD STAMP PROGRAM

Legal Authority: 7 USC 2016; 7 USC 2020(e)(20)

CFR Citation: 7 CFR 274; 7 CFR 276

Legal Deadline: None

Abstract: These rules govern the issuance of food stamps to Food Stamp Program participants. They also establish the system for accounting for the food stamps and establish liabilities for losses during the issuance process. (FNS 84-002)

73. FOOD DISTRIBUTION PROGRAM ON INDIAN RESERVATIONS

Legal Authority: 7 USC 2013(b)

VOL 51 ISS 76 AP 21 1986 UMI

USDA—FNS

Proposed Rule Stage

CFR Citation: 7 CFR 253

Legal Deadline: None

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule describes the terms and conditions under which (1) USDA-donated foods (available under 7 CFR 250) may be distributed to households on or near Indian reservations; (2) the program may be administered by capable Indian tribal organizations; and (3) funds may be obtained from USDA for the costs incurred in administering the program. The rule also provides for the concurrent operation of the Food Distribution Program and the Food Stamp Program on Indian reservations when such concurrent operation is requested by an Indian tribal organization. (FNS 84-514)

74. REWRITE OF REGULATIONS ON DETERMINING ELIGIBILITY FOR FREE AND REDUCED PRICE BENEFITS

Legal Authority: 42 USC 1758; 42 USC 1779

CFR Citation: 7 CFR 245

Legal Deadline: None

Abstract: This rule will revise regulations covering the eligibility process for school meals and milk. Part 245 has not undergone a complete rewrite in many years despite legislative change which has substantially changed the application process. The rewrite is primarily nonsubstantive in nature. The rewrite is intended to remove duplicative and obsolete provisions to clarify and reorganize all sections and to incorporate the requirements of P.L. 97-35. (FNS 84-518)

75. ADMINISTRATIVE REVIEW PROCESS AND QUALITY CONTROL ARBITRATION PROCEDURES: FOOD STAMP PROGRAM

Legal Authority: 7 USC 2023(a); 7 USC 2025(c),(d)

CFR Citation: 7 CFR 276.7

Legal Deadline: None

Abstract: FNS is considering simplification of review process. In addition, FNS is proposing to set definite timeframes for the submission of State requests for arbitration on individual quality control cases where findings are disputed. (FNS 84-013)

77. ● PROPOSAL FOR A NATIONAL INVENTORY SYSTEM

Legal Authority: 7 USC 612c; 7 USC 612c Note; 15 USC 713c; 42 USC 1755; 42 USC 1758; 7 USC 1431; 22 USC 1922; 7 USC 1859; 7 USC 1431b; 7 USC 1431 Note; 7 USC 1446a-1; 42 USC 1761; 42 USC 5179; 42 USC 5180; 42 USC 1762a

CFR Citation: 7 CFR 252

Legal Deadline: None

Abstract: This proposal offers an alternative to the National Commodity Processing (NCP) Program and the proposed mandated State processing program. The proposal is intended to make processed end products available to all eligible recipient agencies and place the burdens of administration at the levels best suited and equipped to handle the various responsibilities. (FNS 86-509)

78. ● ANNUAL SAE PLAN/FUNDS: CHILD NUTRITION PROGRAMS

Legal Authority: 42 USC 1779

CFR Citation: 7 CFR 235.4(d)

Legal Deadline: None

USDA—FNS

Proposed Rule Stage

Abstract: The annual SAE plan would be integrated into the SAE funding process. Upon FNS approval of its plan a State agency would receive SAE funds equal to the lesser of the amount provided under the allocation formulas plus any amount carried over from the previous year, or the amount justified in its plan. SAE plans would be broadened to include State as well as SAE funds and be structured to address program needs. These plans could be amended at any time to justify additional SAE funds, up to the amount allocated by formula, or to reflect any other changes in funding or funding needs. FNS would assess State plan implementation as part of its ongoing management evaluation of State agencies. The rule would also: provide more effective monitoring of the State maintenance of effort (MOE) requirement as a condition of receiving SAE funds; limit to one the number of SAE reallocations that FNS could perform annually; and emphasize FNS's authority to sanction a State agency's funds for failure to implement its approved administrative plan. (FNS 85-506)

79. ● SIMPLIFIED APPLICATION AND STANDARDIZED BENEFITS: FOOD STAMP PROGRAM

Legal Authority: PL 99-198; 7 USC 2011 to 2027; 91 Stat 958

CFR Citation: 7 CFR 282.19

Legal Deadline: None

Abstract: This rule addresses the simplified application and standardized benefit provisions contained in the Food Security Act of 1985. These provisions should result in reductions in administrative costs and, depending on the benefit standardization procedures used, significant reductions in error rates. (FNS 86-010)

80. ● ADMINISTRATION/MANAGEMENT: FOOD STAMP PROGRAM

Legal Authority: PL 99-198, Secs. 1524, 1530, 1526, 1534, 1539; 7 USC 2011 to 2027; 91 Stat 958

CFR Citation: 7 CFR 272.4; 7 CFR 272.3; 7 CFR 273.18; 7 CFR 275.15

Legal Deadline: Statutory, April 1, 1987

Abstract: This regulation implements the following five provisions of the Food Security Act of 1985: (1) sets standards for the periodic review of food stamp offices' hours of operation; (2) requires State agencies to encourage participation in the Expanded Food and Nutrition Education Program (EFNEP); (3) requires project areas with 5,000 or more households to establish units to detect fraud; (4) allows State agencies to enter into agreements with State agencies administering Unemployment Compensation laws so that food stamp State agencies can collect outstanding claims by withholding unemployment benefits and/or other methods of collecting claims when recoupment is not an available method; (5) requires the Department to require State agencies to change the certification procedures used in project areas where it is determined that payment error rates are impairing the integrity of the program. 83. ● RETAILER/WHOLESALER PROVISIONS: FOOD STAMP PROGRAM

Legal Authority: PL 99-198; 7 USC 2011 to 2027; 91 Stat. 958

CFR Citation: 7 CFR 278

Legal Deadline: None

Abstract: This rule addresses the retailer/wholesaler provisions contained in the Food Security Act of 1985. These provisions are intended to reduce paperwork required of retail stores; improve compliance by retailers and wholesalers; and provide information to State agencies administering the WIC Program to improve the oversight of stores participating in that program. Legal Authority: 7 USC 612c; 15 USC 713c; 42 USC 1755; 42 USC 1756; 7 USC 1431; 22 USC 1922; 7 USC 1859; 7 USC 1431b; 7 USC 1431 Note; 7 USC 1446e-1; 42 USC 1761; 42 USC 5179; 42 USC 5180; 42 USC 1762a; 42 USC 1766; ...

CFR Citation: 7 CFR 250

Legal Deadline: None

Abstract: The rule reorganizes existing regulatory provisions for clarity and ease of reference. This rule outlines the responsibilities of the Food and Nutrition Service and State agencies concerning the distribution of USDA-donated foods acquired under various legislative authorities. The rule prescribes the terms and conditions under which donated foods may be obtained through distributing agencies for use in schools, child care institutions, nonprofit summer camps for children, charitable institutions, nutrition programs for the elderly, and otherwise in the assistance of needy persons. In addition, a number of provisions have been included to strengthen and improve the State Processing Program. (FNS 84-513)

94. ● NON-DISCRETIONARY BUDGET PROVISION: FOOD STAMP PROGRAM

Significance: Agency Priority

Legal Authority: PL 99-198; (99 Stat. 1354) Secs. 1505, 1511(2), (3)(A) & (B), 1514(1)

CFR Citation: 7 CFR 273

Legal Deadline: Statutory, May 1, 1986

Abstract: This final rule will implement certain non-discretionary major budgetary provisions of the Food Security Act of 1985. This action: 1) increases the maximum resource limit to $2,000 for nonelderly/nondisabled households; 2) expands the $3,000 maximum resource limit for elderly/disabled households; 3) increases the earned income deduction from 18 percent to 20 percent; 4) separates the combined shelter/dependent care maximum deduction limit for nonelderly/nondisabled households; 5) increases the maximum limit for the dependent care deduction to $160 per nonelderly/nondisabled household; and 6) prohibits the collection of State and local sales taxes on food stamp purchases. The sale tax prevision has the potential of significantly affecting those States currently taxing items purchased with food stamps. (FNS 86-001)

BILLING CODE 3410-01-T

DEPARTMENT OF AGRICULTURE (USDA)

Food Safety and Inspection Service (FSIS)

Prerule Stage

101. RECORDS, REGISTRATION, AND REPORTS

Legal Authority: 21 USC 451 et seq; 21 USC 601 et seq; 5 USC 552 et seq; 5 USC 601 et seq; 44 USC 3501 et seq; EO 12291

CFR Citation: 9 CFR 320; 9 CFR 381, Subpart Q

Legal Deadline: None

Abstract: The Agency will review Parts 320 and 381 Subpart Q, of Title 9 of the Code of Federal Regulations relating to records and reports required to be maintained by official meat and poultry establishments. The purpose of the review will be to determine whether present reporting and recordkeeping requirements can be reduced or effected in a more efficient, less burdensome manner. (FSIS 82-003)

Timetable:

Action	Date	FR Cite
Begin Review	08/08/83	
End Review	09/30/86

102. ADMINISTRATIVE REGULATIONS

Legal Authority: 21 USC 601 et seq; 21 USC 451 et seq; 44 USC 3501 et seq; 5 USC 601 et seq; 7 CFR Part 1; EO 12291

CFR Citation: 9 CFR 304; 9 CFR 305; 9 CFR 306; 9 CFR 307; 9 CFR 329; 9 CFR 331; 9 CFR 335; 9 CFR 381

Legal Deadline: None

Abstract: The Agency will review administrative requirements for applying for, granting, refusing, inaugurating, and withdrawing inspection; detaining, seizing, and condemning meat and poultry products; assigning program employees; designating States and territories and providing reimbursable services; scheduling of operations, and for overtime and holiday services.

Would also determine adequacy of current regulations as they relate to petitioning the Agency for regulatory change and informing interested persons of Agency procedures for appeal in the event of adverse determinations. (FSIS 83-009)

103. RED MEAT SLAUGHTER REGULATIONS

Legal Authority: 21 USC 601 et seq; 5 USC 601 et seq; EO 12291

CFR Citation: 9 CFR 307; 9 CFR 309; 9 CFR 310; 9 CFR 311; 9 CFR 312; 9 CFR 313; 9 CFR 314; 9 CFR 316

Legal Deadline: None

Abstract: The Agency will review the slaughter provisions of the regulations promulgated under the Federal Meat Inspection Act (FMIA), 9 CFR 307, 309 through 314, and 316, to identify regulatory provisions that may be deleted or modified as a result of either technological advances or changes in meat inspection procedures while allowing the Agency to maintain the same standards for product wholesomeness and public health protection. 109. ● DEFINITIONS AND STANDARDS OF IDENTITY FOR MISCELLANEOUS PORK PRODUCTS AND MISCELLANEOUS BEEF PRODUCTS

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 319

Legal Deadline: None

Abstract: USDA received a petition from the National Pork Producers Council requesting that a standard for ground pork be adopted. The petitioner expressed concern that variations in the quality of ground pork products might cause negative consumer response to ground pork. USDA also received a petition from the Western States Meat Association requesting that the standards for ground beef, chopped beef, and hamburger be clarified by designating the anatomical origin of the meat that may be used in these products. USDA proposed to amend the regulations to include compositional requirements that are consistent with regulations for similar products and incorporate existing policies. (FSIS 86-001)

110. ● STANDARD OF IDENTITY AND COMPOSITION FOR "LITE" SAUSAGE

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 319

Legal Deadline: None

Abstract: USDA has been petitioned by the American Meat Institute (AMI) "to promulgate a standard of identity and composition for 'lite' sausage." The current cooked sausage standard includes various processed meat food products, such as frankfurters, hot dogs, weiners, viennas, bolognas, and knockwurst. The AMI petition requests a new standard for lower-fat "lite" sausage that would require not more than 22.5 percent fat and not less than 11.5 percent protein, as compared with 30 percent fat and 10 percent added water maximums in the existing cooked-sausage standard. (FSIS 86-002)

111. ● REGULATIONS CONCERNING THE IRRADIATION OF PORK FOR TRICHINA CONTROL

Significance: Regulatory Program

Legal Authority: 21 USC 601 et seq

CFR Citation: 9 CFR 318

Legal Deadline: None

Abstract: USDA published a regulation approving the use of low-dose irradiation in federally inspected plants to control trichina in pork carcass and fresh cuts of pork on January 15, 1986. The regulation was published as a final rule and approved the use of irradiation in pork for the control of trichina. Further regulatory issues concerning the use of irradiation in pork such as labeling requirements and the amendment of current regulations to name irradiation as an approved method of "controlling" trichina were not addressed in the original rulemaking. 135. LAND STATUS AND TITLE RECORDS

Legal Authority: 16 USC 472; 16 USC 551; 16 USC 1603

CFR Citation: 36 CFR 200.12, (New)

Legal Deadline: None

Abstract: Objective is to establish that the Land Status Record is the official record of title for National Forest System lands and to set forth the authorities, policies, and procedures for recording, custody, maintenance, and use of title documents and title status reports. (FS 85-012)

136. ADD SECTION TO 36 CFR 251.53 - SPECIAL USES TO INCLUDE ALASKA NATIONAL INTEREST LAND AND CONSERVATION ACT AS AN AUTHORITY AND ADD REGULATION 36 CFR 251.70 ON INGRESS AND EGRESS TO ETC

Legal Authority: 16 USC 3210(a)

CFR Citation: 36 CFR 251.53

Legal Deadline: None

Abstract: The proposed regulation will tie the granting of special-use authorizations for ingress and egress under the Alaska National Interest Lands and Conservation Act (ANILCA) to the existing authorities for granting authorizations to use or occupy National Forest lands and remove the discretionary aspects of those laws and regulations when applied to parties qualifying for access under ANILCA. Proposed Rule Stage

137. PERIODIC PAYMENTS FOR NATIONAL FOREST TIMBER SALE CONTRACTS

Legal Authority: 16 USC 472a; 16 USC 618

CFR Citation: 36 CFR 223.51, (New)

Legal Deadline: None

Abstract: The Federal Timber Sale Contract Payment Modification Act requires the Forest Service to require purchasers to make periodic payments on timber sales. As established by the act, the objective of periodic payments is to discourage speculative bidding on National Forest timber sales. A soon-to-be published rule (See RIN 0596-AA29) will require cash down payments and one periodic payment requirement. However, to fully comply with the act, additional rules are required. This rule will be based on an evaluation of the effects of requiring annual payments, on consideration of procedures that would permit the pooling of payments, and on consideration of market-related contract adjustments.

There are no alternatives to issuing this rule; it is required by the Federal Timber Sale Contract Payment Modification Act. (FS 85-014)

141. ● CONTROL OF SKEWED BIDDING ON NATIONAL FOREST TIMBER SALES

Legal Authority: 16 USC 472a

CFR Citation: 36 CFR 223.69

Legal Deadline: None

Abstract: Timber may not be sold at less than appraised value. Skewed bidding enables bidders to tailor their bids to their competitive strengths. While skewed bidding can be advantageous to purchasers, it can also reduce Government receipts and increase Forest Service timber sale administration costs. These results were documented by the General Accounting Office (GAO/RCED-83-37). This proposal is made in partial response to the recommendations in that review. (FS 86-006)

Proposed Rule Stage

142. ● MODIFY THE GENERAL PROHIBITION AGAINST USE OF VEHICLES IN EXCESS OF 40 INCHES IN WIDTH ON TRAILS - 36 CFR 261.12(E)

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261.12(e)

Legal Deadline: None

Abstract: The objective of this action is to permit forest officers more discretion for controlling off-road vehicle use. Three factors have created the need to modify this regulation: (1) the general prohibition at 36 CFR 261.12(e) controls trail use by width of vehicle. Originally developed to control four wheel-drive vehicles on trails, this method uses a fairly arbitrary device (width) to control use; (2) off-road vehicle plans (36 CFR 295) use vehicle types to prescribe the vehicles that are permitted to use forest trails; (3) some recent models of trail vehicles (all terrain vehicles and snowmobiles) exceed the forty inch rule by one to five inches. The combination of the two methods of control with the larger model sizes has created confusion among users about ORV plan direction and created law enforcement difficulties. The proposed action would clarify the regulations and still maintain the tools necessary to control off-road vehicle use. (FS-86-007)

143. ● REVISE THE DEFINITION OF "MECHANICAL TRANSPORT" AT 36 CFR 293.6(A)

Legal Authority: 16 USC 113 to 136; 16 USC 528 to 531; 16 USC 577 to 577c; 16 USC 1133

CFR Citation: 36 CFR 293.6(a)

Legal Deadline: None

Abstract: The objective of this action is to clarify the definition of mechanical transport in 36 CFR 293.6(a). Except where specifically provided for, the Wilderness Act (16 USC 1133) prohibits both motorized equipment and mechanical transport. Mechanical transport includes devices such as bicycles, hang gliders, wheeled carts, and other items designed to carry people or supplies and powered by either "non living" or "living" power sources. Semiannual Agenda of Regulations

AGENCY: Department of Commerce.

ACTION: April 1986 regulatory agenda.

SUMMARY: In compliance with Executive Order (EO) 12291, entitled "Federal Regulation," and the Regulatory Flexibility Act (Pub. L. 96-354), the Department of Commerce (DOC) in April and October of each year publishes in the **Federal Register** an agenda of the regulations that the Department expects to propose or to issue over the next 12 months that are covered by section 1 of EO 12291. In addition, the agenda lists existing regulations currently under review for possible revision or repeal. Finally, the agenda lists rulemakings and reviews of existing regulations completed since publication of the last agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

DOC's April 1986 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 1986 through March 31, 1987.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about a specific regulatory action listed in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Michael A. Levitt, Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, D.C. 20230, Telephone: (202) 377-3151.

SUPPLEMENTARY INFORMATION: On February 17, 1981, President Reagan signed Executive Order 12291. The EO requires all executive agencies to publish semiannually an agenda of those regulations that are under consideration pursuant to this Order. Office of Management and Budget (OMB) Bulletin No. 86-4, issued December 23, 1985 establishes guidelines and procedures for the preparation and publication of the April 1986 "Unified Agenda of Federal Regulations" for all Federal departments and agencies. EO 12291 and the OMB Bulletin require that each agenda report the following information on non-exempt regulatory activities being conducted or planned to be conducted by the agency during the twelve-month period succeeding publication: The title of the regulation; the name, title, address and phone number of an agency person who is knowledgeable about the regulation; whether the regulation has or is expected to have a significant economic impact on a substantial number of small entities; the section(s) of the "Code of Federal Regulations" (CFR) which will affect or be affected by the action; the section of the "United States Code" (USC), Public Law (PL), or Executive Order (EO) that authorizes the action; an indication of whether or not the entry is a significant regulatory action included in the Administration's Regulatory Program and if the agency considers it a priority action; an abstract describing the problem the regulation addresses, alternatives to the regulation being considered, and potential costs and benefits of the action; legal deadline, if any; and a timetable of dates and, if available, **Federal Register** citations for past and future stages of the action.

The Regulatory Flexibility Act requires agencies to prepare a regulatory flexibility analysis (RFA) where there is a positive finding that a rule will have a significant impact on a substantial number of small entities. EO 12291 requires agencies to prepare a regulatory impact analysis (RIA) for any regulation considered to be a "major rule" as defined in the EO.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units such as the National Oceanic and Atmospheric Administration (NOAA), the Economic Development Administration (EDA), the International Trade Administration (ITA), National Bureau of Standards (NBS) and the Patent and Trademark Office (PTO) issue the greatest share of the Department's regulations, while other operating units such as the United States Travel and Tourism Administration and the Minority Business Development Agency currently have no regulations in the agenda.

A large number of the regulations presented in the agenda deal with fishery management programs of NOAA's National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the technical and institutional elements of the NMFS programs, a section on "Explanation of Information Contained in NMFS Regulatory Entries" is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson Fishery Conservation and Management Act of 1976 (16 USC 1801 et seq.) (Act) requires that a preliminary fishery management plan (PMP) be prepared for all fisheries within the Exclusive Economic Zone (EEZ) fished in by foreign fishing nations. The EEZ refers to those waters from the outer edge of the United States territorial sea to a distance of 200 miles. Fishery Management Plans (FMPs) are to be prepared if those fisheries require conservation and management measures. Although PMPs apply only to foreign fishing, the FMPs regulate both foreign and domestic fishing. When promulgated, the FMPs supersede the PMPs. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs, or amendments to FMPs, for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance of some regulatory actions under consideration at the time the semiannual regulatory agenda is published. Frequently NMFS does not have specific plan objectives or alternatives for management since the Councils may not have approved or submitted plans to the Secretary of Commerce for review, adoption, and implementation.

Another large number of regulatory actions reported in the agenda are proposed or final Federal Information Processing Standards (FIPS), issued by the National Bureau of Standards under PL 89-306. FIPS consist of standards and guidelines to improve Federal Government use and management of computers and information technology. The standards, while often of great use to industry and the public, apply only to the Federal Government. In developing the standards and guidelines, and in providing technical guidance and coordination to Federal agencies, NBS works closely with private industry standard-setting organizations.

The DOC April 1986 regulatory agenda follows.

DATED: March 13, 1986.

Douglas A. Rigg,

General Counsel.

161. CONTRACT CLAUSES AND SOLICITATION PROVISIONS FOR THE COMMERCE AUTOMATED SOLICITATION SYSTEM

Legal Authority: 41 USC 251 et seq; PL 98-369; PL 98-577

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Department of Commerce is currently reviewing standardized contract clauses and solicitation provisions for inclusion in a planned Department wide automated solicitation system. A proposed amendment to the Commerce Acquisition Regulation (CAR) would illustrate and incorporate these standardized clauses and provisions. This should ultimately be less burdensome to Department contractors and potential contractors, since the clauses and provisions would be used uniformly throughout the Department.

DOC—OS

Proposed Rule Stage

Legal Deadline: Statutory, February 5, 1985

Abstract: Section (a) (2) of Public Law 99-87 authorizes and requires each executive department and independent establishment of the Government of the United States to prescribe regulations under which penalty mail may be used to assist in the location and recovery of missing children. These regulations are required to be in conformance with guidelines issued by the Department of Justice's Office of Juvenile Justice and Delinquency Prevention located at 50 FR 46822, November 8, 1985.

Legal Authority: 41 USC 251 et seq; PL 98-369

CFR Citation: 48 CFR 1 to 53

Legal Deadline: None

Abstract: The Federal Acquisition Regulation (FAR) has been amended to incorporate the requirements of Public Law 98-369. Agencies are required to provide necessary implementing regulations which are peculiar to the executive agency. This is accomplished by Commerce through amendments to the existing Commerce Acquisition Regulation (CAR) (48 CFR 13). The provisions of the Public Law are effective April 1, 1985. Public Law 98-577 also requires amendments to the FAR and the CAR. Effective dates of Public Law 98-577 sections vary, but implementing regulations will be prepared by Mar. 1986. Commerce will amend the existing CAR once the amendments to the FAR are available to the public. Specific parts of the FAR requiring agency supplements cannot be readily determined at this time. Periodic updates are anticipated to implement regulatory and new statutory requirements. This CAR Amendment 85-2 implements the protest provisions of PL 98-369 within Commerce. This Amendment also involves Department policy unrelated to PL 98-369; e.g., women-owned small business acquisition program, pre-award surveys for ship repair contracts, recovery of administrative costs, use of Alternate I of (cont)

167. ● UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION

Legal Authority: 42 USC 4601

CFR Citation: 15 CFR 11; 15 CFR 916; 13 CFR 310

Legal Deadline: None

Abstract: This regulation establishes a common rule for the implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 which requires that owners of real property to be acquired for Federal of federally-assisted programs and persons displaced from their dwellings, business, or farms as a result of such acquisition be provided fair, consistent, and equitable treatment. In May 1982, the Office of Management and Budget, in response to the concerns of State and local governments, formed a Uniform Act Interagency Regulatory Review Working Group to develop the common rule. On February 27, 1985, a Presidential Memorandum was published in the February Register naming the Department of Transportation as the agency with lead responsibility for the Uniform Act and directing agencies to develop and adopt a common proposed rule for publication in the May 28, 1985, Federal Register with the final rule being published in the February 27, 1986 Federal Register.

DOC—BEA — Proposed Rule Stage

services trades, improve recording of services transactions in the U.S. balance of payments accounts, and assist U.S. services businesses in identifying and evaluating market opportunities. Annual cost to BEA of conducting surveys will be about $500,000; initial cost to respondents will be about 132,000 manhours, or $4.0 million, at a maximum. Benefits in terms of reduction in barriers to services trade, increased sales of services, and improved balance of payments statistics will far exceed costs.

Additional Information: A notice of proposed rulemaking to bring existing BEA surveys of U.S. services transactions under 22 USC 3101 to 3108, as amended, and to conduct a BE-20 Benchmark Survey of U.S. Services Transactions With Unaffiliated Foreign Persons was submitted to OMB in August 1985, along with an information collection request for the benchmark survey. On 10/21/85, OMB disapproved the information request for the benchmark survey, largely because of respondent burden. Subsequently, final rules were prepared covering the other existing Bureau of Economic Analysis surveys on U.S. services transactions. Those rules, to be included as 15 CFR 801, are intended to replace existing rules 15 CFR 802 and 15 CFR 803. BEA is now conducting a public outreach program to revise the BE-20 benchmark survey to meet OMB requirements. The above information refers to action expected this year on the rules to amend the new 15 CFR 801 to cover the revised BE-20 benchmark survey.

Public Compliance Cost: Initial Cost: $3,960,000; Yearly Recurring Cost: $2,000,000; Base Year for Dollar Estimates: 1986

Final Rule Stage

169. SURVEYS OF INTERNATIONAL TRADE IN SERVICES BETWEEN U.S. AND FOREIGN PERSONS

Significance: Regulatory Program

Legal Authority: 22 USC 3101 to 3108 International Investment Survey Act of 1976; PL 98-573, Sec 306 Trade and Tariff Act of 1984

CFR Citation: 15 CFR 801, (See AdditioNot applicable I nformation); 15 CFR 803, (Revision)

Legal Deadline: None

Abstract: Action will fill gaps in data on international services transactions so U.S. Government can better assess size and impact of these transactions, more effectively formulate international economic policies and conduct negotiations to reduce the barriers to services trade, improve recording of services transactions in the U.S. balance of payments accounts, and assist U.S. services businesses in identifying and evaluating market opportunities. Annual cost to BEA of conducting surveys will be about $500,000; initial cost to respondents will be about 132,000 manhours, or $4.0 million, at a maximum. Benefits in terms of reduction in barriers to services trade, increased sales of services, and improved balance of payments statistics will far exceed costs.

170. ● FINAL RULE TO INCREASE EXEMPTION LEVEL FOR QUARTERLY REPORT FORM BE-577

Legal Authority: 22 USC 3101 to 3108 Int'l Invest. and Trade in Serv. Survey Act

CFR Citation: 15 CFR 806

Legal Deadline: None

Abstract: This action will raise the exemption level from $10,000,000 to $15,000,000 for quarterly report form BE-577, Direct Transactions of U.S. Reporter with Foreign Affiliate. The purpose of the change is to effect a reduction in the number of reports filed by U.S. companies concerning transactions with their foreign affiliates and thus significantly reduce the reporting burden.

171. ● DESIGNATION OF AREAS; DESIGNATION OF PWIP AREAS

Legal Authority: 42 USC 3211; Department of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 302

Legal Deadline: None

Abstract: 13 CFR Part 302 at Section 302.7 entitled "Designation of Public Works Impact Program Areas" will be amended at paragraph (a)(4) to delete reference to submission of an Overall Economic Development Program (OEDP) since under EDA's authorizing legislation, Public Works Impact Program (PWIP) projects need not meet OEDP requirements; and to add that although there are no boundary constraints for PWIPs under the Act, program considerations dictate that for an area to be given PWIP designation, it must be capable of analysis in light of available data establishing eligibility for designation.

175. BUSINESS DEVELOPMENT PROGRAM - FINANCIAL ASSISTANCE FOR INDUSTRIAL AND COMMERCIAL PURPOSES

Legal Authority: 42 USC 3211; DOC Organization Order 10-4, as amended

CFR Citation: 13 CFR 306

Legal Deadline: None

Abstract: This rule amends EDA's project financing regulation by increasing EDA's ordinary maximum participation for business loan projects from $10,000 to $20,000 per job created or saved. Findings from EDA and GAO studies indicate that the current average government cost per job saved or created far exceeds the $10,000 limit. An increased limit of $20,000 per job created or saved is consistent with these findings.

180. ● GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE; UNFAIR COMPETITION

Legal Authority: 42 USC 3211; Dept. of Commerce Organization Order 10-4, as amended

CFR Citation: 13 CFR 309

Legal Deadline: None

Abstract: 13 CFR 309 at Section 309.2 entitled "Unfair Competition" will be amended to change conditions under which EDA will conduct a study (verification and evaluation) called a "702 Study" of the capacity and demand for particular goods, materials, commodities, services or facilities. The amendment will narrow the unfair competition requirements for a "702 Study" by raising the threshold amount of projects from $10,000 to $ 25,000. Also, the unfair competition exceptions will be expanded to apply to all EDA financial assistance programs. Certain projects will be exempt from "702 Study" requirements and the definition of retention of capacity and employment will be changed by deleting the word "existing".

188. ADMINISTRATIVE OFFSETS FOR DEBTS OWED THE DEPARTMENT OF COMMERCE

Legal Authority: PL 97-365, Sec 10

CFR Citation: 15 CFR 2A, (New)

Legal Deadline: None

Abstract: The proposed regulation will cover Department procedures for withholding money due individuals and businesses indebted to the Federal Government. Administrative offsets will be used by the Department when debtors have failed to make timely and adequate payments to satisfy such debts. Prior to collecting claims through administrative offset, debtors will be provided under the regulations with a notification of the amount and nature of the claim and the Department's intention to collect the claim through administrative offset, and explanation of the debtor's rights, an opportunity for the debtor to inspect and copy the agency's records relating to the claim, an opportunity for review of the claim by the agency if contested by the debtor, and an opportunity to enter into a written agreement with the agency for repayment of the amount due. These procedures will ensure the effective use of administrative offsets when appropriate, thereby increasing collections of amounts due the Federal Government. The result will be better cash management and a slight reduction in the need of the Federal Government to borrow funds in the capital market.

Final Rule Stage

189. ● NONPROCUREMENT SUSPENSION AND DEBARMENT

Legal Authority: Executive Order (Yet to be issued)

CFR Citation: 15 CFR Part undetermined

Legal Deadline: None

Abstract: To eliminate duplicative and inconsistent debarment and suspension actions across the government. Private actions or actions by other levels of government would lack broad enough jurisdiction. This regulation will benefit the U.S. by eliminating duplicative and costly actions. Benefits have not been quantified at this time.

190. AUDIT REQUIREMENTS FOR STATE AND LOCAL GOVERNMENTS

Legal Authority: PL 98-502 Single Audit Act of 1984

CFR Citation: 15 CFR 8a

Legal Deadline: None

Abstract: The Department of Commerce published to implement the requirements for auditing state and local governments as required by the Single Audit Act of 1984, P.L. 98-502. This regulation is meant to improve audits of Federal aid programs to state and local governments. The rule establishes audit requirements for state and local governments that receive Federal aid, and defines the Department's responsibilities for implementing and monitoring these requirements.

Proposed Rule Stage

191. GENERAL REGULATIONS GOVERNING FOREIGN TRADE ZONES IN THE UNITED STATES, WITH RULES OF PROCEDURES

Legal Authority: 19 USC 81a et seq Foreign-Trade Zones Act of 1934

CFR Citation: 15 CFR 400

Legal Deadline: None

Abstract: Revision of the regulation is needed to administer the Foreign-Trade Zones Act of 1934, as amended, to provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States. At the time the ANPRM was published the emphasis was on changing the rules to provide improved guidance to the public on procedures and criteria followed in making decisions concerning special-purpose subzones and operations detrimental to the public interest. Since that time, it has been decided to propose revisions to the entire 15 CFR 400 in order to update the language and conform it to current CFR format.

192. ADJUSTMENT ASSISTANCE FOR FIRMS AND INDUSTRIES

Legal Authority: 19 USC 2341 et seq

CFR Citation: 15 CFR 320

Legal Deadline: None

Abstract: This regulation will implement the responsibilities transferred from EDA to ITA concerning the provision of adjustment assistance to firms and industries adversely affected by imports. The proposed rule will reflect amendments to the authorizing legislation and make procedural changes required because of the transfer of the program to ITA. Proposed rules were published in the Federal Register (November 1984). Final rules have not been published because pending authorizing legislation may alter program significantly.

194. EFFECT OF IMPORTED ARTICLES ON THE NATIONAL SECURITY

Legal Authority: 19 USC 1862 Trade Expansion Act of 1962, as amended; 5 USC App. Reorganization Plan No. 3 of 1979; EO 12188

CFR Citation: 15 CFR 359

Legal Deadline: None

Abstract: Section 359.10(a) of the existing regulation requires that a report of an investigation be organized into several sections containing classified and unclassified information. Paragraph (c) of that section requires that the report (excluding confidential material) be published in the Federal Register. Paragraph (a) will be amended

VOL 51 ISS 76 AP 21 1986 UMI

DOC—ITA — Final Rule Stage

to delete the report organization requirement and paragraph (b) will be amended to permit publication of either the full report or a summary thereof. It is impractical, time consuming, and not cost effective to organize the report, and publish the full report, as now required by the regulation. Section 359.10(c) will also be amended to provide that a copy of the report will be available to the public from the Publications Distribution Office of the Department rather than at ITA's Freedom of Information Records Inspection Facility.

195. REVISIONS TO SHORT SUPPLY REGULATIONS

Legal Authority: 50 USC app 2401 et seq; PL 99-64; 42 USC app 2401 et seq; 10 USC 7420 et seq; 43 USC 1354; 30 USC 185; EO 11912; EO 12214; EO 12002

CFR Citation: 15 CFR 371; 15 CFR 377; 15 CFR 399

Legal Deadline: None

Abstract: On July 12, 1985, the Export Administration Amendments Act of 1985 (PL 99-64) extended and amended the Export Administration Act of 1979 (50 USC app 2401, et seq.)(EAA). Certain changes were made to the Short Supply provisions of Section 7 of the EAA. Accordingly, revision of the Short Supply provisions (15 CFR 377) and related licensing requirements (15 CFR 371 and 399) of the Export Administration Regulations (15 CFR 368-399) is necessary. An interim final rule was issued which included (1) elimination the validated licensing requirement for exports of refined petroleum products so as to permit their export with certain restrictions under a general license; (2) a new definition of "crude oil" for purposes of the regulation; and (3) certain technical and housekeeping changes. There are no costs associated with this action which would promote the export of decontrolled products.

196. ● EXPORTS OF CRUDE OIL DERIVED FROM ALASKA'S COOK INLET

Significance: Regulatory Program

Legal Authority: 50 USC app 2401, et seq. PL 96-72, as amended; EO 12525 July 12, 1985 (50 FR 28757, July 16, 1985); 42 USC 6212 PL 97-163, as amended, Sec 103; 30 USC 185 PL 93-153, Sec 28; 43 USC 1354 PL 95-372, Sec 28; EO 11912 April 3, 1976 (41 FR 15825, as amended); 10 USC 7420 and 7430(e) PL 94-258, Sec 101 and 201(11)(e); 50 FR 25169 June 18, 1985

CFR Citation: 15 CFR 377

Legal Deadline: None

Abstract: On November 6, 1985, the Secretary of Commerce determined that permitting the export of crude oil derived from Alaska's Cook Inlet is in the national interest and consistent with the purposes of the Energy Policy and Conservation Act. Accordingly, the Department of Commerce proposes to revise Part 377 of the Export Administration Regulations to permit exports of crude oil derived from Alaska's Cook Inlet. There are no costs associated with this action.

Legal Authority: 50 USC 1702 PL 95-223, as amended, Sec 203; 50 USC 1704 PL 95-223, as amended, Sec 208; EO 12470 March 30, 1984 (49 FR 13099, April 3, 1984); 42 USC 6212 PL 94-163, as amended, Sec 103; EO 11912 April 13, 1976 (49 FR 15825, as amended); 10 USC 7430 as amended by PL 98-258, Sec 201(10)

CFR Citation: 15 CFR 377

Legal Deadline: None

Abstract: With few exceptions, the Congress prohibits the export of crude oil. However, the Department wants to ensure that it does not unnecessarily restrict sales of refined petroleum products by imposing regulatory barriers that were not intended by statutes. Accordingly, the Department will attempt to clarify the definition of refined petroleum products to provide greater certainty to exporters as to what may be exported. There are no costs associated with this action.

212. ● REVISION TO FIPS 29-1, INTERPRETATION PROCEDURES FOR FEDERAL INFORMATION PROCESSING STANDARD PROGRAMMING LANGUAGES

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Legal Deadline: None

Abstract: This revision to the interpretation procedures for Federal Information Processing Standard programming languages will provide for more flexibility and more timely response to requests for interpretations by adding to the methods that are available for developing interpretations.

213. ● FIPS FOR C PROGRAMMING LANGUAGE

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Legal Deadline: None

Abstract: This standard will adopt an American National Standard (currently draft proposed standard) which defines the syntax of the C programming language and the semantics for its interpretation. The standard will be used by implementers as the reference authority in developing compilers, interpreters or forms of high level language processors and by other computer professionals who need to know the precise syntactic and semantic rules of the standard. Use of this standard will promote the portability of programs between different systems, and will enable organizations to more fully utilize staff training and skills.

214. REVISION TO FIPS 21-1, COBOL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Legal Deadline: None

Abstract: This standard will adopt the revised American National Standard Programming Language COBOL for Federal Government use. The standard will promote the portability of COBOL programs for use on a variety of data processing systems and will enable Federal agencies and departments to exercise more effective control over the production, management, and use of Federal Government information resources.

215. FIPS FOR TRANSPORT PROTOCOL

Legal Authority: 40 USC 759(f); EO 11717

CFR Citation: 00 CFR None

Legal Deadline: None

Abstract: This standard provides for reliable, transparent transfer of data between two heterogeneous or homogeneous computer systems. The standard is based on an international consensus and is compatible with the International Organization for Standardization (ISO) document ISO/TC97/SC 16 N 1169, class 2 and class 4. This is one of a family of computer network protocol standards which will make possible computer-to-computer communication of Federal ADP systems. It will enable Federal agencies to select equipment based on cost and performance considerations and to interconnect equipment of different manufacturers.

232. STUDY OF FISHERY MANAGEMENT

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: A panel of experts selected by the NOAA Administrator will conduct the Fishery Management Study. The Study will evaluate methods and associated institutional arrangements required to carry out fishery management in the United States, recommend changes to the system when needed and seek ways to reduce federal regulatory burdens and costs of fisheries management. It will focus on fundamentals such as the results we expect from management, whether the proper institution arrangements are in place, the appropriate State and Federal roles, and on ways to reduce costs and regulatory burdens while maintaining effective research and enforcement efforts. The study report should be completed by June 1986 so that its recommendations can be reflected in NOAA's position for the 1987 Magnuson Act reauthorization. Due to time and budget constraints, the planned contractual effort was replaced by the panel concept. The panel will meet for the first time in February 1986.

236. U.S. GENERAL STANDARDS FOR GRADES OF SHRIMP

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None

Abstract: The final rule will establish general quality grading standards for all non-breaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into four categories – U.S. Grades A, B, C and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all non-breaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards. Timetable for next action is very tentative. Public comments received indicate a need for further research before the rule is published.

DOC—NOAA

Proposed Rule Stage

238. STRIPED BASS FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: Not yet determined

Legal Deadline: Statutory. 110 days after the fishery management plan is submitted by the fishery management council.

Abstract: The drastic 10-year decline of commercial and recreational landings of striped bass indicates the need for protective management measures for territorial waters and the fishery conservation zone (FCZ). The territorial waters will be managed by the Interstate Striped Bass Plan of the Atlantic States Marine Fisheries Commission. The Interstate Striped Bass Plan will be adopted by Secretarial amendment for implementation in the FCZ so that management measures in the territorial and FCZ waters will be fully compatible.

239. FISHERY MANAGEMENT PLAN FOR THE BOTTOMFISH AND SEAMOUNT GROUNDFISH FISHERIES OF THE WESTERN PACIFIC REGION

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 664

Legal Deadline: Statutory. 110 days after the fishery management plan is submitted by the fishery management council.

Abstract: The FMP will establish framework measures for the bottomfish/groundfish resources within the FCZ off American Samoa, Guam and Hawaii. This FMP would achieve optimum yield preventing stock reductions that would cause instability in the production and market supply of fresh bottomfish, proposes to collect the data necessary to monitor the fishery and would promote an expanded domestic harvest of underutilized bottomfish/groundfish resources in an orderly manner.

241. DEVELOPMENT OF A FISHERY MANAGEMENT PLAN FOR SUMMER FLOUNDER

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Summer flounder is seasonably vulnerable to very large and varied commercial and recreational fisheries. Landings have declined in recent years and there is concern that overfishing may occur. The summer flounder crosses Council and Regional boundaries necessitating close coordination between the constituent agencies. The long-term benefits of higher production and revenue to the fishermen and processors are expected to outweigh any short-term limitations on catches in order to rebuild the stocks. Rebuilding the stocks to the maximum level, the efficiency of the fleet will improve as catches per unit of effort will correspondingly rise.

242. AMENDMENT #1 TO AMERICAN LOBSTER FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 649

Legal Deadline: None

Abstract: Amendment #1 to the American Lobster Fishery Management Plan has been proposed to incorporate gear marking requirements. Mandatory reporting of fixed gear is not part of the amendment. The proposed gear marking of offshore lobster trawls would allow fishermen that are harvesting species other than lobster with moving gear such as an otter trawl to avoid entanglement with lobster traps which are fixed gear. Amendment 1 also proposes an exemption to the lobster trap vent requirement for those fishermen with a directed fishery for black sea bass in the area south of Barnegat Light shoreward of the 30 fathom contour. Finally, this amendment provides authority for the Reg. Director to allow exemptions with the concurrence of the New England Fishery Management Council to any specific provisions for the lobster FMP for the purpose of research beneficial to the lobster resource and fishery.

244. SOUTH ATLANTIC SHRIMP FISHERY: IMPLEMENTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 643, (Reserved)

Legal Deadline: Statutory. 110 days after regulation is submitted by the fishery management council.

Abstract: Problems are overcapitalization of shrimp fishing vessels, conservation of shrimp spawning stocks, and inconsistency of State management. Alternatives are continuing with management by each State (no action), limited entry to transfer surplus capital from the fishery, cooperative Federal/State restrictions on fishing on spawning stocks, consistency of State fishing regulations (seasons, areas), improved data collection and analysis on a regional basis and gear modifications that could conserve threatened sea turtles that are incidental catch in shrimp trawls.

247. AMENDMENT FOR ALASKA GROUNDFISH AND HIGH SEAS-SALMON FISHERY MANAGEMENT PLANS - CLOSE FCZ INTRUSION INTO STATE WATERS

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 672

Legal Deadline: None

Abstract: This amendment will implement the intent of current legislation that refers to the State of Alaska management of groundfish in Federal waters that intrude into the intercoastal waters of southeastern Alaska. It affects the Gulf of Alaska groundfish and High Sea salmon fisheries. The amendment to the Gulf of Alaska Groundfish Fishery Management Plan to redefine Sablefish Management Boundaries (RIN 0648-AB39) has been combined with this action.

248. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; IMPORTATION OF YELLOWFIN TUNA

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.24

Legal Deadline: None

Abstract: U.S. tuna purse seine fishermen operating in the eastern tropical Pacific have been subject to certain restrictions relating to the take of marine mammals, whereas other nations fishing in a similar manner that export tuna to the U.S. often do not impose similar constraints on their own industry. Therefore, the Marine Mammal Protection Act of 1972 was amended to require all such nations, prior to being allowed to import tuna, to provide documentary evidence that they have adopted a program governing the incidental taking of marine mammals that is comparable to that of the U.S. and that the average rate of incidental take in the fishery is comparable to the U.S. These regulations will implement this requirement.

Proposed Rule Stage

249. ENDANGERED FISH OR WILDLIFE; PERMITS FOR THE INCIDENTAL TAKING OF ENDANGERED MARINE SPECIES

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 220; 50 CFR 222

Legal Deadline: None

Abstract: The proposed regulations implement Section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA). The proposal provides, under limited circumstances, for issuance of permits allowing the incidental taking of endangered species. The proposal applies to certain Federal permit or license holders and to private entities or State local governments whose actions are not otherwise subject to Federal involvement or control. Prior to the 1982 amendments to the ESA, the taking of endangered species was prohibited except for scientific research or to enhance the propagation or survival of the species. Permits issued under the proposed regulations would allow Permit holders to conduct their activities without risk of prosecution for the incidental take of species authorized by such permits.

Timetable:

Action	Date	FR Cite
NPRM	03/00/86	
NPRM Comment Period End	05/00/86	

Small Entity: Undetermined

Additional Information: Potential cost to applicants is estimated at 2500. Cost per applicant is estimated at $10. Each applicant will be required to submit a conservation plan as part of the permit process. As part of their conservation plan, fishermen will have the option of voluntary use of the Trawling Efficiency Device which allows trapped sea turtles to escape from fishing nets. Selection of this option will result in an additional cost of approximately $400 per Device. NEPA, E.O. 12291 and RFA determinations have not been undertaken.

251. FISHERY MANAGEMENT PLAN FOR PACIFIC BILLFISH FISHERIES OF THE WESTERN PACIFIC REGION

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 662

Legal Deadline: Statutory. 110 days after the fishery management plan is submitted by the fishery management council.

Abstract: The FMP proposes a conservation and management program for harvesting billfish, mahimahi, wahoo and oceanic sharks in the U.S. ECZ of the central and western Pacific ocean. The FMP presents management measures and reporting requirements to regulate the take of billfish, mahimahi, wahoo and oceanic sharks by foreign fishing vessels in the ECZ surrounding Hawaii, Guam, American Samoa, and U.S. Island possessions in the Pacific ocean. Other than proposing to prohibit the use of drift gillnet gear, the FMP does not propose controls on the catches of billfish and associated species by domestic fishing vessels, but proposes the strengthening of State and Territorial reporting requirements and data collection and sampling activities to better monitor domestic participation in the domestic fisheries for billfish and associated species.

256. ● SPINY LOBSTER FISHERY OF THE GULF OF MEXICO AND SOUTH ATLANTIC - AMENDMENT 1

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 641, (Revision)

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: There is a high mortality of undersized lobsters used as line bait in traps, an increasing number of traps in the fishery, incompatible State and Federal regulations, and an excessive number of abandoned traps. The alternatives considered are: a required onboard live well for carrying lobsters used as bait, a Federal permit to fish, a

VOL 51 ISS 76 AP 21 1986 UMI

temporary moratorium on the number of permitted vessels, a prohibition on imported lobsters (Panulirus argus) smaller than the minimum size, modify the sportfishing possession limit, request modification of the State reporting requirements, require a performance bond for all permitted fishermen with forfeiture of bond for failure to remove traps during closed season, require release of all egg-bearing lobsters, require a permit to separate lobsters at sea, and require identification of gear and vessels. Estimated benefits are an increase in annual yield of 1.5 million lbs. and an increase of $3.3 million to fishermen by 1987. The benefits will exceed the costs.

CFR Citation: 50 CFR 641, (Revision)

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: There is an increasing harvest of snappers and groupers by the longline fishery and some indications of growth overfishing. The recreational fishery continues to harvest many small red snappers. The alternatives are seasons and area closures for the longline fishery and control of recreational fishing for red snapper by area and season. The benefits are estimated to exceed the costs.

259. ● AMENDMENT NO. 2 FOR THE FISHERY MANAGEMENT PLAN FOR THE WASHINGTON, OREGON, AND CALIFORNIA GROUNDFISH FISHERY

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 663

Legal Deadline: Statutory. 110 days after the amendment is submitted by the fishery management council.

Abstract: This amendment will (1) remove a subarea optimum yield (OY) for sablefish in Monterey Bay; (2) allow prohibited species to be landed in the Whiting fishery; (3) remove the 20 percent lid on increases to accepted biological catch; (4) framework gear provisions; and (5) take 3 species out of the numerical OY category (sablefish, Pacific ocean perch, and other rockfish).

NATIONAL OCEAN SURVEY/OFFICE OF MINERAL ENERGY

266. DEEP SEABED MINING REGULATIONS FOR COMMERCIAL RECOVERY

Significance: Regulatory Program

Legal Authority: 30 USC 1401 et seq Deep Seabed Hard Mineral Resources Act

CFR Citation: 15 CFR 971

Legal Deadline: None

Abstract: Under 15 CFR 970, prospective deep seabed miners may apply to NOAA for the exploration license needed to explore the deep seabed for manganese nodules. Under the new regulations, prospective miners will be able to apply to NOAA for a permit to commercially recover and process nodules to obtain strategic metals (nickel, copper, cobalt, manganese). These permits would provide security of tenure for applicants with respect to other U.S. citizens and other nations' permittees in accordance with applicable international agreements. Fees for securing and maintaining a permit will be based on the Government's processing costs. These fees would be an inconsequential portion of the cost of a commercial recovery operation. The cost of a commercial recovery operation is expected to exceed one billion dollars. Alternatives to the regulation would require amending the Deep Seabed Hard Mineral Resources Act, which would be considered in the context of the U.S. law of the sea policy.

NATIONAL MARINE FISHERIES SERVICE

267. CIVIL PROCEDURES

Legal Authority: 15 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act; 16 USC 773 et seq Northern Pacific Halibut Act of 1982

CFR Citation: 15 CFR 904

Legal Deadline: None

Abstract: The existing regulations (15 CFR 904) provide uniform procedures for enforcement and civil proceedings under the various fishery and marine resource statutes administered by NOAA. The regulations are being revised to consolidate all aspects of NOAA's civil process which can be uniformly treated. The revised regulations will provide uniform permit processing procedures and sanction procedures; means of addressing the respondent's ability to pay in civil penalty proceedings; procedures for issuance and appeal of written warnings, summary forfeitures, and for selling seized perishable fish. The revisions will clarify for the public the procedures which NOAA follows in carrying out its enforcement responsibilities. The amendments thus are beneficial rather than burdensome to the public. These procedural regulations will not increase costs to the public or local governments. Nor will they have a significant adverse effect on competition, employment or industry. The alternative of not further consolidating the procedures was considered and rejected. There is no alternative to making the updating and housekeeping portions of the amendments.

Legal Authority: 16 USC 1531 et seq Endangered Species Act of 1973

CFR Citation: 50 CFR 226.11

Legal Deadline: None

Abstract: Designation of Critical Habitat is conducted pursuant to the Endangered Species Act of 1973, as amended. Critical Habitat is that area within (or outside) the geographic range of the animal wherein are found those physical and/or biological features essential for the conservation of the species and which may require special management considerations. The objective is to protect the Hawaiian Monk Seal.

270. PREEMPTION OF STATE AUTHORITY UNDER SECTION 306(B) OF THE MAGNUSON FISHERY CONSERVATION & MANAGEMENT ACT

Legal Authority: 16 USC 1856 Sec 306, Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 619

Legal Deadline: None

Abstract: The regulations interpret certain statutory terms applicable to, and establish procedures governing, formal adjudicatory hearings to be held before the Secretary of Commerce can apply Federal fishery regulations to certain waters within State boundaries. Section 306(b) of the Magnuson Fishery Conservation and Management Act authorizes the Secretary of Commerce to regulate a fishery within State boundaries in certain circumstances. Before the Secretary is authorized to do so, he must make certain findings after providing an opportunity for a formal adjudicatory hearing. The regulations apprise affected parties of the procedures to be followed at such a hearing and also of the types of information to be scrutinized that is relevant to the findings to be made.

282. FEDERAL CONSISTENCY WITH APPROVED COASTAL ZONE MANAGEMENT PROGRAMS

Significance: Regulatory Program

Legal Authority: 16 USC 1456 Coastal Zone Management Act of 1972

CFR Citation: 15 CFR 930

Legal Deadline: None

Abstract: On January 11, 1984, the U.S. Supreme Court issued its decision in Secretary of the Interior et al. v. California et al. No. 82-1336. The Court held that the sale of Outer Continental Shelf (OCS) oil and gas leases is not an activity "directly affecting" the coastal zone within the meaning of Section 307(c)(1) of the Coastal Zone Management Act of 1972, as amended (CZMA), and, therefore, that a consistency determination is not required under that section before such sales may be made. Section 307 (c)(1) requires that Federal agencies conducting or supporting activities "directly affecting the coastal zone" must conduct or support those activities

DOC—NOAA

Final Rule Stage

in a manner which is consistent to the maximum extent practicable with federally-approved state coastal zone management programs. NOAA engaged in rulemaking to revise certain CZMA regulations as a result of the Supreme Court decision. NOAA removed those references which identify OCS lease sales as activities covered by the Section 307(c)(1) requirements.

283. PROPOSED REGULATIONS FOR THE PROPOSED FAGATELE BAY NATIONAL MARINE SANCTUARY

Legal Authority: 16 USC 1431 to 1434

CFR Citation: 15 CFR 941

Legal Deadline: None

Abstract: The American Samoa Government does not currently possess the legal authorities necessary for managing site-specific marine resources such as the Fagatele Bay National Marine Sanctuary. Regulations will be proposed for the Fagatele Bay National Marine Sanctuary to fulfill a need evidenced by uncontrolled harvesting of reef fisheries and the loss of habitat via destructive fishing methods. Long-term benefits include resource protection and restoration of habitat; public education and development of an environmental ethic; and ecological succession studies. This project will serve as a prototype for other resource protection initiatives by the American Samoa Government.

284. LICENSING OF OCEAN THERMAL ENERGY CONVERSION FACILITIES AND PLANTSHIPS

Legal Authority: 42 USC 9101 et seq Ocean Thermal Energy Conversion Act; as amended by PL 96-623

CFR Citation: 15 CFR 981 et seq

Legal Deadline: None

Abstract: These regulations (15 CFR 981) established a stable legal system and a streamlined licensing process to facilitate commercial development of ocean thermal energy conversion (OTEC) facilities and plantships. Section 117 of the Ocean Thermal Energy Conversion Act of 1980 requires NOAA to review these regulations periodically, at intervals of not more than every three years, and to revise them as necessary based on that review. In addition, the regulations must be revised to conform to the 1984 Amendments to the OTEC Act. NOAA will amend its regulations in accordance with these reviews.

285. GENERAL AND RECREATIONAL FOREIGN FISHING

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 611.1 to 611.98

Legal Deadline: None

Abstract: The regulations will be amended to revise the general regulations governing foreign fishing within the fishery conservation zone (FCZ). The action is necessary because the regulations no longer reflect current practice in the fisheries; they are not deterring illegal actions, and are disjointed, contradictory and difficult to use. The revision is intended to make the regulations consistent with current practices in the fisheries, reduce illegal fishing and simplify and improve the utility of the regulations. The revision reorganizes almost every section of the two affected subparts. Additional definitions are added, including one for recreational fishing which would exempt foreign recreational fishing vessels from permit requirements. Obsolete material is deleted. Reports required for foreign fishing vessels are revised. Additional requirements for facilitation are added. Recordkeeping requirements are revised and requirements for joint ventures are specified.

286. U.S. STANDARDS FOR GRADES OF FISH STEAKS

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 262A

Legal Deadline: None

Abstract: The interim rule would establish a voluntary standards system to classify fish steaks by quality into four categories - U.S. Grade A, B, C, and Substandard. The objective is to facilitate trade in fish steaks classified by quality thereby benefiting the consumer and the industry. The standards would be used in a voluntary program of fishery products inspection and certification by NMFS. The total value of the industry product in 1981 was $19 million. Industry has expressed a high level of interest in and support for the voluntary standards. The timetable for this action is very tentative. Further research will be needed before the rule is published.

287. AMENDMENT 1 TO THE ATLANTIC SEA SCALLOP FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 650

Legal Deadline: None

Abstract: New England Fishery Management Council has prepared an amendment to the FMP for Atlantic Sea Scallops. With the current low scallop abundance and poor recruitment prospects, the present FMP does not appear to be providing the degree of resource protection anticipated by the Council. If the resource is to be conserved for the benefit of the industry and public, revised management measures are needed to ensure that incoming recruitment to the fishery, when and if it occurs, be better protected. The proposed measure will be a minimum individual meat size, rather than the present average minimum meat count. The ten smallest scallops in a one pint sample must weigh at least 4 ounces. The valuable Atlantic sea scallop resource is capable of yielding 100 million dollars annually, and requires additional protection.

288. FINAL RULE IMPLEMENTING THE NORTHEAST MULTISPECIES FISHERY MANAGEMENT PLAN

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 651

Legal Deadline: None

Abstract: The Northeast Multispecies Fishery Management Plan (FMP) was intended to replace the present "Interim Fishery Management Plan for Atlantic Groundfish" which has regulated fishing for cod, haddock, and yellowtail flounder since 1982. Management measures included minimum fish sizes, for commercially-caught cod, haddock, yellowtail flounder, pollock, winter flounder, witch flounder & American plaice; minimum fish sizes for recreationally caught cod and haddock; minimum net mesh sizes in Georges Bank and Gulf of Maine; seasonal closure of a spawning area for yellowtail flounder in Southern New England; a 4-mo. seasonal closure of a haddock spawning area on Georges, and "exempted fisheries program" to allow use of small mesh in certain nearshore areas for several pelagic fisheries and gear marking requirements for bottom tending gillnets. The Secretary of Commerce has disapproved this plan.

289. REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS; DEFINITION OF COMMERCIAL FISHING OPERATION

Legal Authority: 16 USC 1361 et seq Marine Mammal Protection Act of 1972

CFR Citation: 50 CFR 216.3

Legal Deadline: None

Abstract: NOAA has modified the definition of "commercial fishing operation" to include commercial passenger fishing vessels (party boats) under that definition. This modification allows party boat owners and operators to apply for general permits and certificates of inclusion which allow the incidental taking of marine mammals during fishing operations. Under the Marine Mammal Protection Act, no marine mammals may be taken in the course of fishing operations unless permits and certificates have been obtained and until now, party boats were excluded from obtaining permits and certificates. Therefore, they were unable to protect the catch and gear of their paid passengers from depredations. Modification of definition should improve fishing conditions and result in increased revenue. Potential total costs to applicants are estimated at $450. Cost per applicant is estimated at $2.50.

290. SWORDFISH FISHERY MANAGEMENT PLAN: PROPOSED REGULATIONS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 630; 50 CFR 611

Legal Deadline: Statutory. 110 days after fishery management plan is submitted by fishery management council.

Abstract: The Plan proposed time, area and quota restrictions on foreign fishing to minimize the bycatch of swordfish. American fishermen would have been controlled by time, area or size restrictions (variable season closure). Data collection would have been by onboard technicians carried on a random stratified sample of trips.

The Secretary of Commerce disapproved all but the following provisions of the plan: establishment of a permit requirement, institution of reporting requirements for the Caribbean, and establishment of a framework procedure for possible future closures of geographical areas (variable season closure).

291. AMENDMENT 1 TO THE COASTAL MIGRATORY PELAGIC RESOURCES OF THE GULF OF MEXICO AND SOUTH ATLANTIC FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 642

Legal Deadline: Statutory. 110 days after amendment is submitted by the fishery management council.

Abstract: Amendment 1 revised the implementing regulation to modify management of king mackerel. The resource is divided into Gulf and South Atlantic Migratory Groups. For each group an annual total allowable catch is determined that is allocated among recreational and commercial fishermen. A portion of the commercial quota is allocated to the purse seine fishery. Annual permits are required for vessels fishing the Gulf group. When a commercial quota is attained, commercial fishing must cease for that group. Recreational quotas will be controlled by a bag limit on charter and private boats of 2 fish per person per trip.

292. NOTICE OF THE NATIONAL MARINE FISHERIES SERVICE'S PROPOSED POLICIES FOR THE MANAGEMENT OF INTERJURISDICTIONAL FISHERIES AND FISHERY RESOURCES

Significance: Regulatory Program

Legal Authority: 16 USC 661 et seq

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The policies are to guide Federal participation in, and support of, interjurisdictional fisheries management by defining the Federal role, proposing general management objectives, and identifying means of implementation. These policies are needed to: (1) provide a framework for more effective management planning and other actions concerning interjurisdictional fisheries and fishery resources; (2) develop a broad awareness of the shared State & Federal responsibilities, and benefits of, long-term management of these fisheries and resources; (3) promote consistent conservation & management throughout the entire range of interjurisdictional fisheries and resources; and (4) establish specific & effective means of resolving jurisdictional differences which interfere with effective fisheries management. It is expected that these policies will result in closer cooperations between State and Federal government agencies responsible for interjurisdictional fisheries programs.

293. SHALLOW-WATER REEF FISH OF PUERTO RICO AND THE U.S. VIRGIN ISLANDS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser & Management Act

CFR Citation: 50 CFR 669

Legal Deadline: Statutory. 110 days after fishery management plan is submitted by the fishery management council.

Abstract: The Caribbean Fishery Management Council has prepared a Fishery Management Plan (FMP) for shallow-water reeffish of Puerto Rico and the U.S. Virgin Islands. A fishery for various species of snappers, groupers, grunts, porgies, goatfishes, and other edible reeffish using fish traps exists in the territorial waters of Puerto Rico and the U.S. Virgin Islands and the fishery conservation zone. These states have agreed to adopt compatible regulations with those developed by the FMP. Declining catch per unit effort for the reeffish fishery indicates that management measures are necessary to maximize spawning potential and prevent overfishing. Within a 2-3 yr. period after implementation, benefits are predicted to outweigh costs for proposed regulations concerning minimum fish sizes for yellowtail snapper and Nassau grouper. The proposed minimum mesh size for fish traps will allow some juvenile stages of most reeffishes to escape the gear & optimize the size of goatfish which are retained.

RIN: 0648-AB46

299. AMENDMENT 9 TO THE BERING SEA/ALEUTIAN ISLANDS GROUNDFISH FISHERY MANAGEMENT PLAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 675

Legal Deadline: None

Abstract: Amendment 9 to the Fishery Management Plan for the Bering Sea/Aleutian Islands Groundfish Fishery was proposed by the North Pacific Fishery Management Council to ban foreign trawling within 20 miles of the Aleutian Islands in order to reduce by catches of species fully utilized by U.S. fishermen and to eliminate gear conflicts with longliners in this area. The Secretary of Commerce has disapproved the proposed ban on foreign trawling. The amendment also requires reporting by catcher/processor vessels to provide NMFS with more timely catch information necessary for adequate inseason management. NMFS habitat conservation policy is also implemented by Amendment 9.

300. AMENDMENT TO AMERICAN LOBSTER FISHERY MANAGEMENT PLAN - V-NOTCH ON FEMALE LOBSTERS

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 649

Legal Deadline: None

Abstract: An amendment to the American Lobster Fishery Management Plan has been proposed to place a three-year moratorium on the taking or possession of V-notched lobsters (markings made on adult female lobsters by commercial fishermen). The purpose of the amendment is to return females that are bearing eggs or have previously carried eggs so as to enhance recruitments.

303. AMENDMENT 14 TO THE FISHERY MANAGEMENT PLAN FOR GROUNDFISH OF THE GULF OF ALASKA

Legal Authority: 16 USC 1801 et seq Magnuson Fishery Conser and Management Act

CFR Citation: 50 CFR 672

Legal Deadline: None

Abstract: The measures proposed in the amendment will (1) establish Central Southeast Outside District within existing Southeast Outside District to better manage demersal shelf rockfish which are part of the other rockfish category and which have a harvest limit of 600 mt; (2) implement harvest OYs for pollock, Pacific ocean perch, other rockfish, Atka mackerel & other species; (3) establish requirement for all U.S. catcher/processing vessels that hold their catch for more than 2 wks. to provide weekly catch reports & check in & check out of regulatory areas; (4) give AK Reg. Dir. authority to allow fisheries that do not take halibut to continue to operate in areas where halibut bycatch limits have been reached; (5) incorporate NMFS habitat policy into Gulf of AK groundfish FMP which gives the N. Pacific Fishery Management Council authority to protect marine environment; (6) change opening date of pot and hookline sablefish fishery to April 1 in all regulatory areas; allocate sablefish among pot hook and line and trawl fishermen and gradually reduce pot fishermen's allocation to zero over several years.

Legal Authority: 47 USC 390 to 394; 47 USC 397 to 399b

CFR Citation: 15 CFR 2301

Legal Deadline: None

Abstract: NTIA has completed three grant cycles since the last revision of its PTFP Rules. During these three cycles we have recognized several areas which cause confusion. We intend to clarify these areas to allow potential grantees to understand more easily the requirements and facilitate their application. The proposed changes to Rules and Regulations will allow for more uniformity and clarity in administering the program. Areas included are: 1. Applicant eligibility for planning grants and making project eligibility language more consistent with the law and NTIA practices. 2.What constitutes a complete application and distinguishes it from an application that is deficient. 3.What does filing a timely application mean and how it is to be delivered in a timely manner. 4.How to amend an application. 5.How to reactivate a deferred application. 6.How to request special consideration. 7.Expanded discussions on control and use of equipment, eligible equipment items, and non-eligible equipment items. 8.Expanded discussions on the close-out and monitoring procedures for a project.

305. RIGHTS TO INVENTIONS MADE BY NONPROFIT ORGANIZATIONS AND SMALL BUSINESS FIRMS

Significance: Regulatory Program

Legal Authority: 35 USC 206

CFR Citation: 37 CFR 401

Legal Deadline: None

Abstract: 35 USC 206 as amended by PL 98-620, requires the Secretary to issue regulations implementing 35 USC 202-204 which deals with the rights in inventions to be provided to nonprofit organizations and small businesses that perform Government supported research and development. Previously this was the responsibility of OFPP which issued OMB Cir. A-124. The regulation is based on Cir. A-124 with such substantive changes as are necessary because of various amendments made by PL 98-620. No alternative is available since a major thrust of the statute was the development of a single regulation to replace the numerous regulations that were in effect prior to 1981. The statute and regulations will benefit contractors and the public by creating the certainty necessary for the early commercialization of inventions by the private sector. Compared to the pre-1981 situation this reduces administrative costs of both the Government and contractors.

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Department of Defense.

ACTION: Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents for public information and comments under E.O. 12291, "Federal Regulation." This agenda incorporates the objectives and criteria, when applicable, of the regulatory reform program under E.O. 12291, and other regulatory reform programs. It contains DoD issuances initiated by DoD Components that may have economic and environmental impact on state, local, public or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and are therefore published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on October 29, 1985 and includes regulations expected to be issued and under review over the next 12 months. The next agenda is scheduled to be published in October 1986. In addition to this agenda, DoD Components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and for general semiannual agenda information, contact Mr. Terry D. Judd, telephone 202-697-1142 or write to Directorate for Organizational and Management Planning, OASD(C), Washington, D.C. 20301.

For questions of a legal nature concerning the agenda and its statutory requirements or obligations, contact Ms. Kathleen Buck, legal counsel, Office of the General Counsel, Washington, D.C. 20301, or call 202-697-2714.

For specific agenda items, contact the appropriate individual indicated in each DoD Component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291. Their agenda will reflect these requirements, with follow-on reporting actions taken, as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD Components promulgate their implementing regulations.

To ease identification and to clarify the differences between the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes Component level of authority and type of issuance in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single source reporting vehicle which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD Components will identify those rules which come under the criteria of the:

a. Regulatory Flexibility Act.

b. Paperwork Reduction Act.

c. GATT International Trade Agreement.

These DoD issuances which are directly applicable under these statutes will be identified in the agenda and their action status indicated. Generally, the reports contained in this agenda will contain three sections: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

Although not a regulatory agency, the Department of Defense will continue to participate in regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD Component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, DoD reserves the right to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in title 5, section 553 and section 1 of E.O. 12291.

DATED: February 3, 1986.

D. O. Cooke,

Deputy Assistant Secretary of Defense.

AGENCY: Office of the Secretary, DoD.

ACTION: This agenda updates the report published on October 29, 1985, and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulatory material listed below is in 3 parts: (1) Current and projected rulemaking; (2) review of existing regulations; and (3) completed actions.

FOR FURTHER INFORMATION CONTACT: The Agency contact names and telephone numbers appear after each agenda entry. For other information on the agenda, contact Mrs. Patricia H. Means, Directives Division, Correspondence and Directives Directorate, Washington Headquarters Services, telephone 202-697-4111.

SUPPLEMENTARY INFORMATION:

DOD—OS

E.O. 12291. None of the regulatory documents listed below is a "major rule" and no major rules are presently under development.

Regulatory Flexibility Action, section 610. The Office of the Secretary of Defense has screened its existing regulatory documents and has concluded that none of its regulatory documents causes significant impact on a substantial number of small entities.

Paperwork Reduction Act, Pub. L. 96-511. None of the DoD regulatory documents listed in the agenda require information collection reports affecting the public sector under the criteria of Pub. L. 96-511.

GATT Agreement. None of the DoD regulatory documents listed in this agenda impact upon foreign trade under the GATT Agreement.

The OSD agenda follows.

DEPARTMENT OF DEFENSE (DOD)
Office of the Secretary (OS)

Proposed Rule Stage

317. ALLOTMENTS FOR CHILD AND SPOUSAL SUPPORT (DOD DIRECTIVE 1340.XX)

Legal Authority: PL 97-248; 37 USC 101; 15 USC 1673; 42 USC 665

CFR Citation: 32 CFR 54

Legal Deadline: None

Abstract: This rule implements section 172 of Pub. L. 97-248, which is codified under Title 42, United States Code, Section 665 (42 USC 665). It provides guidance on processing allotments for child and spousal support from the pay of active duty military personnel, when direct payment is requested by an authorized person.

318. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS) (FEDERAL MEDICAL CARE RECOVERY ACT, CHAPTER 9) (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 10 USC 1086; 5 USC 301

CFR Citation: 32 CFR 199

Legal Deadline: None

Abstract: This proposed amendment (48 FR 45791, October 7, 1983) revises the CHAMPUS regulation by consolidating all federal claims provisions arising under the operation of CHAMPUS into two chapters.

319. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS); CARDIAC PACEMAKER TELEPHONE MONITORING (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 10 USC 1086; 5 USC 301

CFR Citation: 32 CFR 199

Legal Deadline: None

Abstract: An amendment to the proposed rule was published (49 FR 35934) that will allow coverage for transtelephonic monitoring of cardiac pacemakers which is currently excluded under CHAMPUS Basic Program.

RIN: 0790-AA31

320. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS); ELIGIBILITY OF ADULT ADOPTEES FOR MEDICAL BENEFITS (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 10 USC 1086; 5 USC 301

CFR Citation: 32 CFR 199

Legal Deadline: None

Abstract: This proposed amendment clarifies the intent of Title 10 USC 1072 (2), concerning eligibility of adopted children. This is necessary to ensure that reasonable limits are placed on CHAMPUS eligibility. This clarification will result in uniform eligibility determinations corresponding to the interest of Congress.

321. CIVILIAN HEALTH AND MEDICAL PROGRAM OF THE UNIFORMED SERVICES (CHAMPUS); AMENDMENT OF AMBULANCE SERVICE COVERAGE (DOD 6010.8-R)

Legal Authority: 10 USC 1079; 5 USC 301

CFR Citation: 32 CFR 199

Legal Deadline: None

Abstract: This proposed amendment (49 FR 17976, April 26, 1984) will revise the definition of "ambulance," remove the $100 allowable charge ceiling used to distinguish between local and long distance ambulance service, and expand coverage for transfer to a Uniformed Service Medical Treatment Facility (USMTF).

341. ● REGULATORY PROGRAM OF THE CORPS OF ENGINEERS, PART 326 - ENFORCEMENT

Legal Authority: 33 USC 403; 33 USC 1341; 33 USC 1413

CFR Citation: 33 CFR 326

Legal Deadline: None

Abstract: The Corps of Engineers is proposing to amend 33 CFR Part 326 to reflect the sequence of enforcement actions, to clarify ambiguous procedures and language, and to provide district engineers with the flexibility needed to resolve violations in the most effective manner and to be able to concentrate existing staff resources on the most critical enforcement actions. Some procedures in this part would be revised to provide for a more practical approach to certain enforcement problems. These regulations, if finalized would reduce the costs of enforcing the regulatory program.

342. ● REGULATORY PROGRAMS OF THE CORPS OF ENGINEERS, PART 329 - NAVIGABLE WATERS OF THE UNITED STATES

Legal Authority: 33 USC 403; 33 USC 1341; 33 USC 1413

CFR Citation: 33 CFR 329

Legal Deadline: None

Abstract: The Corps of Engineers plans proposed revisions to completely reorganize the relevant policies and administrative procedures in a more logical manner, to clarify the policy involved through the elimination of contradictory statements, and to simplify Part 329 by eliminating unnecessarily detailed procedures. The Corps does not intend to make any changes to the policies governing navigability determinations. The amendments if approved will not increase costs.

Legal Authority: 33 USC 403; 33 USC 1341; 33 USC 1413

CFR Citation: 33 CFR 325, Appendix D

Legal Deadline: None

Abstract: Procedures for the protection of endangered species in the regulatory program of the Corps of Engineers. Because of the increased emphasis being placed on endangered species by the Federal and state resource agencies, the Corps identified a need to provide more definitive guidance on implementing the Endangered Species Act (ESA) in its regulatory program. The Corps is now developing counterpart regulations with the Department of Interior. The regulations will basically bring together various guidance used in the past by both the Corps and DOI. The regulations will include guidance on how the ESA Amendments impact applicants for Federal permits.

DEPARTMENT OF DEFENSE (DOD)
Department of the Air Force (AF)

AGENCY: Department of the Air Force.

ACTION: This agenda updates the report published on October 29, 1985 and includes regulations expected to be issued and under review over the next 12 months.

SUMMARY: The regulations listed on the agenda are existing or proposed regulations under internal review for revision or development and only apply to those regulations affecting the public. The Department of the Air Force has no "major rules" under development or review as defined by Executive Order 12291. Also, it has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) do not apply to these rules and that these rules do not contain reporting or recordkeeping requirements under the criteria of the Paperwork Reduction Act of 1980 (Pub. L. 96-511). These rules do not have an impact on international trade and therefore the provisions of the GATT Agreement do not apply.

FOR FURTHER INFORMATION CONTACT: Where a contact official is indicated, contact the specified individual. For general information, contact Ms. Patsy J. Conner, telephone (202) 697-1861 or write, Department of the Air Force, USAF/DASJR(S), Pentagon, Washington, D.C. 20330-5025.

Semiannual Regulatory Agenda

VOL 51 ISS 76 AP 21 1986 UMI

ED

DEPARTMENT OF EDUCATION

Office of the Secretary

34 CFR Subtitles A and B

Unified Agenda of Federal Regulations

AGENCY: Department of Education.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: The Secretary of Education publishes a Unified Agenda of Federal Regulations as required by Office of Management and Budget (OMB) Bulletin 86-4 issued under the authority of section 6(b) of Executive Order 12291 (Federal Regulations). The purpose of the agenda is to encourage more effective public participation in the regulatory process by giving the public early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT: Questions or comments related to specific regulations listed in this agenda should be directed to the contact person listed for that set of regulations. Questions or comments on the overall agenda should be directed to A. Neal Shedd, Director, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 2131, FOB-6, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: (202) 732-2887.

SUPPLEMENTARY INFORMATION: Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, Pub. L. 96-354, enacted September 19, 1980, require the Department of Education to publish, in October and April of each year, (1) an agenda of regulations that the Department expects to issue, and (2) currently effective regulations that are under review. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

Under the authority of Executive Order 12291, the Director of OMB has issued OMB Bulletin No. 86-4, dated December 23, 1985, prescribing the content and structure of the "Unified Agenda of Federal Regulations." The unified agenda will be issued semiannually and will cover the succeeding 12 months from the date of publication.

For each set of regulations listed, the agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent agenda, and planned dates of future rulemaking. In addition, the agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 USC 601(b)).
- A reference to where a reader can find the current regulations in the "Code of Federal Regulations."
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is included in the Department of Education Regulatory Program under Executive Order 12498 and, if not, an indication if the action is a priority of the agency.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including reducing paperwork and compliance burdens, improving cost effectiveness and, to the extent possible, vesting greater discretion in State and local agencies, and (2) if necessary, to clarify and simplify requirements governing that program.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory action are subject to revision in subsequent agendas.

DATED: February 13, 1986.

William J. Bennett,

Secretary of Education.

364. CLAIMS COLLECTION

Significance: Regulatory Program

VOL 51 ISS 76 AP 21 1986 UMI

ED—EDMAN

Proposed Rule Stage

Legal Authority: 31 USC 3711 to 3719

CFR Citation: 34 CFR 30

Legal Deadline: None

Abstract: These proposed regulations would implement requirements of the Debt Collection Act of 1982, the Federal Claims Collection Act and Standards, and OMB Circular A-50 regarding establishment of a debt collection program.

The proposed regulations would improve management and accountability of Federal funds. They are designed to establish an efficient, equitable, and effective program for the collection of debts owed to the Department of Education.

These regulations will be divided in two parts. See RIN # 1880-AA22.

366. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS TO STATE AND LOCAL GOVERNMENTS

Legal Authority: OMB Circular A-102; 20 USC 3474

CFR Citation: 34 CFR 80

Legal Deadline: None

Abstract: This action will implement revised OMB Circular A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current ED regulations codified at 34 CFR Part 74 were adopted by ED to implement both Circular A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. To implement revised Circular A-102 ED will adopt regulations approved by OMB affecting grantees that are State, local, and Indian tribal governments in 34 CFR Part 80. Regulations for the grantees covered by Circular A-11 will be retained in an amended 34 CFR Part 74.

408. NATIONAL DIRECT STUDENT LOAN PROGRAM: REDUCTION OF DEFAULT RATE

Significance: Regulatory Program

Legal Authority: 20 USC 1087aa to 1087ii; 20 USC 421 to 429

CFR Citation: 34 CFR 674

Legal Deadline: None

Abstract: This regulatory action is being undertaken to reduce the high number of defaulted loans under the National Direct Student Loan Program (NDSL) and the unacceptably high default rate of certain participating institutions of higher education. Those provisions of the current regulations for the NDSL Program that have a bearing on the default rate have been reviewed. As a result of that review, the Department expects to issue regulations designed to alleviate the problem substantially. These regulations would apply to academic year 1988-87.

409. ● NATIONAL DIRECT STUDENT LOAN PROGRAM: REDUCTION OF DEFAULT RATE

Significance: Regulatory Program

ED—OPE — Proposed Rule Stage

Legal Authority: 20 USC 1087aa to 1087ii; 20 USC 421; 20 USC 429

CFR Citation: 34 CFR 674

Legal Deadline: None

Abstract: The Department plans to develop regulations that would be designed to further reduce the high number of defaulted loans under the NDSL program and the high default rate of certain participating institutions of higher education. These regulations would amend the regulations under RIN 1840-AA43 and would apply to academic year 1987-88 and subsequent years.

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: April 1986 regulatory agenda.

SUMMARY: In furtherance of this Administration's commitment to make government more responsive to the citizens of the United States and to assist in fulfilling the President's mandate to lessen regulatory burdens, the Department of Energy (DOE) is publishing an agenda of regulatory activities that DOE expects to take in the next year or has completed since October 1985. This Agenda provides the Administration with an effective tool for monitoring and controlling the promulgation of regulations. It includes (1) all rules expected to be issued as proposed or final rules before April 1987, (2) all rules being reviewed within the Department to determine whether to propose modifications through rulemaking, and (3) all rules for which regulatory action has been completed since the October 1985 Regulatory Agenda. In addition, the Agenda identifies each rule that DOE expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities," and thus also serves as the Department's regulatory flexibility agenda. The Agenda does not include routine regulations and those that relate to internal agency management.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the Agenda in general, contact: Robert E. Morey, Department of Energy, Room 6B-144, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252-0507.

Specific: For further information about any particular item on the Agenda, contact the individual listed under that item.

SUPPLEMENTARY INFORMATION:

Executive Order 12291, 46 FR 13193 (February 19, 1981), requires each Federal agency to publish, in April and October of each year, an agenda of proposed regulations that the agency has issued or expects to issue, and currently effective rules that are under agency review. Under the Executive Order, the Office of Management and Budget (OMB) sets forth standards and procedures for the preparation of these agendas.

There are important reasons for preparing this Agenda. It is vital in this Administration's efforts to reduce the burdens of existing and future regulations, to increase agency accountability for regulatory actions, to provide for Presidential oversight of the regulatory process, to minimize duplication and conflict of regulations, and to insure well-reasoned regulations. This Administration has made considerable progress in these efforts.

In fiscal year 1986, the Department (excluding the Federal Energy Regulatory Commission) is committed to a goal of achieving a 5 percent reduction in paperwork burden imposed on the public by its information collections. Special attention is being given to the reduction of the paperwork burden on the Department's management and operating contractors and other contractors, and substantial progress has already been made in these areas. In addition, for fiscal year 1986, the Energy Information Administration projects that the burden on the public of its energy information collections is expected to decrease by an additional 85,000 hours, or approximately 6.7 percent.

Executive Order 12291 also provides that the regulatory agenda may be incorporated with the "regulatory flexibility agenda" required under the Regulatory Flexibility Act, 5 U.S.C. 602. The regulatory flexibility agenda must contain: (1) A brief description of the subject area and a summary of the nature of any rule which the agency expects to propose or promulgate which is "likely to have a significant economic impact on a substantial number of small entities"; (2) the objectives and legal basis for the issuance of the rule and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and (3) the name and telephone number of an agency official knowledgeable about each rule.

Appended to this notice is DOE's April 1986 Regulatory Agenda, reflecting the status of rules listed as of February 15, 1986. Incorporated in this Agenda is the regulatory flexibility agenda required under 5 U.S.C. 602.

The April 1986 Regulatory Agenda has been prepared in accordance with OMB Bulletin 86-4. Regulatory activities have been divided among categories according to their next stage: prerulemaking action, proposed rule, final rule, or completed action.

Regulations designated as "significant" are those which are also included in the "Regulatory Program of the United States Government," prepared pursuant to Executive Order 12498, 50 FR 1036 (January 8, 1985). Significant regulations also include those which, while not of Government-wide interest or importance, nevertheless are priorities of the individual agencies.

Each item will contain the following information: (1) DOE office or administration (that is, the DOE organizational unit responsible for the regulation); (2) RIN number (that is, the Regulation Identifier Number assigned by OMB/OIRA); (3) title; (4) significance (that is, if the regulation also is included in the Regulatory Program or, if not, is a DOE priority regulation); (5) agency contact (that is, the name, title, address and telephone number of a person who is knowledgeable about the regulation); (6) effects on small businesses and other entities (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act); (7) CFR citation (that is, the section of the "Code of Federal Regulations" that will be affected); (8) legal authority (that is, a citation to the section of the "United States Code" (U.S.C.), Public Law (P.L.) or the Executive Order (E.O.) that authorizes the regulatory action); (9) abstract (that is, a description of the problem the regulation will address, the alternatives being considered for addressing the problem, and the potential costs and benefits of the action); (10) legal deadline (that is, the statutory or judicial deadline, if any); and (11) timetable (that is, the dates, and citations if applicable, for all past stages and at least the next stage of the rulemaking). In addition, each item regarding completed actions (that is, regulations completed or withdrawn and reviews completed since the preceding Agenda) states the date and citation, if appropriate.

DOE

On March 14, 1986, a draft of the Agenda was transmitted to the Chief Counsel for Advocacy of the Small Business Administration for comment, if any, to fulfill the requirements of 5 U.S.C. 602(b).

DOE's next Agenda will be published in October 1986.

Issued in Washington, D.C. on March 14, 1986.

J. Michael Farrell,
General Counsel.

430. FEDERAL ENERGY MANAGEMENT & PLANNING PROGRAMS METHODOLOGY & PROCEDURES FOR LIFE CYCLE COSTING ANALYSES

Legal Authority: PL 95-619, Sec 545; PL 96-294, Sec 405; 42 USC 8255; EO 11912; EO 12003; PL 95-619, Sec 547

CFR Citation: 10 CFR 436

Legal Deadline: None

Abstract: The National Energy Conservation Policy Act requires DOE to promulgate regulations that establish a methodology for estimating and comparing the life cycle costs of Federal buildings and for determining life cycle cost effectiveness. The Energy Security Act requires that the regulations provide for the use of marginal costs in the life cycle cost analysis. DOE is seeking legislative revisions to NECPA to authorize use of average energy costs rather than marginal costs in LCC analysis.

431. PROCEDURES FOR PRELIMINARY ENERGY AUDITS AND GUIDELINES FOR BUILDINGS PLANS

Legal Authority: PL 94-163; PL 95-619; EO 11912; EO 12003

CFR Citation: 10 CFR 436

Legal Deadline: None

Abstract: The regulations in Subpart B are needed to provide the procedures for conducting and reporting on preliminary energy audits of Federal buildings, as required by Title V, Part 3, of the National Energy Conservation Policy Act (NECPA) and section 10 of EO 11912, as amended. The regulations in Subpart C are needed to provide guidelines for the formulation and updating of Buildings Plans by Federal agencies to achieve goals for reduction of Federal building energy use, pursuant to section 10 of EO 11912, as amended, section 381 of the Energy Policy and Conservation Act, as amended, and NECPA. DOE is reviewing these procedures and guidelines in order to determine how to make them less prescriptive.

Legal Authority: PL 94-163, Sec 201; PL 96-102, Sec 211; EO 11912; EO 12003

CFR Citation: 10 CFR 436

Legal Deadline: None

Abstract: This rule is needed to provide guidelines for use by Federal agencies in their development of overall 10-year energy management plans to conserve energy in the general operations of the agencies, and to provide for agency responses to energy emergencies per authorities cited section 0. DOE is reviewing these guidelines in order to determine how to make them less prescriptive.

433. ● ENERGY-EFFICIENCY STANDARDS FOR THIRTEEN TYPES OF CONSUMER PRODUCTS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Judicial, 00/00/00

Abstract: Congress directed DOE to prescribe energy efficiency standards for thirteen types of major household appliances. This requirement does not apply, however, if DOE determines, by rule, that establishment of a standard will not result in significant conservation of energy or is not technologically feasible or economically justified. On July 16, 1985, the United States Court of Appeals for the District of Columbia Circuit set aside all final rules regarding appliance efficiency standards which the Department had promulgated up to that time. In light of the court decision, the Department intends to initiate new rulemakings for all thirteen covered products. The thirteen covered products are refrigerators/refrigerator-freezers, freezers, dishwashers, clothes dryers, water heaters, room air conditioners, home heating equipment not including furnaces, television sets, kitchen ranges and ovens, clothes washers, humidifiers/dehumidifiers, central air conditioners, and furnaces.

There is a statutory requirement to review these rules every five years.

435. ENERGY EFFICIENCY TEST PROCEDURES FOR WATER HEATERS

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Legal Deadline: None

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The purpose of the rulemaking is to establish test procedures for heat pump water heaters and to eliminate the need for the test procedure waiver granted to A. O. Smith for its water heater with a thermal compensatory dip tube. Based on the comments received pursuant to the February 8, 1984, NPRM, the Department is preparing a new NPRM. This NPRM will propose a single test procedure to cover both gas, oil and electric water heaters as well as heat pump water heaters.

436. ENERGY EFFICIENCY TEST PROCEDURES – WAIVER

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.27

Legal Deadline: None

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The Department can temporarily waive test procedure requirements for a particular covered product when characteristics of that product prevent use of the prescribed test procedures or lead to results of the test procedures that provide materially inaccurate comparative data. The purpose of this rulemaking is to streamline the waiver process.

437. ENERGY EFFICIENCY TEST PROCEDURES FOR CENTRAL AIR CONDITIONERS

Legal Authority: 42 USC 6293

CFR Citation: 10 CFR 430.22

Legal Deadline: None

Abstract: Final test procedures for 13 types of appliances were established during 1978. The test procedures form the basis of manufacturers' representations on the Federal Trade Commission's EnergyGuide label. The purpose of the rulemaking is to establish test procedures for water-source heat pumps and multi-evaporator heat pumps; to eliminate the test procedure waiver granted to Borg-Warner Central Environmental Systems for its variable speed heat pump; and to incorporate, by reference, the American Society of Heating, Refrigerating, and Air-conditioning Engineers Standard 116-83 and the Air-conditioning and Refrigeration Institute Standard 210/240-84 into the test procedures.

439. ENERGY EFFICIENCY STANDARDS FOR FOUR TYPES OF CONSUMER PRODUCTS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Statutory. Section 325(l)(4) of the Act requires that DOE prescribe a rule for an energy efficiency standard for the four products not earlier than 60 days after publication of the notice of proposed rulemaking, but not later than two years after publication of the advance notice of proposed rulemaking.

Abstract: Congress directed DOE to prescribe energy efficiency standards for certain specific consumer products unless DOE determines, by rule, that the establishment of such standard will not result in significant conservation of energy or is not technologically feasible

1986 UMI

VOL 51 ISS 76 AP 21 1986 UMI

or economically justified. This rule deals with four of these products: dishwashers, clothes washers, television sets, and humidifiers and dehumidifiers. The analysis will include all allowable alternatives including various efficiency levels for these consumer products as well as the alternative of no efficiency standard for these consumer products.

Withdrawn	03/05/86	51 FR 7582

Small Entity: Undetermined

Additional Information: The United States Court of Appeals for the District of Columbia Circuit decided on July 16, 1985, to set aside the final rules regarding Federal appliance energy efficiency standards. The final rule for clothes washers and kitchen ranges and ovens was published on December 22, 1982, (47 FR 57198). The final rule for refrigerators and refrigerator-freezers, freezers, water heaters, room air conditioners, furnaces and central air conditioners was published on August 30, 1983 (48 FR 39376). In light of the court decision, the Department has withdrawn this proposed rulemaking. The Department intends to initiate new rulemakings for all 13 covered products.

440. ENERGY EFFICIENCY STANDARDS FOR THREE TYPES OF CONSUMER PRODUCTS

Significance: Regulatory Program

Legal Authority: 42 USC 6295

CFR Citation: 10 CFR 430.32

Legal Deadline: Statutory. Section 325(l)(4) requires DOE to prescribe a rule for an energy efficiency standard for the three products not earlier than 60 days after publication of the notice of proposed rulemaking, but not later than two years after publication of the advance notice of proposed rulemaking.

Abstract: Congress directed DOE to prescribe energy efficiency standards for certain specific consumer products unless DOE determines, by rule, that the establishment of such standard will not result in significant conservation of energy or is not technologically feasible or economically justified. This rule deals with heat pumps, heat pump water heaters and home heating equipment (not including furnaces). The analysis will include all allowable alternatives including various efficiency levels as well as the alternative of no efficiency standard.

441. COMMERCIAL AND APARTMENT CONSERVATION SERVICE (CACS) STANDBY PROGRAM REGULATIONS

Significance: Regulatory Program

Legal Authority: 42 USC 8284

CFR Citation: 10 CFR 458.701 to 458.716

Legal Deadline: Statutory, September 4, 1984

Abstract: On October 26, 1983, DOE issued a final rule in compliance with Title VII of the National Energy Conservation Policy Act, as amended, establishing the Commercial and Apartment Conservation Service (CACS) Program. The CACS Program is an energy audit program for commercial and apartment buildings to be carried out by public utilities in accordance with Plans developed by States. NECPA requires DOE to administer the Program in States that choose not to submit Plans (and in States determined not to be adequately implementing a State Plan). DOE will administer the program in the manner set forth in the CACS Standby Program Regulations.

442. TWENTY-SIX STATE PETITIONS REGARDING FEDERAL PREEMPTION OF STATE ENERGY EFFICIENCY STANDARDS FOR APPLIANCES

Significance: Regulatory Program

Legal Authority: 42 USC 6297 (b)(3)

CFR Citation: 10 CFR 430.33

Legal Deadline: Statutory, 00/00/00. Section 327(b) (4) of the Act requires that DOE, within 6 months after the date any petition is filed, shall deny such petition or prescribe the requested rule, except that it may publish a notice in the Federal Register extending such period to a date certain.

Abstract: This is a rulemaking responding to 26 State petitions that the Department promulgate rules exempting various of the States' appliance energy efficiency standards from federal preemption, regarding six types of major household appliances. The appliances are: refrigerators and refrigerator-freezers, freezers, water heaters, room air conditioners, central air conditioners, and furnaces.

443. WEATHERIZATION ASSISTANCE FOR LOW-INCOME PERSONS — AMENDMENTS

Legal Authority: 42 USC 6861

CFR Citation: 10 CFR 440

Legal Deadline: Statutory, October 1, 1985. Statute requires performance fund "beginning in fiscal year 1986".

Abstract: This rulemaking will implement the change to the program regulations required by the Human Services Reauthorization Act of 1984. The amendment requires DOE to establish a performance fund of not less than 5 percent and not more than 15 percent of the annual program appropriation, beginning in fiscal year 1986.

Significance: Regulatory Program

Legal Authority: 42 USC 6297(b)(3)

CFR Citation: 10 CFR 430.33

Legal Deadline: Statutory, 00/00/00. Section 327(b)(4) of the Act requires that DOE, within 6 months after the date any petition is filed, shall deny such petition or prescribe the requested rule, except that it may publish a notice in the Federal Register extending such period to a date certain.

Abstract: This is a rulemaking responding to two State petitions that the Department promulgate rules exempting various States' appliance energy efficiency standards from Federal preemption. For Michigan, the appliances addressed in the State's petition are gas furnaces, gas clothes dryers, and gas kitchen ranges and ovens. For Hawaii, the appliance addressed in the State's petition is water heaters.

CFR Citation: 10 CFR 1008

Legal Deadline: None

Abstract: An existing Department of Energy (DOE) Order, DOE 4200.2 RESEARCH AND DEVELOPMENT WORK PERFORMED FOR OTHERS BY GOVERNMENT-OWNED, CONTRACTOR - OPERATED FACILITIES, is in the process of being revised and expanded into a new DOE Order, NON-DEPARTMENT OF ENERGY FUNDED WORK. This Order established DOE policy, responsibilities, and procedures for authorizing and administering non-DOE funded work performed under DOE contracts. Such work makes use of public property, and any revision or reissue of the Order may be governed by the requirements of the Administrative Procedure Act, 5 USC 553. The DOE General Counsel will be asked to determine the applicability of 5 USC 553 to the issuance of the New Order, and, if required, a proposed rule will be developed in FY 1986 to ensure that work conducted by the Department's laboratories for other Federal agencies, State and local governments, businesses, industry, and universities constitutes acceptable, effective, and efficient use of DOE facilities. The cost of this rule to DOE is expected to be minimal while benefits to DOE and others, although difficult to quantify, is expected to be significant.

VOL 51 ISS 76 AP 21 1986 UMI

DOE—MA

Final Rule Stage

Abstract: Provides implementation of PL 91-646 (Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally Assisted Programs Policies Act of 1970), which requires that owners of real property that will be acquired for Federal or Federally assisted programs and persons displaced from their dwellings, businesses, or farms as a result of such acquisition be provided fair, consistent, and equitable treatment. This common rule for several agencies is being evaluated by OMB who is the lead agency. Currently awaiting final determination from OMB, who will then publish for comment in Federal Register.

484. DEPARTMENT OF ENERGY ACQUISITION REGULATION

Legal Authority: 42 USC 2168 Atomic Energy Act; 42 USC 7254 Department of Energy Organization Act

CFR Citation: 48 CFR 904; 48 CFR 952

Legal Deadline: None

Abstract: This regulatory action would amend the Department of Energy Acquisition Regulation (DEAR) to add a new contract clause and related instructions concerning protection of sensitive unclassified data. The contract clause would be applicable to contractors whose employees participate in the design, operation, or maintenance of computer or telecommunication systems or have access to DOE sensitive unclassified data stored in computer systems. Sensitive unclassified data may include, but not necessarily be limited to, personnel data maintained in systems of records subject to Privacy Act protection, proprietary business data within the meaning of 18 U.S.C. Sec. 1905 and the Freedom of Information Act, and unclassified controlled nuclear information within the meaning of 42 U.S.C. Sec. 2168.

Legal Deadline: None

Abstract: This action is for the purpose of updating the Acquisition Regulation as a result of changes in the Federal Acquisition Regulation and Internal Procedures. It discontinues the use of DOE Small Purchase Forms as GSA has issued forms for that purpose. It increases the threshold for formal source evaluation boards from $5 to $10 million. It adds a new solicitation provision entitled "Buy America Act - Construction Materials." It also provides new guidance on Small Business Subcontract Plans Under Management Contracts.

469. PATENT WAIVER REGULATION

Legal Authority: 42 USC 2182; 42 USC 5908

CFR Citation: 10 CFR 784; 41 CFR 9-9.109-6

Legal Deadline: None

Abstract: The regulation provides procedures and standards for obtaining a waiver of the Government's rights in inventions made under DOE research and development contracts with entities that are not small businesses or nonprofit institutions, and terms and conditions of such waivers. Currently, DOE waiver policy is provided in DOE Procurement Regulations (41 CFR 9-9.109-6). The proposed regulation places DOE patent waiver policy in a separate regulation, and also provides updates, revisions and clarifications to waiver policy as contained in 41 CFR 9-9.109-6.

470. FOREIGN GIFTS AND DECORATIONS

Legal Authority: 5 USC 7342 41 CFR 101-49.001-5

CFR Citation: 10 CFR 1050

Legal Deadline: None

Abstract: The regulations need to be amended to reflect the increase in the dollar amount of "minimal value." (Whether a gift is of minimal value is a factor as to whether the regulations apply.) The dollar amount of minimal value is determined by the General Services Administration, by GSA regulation. Accordingly, the DOE regulations will reference the GSA regulation.

471. CLARIFICATION OF THE TERM BYPRODUCT MATERIAL

Legal Authority: 42 USC 2011 et seq (Atomic Energy Act of 1954)

CFR Citation: 10 CFR 962, (new)

Legal Deadline: None

Abstract: This regulation will clarify the application of the term Byproduct Material, as defined in section 11(e) (1) of the Atomic Energy Act (42 USC 2014(e) (1)) to Department of Energy owned or produced radioactive waste substances, for the purpose of determining which of these waste substances are Byproduct Material under the Atomic Energy Act, and are therefore not "solid waste" as that term is defined in the Resource Conservation and Recovery Act (42 USC 6901 et seq).

Unified Agenda of Regulations

AGENCY: Department of Health and Human Services.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive Order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on October 28, 1985.

FOR FURTHER INFORMATION CONTACT: For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: John J. Phelan, Associate Executive Secretary/Regulations, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue, S.W., Washington, D.C. 20201, Telephone: (202) 245-3475.

James J. Delaney,
Executive Secretary.

Office of the Secretary (OS)

Proposed Rule Stage

472. NONDISCRIMINATION REQUIREMENT APPLICABLE TO BLOCK GRANTS AND COMMUNITY ECONOMIC DEVELOPMENT AND HEAD START PROGRAMS - INCLUDING NONDISCRIMINATION ON THE BASES OF SEX AND RELIGION

Legal Authority: 42 USC 9908; 42 USC 300w-7; 42 USC 300x-7; 42 USC 300y-9; 42 USC 726; 42 USC 9825; 42 USC 9821; 42 USC 9849

CFR Citation: 45 CFR 92

Legal Deadline: None

Abstract: To implement the nondiscrimination requirements applicable to block grants and the Community Economic Development and Head Start Programs authorized by the Omnibus Budget Reconciliation Act of 1981, P.L. 97-35.

Timetable:

Action	Date	FR Cite
NPRM	01/21/86	51 FR 2808
NPRM Comment Period End	03/24/86	51 FR 2808

Small Entity: No

Additional Information: New CFR Subpart to be assigned.

Agency Contact: Marcella Haynes, Director, Policy and Special Projects Div., Department of Health and Human Services, Office of the Secretary, Div of PSP, Off of Mgmt & Pol, OCR, Rm. 5410, HHS North Bldg. 330 Independence Ave, SW, Washington, DC 20201, 202 245-6671

RIN: 0991-AA02

473. PUBLIC INFORMATION REGULATION

Legal Authority: 5 USC 552

CFR Citation: 45 CFR 5

Legal Deadline: None

Abstract: This will be the first complete update since August 1974 of the Department's Public Information Regulation implementing the Freedom of Information Act. It will facilitate public access to information by making necessary revisions, clarifying, and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing FOIA requests by providing them with an integrated regulation that is compatible with current procedures for processing FOIA requests and assessing search and copy fees that reflect the increased cost of such services. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

RIN: 0991-AA07

474. PRIVACY ACT REGULATION

Legal Authority: 5 USC 552a

CFR Citation: 45 CFR 5b

Legal Deadline: None

Abstract: This will be the first complete update since 1975 of the Department's Privacy Act Regulation implementing the Privacy Act of 1974. It will facilitate

VOL 51 ISS 76 AP 21 1986 UMI

individuals' access to information and records that the Department maintains about them in more than 400 designated Privacy Act Systems of Records, clarifying and promulgating at one time all the subparts of the regulation. It will also help Departmental personnel processing Privacy Act requests by providing them with an integrated regulation that is compatible with current procedures for processing such requests. The only alternative to this complete update is to continue to operate with a regulation that in the past has been revised on a piecemeal basis.

RIN: 0991-AA11

475. PRINCIPLES FOR DETERMINING COSTS AND COST ALLOCATION PROCEDURES APPLICABLE TO GRANTS, CONTRACTS, AND OTHER AGREEMENTS FOR WORK PERFORMED BY HOSPITALS

Legal Authority: 5 USC 501

CFR Citation: 45 CFR 74, Appendix E; 45 CFR 76

Legal Deadline: None

Abstract: This action will revise the Department's current cost principles for research and development activities under grants and contracts with hospitals to make them clearer, more specific, and compatible with cost principles issued by OMB for educational institutions and nonprofit organizations. The revision will also broaden the coverage of the principles to include all grants, contracts and other agreements with hospitals (except the Medicare & Medicaid programs).

Agency Contact: Henry G. Kirschenmann, Jr., Deputy Assistant Secretary, Department of Health and Human Services, Office of the Secretary, Office of Procurement, Assist & Logistics, Rm 513D, HHH Bldg, 200 Independence Ave. SW, Washington, DC 20201, 202 245-6670

RIN: 0991-AA12

476. ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN THE DEPARTMENT OF HEALTH AND HUMAN SERVICES

Significance: Agency Priority

Legal Authority: 29 USC 794

CFR Citation: 45 CFR 85.1-62

Legal Deadline: None

Abstract: Implements the amendment made to Sec. 504 of the Rehabilitation Act of 1973 by Pub.L. 95-602 in 1978, which extended Sec. 504 to the Federal sector. The proposed Part 85 is modeled on Part 84 which implements Sec. 504 with respect to recipients of Federal financial assistance.

477. REVISION TO OIG'S SANCTION AUTHORITIES

Significance: Agency Priority

Legal Authority: PL 98-369, Sec 2333; 42 USC 1395yd; 42 USC 1320a7; 42 USC 1302; 42 USC 1395cc; 42 USC 1395hh; 42 USC 1396a; 42 USC 1396b

CFR Citation: 42 CFR 405; 42 CFR 420; 42 CFR 455; 42 CFR 474; 42 CFR 489

Legal Deadline: None

Abstract: This regulation will incorporate Section 2333 of P.L. 98-369 which provides authority to exclude entities that employees practitioners convicted of Medicare or Medicaid related offenses in key management positions or where an individual convicted of Medicare or Medicaid offenses has a five percent or more ownership interest. NPRM will also make substantive revision and clarify certain legal issues in the existing OIG sanction regulations.

Significance: Regulatory Program

Legal Authority: 42 USC 9901; 42 USC 300w; 42 USC 8621; 42 USC 300x

CFR Citation: 45 CFR 96

Legal Deadline: None

Abstract: In a prior session of Congress, four of the Department's block grants were reauthorized and certain requirements imposed on the States and other recipients were changed. The block grants include those for Alcohol and Drug Abuse and Mental Health Services; Preventive Health and Health Services; Low-Income Energy Assistance and Community Services. In addition, Congress enacted the Single Audit Act of 1984 which substantially changes the Federal audit requirements imposed upon State and local governments and modifies Federal agency responsibility for oversight of those audits. These legislative changes necessitate changes in the Department's block grant regulation issued July 6, 1982. Alternative measures for addressing the problem are not being considered. None of the proposed legislative changes will involve substantial cost.

479. ADMINISTRATION OF GRANTS - IMPLEMENTATION OF OMB CIRCULAR A-102

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74

Legal Deadline: None

Abstract: This action will implement revised OMB Circular No. A-102 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The current HHS regulation codified at 45 CFR Part 74 was written by HHS to implement both Circular No. A-102 and a companion Circular A-110 which governs grants and cooperative agreements to recipients other than governments. Revised Circular A-102 will require us to adopt essentially verbatim a common regulation drafted by OMB and affecting governmental grantees only.

RIN: 0991-AA27

480. ● DEPARTMENTAL GRANTS ADMINISTRATION MANUAL

Significance: Agency Priority

Legal Authority: 5 USC 301

CFR Citation: 00 CFR None

Legal Deadline: None

Abstract: This action will implement a recommendation by the Office of Science and Technology Policy that all Federal agencies adopt the National Science Foundation's practices for the award and payment of the indirect cost rates of most grantees as predetermined. The combined amount awarded for direct and indirect costs of a grant would be a ceiling no longer subject to upward adjustment based on changing indirect cost rates or base amounts. These changes would reduce both government and grantee administrative effort and would result in annual savings of about $7 million of current obligational authority and $28 million of obligations against lapsed appropriations. Finally, adoption of the OSTP recommendation will require elimination of the current practice whereby PHS peer review panels are not provided with the indirect cost portion of proposed grant budgets. However, it has not been decided whether this elimination will be done as part of this action or as a separate action to be taken by PHS.

Legal Deadline: None

Abstract: This NPRM will propose new regulations of 45 CFR 95.600, et seq., to reduce the amount of time necessary to review and respond to State and local agency requests for FFP. The reduction in process time will be accomplished by streamlining the review process and requiring fewer points of prior approval by the Department.

Significance: Agency Priority

Legal Authority: PL 98-369, Sec 2306

CFR Citation: 42 CFR 420; 45 CFR 101

Legal Deadline: Statutory

Abstract: This rule sets forth OIG procedures for imposing civil money penalties and Medicare program exclusions on physicians who choose not to be participating physicians and who raise charges to Medicare beneficiaries in violation of the freeze on such fees contained in PL 98-369, Sec. 2306. The rule also modifies existing regulations to permit the OIG to impose civil money penalties and assessments on those who choose to be participating physicians under Medicare and who violate their participation agreements as set forth under Sec. 2306.

Significance: Agency Priority

Legal Authority: 5 USC 301; 31 USC 7505; PL 98-502, Sec 7505 Single Audit Act of 1984

CFR Citation: 45 CFR 74.62(a), (Revised); 45 CFR 74, Appendix I; 45 CFR 74, Appendix J

Legal Deadline: None

Abstract: This action implements the Single Audit Act of 1984 and OMB Circular A-128 by requiring recipients that are governments to comply with Circular A-129. That Circular provides governmentwide standards for implementing the Act. The Act, Circular and these amendments replace Attachment P to Circular A-102. Attachment P contained the previous Federal policy on non-Federal audits of governmental recipients of Federal grants.

CFR Citation: 45 CFR 30, (Revision)

Legal Deadline: None

Abstract: The proposed rule amends the Department's regulation for collecting debts. Principally, the amendments implement the Debt Collection Act of 1982 (P.L. 97-365), which amended the Federal Claims Collection Act of 1966 (31 U.S.C. 3711, 3716-3718) to authorize, among other things, the charging of interest, penalties and administrative costs, and the use of administrative offset, private collection agencies and credit reporting agencies by the Government. The amendments also implement government-wide regulations issued by the Department of Justice and GAO (49 F.R. 8889) and OPM (49 F.R. 27470).

491. GRANTS TO STATES FOR PUBLIC ASSISTANCE PROGRAMS

Legal Authority: 42 USC 1302

CFR Citation: 45 CFR 201.66, (Revision)

Legal Deadline: None

Abstract: The proposed rule amends 45 CFR 201.66 by removing paragraph (b)(6). Section 201.66 governs States' repayment by installments of debts to the Department arising from audit disallowances under Titles I, IV-A, X, XIV, XVI (AABD) or XIX of the Social Security Act (42 U.S.C. 201 et seq). Paragraph (b)(6) provides that States will not be charged interest on those repayments unless mandated by court order. Paragraph (b)(6) is being removed to conform to the Department's interest policy set forth in the proposed amendments to 45 CFR Part 30, the Claims Collection Regulation. The provision is inconsistent with the Department's policy of charging interest on outstanding debts.

501. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; COVERAGE OF EMPLOYEES OF STATE AND LOCAL GOVERNMENTS

Legal Authority: 42 USC 418; 42 USC 1302; PL 98-21, Sec 103; PL 98-21, Sec 342

CFR Citation: 20 CFR 404, Subpart M

Legal Deadline: None

Abstract: This proposed regulation reflects policies and procedures concerning agreements between States and the Secretary for Social Security coverage of State and local employees, payment of Social Security contributions, filing of wage reports by States, charging interest for late payments, etc. The current rules need to be organized into a logical sequence and to be updated to reflect many policies which SSA has followed for many years. In preparing this regulation, we reviewed all policies to assess their impact on the trust funds and to reduce recordkeeping burdens. We also added the provisions of sections 103 and 342 of Pub. L. 98-21. Sec. 103 prohibits termination of existing coverage under the States' agreements. Sec. 342 changes payment of Social Security contributions from once a month to twice a month. Other than these two statutory changes, which leave no room for administrative discretion, the only policy change in this proposed regulation that will result in any significant program or administrative cost or saving is to require States to pay their contributions by electronic transfer of funds. We estimate this will result in $8-9 million additional (cont)

Legal Deadline: None

Abstract: This regulation consists of amendments to 5 rules on wage coverage under Social Security. These amendments are: (1) The value of the meals and lodging furnished for the convenience of the employer must be excluded from the employee's gross income; (2) With only limited exceptions, an employer may no longer exclude from an employee's wages, his or her payment of the employee's FICA tax; (3) Payments by an employer to an employee after the calendar year of the employee's entitlement to disability insurance benefits are not wages if paid in a period the employee did not work; (4) The scope of the entitlement to the deemed wages provided to internees of the camps for Japanese-Americans during World War II period is being broadened; (5) The scope of the entitlement to the deemed wages provided to members of the uniformed services is being narrowed. Only two regulations will have a cost impact. Amendment (1) above will reduce the Social Security benefits paid the affected employees but not by $100 million in any year. Amendment (2) will increase taxes paid by employers and employees but these increases are required by the statutory provisions and the Secretary has (cont)

502. SUPPLEMENTAL SECURITY INCOME PROGRAM; REDUCTIONS, SUSPENSIONS AND TERMINATIONS

Legal Authority: 42 USC 1302; 42 USC 1382; 42 USC 1382c; 42 USC 1382d; 42 USC 1383

CFR Citation: 20 CFR 416, Subpart M

Legal Deadline: None

Abstract: This regulation reorganizes, revises, and clarifies the rules on withholding, reducing, suspending, and terminating an SSI beneficiary's benefits. These regulations include changes in the present rules that are required by recent statutory enactments and, additionally, make the rules easier to read and understand. This regulation

504. SUPPLEMENTAL SECURITY INCOME PROGRAM; REOPENING AND REVISING SUPPLEMENTAL SECURITY INCOME DETERMINATIONS AND DECISIONS WITHIN FOUR YEARS OF THE NOTICE OF THE INITIAL DETERMINATION

Legal Authority: 42 USC 1302; 42 USC 1383; 42 USC 1383b

CFR Citation: 20 CFR 416.1468

Legal Deadline: None

Abstract: The proposed rules provide for the reopening and revising of Supplemental Security Income determinations within four years of the notice of the initial determination if we discover an error affecting a claimant's eligibility or benefit amount during this period through the use of information exchange and data gathering involving either our records or our records and those of other Federal or State agencies. This rule is being proposed because the two-year period in which we may reopen and revise a determination based on new and material evidence we acquire through data and exchange is often too short and often expires before the determination to correct errors revealed by the data can be made. The budgetary impact has not yet been determined.

505. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; SIMPLIFIED FEE PROCESS FOR REPRESENTATIVES OF CLAIMANTS

Significance: Regulatory Program

Legal Authority: 42 USC 406(a); 42 USC 1383(d)(2); 42 USC 406; 42 USC 1302

CFR Citation: 20 CFR 404, Subpart R; 20 CFR 416, Subpart O

Legal Deadline: None

Abstract: The proposed regulation will revise the method for setting fees for representation. The current procedure has been criticized as too subjective and as resulting in excessively high fees. Also, Social Security Rulings on escrow accounts and third party payments would be incorporated in the proposed regulation. Additionally, conditions under which law firms or other representative entities would be recognized would be included; currently, SSA only recognizes individuals.

The regulations will result in a negligible administrative savings to SSA. There would also be a reduction in the amount of fees paid by beneficiaries.

506. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; RESIDENCY REQUIREMENT FOR PAYING BENEFITS TO NON-RESIDENT ALIENS

Legal Authority: 42 USC 405; 42 USC 1302; PL 98-21, Sec 340

CFR Citation: 20 CFR 404.460(b)

Legal Deadline: None

Abstract: These regulations implement Sec. 340 of Pub. L. 98-21--The Social Security Amendments of 1983--which provides a U.S. residence requirement that the dependent or survivor beneficiary must now meet if he or she is an alien outside the U.S. These provisions do not apply to the alien who is an old-age or disability beneficiary who is residing outside the U.S. for more than 6 months. The dependent or survivor beneficiary, however, who is an alien outside the U.S. will not be paid benefits effective January 1, 1985 unless he or she satisfies these new residence requirements. These provisions will effect negligible budget savings, i.e., $50 million for the period 1983-89.

509. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS TREATMENT OF OASDI LUMP SUM AND MONTHLY PAYMENTS IN THE AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383(a)

CFR Citation: 20 CFR 404, Subpart U; 20 CFR 416, Subpart F

Legal Deadline: None

Abstract: These proposed rules would revise 20 CFR 404.2040, which stipulates the use of benefit payments by a representative payee, explaining that retroactive title II benefits received by a representative payee who is a member of an Aid to Families with Dependent Children (AFDC) assistance unit, on behalf of a child in the same unit, may be considered available to meet the needs of that AFDC assistance unit. If the representative payee is not a member of the assistance unit, title II benefits would be counted as available income for AFDC purposes only to the extent that the payee provides these funds to the AFDC household for the beneficiary's maintenance. Potential costs and benefits are not available at this time. We are also proposing direct payment to a beneficiary under age 18 if the beneficiary is within 7 months of attaining age 18 and is initially filing an application for benefits. This proposed revision represents a policy change and is an extension of the 4-month period in our current regulations.

516. SUPPLEMENTAL SECURITY INCOME PROGRAM; INCOME; BILLS PAID FOR YOU

Legal Authority: 42 USC 1382(a)

CFR Citation: 20 CFR 416.1106(g); 20 CFR 416.1193(a) to (b)

Legal Deadline: None

Abstract: Federally funded needs based payments are counted dollar for dollar as income for SSI purposes regardless of the manner in which they are paid (e.g., directly to a vendor). Bills paid by "someone else" (e.g., a relative or friend) are not income. Regulations need clarification that "someone else" does not mean another federally funded needs based program. Also, cash provided by a governmental medical or social services agency is not income. Regulations will restrict this to cash which is either repayment for, or restricted to the future purchase of, a program-approved service.

518. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; STANDARDS FOR CONSULTATIVE EXAMINATIONS; MEDICAL EVIDENCE

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 9; 42 USC 465; 42 USC 421; 42 USC 423; 42 USC 1302; 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 404.1512; 20 CFR 416.912; 20 CFR 404.1519; 20 CFR 416.919; 20 CFR 404.1502; 20 CFR 416.920; 20 CFR 404.1593; 20 CFR 416.993; 20 CFR 416.902; 20 CFR 404.1513; 20 CFR 416.913; 20 CFR 404.1520; 20 CFR 404.1545; 20 CFR 416.945; 20 CFR 404.1546

Legal Deadline: Statutory, April 7, 1985

Abstract: The proposed regulations include standards for obtaining consultative examinations, the types of consultative examination referrals to be made, and monitoring procedures for consultative examinations and the referral process. The proposed regulations also provide for evaluating medical evidence of record and a 12-month medical history where appropriate. The requirement that a medical assessment in work-related terms be included in medical reports is being eliminated. The changes will not have any significant impact on either administrative or program costs.

519. ● SUPPLEMENTAL SECURITY INCOME PROGRAM; PERMANENT RESIDENCE UNDER COLOR-OF-LAW

Legal Authority: Berger v. Schweiker No. 78c 1420 (E.D.N.Y. July 31, 1984); Berger v. Heckler 771 F. 2d 1556 (1985); Section 1614(a)(1)(B) of the Social Security Act

CFR Citation: 20 CFR 416.1618

Legal Deadline: None

Abstract: The proposed rule implements Berger which defines color of law for SSI purposes and sets out categories of aliens who are to be considered permanently residing in the U.S. under color of law. This will enable additional aliens to qualify for Supplemental Security Income benefits. Our preliminary estimates are that the proposed regulations could result in Federal SSI costs of between $17 million and $135 million in fiscal year (FY) 1986, between $7 million and $285 million in FY 1987 and between $9 million and $280 million in FY 1988. Our maximal estimated Medicaid costs for FY 1986 are $155 million Federal and $130 million State, for FY 1987, $370 million Federal and $295 million State, and for FY 1988, $420 million Federal and $355 million State.

520. SUPPLEMENTAL SECURITY INCOME PROGRAMS; ASSIGNMENT OF RIGHTS TO THIRD-PARTY MEDICAL PAYMENTS TO STATE

Legal Authority: 42 USC 1383c; 42 USC 1396k

CFR Citation: 20 CFR 416.2101 to 416.2119

Legal Deadline: None

Abstract: Our current regulations implementing section 1634 of the Social Security Act provide that SSA will make determinations for the State on whether aged, blind, or disabled people are eligible for Medicaid if the State's Medicaid requirements for these people are the same as SSI eligibility requirements. Sec. 2367 of Pub. L. 98-369 mandates that States require, as a condition of Medicaid eligibility, that a person assign to the State his or her rights to any medical care support available under an order of a court or an administrative agency and any third-party payments for medical care (except Medicare). This is a Medicaid requirement that is different from SSI requirements. We plan to amend our regulations to provide that in making the Medicaid eligibility determination under a section 1634 agreement, SSA will also determine that the new assignment requirement has been met. The resulting cost for SSA is estimated as less than $1 million a year, of which States would pay half. We are also rewriting and reorganizing our regulations for making Medicaid determinations.

Legal Deadline: None

Abstract: These proposed rules which implement section 2 of Pub. L. 97-455, section 2 of Pub. L. 98-118 and section 7 of Pub. L. 98-460 provide the following groups with the option to elect to continue receiving benefits/payments pending reconsideration and/or a hearing before an administrative law judge on a medical cessation determination; recipients of disability insurance; adult child's, disabled widow's, disabled widower's, mother's and father's, or spouse's benefits based on having in care a disabled adult child; recipients of benefits based on having in care, a child under age 18 but over age 15, who is disabled and receiving child's benefits; recipients of SSI benefits based on disability or blindness. Any continued payments are subject to recovery as overpayments, subject to the same waiver provisions now in current law and regulations where the medical cessation decision is upheld on appeal. The estimated additional costs not already funded are FY 1985--$80.1 million, FY 1986--$112.6 million.

Legal Deadline: None

Abstract: This proposed regulation reflects the provisions of section 2613 of P.L. 98-369 which provides for waiving recovery of an overpayment that is attributable solely to excess resources if the amount of the excess is $50 or less unless the overpaid recipient (and spouse if any) knowingly and willfully failed to report the value of his/her resources accurately and timely.

524. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM; EXTENSION OF MEDICAID ELIGIBILITY WHEN SUPPORT COLLECTIONS RESULT IN TERMINATION OF AFDC ELIGIBILITY

Legal Authority: 42 USC 606; 42 USC 1302; PL 98-378, Sec 20

CFR Citation: 45 CFR 233

Legal Deadline: None

Abstract: This interim final rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378) specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes wholly or partly to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calender months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because the payment amount is under $10 or because the payment is determined to be zero as a result of rounding. The estimated costs are: FY 1985--$53 million, FY 1986--$58 million, FY 1987--$62 million, and FY 1988--$68 million.

525. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM REOPENING AND REVISING DETERMINATIONS AND DECISIONS WHERE THERE IS CLEAR ERROR OR NEW AND MATERIAL EVIDENCE

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302; 30 USC 923(b); 30 USC 936(a); 30 USC 956; 30 USC 957

CFR Citation: 20 CFR 404, Subpart J; 20 CFR 410, Subpart F

Legal Deadline: None

Abstract: These proposed rules would make two changes on when a determination or decision affecting someone's rights may be reopened and revised. These changes would permit reopening more than 4 years after the date of the notice of the initial determination so that we can correct clerical errors or errors on the face of the evidence considered in making the determination or decision. We are proposing to make these changes so that we can correct erroneous determinations or decisions discovered more than 4 years after the date of the initial determination. In addition, the proposed rules would establish a new

administrative action called a "non-action finding." A "non-action finding" occurs when we fail to act on a report by a beneficiary and as a result fail to make an adverse change in the individual's benefits. A "non-action finding" is final and binding on both us and the beneficiary, subject to special rules on reopening and revising that action. We are proposing to make this change so that a beneficiary is protected under rules covering the reopening and revising of determinations and decisions against the retroactive effect of a (cont)

526. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; COMPLIANCE WITH FEDERAL LAW

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 421; 42 USC 1302; PL 98-460, Sec 17

CFR Citation: 20 CFR 404; 20 CFR 416

Legal Deadline: None

Abstract: The regulations deal with the operation of State agencies which make disability determinations for the Social Security Disability Benefits program and the Supplemental Security Income for the Aged, Blind, and Disabled program under regulations and other written SSA guidelines. The regulations implement recently enacted law which requires the Secretary to take definitive steps within specific time frames to assure the compliance of State agencies with SSA regulations and other written guidelines or proceed to determine their participation in the SSA administered programs. The regulations also make other changes to improve the disability determination process and to clarify and update other administrative requirements. Costs/savings cannot be estimated at this time.

527. OLD AGE SURVIVORS DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; PAYMENT OF COSTS OF REHABILITATION SERVICES

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 11; 42 USC 405; 42 USC 422; 42 USC 1302; 42 USC 1382(d)

CFR Citation: 20 CFR 404; 20 CFR 416

Legal Deadline: None

Abstract: Public Law 98-460 created 2 new provisions under which SSA will pay vocational rehabilitation (VR) agencies for the costs of services provided to disabled or blind social security beneficiaries or SSI recipients. Under the first new provision, SSA will allow payment to VRA's for the costs of VR services provided to individuals continuing to receive payment because they are participating in a VR program after their period of disability has ceased due to their unexpected medical recovery. The second new provision allows payment to VRA's for the costs of VR services provided to beneficiaries/recipients who refuse without good cause to continue or to cooperate in a VR program in such a way as to preclude their successful rehabilitation with such refusal resulting in the nonpayment of their disability or blindness payments. It is estimated that the first year costs of this program will be less than 1 million dollars.

528. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; ADJUSTMENTS IN SSI BENEFITS ON ACCOUNT OF RETROACTIVE BENEFITS UNDER TITLE II

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1320a-6; 42 USC 1302; 42 USC 1383; PL 98-369, Sec 2615; 42 USC 1383b

CFR Citation: 20 CFR 404.408a; 20 CFR 416.1123

Legal Deadline: None

Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate loopholes that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) Retroactive SSI benefits will be reduced where retroactive OASDI benefits for the same period have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable retroactively upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. The program savings to SSA are estimated as $5 million a year.

529. SUPPLEMENTAL SECURITY INCOME PROGRAM; LIMITATION ON RECOUPMENT RATE IN CASE OF OVERPAYMENT

Legal Authority: 42 USC 1302; 42 USC 1381; 42 USC 1381a; 42 USC 1382; 42 USC 1382c; 42 USC 1383; 42 USC 1383b

CFR Citation: 20 CFR 416, Subpart E

Legal Deadline: None

Abstract: These proposed rules which implement section 2612 of Pub. L. 98-369 will limit the rate at which an overpayment may be recovered from an individual still receiving benefits (SSI or federally administered supplementary payments, or both) to 10 percent of the recipient's total income (countable income plus SSI and State supplementary payments) or the recipient's payment for the month, whichever is less. They will apply the 10 percent requirement only to recipients in current payment status. However, recovery of an overpayment by withholding from SSI payments due will be suspended when a recipient is subject to the $25 payment limitation (living arrangement D). The 10 percent limit will not apply in situations involving installment agreements, recovery by refund, cross program adjustment for individuals not in SSI current pay or where it is determined that the overpayment occurred because of recipient fraud or willful misrepresentation. They will, in negotiated cases, set a rate of withholding that is appropriate for the financial condition of the overpaid person after factual evaluation. Such cases will also be considered initial determinations for (cont)

531. DISCLOSURE OF PERSONAL INFORMATION TO LAW ENFORCEMENT AGENCIES AND COURTS (PRERULEMAKING ACTIVITY)

Significance: Regulatory Program

Legal Authority: 5 USC 552; 5 USC 552a; 5 USC 1306; 26 USC 6103

CFR Citation: 20 CFR 401

Legal Deadline: None

Abstract: Under present rules, disclosure to a law enforcement agency is allowed only when a violent crime has been committed and the subject of the information has been either indicted or convicted of that crime. These rules severely restrict permissible disclosures, since most subjects, once indicted or convicted, are already in custody or otherwise accounted for. SSA is considering a change in policy that will expand the circumstances in which information can be disclosed.

Significance: Regulatory Program

Legal Authority: PL 98-460, Sec 10

CFR Citation: 20 CFR 404; 20 CFR 416

Legal Deadline: None

Abstract: The Disability Program is a dynamic program that is subject to ongoing review and change. It is essential that certain actions be taken that ensure the rules under which the program operates (a) reflect legislative changes, (b) reflect chronological changes, and (c) are complete. In addition, the public must have an opportunity to comment on these rules. More specifically our goals are as follows: (A) To implement PL 98-460, the Disability Benefits Reform Act of 1984, in a way that is consistent with legislative interest and administrative effectiveness. (B) To develop disability guidelines, procedures, and policies which can be consistently interpreted and applied throughout all lines of the disability process and are in compliance with PL 98-460, section 10, which requires that all major disability policies be published as regulations. (C) To assure that disability program policies and adjudicative criteria are consistent with the latest advances in medicine and vocational assessment and realistic in relationship to measurements available for assessing disability.

535. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE; BLACK LUNG; AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; BASIS FOR DISQUALIFICATION OF CLAIMANT REPRESENTATIVE

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; 30 USC 923

CFR Citation: 20 CFR 404; 20 CFR 410; 20 CFR 416

Legal Deadline: None

Abstract: The proposal changes the regulatory basis for the suspension or disqualification of claimant representatives. There has been an increase in the number of concerns about the conduct of some representatives. The complaints concern conduct and behavior which are inconsistent with the role and responsibilities representatives take, but such conduct and practices do not constitute grounds for suspension or disqualification under current regulations. The proposed additional bases for suspension or disqualification will give us the regulatory authority to suspend or disqualify in these situations.

The proposed changes will result in negligible program or administrative costs.

Legal Authority: 42 USC 404; 42 USC 405; 42 USC 427; 42 USC 1302

CFR Citation: 20 CFR 404.501; 20 CFR 404.502

Legal Deadline: None

Abstract: These proposed amendments to the regulations amend the definition of overpayment as it appears in the regulations to make it clear that the term "overpayment" includes not only checks sent directly to a payee but payments made to a financial institution either by means of a check or through electronic fund transfer. They also incorporate into the regulations longstanding policies concerning the circumstances under which individuals other than the overpaid persons themselves are liable for repayment of an overpayment. No increased program or administrative costs are anticipated as these rules make no changes in our policies.

539. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; AMENDED EXCEPTIONS TO REDUCTION WHERE SPOUSE IS RECEIVING A GOVERNMENT PENSION; DECREASED AMOUNT OF REDUCTION

Legal Authority: 42 USC (b); 42 USC (c); 42 USC (e); 42 USC (f)

CFR Citation: 20 CFR 404.408a

Legal Deadline: None

Abstract: In these regulations, we are amending our rules on reducing the Social Security benefit amounts of spouses who are receiving Government pensions. The amendments, which implement section 2 of Pub. L. 98-617, provide that, for beneficiaries subject to this reduction, the benefit reduction in all cases will be two-thirds (instead of 100 percent) the amount of the spouse's Government pension. The amendments also extend by one month the periods for meeting the existing exceptions to reduction in cases where an employee's pension eligibility was delayed by one month solely because of a requirement which postponed eligibility for the pension until the month after the month in which all other requirements were met. The changes are effective for benefits payable for December 1984 and later months. These regulations will cost the Social Security trust funds $10 million per year in increased benefits.

541. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; DETERMINING FIRST MONTH OF ENTITLEMENT BASED ON ONE-HALF SUPPORT

Legal Authority: 42 USC 402(b)(4)

CFR Citation: 20 CFR 404.366(b)

Legal Deadline: None

Abstract: Under present regulations, an insured person can be found to be providing one-half support to a claimant if he or she makes regular contributions for support and the amount exceeds one-half of the claimant's ordinary living costs. The usual approach for determining one-half support is to compare the amount of the insured's contributions with the total income of the claimant.

The proposed regulations change would more accurately reflect that the claimant's total income for support purposes is always considered in the support determination. The change would more specifically address the situation where a claimant elects to invest or otherwise segregate his or her own income and claim one-half support from the insured person. This situation will most frequently arise in cases involving Government pension offset. There would be no significant costs/savings since the policy is already being interpreted in this manner.

543. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REDUCTION BECAUSE OF ENTITLEMENTS TO OTHER BENEFITS

Legal Authority: 42 USC 405; 42 USC 407; 42 USC 1302

CFR Citation: 20 CFR 404.407, (Revision); 20 CFR 404.612

Legal Deadline: None

Abstract: Section 202(k)(4) of the Social Security Act discusses simultaneous entitlement to retirement and disability insurance benefits (RIB/DIB) and provides that SSA will pay the higher benefit unless the claimant elects to be paid the lower. Section 223(a)(1) explains that an application for DIB may be filed by someone other than the number holder (NH) within 3 months after the month of the NH's death. Strict interpretation had been made of section 202(k)(4) so that no one other than the NH (or proper applicant on behalf of a living NH) could make the election described in section 202(k)(4). In section 404.612(d) of the CFR, the explanation of section 223(a)(1) is given. We have recently published new operating policy which explains that the same person who files an application pursuant to CFR section 404.612(d) may make the election described in CFR 404.407(c).

We are proposing to change CFR 404.407(c) to clarify that the person described in section 404.612(d) may make the election discussed in section 202(k)(4).

Timetable:

Action	Date	FR Cite
NPRM	06/00/86	

Small Entity: No

Additional Information: We considered changing the requirements in CFR 404.640 for withdrawing an application to enable the individual who filed a DIB application pursuant to CFR 404.612(d) to withdraw the application. However, the change would only apply to disability applications filed after the death of the NH and would not have affected RIB/DIB applications filed by NH's who die prior to making the election described in 404.407(c). The proposed change, therefore, will be more equitable. We foresee minimal costs from this change since the number of potentially affected beneficiaries is small and the period of time during which they will receive the higher family maximum amount (based on the RIB) will only be for the months during which the deceased NH is simultaneously entitled to DIB. Also, this cost will be offset by administrative savings since overpayments will not be created and have to be recovered in situations where NH's die prior to the DIB determination where RIB has been paid.

544. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE, SUPPLEMENTAL SECURITY INCOME & BLACK LUNG PROGRAMS--OWN MOTION REVIEW OF FEE DETERMINATION

Legal Authority: 42 USC 405; 42 USC 406; 42 USC 1302; 30 USC 923(b); 30 USC 936(a); 30 USC 956; 30 USC 957; 42 USC 1383

CFR Citation: 20 CFR 404.1720; 20 CFR 410.686; 20 CFR 416.1520

Legal Deadline: None

Abstract: We propose to revise our regulation on review of attorney fee determinations approved for services before the Social Security Administration (SSA) under titles II and XVI of the Social Security Act and under title IV of the Federal Mine Safety and Health Act. These revised rules, if adopted, will allow SSA on its own motion to review and revise attorney fee determinations which are clearly based on improper application of the law and regulations, or on an error of fact. This change extends authority to SSA for reopening fee determinations; an initiative by regulation which is now only applicable

VOL 51 ISS 76 AP 21 1986 UMI

to an attorney or his/her client. The savings from this regulation are negligible.

545. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE; BLACK LUNG; SUPPLEMENTAL SECURITY INCOME PROGRAMS; COMPONENT RECOMMENDATION THAT THE APPEALS COUNCIL REVIEW ALJ DECISIONS

Legal Authority: 42 USC 405; 42 USC 406; 42 USC 409; 42 USC 1302; 42 USC 1383; 42 USC 1383a; 30 USC 923

CFR Citation: 20 CFR 404; 20 CFR 416; 20 CFR 416

Legal Deadline: None

Abstract: These proposed regulations add to our regulations procedures under which a Social Security component responsible for carrying out an administrative law judge hearing decision may recommend to the Appeals Council that the Appeals Council review the decision. Also, we are revising our regulations to make it clear that the Social Security Administration may reopen a final determination or decision on its own initiative. We are adding these rules to our regulations to make the public aware of these procedures and clarify any questionable issues.

The proposed changes will result in negligible program or administrative costs or savings.

546. AID TO FAMILIES WITH DEPENDENT CHILDREN PROGRAM; GENERAL ADMINISTRATION — PUBLIC ASSISTANCE PROGRAM—QUALITY CONTROL SYSTEM

Legal Authority: 42 USC 1302; PL 97-248; PL 98-123

CFR Citation: 45 CFR 205.42; 45 CFR 205.44

Legal Deadline: None

Abstract: These proposed rules amend the QC regulations under the AFDC program by introducing two primary changes. The first establishes a new performance-based threshold to determine whether or not States that failed to meet the statutory error standards can, in fact, be considered for a waiver. The revision replaces the provision at 45 CFR 205.42(g)(2)(v) regarding a timely developed and implemented corrective action plan, as well as the requirement at 45 CFR 205.44(g)(2)(iv) relating to a demonstrated error reduction from the last assessment period. The second, which generally pertains to those States which are eligible to be considered for a waiver by virtue of having met the threshold, establishes more definitive criteria to be used in determining whether waivers will be granted.

547. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; USE OF WORK EVALUATIONS TO EVALUATE INDIVIDUALS WITH MENTAL IMPAIRMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404.1547, (New); 20 CFR 416.947, (New)

Legal Deadline: None

Abstract: The regulations that we are proposing provide the necessary guidelines for the disability determination services when it is necessary to refer individuals with mental impairments for a work evaluation. Work evaluations are needed in certain disability cases (both title II and title XVI) when it is necessary to evaluate the individual's ability to perform past work or other work available in the economy.

548. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; LISTING OF IMPAIRMENTS—APPENDIX 2—MEDICAL - VOCATIONAL GUIDELINES, ILLITERACY AND INABILITY TO COMMUNICATE IN ENGLISH

Legal Authority: 42 USC 405

CFR Citation: 20 CFR 404P, Appendix 2

Legal Deadline: None

Abstract: The proposed changes will clarify the meanings of the terms "illiteracy" and "inability to communicate in the English language" as they are used in the disability adjudication regulations. The new rules will show that inability to communicate in English is a more adverse factor than being only illiterate in English. Since only the Secretary of the Department of Health and Human Services and his or her delegates are empowered to administer the title II and title XVI disability and blindness programs these changes must be made on a Federal level. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program. The budgetary impact is unknown at the time.

550. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; REVISED MEDICAL CRITERIA FOR DETERMINATION OF DISABILITY; MENTAL IMPAIRMENTS - CHILDHOOD LISTINGS

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404P, Appendix 1, Part B

Legal Deadline: None

Abstract: Section 112.00 of Appendix 1 to the Old-Age, Survivors, and Disability Insurance Disability Regulations 404.1501 through 404.1599 describe those mental impairments that apply only to the evaluation of impairments of persons under age 18. We are proposing comprehensive revisions to that section to ensure that the medical evaluation criteria are up to date and consistent with the latest advances in medicine. The Supplemental Security Income program incorporates by reference and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program. The budgetary impact is unknown at this time.

551. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE, BLACK LUNG, AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; ROTATION OF ALJS APPOINTMENT TO HEAR AND DECIDE CASES; EXCEPTIONS TO APPOINTING

Significance: Regulatory Program

Legal Authority: 5 USC 3105; 5 USC 554(d)

CFR Citation: 20 CFR 404.929; 20 CFR 416.1429; 20 CFR 410.630

Legal Deadline: None

Abstract: The current regulations on appointing ALJ's to hear and decide cases do not discuss (1) the appointment of ALJ's in rotation to hear and decide cases; or (2) the exceptions to appointing ALJ's in rotation. In addition, the current regulations provide that once an ALJ has been appointed to conduct a hearing, the case may be assigned to another ALJ "if circumstances warrant." The regulations do not discuss the circumstances which would warrant (1) assigning another ALJ to conduct the hearing; or (2) assigning another ALJ to decide a case after the original ALJ has conducted the hearing. The regulatory changes will address concerns about timeliness of hearings and decisions raised by Congress, the public, and the courts. This will result in faster hearings and decisions in many cases, and the overall result will be a lowered cost per case processed. In addition, they will address the agency's public relations and litigation problems caused by the delayed processing of cases.

553. ● SUPPLEMENTAL SECURITY INCOME PROGRAM; TREATMENT OF PROCEEDS FROM HOME EQUITY CONVERSION (HEC) PLANS AS INCOME

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1382a; 42 USC 1383

CFR Citation: 20 CFR 416.1103; 20 CFR 416.1120; 20 CFR 416.1121

Legal Deadline: None

Abstract: Under current policy, payments received by a person as a result of a Home Equity Conversion (HEC) (e.g., reverse mortgage, sale lease back, etc.) are not considered income. The change in regulations would result in these payments being considered income. This change is being made in the realization that HEC's generate cash available for food, clothing, or shelter and meet the definition of income in 20 CFR 416.1102. Program costs and savings are considered insignificant.

554. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; NOTICE OF REVISED DETERMINATION OR DECISION

Legal Authority: 42 USC 405

CFR Citation: 20 CFR 404.902(e)

Legal Deadline: None

Abstract: The proposed regulation will make the next level of appeal a reconsideration, instead of a hearing, where a reconsideration is reopened and revised. Current policy has led to errors as to the appropriate level of appeal. The change will eliminate these errors. To the extent the number of hearings is reduced, there will be some savings (since reconsiderations are less costly); but the estimated savings are negligible.

556. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; DECISIONS BY ADMINISTRATIVE LAW JUDGES IN CASES REMANDED BY COURTS

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; 42 USC 1383b

CFR Citation: 20 CFR 404.953; 20 CFR 404.985; 20 CFR 404.984; 20 CFR 416.1453; 20 CFR 416.1483; 20 CFR 416.1484

Legal Deadline: None

Abstract: If the court remands a case and the SSA Appeals Council remands it to an administrative law judge (ALJ), under current regulations the ALJ can make only a recommended decision on the case, which does not become a final decision until the Appeals Council takes some action on it. This can involve delay. The proposed regulation would permit the ALJ to make a decision which would become final unless, within 60 days, either the claimant files exceptions or the Appeals Council takes jurisdiction. The change will permit prompter final decisions and some administrative saving. It will not affect program cost.

559. SUPPLEMENTAL SECURITY INCOME PROGRAMS; MANDATORY PASS THROUGH UNDER STATE SUPPLEMENTATION PROVISIONS

Significance: Agency Priority

Legal Authority: 42 USC 1382g(c); PL 97-377, Sec 147; PL 98-21, Sec 402

CFR Citation: 20 CFR 416, Subpart T

Legal Deadline: None

Abstract: These rules reflect changes in the law which enable States effective for the 12-month period ending 6/82, to switch from the "maintaining of total expenditures" method of compliance with mandatory pass through provisions to the "maintaining of payment levels" method without first having to pass through to all current SSI recipients all the Federal cost-of-living benefit increases which have occurred since 12/76. States can meet the pass through requirements by maintaining the payment levels in effect in December of the latest preceding total expenditures period. The concept of "State Supplementary payment level" is changed to a concept of combined supplementary and SSI payment levels applicable to months after 3/83. Also, a State is permitted to reduce its 3/83 State Supplementary payment levels by an amount up to the difference between the amount of the 7/83 general increase in the Federal benefits in 7/83. Also reflected in the rules is a special method of compliance for States meeting the passalong requirements by the total annual expenditures test for the period 7/1/80 through 6/30/81. The total expenditures for that period need only equal or exceed the total (cont)

560. GENERAL ADMINISTRATION-PUBLIC ASSISTANCE PROGRAMS; AFDC; FEDERAL FINANCIAL PARTICIPATION IN THE COST OF A STATEWIDE MECHANIZED CLAIMS PROCESSING SYSTEM

Legal Authority: 42 USC 602(a); 42 USC 603(a)(3); 42 USC 613; PL 96-265, Sec 408

CFR Citation: 45 CFR 205.35; 45 CFR 205.36; 45 CFR 205.37; 45 CFR 205.38

Legal Deadline: None

Abstract: The regulation will make available, at State option, 90 percent matching funds for the planning, design, development, and installation of a statewide claims processing and information retrieval system for the AFDC program. The 90 percent matching includes the purchase or rental of computer equipment and

VOL 51 ISS 76 AP 21 1986 UMI

software used for the operation of this system. The regulation will result in short-run administrative costs, but is expected to result in greater long-run program savings through increased accuracy of processing. The regulation also provides for the disallowance of incentive funds that exceed the normal administrative FFP rate (50 percent) back to the beginning date of development should SSA suspend approval of an approved APD or should a State voluntarily withdraw its approved APD.

561. SUPPLEMENTAL SECURITY INCOME PROGRAM; AGE 18 AND ALIEN DEEMING

Significance: Agency Priority

Legal Authority: 42 USC 1302; 42 USC 1382; 42 USC 1383; 42 USC 1381; 42 USC 1381a; 42 USC 1382; 42 USC 1382a; 42 USC 1382b; 42 USC 1382c(f); 42 USC 1383(d)

CFR Citation: 20 CFR 416, Subpart K

Legal Deadline: None

Abstract: This regulation provides that deeming of parental income and resources to an eligible child ends when a child reaches age 18 and that a sponsor's income and resources are deemed to an alien for a period of three years after admission for aliens who first apply for SSI benefits after September 30, 1980. The regulation eliminates different treatment of children aged 18 to 21 depending on status as students, and assumes that sponsors will support aliens and sets more rigid rules for the sponsor to alien deeming than apply to other deeming categories.

Legal Deadline: None

Abstract: This regulation will affect a number of provisions of the AFDC program. It will result in savings to State and Federal governments and will ease the paperwork burden of the States. The changes may include provisions on restricted payments, hearings, redeterminations, issuances of replacement checks and others that will result in a "least costly" approach to the administration of AFDC. This regulation will result in dollar savings and the relief of administrative burdens that we expect to accrue.

565. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; PROVISION FOR INFERRING A PERSON IS DEAD

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404, Subpart H

Legal Deadline: None

Abstract: The proposed regulations revise SSA policy to provide that absent evidence to the contrary, we will consider a State or local court determination of death as sufficient evidence to presume the death of a missing insured person. If this presumption cannot be made, we will consider a life insurance settlement for the death of the insured person to be persuasive evidence for an inference of death. We will also infer the death of the insured person after a 7-year absence if, following the disappearance, a diligent search failed to locate the insured person and there are no known circumstances to reasonably explain the absence. The proposed changes will result in negligible program or administrative costs or savings.

Legal Authority: PL 98-21, Sec 132; PL 98-21, Sec 301

CFR Citation: 20 CFR 404, Subpart D; 20 CFR 404, Subpart E

Legal Deadline: None

Abstract: This proposed regulation provides that a divorced spouse of a worker who is eligible for old-age benefits can receive wife's or husband's benefits if the divorced spouse is otherwise eligible for them and the parties have been divorced for at least 2 years, even if the worker has not applied for benefits or if the worker's current earnings are too high to permit payment of the worker's old-age benefits. Total program cost is estimated as under $100 million through 1989.

567. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; NEW BENEFIT COMPUTATIONS FOR COST-OF-LIVING ADJUSTMENT, FOR DELAYED RETIREMENT CREDIT, AND FOR ETC

Legal Authority: 42 USC 402(w); 42 USC 403(a),(b); 42 USC 415(i); 42 USC 1382(f)

CFR Citation: 20 CFR 404, Subpart C; 20 CFR 404, Subpart D; 20 CFR 404, Subpart E; 20 CFR 416, Subpart D

Legal Deadline: None

Abstract: This regulation will state that beginning with 1983, the annual cost-of-living adjustment will be effective in December and paid in January rather than being effective in June and paid in July. This revised schedule affects both OASDI and SSI. Additionally, the adjustment will be based on the lower of wages or price increases when the OASDI trust fund ratio of assets to estimated outgo falls below a given percentage. This regulation will also explain that the combined family maximum, where there is entitlement on two workers' records, will be increased only on the basis of cost-of-living adjustments. Finally, this regulation will explain the gradual increases in the delayed retirement credit. Shifting the cost-of-living adjustment will reduce program expenditures by $39.4 billion for 1983-89. The other provisions of this regulation package will have negligible program costs.

568. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; ELIMINATION OF WINDFALL BENEFITS FOR PERSONS RECEIVING PENSIONS FROM NONCOVERED EMPLOYMENT

Significance: Regulatory Program

Legal Authority: PL 98-21, Sec 113

CFR Citation: 20 CFR 404, Subpart C

Legal Deadline: None

Abstract: The provision of section 113 of Pub. L. 98-21 (the Social Security Amendments of 1983) eliminates the windfall that occurs when the heavy weighting in the benefit formula that is intended for workers with low wages goes instead to workers who spent many years in noncovered employment and worked only a few years in covered employment. This will be accomplished by modifying the benefit computation formula to consider a worker's pension from noncovered employment. This provision will decrease program costs by $1 million for 1983-89.

570. SUPPLEMENTAL SECURITY INCOME PROGRAM; RESOURCE LIMITS FOR CONDITIONAL SSI PAYMENTS

Legal Authority: 42 USC 1302; 42 USC 1382b(b); 42 USC 1383(d)

CFR Citation: 20 CFR 416, Subpart L

Legal Deadline: None

Abstract: Current regulations for the Supplemental Security Income program provide that if total excess resources (liquid and nonliquid) do not exceed certain limits, an individual may receive conditional SSI payments while disposing of the excess resources. This regulation will eliminate the limit on total resources and also revise "bona fide effort to sell" policy for disposing of excess resources.

571. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM; INDEXING FOR WIDOW(ER)'S BENEFITS; EFFECT OF REMARRIAGE ON WIDOW(ER)'S ENTITLEMENT; REDUCTION OF DISABLED WIDOW(ER)'S BENEFITS; ETC

Legal Authority: PL 98-21, Sec 131; PL 98-21, Sec 133; PL 98-21, Sec 134; PL 98-21, Sec 334; 42 USC 405; 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404, Subpart C; 20 CFR 404, Subpart D; 20 CFR 404, Subpart E; 20 CFR 404, Subpart G

Legal Deadline: None

Abstract: These final rules will explain: (1) that in many situations remarriage will no longer affect a widow(er)'s entitlement to benefits on the earnings record of a deceased insured worker; (2) that benefit amounts for a widow(er) will be larger because the worker's earnings will be indexed based on the surviving spouse's eligibility rather than on the worker's year of death; (3) that benefits to a widow(er) who becomes entitled before age 60 (based on disability) will no longer be further reduced for months before age 60; (4) that, as an exception to limited retroactivity, a widow(er) age 60 or 61 may choose to have benefits begin effective with the month of death even though he or she did not apply until the next month. Budgetary information is unavailable at this time.

578. OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; PERSONAL APPEARANCE DEMONSTRATION PROJECTS

Significance: Agency Priority

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1383; PL 98-460

CFR Citation: 20 CFR 404; 20 CFR 416

Legal Deadline: None

Abstract: Sec. 8 of Pub. L. 98-460 requires SSA to carry on demonstration projects that provide an opportunity for a personal appearance with the decisionmaker before an unfavorable determination about disability is made. The sample of cases is to include disability cases under title II of the Social Security Act (the Act) as well as disability cases in the Supplemental Security Income program under title XVI of the Act. It is to include people who have applied for benefits but have not received an initial determination about their eligibility and people who have been receiving benefits but whose condition is being reviewed to determine whether they are still disabled or blind. The purpose is to test whether a personal appearance with the decisionmaker at this stage of the decisionmaking process will permit the decisionmaker to better evaluate the person's condition and simplify and expedite the decision process. We plan to issue regulations to implement the demonstration projects. The cost to SSA is not yet determined.

Legal Deadline: None

Abstract: The proposed regulations reflect the provisions of section 8 of PL 98-460 by requiring that we make every reasonable effort to have a qualified psychiatrist or psychologist to complete the medical portion of the case review and any residual functional capacity assessment in unfavorable determinations in mental impairment cases. We are also explaining the qualifications necessary to be considered as reasonable effort to obtain the services of a qualified psychiatrist or psychologist. SSA must now make every reasonable effort to see that the services of qualified psychiatrists and psychologists are obtained through proper State administration including, where necessary, raising State fee schedules to provide compensation at the prevailing rates in the community. SSA may also contract directly for these services when the State is unable to provide them due to inadequate compensation or other impediments at the State level. Costs will increase by $7.2 million in 1986. These figures were derived from the number of additional physician hours needed for State agency medical consultants.

Legal Deadline: None

Abstract: This provision of the law requires us to consider the combined effect of all of a person's impairments in determining disability regardless of whether any single impairment, if considered separately, would be of sufficient severity. If we do find a medically severe combination of impairments, the combined impact of the impairments must be considered throughout the disability determination process. We are revising regulations which explain how we evaluate multiple severe impairments to reflect that we will now consider the combined effect of impairments to determine severity. When the combined effect is found to be severe, that the person's impairments are evaluated under the full sequential evaluation process. Current cost estimates for fiscal years 1985 and 1986 are as follows: Additional title II benefits: less than $5 million per year. Additional SSI benefits: FY 1985-negligible; FY 1986- $1 million.

583. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; UNLIMITED REOPENING FOR INSURED STATUS

Legal Authority: 42 USC 405; 42 USC 1302

CFR Citation: 20 CFR 404

Legal Deadline: None

Abstract: It is our policy that a determination or decision which finds that the claimant did not have insured status at the time of the determination may be reopened only in certain situations where the Act permits a correction in the earnings credited to the individual's earnings record and where the evidence of earnings was in the possession of the Railroad Retirement Board or the Social Security Administration prior to the date of notice of disallowance or denial. The current regulations do not contain specific references to the particular sections of the Act concerning the correction of earnings. The regulations contain specific references to the particular sections of the Act which will permit unlimited reopening and revision of an unfavorable determination or decision concerning insured status.

The changes will result in negligible administrative costs or savings. They have no effect on program costs or savings because the changes represent long standing established policy.

596. OLD AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAMS; EXTENSION AND REEXTENSION AGREEMENTS FOR ASSESSMENT, CREDIT OR REFUND OF AMOUNTS DUE OR OVERPAID BY A STATE

Legal Authority: 42 USC 418(q); 42 USC 418(r)

CFR Citation: 20 CFR 404.1281; 20 CFR 404.1286

Legal Deadline: None

Abstract: In these regulations, we are revising our rules on agreeing to extensions of the periods during which we may assess a State for amounts due and in which a State may file its claim for refund of, or credit for, overpayments under its coverage agreement with the Secretary of Health and Human Services. (Coverage of Services performed by State and local governmental employees is by agreement under Section 218 of the Social Security Act (the Act). We will agree to extend or reextend the time limit for no more than 6 months at a time and, further, will enter into reextension agreements only if certain conditions are met. With these revisions of the rules, we believe we will be more closely complying with the intent of Section 218(q) and (r) of the Act. Costs are expected to be negligible.

CFR Citation: 20 CFR 416.1130

Legal Deadline: None

Abstract: This Final rule implements Jackson to provide that, in determining eligibility for, and amount of, SSI benefits, in Indiana, a claimant will be considered not receiving in-kind support and maintenance in the form of a rental subsidy if the amount of rent that must be paid is equal to or greater than the presumed maximum value derived under the presumed value rule. Program and administrative costs are negligible.

598. ● SUPPLEMENTAL SECURITY INCOME PROGRAM; LIQUID AND NONLIQUID RESOURCES AND RESOURCES DETERMINATIONS

Legal Authority: 42 USC 1302; 42 USC 1382c; 42 USC 1383

CFR Citation: 20 CFR 416.1201; 20 CFR 416.1207, (New)

Legal Deadline: None

Abstract: SSA is amending its regulations to include a 20-day rule for distinguishing between liquid and nonliquid resources, a first-of-the-month rule as it applies to changes in the value of resources within a month, and a rule on when income becomes a resource. These policies were published in an NPRM reorganizing and rewriting the entire Subpart L on Resources. We do not plan at this time to publish the entire NPRM as a final rule. We are publishing final regulations on several significant policies which are being divided into two final regulations packages. We are finalizing these two rules at this time since they are needed for clarification. Costs concerning these clarified rules will be minimal.

599. ● SUPPLEMENTAL SECURITY INCOME PROGRAM; PENSION FUNDS FOR DEEMING PURPOSES AND GRANDFATHERING PROVISIONS

Legal Authority: 42 USC 1302; 42 USC 1382b; 42 USC 1383

CFR Citation: 20 CFR 416.1202; 20 CFR 416.1260

Legal Deadline: None

Abstract: SSA is amending its regulations to include a rule that pension funds are not counted as resources for deeming purposes and a provision in its grandfathering rules that an "SSI benefit" means a Federal benefit only and does not include any State supplement. These rules were published in the Federal Register as an NPRM reorganizing and rewriting the entire Subpart L on Resources. We do not plan at this time to publish the entire NPRM as a final rule. We are publishing several significant policies which are being divided into two final regulations packages. Costs concerning the pension funds rule will be minimal since we estimate less than 25 cases a year.

600. ● OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE AND SUPPLEMENTAL SECURITY INCOME PROGRAMS; CONTINUED PAYMENT OF BENEFITS TO PERSONS IN VOCATIONAL REHABILITATION PROGRAMS

Significance: Regulatory Program

Legal Authority: 42 USC 405; 42 USC 1302; 42 USC 1382

CFR Citation: 20 CFR 404.316; 20 CFR 404.337; 20 CFR 404.352; 20 CFR 404.1586; 20 CFR 404.1596; 20 CFR 404.1597; 20 CFR 416.1321; 20 CFR 416.1336

Legal Deadline: None

Abstract: The purpose of these regulation changes is to allow for consideration for continued payment of disability benefits to persons who medically recover while participating in a vocational rehabilitation (VR) program, without regard to whether the person was expected at the onset of the VR program to medically recover before the scheduled completion date of the program. Current regulations restrict continuing payment to persons who, at the time their VR programs began, were not expected to medically recover prior to the scheduled completion date of their VR programs. These changes bring the regulations into conformity with several recent court decisions.

609. OBLIGATED SERVICE FOR MENTAL HEALTH TRAINEESHIPS

Legal Authority: 42 USC 242a

CFR Citation: 42 CFR 64a

Legal Deadline: None

Abstract: This rule implements statutory service payback obligations of recipients of clinical traineeships in psychology, psychiatry, social work, or nursing. The NPRM would revise 42 CFR 64a to establish a uniform rate of interest for all individuals who receive clinical traineeships, clarify that funds owed to the government become a debt when the trainee fails to complete the obligation, require that training institutions conduct entrance and exit interviews with trainees to inform them of the seriousness of their service obligations, and provide guidelines for hardship deferrals. The option in existing regulations is to continue the potential for 50 different interest rates with disputes ensuing over what the maximum rate is within each jurisdiction. In addition the existing rule permits a 5-year interest-free period which the NPRM would reduce to 2 years. The NPRM will reduce costs to the government by reducing the interest-free period and by avoiding the expense of settling disputes concerning the correct interest rate for payback obligations.

610. CONFIDENTIALITY OF ALCOHOL AND DRUG ABUSE PATIENT RECORDS

Significance: Agency Priority

Legal Authority: 42 USC 290ee-3; 42 USC 290dd-3

CFR Citation: 42 CFR 2

Legal Deadline: None

Abstract: Federal law requires that certain alcohol and drug abuse patient records be kept confidential. A comprehensive rewrite of implementing regulations proposed in the NPRM simplifies and substantially shortens existing rules and proposes major substantive changes including: (1) Limiting applicability to specialized alcohol and drug abuse programs, (2) Requiring notice to patients of Federal confidentiality requirements, (3) Including a sample consent form, (4) Eliminating the impediment to a patient's access to her/his own records, (5) Eliminating most sections restricting disclosures based on patient consent.

Legal Authority: 8 USC 1522(b) Section 412(b)(5) Immigration and Nationality Act; PL 96-212 Refugee Act of 1980; PL 97-363 Refugee Assistance Amendments of 1982

CFR Citation: 42 CFR 51e

Legal Deadline: None

Abstract: Regulations are required by Department policy for this project grant program administered by the Centers for Disease Control (CDC) under an intra-agency agreement with the Office of Refugee Resettlement (ORR). The project grants are awarded to State and local health agencies to assist them in providing initial health assessments to arriving refugees. These health assessments specifically address conditions of public health concerns, like tuberculosis, and also identify personal health problems that could impair the effective resettlement of the refugee. CDC has established the program requirements, guidelines, and standards for evaluation.

612. DISTRIBUTION OF REFERENCE BIOLOGICAL STANDARDS AND BIOLOGICAL PREPARATIONS

Significance: Regulatory Program

Legal Authority: 31 USC 9701 Independent Offices Appropriation Act of 1952; 42 USC 216 Sec 215, 58 Stat. 690, as amended; 42 USC 263 Sec 352 of the Public Health Service Act, as amended

CFR Citation: 42 CFR 7, (New)

Legal Deadline: None

Abstract: This proposal initiates a program that would impose a user charge upon a private agency which requests reference biological standards or biological preparations for their own comparative performance tests to cover the cost to the Centers for Disease Control (CDC) of developing and distributing the products. CDC is proposing to impose an average user charge of $24 per unit distributed. The cost will vary, depending upon the type of preparation requested. CDC is not proposing to impose a user charge for State and local health departments, the World Health Organization, or international governments because these materials are provided to those agencies for public health reasons and not for the benefit of the requesters.

613. IMPROVE STANDARDS FOR RESPIRATOR DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 801

CFR Citation: 30 CFR 11

Legal Deadline: None

Abstract: There are three major problems that the proposed regulatory action is intended to solve. First, the current regulatory provisions in 30 CFR 11 in some instances date back almost fifty years. As a result the provisions are not current with many of the extensive changes in respirator technology. Second, the current regulations do not provide for testing of respirators under either actual or simulated use conditions prior to

VOL 51 ISS 76 AP 21 1986 UMI

HHS—PHS

Proposed Rule Stage

Centers for Disease Control (CDC)

certification. Third, the resources required to conduct routine respirator certification testing has made it difficult for NIOSH to keep respirator performance standards current with advances in respirator technology and with new knowledge on respirator performance characteristics. Alternatives considered: (1) the Federal government could relinquish the field entirely to the private sector. (2) The Federal government could promulgate performance standards but not be involved in assuring compliance with those standards. (3) The Federal government could continue to be the certifier of respirators but have manufacturers conduct testing. (4) The Federal government could continue its present role of total operation of the respirator system. NIOSH (cont)

614. ◉ MEDICAL EXAMINATION OF ALIENS

Significance: Agency Priority

Legal Authority: Sec 215 58 STAT 690; Sec 234 66 STAT 196; 42 USC 216; 8 USC 1224; Sec 322 58 STAT 696; Sec 325 58 STAT 696 to 697; Sec 212 66 STAT 182; Sec 326 66 STAT 182; 42 USC 249; 42 USC 252; 8 USC 1182; 8 USC 1226

CFR Citation: 42 CFR 34(b)(6), (New)

Legal Deadline: None

Abstract: Dangerous contagious diseases, as defined under subsection 34.2(b), includes chancroid, gonorrhea, granuloma inguinale, lymphogranuloma venereum, infectious syphilis, infectious leprosy, and active tuberculosis. The proposed revision would add acquired immunodeficiency syndrome (AIDS) as the eighth disease on this list. It is proposed to add AIDS since it would be anomalous to have diseases such as the other sexually transmitted diseases (STD) on the list and not include AIDS. AIDS is a recently defined STD of significant public health importance.

CFR Citation: 42 CFR 37, (Revision)

Legal Deadline: None

Abstract: The National Institute for Occupational Safety and Health (NIOSH) administers an X-ray examination program for coal miners as mandated by the Federal Mine Safety and Health Act of 1977. The proposed amendment will provide additional specifications to enable X-ray readers in the Department's medical surveillance program for underground coal miners to interpret miners' chest X-rays more accurately to classify any existing or developing pneumoconiosis. The proposed changes are based on recommendations by NIOSH, the Mine Health Research Advisory Committee to NIOSH, and the American College or Radiology Task Force on Pneumoconiosis. The proposed rule will expand the specification for X-ray film size, specify film/screen combinations and speeds which can be used, and specify the method for obtaining a definitive interpretation of chest X-rays when two readers' interpretations do not agree.

616. MEDICAL DEVICE AMENDMENTS: IMPLEMENTATION IMPROVEMENT

Significance: Regulatory Program

Legal Authority: PL 94-295 Medical Device Amendments of 1976

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Various groups have criticized the provisions of the amendments and/or the Agency's implementation of them. Agency task forces were established to analyze and to explore/develop alternatives or solutions respecting premarket notification, premarket approval, clinical investigations, reclassification, current good manufacturing practice, education, definitions, small business impact, and the repair, replacement, or refund provisions of the amendments and the Agency's regulations thereunder. The task forces have preliminarily identified aspects of the criticisms that are amenable to solution by the Federal government, e.g., revision of existing Agency regulations and initiation of legislative changes. Other solutions may be amenable to cooperative efforts between the Federal government and society as a whole—e.g., education of device users; specific alternatives have not yet been identified. Regulatory priorities/options will be established during the development of any rulemaking activity that the Agency may initiate in response to the task forces' findings and recommendations.

617. CLINICAL TESTING FOR NEW DRUGS

Significance: Regulatory Program

Legal Authority: 21 USC 355 Federal Food, Drug, and Cosmetic Act

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The development of a new drug and obtaining an approved marketing application is a major undertaking and may cost the applicant millions of dollars. Accordingly, it is important that applicants understand what clinical testing must be conducted to obtain final approval of a new drug. Despite substantial guidance already available to applicants about the clinical testing necessary to meet the statutory standard, important questions about clinical studies inevitably will arise during the drug development process. The agency is exploring various options of providing additional guidance that would be intended to reduce the time and financial costs associated with clinical studies of questionable import. Alternatives include allowing the private sector to continue to rely primarily on their own expertise; providing guidance on a case-by-case basis, for example, during conferences between the agency and drug sponsors before the final states of clinical testing; and developing additional broad guidance in the form of a general guideline.

618. OVER-THE-COUNTER (OTC) DRUG REVIEW

Significance: Agency Priority

Legal Authority: 21 USC 321(p) Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371(a) Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 310; 21 CFR 330; 21 CFR 333; 21 CFR 334; 21 CFR 336; 21 CFR 336; 21 CFR 337; 21 CFR 338; 21 CFR 339; 21 CFR 340; 21 CFR 341; 21 CFR 342; 21 CFR 343; 21 CFR 344; 21 CFR 345; ...

Legal Deadline: None

Abstract: The OTC drug review establishes conditions under which OTC drugs are considered generally recognized as safe and effective and not misbranded. After a final monograph (i.e., final rule) is issued, only OTC drugs meeting the conditions of the monograph, or having an approved new drug application, may be legally marketed. 619. RISK ASSESSMENT POLICY FOR REGULATING CARCINOGENIC IMPURITIES IN FOOD AND COLOR ADDITIVES

Significance: Regulatory Program

Legal Authority: 21 USC 321 Federal Food, Drug, and Cosmetic Act; 21 USC 348 Federal Food, Drug, and Cosmetic Act; 21 USC 371(a) Federal Food, Drug, and Cosmetic Act; 21 USC 376 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR Chapter 1

Legal Deadline: None

Abstract: This proposed rule would establish a new policy for assessing the safety of food and color additives containing minute levels of carcinogenic impurities. The proposal would clarify the definition of an "additive" to apply the Delaney Clause only when the additive as a whole has been shown to cause cancer, and would use risk assessment procedures as one of the tools for determining the safety of an additive under the general safety clause of section 409 of the Federal Food, Drug, and Cosmetic Act.

621. CURRENT GOOD MANUFACTURING PRACTICE (CGMP) FOR BLOOD AND BLOOD COMPONENTS; RETROSPECTIVE REVIEW

Significance: Regulatory Program

Legal Authority: 21 USC 321 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act; 5 USC 553 Administrative Procedures Act; 5 USC 702 Administrative Procedures Act; 5 USC 703 Administrative Procedures Act; 5 USC 704 Administrative Procedures Act

CFR Citation: 21 CFR 606

Legal Deadline: None

Abstract: FDA is responsible for issuing regulatory standards for blood and blood components to ensure the continued safety, purity, and potency of such products. Since 1975, CGMP regulations have been in effect that provide standards for facilities, personnel, and manufacturing procedures for blood and blood components. In accordance with the Regulatory Flexibility Act, FDA has conducted a retrospective review of its CGMP regulations for blood and blood components, to determine how the regulations may be revised to relieve regulatory burdens and increase flexibility without adversely affecting the public health. Part of the retrospective review of the CGMP will be completed through FDA's implementation of an efficacy review of blood and blood derivatives which responds to recommendations of a Committee of scientific experts—the Panel on Review of Blood and Blood Derivatives. To complete the remainder of the retrospective review program regarding the CGMP, FDA will issue a proposed rule to revise the CGMP regulations.

622. REPORTING REQUIREMENTS FOR MARKETED ANIMAL DRUGS

Significance: Regulatory Program

Legal Authority: 21 USC 360C Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 510.300; 21 CFR 510.301; 21 CFR 514.8

Legal Deadline: None

Abstract: This proposed rule would amend the reporting requirements for marketed animal drugs to clarify the information on dosage and species, and to specify reporting requirements for manufacturers. To permit a more accurate assessment of adverse effects related to dosage and species, and to clarify the responsibility of premix manufacturers in reporting adverse effects from use of medicated feeds.

RIN: 0905-AB06

623. ADVERSE DRUG EXPERIENCE REPORTING REQUIREMENTS FOR MARKETED PRESCRIPTION DRUGS WITHOUT APPROVED NEW DRUG OR ABBREVIATED NEW DRUG APPLICATIONS

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 21 USC 374 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act

CFR Citation: 21 CFR 211; 21 CFR 310; 21 CFR 600

Legal Deadline: None

Abstract: This proposed rule would require manufacturers, packers, and distributors of marketed prescription drug products that are not the subject of approved new drug or abbreviated new drug applications to report to the agency whenever the manufacturer, packer, or distributor receives information about any serious and unexpected adverse event associated with the use of one of its marketed drug products. The agency is taking this action based on recent events whereby serious adverse reactions, which were associated with an intravenous drug product (that was not the subject of an approved new drug or abbreviated new drug application and that is no longer being marketed), were not reported to the agency by the manufacturer, packer, or distributor. Under the agency's current regulations, neither the manufacturer, packer, nor distributor of such a product is expressly obligated to report serious safety problems to the agency. A separate proposed rule for biological products would require reports of adverse experiences associated with the use of licensed biological products.

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Orphan Drug Act is intended to provide incentives for drug companies to invest in the development of drugs for rare diseases or conditions. Certain incentives are necessary because "orphan drugs" are unlikely to be profitable. The agency is required to carry out provisions of the Orphan Drug Act, e.g., by designating a drug as an orphan drug, by providing protocol assistance, and by granting seven years of exclusive approval status. The proposed rule would establish procedures whereby drug sponsors can take advantage of the incentives to encourage development of orphan drugs. While several provisions of the Orphan Drug Act call for promulgation of regulations, the agency is considering the extent to which regulations will be needed to provide the framework and guidance for implementing a program of incentives to drug sponsors and manufacturers.

Proposed Rule Stage

Food and Drug Administration (FDA)

625. IMPLEMENTATION OF TITLE I OF THE "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984" (TITLE I)

Significance: Regulatory Program

Legal Authority: PL 98-417, (Title I)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Until the passage of Title I of the "Drug Price Competition and Patent Term Restoration Act of 1984," abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. This rulemaking is intended to establish clear and uniform procedures for the review and timely approval of ANDAs. This should assist the generic drug industry by ending considerable confusion about the procedures governing review of ANDAs. In turn, with the availability of lower-cost generic products, it is estimated that consumers may save millions of dollars. The statute calls for promulgation of implementing regulations, however, the agency also expects to develop guidelines and other policy statements to assist in developing approvable applications.

RIN: 0905-AB63

626. PATENT TERM RESTORATION OF REGULATED PRODUCTS (TITLE II OF "DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984")

Significance: Regulatory Program

Legal Authority: PL 98-417, (Title II)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Congress passed the "Drug Price Competition and Patent Term Restoration Act of 1984" to compensate research-intensive firms for the loss of patent term due to required testing and government review of premarketing applications for drugs, devices, and food additives. The new legislation imposes an administrative burden on the agency to help determine whether a patent is eligible for extension, to assess the length of premarket testing and review, to determine whether applicants acted with due diligence and to conduct informal hearings. While the statute requires regulations for implementation of the "due diligence" provisions, the agency is considering other alternatives, such as informal guidance or formal guidelines, for implementing other statutory requirements.

636. IND REGULATIONS REVISION

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 353 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 356 Federal Food, Drug, and Cosmetic Act; 21 USC 357 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 42 USC 262 Public Health Service Act

CFR Citation: 21 CFR 312

Legal Deadline: None

Abstract: This proposed rule would revise extensively the IND rules to improve the efficiency of FDA's operations and to update and clarify its internal policies in reviewing and expediting applications for new drugs. These revisions are believed necessary to improve the efficiency of the drug review process. The result would be greater assurance that safe and effective new drugs are approved as promptly as possible. The undertaking reflects FDA's commitment to refine and improve the entire IND/NDA process. The IND/NDA rules were scheduled for retrospective review announced by FDA in its July 2, 1982 notice (47 FR 29004) establishing priorities for reviewing the agency's

VOL 51 ISS 76 AP 21 1986 UMI

existing rules under the Regulatory Flexibility Act and Executive Order 12291. This item was previously listed in the agenda as New Drug Approval Process: Revision of IND/NDA Rules (RIN 0905-AA00).

637. SULFITING AGENTS; LABELING IN DRUGS FOR HUMAN USE

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 201

Legal Deadline: None

Abstract: The agency is assessing various options to determine the most responsible and feasible course to protect sulfite-allergic people, while ensuring that drug products remain stable, effective, and safe. The agency will monitor the drug industry's program of voluntary ingredient disclosure on labeling to determine if susceptible individuals have adequate information to avoid sulfites. For prescription drugs containing sulfites, the agency is considering requiring, through rulemaking, a warning statement to health professionals, about sulfites.

RIN: 0905-AB38

638. LABELING OF DRUG PRODUCTS FOR OVER-THE-COUNTER HUMAN USE (EXCLUSIVITY POLICY)

Significance: Regulatory Program

Legal Authority: 21 USC 321(p) Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 330

Legal Deadline: None

Abstract: The agency's exclusivity policy of limiting over-the-counter (OTC) drug monograph labeling terminology to specific words and phrases has been the subject of comment throughout the OTC drug review process. This proposed rule would modify that exclusivity policy as it relates to indications for use and would prescribe the placement of monograph terminology in the labeling of OTC drug products. The modified exclusivity policy would permit manufacturers to use other truthful and nonmisleading statements relating to indications for use.

Legal Deadline: None

Abstract: Comments received in response to a 1982 proposal affirming that the food uses of certain sulfiting agents were generally recognized as safe (GRAS), the findings and conclusions of the Federation of American Societies for Experimental Biology, and adverse reactions reports (including some reports of deaths), have lead to a reexamination of the GRAS status of sulfiting agents. Sulfiting agents (sulfur dioxide, sodium sulfite, sodium and potassium bisulfites, and sodium and potassium metabisulfites) are chemical preservatives that are extensively used in foods. The agency published a proposed rule to clarify the circumstances under which the presence of sulfiting agents must be declared on the label of packaged foods. The agency is also considering what its options are with regard to the GRAS status of (1) sulfiting agents on fruits and vegetables served or sold raw, (2) sulfiting agents used on potatoes, and (3) other food uses of sulfiting agents.

640. PROPOSED USER CHARGE; NEW DRUG APPLICATIONS, ABBREVIATED NEW DRUG APPLICATIONS, AND ANTIBIOTIC APPLICATIONS REVIEW

Significance: Regulatory Program

Legal Authority: 21 USC 351 Federal Food, Drug, and Cosmetic Act; 21 USC 352 Federal Food, Drug, and Cosmetic Act; 21 USC 353 Federal Food, Drug, and Cosmetic Act; 21 USC 355 Federal Food, Drug, and Cosmetic Act; 21 USC 356 Federal Food, Drug, and Cosmetic Act; 21 USC 357 Federal Food, Drug, and Cosmetic Act; 21 USC 371 Federal Food, Drug, and Cosmetic Act; 31 USC 9701 Independent Offices Appropriation Act

CFR Citation: 21 CFR 314

Legal Deadline: None

Abstract: The proposed rule would initiate a program that would require drug manufacturers (as beneficiaries of special services that the agency provides) to bear the costs that the agency incurs in reviewing and approving new drug and antibiotic applications, abbreviated new drug applications, and certain supplemental applications. The agency would set fees for different types of applications. The benefit accruing to an applicant under the agency's new drug and antibiotic application review and approval activity is that the applicant may lawfully market its new drug or antibiotic upon gaining agency approval. Review by the agency also benefits applicants by helping ensure that they will market only safe and effective drug products. This, in turn, enhances public confidence in applicant's drug products.

Abstract: The Food and Drug Administration is proposing to require that each unit of blood and blood components be tested and found nonreactive by a licensed serologic test for antibody to human T-lymphotropic virus type III (HTLV-III). HTLV-III is believed to be the causative agent of acquired immunodeficiency syndrome (AIDS). If blood tests positive to the test for antibody to HTLV-III, the blood should not be used. Requiring the test

643. ● METHYLENE CHLORIDE

Significance: Regulatory Program

Legal Authority: 21 USC 361 Federal Food, Drug, and Cosmetic Act; 21 USC 362 Federal Food, Drug, and Cosmetic Act; 21 USC 371(a) Federal Food, Drug, and Cosmetic Act

CFR Citation: 21 CFR 700.19

Legal Deadline: None

Abstract: Methylene chloride is used as a flame suppressant in aerosol cosmetic products (hair sprays). Recent carcinogenicity bioassay studies, however, have shown that methylene chloride is an animal carcinogen. These studies indicate that the continued use of methylene chloride, in functional amounts, in such cosmetic products poses a significant risk to the public health, especially in specific segments of the population that are continually exposed to aerosol cosmetics containing methylene chloride. Methylene chloride is also used as a solvent to extract caffeine from green coffee beans. However, all but a very small portion of the methylene chloride is removed during processing in aerosol cosmetic products, but no action is necessary on its use as a decaffeinating agent. Regulatory action must be taken to protect the public health from the high risks presented by this industry to replace methylene chloride but believes that efforts by the cosmetic industry to replace methylene chloride but believes that prohibiting its use in cosmetics is the only approach that will assure that the public health will be fully safeguarded from all such products, both foreign and domestic.

650. ● GENERAL REVIEW AND REVISION OF PUBLIC LAW 93-638 PROGRAM AND CONTRACTING REGULATIONS

Significance: Regulatory Program

Legal Authority: 25 USC 40 et seq

CFR Citation: 41 CFR 3 to 4; 42 CFR 36, Subpart H and I

Legal Deadline: None

Abstract: The Indian Self-Determination Act, Public Law 93-638 Regulations published November 1975 need to be revised and updated in light of 10 years of experience. Some provisions are now obsolete and others may impose unnecessary burden, restrictions, and require clarification. The proposed revision in effect would streamline the contract process, delete obsolete provisions, reduce unnecessary paperwork, strengthen accountability requirements and provide opportunities to strengthen autonomy and provide greater flexibility to Public Law 93-638 contractors.

651. LIMITATION ON FEDERAL PARTICIPATION FOR CAPITAL EXPENDITURES REVIEW PROGRAM UNDER SECTION 1122 OF THE SOCIAL SECURITY ACT

Significance: Regulatory Program

Legal Authority: PL 93-641; PL 97-35; PL 98-559; PL 98-21; 42 USC 1302a-1

CFR Citation: 42 CFR 100; 42 CFR 405; 42 CFR 405.435(a); 42 CFR 405.435(b); 42 CFR 405.1690; 42 CFR 447.350(b)

Legal Deadline: None

Abstract: This NPRM sets forth provisions under which the Secretary may deny Federal payment under Title XVIII (Medicare) and Title XIX (Medicaid), for expenses related to capital expenditures (1) which the Designated Planning Agency (DPA) has found to be inconsistent with established standards, criteria or plans developed under the Public Health Service (PHS) Act; or (2) for which the DPA was not provided notice as required.

This is a new NPRM which replaces a previous NPRM published August 10, 1983 and is being issued to: (1) incorporate statutory changes made since promulgation of the original regulations; (2) incorporate existing policy into regulations; and (3) ensure the efficient and effective implementation of Section 1122 of the Social Security Act without incorporating provisions of Title XV of the PHS Act.

652. PROGRAM GRANTS FOR MIGRANT HEALTH SERVICES

Legal Authority: 42 USC 216; 42 USC 254(b)

CFR Citation: 42 CFR 56

Legal Deadline: None

Abstract: A notice of proposed rulemaking (NPRM) was published in the Federal Register on December 10, 1980 to revise the existing regulations to incorporate provisions of Pub. L. 95-626, the Health Services Amendments of 1978. Because of administrative changes and new policy direction, a new NPRM was developed to place greater emphasis on and to facilitate State participation in this program. The Secretary received significant adverse reaction to the approach and a new NPRM is being prepared to simplify the regulation and incorporate the provisions of Pub. L. 95-626.

Additional Information: SMALL BUSINESSES CONT: This regulation will increase opportunities for States to become grantees under this program. Not every State will choose to implement this approach and it is anticipated that many who do will implement it in co-application with existing grantees. Therefore, it is expected that this regulation will not have a significant impact on a substantial number of small entities as defined by the Regulatory Flexibility Act.

653. PROJECT GRANTS AND LOANS FOR HOME HEALTH SERVICES AND TRAINING

Legal Authority: 42 USC 255; 42 USC 216

CFR Citation: 42 CFR 51e

Legal Deadline: None

Abstract: Title III of the Public Health Service Act was amended by section 6 of the Orphan Drug Act of 1983 (P.L. 97-414). The effect of the amendment authorizes a new program of grants and loans to support home health services. Specifically, it authorizes grants to nonprofit agencies and loans to proprietary agencies to establish and operate home health programs. It also authorizes grants and contracts for training paraprofessionals to provide home health services, with special consideration given to trainees 50 years of age or older. The program is expected to impact in cost savings through better methods of identifying patients at risk and decreasing the length and frequency of hospital stays.

654. PRIMARY CARE BLOCK GRANT PROGRAM

Legal Authority: 42 USC 216; 42 USC 300Y to 300Y11

CFR Citation: 42 CFR 51; 45 CFR 74; 45 CFR 96

Legal Deadline: None

Abstract: Section 1932 of the Public Health Service Act was amended by section 8 of the Orphan Drug Act of 1983 (P.L. 97-414). The effect of the amendment requires the Secretary to promulgate separate regulations for the Primary Care Block Grant taking into consideration the distinctive features of the program such as: the program consists principally of community health centers; the States have the option of assuming responsibility for the program; the States have to make a substantial financial contribution; if a State opts for the block, it agrees to continue to provide a statutory range of services; new centers could only be established in medically underserved areas; and procedural safeguards protecting existing centers.

655. INDIAN HEALTH SERVICE, 42 CFR PART 36 SUBPART I, CONTRACTS UNDER THE INDIAN SELF-DETERMINATION ACT: AMENDMENTS

Legal Authority: 25 USC 450G

CFR Citation: 42 CFR 36, Subpart I

Legal Deadline: None

Abstract: This is a revision to implement a policy to charge interest and penalties on delinquent debts. This is in compliance with Department of the Treasury's guidelines pertaining to debt collection activities and the joint regulations issued on April 17, 1981, by the Attorney General and the Comptroller General and is consistent with the Debt Collection Act of 1982 (P.L. 97-365). This will require a change to the Department's Indian Health Service (IHS) P.L. 93-638 regulations to include a new contract/grant clause.

660. INDIAN ELIGIBILITY

Significance: Regulatory Program

Legal Authority: 25 USC 13 (Snyder Act); 42 USC 2001 to 2004 (Transfer Act)

CFR Citation: 42 CFR 36, Subparts A, B & C

Legal Deadline: None

Abstract: The Indian Health Service (IHS) and the Health Resources and Services Administration (HRSA) have been reviewing potential approaches for strengthening the management and allocation of IHS resources to most effectively serve program beneficiaries. The eligibility criteria for IHS program beneficiaries represent a primary focus of the review, particularly in view of recent trends among service recipients. For example, more people with a claim of Indian descent are using IHS services than ever before even though alternative medical care is available. This situation has arisen from greater awareness of possible eligibility, the availability of improved care, greater acceptance of the program by Indian people, and increased costs of medical care outside of IHS. The various special programs established by Congress to provide health services to the Indian people are a direct outgrowth of treaties and the resulting Federal trust relationship. Thus, any changes in these programs require Federal regulatory action. The NPRM will address such matters as tribal affiliation, residency requirements, and blood quantum.

665. ● HEALTH MAINTENANCE ORGANIZATIONS; EMPLOYER CONTRIBUTIONS TO THE HMO OPTION

Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 300e to 300e-17

CFR Citation: 42 CFR 110.808, (revised)

Legal Deadline: None

Abstract: This notice proposes to amend the Public Health Service rules on health maintenance organizations (HMOs) by removing the requirement that an employer contributing to the cost of the non-HMO alternatives in an employee health benefits plan contribute in a like manner to the HMO alternative. Such a requirement is considered to be unnecessary regulation. The regulation as revised would delete 42 CFR 110.808, except for those provisions which paraphrase statutory language (Title XIII of the PHS Act) that assures that an employer will not have to pay more for employee health benefits as a result of offering the option of enrollment in a federally qualified HMO.

669. ● PROGRAMS FOR THE TRAINING OF PHYSICIAN ASSISTANTS

Significance: Agency Priority

Legal Authority: 42 USC 216; 42 USC 292a(5)

CFR Citation: 42 CFR 57, Subpart I

Legal Deadline: Statutory, October 1, 1986. After consultation with appropriate organizations, the Secretary shall, not later than October 1, 1986, prescribe regulations for programs for the training of physician assistants.

Abstract: This Notice of Proposed Rulemaking would amend existing regulations to incorporate the provisions of the Health Professions Training Assistance Act of 1985 (Pub. L. 99-129).

671. GRANTS FOR NURSE PRACTITIONER TRAINEESHIP PROGRAMS

Legal Authority: 42 USC 216; 42 USC 296m

CFR Citation: 42 CFR 57, Subpart AA

Legal Deadline: None

Abstract: This final regulation governs a grant program to provide traineeships for nurse practitioner training to registered nurses. The rule deletes the requirement that trainees must be residents of health manpower shortage areas and provides instead that applicants from such areas be given special considerations; the rule modifies practice commitment requirements and includes conditions for waiver or suspension of repayments. No funding for future traineeships is anticipated. The rule is needed to administer existing traineeships and to monitor compliance and repayment/waivers.

672. GRANTS FOR RESIDENCY TRAINING IN PREVENTIVE MEDICINE

Legal Authority: 42 USC 295h-1c

CFR Citation: 42 CFR 57, Subpart EE

Legal Deadline: None

Abstract: These regulations would implement provisions of the Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35) which give the Secretary new authority for a grants program which will assist schools of medicine, osteopathy, and public health in the planning and development of new residency programs and the maintenance and improvement of existing residency training programs in preventive medicine. Funds from this program can be used to provide financial assistance to trainees in the residency programs.

673. NATIONAL HEALTH SERVICE CORPS (NHSC); PRIVATE PRACTICE OPTION (PPO) LOANS TO INDIVIDUALS

Legal Authority: 42 USC 254p(c); 42 USC 254n(1)

CFR Citation: 42 CFR 23

Legal Deadline: None

Abstract: The Secretary is authorized to make such arrangements as are deemed necessary for the individual exercising the private practice option for the use of equipment and supplies and for the lease or acquisition of other equipment and supplies. The Secretary is authorized to make loans to NHSC assignees who have completed 2 years of their service obligation or who are just beginning their service obligation. The Secretary is required by statute to publish in regulations the interest rate and repayment terms for these loans.

674. REASONABLE VOLUME OF UNCOMPENSATED SERVICES TO PERSONS UNABLE TO PAY - HILL-BURTON (PUBLIC FACILITIES)

Significance: Regulatory Program

Legal Authority: 42 USC 216; 42 USC 300r; 42 USC 300s; 42 USC 300s-6

CFR Citation: 42 CFR 124

Legal Deadline: None

Abstract: The existing regulations at 42 CFR Part 124 Subpart F establish specific requirements that recipients of Federal assistance under Title VI or Title XVI of the PHS Act made assurances that they will make available in the facility constructed, modernized or converted with that assistance, a reasonable volume of services to persons unable to pay for services. Many public hospitals provide significant amounts of free or low-cost health services to the poor, or are prohibited from charging for services. Currently, these facilities are required to implement administrative procedures that are either unnecessary or anomalous. The proposed changes will alleviate the administrative burden on these facilities.

675. ● HEALTH PROFESSIONS STUDENT LOAN (HPSL) PROGRAM: DEFERMENT REVISIONS

Significance: Agency Priority

Legal Authority: 42 USC 216; 42 USC 294m to 294q

CFR Citation: 42 CFR 57, Subpart C

Legal Deadline: Statutory, January 22, 1986. Within 90 days after the Act's enactment, the Secretary of HHS shall promulgate regulations to carry out Sec. 741(c)(2) of the Public Health Service Act. Although the regulations will not be published until after the legal deadline, no requests for new deferments are expected until after publication.

Abstract: This rule amends existing regulations governing the Health Professions Student Loan (HPSL) Program to include the revised deferment provisions enacted on October 22, 1985, as part of the Health Professions Training Assistance Act of 1985 (Pub. L. 99-129).

694. NATIONAL LIBRARY OF MEDICINE PROGRAMS. REVISION OF GENERAL RULES FOR THE NATIONAL LIBRARY OF MEDICINE AND NATIONAL LIBRARY OF MEDICINE GRANTS

Legal Authority: 42 USC 216; 42 USC 286; 42 USC 286b-2; 42 USC 286b-3; 42 USC 286b-5; 42 USC 286b-6

CFR Citation: 42 CFR 4; 42 CFR 59a; 42 CFR 63; 42 CFR 64

Legal Deadline: None

Abstract: All of the regulations are being substantially clarified and reduced in size by eliminating out of date or otherwise available information. The regulations at 42 CFR Part 4 pertain to the access of facilities and library collections. Those at 42 CFR Part 59a deal with NLM extramural programs. Part 59a is being amended to remove the requirement that photocopies of biomedical material be provided without charge to users. The regulations at 42 CFR Part 63 deal with both NIH and NLM traineeships. Part 63 is proposed to be deleted because NIH no longer has general traineeship authority and the sole remaining NLM program is unfunded. The regulations at 42 CFR Part 64 govern the training grants of NIH and NLM.

CFR Citation: 42 CFR 405.453; 42 CFR 405.1833; 42 CFR 405.1885; 42 CFR 405.1887; 42 CFR 405.1803(b); 42 CFR 405.1811(a); 42 CFR 405.1813; 42 CFR 405.1837(b); 42 CFR 405.1841; 42 CFR 405.1863; 42 CFR 405.1877; 42 CFR 405.1889

Legal Deadline: None

Abstract: This proposal would establish rules to govern and distinguish between the amending of cost reports and the reopening of Medicare intermediary payment determinations and administrative review decisions. This proposal would provide guidance to intermediaries and the Provider Reimbursement Review Board concerning the circumstances under which those actions may be taken.

697. MEDICAID ELIGIBILITY

Legal Authority: PL 97-248, Sec 137(b); PL 98-369, Sec 2373; PL 97-35, Sec 2171; PL 97-35, Sec 2172

CFR Citation: 42 CFR 435; 42 CFR 436

Legal Deadline: None

Abstract: This regulation would implement changes with respect to Medicaid eligibility groups and coverage criteria made by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and the Deficit Reduction Act of 1984 (PL 98-369). Most of these changes affect the provisions of September 30, 1981 regulations concerning Medicaid eligibility for the medically needy, published as a result of the Omnibus Budget Reconciliation Act of 1981. The regulations would also respond to public comments received on the September 30 regulations.

701. CHANGES TO THE LESSER OF COSTS OR CHARGES PROVISIONS

Significance: Regulatory Program

Legal Authority: 42 USC 1395f(b); 42 USC 1395l(a); PL 98-369, Sec 2308; PL 98-369, Sec 2321

CFR Citation: 42 CFR 405.455

Legal Deadline: None

Abstract: This regulation would eliminate application of the lesser of costs or charges aggregation method for determining payment for services furnished under Part A or Part B of Medicare effective with cost reporting periods beginning on or after October 1, 1984 (section 2308(a) of P.L. 98-369). We would eliminate the accumulation and carryover of unreimbursed costs to subsequent cost reporting periods applicable with cost reporting periods beginning on or after the effective date of the final rule. We would revise the nominal charge provisions for providers that furnish services either free of charge or at a nominal charge in accordance with section 2308(b) of P.L. 98-369. We would also revise the payment provisions for durable medical equipment furnished by home health agencies effective on or after July 18, 1984.

RIN: 0938-AB54

704. PHYSICIAN CERTIFICATION AND PLAN OF CARE REQUIREMENTS AND INSPECTION OF CARE REVIEWS

Legal Authority: 42 USC 1302; PL 98-369, Sec 2363 and 2366

CFR Citation: 42 CFR 440; 42 CFR 441; 42 CFR 456

Legal Deadline: None

Abstract: These rules would implement Sections 2363 and 2366 of the Deficit Reduction Act of 1984. The rules would make the requirements for physician certification and development of a plan of care (formerly utilization control requirements) State plan requirements. States would no longer be required to make the quarterly showings of compliance for those requirements or for utilization review. A quarterly demonstration to the Secretary of a satisfactory utilization control program would be limited to inspections of care in participating mental hospitals, skilled nursing facilities and intermediate care facilities, including intermediate care facilities for the mentally retarded.

706. HOSPICE "CORE" SERVICES; NURSING

Legal Authority: PL 98-369, Sec 2343

CFR Citation: 42 CFR 418.80; 42 CFR 418.83

Legal Deadline: None

Abstract: This regulation would implement provisions of PL 98-369 relating to hospices contracting for "core services." PL 97-248, the Tax Equity and Fiscal Responsibility Act of 1982, authorized time limited Medicare Part A coverage for hospice services. The law specifies that a hospice must routinely provide the following "core services" directly: nursing care, medical social services, physician's services, and counseling services. This regulation would permit the Secretary to waive the nursing care "core services" requirement for hospices which are located in rural areas, which were in operation on or before January 1, 1983, and which have demonstrated a good faith effort to hire their own nurses.

709. PAYMENT FOR THE SERVICES OF PHYSICIANS FURNISHED IN TEACHING SETTINGS AND OTHER PROVIDERS

Legal Authority: 42 USC 1395u; 42 USC 1395x; 42 USC 1395xx

CFR Citation: 42 CFR 405.485; 42 CFR 405.486; 42 CFR 405.480; 42 CFR 405.481; 42 CFR 405.482; 42 CFR 405.522; 42 CFR 405.523; 42 CFR 405.524; 42 CFR 405.525; 42 CFR 405.550; 42 CFR 405.551; 42 CFR 405.552; 42 CFR 405.553; 42 CFR 405.554; 42 CFR 405.555; ...

Legal Deadline: None

Abstract: These regulations would implement provisions of P.L. 98-499 and P.L. 98-369. This legislation deals with certain problems that have arisen in the Medicare program with respect to payment for physicians who practice in the teaching setting. Specifically addressed by Congress is the problem of distinguishing between the services a physician furnishes to individual patients as a teaching provider and services furnished to the provider, as well as the method of reimbursement for these services. This proposed rule sets forth the conditions under which physicians in teaching settings would be reimbursed on a reasonable cost basis or, alternatively, on a reasonable charge basis. It also describes the methods used to determine the customary charges for the services of those physicians. This rule would also clarify related issues of physician reimbursement.

710. MEDICARE/MEDICAID REVALUATION OF ASSETS

Significance: Regulatory Program

Legal Authority: PL 99-509, Sec 2314; 42 USC 1395x

CFR Citation: 42 CFR 405.414; 42 CFR 405.415; 42 CFR 447.250; 42 CFR 447.252; 42 CFR 447.272

Legal Deadline: None

Abstract: This regulation would implement section 2314 of Pub.L. 99-509. Section 2314 of P.L. 99-509 imposes new limitations on the valuation of assets acquired as the result of changes in ownership occurring on or after July 18, 1984. These changes would affect hospitals and skilled nursing facilities under the Medicare program and hospitals, skilled nursing facilities, intermediate care facilities, and intermediate care facilities for the mentally retarded under the Medicaid program. These changes are intended to promote economy in the Medicare and Medicaid programs.

715. REVISION OF MEDICAID ELIGIBILITY QUALITY CONTROL (MEQC) PROGRAM REQUIREMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 1396b

CFR Citation: 42 CFR 431.800 to 431.806; 42 CFR 431.810 to 431.822; 42 CFR 431.830 to 431.836; 42 CFR 431.901 to 431.904; 42 CFR 431.861 to 431.864

Legal Deadline: None

Abstract: Under current regulations, States are allowed to rebut their quarterly projected error rate with more recent MEQC data. However, this rebuttal process underestimates the true error rate. Therefore, we are considering a revision of the regulations to eliminate the rebuttal process. Further, amendments that we are proposing would clarify the basic operating MEQC program functions and modify other MEQC program elements. We also plan to revise the criteria under which States may make good faith waiver requests. Waiver requests submitted after final regulations are in place will be reviewed under the new criteria regardless of the error rate period for which the waiver is being requested. Waivers will not be permitted for periods for which waivers were requested under prior waiver criteria.

Legal Deadline: None

Abstract: A proposed rule is being developed which would revise the method for setting limits on Federal matching payments under Medicaid for drugs. Current reimbursement for prescription drugs is limited to the lowest of (1) the estimated acquisition cost plus a reasonable dispensing fee, (2) the usual and customary charge for the prescription, or (3) for certain drugs available from multiple sources, the maximum allowable cost plus a reasonable dispensing fee. The regulations have been reviewed to determine their effects.

719. MEDICARE RECOVERY AGAINST THIRD PARTIES AND MEDICARE SECONDARY PAYOR

Legal Authority: 42 USC 1302; 42 USC 1395y; 42 USC 1395hh

CFR Citation: 42 CFR 405; 42 CFR 411; 42 CFR 489; 42 CFR 489

Legal Deadline: None

Abstract: This proposed rule would revise regulations to reflect recent statutory provisions regarding HCFA's right to bring an action directly against certain third parties or to join or intervene in an action against a third party. It would also place certain requirements on hospitals regarding the identification and billing of potential Medicare secondary payor cases. Additionally, it would include requirements regarding timely refunds to Medicare when collections have been made from another insurer. The proposal would also clarify rules for Medicare payment for services furnished to an end-stage renal disease (ESRD) patient who is also covered under an employer group health plan. And, it would update policies pertaining to Medicare payment for services covered under a workers' compensation law or plan.

725. ● LOWEST CHARGE LEVELS (LCL) FOR MEDICAL SERVICES, SUPPLIES AND EQUIPMENT

Significance: Regulatory Program

Legal Authority: 42 USC 1395u

CFR Citation: 42 CFR 405.511

Legal Deadline: None

Abstract: Medicare Part B payments for medical services, supplies, and equipment that do not generally vary significantly in quality from one supplier to another must be based on a reasonable charge that does not exceed the lowest charge level (LCL) at which the items or services are widely and consistently available in a locality. This notice would identify supplies, services or equipment that do not vary widely in quality and propose that the reasonable charge for these items and services be set at the LCL. At the present time the LCL applies only to wheelchairs and hospital beds and our experience indicates that additional items and services should be included to control Part B payments for such greatly similar items and services.

RIN: 0938-AC18

726. ● SECOND SURGICAL OPINION REQUIREMENT FOR MEDICAID RECIPIENTS

Significance: Regulatory Program

Legal Authority: 42 USC 1396a; 42 USC 1396(a)(4); 42 USC 1396(a)(19); 42 USC 1396(a)(30)

CFR Citation: 42 CFR 431

Legal Deadline: None

Abstract: This proposed rule would impose a Federal requirement that each State's Medicaid plan include a program for requiring second surgical opinions for certain procedures. Medicaid payment for these procedures would be denied if the recipient did not obtain a second opinion and exceptions or waivers of the requirement did not apply. Studies have shown that mandatory second opinion programs applicable to the Medicaid population result in substantial cost savings with no direct effect on the health outcomes of patients. A number of States have already voluntarily adopted such a program, and both cost savings and more efficient program administration would result from broadening it to a Federal requirement.

733. ● COST LIMITS FOR HOSPITAL MEDICARE PART B CLINICAL LABORATORY SERVICES

Significance: Regulatory Program

Legal Authority: 42 USC 1395x

CFR Citation: 42 CFR 405 Subpart D

Legal Deadline: None

Abstract: As a result of Section 2303 of Pub. L. 98-369, hospital laboratories providing tests for the hospital's outpatients are reimbursed on the basis of areawide fee schedules for clinical diagnostic laboratory tests provided to Medicare beneficiaries. Independent laboratories and laboratories in physicians' offices are reimbursed on the same basis. Also, as a result of Section 2303, hospital laboratories are to be reimbursed on a reasonable cost basis beginning July 1987. Current regulations dealing with reasonable costs provide general rules for setting cost limits. This proposed rule would specify cost limits for hospital laboratory services furnished to hospital outpatients and to those inpatients who have exhausted their Part A benefits and are receiving benefits under Part B.

734. ● MEDICAID: ELIGIBILITY DETERMINATIONS BASED ON DISABILITY; MEDICALLY NEEDY INCOME LEVELS FOR INDIVIDUALS

Legal Authority: 42 USC 1396a(a)(10); 42 USC 1396d(a)

CFR Citation: 42 CFR 435.541; 42 CFR 435.911; 42 CFR 435.1007

Legal Deadline: None

Abstract: These proposed regulations would (1) revise the rules for making medicaid eligibility determinations that are based on disability to make them consistent with related policies of the Social Security Administration under the Supplemental Security Income (SSI) program; and (2) clarify the payment level on which States must base the medically needy income level for individuals in order for the State to qualify to receive Federal financial participation in expenditures for medical assistance for these individuals. Because of numerous questions and litigation, it is necessary to clarify our policy on the controlling nature of SSI disability determinations on Medicaid eligibility.

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1395u(b)(3)

CFR Citation: 00 CFR None

Legal Deadline: None

VOL 51 ISS 76 APR 21 1986 UMI

HHS—HCFA

Proposed Rule Stage

Abstract: In this notice, we propose to retroactively recompute the Medicare economic index to account for the Bureau of Labor Statistics' change in the housing component of the Consumer Price Index. That change reflects rental equivalents rather than the cost of home ownership in the housing component. It is considered a more accurate representation of average changes in housing and office space expenses. Since the Medicare economic index is cumulative, we would recompute the index base to its beginnings on July 1973, and apply the computations prospectively. (The index base would include 1971 physician charge data.)

Legal Deadline: None

Abstract: These regulations would implement sections 930(n) and (p) of the Omnibus Reconciliation Act of 1980. The regulations would require home health agencies participating in Medicare to meet conditions, including bonding or establishment of escrow accounts to ensure the financial security of the Medicare program. It would exclude from Medicare reimbursement any costs incurred by an HHA in connection with bonding or establishing an escrow account and any interest payments made by an HHA that are charged on amounts borrowed to repay Medicare overpayments. The intent of these additional requirements is to assure the availability of funds to repay overpayments, and thereby ensure the financial security of the Medicare program.

RIN: 0938-AA38

741. PHYSICIAN CERTIFICATION AND PLAN OF TREATMENT REQUIREMENTS

Legal Authority: PL 96-499, Sec 930(e); 42 USC 1302; 42 USC 1395hh; PL 98-369, Sec 2336

CFR Citation: 42 CFR 405.1633; 42 CFR 409.42; 42 CFR 405.1717

Legal Deadline: None

Abstract: These rules confirm interim final rules published on October 28, 1982 (47 FR 47388) with changes that make it possible for certain additional physicians to certify need for home health services and to establish and review a plan of treatment for those services. The changes are responsive to public comments and also serve to implement section 2336 of Pub. L. 98-369. The rules also make clarifying changes with respect to timing and procedures for certification for home health services and outpatient physical therapy and speech pathology services.

Legal Deadline: None

Abstract: This regulation authorizes the Secretary and State Medicaid agencies to impose an alternative to terminating long-term care facilities found to be out of compliance with the Medicare conditions of participation or the Medicaid conditions of participation or standards in facilities where deficiencies do not pose an immediate jeopardy to patient health and safety. HCFA and the State Medicaid agency may deny payment for new admissions to the facilities.

RIN: 0938-AA60

743. MENTAL RETARDATION—DEFINITION OF "PERSONS WITH RELATED CONDITIONS"

Legal Authority: 42 USC 1302; 42 USC 1396d

CFR Citation: 42 CFR 435.1009

Legal Deadline: None

Abstract: This regulation would amend Medicaid regulations on intermediate care facility services for the mentally retarded persons with related conditions by revising the current definition of "persons with related conditions." This definition is presently tied to the definition of developmental disability in the Developmental Disabilities Assistance and Bill of Rights Act (DDABRA). This regulation establishes a Medicaid definition of conditions related to mental retardation that would meet the specific needs of the Medicaid program and would be independent of the definition of developmental disability in the DDABRA.

751. TREATMENT OF SOCIAL SECURITY COST OF LIVING INCREASES FOR INDIVIDUALS WHO LOSE SSI ELIGIBILITY

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: 42 CFR 435.135; 42 CFR 435.136

Legal Deadline: None

Abstract: This revision to Medicaid rules provides that a State, in determining categorically needy financial eligibility for an individual who would still be eligible for benefits under SSI but for receipt of a section 215(i) cost of living increase after April 1977, must treat that individual as if he or she were still receiving SSI benefits. Section 215(i) cost of living increases are made to persons who receive monthly Social Security cash benefits. (This regulation is being developed pursuant to a court order.)

755. MEDICAID COVERAGE OF QUALIFIED PREGNANT WOMEN AND CHILDREN AND NEWBORN CHILDREN

Legal Authority: PL 99-509, Sec 2361; PL 99-509, Sec 2362

CFR Citation: 42 CFR 435.3; 42 CFR 435.115; 42 CFR 435.116; 42 CFR 435.117; 42 CFR 435.301; 42 CFR 436.2; 42 CFR 436.114; 42 CFR 436.120; 42 CFR 436.122

Legal Deadline: None

Abstract: These regulations would conform the Medicaid regulations to statutory changes made by the Deficit Reduction Act of 1984 by adding two mandatory eligibility groups of individuals: qualified pregnant women and children under age 5 and certain newborn children. States have been advised previously that the statute is self-implementing. Additionally, a manual instruction containing procedures for States to implement these requirements was issued to States. However, these regulations are necessary to conform the Medicaid regulations to statutory changes.

757. DETERMINATION OF REASONABLE CHARGES FOR PHYSICIAN AND OTHER MEDICAL SERVICES

Legal Authority: 42 USC 1395u; PL 98-369, Sec 2306

CFR Citation: 42 CFR 405.501; 42 CFR 405.504; 42 CFR 405.551

Legal Deadline: None

Abstract: Section 2306(b) of the Deficit Reduction Act provided that the customary and prevailing charge levels that are used to determine the Part B reasonable charge of physicians and suppliers are to be updated on October 1 instead of July 1 of each year. In addition, the updates are to be computed on the basis of charges made by physicians and other suppliers for services during the period April 1 to March 31, instead of during the calendar year period preceding the update. This rule would revise Medicare rules regarding updating of the reasonable charge levels. Accordingly, it also announces that the annual economic index that would have been used to determine the amount of any increase to prevailing charges for physicians' services between July 1983 July 1, 1984, is superseded because of provisions in section 2306 of the Deficit Reduction Act, which provided for a freeze on the prevailing charge update for July 1984.

758. LONG TERM CARE SURVEY

Significance: Regulatory Program

Legal Authority: 42 USC 1302; 42 USC 1395hh

CFR Citation: 42 CFR 405; 42 CFR 442

Legal Deadline: None

Abstract: The Court of Appeals for the Tenth Circuit ruled that the Secretary of HHS has a duty to establish an enforcement system which will adequately inform him, on a continuing basis, whether nursing homes receiving Federal Medicaid funds are actually providing high quality medical care. The primary proposal under consideration is nationwide implementation of the Patient Care and Services (PaCS) survey process. The PaCS survey would: provide continuing information on whether nursing homes are providing quality care; and, would be used as an enforcement mechanism to terminate participation of those facilities that do not maintain high quality care. This change would be implemented through the rulemaking process.

762. ● PAYMENT FOR INDIRECT MEDICAL EDUCATION COSTS

Significance: Regulatory Program

Legal Authority: 42 USC 1395ww(d)(5)(B)

CFR Citation: 42 CFR 412.118

Legal Deadline: None

Abstract: Under the Medicare inpatient hospital prospective payment system, hospitals receive an additional payment for the indirect costs of medical education. We have estimated that Medicare operating costs increase at a slower rate as teaching programs grow larger and we believe that Medicare is paying more than is necessary to account for the indirect costs of hospitals with approved graduate medical programs, particularly in those hospitals with a high ratio of interns and residents to beds. We are proposing to revise our application of the indirect medical education adjustment factor from a linear basis to a curvilinear or variable basis. This revision would yield a smaller increase in payments per discharge as the ratio of interns and residents to beds increases.

763. ● FIRE SAFETY STANDARDS FOR ICFS/MR

Significance: Agency Priority

Legal Authority: 42 USC 1396d(c); 42 USC 1396d(d)

CFR Citation: 42 CFR 442.507; 42 CFR 442.508; 42 CFR 442.509

Legal Deadline: None

Abstract: This rule amends the fire safety standards for intermediate care facilities for the mentally retarded. It updates the standards to incorporate the 1985 edition of the Life Safety Code of the National Fire Protection Association rather than the 1981 edition currently required. The incorporation of the new edition is intended to ensure that Medicaid providers and recipients have the benefit of the most current fire safety standards.

Department of Housing and Urban Development

Semiannual Regulatory Agenda

VOL 51 ISS 76 AP 21 1986 UMI

HUD

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Subtitles A and B

[Docket No. N-86-1891]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291, "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued, and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Grady J. Norris, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755-7055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory flexibility agenda of rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permit incorporation of the agenda it requires with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive Order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive Order or by the Act which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency," subject to certain exceptions. The agenda published below concentrates upon regulatory material contained, or expected to be contained, in the "Code of Federal Regulations" (CFR) (or incorporated therein by reference) following publication in the Federal Register. As appropriate, however, issuances in the nature of general statements of policy may be published in the Federal Register but not for codification in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking actions, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Banking, Finance and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days of continuous session of Congress after transmittal of the agenda. If, within such period, either Committee notifies the Secretary that it intends to review any rule or regulation or portion thereof which appears on the agenda, the Secretary must submit to both Committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days of continuous session before it is published for comment. The Semiannual Agenda appearing hereinafter is the agenda transmitted to the Committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publications or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the Part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected Part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following Offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Office of Administration; Government National Mortgage Association; and Office of the Inspector General.

DATED: February 18, 1986.

John J. Knapp,

General Counsel.

Prerule Stage

785. SECONDARY MARKET OPERATIONS OF THE FEDERAL NATIONAL MORTGAGE ASSOCIATION (FNMA) (S-3-81)

Legal Authority: 12 USC 1723a; 42 USC 3536(d)

CFR Citation: 24 CFR 81.41; 24 CFR 81.45

Legal Deadline: None

Abstract: This rule would amend the definition of "FNMA security" at 24 CFR 81.41(b) to delete the exclusionary parenthetical and repeal the provision in 24 CFR 81.45(b) which allows FNMA debentures in book-entry form only.

787. IMPLEMENTATION OF THE INTEREST PROVISIONS OF THE DEBT COLLECTION ACT OF 1982 (S-6-84; FR-2022)

Legal Authority: 42 USC 3535(d); 31 USC 3711; 31 USC 3717

CFR Citation: 24 CFR 17; 24 CFR 200; 24 CFR 201; 24 CFR 203; 24 CFR 207; 24 CFR 202; 24 CFR 220; 24 CFR 232; 24 CFR 241; 24 CFR 250; 24 CFR 255

Legal Deadline: None

Abstract: This rule implements increased charges for late payments made to the government by debtors. Regulatory changes include the imposition of interest at a minimum Annual rate of interest on the outstanding debt which is equal to the average investment rate of the Treasury tax and loan accounts as determined by the Secretary of the Treasury; assessment of penalty charges of up to six percent for payments over 90 days late; and charges for the administrative costs of processing the late payment. The Department must issue a demand letter to the debtor which indicates when the payment is due and the date used to calculate the interest and penalty charges.

788. PROTECTION OF HUMAN SUBJECTS IN RESEARCH (S-6-83; FR-1807)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 46

Legal Deadline: None

Abstract: On response to a Presidential Commission, an Interagency Task Force on the Protection of Human Subjects in Research has proposed that all Federal agencies adopt a common policy and uniform regulations for the protection of human subjects in research. HUD has agreed to adopt the policy and to issue a regulation based on a model previously promulgated by the Department of Health and Human Services on this subject, and as embodied in the planned Executive Order.

Timetable:

Action	Date	FR Cite
NPRM	00/00/00	

Small Entity: No

Additional Information: Compliance costs for HUD's adoption of the model regulation will be minimal, because almost all research conducted by HUD falls within categories exempted from the requirements of the model regulation. The infrequent projects that may not be exempt (perhaps one every two years) have in the past been proposed by organizations already subject to the Department of Health and Human Services regulation, and thus would not have any incremental compliance costs for the organization, other than the actual project requirements.

Costs would be slight.

Affected Sectors: Profit and Non-profit Research Organizations.

Levels of Government Affected: only HUD itself.

The Executive Order will be published for public comment and then promulgated with changes, if any, resulting from the public.

789. PROCEDURE FOR FLOODPLAIN MANAGEMENT AND THE PROTECTION OF WETLANDS. IMPLEMENTATION OF EXECUTIVE ORDERS 11988 AND 11990 (S-7-84; FR-865)

Legal Authority: EO 11988; EO 11900; 42 USC 3535(d)

CFR Citation: 24 CFR 50; 24 CFR 55; 24 CFR 58; 24 CFR 200

Legal Deadline: None

Abstract: This regulation sets forth the policy, procedure and responsibilities of the Department of Housing and Urban Development to implement and enforce Executive Order 11988, Floodplain Management, and Executive Order 11990, the Protection of Wetlands. This regulation replaces a general statement of Departmental policy (44 FR 47623; August 14, 1979) implementing these Executive Orders to specific HUD-assisted projects and through certain review procedures.

790. DEPARTMENTAL POLICIES, RESPONSIBILITIES, AND PROCEDURES FOR PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY (S-4-85; FR-2206)

Legal Authority: 42 USC 4321; PL 95-557

CFR Citation: 24 CFR 50

Legal Deadline: None

Abstract: This rule proposes revisions in the regulations governing HUD's consideration of environmental factors in decision-making under HUD programs other than the Community Development Block Grant, Urban Development Action Grant, Rental Rehabilitation, and Housing Development Grant Programs. The rule is intended to reduce regulatory burdens and procedural details based on experience under the existing regulations; reflect field office reorganization; and implement sec. 535 of the Housing Act of 1949, as amended.

791. SUSPENSION AND DEBARMENT (S-2-79; FR-1676)

Significance: Agency Priority

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 24

Legal Deadline: None

Abstract: Would amend 24 CFR Part 24 to conform with Policy Letter 82-1, "Policy Guidance Concerning Government-wide Debarment, Suspension and Ineligibility" issued by the Office of General Procurement Policy, dated June 24, 1982. Additionally, it would clarify the criteria for imposing administrative sanctions on grantees and program participants other than procurement contractors, as well as to clarify the procedural safeguards afforded participants in suspension and debarment proceedings.

Legal Authority: 42 USC 3535(d)

CFR Citation: 41 CFR 0024

Legal Deadline: None

Abstract: The Department is considering amending its regulations on the role of the Office of Small and Disadvantaged Business Utilization (OSDBU) in the procurement process. The 1978 Amendments to the Small Business Act of 1958 identify responsibilities of the OSDBU to establish goals for the participation by small business concerns and small business concerns controlled by socially and economically disadvantaged individuals in HUD procurement.

Legal Deadline: Judicial, August 1, 1986

Abstract: Would develop regulations (first for Public and Indian Housing, then for other HUD programs) consistent with the Lead-Based Paint Poisoning Prevention Act. Alternatives to address the problem are being developed at this time. The potential cost is estimated to exceed $100 million per year. This action would benefit children susceptible to lead-based paint poisoning and would avoid cost of medical treatment and reduce the occurrence of mental retardation traced to lead-base paint.

794. ENVIRONMENTAL REVIEW PROCEDURES - RENTAL REHABILITATION AND HOUSING DEVELOPMENT GRANT PROGRAM (S-6-84; FR-1965)

Legal Authority: 42 USC 1437o(l); 42 USC 5304(f)

CFR Citation: 24 CFR 58

Legal Deadline: None

Abstract: The final rule provides policies and procedures by which assisted communities and participating states discharge Federal environmental review responsibilities. The final rule also streamlines and reduces the environmental requirements. Such actions include: (1) an expanded listing of block grant activities and projects exempt or categorically excluded from the NEPA requirements; (2) the definitive list of related statutes and authorities that must be observed by grant recipients for the release of block grant funds as required by the HUD legislation; and (3) the further provisions needed to conform with and implement innovative measures of the HUD Amendments of 1981 such as the new state-administered block grant program for small cities and the assumption of the environmental oversight responsibilities by such states; and (4) the (cont)

Legal Deadline: None

Abstract: Sec. 227 of the 1983 Statute permits tenants of rental housing projects for the elderly or handicapped to own common household pets. Owner, managers and housing authorities are prohibited from discriminating against persons in connection with admission to, or continued occupancy of, such housing because of ownership of pets. This rule would implement the statute and establish guidelines under which owners and managers of covered housing (1) may prescribe reasonable rules governing the keeping of common household pets and (2) must consult with tenants when prescribing the rules.
